[1/18/2004 12:20:59 AM] [StopUser] with these enzo...you're looking for the stoch X'over's @ either the 20 or 80 stoch line...may be away from MOBO
[1/18/2004 12:21:46 AM] [enzo] can you put the mobo togher to get better signal
[1/18/2004 12:21:53 AM] [StopUser] as mentioned by OVIE, there are MOBO pcf's...price crossing the upper or lower MOBO
[1/18/2004 12:22:31 AM] [StopUser] I like to keep the pcf's separate
[1/18/2004 12:23:46 AM] [StopUser] I like to catch the price outside the MOBO and then put into a watch list...If stoch crossing @ extremes, you're getting a stronger signal
[1/18/2004 12:23:59 AM] [enzo] user thanks for sharing the pcf i will try
[1/18/2004 12:24:33 AM] [enzo] do you have the mobo pcf ?

@ decrease in vol., for example, in a bullish pullback
[1/18/2004 12:56:54 AM] [StopUser] can u see shared chart?
[1/18/2004 12:57:10 AM] [StopUser] PLUG
[1/18/2004 12:57:18 AM] [enzo] you don't have share
[1/18/2004 12:58:13 AM] [StopUser] it's a SOAP sell
[1/18/2004 12:58:13 AM] [enzo] got it now shared
[1/18/2004 12:58:35 AM] [StopUser] BUT, look where the stock is resting...on top of LR30
[1/18/2004 12:58:52 AM] [StopUser] note that the volume contracted on the pullback
[1/18/2004 12:59:25 AM] [enzo] yeas looking
[1/18/2004 12:59:39 AM] [StopUser] something that is telling is how the RSI in he middle window ahs already found itself over sold
[1/18/2004 1:00:15 AM] [StopUser] the yellow stoch in bottom window is a buy flat...it flipped up yesterday
[1/18/2004 1:00:47 AM] [StopUser] I'd watch for this stock to snapback up
[1/18/2004 1:01:34 AM] [StopUser] if it breaks down through the LR30, could drop to 20 ma
[1/18/2004 1:01:45 AM] [enzo] you want to see more volume before you get in
[1/18/2004 1:01:56 AM] [StopUser] 7.79
[1/18/2004 1:02:33 AM] [StopUser] that would put the icing on the cake
[1/18/2004 1:03:19 AM] [StopUser] a well known swing trader, David Landry (he has a club on TCNet) has a simple pullback swing trade strategy
[1/18/2004 1:03:38 AM] [StopUser] this is a classic 3 day simple pullback
[1/18/2004 1:03:42 AM] [enzo] this is more for short term trade stock run up from 5.50 to 10
[1/18/2004 1:04:42 AM] [StopUser] you can look at this as in wave 2 right now
[1/18/2004 1:05:20 AM] [StopUser] the stock has a strong upward momentum
[1/18/2004 1:05:50 AM] [enzo] is this stock fuel cell
[1/18/2004 1:05:53 AM] [StopUser] pulls back 3 to 7 days and then can pop back up, resuming uptrend
[1/18/2004 1:06:49 AM] [StopUser] Landry's strategy, for this stock for example, would be to put in a buy stop just above yesterday's intraday hi
[1/18/2004 1:07:26 AM] [StopUser] 973, for example
[1/18/2004 1:07:28 AM] [enzo] nice look on 9 days
[1/18/2004 1:07:43 AM] [StopUser] 9.73
[1/18/2004 1:08:14 AM] [StopUser] that way, if it starts back up, you join the ride.
[1/18/2004 1:08:48 AM] [StopUser] ARRS is an example of a 5 day pullback
[1/18/2004 1:09:20 AM] [enzo] user you do this full time

ClubHome

[1/18/2004 1:09:21 AM] [StopUser] Thurs. nite, I put in a buy stop @ 9.72 for ARRS
[1/18/2004 1:10:39 AM] [enzo] can you put up itig
[1/18/2004 1:10:51 AM] [StopUser] I started spending most of my time trading in Nov.
- I have been self-employed for 14 years, and am slowly getting to this fulltime
[1/18/2004 1:11:34 AM] [StopUser] I'm @ the computers 80% of market open
[1/18/2004 1:12:00 AM] [StopUser] itig riding the MOBO
[1/18/2004 1:12:35 AM] [StopUser] looks like an ascending triangle formed over the
last 5 days
[1/18/2004 1:12:51 AM] [enzo] how you know when to get out i have difficult in that
[1/18/2004 1:13:34 AM] [StopUser] that's tuff enzo...depending on what kind of trader
you are
[1/18/2004 1:14:13 AM] [StopUser] for example with itig, you could just put trailing
stops just under each candle as it has followed the MOBO
[1/18/2004 1:14:43 AM] [StopUser] over the weekend, put a stop in @ 9.04
[1/18/2004 1:14:43 AM] [enzo] i try to do more of shrt term but if the stock is strong i
stay in
[1/18/2004 1:15:27 AM] [StopUser] I often use a 2 candle chart and put trailing stops
just under 2 day candle as it moves
[1/18/2004 1:15:38 AM] [StopUser] 2 day chart
[1/18/2004 1:16:10 AM] [enzo] good idea 2 day chart
[1/18/2004 1:16:22 AM] [StopUser] that would put a stop in @ 8.59 for example for
itig
[1/18/2004 1:16:36 AM] [StopUser] ...gives a little more room
[1/18/2004 1:16:49 AM] [Bobtrader] Stop... I am just learning all this. it is alot. would
you share your pcf's to me also. TY
[1/18/2004 1:17:49 AM] [StopUser] Bob...it's after midnight here...getting ready to call
it a nite. I'll make a note to do it this weekend...check TCMail.
[1/18/2004 1:18:05 AM] [enzo] user gone let you go thanks very much gone do the
pcf tommory
[1/18/2004 1:18:25 AM] [StopUser] nite enzo...everyone
[1/18/2004 1:18:42 AM] [enzo] night all
[1/18/2004 1:18:52 AM] [Bobtrader] stop .. really appreciate. TY have gn
[1/18/2004 1:19:07 AM] [StopUser] sure
[1/18/2004 1:19:23 AM] [Bobtrader] GN to all ...go EAGLES
[1/18/2004 6:12:12 AM] [Rookie] .
[1/18/2004 10:12:21 AM] [MarcoPolo] Sun 8:24am ET - Reuters IBM will hire 15,000

[1/18/2004 12:54:50 PM] [lars] Hotto in the last few weeks almost every Bo have had pinched BB, rising Stoch and increased OBV. Do you know of a PCF that would easily find those stock conditions??
[1/18/2004 12:55:26 PM] [RMRtrader] hotto .. could you give me your opinion on WMAR ... another one I have been long all week ...hardly saw a down tick... has a huge short interest ratio og 18.94...almost 19 days to cover for a very thinly traded stock...
[1/18/2004 12:55:29 PM] [hotto] DESC BTBO.. Elec group
[1/18/2004 12:56:25 PM] [hotto] lars.. not yet...

[1/18/2004 1:07:41 PM] [SeattleSteve] Amazing, isn't it Hotto, that after the tremendous run we have had -- there still seems to be plenty of potential opportunity out there
[1/18/2004 1:08:13 PM] [hotto] yes Steve.. has amazed me - daily
[1/18/2004 1:08:58 PM] [SeattleSteve] Fully invested and cautious-to-scared. I agree with you, that seems to be the recipe that produces the most actual profit
[1/18/2004 1:09:55 PM] [hotto] DRRX

[1/18/2004 1:11:29 PM] [rstehno] all I know is that I look at alot of charts and there are many breakouts, it leads to believe there is plenty of upside in selective stocks to be had. I just can't see all of these breakouts breaking down.
[1/18/2004 1:11:47 PM] [hotto] Yesterday was biggest.. and a week ago.. was 2nd..

[1/18/2004 1:13:16 PM] [rstehno] i've been paying attention hotto and evryone would have to admit you do very good, congratulations

[1/18/2004 1:13:39 PM] [SeattleSteve] Hotto, do you see much chance of an interim top in some of these high flying stocks during the day on Tuesday? Or this that the wrong thing to be worrying about?

[1/18/2004 1:14:05 PM] [hotto] ty rstehno..)

[1/18/2004 1:15:23 PM] [rstehno] but I noticed a stock the other day breakout that I have noticed, and that is fcfc, I bought it and think it has potentil , what do you think

[1/18/2004 1:15:47 PM] [lars] Hotto What is the best approach to enter the breakouts from last week like JNPR, Cien etc ??

[1/18/2004 1:16:06 PM] [hotto] Steve.. yes - I do worry about that... Note.. DJIA runs into 4 kinds of obstacles at our Target zone... DT Line... UBB... LR30.. Y2002 Top (March 2002)..

[1/18/2004 1:16:15 PM] [rstehno] you know the bank thing is hot

[1/18/2004 1:16:34 PM] [Howieeee] h..youre doing the sma50 pb's now yes?

[1/18/2004 1:17:11 PM] [HOTTO] ricks231 has joined the club. Please welcome your new member.

[1/18/2004 1:18:00 PM] [hotto] With Earnings Season still more weeks to go... I could see a PT dip from the target zone.. Then.. more attempts.. over a few days.. Or.. the October pattern..

[1/18/2004 1:18:31 PM] [hotto] In any event.. I will be PT if we enter the zone

[1/18/2004 1:19:59 PM] [hotto] brb..

[1/18/2004 1:21:23 PM] [hotto] FCFC looks interesting.. 4 year BO... next area looks in 10 - 12

[1/18/2004 1:22:08 PM] [rstehno] I caught ceph as it finished forming about a year long triangle on 12/30 and that has been pretty sweet, and just had a very strong feeling it would break ou tto the upside but it had a few scary shakeouts, all the big gainers seem to, that is why a good buy point is so important.

[1/18/2004 1:23:14 PM] [CashMan] hotto are you having problems with your website. I was in it then it timed me out and it wont let me back in.

[1/18/2004 1:23:18 PM] [rstehno] now the big question is how long do you hold a big gainer?

[1/18/2004 1:23:30 PM] [hotto] lars. In tech stocks that had sharp gains last trading day... I always look for early PB to last sharp runup takeoff point in the 5min charts.. And.. last Hour Low.. for possible early dip buy point..

[1/18/2004 1:23:54 PM] [SeattleSteve] Lately: as long as possible, rst... Trick is to see when that pattern is changing

[1/18/2004 1:24:04 PM] [hotto] I am always on the alert for DOV s

[1/18/2004 4:55:58 PM] [kennethroyal] If, in this channel, I send myself a Private Message, where do I look to see it? Tks
[1/18/2004 4:58:38 PM] [SCB51] I don't know. If I see you Ill send you home to find yourself
[1/18/2004 5:03:27 PM] [kennethroyal] Tks scb51 - I sent someone in the channel (he was in trouble) a Pvt Message (click on name & send Pvt Message). I then realized that if he replied, I would not know how to find out that he had replied. Maybe his reply would just appear as a pop up - I don't know.
[1/18/2004 5:04:45 PM] [themasrader] kennethroyal...it should appear with the other chat....why are you conversing with yourself?
[1/18/2004 5:08:56 PM] [Jjm] reply would be in chat---maybe he replied in TCMail--check at top of screen for " TCMail" & click on it.
