[2/14/2004 12:10:44 PM] [hotto] DJ-30 chart

[2/14/2004 12:11:36 PM] [hotto] This week we made another break out.

[2/14/2004 12:12:11 PM] [hotto] Another of the backwards things this market has been handing us.. all these months.

[2/14/2004 12:12:47 PM] [hotto] Just when we think... Greenspan speaking.. Market will decline.. Wednesday..

[2/14/2004 12:13:14 PM] [hotto] Greenspan says.. nothing new.. and market rallies +123 points..

[2/14/2004 12:13:48 PM] [hotto] one more close over all the obstacles.. on Big volume this time.

[2/14/2004 12:14:26 PM] [hotto] But.. no follow -through on Thursday... opened down..

[2/14/2004 12:15:39 PM] [hotto] Friday, had a rally attempt early, to challenge the Thursday's HOD, but plenty of news to give an excuse for further selling.

[2/14/2004 12:16:20 PM] [hotto] We came down, and tested First the 4 year DT line.. at 10635.. then.. after 2 hours.. that failed...

[2/14/2004 12:16:57 PM] [hotto] Then we dropped to test the LR30 and the Wed. opening

[2/14/2004 12:17:52 PM] [hotto] There are several chart points about 10600.

[2/14/2004 12:19:03 PM] [hotto] So, I expect the DJIA to bounce around that level some more next week.. maybe below to sma10=sma20 then back over again..

[2/14/2004 12:19:42 PM] [hotto] Friday.. DJIA closed Below that 4 year DT Line again.. on Increasing Volume.

ClubHome

[2/14/2004 12:20:13 PM] [hotto] And Breadth confirmed the decline.. almost 1/2

[2/14/2004 12:20:50 PM] [hotto] That suggests. we have further to go down next week.

[2/14/2004 12:21:50 PM] [hotto] Someone on TV commented that we are entering a 2 week period of a "Catalyst void".. until we come up on next Earnings comment time..

[2/14/2004 12:22:33 PM] [hotto] So.. with Options Expiration next week and "W" numbers down right now..

[2/14/2004 12:23:04 PM] [hotto] I can see an opp for a scary drop over the 2 weeks..

[2/14/2004 12:23:24 PM] [hotto] Maybe not a lot of points.. overall..

[2/14/2004 12:24:15 PM] [hotto] just another visit to Lwr BB.. Which... will have a meeting with SMA50 on Tuesday or Wed.. next week..

[2/14/2004 12:24:45 PM] [hotto] Could all play out.. somewhat as we had discussed before...

[2/14/2004 12:25:16 PM] [hotto] except.. that with all the new money coming into the market.. weekly...

[2/14/2004 12:25:47 PM] [hotto] we don't get such a big correction as I had thought.

[2/14/2004 12:27:22 PM] [hotto] I see that Bottom Up-Trend Channel line.. is now just below SMA50

[2/14/2004 12:27:37 PM] [hotto] .

[2/14/2004 12:28:23 PM] [hotto] One minor problem.

[2/14/2004 12:29:00 PM] [hotto] If DJIA drops to SMA50.. or below.. we will have a Lower Lows configuration.

[2/14/2004 12:29:39 PM] [hotto] But.. we are not there as yet. We can worry about that if it should happen..

[2/14/2004 12:30:31 PM] [hotto] Note that in Late January, DJIA did not get as low as Lwr BB. That surprised me.

[2/14/2004 12:30:39 PM] [hotto] .

[2/14/2004 12:32:03 PM] [hotto] DIA was similar to DJIA. Only the volume dropped off on Thursday and Friday

[2/14/2004 12:32:46 PM] [hotto] SP-500 similar pattern.. volume slowed on Friday.. and

[2/14/2004 12:33:13 PM] [hotto] because of recent chart config.... closed below LR30

[2/14/2004 12:33:43 PM] [hotto] Also.. has mor of a "double-top" look to the chart.

[2/14/2004 12:33:52 PM] [hotto] .

[2/14/2004 12:34:27 PM] [hotto] SPY.. similar.. But volume Increased sharply on Friday..

[2/14/2004 12:34:49 PM] [hotto] Some big Money getting OUT of the market here.

[2/14/2004 12:35:23 PM] [hotto] SPY also has a "double top " look..

ClubHome

[2/14/2004 12:36:34 PM] [hotto] COMPQX.. was unable to get over SMA20 last week.. Note.. how the HOD last 3 days.. near-tagged SMA20 each day..

[2/14/2004 12:36:55 PM] [hotto] Traders using that rally for Shorting. and selling

[2/14/2004 12:37:50 PM] [hotto] Closed below the 2/10 pb Low.. AND.. below sma10

[2/14/2004 12:38:14 PM] [hotto] back into the long candle of 2/6.. last Friday.

[2/14/2004 12:38:38 PM] [hotto] next obstacle on downside is SMA50

[2/14/2004 12:39:10 PM] [hotto] SMA50 = 2032 now

[2/14/2004 12:40:18 PM] [hotto] SPY.. similar.. but Volume Increased Friday. and LOD nearly tagged SMA50

[2/14/2004 12:41:36 PM] [hotto] So, like in the DIA and SPY - selling and shorting into the ETFs.. maybe some money leaving for a time.

[2/14/2004 12:43:22 PM] [hotto] QQQ next week - watch LwrBB=36.00... and ema100 = 35.65

[2/14/2004 12:44:18 PM] [hotto] T2100 down

[2/14/2004 12:44:43 PM] [hotto] T2106 - down now Negative again

[2/14/2004 12:45:17 PM] [hotto] so T2118 turns lower again.

[2/14/2004 12:46:06 PM] [hotto] maybe we resume the IT correction... so far - not many points. just time.. and Breadth

[2/14/2004 12:46:53 PM] [hotto] DJ-20 dropping from SMA20.. closed below Thursday's LOD.

[2/14/2004 12:47:34 PM] [hotto] note.. Transports did not make it up to SMA50 this time.. the 20 held it back..

[2/14/2004 12:48:18 PM] [hotto] AND - now have the first Negative divergence in the Down Theory view.

[2/14/2004 12:49:09 PM] [hotto] DJIA made a new Rally High on Wednesday, without confrimation from the DJ-20

[2/14/2004 12:50:05 PM] [hotto] SOX--X turned down again - closed back below SMA50

[2/14/2004 12:50:51 PM] [hotto] SMH - similar.. and Volume increased sharply on the decline Friday

[2/14/2004 12:51:11 PM] [hotto] Still - closed just over LR30 and sma10

[2/14/2004 12:52:09 PM] [hotto] IWM - Russell 2000 - Turned lower again.. closed below LR30

[2/14/2004 12:52:53 PM] [hotto] That was after the bounce off Lwr BB and SMA50 a week ago.

[2/14/2004 12:53:34 PM] [hotto] and - Wednesday very close to a complete retest of the Jan. Highs

[2/14/2004 12:54:38 PM] [hotto] OBV made a new high on Wed. without price

following through..

[2/14/2004 12:55:33 PM] [hotto] The next BO either up or down will tell us something.. about what just happened.

[2/14/2004 12:56:24 PM] [hotto] If IWM breaks down from here.. this week's action will be classed as Churning.. Shorting into a retest.

[2/14/2004 12:56:38 PM] [hotto] For now - just something to watch.

[2/14/2004 12:57:40 PM] [hotto] We know the theory.. Second year of a Bull Mkt.. money comes out of small stocks.. and moves to big caps.

[2/14/2004 12:58:34 PM] [hotto] With the Mutual Fund Flows still so strong, it looks like there is plenty of money to keep both going.

[2/14/2004 12:59:25 PM] [hotto] Again, we will have more clues - if we get more PB over next 2 weeks.

[2/14/2004 1:00:08 PM] [hotto] The AMG Data numbers this week showed another \$4B came into stock funds.

[2/14/2004 1:01:00 PM] [hotto] 2 minutes brb

[2/14/2004 1:04:27 PM] [hotto] CyberDawg wrote : of course, the talking heads on FOX this morning were advising buy small caps.

[2/14/2004 1:05:49 PM] [hotto] yes - And they may be right. This is a very nervous time. Again - no 10% correction after 10 months of a Huge Bull Mkt leg up. Something I have never seen before.

[2/14/2004 1:06:03 PM] [hotto] croy wrote : Hotto, when I was studing the early phases of a beraish reversal it did show that wise money would flow from hight-tech stocks (NASDAQ) to a temporary safe heaven in big caps DJ-30 ... We can clearly see that ... Now if smart money fear's a reversal can new money coming into the market realy maintain this IT rally ?

[2/14/2004 1:06:31 PM] [hotto] That is it ! The reason I said "nervous".

[2/14/2004 1:07:26 PM] [hotto] We have new "retail money" - coming into Mutual Funds.. and now Traders selling the big ETFs SPY QQQ DIA SMH

[2/14/2004 1:07:58 PM] [hotto] acmetrader wrote : if money is leaving the market, where is it showing up?

[2/14/2004 1:09:24 PM] [hotto] It is not really.."leaving".. just either going to the Short side.. until next Earnings Season Warning period.. in March.. OR.. just parking into Money mkts.. for a couple weeks..

[2/14/2004 1:09:34 PM] [hotto] dagwood wrote : With all the "inflow of funds" that have to be put to work re: money coming in as opposed to money going out, the next wave up could/should be strong....barring of course catastropic market events...Your thoughts on the "Could be - Should be"????? please.

[2/14/2004 1:10:46 PM] [hotto] I agree with that. The last earnings periods have been

ClubHome

much stronger than expected. There is little doubt that the April Earnings will be Good - again..

[2/14/2004 1:11:32 PM] [hotto] So.. once this PB is over.. and we establish the Low.. just ahead of the Earnings season Rally..

[2/14/2004 1:12:09 PM] [hotto] That rally will be very strong.. profitable for trading - I think.

[2/14/2004 1:12:53 PM] [hotto] Again.. finding the low - over next few weeks.. will be "the thing".

[2/14/2004 1:13:21 PM] [hotto] There are plenty of negative news items out there now.

[2/14/2004 1:13:54 PM] [hotto] If the market wants to air them out - could have a very sharp correction here.

[2/14/2004 1:14:19 PM] [hotto] Or.. just go sideways.. until after the April Earnings.

[2/14/2004 1:14:46 PM] [hotto] Then... have a bigger PB in the May June time.

[2/14/2004 1:15:19 PM] [hotto] Again, referring to the 1984 Re-election of Reagan year.

[2/14/2004 1:15:49 PM] [hotto] The big jobs increases did not show up until about June.

[2/14/2004 1:16:23 PM] [hotto] So - that was when Reagan's Poll numbers began to rise steadily... and.. the market with it..

[2/14/2004 1:16:43 PM] [hotto] That rally continued right up to Election day in Nov. 1984.

[2/14/2004 1:17:28 PM] [hotto] I have been re-thinking the Bull mkt strength in October, and again recently.

[2/14/2004 1:18:21 PM] [hotto] The factor that is so dramatically different from anything I have seen in my investing / trading life - is the very low interest rates.

[2/14/2004 1:19:15 PM] [hotto] And - with the continued downward pressure on wages and overall inflation -

[2/14/2004 1:19:45 PM] [hotto] from China - now outsourcing itself.. to Vietnam - and elsewhere..

[2/14/2004 1:20:30 PM] [hotto] I wonder if the market will more fully exploit that relationship..

[2/14/2004 1:21:06 PM] [hotto] ie.. pricing stocks.. "values" much higher off the low interest rates.

[2/14/2004 1:21:34 PM] [hotto] That is how the Nikkai got to 36000 a decade ago

[2/14/2004 1:22:44 PM] [hotto] I will be watching the external events - of course... But...

[2/14/2004 1:23:12 PM] [hotto] If the "W" poll numbers begin to go up again.. maybe

dependent on jobs...

[2/14/2004 1:23:43 PM] [hotto] We may have a rally from June - to November. that we can not really imagine right now.

[2/14/2004 1:24:36 PM] [hotto] Garzarelli was on PBS ' s NBR last night.

[2/14/2004 1:25:11 PM] [hotto] She again referred to the historic "Tax-return Earnings" being recorded now.

[2/14/2004 1:26:18 PM] [hotto] The last 2 appearances she has made - she held back from making an upside market prediction.

[2/14/2004 1:26:40 PM] [hotto] She said she does not want to sound "too wildly bullish"

[2/14/2004 1:27:09 PM] [hotto] One factor to keep in mind.. about the historic low interest rates..

[2/14/2004 1:27:29 PM] [hotto] Think what they did to housing prices in the US.

[2/14/2004 1:27:55 PM] [hotto] Can something similar happen to Stock prices ?

[2/14/2004 1:28:28 PM] [hotto] As traders, none of us can afford to get too far out - either way.

[2/14/2004 1:29:06 PM] [hotto] But - something to keep in mind. Begin to try to come to grips with - in case it happens.

[2/14/2004 1:29:32 PM] [hotto] Right now - I get a little dizzy thinking about really big numbers.

[2/14/2004 1:30:10 PM] [hotto] And - I can't afford to let those "visions of sugar plums" mess up my trading plans.

[2/14/2004 1:30:34 PM] [hotto] So - same old thing - the life of a trader.

[2/14/2004 1:31:18 PM] [hotto] Try to think about most any possibility - and not let it mess up our discipline.

[2/14/2004 1:31:28 PM] [hotto] acmetrader wrote : well there is that dow 30K prediction out ther, is a book even.

[2/14/2004 1:31:41 PM] [hotto] yes - I remember

[2/14/2004 1:31:51 PM] [hotto] DeepTroller wrote : Hotto, you mentioned yesterday, I believe, that there will be "chip"conferences Tues. and Wed. next. Your thoughts on their possible effect on markets?

[2/14/2004 1:32:18 PM] [hotto] That is Intel - and all the companies they parner with.

[2/14/2004 1:33:03 PM] [hotto] I only expect the usual Up on news.. Then "PT on the news gap"

[2/14/2004 1:33:46 PM] [hotto] The way the SOX rolled over Friday on the really good Chip Earnings news lately..

[2/14/2004 1:34:24 PM] [hotto] suggests to me.. they want to correct it here.. Set up a nice Low.. before the April Earnings Season run-up

[2/14/2004 1:37:49 PM] [hotto] Once we were into the 4th or 5th day.. of the ST rally...

[2/14/2004 1:38:32 PM] [hotto] It was a good idea - once again - to get balanced. and be aggressive on PT.. into the quick rallies.

[2/14/2004 1:39:09 PM] [hotto] Now.. we have 2 days down.. off a NH52 in DJIA.. and several other Indexes..

[2/14/2004 1:39:33 PM] [hotto] we have seen this so many times now.. Can it happen again ?....

[2/14/2004 1:40:01 PM] [hotto] Dip for the 3rd day.. then reverse, and begin another ST rally ???

[2/14/2004 1:40:26 PM] [hotto] Tuesday will be day 3. after the last NH52.

[2/14/2004 1:40:38 PM] [hotto] There are some differences now..

[2/14/2004 1:41:02 PM] [hotto] DJ-20 fell badly - way below SMA50.

[2/14/2004 1:41:33 PM] [hotto] and.. could not recover even to sma50 on this last NH52 in DJIA

[2/14/2004 1:42:04 PM] [hotto] SOX is also way below the Jan highs

[2/14/2004 1:42:42 PM] [hotto] DOT--X Internets.. another of last year's leading Indexes..

[2/14/2004 1:42:59 PM] [hotto] did not make a NH52 this week
