[4/29/2004 12:01:37 AM] [DMut] if it bounces on ubb then no need to take profits yet?

[4/29/2004 12:01:59 AM] [Investortrader] I just wanted to point out a time I use a different strategy for taking profits, on an ultra-run of an outer BB

[4/29/2004 12:02:21 AM] [Investortrader] Right DMut, choose a time to take some, as Hotto says take some as you go .. but don't take them all yet

[4/29/2004 12:03:02 AM] [Investortrader] Unless you're daytrading some for scalping of course, but I don't do that so don't speak to those strategies, I leave them to Hotto

[4/29/2004 12:04:52 AM] [streetwalker] IT: do u do H's "inventorying" as u go on a stock such as TBUS? ie, buy 100% sell some, buy back on PB, etc.

[4/29/2004 12:04:57 AM] [Investortrader] Would be interesting to know the price action on 4/14 when it broke back inside the BB's, it gapped lower to open inside of them ... if it then ran up to the highs ... I would have been out on a reversal that broke down thru the opening price

[4/29/2004 12:05:24 AM] [Investortrader] And not waited for the close

[4/29/2004 12:05:56 AM] [Investortrader] I do sometimes streetwalker .. not with daytrades but will sell one day's pop and buy the next days dip when it's in a trading range

[4/29/2004 12:07:12 AM] [streetwalker] tough to do when the trading range is narrow & verticle...maybe just keep buying little bits as u go?

[4/29/2004 12:07:36 AM] [Investortrader] Here if I owned TBUS, I wouldn't want to see it break down below the 4/26 lod of 7.06 .. also would be under the middle BB by a significant amount then

[4/29/2004 12:08:28 AM] [Investortrader] On the big BO run-up streetwalker, buying the BO, did look hard to add much on the way up, it went up so fast

[4/29/2004 12:09:24 AM] [streetwalker] i guess u would adopt the "hang onto ur hat" method

[4/29/2004 12:09:25 AM] [Investortrader] So I don't get to add, wish I had this problem with every stock I bought =D

[4/29/2004 12:10:26 AM] [streetwalker] in the last few days, what indicator would u use to go in & out

[4/29/2004 12:10:44 AM] [Investortrader] This does look like a good low risk area to be buying

[4/29/2004 12:11:10 AM] [Investortrader] I don't like how the OBV made a lower low on this higher swing low though

[4/29/2004 12:11:54 AM] [Investortrader] I probably wouldn't have been in and out last few days

[4/29/2004 12:12:13 AM] [streetwalker] why?

[4/29/2004 12:12:28 AM] [Investortrader] Not the pattern I look for

[4/29/2004 12:13:01 AM] [streetwalker] sorry to monopolize...but which pattern do u prefer?

[4/29/2004 12:13:28 AM] [Investortrader] Switched to SYNC

[4/29/2004 12:13:34 AM] [Investortrader] Look at early April

[4/29/2004 12:13:54 AM] [streetwalker] ok

[4/29/2004 12:14:00 AM] [Investortrader] Consolidating in the upper range of the BO candle, pretty steady lows and highs

[4/29/2004 12:14:38 AM] [Investortrader] Ok, on to EMRG ....

## ClubHome

[4/29/2004 12:14:57 AM] [Investortrader] Oh, the OBV during that early April time, notice it's rising, another comfort

[4/29/2004 12:15:10 AM] [Investortrader] To add at every low

[4/29/2004 12:15:37 AM] [Investortrader] Don't like this pattern

[4/29/2004 12:15:43 AM] [Investortrader] On EMRG

[4/29/2004 12:16:07 AM] [Investortrader] Higer vol down day today than yesterday BO day

[4/29/2004 12:16:09 AM] [Stixman] In your Sync example...it went down from consolidation....does it usually go up??

[4/29/2004 12:16:49 AM] [Investortrader] Yes, with that type of OBV it usually goes up

[4/29/2004 12:17:35 AM] [Investortrader] Not always, but a better much %-age time it does

[4/29/2004 12:18:21 AM] [Investortrader] I wouldn't want to be in EMRG here now becuase of the higher vol today

[4/29/2004 12:18:42 AM] [Investortrader] It did hold support at the middle BB and 50sma

[4/29/2004 12:19:01 AM] [Stixman] todays pullback did not close more than half way down yesterdays white candle....mean anything?

[4/29/2004 12:19:01 AM] [Investortrader] But I don't like the vol, gotta be a better chart out there to trade

[4/29/2004 12:19:23 AM] [Investortrader] It's another positive Stixman .. let's look at the 5's on it

[4/29/2004 12:19:56 AM] [Investortrader] Big news on it today

[4/29/2004 12:20:34 AM] [Investortrader] The 5 minute chart looks good on it, with buying coming in at the end

[4/29/2004 12:21:16 AM] [Investortrader] So it may be ok here still

[4/29/2004 12:21:36 AM] [streetwalker] low vol late, 'tho

[4/29/2004 12:21:39 AM] [Stixman] Was the big news the govt. program??

[4/29/2004 12:21:45 AM] [Investortrader] And not closing more than halfway down the candle as you pointed out is another pos

[4/29/2004 12:22:02 AM] [Investortrader] Yes Stixman

[4/29/2004 12:22:32 AM] [Stixman] didn't seem to help it much.

[4/29/2004 12:23:11 AM] [Investortrader] I would think it needs to get back up pretty quickly here, as it reversed right back down under the early April swing high it had gapped over this morning

[4/29/2004 12:23:20 AM] [Stixman] thx...MTSX if there's time.

[4/29/2004 12:23:41 AM] [Investortrader] Any questions on EMRG?

[4/29/2004 12:24:06 AM] [Investortrader] On to LUV ...

[4/29/2004 12:24:25 AM] [Nitabug] IT, ILOOK AT (doc) SENTIMENT PLAY TO (emrg)

[4/29/2004 12:24:42 AM] [Nitabug] ITsorry for caps

[4/29/2004 12:25:25 AM] [Investortrader] This one is hard to call for me, may need to test the 50sma again

[4/29/2004 12:25:52 AM] [Investortrader] With the lower BB and the 50sma converged, I would use just under that area for my stop

[4/29/2004 12:26:08 AM] [Investortrader] And just over it to buy some if I was interested in it

[4/29/2004 12:26:49 AM] [Investortrader] Though since it's so close you could buy some now amd then add down there if it got there

[4/29/2004 12:27:29 AM] [Investortrader] OBV is positive, but not positive enough to rule out another test of the 50sma here

[4/29/2004 12:27:35 AM] [streetwalker] IT thank for your patience and counsel, plz keep it up; all very helpful. G'nite.

[4/29/2004 12:27:44 AM] [Investortrader] Welcome streetwalker :)

[4/29/2004 12:27:46 AM] [Stixman] Looks like luv went into free-fall in after hours

13.73?

[4/29/2004 12:27:55 AM] [Investortrader] Any questions on LUV?

[4/29/2004 12:28:35 AM] [Investortrader] On lots of shares Stixman or just a few hundred?

[4/29/2004 12:28:57 AM] [Stixman] don't know just saw the number

[4/29/2004 12:29:30 AM] [Investortrader] Well that wouldn't be good if it opened down there and fell ... but sometimes AH numbers can be non-indicative of anything

[4/29/2004 12:29:43 AM] [Stixman] I agree

[4/29/2004 12:29:59 AM] [Investortrader] On to NGPS ...

[4/29/2004 12:31:13 AM] [Investortrader] With no vol before the big BO day on most of the days, only a few nice vol days on the chart ... OBV can't really be used too much .. does look good

[4/29/2004 12:31:33 AM] [Investortrader] Other than that ....

[4/29/2004 12:31:54 AM] [Investortrader] Nice vol BO yesterday with a low vol pb today, inside day

[4/29/2004 12:32:04 AM] [Investortrader] Just resting here

[4/29/2004 12:32:10 AM] [DMut] bt back at UBB

[4/29/2004 12:33:27 AM] [Investortrader] If I were interested, I'd definately have one order in down near the 50sma to see if I could steal a few cheap shares, I always try to do that ...

[4/29/2004 12:34:16 AM] [DMut] that is low for stop now

[4/29/2004 12:34:17 AM] [Investortrader] Though might not get any there

[4/29/2004 12:34:26 AM] [Investortrader] Right DMut, just under there

[4/29/2004 12:34:49 AM] [Investortrader] Maybe a few cents under yesterdays lod since it's right around the same area

[4/29/2004 12:35:12 AM] [Investortrader] When I see two possible stop points real close, I always go a few cents under the lowest one

[4/29/2004 12:35:42 AM] [DMut] OK thanks

[4/29/2004 12:35:50 AM] [Investortrader] Welcome :)

[4/29/2004 12:36:16 AM] [Investortrader] You could also look to buy some near todays lows in case it doesn't test the 50sma

[4/29/2004 12:37:24 AM] [Investortrader] Depends on how it acts if it gets there ... I'd like to see some buying come in before buying it myself once it got down there to avoid a quick fall the to the 50sma right after I bot it

[4/29/2004 12:38:27 AM] [Stixman] Volume pretty thin on this stock ...NGPS

[4/29/2004 12:38:29 AM] [Investortrader] That's one time you could use a 5 minute chart watching it during the day as it falls, waiting for it to base there and then BO

[4/29/2004 12:38:54 AM] [Investortrader] True Stixman ... too thin for me to trade it

[4/29/2004 12:39:48 AM] [Investortrader] Not just becuae I could be half the volume of trading one day (which is scary enough), but also I rely heavily on vol and OBV

[4/29/2004 12:40:12 AM] [Investortrader] On to MTSX ...

[4/29/2004 12:40:39 AM] [Investortrader] This one had even less vol before this activity

[4/29/2004 12:40:48 AM] [Investortrader] Can't even see an OBV line

[4/29/2004 12:40:56 AM] [Investortrader] Until sometime in April

[4/29/2004 12:41:21 AM] [Stixman] It was halted for 3 or 4 days for private placement financing

[4/29/2004 12:41:27 AM] [Investortrader] Halted, news today and it opened down ... this is one time when the news overrides the chart

[4/29/2004 12:41:53 AM] [Investortrader] Thanks Stixman

[4/29/2004 12:42:23 AM] [Investortrader] Realy nothing to say about it, it's right back down to where it was before all the hoopla

[4/29/2004 12:43:11 AM] [Investortrader] IF you like the company and want it for a long term play, nothing wrong with buying it here as it's right back where it started ... you're paying no hype premium

## ClubHome

[4/29/2004 12:43:37 AM] [Stixman] It opened ...went up ^) cents then down \$1.50  
[4/29/2004 12:43:48 AM] [Stixman] 60 cents up  
[4/29/2004 12:44:15 AM] [Investortrader] Other than that I have no interest in trading it, until it has some vol history  
[4/29/2004 12:44:41 AM] [Stixman] thx IT...I value your opinion.  
[4/29/2004 12:44:47 AM] [Investortrader] Welcome Stixman :)  
[4/29/2004 12:45:03 AM] [Investortrader] It could be a homerun, I know almost nothing about it  
[4/29/2004 12:45:32 AM] [Investortrader] But I'd much rather buy it down here than at 11, or 13  
[4/29/2004 12:46:05 AM] [Investortrader] Pretty low risk, just might be dead money if interest fades on it and vol disappears again  
[4/29/2004 12:46:19 AM] [Stixman] I hear ya.....They make revolutionary weapons! Super rapid fire rifles, gernades etc  
[4/29/2004 12:47:03 AM] [Investortrader] Might be one to watch if repubs stay in control this fall .. they usually spend more on defense  
[4/29/2004 12:47:39 AM] [Stixman] GN all:  
[4/29/2004 12:47:52 AM] [Investortrader] Night Stixman :)  
[4/29/2004 12:48:02 AM] [Investortrader] I'm gone too, good trading tomorrow!  
[4/29/2004 12:48:20 AM] [bmweyrauch] GN IT...thanks for the lessons  
[4/29/2004 12:48:20 AM] [nan111] thanks IT  
[4/29/2004 12:48:52 AM] [walt1] thanks IT  
[4/29/2004 12:48:56 AM] [Investortrader] Oops, one more, got a TCMail request for BRKR ...  
[4/29/2004 12:49:01 AM] [Nitabug] Ty, It..gn  
[4/29/2004 12:49:43 AM] [cobralso] TY IT  
[4/29/2004 12:49:47 AM] [Investortrader] This one had lots of low vol days on it also, making OBV somewhat suspect ... I never like that, takes away some of my best tools  
[4/29/2004 12:50:23 AM] [Investortrader] That being said, it looks ok here, BO over the 50sma, a lower vol pb today which closed around the 50sma  
[4/29/2004 12:50:38 AM] [Investortrader] I'd probably use just under the middle BB for a stop here  
[4/29/2004 12:51:06 AM] [Investortrader] But with the whacky vol hard to call, I'd most likely find something else to trade  
[4/29/2004 12:51:19 AM] [Investortrader] Thanks everyone, see you tomorrow :)  
[4/29/2004 6:42:49 AM] [VJnet] .

wallpaper didn't bother to prep the walls first - what a friggen mess

[4/29/2004 8:31:22 AM] [america] we put in 2 new bathrooms and then a new kitchen. yuck. won't do that again. and now i want to move:o:P

[4/29/2004 8:31:56 AM] [america] of course it's several years later.

[4/29/2004 8:31:56 AM] [malealltrash] WE had planned to move but now have decidwed to remain so we are going to do a lot of work in the house

[4/29/2004 8:32:02 AM] [VJnet] did the bathroom thing at the last place...then the kitchen. I agree with you, usa...just move

[4/29/2004 8:32:20 AM] [malealltrash] if u gonna move don't pjut in anything

[4/29/2004 8:32:22 AM] [Harley] if I lived in NJ I would move too

[4/29/2004 8:32:38 AM] [malealltrash] that's New Joisey

[4/29/2004 8:32:40 AM] [VJnet] Weaker than expected GDP.. futues dropping

[4/29/2004 8:32:52 AM] [Zathrus] oh crap - just what I needed

[4/29/2004 8:33:38 AM] [america] harley, i fully agree with you. (i'm not from new joisey). but only one problem, and that is: where to we move to?

[4/29/2004 8:33:48 AM] [VJnet] GDP 4.2% vs 4.1% 4th quarter

[4/29/2004 8:34:09 AM] [malealltrash] North Carolina great state

[4/29/2004 8:34:10 AM] [VJnet] I like Scottsdale or Lake Tahoe...but that's just me

[4/29/2004 8:34:21 AM] [Zathrus] of course if the GDP numbers had been hot, people would've feared interest rates and sold off too!

[4/29/2004 8:34:23 AM] [malealltrash] too expensive in those places

[4/29/2004 8:34:38 AM] [Harley] Amer go south WARM

[4/29/2004 8:35:06 AM] [VJnet] I'm in Chicago male...can't be that more expensive than here

[4/29/2004 8:35:32 AM] [Zathrus] Expensive AND Cold - what more can you ask?

[4/29/2004 8:35:33 AM] [malealltrash] I think Lake Tahoe would be more expensive than Chicago

[4/29/2004 8:36:01 AM] [malealltrash] can get u a new house in Raleigh area 125000.00 3 bed 2

[4/29/2004 8:36:12 AM] [malealltrash] bath

[4/29/2004 8:36:38 AM] [Zathrus] That's true - but both of the baths are in shacks in the back yard - :D

[4/29/2004 8:36:50 AM] [VJnet] depends on where you look in Tahoe. Incline Village...beaucoup bucks...closer to Reno...not as bad.
