[1/22/2004 6:01:53 PM] [Investortrader] Hi everyone :)
[1/22/2004 6:04:31 PM] [Investortrader] First one I would like to cover today is FNSR, I know many in here own it
[1/22/2004 6:05:05 PM] [Investortrader] On 1/16 it gapped up, on big volume, but had a small range that day
[1/22/2004 6:05:27 PM] [Investortrader] That was a signal sellers were meeting the buyers
[1/22/2004 6:05:41 PM] [Investortrader] And a possible pb was in order
[1/22/2004 6:05:52 PM] [kellam] IT can you share your chts please, thx much
[1/22/2004 6:06:07 PM] [Investortrader] Oops, thanks kellam, I forgot
[1/22/2004 6:06:44 PM] [cpratsch] new TC2000 and TCNet versions are out, great stuff.Order the disks
[1/22/2004 6:06:49 PM] [Investortrader] Then on 1/20 it had a bearish engulfing candlestick, wich confirmed a pb would start ... I mentioned this that day, and that I had covered this type of pattern before
[1/22/2004 6:07:18 PM] [Investortrader] A few people pm'ed me that day asking what I would do, and I said sell, and some did

ClubHome

[1/22/2004 6:07:27 PM] [kellam] thx for cht IT:)
[1/22/2004 6:07:32 PM] [Investortrader] I said I would sell, make that clear
[1/22/2004 6:07:43 PM] [Investortrader] Welcome kellam :)
[1/22/2004 6:08:09 PM] [kellam] thx learnig all the time, thx for teaching
[1/22/2004 6:08:11 PM] [Investortrader] Even though it came back pretty good on 1/20, it was a clear signal
[1/22/2004 6:08:29 PM] [Investortrader] Now we've had two more days of pb here
[1/22/2004 6:08:49 PM] [Investortrader] Notice the 50sma and the middle BB have converged now
[1/22/2004 6:09:00 PM] [lavenderangel] I remember ,IT, you said sell it.
[1/22/2004 6:09:01 PM] [Investortrader] And the price came down to test this area, and closed here
[1/22/2004 6:09:19 PM] [Investortrader] Right lavender :)
[1/22/2004 6:09:34 PM] [Investortrader] I picked up a small position in it today at 3.51
[1/22/2004 6:09:48 PM] [Investortrader] Should be in the logs somewhere where I said I bot it
[1/22/2004 6:10:12 PM] [Investortrader] Looks like possible good support here, which you all know is where I like to buy
[1/22/2004 6:10:37 PM] [Investortrader] If I am wrong and the 50sma and middle BB convergence don't hold it, will only be a small loss
[1/22/2004 6:11:20 PM] [Investortrader] If you were watching it on streaming quotes, you would have seen a big buyer at 3.50 .. he knows the charts too
[1/22/2004 6:11:52 PM] [Aktony] Where would you stop out?
[1/22/2004 6:11:53 PM] [Investortrader] I am a little concerned that the volume is still fairly high and it closed down at the lows of the day
[1/22/2004 6:11:57 PM] [lavenderangel] I confess, I sold cuz you said you would. but i bot it back next day when i thought it was turning around.
[1/22/2004 6:12:20 PM] [Stixman] EMRG plz
[1/22/2004 6:12:22 PM] [Investortrader] Selling was ok lavender, buying it back was a bit too soon
[1/22/2004 6:12:23 PM] [GoldenEagle] do any of you use briefing it is a great site for after market reporting?
[1/22/2004 6:12:40 PM] [Investortrader] Aktony, probably a few cents under support will be my stop
[1/22/2004 6:12:53 PM] [Aktony] thanks
[1/22/2004 6:12:54 PM] [GoldenEagle] KLAC guided higher!
[1/22/2004 6:13:07 PM] [Investortrader] Though the 3.25 area also has some chart points for support
[1/22/2004 6:13:43 PM] [Investortrader] It's had a good run with almost no pb till now
[1/22/2004 6:13:53 PM] [Fern] if it does hold, will the lr30 be the next resistance level you would look at
[1/22/2004 6:14:30 PM] [Investortrader] No Fern, I would be looking at the bottom of the gap up day, but LR30 may be there by the time price gets there
[1/22/2004 6:15:13 PM] [Investortrader] That would be around 4, and the close of the bearish engulfing was 4.01
[1/22/2004 6:15:43 PM] [Investortrader] Volume will tell if that will be resistance, or if the highs will be resistance
[1/22/2004 6:16:06 PM] [Investortrader] There is a fair chance it will test the 3.25 area too
[1/22/2004 6:16:38 PM] [lavenderangel] can't we think positively and think the convergence will be the support level?
[1/22/2004 6:16:53 PM] [Fern] at what point would you be looking to add to
[1/22/2004 6:17:04 PM] [Borankin] Which security has a bearish engulfing? I'm always looking to drive down the wrong side of the street.

ClubHome

[1/22/2004 6:17:10 PM] [Investortrader] We have to think logically lavender :) But if I didn't think it had a fair chance of holding I wouldn't have bought

[1/22/2004 6:17:22 PM] [Investortrader] Talking about FNSR now Borankin

[1/22/2004 6:18:09 PM] [Investortrader] So I took a stab at it today

[1/22/2004 6:18:11 PM] [Voyager3K] FNSR volume is interesting: 500K @ 3.55, 900K 3.54, 2m@3.53, 1.2m@3.52, 600K@3.51, 240k@3.50

[1/22/2004 6:18:54 PM] [Investortrader] Lots of volume there Voyager, without much price movement, looks like they are going to try to defend 3.50 area

[1/22/2004 6:19:07 PM] [Voyager3K] :)

[1/22/2004 6:19:36 PM] [kellam] IT comments on CAMP

[1/22/2004 6:20:16 PM] [Investortrader] Any questions on FNSR?

[1/22/2004 6:20:22 PM] [gary12] hotto must be buying:D

[1/22/2004 6:20:42 PM] [Investortrader] I think he did add some today, but would have to check logs to make sure

[1/22/2004 6:20:46 PM] [Fern] at what point would yu consider it safe to add to

[1/22/2004 6:20:49 PM] [lavenderangel] I take your point, IT, i should have known you wouldn't have bot if you didn't think it had support there. it's what you teach.

[1/22/2004 6:21:19 PM] [mace] Long at 3.50 FNSR your outlook

[1/22/2004 6:21:26 PM] [Investortrader] Now is fairly safe, if it gets down to 3.25 area that would be fairly safe, if it reverses up and breaks todays hod that would be safe

[1/22/2004 6:22:05 PM] [Fern] no, my question is that you tok small position, when do you consider it safe to add to

[1/22/2004 6:22:08 PM] [Investortrader] lavender, notice I waited for the support, since it had a good run, and then gave a pb signal, I figured it would come down to around here

[1/22/2004 6:22:16 PM] [Investortrader] Ahh, ok Fern

[1/22/2004 6:22:36 PM] [lavenderangel] a lesson i will try to abide by next time!

[1/22/2004 6:22:45 PM] [Investortrader] I will add if it reverses and breaks todays hod, that will show the bulls are back in control

[1/22/2004 6:23:07 PM] [Fern] thanks

[1/22/2004 6:24:02 PM] [dwells129] IT, i have the perfect system for the rest of you. you buy what i am selling and sell short whatever i am buying. i have had the worst run, have been losing monet steady since October. was up 250% at one time, now back to no gains. Sold AAI because of of earnings release today and it gapped up. Of course i sold at a loss. :(

[1/22/2004 6:24:50 PM] [Investortrader] dwells, it will get better! Remember you didn't know how the earnings would be, I try to never hold thru earnings

[1/22/2004 6:25:53 PM] [Investortrader] I'd rather take a small loss selling before earnings than risk holding thru earnings, especially at this time as we see companies reporting both good and bad earnings, sometimes it's safer when most all companies are reporting good earnings, but not now

[1/22/2004 6:26:08 PM] [Stixman] dwells... we all have times like you are having now. Every book I have ever read says if you are in a bad string , stop for awhile or at least "trade small" reduce your share sizes til things go better.

[1/22/2004 6:26:20 PM] [Investortrader] Good point Stixman

[1/22/2004 6:26:48 PM] [Investortrader] When I have a bad run, I go to all cash, and take a vacation, go camping somewhere, even if it's

just for the weekend for you folks working real jobs

[1/22/2004 6:27:23 PM] [Fern] is this your full time career?

[1/22/2004 6:27:38 PM] [Investortrader] Trading has been my only source of income since 1985 :)

[1/22/2004 6:28:40 PM] [Investortrader] Everyone will have a bad run once in awhile, don't let it get you down, take a break when it happens

[1/22/2004 6:29:28 PM] [Fern] ty for sharing your knowledge, i want to be full time by 2006, lot's to learn

[1/22/2004 6:29:30 PM] [tickpick] dwells129, your not alone...as I believe others as well...including myself...

[1/22/2004 6:29:47 PM] [Investortrader] I take lots of small breaks and at least one big break, month long, every year

[1/22/2004 6:29:58 PM] [Investortrader] Or try to lol

[1/22/2004 6:30:46 PM] [SmartTrader] Since dwells brought up AAI - If you have time can you plz. look @ AMR (another airline stock) Tnks.

[1/22/2004 6:30:47 PM] [Investortrader] Anymore on FNSR before I move on to CAMP?

[1/22/2004 6:31:29 PM] [micky] it is so hard for us workhollics t otake a break but we have to learn to some way

[1/22/2004 6:32:13 PM] [Investortrader] True micky, but the rewards are worth it, come back fresh .. even if it's just a weekend trip, camping, visit some friends, go to a resort

[1/22/2004 6:32:29 PM] [dwells129] bot fnsr yesterday.

[1/22/2004 6:32:46 PM] [micky] investor yo uare so right

[1/22/2004 6:32:47 PM] [Harley] fnsr yes

[1/22/2004 6:34:20 PM] [Investortrader] I was watching FNSR since the sell signal and waiting, I may be wrong about getting in today, will find out pretty quick tomorrow if I am :o

[1/22/2004 6:35:17 PM] [Investortrader] But one of the keys to my trading style is, buy good support, so if it breaks it's only a small loss ... those who have been watching me trade for a few months now, will notice I have never taken a big loss ... but had no surprise gap downs either

[1/22/2004 6:35:31 PM] [dwells129] what was sell signal?

[1/22/2004 6:35:59 PM] [Investortrader] Sell signal was on 1/16 and confirmed next trading day 1/20

[1/22/2004 6:36:15 PM] [Investortrader] Scroll up :)

[1/22/2004 6:36:22 PM] [mace] so is your stop 3.40 on FNSR

[1/22/2004 6:36:48 PM] [dwells129] the large volume?

[1/22/2004 6:36:57 PM] [Investortrader] I'll need to wait to see tomorrow and volume and order flow to decide exactly where mace

[1/22/2004 6:37:06 PM] [lars] IT what do you call Good Support. ??

[1/22/2004 6:37:38 PM] [dwells129] i see it now, gap up abd volume.

[1/22/2004 6:37:47 PM] [dwells129] and

[1/22/2004 6:37:54 PM] [mace] many times MMs push below support to get stops on stock this price we talkinh .05?

[1/22/2004 6:37:56 PM] [Investortrader] lars, there are many things that can be good support, on FNSR see shared chart, 50sma and middle BB could do it

[1/22/2004 6:38:28 PM] [Investortrader] With big buyers at 3.50 area, MM's will have to really push if they are trying to do that on this one

[1/22/2004 6:38:51 PM] [dwells129] i thought the lr30 would hold it but was wrong.

ClubHome

[1/22/2004 6:39:02 PM] [Investortrader] I don't think they will push thru 100,000's of shares short just to pick up a few shares off a stop
[1/22/2004 6:39:44 PM] [Investortrader] dwells, the reason I didn't buy the LR30 was, look at the run it's had, with not much pb till now
[1/22/2004 6:40:00 PM] [Investortrader] Plus this 3.50 area also has chart points
[1/22/2004 6:40:19 PM] [Investortrader] 1/5 stalled around here
[1/22/2004 6:40:43 PM] [dwells129] you said you will know right away tomorrow, how?
[1/22/2004 6:40:45 PM] [Investortrader] Then when it did a minor pb on 1/12, 13, and 14, this area held it
[1/22/2004 6:41:05 PM] [Investortrader] If I see volume and it breaks support, I will know
[1/22/2004 6:41:10 PM] [Investortrader] I was wrong
[1/22/2004 6:41:45 PM] [Investortrader] If I see it turn up, I will have a good chance I was right, if it breaks today's hod a very good chance I was right and will add
[1/22/2004 6:41:52 PM] [dwells129] can it temporarily break the 50 without concern?
[1/22/2004 6:41:56 PM] [mace] so if low vol tomorrow and not much movement what would that say
[1/22/2004 6:42:15 PM] [Investortrader] If it breaks support on low volume, I will be in a dilemma!
[1/22/2004 6:42:29 PM] [Investortrader] Part of trading
[1/22/2004 6:42:45 PM] [Investortrader] Low vol and not much movement will tell me the selling is drying up
[1/22/2004 6:43:20 PM] [mace] even if it break below 50 and 20 ma?
[1/22/2004 6:43:22 PM] [Investortrader] Then the bulls can take over again in that case
[1/22/2004 6:43:44 PM] [Investortrader] As long as it doesn't break too much, lots of buyers were here today at this area
[1/22/2004 6:44:08 PM] [Investortrader] Let's look at the 5's for a minute
[1/22/2004 6:44:12 PM] [mace] me right big time
[1/22/2004 6:44:34 PM] [Investortrader] It spent a lot of time today in this area
[1/22/2004 6:44:46 PM] [dwells129] does it need to close over today's HOD?
[1/22/2004 6:44:49 PM] [Investortrader] And lots of shares changed hands
[1/22/2004 6:44:57 PM] [lavenderangel] why do you use the 5 min time frame instead of the 10 or 15 ?
[1/22/2004 6:44:58 PM] [Investortrader] It does for me to add dwells
[1/22/2004 6:45:23 PM] [lavenderangel] you won't add more shares then but you'll hold what you have
[1/22/2004 6:45:41 PM] [Investortrader] The 5's shows me all of today, which is what I am looking at ... the 10 or 15 will also show yesterday, if I want to look at yesterday I will look at the 10
[1/22/2004 6:45:52 PM] [Investortrader] If it breaks today's hod, I will add
[1/22/2004 6:46:06 PM] [lavenderangel] ty
[1/22/2004 6:46:08 PM] [Investortrader] That would be the all clear signal for me
[1/22/2004 6:47:05 PM] [Investortrader] Looks like the downward momentum was definitely slowed today, as it spent so much time in this area
[1/22/2004 6:47:22 PM] [Investortrader] I didn't buy it the minute it dropped down to this area either, I watched it for a bit to see if it would hold first
[1/22/2004 6:47:35 PM] [mace] 3.75 hi would be a big move
[1/22/2004 6:48:13 PM] [Investortrader] Doesn't need to do it tomorrow mace, if it holds support, and doesn't break today's hod till next week, I will still add then

[1/22/2004 6:48:46 PM] [mace] okay I have 5000 shrs so I hope it holds my SL is 3.4
[1/22/2004 6:49:07 PM] [dwells129] good info for me, i just try to learn something each night.
[1/22/2004 6:49:13 PM] [mace] thats usually a negative isnt it
[1/22/2004 6:49:13 PM] [Investortrader] We're over here rensop :)
[1/22/2004 6:49:47 PM] [rensop] OK
[1/22/2004 6:49:55 PM] [rensop] Sorry
[1/22/2004 6:50:20 PM] [Investortrader] It means there is a chance it won't hold, but since it spent so much time here today, there was what I call a battle at this price
[1/22/2004 6:50:34 PM] [lavenderangel] stubborn buyers!
[1/22/2004 6:51:15 PM] [Investortrader] The whole key to my style is, low risk!
[1/22/2004 6:52:26 PM] [dwells129] i could use some low risk, how about a couple you like.
[1/22/2004 6:52:33 PM] [Investortrader] And cutting losses quickly if I am wrong
[1/22/2004 6:53:15 PM] [rensop] what do you call cutting quickly. Where do y ou set stops percenytage wise
[1/22/2004 6:53:29 PM] [rensop] percentage
[1/22/2004 6:53:45 PM] [da2rth] FNSR...on weekly, this week's candle seems to indicate the end of 'B' wave correction. how much weight do you put on weekly?
[1/22/2004 6:53:48 PM] [Investortrader] I don't use %-ages, per se, I use chart points and support
[1/22/2004 6:54:07 PM] [rensop] ty
[1/22/2004 6:54:43 PM] [Investortrader] If this breaks by much more than a nickle, I'll either be out, or be in that dilemma if it's on real low vol
[1/22/2004 6:55:05 PM] [Investortrader] nickle since it's a low price stock, I use more than that on higher priced ones
[1/22/2004 6:55:19 PM] [Investortrader] Let's look at the weekly on it
[1/22/2004 6:55:31 PM] [Investortrader] Let me put in my cd lol
[1/22/2004 6:56:01 PM] [Investortrader] I don't look at weekly much as I'm a short term swing trader
[1/22/2004 6:56:23 PM] [rensop] The reason I asked as I have only been trading since the first of the year and have only made 300 bucks. I seem to miss a lot on getting stopped out Of course tha is better than losing
[1/22/2004 6:56:33 PM] [Investortrader] Sometimes I'm out overnight, or in a few days, so weekly doesn't affect me too much
[1/22/2004 6:57:03 PM] [Investortrader] rensop, if you buy it right, then getting stopped out will usually mean you saved money
[1/22/2004 6:57:17 PM] [da2rth] i guess it would depend on how long you want to hold a position. long term...weeks/months, it looks bearish.
[1/22/2004 6:57:39 PM] [dwells129] IT, did you mention a few days ago you sometimes put trailing stop on 2 day candle LOD?
[1/22/2004 6:57:47 PM] [Investortrader] Looking at the weekly, last weeks low is right at 3.25, notice I said there was also support there
[1/22/2004 6:57:55 PM] [Investortrader] No, that wasn't me dwells
[1/22/2004 6:58:34 PM] [Investortrader] I never use trailing stops, not the kind that most brokers offer where it moves up to stay a certain %-age away
[1/22/2004 7:00:14 PM] [Investortrader] Weekly, depends on how it ends this week ... again we'll know more tomorrow
[1/22/2004 7:01:02 PM] [Investortrader] If you were a longer term holder on this, might want to use under the 3.25 low of last week for your stop

[1/22/2004 7:01:29 PM] [dwells129] targets on FNSR?
[1/22/2004 7:01:29 PM] [Fern] several buy flats on fnsr, should go up at least for the day
[1/22/2004 7:01:43 PM] [Investortrader] That's always good news Fern!
[1/22/2004 7:01:46 PM] [lavenderangel] rensop be sure you dont' have your stops too tight. check how much a stock moves in a day.
[1/22/2004 7:02:45 PM] [Investortrader] I'm using 4 as a first target, that would be where it would get turned back if the upmove is false I think
[1/22/2004 7:02:46 PM] [rensop] I must be Lavender angel I' trying to work onthat ty
[1/22/2004 7:03:18 PM] [Investortrader] If I do get stopped out tomorrow, I would expect it to test the 3.25 area, where I will be buying it back
[1/22/2004 7:03:35 PM] [Investortrader] And buying it bigger than I did today
[1/22/2004 7:03:38 PM] [dwells129] sell all at first target or sell half?
[1/22/2004 7:04:02 PM] [Investortrader] Depends on the volume and order flow I see, I may not sell any
[1/22/2004 7:04:22 PM] [dwells129] "order flow"?
[1/22/2004 7:04:25 PM] [Investortrader] That's just a logical place it would stop, if the upturn is a false one and it's going to head back down
[1/22/2004 7:04:42 PM] [Investortrader] I'm an old fashioned tape reader :)
[1/22/2004 7:05:11 PM] [Investortrader] I'm usually watching level I and level II quotes, as opposed to watching TCNet charts during the day

[1/22/2004 7:06:17 PM] [dwells129] access at home, not at work
[1/22/2004 7:06:25 PM] [lavenderangel] I'M NOT old fashioned but i watch level II quotes to see what's happening too
[1/22/2004 7:07:06 PM] [lavenderangel] dwell do you have acomputer at work? can you bring up etrade or ameritrade and their streamer
[1/22/2004 7:07:23 PM] [lavenderangel] you don't need tcnet to watch
[1/22/2004 7:07:48 PM] [dwells129] no, im afraid to pull up anything streaming, i supposed to be working.
[1/22/2004 7:07:56 PM] [Investortrader] I watch to see if the buying is coming in on teh bid or on the ask
[1/22/2004 7:08:03 PM] [Investortrader] The trading I mean, not the buying
[1/22/2004 7:08:12 PM] [lavenderangel] ok
[1/22/2004 7:08:26 PM] [Investortrader] Ok, on to CAMP
[1/22/2004 7:09:26 PM] [cpratsch] There are some phantastic sorting features for RT trading in the new TCNet
[1/22/2004 7:09:44 PM] [mace] SNMA after camp IT please
[1/22/2004 7:09:52 PM] [da2rth] fwiw...\$3.50 is the 61.8% fib retracement line from the jan high....for FNSR.
[1/22/2004 7:10:59 PM] [Investortrader] Got a request for CIEN so will do SNMA after that one

[1/22/2004 7:13:12 PM] [mace] IT sorry SANM after CAMP
[1/22/2004 7:14:11 PM] [dwells129] it should have been a softer PB?
[1/22/2004 7:14:24 PM] [Investortrader] It also has a bearish engulfing today
[1/22/2004 7:14:27 PM] [dwells129] CAMP
[1/22/2004 7:14:49 PM] [Investortrader] And yesterday's candle is bearish too
[1/22/2004 7:15:17 PM] [Investortrader] Sitting just above the middle BB, not so sure that will hold it though
[1/22/2004 7:15:31 PM] [dwells129] would 13.70 be support though?
[1/22/2004 7:16:15 PM] [Investortrader] The 1/15 low is 13.60
[1/22/2004 7:16:26 PM] [Investortrader] That's over a buck away
[1/22/2004 7:17:29 PM] [Investortrader] It is on lower volume, this pb
[1/22/2004 7:17:32 PM] [da2rth] CAMP...\$14.39 is 20ma
[1/22/2004 7:17:46 PM] [dwells129] Camp seems to have a pattern of flat, hit 50MA, jump, then repeat.
[1/22/2004 7:18:04 PM] [Investortrader] The 50sma is way down there though
[1/22/2004 7:18:24 PM] [Investortrader] I'm getting mixed signals on it
[1/22/2004 7:18:41 PM] [dwells129] so support too far away for risk?
[1/22/2004 7:19:02 PM] [Investortrader] I'm not interested in buying it here
[1/22/2004 7:19:49 PM] [Investortrader] Candles say lower, but low vol and it is right near the middle BB, too ambiguous for me
[1/22/2004 7:20:25 PM] [Investortrader] If I held it I would have sold it today
[1/22/2004 7:20:51 PM] [Investortrader] When it gapped up, then broke yesterdays lod
[1/22/2004 7:21:08 PM] [dwells129] 5's don't look any better
[1/22/2004 7:21:45 PM] [Investortrader] Right, they don't, notice the difference between the 5's on CAMP and on FNSR
[1/22/2004 7:22:05 PM] [Investortrader] This one never could find any support
[1/22/2004 7:22:06 PM] [dwells129] yes
[1/22/2004 7:22:29 PM] [da2rth] CAMP...when it gapped up in oct, 20ma seemed to act as nice support
[1/22/2004 7:23:06 PM] [Investortrader] Also held it in Nov too after the big move
[1/22/2004 7:23:15 PM] [dwells129] looks like it could head to 50SMA
[1/22/2004 7:23:38 PM] [Investortrader] That would partially fill the gap dwells, it might do that
[1/22/2004 7:23:57 PM] [Investortrader] Other, better charts to trade now
[1/22/2004 7:23:57 PM] [dwells129] i was looking at that gap too, almost a fill
[1/22/2004 7:24:17 PM] [Investortrader] Any questions on CAMP?
[1/22/2004 7:25:06 PM] [mace] SANM plz
[1/22/2004 7:25:08 PM] [Investortrader] On to CIEN (then SNMA) ...
[1/22/2004 7:26:17 PM] [kjsorc] still working?
[1/22/2004 7:26:21 PM] [Investortrader] OBV is not confirming the new highs in CIEN, always a warning signal
[1/22/2004 7:27:13 PM] [dwells129] because OBV dropped off through middle band?
[1/22/2004 7:27:32 PM] [da2rth] rally might of been more short covering than buying
[1/22/2004 7:27:44 PM] [da2rth] on JNPR news
[1/22/2004 7:28:07 PM] [Investortrader] you've got that dwells, plus it couldn't keep above the 50sma, and it's much lower than where it

was at in the early Dec highs

[1/22/2004 7:29:00 PM] [dwells129] yes i see that. (now that you point it out:D

[1/22/2004 7:29:11 PM] [Investortrader] On 1/20 you had a hanging man candle, which is usually bearish at the top

[1/22/2004 7:29:31 PM] [Investortrader] It might have been short covering da2rth

[1/22/2004 7:30:01 PM] [Investortrader] I don't really like this one

[1/22/2004 7:30:12 PM] [micky] investor is this mkt. as whole trying to top out?

[1/22/2004 7:30:41 PM] [Investortrader] And now the OBV is lower than where it was on the 1/15 low

[1/22/2004 7:30:44 PM] [Investortrader] swing low

[1/22/2004 7:31:19 PM] [da2rth] OBV higher at dec highs too

[1/22/2004 7:31:27 PM] [micky] ok thanks

[1/22/2004 7:31:31 PM] [Investortrader] micky I'm getting the feeling they are trying to hold it up, as opposed to feeling it's naturally up here

[1/22/2004 7:32:08 PM] [micky] and you may be right

[1/22/2004 7:32:11 PM] [Investortrader] So I'm cautious, but until it does roll over, gotta be optimistic to a degree, even if it's only a small degree

[1/22/2004 7:32:57 PM] [micky] right i very well undestand i'm the same way

[1/22/2004 7:32:57 PM] [Investortrader] Earnings season can be tricky too

[1/22/2004 7:33:08 PM] [Investortrader] Any questions on CIEN?

[1/22/2004 7:33:14 PM] [micky] yes it can

[1/22/2004 7:33:52 PM] [Investortrader] On to SANM (got a pm correcting the symbol)

[1/22/2004 7:34:23 PM] [mace] yes some beat earnings and go up some do the same and it is sell the news

[1/22/2004 7:35:27 PM] [Investortrader] That makes it tougher mace!

[1/22/2004 7:35:39 PM] [Investortrader] Big bearish engulfing today

[1/22/2004 7:35:43 PM] [da2rth] SANM...their cfo resigned yesterday

[1/22/2004 7:36:02 PM] [dwells129] it seems as though the stocks that have had good runs sell the news and those that are down hard jump if the meet or beat by a little.

[1/22/2004 7:36:02 PM] [Investortrader] That's usually taken as bad news da2rth

[1/22/2004 7:36:42 PM] [da2rth] he must of been a good one to cause a drop in price...)

[1/22/2004 7:37:09 PM] [Investortrader] Or he got out before the %^&* hit the fan, he would know lol

[1/22/2004 7:37:25 PM] [da2rth] yes..lol

[1/22/2004 7:37:36 PM] [dwells129] :D

[1/22/2004 7:38:17 PM] [Investortrader] This one is at some support here, not only the middle BB but also the sideways action of 1/8 to 1/15

[1/22/2004 7:38:46 PM] [Bobtrader] ON 21 ,, big vol and small movement ... and on 22 half vol but big movement ...would you explain please

[1/22/2004 7:38:57 PM] [Investortrader] But that bearish engulfing candle I don't like

[1/22/2004 7:39:51 PM] [dwells129] ADCT if you can?

[1/22/2004 7:40:08 PM] [Investortrader] Bob, looks like they tried to hold the gap, but the buyers after gapping it up today, dried up and

ClubHome

the sellers took control

[1/22/2004 7:40:24 PM] [Investortrader] Tried to hold the gap yesterday that is

[1/22/2004 7:41:05 PM] [lavenderangel] EGHT please?

[1/22/2004 7:41:26 PM] [Bobtrader] ty

[1/22/2004 7:41:38 PM] [Investortrader] I was hoping someone would ask about EGHT :) If not I was going to cover it anyway

[1/22/2004 7:41:48 PM] [dwells129] sellers had a long run from 50ma in dec.

[1/22/2004 7:42:12 PM] [Investortrader] It does feel like from the chart, it could test the 50sma again

[1/22/2004 7:42:22 PM] [Investortrader] SANM that is

[1/22/2004 7:42:54 PM] [Investortrader] But it is at some support here too, another ambiguous one to me

[1/22/2004 7:43:20 PM] [Investortrader] I won't be buying it here

[1/22/2004 7:43:33 PM] [da2rth] cfo resigning along with price drop...not good.

[1/22/2004 7:43:42 PM] [Investortrader] Anyquestions on SANM?

[1/22/2004 7:44:20 PM] [Investortrader] On to ADCT ...

[1/22/2004 7:45:30 PM] [lavenderangel] now you can buy , IT. you were waiting for a dip!=D

[1/22/2004 7:45:33 PM] [Investortrader] This one got extended to the upside .. I've been patiently waiting to get back in, so far I'm not

[1/22/2004 7:45:51 PM] [Investortrader] It almost got down to my price today lavender ;)

[1/22/2004 7:46:06 PM] [Investortrader] At least my nibble price

[1/22/2004 7:46:13 PM] [lavenderangel] well i'll add - what's the price 3.41?

[1/22/2004 7:46:15 PM] [mace] looks like ma 20 is buy

[1/22/2004 7:46:33 PM] [dwells129] hotto mentioned he was looking for 3.30 or lower

[1/22/2004 7:46:46 PM] [dwells129] to buy some more

[1/22/2004 7:47:09 PM] [da2rth] 1/20...exhaustion top...jan high on relatively low volume.

[1/22/2004 7:47:33 PM] [Investortrader] exhaustions come on big volume

[1/22/2004 7:47:44 PM] [Investortrader] Just like wash outs

[1/22/2004 7:47:49 PM] [da2rth] okay

[1/22/2004 7:48:32 PM] [Investortrader] It did have a few doji's up there, which are warning signals that the trend may reverse or is getting tired

[1/22/2004 7:49:40 PM] [Investortrader] 20sma might be a good place to take a nibble

[1/22/2004 7:50:02 PM] [Investortrader] But finding a good stop from there, might be a problem

[1/22/2004 7:50:41 PM] [da2rth] \$3.21...61.8% retracement fib line

[1/22/2004 7:50:56 PM] [Investortrader] I wouldn't mind 3.21!

[1/22/2004 7:51:05 PM] [mace] me neither

[1/22/2004 7:51:14 PM] [da2rth] that's what i'm look for...lol

[1/22/2004 7:52:04 PM] [Investortrader] OBV did confirm the new high

[1/22/2004 7:52:17 PM] [Investortrader] I doubt it will test the 50sma

[1/22/2004 7:53:04 PM] [mace] SWKS if you have time

[1/22/2004 7:53:06 PM] [Investortrader] Does look like it needs a bit more pb

[1/22/2004 7:53:49 PM] [Investortrader] But I do think it's only a pb and not a major reversal

[1/22/2004 7:54:00 PM] [mace] SWKS up AH on beating expectations
[1/22/2004 7:54:03 PM] [dwells129] i think it will touch the 20tomorrow and head off again
[1/22/2004 7:54:04 PM] [lavenderangel] EGHT first!! mace
[1/22/2004 7:54:19 PM] [mace] ok
[1/22/2004 7:54:35 PM] [mace] Im in EGHT today to
[1/22/2004 7:54:37 PM] [lavenderangel] ty, IT.
[1/22/2004 7:54:53 PM] [lavenderangel] I almost added on at 3.41 and canceled my order
[1/22/2004 7:55:01 PM] [lavenderangel] glad i did now
[1/22/2004 7:55:02 PM] [Investortrader] Looks like the middle BB is at 3.30
[1/22/2004 7:55:36 PM] [Investortrader] Any questions on ADCT?
[1/22/2004 7:55:43 PM] [da2rth] abc correcton...like in sept/oct...but not as long or severe.
[1/22/2004 7:55:50 PM] [lavenderangel] wouldn't it be bad if it went below middle bb
[1/22/2004 7:55:52 PM] [Investortrader] I'll probably start nibbling around the middle BB
[1/22/2004 7:56:15 PM] [lavenderangel] oh, so only 20k shares at first?
[1/22/2004 7:56:23 PM] [Investortrader] Depends on the volume lavender, OBV is still doing well
[1/22/2004 7:56:28 PM] [Investortrader] lol
[1/22/2004 7:56:31 PM] [lavenderangel] ok, thx.
[1/22/2004 7:56:36 PM] [lavenderangel] :D
[1/22/2004 7:56:48 PM] [Investortrader] On to EGHT
[1/22/2004 7:57:14 PM] [Investortrader] BB's are nice and skinny on EGHT
[1/22/2004 7:57:43 PM] [Investortrader] With the 50sma and the middle BB converging here, and the LR30 just above them
[1/22/2004 7:57:54 PM] [Investortrader] Looks like it's at good support here
[1/22/2004 7:58:06 PM] [lavenderangel] yeah!!!!
[1/22/2004 7:58:15 PM] [lavenderangel] and don't give me any butts!!!
[1/22/2004 7:58:21 PM] [Investortrader] I bot this one today, with about 30 seconds left in the trading day
[1/22/2004 7:58:30 PM] [Investortrader] At 4.91
[1/22/2004 7:59:06 PM] [Investortrader] That's why I wanted to cover it tonight :)
[1/22/2004 7:59:15 PM] [lavenderangel] sneaky!!
[1/22/2004 7:59:24 PM] [Investortrader] I do lots of my buying at the eod
[1/22/2004 7:59:42 PM] [Investortrader] OBV still looks good on it
[1/22/2004 7:59:47 PM] [lavenderangel] RNDC if time, pls
[1/22/2004 7:59:56 PM] [Investortrader] And the last too days of pb have been on pretty low volume
[1/22/2004 8:00:00 PM] [Investortrader] two days
[1/22/2004 8:00:27 PM] [Investortrader] Also has a pretty long base built
[1/22/2004 8:01:30 PM] [Investortrader] By the time I got my fill (since I bot it in my Brown account) market was closed
[1/22/2004 8:02:06 PM] [turningpoint] Thx for ur comments Investor
[1/22/2004 8:02:16 PM] [Investortrader] Welcome turningpoint :)
[1/22/2004 8:02:33 PM] [turningpoint] I am only considering longs on pb that have exceeded Nov highs fwiw

[1/22/2004 8:02:46 PM] [turningpoint] lot of dt's out there
[1/22/2004 8:03:04 PM] [Investortrader] Yes, there are quite a few stocks turning down
[1/22/2004 8:03:43 PM] [Investortrader] This one being at such good support, and with the good base, I couldn't help it ;)
[1/22/2004 8:03:49 PM] [Bobtrader] it was dropping all day
[1/22/2004 8:04:00 PM] [Investortrader] Plus the low volume pb
[1/22/2004 8:04:29 PM] [Investortrader] And it finally got down to my price Bob! I don't mind buying low volume pb's to support
[1/22/2004 8:04:43 PM] [Investortrader] If I'm wrong, only a small loss
[1/22/2004 8:04:46 PM] [Bobtrader] ok
[1/22/2004 8:05:16 PM] [Investortrader] So I'm risking nickles to make dollars
[1/22/2004 8:05:33 PM] [turningpoint] that would be the way
[1/22/2004 8:05:40 PM] [Luigistock] yesh
[1/22/2004 8:05:45 PM] [mace] Mars rover is dead so much for XLNX chips they pushed today on CNBC
[1/22/2004 8:05:46 PM] [Pucker] IT..what number bollinger bans do you use on your OBV
[1/22/2004 8:05:56 PM] [Investortrader] The skinny BB's show a breakout should happen soon, the OBV is saying it should be to the upside
[1/22/2004 8:06:08 PM] [dwells129] OBV looks sweet
[1/22/2004 8:06:12 PM] [Investortrader] Pucker, the normal ones, in TCNet that's 20,20
[1/22/2004 8:06:13 PM] [lavenderangel] 20,20
[1/22/2004 8:06:18 PM] [Bobtrader] they said rover eas on different planet
[1/22/2004 8:06:20 PM] [Pucker] thks
[1/22/2004 8:06:30 PM] [Investortrader] Really mace? And it was sending back such good pics too
[1/22/2004 8:06:33 PM] [Bobtrader] eas=was
[1/22/2004 8:06:47 PM] [GA44] If you buy ADCT at 3.21 you would be buying just under the res. of the 20ma , why please
[1/22/2004 8:06:54 PM] [lavenderangel] nailed by aliens most likely!
[1/22/2004 8:06:55 PM] [Investortrader] Yes, the OBV! See how it's been rising while the price has been sideways
[1/22/2004 8:06:57 PM] [dwells129] OBV almost to late nov highs
[1/22/2004 8:07:17 PM] [Investortrader] That shows accumulation is going on, I like that
[1/22/2004 8:07:35 PM] [lavenderangel] goody goody.
[1/22/2004 8:07:47 PM] [dwells129] got some AH after you started your review at 4.95
[1/22/2004 8:07:50 PM] [Investortrader] Any questions on EGHT? Get to your question in a second GA44
[1/22/2004 8:08:50 PM] [Bobtrader] they were thinking aliens too
[1/22/2004 8:08:51 PM] [Investortrader] Ok, back to ADCT for a minute
[1/22/2004 8:09:20 PM] [dwells129] i thought he would since DJIA seemed to hit his majic # and fall
[1/22/2004 8:09:27 PM] [Investortrader] I've been watching ADCT last couple of days as it's come down
[1/22/2004 8:09:51 PM] [Investortrader] I'm not really sure where I will be buying it yet
[1/22/2004 8:10:45 PM] [Investortrader] With the BB's so wide, that will tend to make the middle BB, the 20sma, a more flexible support/resistance area
[1/22/2004 8:11:05 PM] [mace] Ill buy at 3.29

[1/22/2004 8:11:11 PM] [Jeh] your target on EGHT?
[1/22/2004 8:11:16 PM] [Investortrader] So if it does dip under it a bit, especially if it does it on low volume, I wouldn't worry about it being just under the 20sma
[1/22/2004 8:11:32 PM] [dwells129] good to know, another item to remember
[1/22/2004 8:11:45 PM] [Investortrader] If it crashes thru it on high volume, I wouldn't be buying it yet
[1/22/2004 8:12:05 PM] [GA44] Thanks, that helps
[1/22/2004 8:12:47 PM] [Investortrader] I went really big on it around 3, and added under 3, and had an average of 2.97 I think
[1/22/2004 8:12:56 PM] [Investortrader] When it first broke out
[1/22/2004 8:13:00 PM] [StanS] Would you give any credibility to using one half retracement from the last rise?
[1/22/2004 8:13:00 PM] [mace] Hopefully Dean is Dead
[1/22/2004 8:13:16 PM] [Investortrader] I mean big, used 25% of my account that one day
[1/22/2004 8:13:45 PM] [Investortrader] I won't be so big this time unless I see something very favorable
[1/22/2004 8:13:51 PM] [Investortrader] Which I don't yet
[1/22/2004 8:14:04 PM] [Aktony] Is this the only chart format you use?
[1/22/2004 8:14:17 PM] [Investortrader] I don't recommend anyone else doing that by the way :)
[1/22/2004 8:14:38 PM] [Aktony] chart template?
[1/22/2004 8:14:42 PM] [Investortrader] No Aktony, I have a few templates I look at, but this has been my main one for a long long time
[1/22/2004 8:14:58 PM] [Aktony] thanks
[1/22/2004 8:15:34 PM] [nitrobbob] I used 33% of my account on ADCT on 12-31 at 2.94 sold at 3.51
[1/22/2004 8:15:40 PM] [Investortrader] Yes Stan, 50% retracement is common in stronger stocks
[1/22/2004 8:15:54 PM] [StanS] Thank you IT
[1/22/2004 8:16:07 PM] [Investortrader] Great trade nitrobbob!
[1/22/2004 8:16:49 PM] [Investortrader] I only go big on special situations, ITIG was one before
[1/22/2004 8:17:16 PM] [Investortrader] Welcome GA44 :)
[1/22/2004 8:17:33 PM] [lavenderangel] IT, BBA is recovering quite nicely by the way
[1/22/2004 8:17:53 PM] [Investortrader] ADCT is also one of Hotto's favorites for the last mile buildout
[1/22/2004 8:18:05 PM] [Investortrader] Welcome Stan :)
[1/22/2004 8:18:29 PM] [mace] =D
[1/22/2004 8:18:35 PM] [Investortrader] Any questions on ADCT?

[1/22/2004 8:19:51 PM] [Investortrader] :8
[1/22/2004 8:19:56 PM] [Brooks5] Is the next s point on eight still 5.53
[1/22/2004 8:20:53 PM] [Investortrader] EGHT, 1/20 where it started this dt, high is 5.57, also right around where the upper BB is
[1/22/2004 8:21:26 PM] [Investortrader] That could be one s point
[1/22/2004 8:22:03 PM] [Investortrader] Or maybe the 5.78 - 5.89 highs on 1/13 and 1/14
[1/22/2004 8:22:52 PM] [Investortrader] I'll most likely be adding on a DBO

[1/22/2004 8:24:35 PM] [dwells129] with high V you would scalp at higher price?
[1/22/2004 8:24:35 PM] [Brooks5] Ok thanks...thats all I have ever seen
[1/22/2004 8:25:10 PM] [Investortrader] Yes dwells, unless I see the volume coming in at the sell side at the lower price
[1/22/2004 8:25:22 PM] [mace] SWKS closed at 10.80 AH
[1/22/2004 8:25:49 PM] [dwells129] how can you tell - "sell side"
[1/22/2004 8:26:12 PM] [Investortrader] If the volume is the bid being hit repeatedly with not much hitting of the ask
[1/22/2004 8:26:56 PM] [dwells129] LI and LII again?

[1/22/2004 8:29:12 PM] [Investortrader] Been in a nice uptrend with good OBV, but ...
[1/22/2004 8:29:28 PM] [Investortrader] That's not really too much reaction on beating estimates
[1/22/2004 8:29:43 PM] [gary12] IT you have time for DDS
[1/22/2004 8:29:47 PM] [Investortrader] Unless they came out just before AH closed

[1/22/2004 8:30:32 PM] [Investortrader] We'll see what tomorrow brings, may go up in PM on it
[1/22/2004 8:30:58 PM] [Investortrader] On to RNDC (Then DDS)
[1/22/2004 8:30:59 PM] [dwells129] that looks like a pretty nice chart except for the darn earnings issue. no support neary though.
[1/22/2004 8:31:38 PM] [Investortrader] dwells, could use just below todays hod for support
[1/22/2004 8:32:02 PM] [Investortrader] Almost the same as the hod on 1/20
[1/22/2004 8:32:15 PM] [Investortrader] And if it's going to stay up on the earnings news, it shouldn't break it by too much
[1/22/2004 8:32:35 PM] [Investortrader] Especcailly if it gaps open
[1/22/2004 8:32:47 PM] [Investortrader] Just don't chase a big gap on it

[1/22/2004 8:39:31 PM] [Aktony] extended from the 20ma?
[1/22/2004 8:39:50 PM] [Investortrader] Yes Aktony, plus the 50sma, plus the base it made before the run
[1/22/2004 8:40:16 PM] [Investortrader] And these lower priced ones can really move, in both directions
[1/22/2004 8:41:13 PM] [Investortrader] Had a doji two days ago
[1/22/2004 8:41:15 PM] [nitrobb] but OBV is lower than Sep. & Oct.
[1/22/2004 8:41:53 PM] [Investortrader] Which at the top like it is should be looked at as a warning
[1/22/2004 8:42:11 PM] [Investortrader] That's ok nitrobb, since the OBV has made a new high with each new high on this upmove
[1/22/2004 8:42:51 PM] [Investortrader] Except for the one right at the end of the year, but it quickly did make a new high
[1/22/2004 8:43:05 PM] [Investortrader] And the middle BB held the OBV at that time
[1/22/2004 8:43:18 PM] [Investortrader] I wouldn't be buying this one here
[1/22/2004 8:44:27 PM] [dwells129] AMCC?
[1/22/2004 8:45:35 PM] [Investortrader] I'm not too sure what I would do if I held it
[1/22/2004 8:45:52 PM] [Investortrader] Probably take at least partial profits
[1/22/2004 8:46:53 PM] [Investortrader] Any questions on RNDG?
[1/22/2004 8:47:29 PM] [sw9281] where do you see the pb going on rndg
[1/22/2004 8:48:51 PM] [Investortrader] It could easily come down to test the middle BB
[1/22/2004 8:49:04 PM] [mace] OCPI
[1/22/2004 8:49:55 PM] [Investortrader] And the 50sma is right around where the BO was
[1/22/2004 8:52:04 PM] [mace] anymore thoughts on SWKS
[1/22/2004 8:52:04 PM] [Investortrader] DDS ...
[1/22/2004 8:52:19 PM] [Investortrader] Not unless you have a specific question on it mace
[1/22/2004 8:52:31 PM] [mace] was for Hotto
[1/22/2004 8:53:13 PM] [Investortrader] Oh, ok :)
[1/22/2004 8:54:31 PM] [Investortrader] This one looks good, OBV confirming the new highs
[1/22/2004 8:55:21 PM] [Investortrader] Today's tail didn't penetrate yesterday's candle by much at all
[1/22/2004 8:55:58 PM] [Investortrader] A nice volume BO yesterday
[1/22/2004 8:57:12 PM] [caldoc] IT, you still there? I have a question about L1 and L2 trading.
[1/22/2004 8:57:18 PM] [Investortrader] on 1/20 the pb was held by the middle BB too
[1/22/2004 8:57:30 PM] [Investortrader] I'm still here :)
[1/22/2004 8:57:33 PM] [sggin1] eve, i read threw some of the logs starting w/ eght, was there any discussion on pvn?
[1/22/2004 8:57:54 PM] [Investortrader] Not yet sggin
[1/22/2004 8:58:05 PM] [sggin1] thx
[1/22/2004 8:58:14 PM] [Investortrader] Not by me anyway
[1/22/2004 8:58:24 PM] [caldoc] Do you use the L1 and 2 to get a feel for a stock, or do you actually access it to enter your trades?
[1/22/2004 8:59:42 PM] [Investortrader] I get a feel mostly from the charts, price/volume patterns, then use L 1+2 for trading as price approaches my buy/sell areas

ClubHome

[1/22/2004 8:59:56 PM] [Investortrader] But the day I make the trade I get a feel from L1+2
[1/22/2004 9:00:00 PM] [Investortrader] Mostly L1
[1/22/2004 9:00:22 PM] [caldoc] Hate to sound stupid, but what's the diff between the two?
[1/22/2004 9:00:45 PM] [Investortrader] L1 is the inside bid/ask, what you see when you watch streaming quotes
[1/22/2004 9:01:05 PM] [Investortrader] L2 are the outside bids/asks
[1/22/2004 9:01:41 PM] [caldoc] Thx. And these are both part of Level II trading platform?
[1/22/2004 9:01:44 PM] [Investortrader] L1 mostly very reliable, L2 they can hide their orders from it
[1/22/2004 9:02:20 PM] [Investortrader] Yes, though you may have to check a box somewhere to get L1 included in your L2 screen
[1/22/2004 9:02:35 PM] [caldoc] I see. Thank you.
[1/22/2004 9:02:53 PM] [Investortrader] Welcome caldoc :)
[1/22/2004 9:03:10 PM] [Investortrader] So DDS looks good to me here on this BO
[1/22/2004 9:04:08 PM] [Investortrader] Notice the early Dec high in it .. held today's pb
[1/22/2004 9:04:50 PM] [Investortrader] And now it's riding the upper BB, always nice to see
[1/22/2004 9:05:04 PM] [Investortrader] Any questions on DDS?
[1/22/2004 9:05:09 PM] [caldoc] IT, any thoughts on EP?
[1/22/2004 9:05:43 PM] [gary12] thank You IT
[1/22/2004 9:05:50 PM] [Investortrader] Welcome gary :)
[1/22/2004 9:06:24 PM] [Investortrader] Going to take a ten minute break, and run the update
[1/22/2004 9:06:47 PM] [babue] Thanks IT
[1/22/2004 9:06:55 PM] [Investortrader] Welcome babue :)

[1/22/2004 9:08:04 PM] [caldoc] Thanks IT.
[1/22/2004 9:08:15 PM] [Aktony] clap, clap, clap!! :)
[1/22/2004 9:08:30 PM] [wildbill] updating!
[1/22/2004 9:08:33 PM] [Investortrader] When update is over I'll cover the last 3, AMCC, OCPI, and EP ... then need to take a longer break before running scans
[1/22/2004 9:08:46 PM] [Investortrader] Welcome caldoc :)
[1/22/2004 9:09:37 PM] [lavenderangel] hotto starting to talk
[1/22/2004 9:10:03 PM] [Investortrader] And I need to look at some candlestick PCF's to see if they are what I want, or write some too lol
[1/22/2004 9:10:48 PM] [Investortrader] And add candlestick1's book to my profile list of recommended books to get
[1/22/2004 9:11:12 PM] [Investortrader] So much to do, so little time!
[1/22/2004 9:25:12 PM] [Investortrader] Ok, going to quickly cover these last 3, hopefully

[1/22/2004 9:25:17 PM] [Investortrader] AMCC ...
[1/22/2004 9:26:18 PM] [Investortrader] Island reversal after big runup, not a good sign at all if you are long
[1/22/2004 9:26:43 PM] [Investortrader] Also BIG volume on the island
[1/22/2004 9:27:09 PM] [Investortrader] Very negative
[1/22/2004 9:27:39 PM] [Investortrader] Also it's quite extended here ... if you like shorting this one has possibilities
[1/22/2004 9:28:06 PM] [dwells129] hotto bought AMCC at 7.82, so i thought it was safe to also enter, maybe it was for a bounce play the next morning?
[1/22/2004 9:28:36 PM] [Investortrader] I didn't know that, but the chart still looks bad to me, he may be buying it for FA reasons?
[1/22/2004 9:29:12 PM] [dwells129] FA?
[1/22/2004 9:29:18 PM] [Investortrader] Fundamental analysis
[1/22/2004 9:29:25 PM] [Investortrader] He's in Hottoworks now, you could ask
[1/22/2004 9:29:53 PM] [dwells129] hate to interrupt him when he is talking
[1/22/2004 9:30:03 PM] [Borankin] Just goes to show...Hotto makes mistakes just like the rest of us.
[1/22/2004 9:30:03 PM] [Investortrader] ISland reversal pattern is very reliable and strong pattern usually
[1/22/2004 9:30:14 PM] [dwells129] he generally has the floor in the evening
[1/22/2004 9:30:41 PM] [dwells129] :D
[1/22/2004 9:31:25 PM] [Investortrader] He takes higher risk trades than I do, but he makes money off them a lot, so hard to argue with it :)
[1/22/2004 9:31:46 PM] [Investortrader] Plus this one is in one of the sectors he closely follows too
[1/22/2004 9:31:58 PM] [Borankin] Invest, I'm looking at the chart with you. What do you mean by Island?
[1/22/2004 9:32:41 PM] [Investortrader] 1/16 gap up, 1/21 gap down, leaving those two days as an "island" by themselves
[1/22/2004 9:33:35 PM] [cperkins] it what island rev are you looking at
[1/22/2004 9:33:43 PM] [Investortrader] AMCC
[1/22/2004 9:33:49 PM] [Borankin] Thanks, Invest. Is it far to say that this is seldom seen?
[1/22/2004 9:34:02 PM] [tinaSDtrader] Invest - I agree with you on the island top on AMCC. I trade them quite a bit in a bear, and careful with them in a bull market. They can be very bearish tho, and if Naz has weakness next few days it could be good short. With these, as all trades, I recommend a buy-to-cover.
[1/22/2004 9:34:09 PM] [Investortrader] Yes, it's not seen too often
[1/22/2004 9:34:32 PM] [Investortrader] Hi tina :)
[1/22/2004 9:34:34 PM] [tinaSDtrader] buy to cover stop in case turns up
[1/22/2004 9:34:38 PM] [tinaSDtrader] Good eve
[1/22/2004 9:34:51 PM] [Investortrader] Right, if the gap down is closed it negates the island reversal pattern
[1/22/2004 9:34:54 PM] [cperkins] it oh yes island rev ty
[1/22/2004 9:34:59 PM] [tinaSDtrader] Islands are not so rare,I have code to find them. The trick is trading the best ones.
[1/22/2004 9:35:33 PM] [Borankin] Maybe I'm being argumentative, but if you wait until after the Island gap, haven't you already lost the benefit of a bearish play because the bear has already surfaced?
[1/22/2004 9:36:13 PM] [Investortrader] Borankin, look at EGHT
[1/22/2004 9:36:32 PM] [Investortrader] Island reversal end of Nov

[1/22/2004 9:37:21 PM] [Investortrader] If you shorted the 12/1 close at 5.97 when the island appeared
[1/22/2004 9:37:39 PM] [Investortrader] IN 5 days it closed at 4.54
[1/22/2004 9:37:49 PM] [tinaSDtrader] not necessarily Bor - they can be quite bearish. But as with most set-ups, there are some better than others to trade. SET-ups vary.
[1/22/2004 9:38:25 PM] [Investortrader] Not bad for the bear already being surfaced as you put it ;)
[1/22/2004 9:38:36 PM] [Borankin] Thanks, Invest and Tina. Not being obstinate here, but if we don't disagree from time to time and ask questions, we can't learn.
[1/22/2004 9:39:39 PM] [Borankin] I guess next few days will tell on AMCC.
[1/22/2004 9:39:47 PM] [tinaSDtrader] agreed Bor - I strongly suggest you test everything for yourself vs. just running with it. Many books just keep repeating old stuff without testing, some of it no longer works.
[1/22/2004 9:40:10 PM] [Investortrader] Yes, if it's a false signal should close the down gap pretty quickly
[1/22/2004 9:41:12 PM] [cobralso] IT I give up, what is an island formation??
[1/22/2004 9:41:37 PM] [Investortrader] Scroll up cobralso, I just told Borankin what it was :)
[1/22/2004 9:41:40 PM] [Quintus] tina -- question, how do you test ? backtesting thru something like tradestation, or simply your observations recorded
[1/22/2004 9:41:49 PM] [Borankin] Cobra, I asked that question a minute ago. Scroll up and see the good answer I got.
[1/22/2004 9:42:06 PM] [Investortrader] Any questions on AMCC?
[1/22/2004 9:43:01 PM] [Investortrader] On to OCPI ...
[1/22/2004 9:44:33 PM] [Investortrader] OBV did confirm the new high, but looking back a couple months
[1/22/2004 9:44:42 PM] [Borankin] Invest, do you mostly concentrate on the low-priced stocks, or do you also look at the big kahunas like MMM?
[1/22/2004 9:44:47 PM] [Investortrader] The upper BB has pretty much held all rallies and turned it back
[1/22/2004 9:45:35 PM] [Investortrader] Big ones I'll use ITM options as a stock proxy, ITM so there isn't much time value in them
[1/22/2004 9:46:21 PM] [Investortrader] And the upper BB held this rally and also turned it back
[1/22/2004 9:46:49 PM] [Investortrader] Looks like a trip to the middle BB or the 50sma is in order for OCPI here, not that far away now
[1/22/2004 9:46:54 PM] [dwells129] GN, thanks for all the answers IT.
[1/22/2004 9:47:01 PM] [Investortrader] Welcome dwells :)
[1/22/2004 9:47:01 PM] [Borankin] I understand. Won't ask you how far ITM...guessing one or two strikes.
[1/22/2004 9:47:32 PM] [Investortrader] Right, 1 or 2, and I'm a short term swing trader so usually use the front month
[1/22/2004 9:48:10 PM] [Borankin] I understand. That explains why you use ITM.
[1/22/2004 9:48:12 PM] [Investortrader] Never 3 as there isn't much time value savings going from 2 to 3 strikes ITM
[1/22/2004 9:48:46 PM] [enzo] good evenig
[1/22/2004 9:48:57 PM] [Investortrader] Right, I don't really hold long enough to let the OTM strikes pay off
[1/22/2004 9:49:28 PM] [Investortrader] Hi enzo
[1/22/2004 9:49:36 PM] [Investortrader] Any questions on OCPI?
[1/22/2004 9:49:47 PM] [enzo] can some one tell me a site to watch how asia market is openig
[1/22/2004 9:50:14 PM] [enzo] hi investor how you doing

[1/22/2004 9:54:25 PM] [Investortrader] And the middle BB is at the bottom of the gap now, I would expect that to hold
[1/22/2004 9:55:24 PM] [ilovemusicCOM] SCUR management is delighted but quite a sell off.
[1/22/2004 9:55:30 PM] [Investortrader] gap up, followed by gap down, leaves the prices on an "island" by themselves
[1/22/2004 9:55:43 PM] [allgreen] IT, is there a FA story on IP? thanks.

[1/22/2004 9:58:40 PM] [Investortrader] If you read silicon investor, go to the High Tolerance Plasticity thread (I think, might just be plastic or plastics), and look for a poster called Jim something or other, he really knows the story behind it, been playing it for awhile

[1/22/2004 10:03:30 PM] [Investortrader] I wouldn't want this one to fall much further

[1/22/2004 10:03:55 PM] [Investortrader] Right now it's at the bottom of the 1/8 to 1/15 base approximately

[1/22/2004 10:04:11 PM] [Investortrader] If the middle BB doesn't hold it, could test the 50sma

[1/22/2004 10:04:24 PM] [ilovemusicCOM] opinion on SCUR?

[1/22/2004 10:05:34 PM] [Investortrader] SCUR beat, but guided lower

[1/22/2004 10:06:06 PM] [Investortrader] The lower guidance might mean the 50sma won't hold either, tested it today

[1/22/2004 10:06:09 PM] [ilovemusicCOM] but guidance was was still positive in tone for SCUR

[1/22/2004 10:06:23 PM] [ilovemusicCOM] listening now to actual report
