[1/4/2004 1:03:18 PM] [kmack] pricing...I was paying about the same for

Qcharts....charting is more expensive if you don't open a brokerage acct

[1/4/2004 1:03:43 PM] [kmack] I am guessing around \$100 or less for brkerage

acct...\$149 for charting only

[1/4/2004 1:04:14 PM] [kmack] trendlines...yes..can save them...can draw them on indicators also...

[1/4/2004 1:04:40 PM] [kmack] has a "snap to" mode where trendlines snap to the bar

[1/4/2004 1:04:45 PM] [kmack] bbl...

[1/4/2004 1:06:27 PM] [starrbucks] thank you Kmack....I'm trying to find a new platform to use....looked at IB = no,esignal =no, option Xpress = yes.....so far... :)

[1/4/2004 1:07:04 PM] [kmack] I am still using IB for trading...

[1/4/2004 1:07:23 PM] [kmack] one thing about TS...you cannot trade futures and equities out of the same acct

[1/4/2004 1:07:41 PM] [kmack] they are separate...

[1/4/2004 1:08:28 PM] [starrbucks] why...thought they so difficult to deal with..le.....communicating with them they are so nasty, and unhelpful...price is good but attitude heard stunk???

[1/4/2004 1:10:25 PM] [kmack] TS?

[1/4/2004 1:11:23 PM] [kmack] possibly...but if you know that in advance...makes it easier...

[1/4/2004 1:11:30 PM] [starrbucks] not

[1/4/2004 1:11:41 PM] [kmack] if you want good customer service...use Cybertrader...

[1/4/2004 1:11:56 PM] [kmack] they act like they are your best friend!

[1/4/2004 1:12:07 PM] [kmack] but you pay exorbitant commissions

[1/4/2004 1:12:27 PM] [kmack] you might want tradeportal...hotto uses it...

[1/4/2004 1:12:54 PM] [Wayne48] May I add my 2 cts worth to this discussion on TS.

My understanding is that futures and equity accounts must be kept separate. I have TS equity account and opened a TS futures account, but closed it because I didn't like their software as well as that I have with Lind-Waldock. Have found TS people to be helpful.

[1/4/2004 1:13:00 PM] [kmack] I don't really mind the cust service problems...  
[1/4/2004 1:13:31 PM] [kmack] correct on separate accts  
[1/4/2004 1:14:09 PM] [Wayne48] I like the execution on TS very much. Also use Fidelity who is very good with their customer relations.  
[1/4/2004 1:14:19 PM] [starrbucks] with whom do you pay exorbinant commissions??  
[1/4/2004 1:14:27 PM] [kmack] cybertrader..  
[1/4/2004 1:14:53 PM] [kmack] I didn't have the volume to get the lower comm.  
[1/4/2004 1:15:12 PM] [kmack] but liked the platform...

[1/4/2004 1:17:08 PM] [starrbucks] no not a name I am familiar with ..who owns them....Rally..??  
[1/4/2004 1:17:28 PM] [Rally] don't know off hand  
[1/4/2004 1:17:35 PM] [Rally] direct access  
[1/4/2004 1:17:48 PM] [Rally] futures also  
[1/4/2004 1:18:09 PM] [jack2h] Have been using TDwaterhouse. Not good for day trades. They have a timer which seems to know when you want to trade and it times you out. Must log in again. Painful - moving accuont to IB. They are much faster by comparison.  
[1/4/2004 1:18:24 PM] [kmack] new matrix window in TS looks awesome...anyone using it?  
[1/4/2004 1:18:28 PM] [starrbucks] yes that is desirable...is tradeportal or trade station ....direct access??  
[1/4/2004 1:19:09 PM] [Rally] <http://www.preferredtrade.com>

[1/4/2004 1:20:33 PM] [starrbucks] ty..MP....

[1/4/2004 1:29:01 PM] [decdog] What can I do for you...Hope all is well  
[1/4/2004 1:33:36 PM] [Steven57] On my trades CyberTrader commish \$.020632622/share round trip Interactive Brokers would have been \$.01306601/share round trip and TradeStation would have been \$.01445280/share

round trip

[1/4/2004 1:33:42 PM] [Steven57] fwiw

[1/4/2004 1:34:06 PM] [RJMGroup] It looks like you worked in your position sizes too, Steven57. That's good.

[1/4/2004 1:34:06 PM] [Steven57] Based on 359,409 shares traded

[1/4/2004 1:34:29 PM] [RJMGroup] But, did you base it on the individual position sizes since IB and TS get lower after 500 shares?

[1/4/2004 1:35:24 PM] [Steven57] yes just opened IB and am starting a TradeStation, Cyber is nice but I can save about 5k in commish,,,I think I could find somewhere else to spend that \$

[1/4/2004 1:35:29 PM] [RJMGroup] I'd guess so since they're fractional results. Well, I guess that's good news for me since I have IB too. :)

[1/4/2004 1:36:00 PM] [Steven57] yes it was based on per share and factored .005 and .006 over 500

[1/4/2004 1:36:40 PM] [RJMGroup] Great, thanks for calculating that. I don't do anywhere near that number of shares per year but it's still good info and makes me feel even better with IB. Thanks!

[1/4/2004 1:37:32 PM] [Steven57] The only time Cyber won was if routed thru Island on a 5k-10k trade, then it was 9.95 per side flat

[1/4/2004 1:38:35 PM] [RJMGroup] I guess at your position sizes you don't worry about the \$10 per month for IB or \$99 per month for TS. I think TS would be a factor for me for my smaller position sizes monthly.

[1/4/2004 1:39:00 PM] [kmack] thx steven..

[1/4/2004 1:39:24 PM] [Steven57] 99/mo for a great charting service is reasonable and they throw the brokerage in basically with TS

[1/4/2004 1:39:33 PM] [kmack] TS replaced Qcharts for me..needed the futures charts

[1/4/2004 1:39:45 PM] [kellam] anybody try fidelity active trader @\$8 trade

[1/4/2004 1:40:06 PM] [RJMGroup] Yeah, but it makes it more difficult economically for me to switch to TS from IB with the \$99 per month charge.

[1/4/2004 1:40:16 PM] [Steven57] have eSignal for futures and Cyber, but will be headed tp TS

[1/4/2004 1:40:18 PM] [RJMGroup] Simply because I already have TCNet.

[1/4/2004 1:40:23 PM] [kmack] agree rjm

[1/4/2004 1:40:29 PM] [Steven57] TCNet is a good backup

[1/4/2004 1:40:39 PM] [kmack] sorry...maent rjm

[1/4/2004 1:40:55 PM] [RJMGroup] Maybe someday I'll be trading 250,000 shares per month not to pay the TS monthly fee. :)

## ClubHome

[1/4/2004 1:41:20 PM] [kmack] that would be nice...how about 2005?  
[1/4/2004 1:41:31 PM] [Steven57] if TCNet gives you all you need then agree  
[1/4/2004 1:41:48 PM] [kmack] if TCNet gets a futures data feed...i would drop TS ...  
[1/4/2004 1:41:51 PM] [RJMGroup] 2050? :)  
[1/4/2004 1:42:06 PM] [kmack] no....I'll only give you one yr to get there...  
[1/4/2004 1:42:13 PM] [kmack] expaect the best...  
[1/4/2004 1:42:30 PM] [kmack] nice new yrs resolution....  
[1/4/2004 1:42:49 PM] [kmack] want to here my new yrs resol?  
[1/4/2004 1:42:50 PM] [Steven57] I'm an 80% fulltimer, so I expect to perform or else,  
I don't eat!  
[1/4/2004 1:42:55 PM] [RJMGroup] I expect the best. It's just not mathematically  
possible. :)  
[1/4/2004 1:43:21 PM] [Steven57] why not?  
[1/4/2004 1:43:25 PM] [kmack] lol!!  
[1/4/2004 1:43:33 PM] [kmack] Let my profits run....  
[1/4/2004 1:43:59 PM] [kmack] not a bad one....?  
[1/4/2004 1:44:04 PM] [RJMGroup] I can't expect 250,000 shares per month in 2005 if  
I trade about 3,000 - 5,000 shares per month in 2004. :)  
[1/4/2004 1:44:21 PM] [kmack] cannot be a successful trader if you do not let your  
profits run  
[1/4/2004 1:44:51 PM] [RJMGroup] Not only let profits run but get out of bad trades  
before they get much worse.  
[1/4/2004 1:45:22 PM] [kmack] cutting lossess is not my problem...  
[1/4/2004 1:45:29 PM] [Steven57] no one said have to trade 250/mo, that's only if you  
don't want to pay the 99... my number was for 2003  
[1/4/2004 1:45:38 PM] [Steven57] 250k  
[1/4/2004 1:45:52 PM] [kmack] we know steven...just playing around...  
[1/4/2004 1:46:30 PM] [kmack] ok...time for errands..take care guys...  
[1/4/2004 1:46:44 PM] [Steven57] later, gotta clean up for dinner myself  
[1/4/2004 1:46:50 PM] [RJMGroup] kmack said he's only give me one year. That's  
why I said 2005 wasn't possible for me for 250,000 shares per month. :)  
[1/4/2004 1:46:59 PM] [wildbill] I "expect" learn and grow each day in every aspect of  
my life- trading is an extension of that expectation- and my thanks to all of you here  
for helping in realizing that expectation:)  
[1/4/2004 1:46:59 PM] [StockStalker] bye Steve... i just logged in  
[1/4/2004 1:47:22 PM] [Steven57] oh, well if you have some super secrets, I'll stay  
[1/4/2004 1:47:48 PM] [StockStalker] maybe later... gotta get in the groove of things...  
sunday is usually my stock day

## ClubHome

[1/4/2004 1:48:01 PM] [Steven57] my expectations are much simpler, just want to eat at least once a day  
[1/4/2004 1:48:16 PM] [Steven57] ok, OZ, talk at you l8tr  
[1/4/2004 1:48:47 PM] [StockStalker] starrbucks u there  
[1/4/2004 1:50:43 PM] [StockStalker] Steven did u leave yet  
[1/4/2004 1:50:50 PM] [kmack] one thing rmj....Alaric trades a stoc for .0004  
[1/4/2004 1:50:52 PM] [StockStalker] was reading some of what u had typed  
[1/4/2004 1:51:10 PM] [kmack] rjm...I'll never get those letters right....  
[1/4/2004 1:51:11 PM] [RJMGroup] kmack, lots of dyslexia today. :)  
[1/4/2004 1:51:25 PM] [kmack] I have dyslexice fingers...  
[1/4/2004 1:51:38 PM] [kmack] ...and I am typing too fast...  
[1/4/2004 1:52:49 PM] [kmack] brain to fingers...reverses letters...  
[1/4/2004 1:53:03 PM] [kmack] ok...now i really am leaving...  
[1/4/2004 1:53:35 PM] [StockStalker] interesting conversation u guys had here earlier... not many trader take the time to calculate theri cost per share but it is a very importang thing to know  
[1/4/2004 1:53:53 PM] [StockStalker] another good thing to know is profit per share  
[1/4/2004 1:54:04 PM] [StockStalker] or as the case may be, loss per share  
[1/4/2004 1:56:24 PM] [StockStalker] many places higer traders based on the "spread" of their wholesale cost per share and the trader profit per share  
[1/4/2004 1:57:14 PM] [StockStalker] so a trader that makes .019 per share can get the job since the cost for the BD is .0025ish  
[1/4/2004 1:59:44 PM] [StockStalker] commission have come down a long way in the last few years but position sizes have gotten bigger  
[1/4/2004 2:00:00 PM] [StockStalker] so the per share model is coming into play now  
[1/4/2004 2:01:17 PM] [StockStalker] dont be shy say something !  
[1/4/2004 2:04:42 PM] [starrbucks] ok  
[1/4/2004 2:05:05 PM] [starrbucks] back now  
[1/4/2004 2:05:39 PM] [StockStalker] who is ur broker now and what is ur cost per share coming out to  
[1/4/2004 2:06:57 PM] [starrbucks] so saying that a trader is measured by their spread performance between what their per share p/l is and the cost to trade...is that right??? and who then is looking at that evaluation??  
[1/4/2004 2:07:25 PM] [StockStalker] firms that hire trader to trade money for them... but I found it is a good tool for individual traders  
[1/4/2004 2:07:28 PM] [starrbucks] slow typer  
[1/4/2004 2:07:52 PM] [StockStalker] so if you are making .019 and you paying .02 ur losing

## ClubHome

[1/4/2004 2:08:11 PM] [StockStalker] but if we get the cost down to say .011 and you make .009

[1/4/2004 2:08:39 PM] [StockStalker] and that is gong from losing to making over 2k a month

[1/4/2004 2:09:19 PM] [starrbucks] yeah cAN see that interesting ...have to chew on that....so my cost per share is not just a minor cost in my trading net???

[1/4/2004 2:10:27 PM] [StockStalker] if your final cost per share is too hgh... it is the difference between making money and not

[1/4/2004 2:11:07 PM] [StockStalker] the comment was made here (by one of my subscribers) that he is paying a final average cost of .02 per share a Cyber

[1/4/2004 2:12:01 PM] [StockStalker] back in the day my fnal rate was like .04 per day

[1/4/2004 2:12:07 PM] [StockStalker] but the mkt allowed for that

[1/4/2004 2:12:38 PM] [starrbucks] Stock you are an amazing guy.....thanks so much....I wish I could get to hear more of your thinking on subjects...like what come up with....unique version always.....:)

[1/4/2004 2:13:05 PM] [Steven57] I'm back

[1/4/2004 2:13:14 PM] [starrbucks] I like whaT you come up with...realy do

[1/4/2004 2:13:17 PM] [StockStalker] do u trade full time Sbux

[1/4/2004 2:13:27 PM] [starrbucks] yes

[1/4/2004 2:13:32 PM] [StockStalker] are u profitable

[1/4/2004 2:14:14 PM] [StockStalker] Steven... did u say ur average was .02 over at cyber

[1/4/2004 2:14:16 PM] [starrbucks] yes run about 3% day

[1/4/2004 2:14:34 PM] [StockStalker] starrbux that is not true... not every day

[1/4/2004 2:14:54 PM] [starrbucks] no not every day in the last week

[1/4/2004 2:14:56 PM] [Steven57] yes, .02 round

[1/4/2004 2:15:00 PM] [StockStalker] I ran that for about 5 weeks once but u cannot do that every day

[1/4/2004 2:15:10 PM] [starrbucks] i don't

[1/4/2004 2:15:20 PM] [StockStalker] well u just said it

[1/4/2004 2:15:24 PM] [StockStalker] u mean on a good day

[1/4/2004 2:15:44 PM] [StockStalker] are u still paying that Steve

[1/4/2004 2:16:19 PM] [StockStalker] reason I ask is you can always join my audio room if you want to "hear" more literally... ask Steve or someone else that has

[1/4/2004 2:16:48 PM] [starrbucks] sorry just burned my toast...have to clear thr room...be back in a min

[1/4/2004 2:16:49 PM] [beach] do you consider just commissions or do you add in all

## ClubHome

other fees too like tcnet for avg cost per share?

[1/4/2004 2:16:56 PM] [Steven57] I am, but am in process of moving some over to TS

[1/4/2004 2:17:01 PM] [StockStalker] Monday and Tuesday I ran about 3.3% per day on a big account and was ecstatic about it

[1/4/2004 2:17:13 PM] [StockStalker] how many shares u trading per month now

[1/4/2004 2:18:06 PM] [beach] who are you asking?

[1/4/2004 2:18:09 PM] [Steven57] I trade a margin and 4 IRA,,,the margin was 350k for 2003,, not quite 30k/share month

[1/4/2004 2:18:29 PM] [StockStalker] was asking Steve

[1/4/2004 2:18:33 PM] [beach] ok

[1/4/2004 2:18:52 PM] [StockStalker] or anyone else that is overpaying

[1/4/2004 2:19:19 PM] [beach] i traded 809,000 shares for the year

[1/4/2004 2:20:09 PM] [StockStalker] I am doing 1.5 mil a month right now and once my account gets moved over will probably go to about 2.25-2.5

[1/4/2004 2:20:29 PM] [StockStalker] so the cost per share really matters to me

[1/4/2004 2:20:33 PM] [beach] divided by total commissions comes to .015

[1/4/2004 2:20:50 PM] [StockStalker] wut broker u use

[1/4/2004 2:20:54 PM] [beach] IB

[1/4/2004 2:21:06 PM] [kcim] Kmac. I noted your comments earlier about futures feed. You know that you can get a basic feed from IB using IB charts for free if you have an IB account

[1/4/2004 2:21:13 PM] [StockStalker] interesting...beach

[1/4/2004 2:21:27 PM] [starrbucks] back...S57 ....looking at T S also....SS i need to look and recalculate my return based on what you brought to my notice.....to answer you I run a daily return rate haven 't done my monthly rate for Dec yet.....but what you added I may be surprised....at my real net.....ty

[1/4/2004 2:21:52 PM] [StockStalker] because I will soon be indtruding business to ETG and I have found that it is hard to compare to IB due to the way they structure things

[1/4/2004 2:22:05 PM] [StockStalker] But I can easilly beat 1.5 cents

[1/4/2004 2:22:35 PM] [beach] my avg profit per share is .0655

[1/4/2004 2:22:39 PM] [StockStalker] and far better exectuions too

[1/4/2004 2:23:24 PM] [starrbucks] ss where far better executions???? caught only part of what you said...

[1/4/2004 2:23:28 PM] [StockStalker] maybe late this week we talk and I can find out what part of their formula is pushing it up to 1.5 cents

[1/4/2004 2:23:49 PM] [beach] yes, I'd be interested in that

[1/4/2004 2:24:11 PM] [StockStalker] can u take a good look at it over the next few

## ClubHome

day or today and try to get a fix on what it is

[1/4/2004 2:24:17 PM] [Steven57] IB you can get any feed you want to pay for

[1/4/2004 2:24:48 PM] [beach] what am I looking for?

[1/4/2004 2:25:03 PM] [StockStalker] well I think they advertise a penny a share all in right

[1/4/2004 2:25:12 PM] [StockStalker] and .005 for over 599

[1/4/2004 2:25:20 PM] [StockStalker] 500

[1/4/2004 2:25:21 PM] [Steven57] .005 ]500

[1/4/2004 2:25:34 PM] [Steven57] .006]500 TradeStation

[1/4/2004 2:25:38 PM] [beach] 1 cent for the first 500 then 1/2 cent anything over

[1/4/2004 2:25:48 PM] [Steven57] per side

[1/4/2004 2:25:55 PM] [StockStalker] so if I buy 1k is should be 7.59 total for the whole thing

[1/4/2004 2:26:04 PM] [Steven57] no ECN no SEC all inclusive

[1/4/2004 2:26:05 PM] [StockStalker] but 1.5 cents would be 15.00

[1/4/2004 2:26:13 PM] [Steven57] 7.50

[1/4/2004 2:26:15 PM] [Steven57] 8

[1/4/2004 2:26:21 PM] [StockStalker] so.... where are they sticking it to u

[1/4/2004 2:26:21 PM] [Steven57] TS

[1/4/2004 2:26:25 PM] [starrbucks] 22

[1/4/2004 2:26:30 PM] [starrbucks] hike

[1/4/2004 2:26:45 PM] [beach] I see,,I'll look into it

[1/4/2004 2:26:56 PM] [StockStalker] would love to crack that nut

[1/4/2004 2:27:57 PM] [beach] in that mix I have to include futures and option commissions

[1/4/2004 2:28:02 PM] [Steven57] what do you mean where are they syticking?

[1/4/2004 2:28:47 PM] [StockStalker] he calculated his average cost per year... it came out to .015

[1/4/2004 2:28:57 PM] [Steven57] yes?

[1/4/2004 2:28:58 PM] [beach] should come out to .0075 Steven

[1/4/2004 2:29:06 PM] [StockStalker] max

[1/4/2004 2:29:29 PM] [beach] but that is one side,,have to exit the trade too

[1/4/2004 2:29:33 PM] [Steven57] .01/share first 500,,,,,.005/share ]500 per side

[1/4/2004 2:29:56 PM] [beach] so 1000 shares in and out is \$15

[1/4/2004 2:29:59 PM] [Steven57] so 1k shares 7.50 in and 7.5 out

[1/4/2004 2:30:25 PM] [beach] which equals .015

[1/4/2004 2:30:28 PM] [StockStalker] well then u gave me the wrong cost per share... when doing cost per share u do total

## ClubHome

[1/4/2004 2:30:35 PM] [beach] sorry  
[1/4/2004 2:30:45 PM] [beach] never looked at it before  
[1/4/2004 2:30:48 PM] [StockStalker] so do u know for sure u only used half  
[1/4/2004 2:31:16 PM] [Steven57] well I came up with .01445280 by adding in and out together divided by total shares  
[1/4/2004 2:31:40 PM] [beach] no,, 809,000 divided by \$12,204  
[1/4/2004 2:31:41 PM] [StockStalker] with cyber steve?  
[1/4/2004 2:32:05 PM] [StockStalker] .0144 a lot better than .02  
[1/4/2004 2:32:14 PM] [Steven57] \$2597.23 in cost plus \$2597.23 out costs divided by 359409 shares traded = .01445280  
[1/4/2004 2:32:34 PM] [StockStalker] with cyber?  
[1/4/2004 2:32:39 PM] [Steven57] IB  
[1/4/2004 2:33:08 PM] [StockStalker] very interesting... i am wanting to know where they are adding to the cost  
[1/4/2004 2:33:10 PM] [Steven57] you take costs divide by shares beach  
[1/4/2004 2:33:36 PM] [beach] iknow just typed wrong,  
[1/4/2004 2:33:37 PM] [Steven57] Cyber is 9.95/trade plus ECN fees and SEC  
[1/4/2004 2:33:42 PM] [beach] comes to .015  
[1/4/2004 2:33:52 PM] [Steven57] Island no fees but others do  
[1/4/2004 2:34:32 PM] [StockStalker] did u know that Island pay you .002 per share when of offer of bid (add liquidity) but the broker usually pockets it  
[1/4/2004 2:34:47 PM] [StockStalker] hence the "free" island  
[1/4/2004 2:34:48 PM] [Steven57] my total in/out/SEC with Cyber was 7415.55 divide by 359406 = .02063622  
[1/4/2004 2:35:18 PM] [Steven57] .02,,,,,  
[1/4/2004 2:35:19 PM] [StockStalker] well I know I will be able to beat cyber already but it is IB that i am trying to figure out now  
[1/4/2004 2:35:38 PM] [StockStalker] if it truly does work out to 1.5 cents... no problem  
[1/4/2004 2:35:53 PM] [StockStalker] cyber a far better execution platform tho than IB  
[1/4/2004 2:35:55 PM] [Steven57] IB is just .01/share 1st 500, thereafter .005/share no hiddens  
[1/4/2004 2:36:35 PM] [Steven57] Tradestaion same except .006 plus 99/mo platform fee unless trade 250k shares/mo  
[1/4/2004 2:36:41 PM] [StockStalker] not according to the math u jsut did steve  
[1/4/2004 2:36:46 PM] [Steven57] or have 4million in acct?  
[1/4/2004 2:36:47 PM] [starrbucks] if you ask for the "Hiddens costs" will they tell us  
[1/4/2004 2:36:56 PM] [beach] meaning ETG will beat 1.5 per share

## ClubHome

[1/4/2004 2:36:57 PM] [RJMGroup] Yeah, it looks like TS is trying to compete more with IB with the recent lower commissions.

[1/4/2004 2:36:58 PM] [StockStalker] that is what i am getting at

[1/4/2004 2:37:24 PM] [StockStalker] how the heck are u paying 15 per 1k if that is the fee and no hiddens

[1/4/2004 2:37:26 PM] [Steven57] sorry, OZ, I don't know where we are crossing

[1/4/2004 2:38:29 PM] [StockStalker] .01445280 u gave is 2x the ammount u jsut said with no hiddens... so I am curious where they are getting u

[1/4/2004 2:38:55 PM] [Steven57] 1000 shares,,,,1st 500 = \$5 commish, 2nd 500=\$2.50 commish = \$7.50 in plus another \$7.50 out = \$15 for 1000 shares

[1/4/2004 2:39:24 PM] [StockStalker] ah ok... actually that is 2000 shares

[1/4/2004 2:39:32 PM] [StockStalker] 1000 bot and 1000 sold

[1/4/2004 2:40:11 PM] [StockStalker] total cost divided by total shares traded

[1/4/2004 2:40:26 PM] [Steven57] true so 359406 x in and out = 718818

[1/4/2004 2:40:39 PM] [StockStalker] i think our methods were varied

[1/4/2004 2:41:11 PM] [Steven57] I just took total costs divided by the shares I traded, didn't count shares twice

[1/4/2004 2:41:47 PM] [Steven57] so are we in agreement on .015 avg cost?

[1/4/2004 2:42:14 PM] [StockStalker] no it is half that using the industry standard method of calculating cost per share

[1/4/2004 2:42:50 PM] [StockStalker] if u buy 100 and sell 100 u trade 200 shares from ur broker point of view

[1/4/2004 2:43:00 PM] [Steven57] fair enough

[1/4/2004 2:43:18 PM] [beach] I took total commission dived by total shares traded

[1/4/2004 2:43:27 PM] [StockStalker] so when I ask u how many u do a month I mean total...in and out

[1/4/2004 2:43:27 PM] [Steven57] so , now it's .0075/share for me then

[1/4/2004 2:43:34 PM] [StockStalker] that is more like it

[1/4/2004 2:43:41 PM] [StockStalker] pet the advertised

[1/4/2004 2:43:45 PM] [StockStalker] per

[1/4/2004 2:45:07 PM] [StockStalker] round trip is not the way to calculate.. many reasons for that including the ecn rebats for adding liquidity

[1/4/2004 2:46:13 PM] [StockStalker] so are u and beach on the same number now

[1/4/2004 2:46:54 PM] [StockStalker] when the dow says it had a billion share day... they are not meaning round trips

[1/4/2004 2:47:07 PM] [TrillionDolarMan] The Stalker = back from vacation...

[1/4/2004 2:47:19 PM] [StockStalker] been trading the whoooooo!!!! time

[1/4/2004 2:47:30 PM] [TrillionDolarMan] Good man...under the radar.

## ClubHome

[1/4/2004 2:47:31 PM] [StockStalker] steve u there  
[1/4/2004 2:47:31 PM] [beach] you said earlier that you have to calculate both sides  
for avg cost per share  
[1/4/2004 2:47:35 PM] [Steven57] y  
[1/4/2004 2:47:59 PM] [StockStalker] simple ... total shares traded... buy and sale  
[1/4/2004 2:48:04 PM] [TrillionDolarMan] I'm going under the rader this week too...for  
maybe two weeks. Forward all mail to RIPVANWINKLE.com  
[1/4/2004 2:48:15 PM] [Sharon1555] hello everyone... is Hotto's website up today?  
[1/4/2004 2:48:21 PM] [Steven57] Monday  
[1/4/2004 2:48:29 PM] [StockStalker] ur broker gives u that info  
[1/4/2004 2:48:33 PM] [Sharon1555] ty..  
[1/4/2004 2:48:41 PM] [kellam] we should get our passwords today for hotto web  
[1/4/2004 2:49:21 PM] [Sharon1555] ty..  
[1/4/2004 2:49:40 PM] [Steven57] actually those numbers were reflecting  
TradeStaion, close enough to IB  
[1/4/2004 2:49:52 PM] [StockStalker] so ur doing a heck of a lot better now than u  
were at cyber steve  
[1/4/2004 2:50:04 PM] [Steven57] will be  
[1/4/2004 2:50:15 PM] [beach] so,,,does ETG beat IB?  
[1/4/2004 2:50:45 PM] [Steven57] save 42.76% in commish  
[1/4/2004 2:50:51 PM] [Steven57] ETG do better?  
[1/4/2004 2:51:14 PM] [StockStalker] lot depends on volume and how u trade.... that  
is the reason I adk how many shares per month... THAT is why i am spending so  
much time gettng the formula agreed upon for calculating shares per month  
[1/4/2004 2:51:37 PM] [StockStalker] once I know that number... then an accurate  
comparison can be made  
[1/4/2004 2:52:01 PM] [Steven57] count me in for 700k then per year 58k/month  
[1/4/2004 2:52:52 PM] [beach] so whats the final word,,calculate both sides of trade  
or just one for avg cost per share?  
[1/4/2004 2:53:11 PM] [StockStalker] I think TS is a formidable competitor on the  
surface but I think IB is junk  
[1/4/2004 2:53:28 PM] [StockStalker] regardless of price...  
[1/4/2004 2:53:29 PM] [Steven57] Depends on what you are trying to show  
[1/4/2004 2:53:48 PM] [Steven57] twice if count shares in and out  
[1/4/2004 2:54:10 PM] [StockStalker] total shares  
[1/4/2004 2:54:20 PM] [StockStalker] in or out not a factor  
[1/4/2004 2:54:31 PM] [beach] ok, so .015 for IB  
[1/4/2004 2:54:53 PM] [StockStalker] remember to dbl the shares beach

## ClubHome

[1/4/2004 2:55:05 PM] [Steven57] is not in and out = toatal shares?  
[1/4/2004 2:55:09 PM] [StockStalker] I suspect it is 7.50  
[1/4/2004 2:55:22 PM] [beach] I used total comm divided by total shares traded for the year  
[1/4/2004 2:55:29 PM] [StockStalker] really  
[1/4/2004 2:55:41 PM] [StockStalker] total buys and sell right?  
[1/4/2004 2:55:47 PM] [beach] yes  
[1/4/2004 2:56:00 PM] [StockStalker] here we are back to square one!  
[1/4/2004 2:56:17 PM] [Steven57] it's being made more difficult than it should be  
[1/4/2004 2:56:21 PM] [StockStalker] that is shocking as compared to what is advertised  
[1/4/2004 2:56:24 PM] [beach] jsut total number of shares traded for the year  
[1/4/2004 2:56:45 PM] [StockStalker] i make it simpl;e.... total shares .. u added the variables buy and sell  
[1/4/2004 2:57:08 PM] [StockStalker] but beaches numbers are 2x urs so i want to know why  
[1/4/2004 2:57:13 PM] [Steven57] beach for a 200 share trade, did you divide your buy and sell commish bu 200 or by 400?  
[1/4/2004 2:57:29 PM] [beach] no,,tradelog tell me I traded 808,784 shares in 2003  
[1/4/2004 2:57:48 PM] [beach] no buy or sell, just total #  
[1/4/2004 2:57:54 PM] [StockStalker] and tradelong counts both side right  
[1/4/2004 2:58:09 PM] [beach] yes  
[1/4/2004 2:58:48 PM] [StockStalker] steve have u every just looked at total shares and did the math without adding those other variables  
[1/4/2004 2:59:22 PM] [StockStalker] big difference... 1.5 cents easy to beat... .0075 hard to beat with a small trader easy to beat for a big one  
[1/4/2004 2:59:34 PM] [beach] tradelog shows total shares closed  
[1/4/2004 2:59:38 PM] [Steven57] if IB charges \$5 for 500 shares bought, that is .01/share cost,,,if you sell that 500 shares it costs \$5 which is .01/share  
[1/4/2004 2:59:46 PM] [StockStalker] that is exactly the number u want to use beach  
[1/4/2004 2:59:47 PM] [Steven57] 200 shares \$10  
[1/4/2004 3:00:08 PM] [StockStalker] we know the idea of the logic steve.. but now we want to know the real cost  
[1/4/2004 3:00:09 PM] [beach] yep,,so .015  
[1/4/2004 3:00:14 PM] [Steven57] 1,000 shares  
[1/4/2004 3:00:32 PM] [StockStalker] be critical and analyze it and dont jsut accept it...  
[1/4/2004 3:01:03 PM] [StockStalker] "shares closed" is actually the correct term and

## ClubHome

one that needs to be used

[1/4/2004 3:01:13 PM] [beach] so I pay a real cost per share of .015 at IB

[1/4/2004 3:01:41 PM] [StockStalker] so now back to where we started ... can u dig up some tickets and find out where they extra is being added

[1/4/2004 3:01:51 PM] [Steven57] so if you bought 100 shares, then sold 100 shares is 200 shares closed?

[1/4/2004 3:02:00 PM] [StockStalker] yes

[1/4/2004 3:03:04 PM] [Steven57] then I don't understand what all this is about, because I said my cost with IB would be .015 and all this to say no it's .0075, but , yes, it is .015

[1/4/2004 3:04:05 PM] [beach] wht do figure our cps should be at IB Oz?

[1/4/2004 3:04:06 PM] [StockStalker] cost divided by shares closed is the answer... simple as that

[1/4/2004 3:04:28 PM] [StockStalker] .0076 ish per share

[1/4/2004 3:04:34 PM] [StockStalker] per advertised

[1/4/2004 3:04:37 PM] [beach] what should their advertised cost be?

[1/4/2004 3:05:03 PM] [beach] now we are back to only counting one side not closed shares

[1/4/2004 3:05:14 PM] [Steven57] exactly

[1/4/2004 3:05:28 PM] [StockStalker] step back form the puter a bit

[1/4/2004 3:05:50 PM] [beach] .0075 is one side .015 is closed trade

[1/4/2004 3:05:51 PM] [StockStalker] stoip takng of sidesf

[1/4/2004 3:06:01 PM] [StockStalker] no

[1/4/2004 3:06:10 PM] [StockStalker] cuz ur shares go up by 2x

[1/4/2004 3:06:22 PM] [StockStalker] so ur cost per share is a constant

[1/4/2004 3:06:26 PM] [StockStalker] easy

[1/4/2004 3:07:06 PM] [beach] i see now

[1/4/2004 3:07:12 PM] [StockStalker] its easy

[1/4/2004 3:07:22 PM] [StockStalker] jsut drp the buy and sell thing

[1/4/2004 3:07:30 PM] [Steven57] 1000 shares bought, commish \$7.50 =

.015/share,,,,,,sell same thing,,,,,,closed shares 2000 cost \$15 = .015/share

[1/4/2004 3:07:30 PM] [StockStalker] total shares

[1/4/2004 3:08:05 PM] [beach] 7.50 divided by 1000 is .0075 steven

[1/4/2004 3:08:07 PM] [StockStalker] no closed at 15 is .0075 strece

[1/4/2004 3:08:19 PM] [StockStalker] steve

[1/4/2004 3:08:52 PM] [beach] when you sell those shares it still costs .0075 for those shares

[1/4/2004 3:08:58 PM] [StockStalker] exactly

## ClubHome

[1/4/2004 3:09:10 PM] [beach] so each 1000 is .0075  
[1/4/2004 3:09:18 PM] [RJMGroup] Boy, this is getting funny to watch. I think the photos are getting downloaded faster from Mars than these calculations. :)  
[1/4/2004 3:09:19 PM] [beach] and 2000 is .0075  
[1/4/2004 3:09:31 PM] [beach] :D  
[1/4/2004 3:09:42 PM] [StockStalker] I run 2 mil a month and know my numbers!!!!  
[1/4/2004 3:09:46 PM] [beach] its a wonder we can make money at this game  
[1/4/2004 3:09:49 PM] [Steven57] I give up  
[1/4/2004 3:10:13 PM] [RJMGroup] I was on a 15-minute phone call and when I got back this was still the chat going on. :)  
[1/4/2004 3:10:18 PM] [StockStalker] steve 1000 at .015 is 7.50 not 15.00 as u said.. i think u made a typo  
[1/4/2004 3:10:26 PM] [beach] every 1000 shares you trade is .0075 staevev whether it is a buy or a sell  
[1/4/2004 3:10:33 PM] [StockStalker] whoops now i made a typoe!  
[1/4/2004 3:10:45 PM] [StockStalker] beach u got it now  
[1/4/2004 3:11:04 PM] [beach] took me a while,,been skiing too long  
[1/4/2004 3:11:09 PM] [RJMGroup] Just export the damn TradeLog into Excel and do a damn conditional IF...THEN on every trade and total it. Sheesh! :)  
[1/4/2004 3:11:10 PM] [StockStalker] now by having a standardized format (industry standard) u can compare any two brokers  
[1/4/2004 3:11:10 PM] [beach] :o  
[1/4/2004 3:11:12 PM] [Steven57] OK, I agree  
[1/4/2004 3:11:36 PM] [Steven57] I do use Excel RJM!!!  
[1/4/2004 3:11:46 PM] [RJMGroup] Then why the rocket science chat? :)  
[1/4/2004 3:11:57 PM] [Steven57] beats me!  
[1/4/2004 3:12:07 PM] [beach] export,,excel, conditional,,now your really going to open a can of worms RJ  
[1/4/2004 3:12:11 PM] [RJMGroup] You guys made my day though. :)  
[1/4/2004 3:12:30 PM] [StockStalker] no ur excel and conditionals is the only rocket science  
[1/4/2004 3:12:36 PM] [beach] glad to help RJ  
[1/4/2004 3:12:37 PM] [RJMGroup] No way. I'm not getting involved. I'm just an outside observer with a bewildered look on his face. :)  
[1/4/2004 3:12:44 PM] [StockStalker] I take my cost and divice by my shares and done  
[1/4/2004 3:12:56 PM] [RJMGroup] Obviously not done. It's been 20 minutes now.  
HAHA!

[1/4/2004 3:15:07 PM] [Steven57] you ok with that beach???  
[1/4/2004 3:15:21 PM] [StockStalker] so whats ur final answer beach!!!!  
[1/4/2004 3:15:29 PM] [RJMGroup] survey says!  
[1/4/2004 3:15:34 PM] [StockStalker] cost per share

[1/4/2004 3:16:19 PM] [StockStalker] next time I will do this in the audio room!!!!  
[1/4/2004 3:16:28 PM] [RJMGroup] 100 stock traders survey, top five answers on the

[1/4/2004 3:16:28 PM] [StockStalker] i think his calculatior blew up  
[1/4/2004 3:16:34 PM] [beach] 12,204 divide 808,784 = .015  
[1/4/2004 3:16:50 PM] [Steven57] I'm outtttaaaaa here!!!!!!!!!!!!!!!!!!!!!!  
[1/4/2004 3:16:53 PM] [StockStalker] oh ur killing me

[1/4/2004 3:32:09 PM] [RJMGroup] I do if I don't know what "x" is. :)

[1/4/2004 3:32:22 PM] [Luigistock] x marks the spot

[1/4/2004 3:32:39 PM] [StockStalker] X is what u should have negotiated already!

[1/4/2004 3:32:39 PM] [Luigistock] seriously folks any ideas on the pcf thang?

[1/4/2004 3:32:57 PM] [RJMGroup] No, I prefer a dollar amount over a variable. It's more profitable.

[1/4/2004 3:33:06 PM] [StockStalker] Luigi...

[1/4/2004 3:33:08 PM] [RJMGroup] No, no clue on the PCF thang.

[1/4/2004 3:33:24 PM] [Luigistock] yeah oz

[1/4/2004 3:33:30 PM] [StockStalker] sometime I update my chart and the pcf's do not.. then i update just the pfc's and then it works

[1/4/2004 3:33:39 PM] [CashMan] Hotto referenced ETFs on 1/1/04 chat log when he was talking about KR63

[1/4/2004 3:36:57 PM] [CashMan] yeah Oh well it was worth a try. LOL

[1/4/2004 3:37:27 PM] [StockStalker] he uses ETF's as a proxy on mkt sectors and indexes cash

[1/4/2004 3:37:45 PM] [StockStalker] and they work well for a lazy mans hedge too

[1/4/2004 3:38:06 PM] [CashMan] So they are called Electronic traded funds then

## ClubHome

[1/4/2004 6:35:58 PM] [StockStalker] so the real question for me is/was what ws ur long to short ratio...

[1/4/2004 6:36:03 PM] [hotto] maybe in November.. or early December..

[1/4/2004 6:36:28 PM] [hotto] Was.. I wanted to keep my "New Leader" Longs... positions.. As I had built up....

[1/4/2004 6:36:31 PM] [Moe] Hotto...My broker only gives me 1 for 1 margin... is it normal business to get 4 for 1 margin, or exceptional in limited cases ?

[1/4/2004 6:36:49 PM] [hotto] And.. using the DIA short.. for 2 ideas..

[1/4/2004 6:36:55 PM] [starrbucks] are passwords coming to tcmal????

[1/4/2004 6:37:14 PM] [hotto] 1. For a Day-trade to play my Market dip plan...

[1/4/2004 6:37:49 PM] [hotto] 2. As another concept.. a sort of Hedge.. against my very Long market position..

[1/4/2004 6:38:04 PM] [hotto] As it developed... Worked out nearly perfectly...

[1/4/2004 6:38:25 PM] [hotto] My longs mostly held up... and went higher later in the day...

[1/4/2004 6:38:44 PM] [hotto] Meanwhile.. I was able to profit from my Short DIA.. on the dip...

[1/4/2004 6:39:00 PM] [StockStalker] similar plan here... I am 2 to 1 long to short... China stocks helped allot

[1/4/2004 6:39:08 PM] [hotto] And.. was able to assess my Market Plan.. on the "New Leader" STocks...

[1/4/2004 6:39:15 PM] [hotto] good

[1/4/2004 6:39:31 PM] [StockStalker] this terror stuff is forcing me to be more short at earlier junctions

[1/4/2004 6:39:40 PM] [hotto] My assessment.. was.. I added to the Longs.. into V1 dip...

[1/4/2004 6:40:10 PM] [hotto] was able to S= out of some near close.. for a few \$\$ extra profit..

[1/4/2004 6:40:39 PM] [hotto] Now.. we have Friday "in the books" first day..

[1/4/2004 6:40:59 PM] [hotto] We get to assess our "new leaders" ideas..

[1/4/2004 6:41:13 PM] [hotto] will be more tomorrow.. Keep studying..

[1/4/2004 6:41:48 PM] [hotto] The emerging NLs.. will likely be our friends for many weeks..

[1/4/2004 6:42:25 PM] [hotto] Have some new "Market Themes for 2004"

[1/4/2004 6:42:48 PM] [hotto] Have discussed some here.. no charge.:8

[1/4/2004 6:42:49 PM] [Moe] Given the u expect mkt weakness first part of the week, do I understand that you will KEEP your longs despite mkt dips, based on the fact that the dip is only 2-3 days time frame ?

[1/4/2004 6:54:26 PM] [hotto] thanks Abe.. Me too.. ( I think)..

[1/4/2004 6:54:45 PM] [LakeErieStan] will we be able to change password to our own later

[1/4/2004 6:55:32 PM] [hotto] yes.. Stan.. You must change your Password soon.. I don't know how soon.

[1/4/2004 6:55:33 PM] [JoRichDaddy] Hotto: Any thoughts about how to protect your e-books? Loads of stuff is circulated by well-meaning "friends" to the detriment of the business.

[1/4/2004 6:56:05 PM] [StockStalker] like the music industry

[1/4/2004 6:56:20 PM] [hotto] Credit Card signups....

[1/4/2004 6:57:13 PM] [hotto] will be available sometime tomorrow.. Earliest could be 12Noon ET.. more likely about 4pm ET..

[1/4/2004 6:57:36 PM] [hotto] that happens because of the Name change last week..

[1/4/2004 6:58:15 PM] [hotto] Janet tried to get confirmation on Friday.. on the CC. stuff. they said.. Monday.. mid morning...

[1/4/2004 6:59:31 PM] [hotto] JoRich.. the ebook will show intent to protect. I really don't know what else to do.

[1/4/2004 7:00:16 PM] [corvette68] Hotto, by the time the second year passes, we should be able to afford your "new membership" :D

[1/4/2004 7:00:25 PM] [RJMGroup] You might want to check out [www.ebookgenerator.com](http://www.ebookgenerator.com). They have software that allows the eBook to only be viewed on one PC at a time, Hotto.

[1/4/2004 7:00:52 PM] [JoRichDaddy] Not much you can do. However you have a loyal following and they may keep it to a minimum out of respect

[1/4/2004 7:01:26 PM] [hotto] Afternoon market comments -tomorrow - assuming nothing breaks.. Will be on the website.. as soon as we can get it up..

[1/4/2004 7:02:40 PM] [starrbucks] Hotto will wel have you in the morning chat at the openning????

[1/4/2004 7:03:02 PM] [hotto] May take a few days to get everything going smoothly... But.. will be "like old hat" soon enough...B)

[1/4/2004 7:03:42 PM] [StockStalker] thanks for ebook link RJM

[1/4/2004 7:03:43 PM] [hotto] starr... yes.. I will be here.. on Hotto Club.. tomorrow morning... G-d willing..

[1/4/2004 7:04:11 PM] [RJMGroup] Sure, SS. Are you looking to write an eBook too?

[1/4/2004 7:04:12 PM] [StockStalker] uses registry to allow only one key per subxriber...

[1/4/2004 7:04:21 PM] [hotto] RJM.. thanks.

[1/4/2004 7:04:37 PM] [StockStalker] well the fact that the techology is available it

makes me more interested

[1/4/2004 7:04:53 PM] [starrbucks] HE is willing..... needs your morning call on the market.....):):)

[1/4/2004 7:04:54 PM] [RJMGroup] You're welcome. I met Armand Morin, the guy who developed the software at the Internet Marketing SuperConference IV in Las Vegas in June 2002. Good guy.

[1/4/2004 7:05:11 PM] [StockStalker] Registration Key System and Reg Key Generator FREE!

[1/4/2004 7:05:20 PM] [StockStalker] Make your ebooks work on only one computer. You even get our Registration Key Generator to generate an UNLIMITED NUMBER OF REGISTRATION KEYS FREE

[1/4/2004 7:05:24 PM] [StockStalker] from the site

[1/4/2004 7:05:31 PM] [hotto] :):):)

[1/4/2004 7:06:36 PM] [w2jc] if ebooks are in PDF there is some basic protections that can be added... Paul should know about them

[1/4/2004 7:07:03 PM] [RJMGroup] Not really. Anyone can view a PDF just might not be able to change anything without a password.

[1/4/2004 7:07:17 PM] [StockStalker] and can save as

[1/4/2004 7:07:27 PM] [w2jc] believe you can pw before you open the document... cant open without the pw

[1/4/2004 7:07:40 PM] [StockStalker] and even more if they have acrobat

[1/4/2004 7:07:49 PM] [RJMGroup] Yes, but the password is the same on every PDF so you just forward the PDF with the password to your friend.

[1/4/2004 7:07:51 PM] [StockStalker] but they can save as and make the copy unprotected

[1/4/2004 7:08:39 PM] [RJMGroup] The plus to PDFs are Windows and Mac people get the same document though.

[1/4/2004 7:08:40 PM] [w2jc] PDF can require pw to open, and can prevent printing and/or copying and/or changing... depending on items selected by originator

[1/4/2004 7:09:04 PM] [RJMGroup] Yes, but the password gets sent with the PDF to the friend. Not really much protection from piracy. :)

[1/4/2004 7:09:06 PM] [w2jc] you cannot saveas and over ride the pw in pdf

[1/4/2004 7:09:28 PM] [StockStalker] if u own full blow acrobat (not the reader) u can do much more

[1/4/2004 7:09:33 PM] [w2jc] biggest plus to pdf is that you SEE exactly what the author wanted a printer to see

[1/4/2004 7:09:58 PM] [RJMGroup] Well, you can do that with an eBook generator too. It's just HTML.

## ClubHome

[1/4/2004 7:10:22 PM] [w2jc] html does not look the same on different computers or with different screens, etc. very variable  
[1/4/2004 7:10:47 PM] [RJMGroup] PDFs are great for free reports but lousy for pay eBooks from a piract standpoint.  
[1/4/2004 7:11:04 PM] [StockStalker] but i think the topic was about protecting the author. and ebook dose that better period  
[1/4/2004 7:11:09 PM] [RJMGroup] Right.  
[1/4/2004 7:11:10 PM] [StockStalker] does  
[1/4/2004 7:11:13 PM] [w2jc] and micromush Word is the worst of all... if recipient has a different default printer, even the page breaks can get all screwed up  
[1/4/2004 7:11:34 PM] [RJMGroup] I was just referring to the original topic of eBook piracy.  
[1/4/2004 7:12:00 PM] [w2jc] like everything else, if someone wants to rip it off they will find a way... even if it takes them a month  
[1/4/2004 7:12:04 PM] [StockStalker] ditto... all my stuff has been done in acrobat.. i love it... but not the best for intellectual property stuff  
[1/4/2004 7:12:43 PM] [RJMGroup] Yeah, but the results of breaking an encryption key aren't worth it for an eBook. Passing a PDF with the password is to an end user.  
[1/4/2004 7:12:53 PM] [StockStalker] if the site he gave us works as it said... with a ger key.... it is the equivalent of tcnet security.. lets see u break that  
[1/4/2004 7:12:54 PM] [w2jc] just like you can go to the copier and copy the pages of a paper book and mail them to your friend... just a matter of cost diff between digital and paper  
[1/4/2004 7:13:13 PM] [RJMGroup] You can disable printing from an eBook hence no copier.  
[1/4/2004 7:13:30 PM] [StockStalker] time to fold w2!!!!!!  
[1/4/2004 7:13:35 PM] [RJMGroup] I think it's cheaper to use a copier than break 128-bit encryption. :)  
[1/4/2004 7:13:44 PM] [StockStalker] and more labor  
[1/4/2004 7:14:10 PM] [w2jc] but if you have the pw and you can open the eBook on the screen you can take screen shots and then print from them !!!  
[1/4/2004 7:14:26 PM] [StockStalker] files are so easy to send that u get the amway effect and it is all over the net... but if everyone has to copy and go to hard copy... too much work and not much damage  
[1/4/2004 7:14:41 PM] [StockStalker] printing is not the problem  
[1/4/2004 7:14:55 PM] [RJMGroup] HAHA! Ok, you got me there. You could do screenshots. I'm sure there are people with no lives who will do that too.  
[1/4/2004 7:14:58 PM] [StockStalker] that is a small % of piracy

## ClubHome

[1/4/2004 7:15:35 PM] [RJMGroup] It's about levels of piracy. The harder it is the greater the recovered profits.

[1/4/2004 7:15:42 PM] [StockStalker] it is the wholesale theft and forwarding of files that is the problem... that is why the ebook encryption is better... capichely

[1/4/2004 7:15:45 PM] [JoRichDaddy] I just hope my PC never crashes after the initial password is set! I've lost two PCs in two years to surge and lightning.

[1/4/2004 7:15:51 PM] [w2jc] i'm sure all of us who admire Hotto enough to pay \$250 for membership are not going to go around pirating his stuff ...

[1/4/2004 7:15:53 PM] [StockStalker] jsut like tcnet

[1/4/2004 7:15:57 PM] [StockStalker] machine keys

[1/4/2004 7:16:11 PM] [RJMGroup] The developer could send you a new key, JoRichDaddy.

[1/4/2004 7:16:18 PM] [StockStalker] different issue....

[1/4/2004 7:16:26 PM] [StockStalker] but if u want to go that way then ok

[1/4/2004 7:16:35 PM] [hotto] I saw that, Jim...:8

[1/4/2004 7:16:42 PM] [RJMGroup] Right. Everyone on here is honest. Plus, it only takes ONE person to then exponentially increase the disturbution from there.

[1/4/2004 7:16:49 PM] [hotto] Back to work , here... lol

[1/4/2004 7:16:50 PM] [StockStalker] exactly

[1/4/2004 7:17:05 PM] [StockStalker] just one file to a non member and the geometrical piracy begins

[1/4/2004 7:17:24 PM] [RJMGroup] Yup, Hotto could become the Napster of stock traders. HAHA!

## ClubHome

[1/4/2004 10:15:27 PM] [hotto] I usually take some off at targets... even minor ones.. Then.. try to add-back on PBs..

[1/4/2004 10:16:31 PM] [AllWeOwn] got it; jsut recalled that on one ITIG run you passed a scalp becaesu it was obviously moving right on up thru it

[1/4/2004 10:18:40 PM] [hotto] yes.. that was on the 2nd approach to 6.13.. I think... Now.. If ADCT runs up.. to say 3.25.. then does another PB to 3.00... On next runup... I will Not sell any ADCT at the 3.21 point.. Instead.. wait for next target...

[1/4/2004 10:19:22 PM] [hotto] In fact... will be ready to add-to Again. over 3.21.. on that 2nd run... giving me a larger posn.. than I have now..

[1/4/2004 10:20:22 PM] [AllWeOwn] so let me see if I have this right; you will scalp near 3.21 on this run; then: you will add around 3 (or wherever it PB is) then you will not scalp on NEXT run, instead add

[1/4/2004 10:20:51 PM] [AllWeOwn] and wait for 4.10

[1/4/2004 10:20:53 PM] [hotto] Correct ... The Hotto - version of a Pyramid..

[1/4/2004 10:21:20 PM] [AllWeOwn] buy low sell high buy highre sell near top

[1/4/2004 10:21:45 PM] [hotto] yes... AND.. Help the Trend.. as we go... Incl... help the PBs..

[1/4/2004 10:21:56 PM] [AllWeOwn] or buy lower then buy higher but NEVER sell low or something like that lol

[1/4/2004 10:22:19 PM] [AllWeOwn] ok so adding at the PB's helps keep it from collapsing?

[1/4/2004 10:22:34 PM] [hotto] note.. I believe in the need for sharp PBs.. when Targets are hit.. I act to assist..

[1/4/2004 10:22:58 PM] [hotto] With good deep PBs... gives new supports.. to work from..

[1/4/2004 10:23:38 PM] [AllWeOwn] so your profit taking helps create the PB, which creates the new support; which helps create the base for next run
