[1/21/2004 8:14:57 AM] [meisterhund] looks like room to 25 FORM imho fepo

[1/21/2004 8:16:28 AM] [hotto] dwells - yes. Analyst opinions are usually good for distorting a trend for about a day to a day -and-a-half..

[1/21/2004 8:17:01 AM] [meisterhund] hotto...holding WEBM through earnings tonite?

[1/21/2004 8:17:29 AM] [dwells129] thx hotto for reply, heading to work.

[1/21/2004 8:18:08 AM] [hotto] I almost always give the analyst the 1st day. Let his opinion push the stock price. Then enter.

[1/21/2004 11:19:43 AM] [hotto] For Garzarelli... I use her knowledge of Sector and Group rotation throughout the Econ Cycles..

[1/21/2004 11:20:01 AM] [dlc] elaine... always institutional but started a service a few years ago for us small guys and I joined right up front, don't remember the year but I dumped her shortly before she pulled the plug on the venture

[1/21/2004 11:20:07 AM] [hotto] For years.. I have picked better stocks than she has..

[1/21/2004 11:21:09 AM] [VJnet] probably syatt...she has fallen out of favor...but still cool.

[1/21/2004 11:24:07 AM] [hotto] Garzarelli's model.. using Interest Rates.. called the "Exit" early in 1987...Fed had raised rates - I think - 11 times.. before the crash

[1/21/2004 11:24:39 AM] [hotto] I did not sell out when she went neg.. on the model.. I know other things...

[1/21/2004 11:24:53 AM] [hotto] But.. was aware of her call..

[1/21/2004 11:25:10 AM] [hotto] I had a bunch of PUs.. going into the crash..

[1/21/2004 11:25:27 AM] [Investortrader] I remember that, she missed the last leg up

[1/21/2004 11:25:35 AM] [hotto] Until that time.. Crash day was my single biggest gain... ever

[1/21/2004 11:26:00 AM] [hotto] Would have been better.. but.. could not sell all the puts in time

[1/21/2004 11:26:19 AM] [Investortrader] I think I was long the D-mark on crash day, hadn't started trading stocks yet

[1/21/2004 11:26:39 AM] [hotto] still - Nothing like last Friday

Will not see immediate impact on earnings before 2/19 but may get few contracts. Entry into market not hard - EMRG would need to be careful of competitors. Key is how fast they gain the market, with existing 'approved' product.
