[12/12/2003 12:00:37 AM] [Investortrader] Request for RHAT
[12/12/2003 12:01:42 AM] [Investortrader] Pop today coule have been caused by the IBM news with it
[12/12/2003 12:01:52 AM] [Investortrader] Expanding relationship with them
[12/12/2003 12:03:29 AM] [Investortrader] It scouted above the recent highs around the end of Nov first days of Dec
[12/12/2003 12:04:08 AM] [happy2be] check out vclk wstl
[12/12/2003 12:05:11 AM] [Investortrader] It did go up on increased vol but OBV is still lagging a bit, but better than MOT
[12/12/2003 12:05:54 AM] [Investortrader] Get to those in a min happy
[12/12/2003 12:06:28 AM] [Investortrader] Again I'd want to see a DBO here to make sure it didn't just fall back again
[12/12/2003 12:06:57 AM] [Investortrader] The OBV does look like it made a lower low on this dec low
[12/12/2003 12:07:26 AM] [Investortrader] Good vol upside would correct that quickly, but it is a warning sign
[12/12/2003 12:07:29 AM] [Investortrader] To me
[12/12/2003 12:08:09 AM] [Investortrader] Bollinger Bands narrowing on price and OBV, so it coule be ready to pop ... DBO on vol would do it for me
[12/12/2003 12:09:43 AM] [Investortrader] Looking at the 5's looks like the IBM announcement came out just after 2:30
[12/12/2003 12:10:09 AM] [Investortrader] Just have to wait and see on this one if it can follow-thru
[12/12/2003 12:10:16 AM] [Investortrader] On to VCLK ...
[12/12/2003 12:11:58 AM] [Investortrader] Gap up a couple of days ago but lower close than where it opened
[12/12/2003 12:12:34 AM] [Investortrader] re-it buy on it by 1st Albany, target \$10 fo rthem
[12/12/2003 12:13:23 AM] [Investortrader] Their acquisition one would have to look in-depth to see if it's really good or bad news, depends on what they paid and what they are getting

[12/12/2003 12:13:39 AM] [Investortrader] I know nothing about it
[12/12/2003 12:14:10 AM] [Investortrader] It almost filled that gap yesterday on low vol
[12/12/2003 12:14:38 AM] [Investortrader] Today avg vol and couldn't break above the gap day high
[12/12/2003 12:14:52 AM] [Investortrader] But still up nicely
[12/12/2003 12:15:56 AM] [happy2be] im going to watch cmos lab cytc wstl and driv was on my list also
[12/12/2003 12:17:45 AM] [Investortrader] This one may back and fill a bit tomorrow since it ran up to close to the gap high day but cound't break over it
[12/12/2003 12:19:36 AM] [Investortrader] I like the higher bottom in Dec and looks lke higher OBV on that bottom also
[12/12/2003 12:19:52 AM] [Investortrader] Not by much maybe
[12/12/2003 12:20:40 AM] [Investortrader] I need to get to bed soon, will look at the other ones you mentioned happy and see if anything hits me in the eye ... anyone else better hurry if you want me to look :)
[12/12/2003 12:21:53 AM] [Oviedojo] thanks for the reviews .. GN
[12/12/2003 12:22:19 AM] [Investortrader] Welcome Ovie :)
[12/12/2003 12:22:54 AM] [Investortrader] WSTL, DBO, FDU, horrible OBV however, probably just a bounce candidate
[12/12/2003 12:23:39 AM] [Investortrader] CMOS much better OBV, price made new low while OBV didn't
[12/12/2003 12:24:16 AM] [Investortrader] Also had a 2-day DBO today
[12/12/2003 12:24:37 AM] [Investortrader] Yesterday was nice small range in price also
[12/12/2003 12:26:37 AM] [Investortrader] re-it buy on it by AmTEch in the notes, twice in teh last week
[12/12/2003 12:27:05 AM] [Investortrader] This one looks better than the last two, worth watching
[12/12/2003 12:28:04 AM] [Investortrader] Also FDU a DBO tomorrow on vol would do it for me
[12/12/2003 12:28:33 AM] [Investortrader] On all these buys, careful if the market reverses, semi's can move fast
[12/12/2003 12:29:07 AM] [Investortrader] LAB, rumor on it is it's been moving because of the COCO fiasco last week
[12/12/2003 12:29:44 AM] [Investortrader] Good vol, good OBV, might be coming up on resistance here
[12/12/2003 12:29:57 AM] [Investortrader] A little extended and too close to that

ClubHome

resistance for my taste

[12/12/2003 12:30:39 AM] [Investortrader] CYTC moved up filled gap, on lower vol ...

[12/12/2003 12:30:54 AM] [Investortrader] Doesn't really interest me

[12/12/2003 12:31:48 AM] [Rookie] I've got Feb. 15 calls on CYTC so I'm happy!

[12/12/2003 12:32:19 AM] [Investortrader] you've definately got time on your side there :)

[12/12/2003 12:32:41 AM] [Investortrader] I'd just be a bit leery on the lower vol, could just be filling the gap to fall again

[12/12/2003 12:32:57 AM] [Investortrader] But ...

[12/12/2003 12:33:15 AM] [Investortrader] It is above the 50sma now, and might ride the upper Bolinger band

[12/12/2003 12:33:16 AM] [Rookie] Good thought. I'd better be careful

[12/12/2003 12:34:03 AM] [Investortrader] As the BB's have consolidated which usually means a good move is coming ... just be careful because if it drops back down will probably fail (I know nothing of the comppany)

[12/12/2003 12:34:31 AM] [Rookie] OK. Thx.

[12/12/2003 12:34:51 AM] [Investortrader] DRIV, nice vol upmove, needs to clear the 12/2 high of 25

[12/12/2003 12:35:09 AM] [Investortrader] Which will set up a short term dbl bottom

[12/12/2003 12:35:42 AM] [Investortrader] Looks like OBV made slightly lower low when price didn't ... but that's ok if it breaks 25 on vol

[12/12/2003 12:36:02 AM] [Investortrader] OBv is already higher than on 12/2

[12/12/2003 12:36:50 AM] [Investortrader] Looks like 28 or so would be the target on that move, or the 50sma where it is when it meets it

[12/12/2003 12:37:16 AM] [Investortrader] Looks like some resistance around that 28 area give or take (just eyeballing it here) also

[12/12/2003 12:37:34 AM] [Investortrader] I was asked to expand a little o how I use OBV

[12/12/2003 12:37:53 AM] [Investortrader] And what indicators I use on it

[12/12/2003 12:38:41 AM] [Investortrader] This is my main template, I keep it pretty simple

[12/12/2003 12:38:51 AM] [Investortrader] Bollinger bands on price and OBV

[12/12/2003 12:38:57 AM] [Investortrader] 50sma on each

[12/12/2003 12:39:04 AM] [anaiz] thanks for sharing

[12/12/2003 12:39:10 AM] [Investortrader] 20sma for the middle Bollinger Band

[12/12/2003 12:39:44 AM] [Investortrader] A few other templates I also look at but this is my main one, the KISS principle

[12/12/2003 12:40:30 AM] [Investortrader] I look for price vol patterns (NOT just price

ClubHome

pattern, vol must confirm)

[12/12/2003 12:40:46 AM] [Investortrader] And OBV divergences within the BB's and against price

[12/12/2003 12:41:25 AM] [Investortrader] So if OBV tags the lower BB on one bottom, and doesn't on another, positive divergence

[12/12/2003 12:41:44 AM] [Investortrader] This isn't an example of that, this chart is just to show the indicators I use on my main template

[12/12/2003 12:42:25 AM] [Investortrader] Even if OBV makes a slightly lower low, if it tagged first low and didn't second low still a pos divergence within the BB's

[12/12/2003 12:42:54 AM] [Investortrader] And of course if price makes a dbl bottom or lower low, and BB's hold up, very nice pos divergence

[12/12/2003 12:43:17 AM] [Investortrader] Hotto has 2 discussions on OBV, definately worth reading .. we use it in very much the same way

[12/12/2003 12:43:50 AM] [Investortrader] I've used it since John Bollinger came out with it on FNN, I have a feeling Hotto may have been using it that long or close also

[12/12/2003 12:44:01 AM] [Investortrader] Though I've never asked

[12/12/2003 12:44:36 AM] [Investortrader] 50sma more important in my opinion on the price than on the OBV, but I still have it up ... notice this is not a very cluttered chart

[12/12/2003 12:44:52 AM] [Tradeboy] Invest- just logged on could u please show again your KISS templatE ?? Is it ITIG ??

[12/12/2003 12:45:04 AM] [Investortrader] Yes Tradeboy

[12/12/2003 12:45:27 AM] [Investortrader] This is my main template I always look at, I like to keep it simple

[12/12/2003 12:45:44 AM] [Tradeboy] Many thanks for that. :)

[12/12/2003 12:45:48 AM] [Investortrader] Welcome :)

[12/12/2003 12:46:46 AM] [Investortrader] Everyone interested in OBV make sure you read those two discussions of Hotto's, he goes over a couple of charts in them ... make sure you have the dates right by scrolling back on the charts, I think they are from last year

[12/12/2003 12:47:19 AM] [Investortrader] I didn't at first when I read them and thought .. what the heck is he talking about? lol

[12/12/2003 12:47:44 AM] [Rookie] I did the same

[12/12/2003 12:49:02 AM] [bmweyrauch] Good Evening everyone...hopefully many here in hotto club have made their recent request for OBV to be added to PCF indicators

Those who have options bought couple of days ago (Me) - contract is adjusted today to receive equivalent AFX shares and 0.67/share on exercise. Guess what I get if I bought options at below 0.67? Yep . If you are interpreting this differently or have different information please Prvt. Msg to me.

[12/12/2003 4:39:32 PM] [Investortrader] I use OBV pretty heavy, and suggest everyone interested in that indicator also read the two Hotto discussions on it, good stuff

[12/12/2003 4:39:40 PM] [mweathers] Investor- could you please attach your

template to a stock . That way it is easy to copy. Then let us know which stock/date.

Thanks

[12/12/2003 4:40:57 PM] [Investortrader] There it is, not sure if I can do it in profile but will look for a way

[12/12/2003 4:41:30 PM] [Investortrader] Not to comment on the stock but just to show the template

[12/12/2003 4:41:49 PM] [mweathers] What you do is attach a note in the notes on lesft side. Display the chart. Then anyone can copy at any time by looking for that note

[12/12/2003 4:41:59 PM] [ButterflySpread] ty investor will try it

[12/12/2003 4:42:50 PM] [Kuf] you can copy it off his shared chart right now

[12/12/2003 4:47:43 PM] [ProfitTrader] Run time error '9' and '6' - Support informs - ay be related to known video driver issue. Not confirmed yet. They came back after reporting again. I need to call 1-919-408-0542. I will do it some other day when I am in mode to do so.

[12/12/2003 4:48:26 PM] [Investortrader] What video card do you use?

[12/12/2003 4:48:53 PM] [ProfitTrader] SiS - Inbuilt for Sony VAIO desktop...

[12/12/2003 4:50:26 PM] [Investortrader] I have a different one, and probably different than others too who get the same problem ... they saying all vid cards they have an issue with?

[12/12/2003 4:52:03 PM] [BoBoTrader] I had that problem the other day but in the note section, they told me it was my video card also. I called HP and it had nothing to do with it.

[12/12/2003 4:53:10 PM] [ProfitTrader] They never came back with confirmation. I think it has more to do with programming error - general classification is memory overrun - trying to use the memory location which has not been preallocated. Will follow-up again with them when it happens again. Will keep club posted on any findings.

[12/12/2003 4:54:12 PM] [Investortrader] Thanks Profit :)
