

Chat Logs for hotto 1/14/2004

[1/14/2004 12:01:04 AM] [SeattleSteve] It would be nice to make 5 times as much for the whole year as we have made in the first eight days

[1/14/2004 12:01:07 AM] [ChartMonkey] need to create that reality first, otherwise, there is "no signal" as far as a projectable compounding rate.

[1/14/2004 12:01:41 AM] [StockStalker] ur in a bull mkt... how u gonna factor what u lose when it stops

[1/14/2004 12:01:57 AM] [SeattleSteve] Another warning that market conditions are likely to change before too long

[1/14/2004 12:02:02 AM] [StockStalker] need to lean to be short now not later

[1/14/2004 12:02:27 AM] [SeattleSteve] Oz, what are some of the kinds of patterns you have been taking for shorts?

[1/14/2004 12:02:44 AM] [SeattleSteve] And/or examples

[1/14/2004 12:03:17 AM] [StockStalker] FRNT PLMO CAH AGE ETC

[1/14/2004 12:03:32 AM] [AlanD] StockStalker, you got me beat. I'm only up about 20% YTD.

[1/14/2004 12:03:38 AM] [StockStalker] impulse down and then short the rally

[1/14/2004 12:03:57 AM] [SeattleSteve] FRNT -- nice chart for a short. Good industry, too

[1/14/2004 12:03:58 AM] [ChartMonkey] i found from my equity curve that during choppy times my good runs would get erased quickly due to deploying cash too slow for then-current rhythm of the market, & not booking open profits.

[1/14/2004 12:04:09 AM] [StockStalker] hard to do with big acct to let me tell ya... cuz i do bout 40 at a time and try to be the averages

[1/14/2004 12:04:21 AM] [ChartMonkey] was too low on cash at intermediate turns

[1/14/2004 12:04:24 AM] [AlanD] The beauty of trading parttime is that you don't rely on the income to make a living. If one has a bad day, no big deal.

[1/14/2004 12:05:09 AM] [StockStalker] the only beauty I see in it is that u dont have to suffer the wiggles intraday

[1/14/2004 12:05:12 AM] [SeattleSteve] Oz, thanks a million. All four of those are good charts to short.

[1/14/2004 12:05:16 AM] [StockStalker] can trade tuff and to the plan

[1/14/2004 12:05:21 AM] [SeattleSteve] I appreciate the heads up
[1/14/2004 12:05:48 AM] [StockStalker] I think they are all extended tho bro... i shot them at the top of the swing
[1/14/2004 12:05:59 AM] [ChartMonkey] and, didn't hedge as per oz and/or other hedging strategy
[1/14/2004 12:06:04 AM] [StockStalker] I am a swing trader and buy and sell before the momo
[1/14/2004 12:06:55 AM] [ChartMonkey] oz any comments re Fannie/Freddie for short plays
[1/14/2004 12:06:57 AM] [AlanD] I catch a stock often as the momo is kicking in. Don't like to sit on dead money.
[1/14/2004 12:07:20 AM] [StockStalker] I sit on dead money all the time
[1/14/2004 12:07:33 AM] [AlanD] You have more patience than I.
[1/14/2004 12:07:35 AM] [StockStalker] usually a few hours early
[1/14/2004 12:07:40 AM] [ChartMonkey] heh.
[1/14/2004 12:07:54 AM] [StockStalker] less stress that way
[1/14/2004 12:07:59 AM] [AlanD] CM, FNM is too close to support to short.
[1/14/2004 12:08:03 AM] [StockStalker] good prices and tight stops too
[1/14/2004 12:08:48 AM] [StockStalker] FNM if I was short the good entry (the dbl top) i would be covering it all here...
[1/14/2004 12:08:52 AM] [ChartMonkey] agree close to support - should clarify ... i try to think of setup and entry separately - not ready for entry
[1/14/2004 12:09:16 AM] [tobydad] CHGO
[1/14/2004 12:09:38 AM] [StockStalker] am currently having a chat with loogy over at my Tcnet club bout some shorts.. will talk specific stocks there

[1/14/2004 12:10:14 AM] [ChartMonkey] ok, turned on oz channel ...
[1/14/2004 12:12:42 AM] [SeattleSteve] STCR -- interesting short setup, too
[1/14/2004 12:13:57 AM] [ChartMonkey] yes think we are in agreement that this isn't the entry point though, just the mortal wound that says get ready to short
[1/14/2004 12:14:34 AM] [SeattleSteve] LNCR as a short
[1/14/2004 12:14:38 AM] [ChartMonkey] oops, check STCR news; merger.

[1/14/2004 5:21:09 PM] [acmetrader] that is odd

[1/14/2004 5:25:41 PM] [RAS34] Cramer..CNBC..says it must be good IBM news..and notes options expiration this Friday..so IBM moves it up

[1/14/2004 5:25:58 PM] [meisterhund] that IBM move should freeze shorts in their tracks

[1/14/2004 5:26:16 PM] [meisterhund] at least until 7:30 tomorrow morning

[1/14/2004 5:26:45 PM] [acmetrader] they may have a buyout to announce or something and can't do it while earnings are pending

[1/14/2004 5:27:02 PM] [acmetrader] and acquisition is what I mean

[1/14/2004 5:27:31 PM] [starrbucks] IBM is scheduled for Jan 20.....is it being changed???

[1/14/2004 5:28:07 PM] [Oregongeordie] Yes..tomorrow morning

[1/14/2004 5:28:46 PM] [BobT732] hmmm IBM is helping balance DIA with JMP and INTC both being down

[1/14/2004 5:28:49 PM] [starrbucks] wow..that's manipulation for some important reason.....big time

[1/14/2004 5:29:18 PM] [acmetrader] per their legal counsel is my guess

[1/14/2004 5:29:29 PM] [oddsbettor] INTC coming back a bit, down less than a buck

[1/14/2004 5:30:30 PM] [RkyMtnFool] IBM just ruined the logic behind my AH DIA short. Covered with small loss.

in it

[1/14/2004 6:17:41 PM] [Investortrader] And probably some of you are too

[1/14/2004 6:18:22 PM] [Investortrader] I was watching it today as it sold off, was on lower volume than yesterday upmove

[1/14/2004 6:18:39 PM] [Investortrader] Not worried here yet, and OBV still looks good on it

[1/14/2004 6:19:18 PM] [Investortrader] If there were more volume today I would have probably gotten out

[1/14/2004 6:19:40 PM] [Investortrader] May just be meandering here, still in contact with the upper BB

[1/14/2004 6:19:50 PM] [beach] share your chart 1 more time please IT?

[1/14/2004 6:20:10 PM] [Investortrader] Oops, forgot to turn share on, thanks

[1/14/2004 6:20:32 PM] [Investortrader] And it didn't break yesterdays lod

[1/14/2004 6:20:36 PM] [beach] thx

[1/14/2004 6:20:43 PM] [Investortrader] Welcome beach :)

[1/14/2004 6:20:51 PM] [beach] ;)

[1/14/2004 6:21:07 PM] [Investortrader] So I am still in it, and will wait to see what tomorrow brings us

[1/14/2004 6:21:37 PM] [Investortrader] It is down some in AH

[1/14/2004 6:22:00 PM] [Investortrader] If it continues down tomorrow, I'll start to worry some

[1/14/2004 6:22:30 PM] [Fern] it, what is your sell point

[1/14/2004 6:22:57 PM] [Investortrader] I'm using a stop under the middle BB and the LR30 here

[1/14/2004 6:23:59 PM] [Investortrader] It may drift back down and test there, but not breaking yesterdays lod is at least some good news

[1/14/2004 6:24:38 PM] [Fern] looks like may bounce off ma50 on hourly

[1/14/2004 6:25:13 PM] [Investortrader] It just might, and that won't take me out as that is over the middle BB on the daily

[1/14/2004 6:25:44 PM] [Investortrader] Looks like that is right around yesterdays lod also

[1/14/2004 6:26:03 PM] [Stixman] IT EGHT has a soap buy on it on the daily as well as a MOBO buy. OBV looks like it has turned down tho. Mixed Signals

[1/14/2004 6:26:41 PM] [Investortrader] Yes, OBV turned down a bit on the sell-off today

[1/14/2004 6:26:54 PM] [Investortrader] OBV is still up around it's upper BB

[1/14/2004 6:27:05 PM] [Investortrader] Not worried at all on the OBV

[1/14/2004 6:27:21 PM] [Investortrader] Unless we see a volume sell-off tomorrow

[1/14/2004 6:27:50 PM] [Investortrader] I still have confidence in it
[1/14/2004 6:28:28 PM] [Investortrader] Not much more to say on it today as I covered it yesterday pretty well, just wanted to let everyone know how I look at todays action and the chart
[1/14/2004 6:28:58 PM] [Fern] FNSR?
[1/14/2004 6:29:05 PM] [Investortrader] FNSR ...
[1/14/2004 6:29:38 PM] [dpg45] NT
[1/14/2004 6:29:55 PM] [Investortrader] Came down to test the 50sma today, then bounced nicely off it to close in the upper half of todays range
[1/14/2004 6:30:15 PM] [Investortrader] Still looks good to me
[1/14/2004 6:30:22 PM] [Investortrader] OBV still ok on it too
[1/14/2004 6:31:11 PM] [Investortrader] Out of contact with the upper BB but still has a couple days to get back to it, might do it tomorrow with it testing successfully the 50sma today
[1/14/2004 6:31:22 PM] [bluesman] if eigh Had more vol why would yo have gotten out of it?
[1/14/2004 6:31:40 PM] [Investortrader] bluesman, because a high volume sell-off would mean something is wrong
[1/14/2004 6:32:00 PM] [bluesman] ok
[1/14/2004 6:32:30 PM] [Fern] i purchased at 3.52 today, would you set stop at around Ir-30 hich is just below ma50?
[1/14/2004 6:32:33 PM] [Investortrader] And it would probably at least go down to test the middle BB so may as well get out now, might do that tomorrow, but maybe not
[1/14/2004 6:32:57 PM] [Investortrader] On FNSR Fern? I would go a few cents under it
[1/14/2004 6:32:59 PM] [BossFan] higher vol means the big boys (mutual funds, etc..) are dumping. When that train goes, best to get out of the way
[1/14/2004 6:33:05 PM] [Dragon1] middle BB? that is the 20sma, correct?
[1/14/2004 6:33:09 PM] [Investortrader] Right BossFan
[1/14/2004 6:33:16 PM] [lars] It does not FNSR look like a Cup and Handle???
[1/14/2004 6:33:21 PM] [Investortrader] Yes Dragon, by definition
[1/14/2004 6:33:50 PM] [Investortrader] Not really lars, I don't see that
[1/14/2004 6:33:53 PM] [bluesman] Gotta go out for a meeting, will check logs later, thank IT for your work
[1/14/2004 6:34:05 PM] [Investortrader] Though it might be setting up the handle portion now
[1/14/2004 6:34:11 PM] [Investortrader] Welcome bluesman :)

[1/14/2004 6:34:48 PM] [Investortrader] I covered FNSR last night too, so not too much to say on it more today

[1/14/2004 6:35:04 PM] [Investortrader] NT....

[1/14/2004 6:35:08 PM] [BossFan] SNDK?

[1/14/2004 6:35:08 PM] [poppop_1943] re:EGHT. Looks like someone dumped about 100k shares AM. Price dn to 5.25

[1/14/2004 6:35:45 PM] [Fern] ty it

[1/14/2004 6:36:15 PM] [Investortrader] I did notice the lower price in AH on EGHT, still over yesterdays lod

[1/14/2004 6:36:28 PM] [Investortrader] NT, has had a big runup, hopefully no one bought it way up here

[1/14/2004 6:37:35 PM] [Investortrader] Fairly big volume today but no bigger than yesterday, probably normal profit taking

[1/14/2004 6:38:06 PM] [Investortrader] Those who bought it in the low 4's before the breakout have a nice 50% gain in it

[1/14/2004 6:38:17 PM] [dpg45] I bought it 5.56.....NT

[1/14/2004 6:39:11 PM] [Investortrader] That's a bit too high risk for me dpg, but you are still showing profits so not bad

[1/14/2004 6:39:22 PM] [lars] DR1 I agree ty

[1/14/2004 6:40:16 PM] [Investortrader] One thing I don't like is how NT opened near the hod and closed near the lod, but still after such a runup probably just pt

[1/14/2004 6:40:57 PM] [Investortrader] Let's look at the 5's

[1/14/2004 6:42:02 PM] [Investortrader] Did have some selling going into the close

[1/14/2004 6:42:41 PM] [Investortrader] And is down a few cents in AH

[1/14/2004 6:43:53 PM] [Investortrader] Looks like it could continue down tomorrow, and may end up testing the LR30 before the week is over

[1/14/2004 6:44:06 PM] [Fern] on the hourly soap sell signal on the 12th

[1/14/2004 6:45:09 PM] [Investortrader] If I owned some I would probably take some profits tomorrow

[1/14/2004 6:45:36 PM] [Investortrader] And then see how it reacted if it got down to the LR30

[1/14/2004 6:46:19 PM] [Investortrader] Especialy since it sounds like the market didn't like INTC and YHOO numbers, even though they beat

[1/14/2004 6:46:50 PM] [Investortrader] I didn't hear guidance though if they gave any

[1/14/2004 6:48:02 PM] [Investortrader] And if I saw volume selling on NT, whether it opens up or down, I would probably sell all and re-evaluate at the LR30

[1/14/2004 6:48:30 PM] [Investortrader] Any questions on NT?

[1/14/2004 6:49:00 PM] [Dragon1] just one cavate, the LR30 is also a 50%

[1/14/2004 6:52:57 PM] [Investortrader] That would put it back in contact with the upper BB
[1/14/2004 6:53:38 PM] [Fern] caught the low today on hourly when it bounced off lower bb

50sma

[1/14/2004 7:00:13 PM] [Investortrader] Remember how important the 50sma is, and how I said most stocks will fail on their first attempt at it

[1/14/2004 7:00:30 PM] [BossFan] Yea, I sold at 66.26 today. Going to MA20 maybe for re-entry?

[1/14/2004 7:00:47 PM] [Investortrader] Yesterday it opened around there and and closed lower, was the day to take profits

[1/14/2004 7:01:22 PM] [Investortrader] Remember you should always take at least some profits, if not all, on first approach to the 50sma

[1/14/2004 7:02:09 PM] [BossFan] ty Investor, will do next time. Still made +\$7/sh on it

[1/14/2004 7:02:14 PM] [Investortrader] If it breaks thru it you can always buy it back a bit higher, much better than not taking profits since usually the 50sma will turn it back

[1/14/2004 7:03:06 PM] [Investortrader] It does look like it will test the middle BB

[1/14/2004 7:03:40 PM] [Investortrader] At least

[1/14/2004 7:03:43 PM] [BossFan] gotta run...ty Investor for your time

[1/14/2004 7:04:11 PM] [Investortrader] The late Dec base it made is also in the area of the middle BB now

[1/14/2004 7:04:32 PM] [Investortrader] But today was definately not a good day for the chart

[1/14/2004 7:04:53 PM] [Investortrader] I would hold off on buying it at the middle BB here

[1/14/2004 7:05:30 PM] [Investortrader] Any big volume will probably push it down thru the middle BB

[1/14/2004 7:06:36 PM] [Investortrader] Any questions on SNDK?

[1/14/2004 7:08:21 PM] [Rookie] Hello All. Just received my Candlestick book by Bigalow in the mail. If any other Canadians decide to order it, be aware that out wonderful Federal Gov't will slap a GST fee and a handling fee on it when it gets to the border so expect to spend another \$12 on top of the book price.

[1/14/2004 7:08:41 PM] [Investortrader] I just got mine too Rookie!

[1/14/2004 7:08:58 PM] [Investortrader] All I've read so far, is the inside flap lol

[1/14/2004 7:10:53 PM] [AllWeOwn] inv why do you use simple MA instead of Exp?
[1/14/2004 7:10:56 PM] [Investortrader] Hi Candlestick :) Looking forward to reading it
[1/14/2004 7:11:15 PM] [Investortrader] Heard all kinds of good things about it
[1/14/2004 7:11:27 PM] [Investortrader] AllWeOwn, I always use simple
[1/14/2004 7:11:53 PM] [AllWeOwn] I see that; wondering why?
[1/14/2004 7:12:33 PM] [Investortrader] Not many stocks react to the exp, and I think the exp was so mvg avg crossovers would be quicker ... but mvg avg crossovers don't work so well so no reason to use them, or to use exp because of that
[1/14/2004 7:12:52 PM] [Stixman] IT wait until this weekend to read Steve's book because once you start it you will not want to put it down.
[1/14/2004 7:13:21 PM] [Investortrader] Good idea Stixman, I do love learning about the markets too!
[1/14/2004 7:13:37 PM] [AllWeOwn] ok yes makes sense; thanks

[1/14/2004 7:14:59 PM] [Investortrader] Will be good to at least learn the names of all the patterns, I've always used candlesticks before I even knew about them, meaning high, low, open and close, even back when charting futures by hand ;)
[1/14/2004 7:15:50 PM] [Investortrader] Another thing on BKHM, been out of contact with the upper BB a few days now, but looking at the price/volume pattern ...
[1/14/2004 7:16:30 PM] [Investortrader] It could easily get volume tomorrow after the successful test of the LR30 on the low volume sell-off

[1/14/2004 7:21:17 PM] [Investortrader] Yes zohn
[1/14/2004 7:21:25 PM] [zohn] ty
[1/14/2004 7:22:11 PM] [Investortrader] NENG had a big volume sell-off in Dec, and has been building a base since then
[1/14/2004 7:23:34 PM] [Stixman] IT.. your making a big mistake! You'll be up all night reading it!
[1/14/2004 7:23:42 PM] [Investortrader] I might be! lol
[1/14/2004 7:23:59 PM] [Investortrader] If you see me all bleary eyed in the morning, you'll know :8
[1/14/2004 7:24:28 PM] [Investortrader] OBV is leading the price up in NENG, which looks good
[1/14/2004 7:24:43 PM] [StanS] are those "ten" inside days?
[1/14/2004 7:25:17 PM] [Investortrader] you mean inside the 12/29 day Stan?
[1/14/2004 7:25:26 PM] [StanS] yes
[1/14/2004 7:26:10 PM] [Investortrader] Usually inside day refers to the prior day, but I see your point
[1/14/2004 7:26:25 PM] [Investortrader] It looks like it has made a complex dbl btm
[1/14/2004 7:26:39 PM] [Investortrader] For that pattern to be valid, needs to get above the 12/29 hod
[1/14/2004 7:27:23 PM] [Investortrader] you could either wait to buy that breakout, or buy some here and add on the breakout
[1/14/2004 7:27:48 PM] [Investortrader] Since OBV is looking good buying here is ok in my opinion
[1/14/2004 7:28:00 PM] [acmetrader] How about ALTI?
[1/14/2004 7:28:21 PM] [AllWeOwn] so even tho vol looks below av on the candles, you say it is ok to buy due to OBV looking strong?
[1/14/2004 7:28:30 PM] [Investortrader] I put an order in AH for NENG after looking at it late in the day, but it didn't fill
[1/14/2004 7:28:41 PM] [AllWeOwn] without waiting for conf of a BO above 4.88
[1/14/2004 7:28:54 PM] [Stixman] There are numerous books that you can learn candlestick patterns from. Greg Morris and Steve Nison both have a couple books out there. But Steve's book is the only one that shows you how to apply what you have learned. Also very easy read. Nisons charts are several pages removed from the text deescribing the pattern. Makes it very difficult to read. I can usually read a book in a day or two. Took me 4 days to read Nison's. Greg Morris is easy to read and very clear explanations. But if you read Steves you don't need the others. JMHO
[1/14/2004 7:29:34 PM] [napleschip] and besides...steve is one of us.
[1/14/2004 7:29:35 PM] [Investortrader] Yes AllWeOwn, plus the price/volume pattern

ClubHome

of the whole base, dbl btm, and volume is picking up some on these recent up days as opposed to the 4 down days before

[1/14/2004 7:30:45 PM] [Investortrader] All things together make me think it will breakout, just don't know how long you may need to wait, shouldn't be too long as the BB's are getting skinny, and it has based about 4 weeks now

[1/14/2004 7:31:19 PM] [StanS] Thank You IT, dinner call

[1/14/2004 7:31:24 PM] [acmetrader] which stock you talking about IT?

[1/14/2004 7:31:31 PM] [Investortrader] Welcome Stan :)

[1/14/2004 7:31:36 PM] [Investortrader] acme, going over NENG now

[1/14/2004 7:31:40 PM] [acmetrader] thanks

[1/14/2004 7:31:57 PM] [Investortrader] I'll have an order in for it tomorrow, not sure where yet, but will have one in

[1/14/2004 7:32:48 PM] [Investortrader] Any questions on NENG?

[1/14/2004 7:33:27 PM] [acmetrader] do you track MACD?

[1/14/2004 7:33:48 PM] [acmetrader] It stayed positive during the basing here...

[1/14/2004 7:34:08 PM] [Investortrader] I use MACD Histogram acme, and use a bit shorter numbers, and use it for confirmation of how big a move I can expect

[1/14/2004 7:34:27 PM] [Investortrader] I use it a bit differently than most do

[1/14/2004 7:34:43 PM] [StockStalker] I is wut I is

[1/14/2004 7:35:05 PM] [acmetrader] so how do you read the macd on NENG?

[1/14/2004 7:35:43 PM] [acmetrader] mine is set up 3, 8, 13...yours?

[1/14/2004 7:35:58 PM] [Investortrader] Looks ok, not spectacular but in this sideways move for 4 weeks I would expect that, not really using it for this one

[1/14/2004 7:36:47 PM] [Investortrader] If my KISS template looks good, my secondary template which has MACD Histogram can't keep me out of the trade, just lets me know once a move starts how it might fare

[1/14/2004 7:37:10 PM] [Investortrader] On to ALTI ...

[1/14/2004 7:37:23 PM] [acmetrader] thanks

[1/14/2004 7:37:37 PM] [malealltrash] EVENING ALL

[1/14/2004 7:37:48 PM] [Investortrader] Hi male :)

[1/14/2004 7:38:21 PM] [malealltrash] TEST

[1/14/2004 7:38:24 PM] [Investortrader] This one looks good too, notice the down days are on much lower volume than the up days have been since the new year

[1/14/2004 7:39:00 PM] [Investortrader] Been riding the upper BB, and the OBV is confirming the new highs too

[1/14/2004 7:40:01 PM] [Investortrader] The angle of ascent is quite reasonable also

[1/14/2004 7:40:21 PM] [acmetrader] on the LR30

[1/14/2004 7:40:47 PM] [Investortrader] Yes, and the LR30 has held the pullbacks

ClubHome

since the new year started

[1/14/2004 7:41:09 PM] [Investortrader] Though I wouldn't worry if it broke it a bit on low volume

[1/14/2004 7:42:06 PM] [malealltrash] TEST

[1/14/2004 7:42:17 PM] [Investortrader] And Nano stuff has been a hot sector too

[1/14/2004 7:42:21 PM] [acmetrader] fail

[1/14/2004 7:42:24 PM] [acmetrader] lol

[1/14/2004 7:42:31 PM] [FreeSpirit] Hi Male!

[1/14/2004 7:43:01 PM] [acmetrader] Nanos tend to heat up when other naz sectors take a breather

[1/14/2004 7:43:10 PM] [lavenderangel] Hi, Male

[1/14/2004 7:44:06 PM] [Investortrader] Any questions on ALTI?

[1/14/2004 7:48:00 PM] [Bobtrader] YES

[1/14/2004 7:48:25 PM] [SeattleSteve] ALTI got hammered in the last two minutes of trading today. What gives?

[1/14/2004 7:48:41 PM] [Investortrader] Let's look at the 5's

[1/14/2004 7:50:01 PM] [acmetrader] big seller at the close

[1/14/2004 7:50:11 PM] [Investortrader] Anyone know if ALTI has earnings coming out tomorrow?

[1/14/2004 7:50:36 PM] [malealltrash] TEST

[1/14/2004 7:50:51 PM] [Bobtrader] WHEN

[1/14/2004 7:51:34 PM] [Dragon1] guess not

[1/14/2004 7:52:08 PM] [Investortrader] Who knows why they wanted out

[1/14/2004 7:52:24 PM] [Investortrader] But someone wanted out

[1/14/2004 7:52:41 PM] [AllWeOwn] ok male i bite what did you get tested for?

[1/14/2004 7:53:01 PM] [AllWeOwn] can you see your posts?

[1/14/2004 7:53:33 PM] [napleschip] male's gettin kinda testy.

[1/14/2004 7:53:56 PM] [AllWeOwn] lol ok that must be it naples

[1/14/2004 7:54:09 PM] [Bobtrader] have to be kind to those testy

[1/14/2004 7:54:32 PM] [napleschip] hi there all. male acts like he doesn't see his posts or ours.

[1/14/2004 7:54:56 PM] [Investortrader] Hi naples :)

[1/14/2004 7:55:09 PM] [napleschip] hello IT. life treat you well?

[1/14/2004 7:55:19 PM] [Investortrader] So far so good this year!

[1/14/2004 7:55:24 PM] [acmetrader] ATLI was down more after hours too, not much

[1/14/2004 7:55:25 PM] [lavenderangel] IT, can you look XMSR and see if it's buy soon?

[1/14/2004 7:55:27 PM] [cyberact] i don't see a selection under clob for hottoworks

club....am i looking in the right place..?

[1/14/2004 7:55:33 PM] [Investortrader] XMSR ...

[1/14/2004 7:55:38 PM] [cyberact] clubs

[1/14/2004 7:56:18 PM] [lavenderangel] not looking so great on your charts

[1/14/2004 7:56:49 PM] [Investortrader] Mixed signals on this one

[1/14/2004 7:56:53 PM] [acmetrader] hottoworks on page 2 of club lists cyberact

[1/14/2004 7:57:11 PM] [Investortrader] Bounced off the middle BB, but OBV doesn't look so hot, however ...

[1/14/2004 7:57:24 PM] [Investortrader] Well, lets look at the 5's first

[1/14/2004 7:57:26 PM] [lavenderangel] that's what i saw

[1/14/2004 7:57:33 PM] [Investortrader] Before that however

[1/14/2004 7:57:35 PM] [Bobtrader] xmsr turned up in last 15'

[1/14/2004 7:58:13 PM] [Investortrader] I was thinking along those lines Bob, like this

....

[1/14/2004 7:58:33 PM] [Investortrader] It only closed down 10 cents on the day

[1/14/2004 7:58:46 PM] [Investortrader] And I wanted to see if there was a late day rally, which there was

[1/14/2004 7:59:02 PM] [Investortrader] So if the market had been open a bit longer, it could have easily closed positive

[1/14/2004 7:59:45 PM] [Investortrader] And a positive close would have had a big affect on how the OBV looks

[1/14/2004 8:00:02 PM] [Investortrader] With the larger volume today

[1/14/2004 8:00:06 PM] [lavenderangel] ok, so it has possibilities

[1/14/2004 8:00:25 PM] [lavenderangel] unmarked my awayness whomever was trying to reach me

[1/14/2004 8:00:32 PM] [Investortrader] Yes, this is one where the surface looks mixed but looking deeper it looks better

[1/14/2004 8:01:09 PM] [lavenderangel] good technique. i'm not used to doing that.

[1/14/2004 8:01:17 PM] [Investortrader] Imagine the days OBV if it had closed up, would look much better

[1/14/2004 8:02:02 PM] [Investortrader] A few news items on it today also

[1/14/2004 8:02:31 PM] [acmetrader] PCS closed strong...would you say this looks to gap in the am?

[1/14/2004 8:02:32 PM] [Investortrader] The new shares being issued probably caused the gap down, but it found support and moved higher

[1/14/2004 8:03:13 PM] [Investortrader] The clue to looking at the 5's was the middle BB holding and the way it opened low but closed high

[1/14/2004 8:03:25 PM] [Investortrader] PCS ...

ClubHome

[1/14/2004 8:03:54 PM] [Investortrader] Looking at the 5's to see if the OBV was "real" on XMSR that is

[1/14/2004 8:05:20 PM] [Investortrader] Hard to say about gaps, at least for me, as that isn't how I trade, or what I look for, so no comment about that

[1/14/2004 8:05:42 PM] [Investortrader] If I owned this one I wouldn't be looking to sell it

[1/14/2004 8:05:53 PM] [AllWeOwn] INV can you share a chart of looking at 5's with OBV on XMSR?

[1/14/2004 8:05:55 PM] [acmetrader] sigh, I had a limit sell in that hit

[1/14/2004 8:06:23 PM] [Investortrader] It did run on a rumor looks like, so may come right back down

[1/14/2004 8:06:34 PM] [acmetrader] got a point out of it so not complaining...see a fib line at 7.05

[1/14/2004 8:06:37 PM] [Investortrader] Back to XMSR for a minute

[1/14/2004 8:07:03 PM] [Investortrader] Hotto is here in Hottoworks, so I'm done after this

[1/14/2004 8:07:35 PM] [Investortrader] AllWeOwn, I just wanted to look at the 5's to see if it had a late day runup, to partially negate the bad OBV since it only closed down 10 cents on the day

[1/14/2004 8:07:52 PM] [Investortrader] The bad OBV on the daily

[1/14/2004 8:07:56 PM] [AllWeOwn] tx INV ok lets jump the fence

[1/14/2004 8:08:16 PM] [Investortrader] Welcome :) Off to Hottoworks now!

[1/14/2004 8:10:51 PM] [AllWeOwn] MS looks horrid tho; this will be a good one to keep track of since indicators are contradictory

[1/14/2004 8:11:01 PM] [malealltrash] .

[1/14/2004 8:11:24 PM] [Luigistock] hey trash
