[1/26/2004 6:07:59 PM] [mora] Earnings very good

[1/26/2004 6:08:36 PM] [Udt] Thank you very much they are in Atlanta tonight

[1/26/2004 6:09:11 PM] [Investortrader] I'd like to start tonight with some basic observations

[1/26/2004 6:09:26 PM] [Wildhog] ty, mora

[1/26/2004 6:09:35 PM] [Investortrader] I've been getting a couple of very basic questions recently

[1/26/2004 6:10:51 PM] [Investortrader] A builder wouldn't try to build a house without blueprints .. a gardener knows which seeds to plant when, and how far apart to plant them ... a trader also needs to have studied the basics

[1/26/2004 6:11:11 PM] [Investortrader] That means buying a few good books! And reading them

[1/26/2004 6:11:39 PM] [Investortrader] Invest a couple hundred dollars before investing thousands in the markets

[1/26/2004 6:12:42 PM] [Investortrader] I knew this guy who just retired and moved to Vegas, wanted to play low limit poker for enjoyment and to hopefully make a few bucks, or at least not lose money

[1/26/2004 6:13:03 PM] [Investortrader] He would lose 20-40 bucks every time he played

[1/26/2004 6:13:28 PM] [Investortrader] I suggested to him one book to buy, cost \$30, but he wouldn't buy it

[1/26/2004 6:13:33 PM] [Investortrader] So he kept on losing

[1/26/2004 6:13:42 PM] [Investortrader] Don't let this happen to you!

[1/26/2004 6:14:12 PM] [Investortrader] While trading books aren't cheap compared to most books, they are very cheap compared to losing money trading

[1/26/2004 6:15:10 PM] [Investortrader] If you don't know what the different chart patterns are, or what they mean, do something about it ... you'll be glad you did

[1/26/2004 6:15:41 PM] [Investortrader] The retired guy in Vegas finally did buy that book, and his play improved dramatically ... so will your trading

[1/26/2004 6:16:24 PM] [Investortrader] This probably (hopefully) doesn't pertain to most of you, but those to whom it does ... get a book, then after that get another, and another

[1/26/2004 6:17:10 PM] [Investortrader] After more than 20 years of trading, I just bought another book and read it :)

[1/26/2004 6:18:44 PM] [Investortrader] Now, for some charts ... I'd like to start briefly with FNSR

[1/26/2004 6:19:36 PM] [Investortrader] If you were here last class when I covered FNSR pretty well, you shouldn't have been shaken out today

ClubHome

[1/26/2004 6:20:03 PM] [Investortrader] Ran down to the middle BB at one time, which held nicely

[1/26/2004 6:20:26 PM] [Investortrader] Closed up on a small increase in volume

[1/26/2004 6:21:06 PM] [Investortrader] Still looks ok to me and I'm still in it

[1/26/2004 6:22:40 PM] [Investortrader] Nothing big on it yet, but the chart still looks good here

[1/26/2004 6:23:29 PM] [Investortrader] Does anyone have a question on FNSR?

[1/26/2004 6:24:30 PM] [dwells129] Hotto targets seem way up there, too good to be true?

[1/26/2004 6:24:58 PM] [Luigistock] dwells think hotto is taking a break right now

[1/26/2004 6:25:01 PM] [Investortrader] His first target is the recent highs I believe

[1/26/2004 6:25:31 PM] [Investortrader] Not sure what the others are, I take them one at a time

[1/26/2004 6:25:44 PM] [dwells129] i was backreading logs and he mentioned 8, 12, and higher. if i read it right.

[1/26/2004 6:26:00 PM] [Luigistock] sorry dwells my bad

[1/26/2004 6:26:15 PM] [Luigistock] trying to be helpful and jsut being a jack a\$\$

[1/26/2004 6:26:16 PM] [Investortrader] This is one of his last mile buildout stocks ... he has high targets on those, like on ADCT

[1/26/2004 6:26:25 PM] [Investortrader] Nahhh Luigi ;)

[1/26/2004 6:26:47 PM] [Investortrader] They may be 9 month or year end targets

[1/26/2004 6:26:53 PM] [parkwaypet] IT can you givce a take on IMM

[1/26/2004 6:26:55 PM] [Investortrader] The really high ones

[1/26/2004 6:26:55 PM] [dwells129] OK

[1/26/2004 6:27:19 PM] [Investortrader] IMM ...

[1/26/2004 6:27:44 PM] [dwells129] with my track record, maybe i'll just hold for the year end target.

[1/26/2004 6:28:05 PM] [ErikHoyer] How does hotto establish his targets? Pattern extensions? Fibonacci extensions? or what?

[1/26/2004 6:29:04 PM] [Luigistock] fibs, charrt points, foldovers

[1/26/2004 6:29:10 PM] [dwells129] after IMM, maybe SSYS

[1/26/2004 6:29:36 PM] [Investortrader] Right now it looks like it is nearing some resistance

[1/26/2004 6:29:55 PM] [Investortrader] The 50sma and the upper BB are converging just above the price, and also the OBV

[1/26/2004 6:30:16 PM] [ErikHoyer] Thanks! How do you define a foldover?

[1/26/2004 6:30:23 PM] [Investortrader] They did just complete a private placement, so funding isn't a problem and that should hold any pb's

[1/26/2004 6:31:17 PM] [Investortrader] Remember the last couple of stocks played in here with recent private placements, Hotto did pretty well with them if I recall
[1/26/2004 6:32:26 PM] [FirstWave] IMM has been MOBO breakout since 1/13
[1/26/2004 6:32:34 PM] [Investortrader] OBV looks good on it too
[1/26/2004 6:32:51 PM] [Investortrader] And FW has been playing it I think ;)
[1/26/2004 6:33:19 PM] [FirstWave] SOAP and MOBO , needs to pop the 50 sma
[1/26/2004 6:33:44 PM] [Investortrader] I was just about to say, if not in it already I'd wait for it to break above the nearby resistance
[1/26/2004 6:33:51 PM] [parkwaypet] IMM 50 sma 14.67
[1/26/2004 6:34:57 PM] [Investortrader] This one looks good if you are in it now
[1/26/2004 6:35:10 PM] [dwells129] if it breaks above 50, will it retest 50 typically?
[1/26/2004 6:35:14 PM] [Investortrader] Usually a stock will pb from it's first attempt at the 50sma
[1/26/2004 6:35:43 PM] [Investortrader] Yes dwells, many times it will, but sometimes it will just push right on thru
[1/26/2004 6:36:19 PM] [Fern] wasn't the 1st attempt back in nov?
[1/26/2004 6:36:55 PM] [Investortrader] Not really, this is a new rally, that was a reaction in a decline
[1/26/2004 6:37:08 PM] [Fern] ok
[1/26/2004 6:37:16 PM] [Investortrader] But notice how it did "pb" during that decline to the 50sma
[1/26/2004 6:37:32 PM] [Investortrader] pb in that case meaning go up to test the 50sma
[1/26/2004 6:37:34 PM] [parkwaypet] Good point IT thanks was also looking at that move
[1/26/2004 6:37:50 PM] [parkwaypet] in Nov
[1/26/2004 6:38:03 PM] [Investortrader] Lots of times when breaking thru to the upside it will also do that, test the 50sma, but not always
[1/26/2004 6:38:27 PM] [Investortrader] The Nov reaction was a perfect example, and another point of how the 50sma is an important indicator
[1/26/2004 6:39:15 PM] [Investortrader] Also notice back in Nov, the day before it crashed thru the 50sma, it came down to test it and bounced off it
[1/26/2004 6:40:23 PM] [Investortrader] This one does look like it will get thru the 50sma, either first or second try at it, from looking at the OBV
[1/26/2004 6:40:41 PM] [FirstWave] Now we are teaching First Wave stratigies on the 50 sma)=D

[1/26/2004 6:49:54 PM] [dwells129] i was thinking this was a short until it closed just over 50sma today.
[1/26/2004 6:51:00 PM] [Investortrader] I don't really see anything compelling either way in this one
[1/26/2004 6:52:23 PM] [Investortrader] Bounced off the lower BB, but the last two updays have been on lower volume
[1/26/2004 6:53:30 PM] [dwells129] 2 day is interesting
[1/26/2004 6:55:35 PM] [Investortrader] I just don't really see much in it here, seems to be mostly sideways, though you could play it for a point or two
[1/26/2004 6:56:11 PM] [dwells129] short or long?
[1/26/2004 6:57:07 PM] [SailorEd] Could you put INVX in the que, ty
[1/26/2004 6:57:42 PM] [Investortrader] I'd say long now since it broke over the 50sma, but with the low volume, I won't be playing it, just don't see the impetus
[1/26/2004 6:58:04 PM] [parkwaypet] When possible IT a look at ALVR really flying so sell or hold?
[1/26/2004 6:58:45 PM] [Investortrader] Any questions on SSYS?
[1/26/2004 7:00:05 PM] [Investortrader] INVX ...
[1/26/2004 7:03:21 PM] [Investortrader] This one looks like it could be bouncing off the 50sma here
[1/26/2004 7:03:49 PM] [Investortrader] Had a couple bigger sell-off days, then the low volume day yesterday

[1/26/2004 7:05:50 PM] [dwells129] bounced off 20sma today, a concern?

[1/26/2004 7:06:02 PM] [Investortrader] I wouldn't want to see it fall under the 50sma if I owned it

[1/26/2004 7:08:51 PM] [Investortrader] I generally don't go back that far da2rth as I'm a short term trader, plus

[1/26/2004 7:09:40 PM] [Investortrader] I look at the recent rally, which would be from Dec

[1/26/2004 7:09:51 PM] [Investortrader] To see if the OBV is confirming it

[1/26/2004 7:11:28 PM] [Investortrader] Here it looks like OBV may not have confirmed the most recent high in this rally

[1/26/2004 7:13:28 PM] [Investortrader] At this point I wouldn't expect a new leg up, maybe a bounce in it, unless some volume comes into it

[1/26/2004 7:14:06 PM] [Investortrader] Any questions on IN VX?

[1/26/2004 7:14:52 PM] [dwells129] saw you got stopped out of EGHT, comments on today's close.

[1/26/2004 7:15:07 PM] [Investortrader] On to ALVR

[1/26/2004 7:15:27 PM] [RV6A] Hi IT, new here, being a short term trader do you pay any attention to the weekly?

[1/26/2004 7:16:47 PM] [Investortrader] Not really RV6A, many times I'm out in just a few days

[1/26/2004 7:17:23 PM] [RV6A] Thanks
[1/26/2004 7:17:47 PM] [Investortrader] Welcome :)
[1/26/2004 7:17:54 PM] [Investortrader] This one has been riding the upper BB
[1/26/2004 7:19:31 PM] [Investortrader] And volume coming in again as it pushes back up
[1/26/2004 7:20:14 PM] [Investortrader] But I wouldn't be buying it up here, too extended and risky for my style
[1/26/2004 7:20:24 PM] [Investortrader] risky because it is extended
[1/26/2004 7:21:45 PM] [Investortrader] I always look at both sides, risk and reward, and in that order, risk first, then reward
[1/26/2004 7:24:35 PM] [Investortrader] OBv has been confirming the upmove in this one, it's just too far away from any logical support for a stop loss
[1/26/2004 7:25:02 PM] [nitrobb] just like a dog, by chasing stocks, you might get hit by a car! I do when I do that.
[1/26/2004 7:25:23 PM] [Investortrader] Nice comparison nitrobb, happens all the time
[1/26/2004 7:25:53 PM] [Investortrader] Any questions on ALVR?
[1/26/2004 7:26:41 PM] [Investortrader] On to EGHT ...
[1/26/2004 7:29:43 PM] [Investortrader] This one I had a fair trade in before, not great but looking at the chart you can see it hasn't been great .. then I took another stab at it
[1/26/2004 7:29:57 PM] [Investortrader] And got stopped out when it broke under the 50sma for a small loss
[1/26/2004 7:30:20 PM] [bmweyrauch] Good Evening....thanks for looking at EGHT....I was stopped out of EGHT today...small loss too
[1/26/2004 7:30:22 PM] [Investortrader] Bounced today and tried, but got turned back down by the LR30
[1/26/2004 7:30:50 PM] [Investortrader] Or the middle BB, both are right close to each other
[1/26/2004 7:31:10 PM] [Investortrader] Looks like it closed right around the 50sma
[1/26/2004 7:31:38 PM] [Investortrader] Hi bmw :)
[1/26/2004 7:31:47 PM] [bmweyrauch] :)
[1/26/2004 7:32:24 PM] [Investortrader] I'm ruthless about cutting losses, which will lead to a few whipsaws sometimes, but better a few whipsaws than a couple of big losers anyway, and you don't know in advance which it will be
[1/26/2004 7:33:18 PM] [Investortrader] that's part of the discipline of trading, if you can't cut your losses while they are small, where will you cut them, 20%? 30%? 50%? 80%?

[1/26/2004 7:34:44 PM] [Investortrader] This one has had small volume for many days now

[1/26/2004 7:36:14 PM] [Investortrader] Considering the big upmove in the market today, I would have liked to see this close over the 50sma at least

[1/26/2004 7:37:15 PM] [dwells129] that us what i thought and technically it did not close over the 50 day. does a penny short really matter though?

[1/26/2004 7:37:43 PM] [Investortrader] I bot it last time when it tested the middle BB, as that had held it for awhile, and used the 50sma as a stop loss, safe entry low risk trade ... and got filled on that low risk :8

[1/26/2004 7:37:45 PM] [dwells129] almost like ot ounced off it.

[1/26/2004 7:37:54 PM] [dwells129] it

[1/26/2004 7:38:38 PM] [Investortrader] dwells, on a day like today, if it had much power behind it it should have closed over the 50sma in my opinion

[1/26/2004 7:38:50 PM] [LeelaHula] IT ... EGHT is sitting right on the 50 exp.ma

[1/26/2004 7:39:00 PM] [Investortrader] And even over yesterdays hod

[1/26/2004 7:39:30 PM] [Investortrader] Thanks Leela ... I don't use ema's ... only sma's

[1/26/2004 7:39:35 PM] [Investortrader] some do though

[1/26/2004 7:40:19 PM] [LeelaHula] I never know which to use exclusively ... it seems to me some stocks like exp. Could that be?

[1/26/2004 7:40:38 PM] [Investortrader] Yes, a few do react to their ema's more than the sma's

[1/26/2004 7:40:55 PM] [Investortrader] I've read 5%, seems pretty small ... not sure if that's true or not

[1/26/2004 7:41:14 PM] [LeelaHula] Well ... since I'm still in EGHT ... I'm hoping this one likes it!xP

[1/26/2004 7:41:28 PM] [Investortrader] I hope so too!

[1/26/2004 7:41:40 PM] [Investortrader] And I got stopped out lol

[1/26/2004 7:41:48 PM] [Investortrader] On Fri

[1/26/2004 7:42:16 PM] [LeelaHula] I hate when that happens

[1/26/2004 7:42:50 PM] [dwells129] i sold premarket this morning at 4.74 thinking i was lucky to get it based on fridays close.

[1/26/2004 7:43:19 PM] [Investortrader] It's gonna happen sometimes, I usually just move on .. if a stock stops me out twice for a small loss, I take it off my radar and forget about it for awhile, means I don't have the touch for that stock at that time

[1/26/2004 7:44:15 PM] [Investortrader] Part of the psychology I use to keep a good clear head and positive attitude

[1/26/2004 7:44:53 PM] [Investortrader] you sold 3 cents better than I did dwells :)

[1/26/2004 7:46:11 PM] [dwells129] when i saw it break the 50, i thought i would never get back to it in the near term.

[1/26/2004 7:47:24 PM] [Investortrader] It's still up in the air here, I didn't want to risk it falling to the lower BB when it broke the 50sma so I sold ... have I mentioned I'm a low risk trader before? ;)

[1/26/2004 7:48:12 PM] [dwells129] IT, this was a .18 cent stock in Feb 2003, do you consider this when evaluating a posn?

[1/26/2004 7:48:19 PM] [Stixman] IT...would you comment on TRIB and ORCH?

[1/26/2004 7:48:47 PM] [Investortrader] Wow, it was dwells? I didn't know that ...

[1/26/2004 7:49:07 PM] [Investortrader] Guess that says I didn't consider that fact, that is awhile ago

[1/26/2004 7:49:50 PM] [dwells129] when it broke 50, that is what scared me to sell.

[1/26/2004 7:49:57 PM] [Investortrader] Most of my trades are a few days to a couple weeks, so I don't look at weeklies or too far back

[1/26/2004 7:50:04 PM] [Investortrader] Scared me too!

[1/26/2004 7:50:11 PM] [Investortrader] Anymore questions on EGHT?

[1/26/2004 7:50:44 PM] [dwells129] will you buy if it goes to lwr BB?

[1/26/2004 7:51:12 PM] [Investortrader] I won't know unless it gets there, when I can see how the price/volume is reacting there, and how it got there

[1/26/2004 7:51:59 PM] [Investortrader] On to TRIB ...

[1/26/2004 7:52:49 PM] [Investortrader] After the spike, then the pb, this one has had very little volume

[1/26/2004 7:53:23 PM] [Investortrader] It might be making a rounding bottom here, will need to see some volume coming in

[1/26/2004 7:53:47 PM] [Investortrader] Very little volume comparatively that is

[1/26/2004 7:53:57 PM] [kellam] TRIB weak OBV

[1/26/2004 7:54:47 PM] [SwngTrdr] :=)

[1/26/2004 7:55:08 PM] [Investortrader] OBv is under it's middle BB here

[1/26/2004 7:55:49 PM] [SwngTrdr] .

[1/26/2004 7:56:52 PM] [Investortrader] I don't really see anything compelling here, the first gap up did hold for now, I think any position here is a tiny bit speculative untill it shows something

[1/26/2004 7:57:20 PM] [Investortrader] I know nothing of the company, just reading the chart

[1/26/2004 7:57:53 PM] [Investortrader] Any questions on TRIB?

[1/26/2004 7:59:09 PM] [Stixman] thx guys

[1/26/2004 7:59:15 PM] [Investortrader] On to ORCH ...

[1/26/2004 7:59:44 PM] [Investortrader] Orch has almost the same pattern
[1/26/2004 8:00:20 PM] [Investortrader] I see they want to do a reverse stock split, many times that's the kiss of death
[1/26/2004 8:00:30 PM] [kellam] TRIB in dailygraphs (IBD service) shows rel stg @ 81 (good), high vol up move end of dec largest since last ap,HRT in same group big move today,ernd not due till 2/13, worth watching
[1/26/2004 8:01:05 PM] [Investortrader] Thanks kellam :)
[1/26/2004 8:01:39 PM] [kellam] yw;)
[1/26/2004 8:03:11 PM] [Investortrader] I really don't see much in this one either that is compelling yet
[1/26/2004 8:03:29 PM] [Investortrader] OBV looks a bit better than on TRIB
[1/26/2004 8:03:58 PM] [Stixman] TRIB - Stoc up, OBV turning up, Price above all 4 major moving averages , last 8 days are a small ascending triangle, looking for it to move up to lr30 about \$5 area.
[1/26/2004 8:04:53 PM] [Investortrader] ORCH is a bit low priced for me to comment on though
[1/26/2004 8:05:18 PM] [Investortrader] Back to TRIB for a minute
[1/26/2004 8:05:58 PM] [Investortrader] Not sure which 4 ma you consider major Stixman ... it's under the middle BB which by definition is the 20sma
[1/26/2004 8:06:35 PM] [kellam] ORCH RS@94 per IBD,neg erns and sales last Q, but good accumulation @B+ erns 2/27,j
[1/26/2004 8:06:49 PM] [kellam] TRIB
[1/26/2004 8:06:56 PM] [Investortrader] And OBV turned up from 1/8 to 1/12 and that didn't do anything .. needs more than that
[1/26/2004 8:07:32 PM] [kellam] sorry was just jumping back to TRIB
[1/26/2004 8:07:54 PM] [Investortrader] I just don't see much in either of them yet .. of course that could always change tomorrow
[1/26/2004 8:08:27 PM] [kellam] agree IT will have to wait for Mr. market on these
[1/26/2004 8:09:49 PM] [cobralso] Buy TRIB I did
[1/26/2004 8:10:55 PM] [Stixman] Your right those charts are nearly identical ORCH and TRIB
[1/26/2004 8:11:03 PM] [Investortrader] I won't be buying unless I see something in it, I don't yet
[1/26/2004 8:12:14 PM] [Investortrader] Know what caused the big gap up?
[1/26/2004 8:12:27 PM] [Fern] mad cow
[1/26/2004 8:12:31 PM] [Investortrader] Ahh

[1/26/2004 8:16:35 PM] [Investortrader] This one looks ok here
