[3/9/2004 10:55:09 AM] [dagwood] with its news I think he would pass.....that is the same as NTGR yesterday is it not.

[3/9/2004 10:55:36 AM] [HowNow] For what help it may be, with new Schwab Trader CT real time , TCNet froze up 3 times this morning. Fixed problem by closing Live WeatherBug I had forgotten running in background.

[3/9/2004 10:56:09 AM] [Investortrader] How do you like that CT HowNow?

[3/9/2004 10:56:45 AM] [HowNow] A OK so far.

[3/9/2004 10:57:16 AM] [Stixman] I deleted weatherbug several months ago ...seemed to make everything run slow.

[3/9/2004 10:57:56 AM] [HowNow] Now you tell me. :D

[3/9/2004 10:58:52 AM] [Investortrader] ADCT showing a BIG buyer

[3/9/2004 10:58:59 AM] [isay] nemsca, TWC may filter some junk at their routers etc but by no means stops all spam and viruses, etc

[3/9/2004 10:59:24 AM] [isay] more marketing then anything else

[3/9/2004 10:59:32 AM] [nemsca] ty

[3/9/2004 11:00:01 AM] [Elm] I don't have Time Warner cable, but I would have my own firewall and antivirus, just in case! I don't trust anyone in that arena. I couldn't afford them to say "I'm sorry our software malfunctioned."

[3/9/2004 11:00:22 AM] [nemsca] good point

[3/9/2004 11:01:16 AM] [Lindahg] IT where do you get the information on a big buyer on ADCT?

[3/9/2004 11:01:35 AM] [Investortrader] Looks like that 2.50 area on FNSR held ... I got another whopping 110 shares at 2.51 lol

[3/9/2004 11:01:37 AM] [isay] yes, it's always belt, suspenders, etc

[3/9/2004 11:01:52 AM] [payck] -26 1202/1809

[3/9/2004 11:02:05 AM] [HamFon] Best software firewall I've found is ZoneAlarm (I use ZA Pro). Solid, and blocks all attempts to "break in" - based on my current settings (which includes "no servers - EVER!")

[3/9/2004 11:02:15 AM] [imjim] I would consider having someone else block were filter my mail a real negative.

[3/9/2004 11:07:34 AM] [HamFon] No firewall blocks email viruses, though ... virus protection and socket protection (firewall) are totally separate. You should have a firewall (software ALWAYS (even with a hardware one also), and also hardware recommended, AND ... a virus protection program. Also, don't open any attachments unless absolutely required, and NEVER let anyone else use your "work" machine. That's my philosophy, but programmers are sometimes more paranoid ;)

[3/9/2004 11:08:36 AM] [HamFon] btw - most WORD documents can be opened and viewed reasonably using WordPad - and that's safe since WordPad does not support any scripting or macros.

[3/9/2004 11:09:36 AM] [Elm] Hamfon - Better paranoid than disaster in this case!

[3/9/2004 11:10:04 AM] [HamFon] Yes, Elm. Gotta treat your "work" machine as gold ... imo.

[3/9/2004 11:11:58 AM] [HamFon] It handles fonts, pictures, etc.

[3/9/2004 6:22:09 PM] [ptoney] My opinion! I have tried using it off and on for 10 yrs.

My experience is to use it only in a strong uptrending market that is (hopefully) not near the top. When I tried to use it to pick a hot stock in a downtrending market I got clobbered 99.99% of the time.

[3/9/2004 6:26:30 PM] [Punders] Wll out of the current CANSLIM leaders list abot 280 stocks 100 of them didn't fall or went up today, I have subscribed for some time and found it good, but like any stocks you still need to make your own decisions

[3/9/2004 6:27:34 PM] [Punders] I find using the strong uptrending ones and buy on

the dips to be reliable and profitable

[3/9/2004 6:46:25 PM] [Candlestick1] We have a service on our site that takes the Canslim picks and times them with the candlestick signals, very good results

[3/9/2004 6:58:25 PM] [Punders] Thanks, that's exactly what I do, I just use the IBD 100 and CANSLIM lists to work from, I have good consistant results, the only thing I am new to is TCnet, after years of TC2000, so still trying to get to grips with the logistics of all that is in TCnet, what is the site please

[3/9/2004 9:14:14 PM] [mace] also LAYN

[3/9/2004 9:15:42 PM] [Investortrader] Hi mace ... ATML

[3/9/2004 9:17:16 PM] [mace] hello

[3/9/2004 9:17:21 PM] [Investortrader] This one could be trying to make a dbl btm here, with the OBV holding up ok so far, nothing great but ok

[3/9/2004 9:18:13 PM] [Investortrader] I like the action in it today

[3/9/2004 9:19:08 PM] [Investortrader] If I owned it here I would probably look to add on any BO over 7

[3/9/2004 9:19:35 PM] [mace] Own it at 5.56

[3/9/2004 9:22:20 PM] [mace] I have stop at todays low -.03

[3/9/2004 9:24:25 PM] [mace] lots of weak hands left

[3/9/2004 9:25:38 PM] [dwells129] I am not sure how to trade this one. Any thoughts when you get through with the other stocks?

[3/9/2004 9:25:56 PM] [Investortrader] IF it moves up tomorrow you're looking really good, I also like your stop placement on it

[3/9/2004 9:26:21 PM] [Investortrader] XXIA? I'll add it to the list

[3/9/2004 9:26:27 PM] [Investortrader] Any questions on ATML?

[3/9/2004 9:27:39 PM] [Investortrader] On to LAYN ...

[3/9/2004 9:28:52 PM] [Investortrader] This one has had a long series now of run up and consolidate

[3/9/2004 9:29:49 PM] [Investortrader] Starting in Dec every large up day was followed by this consolidation ... OBV has been leading the whole way showing it's been healthy

[3/9/2004 9:30:09 PM] [Investortrader] Looks like this is just more of the same here

[3/9/2004 9:30:53 PM] [Investortrader] Nice buy at 9!

[3/9/2004 9:32:06 PM] [Investortrader] That would be the tightest place to put it, I wouldn't go lower than using a bit under the 2/19 low

[3/9/2004 9:32:18 PM] [Investortrader] A few cents under yesterdays low that is

[3/9/2004 9:32:47 PM] [Investortrader] Welcome :)

[3/9/2004 9:32:56 PM] [Investortrader] Any questions on LAYN?

[3/9/2004 9:34:04 PM] [Investortrader] On to HTCH ...

[3/9/2004 9:35:37 PM] [Investortrader] Looks like their presentation today was a good one

[3/9/2004 9:35:56 PM] [Investortrader] From how the price acted

[3/9/2004 9:36:52 PM] [Investortrader] If that's the case strength tomorrow might interest me in buying

[3/9/2004 9:38:41 PM] [Investortrader] Any questions on HTCH?

[3/9/2004 9:39:28 PM] [Investortrader] This one does show the danger of trying to buy gap downs, looking back to Jan .. be careful lanytime you play those

[3/9/2004 9:39:41 PM] [MadameButterfly] IT, what strength would you look for in HTCH?

[3/9/2004 9:40:29 PM] [Investortrader] Gap up, or unch or slightly lower open and a move up with some vol

[3/9/2004 9:41:26 PM] [MadameButterfly] Would this up move today be from the upgrade this morning perhaps?

ClubHome

[3/9/2004 9:41:44 PM] [Investortrader] This is a possible good reversal pattern, so any follow-through tomorrow is what I would be looking for
[3/9/2004 9:42:12 PM] [Investortrader] I see a re-it from Needham .. you mean that?
[3/9/2004 9:42:39 PM] [MadameButterfly] Yes, a re-it, not an upgrade.
[3/9/2004 9:43:14 PM] [Investortrader] Aktony, if it shows strength tomorrow .. you could use the LR30 since it's just overhead
[3/9/2004 9:43:31 PM] [Aktony] Thanks
[3/9/2004 9:44:30 PM] [Investortrader] Welcome Aktony
[3/9/2004 9:45:06 PM] [Investortrader] I think I'll be watching it in the morning
[3/9/2004 9:45:53 PM] [dwells129] On 3/8 they lowered guidance slightly.
[3/9/2004 9:46:44 PM] [Investortrader] Might have been cause for the gap down today? Bounced good
[3/9/2004 9:47:31 PM] [Investortrader] On good vol also
[3/9/2004 9:48:32 PM] [Investortrader] I like the pattern, especially on a strong open
[3/9/2004 9:49:40 PM] [MadameButterfly] Good OBV also.
[3/9/2004 9:49:45 PM] [mace] CAMP
[3/9/2004 9:49:56 PM] [Investortrader] I like the OBV too here
[3/9/2004 9:50:02 PM] [Investortrader] Any questions on HTCH?
[3/9/2004 9:50:12 PM] [jasp] IT Please look at USPH - Looks strong but in-line guidance.
[3/9/2004 9:50:38 PM] [Investortrader] On to IXIA ...
[3/9/2004 9:51:17 PM] [Investortrader] Hmm, must have wrote the symbol down wrong
[3/9/2004 9:51:37 PM] [MadameButterfly] XXIA
[3/9/2004 9:51:46 PM] [Investortrader] That's it! Thanks :)
[3/9/2004 9:51:55 PM] [MadameButterfly] YW
[3/9/2004 9:52:16 PM] [Investortrader] This one is at a pretty safe area for buying here at this triple bottom
[3/9/2004 9:52:41 PM] [Investortrader] IF it does break down then it's only a small loss
[3/9/2004 9:54:38 PM] [Investortrader] OBV is a bit mixed but ok here, still above the first bottoms low
[3/9/2004 9:55:10 PM] [Investortrader] I think I'll watch this one too in the morning
[3/9/2004 9:56:13 PM] [Investortrader] Though this one is riskier, bigger chance of getting that small loss
[3/9/2004 9:56:25 PM] [dwells129] do you watch for a sharp up at the open on volume?
[3/9/2004 9:56:37 PM] [Investortrader] Especially with it being under the 50sma

ClubHome

[3/9/2004 9:57:09 PM] [Investortrader] dwells, for this one I'm looking at the triple bottom, so buying anywhere near there and bailing if it doesn't hold
[3/9/2004 9:57:30 PM] [Investortrader] So instead of buying a momo BO, I'm looking at the support and buying off of it
[3/9/2004 9:57:54 PM] [dwells129] in general semi's are an oversold condition. so i thought it could break up.
[3/9/2004 9:58:27 PM] [Investortrader] I wouldn't need to see a BO on this to buy it, if I were interested in buying it ...
[3/9/2004 9:58:33 PM] [Investortrader] I'd just buy the support here
[3/9/2004 9:58:46 PM] [cuidado] one caution on HTCH... the gap down today broke the previous low of 8/11/03 @ 26.57 and OBV low today shows neg divergence with OBV low of 8/11
[3/9/2004 9:59:03 PM] [cuidado] fwiw...
[3/9/2004 9:59:08 PM] [dwells129] where would you place your stop?
[3/9/2004 9:59:17 PM] [Difed] JXXIA
[3/9/2004 9:59:49 PM] [Investortrader] A few cents under the lowest low of the triple bottom ... nickel, dime, something like that

[3/9/2004 10:00:20 PM] [Investortrader] Any questions on XXIA?
[3/9/2004 10:00:49 PM] [Investortrader] If the triple low breaks, next comes the Dec lows
[3/9/2004 10:01:19 PM] [Investortrader] Back to HTCH for a quick look ...
[3/9/2004 10:03:02 PM] [Phoebe] how does piano affect it?
[3/9/2004 10:03:03 PM] [Investortrader] I see what you are pointing out cuidado ... that won't affect me as my time frame is too short
[3/9/2004 10:03:24 PM] [Investortrader] piano?
[3/9/2004 10:03:38 PM] [mace] HTH looks to me this is a good bottom
[3/9/2004 10:03:45 PM] [mace] HTCH
[3/9/2004 10:03:59 PM] [Investortrader] Same here mace
[3/9/2004 10:04:10 PM] [Investortrader] On to CAMP ...
[3/9/2004 10:04:23 PM] [cuidado] ok, just thought I'd mention, not sure howmuch OH remains from ATH before falling off cliff!
[3/9/2004 10:04:39 PM] [cuidado] tx
[3/9/2004 10:06:33 PM] [Investortrader] Not too much to say on this one, every time it tries to BO it come sback to base more
[3/9/2004 10:07:18 PM] [Investortrader] One big sideways ever since the big gap up
[3/9/2004 10:07:44 PM] [mace] whats with the merger on this cant find much info

ClubHome

[3/9/2004 10:08:13 PM] [Investortrader] One could try buying near the bottom of the sideways range and playing the range back and forth ... eventually it will make a move one way or the other

[3/9/2004 10:08:28 PM] [Investortrader] I have no idea mace

[3/9/2004 10:09:13 PM] [Investortrader] Any questions on CAMP?

[3/9/2004 10:10:20 PM] [cuidado] is short interest increasing?

[3/9/2004 10:11:19 PM] [mace] according to TCNET support short interest on TVNET is update every sat

[3/9/2004 10:11:21 PM] [Investortrader] I have no idea

[3/9/2004 10:12:38 PM] [Investortrader] On to USPH ...

[3/9/2004 10:13:25 PM] [REB2186] A general question for you, IT - Roughly what proportion of Buys do you make the first hour in the morning as compared to middle of the day and end of the day?

[3/9/2004 10:14:12 PM] [Investortrader] Not many, usually my buys come near the end of the day, with some in the middle

[3/9/2004 10:14:39 PM] [Investortrader] Once in awhile I'll get my price during V1

[3/9/2004 10:14:55 PM] [jasp] At the risk of sounding stupid It looks like a double bottom. Had lots of buying but no movement. Could this be a setup for an up move? Their 2003 results were in line with estimates but not as good as the previous year.

[3/9/2004 10:15:48 PM] [Investortrader] The market makes everyone risk that jasp ;)

[3/9/2004 10:16:01 PM] [jasp] LOL True

[3/9/2004 10:16:15 PM] [Investortrader] This is one chart where I'm going to discount the OBV somewhat

[3/9/2004 10:16:31 PM] [jasp] Why is that?

[3/9/2004 10:16:54 PM] [Investortrader] With the huge vol day today, it skews it some ... the reason I'm discounting it is because of the lack of movement in price today

[3/9/2004 10:17:18 PM] [Investortrader] With big volume I usually like to see big price movement

[3/9/2004 10:17:34 PM] [Investortrader] Let's look at the 5's

[3/9/2004 10:18:03 PM] [Investortrader] It was only up a nickel, if it had closed down a few pennies, OBV would have looked drastically different

[3/9/2004 10:19:01 PM] [cuidado] lots of vol with no movement, then close in lower half of previous candle... looks like a stall

[3/9/2004 10:19:29 PM] [cuidado] starting to backslide

[3/9/2004 10:19:43 PM] [Investortrader] I would want this one to prove itself by breaking out over yesterdays hod

[3/9/2004 10:19:56 PM] [Investortrader] Good point cuidado

[3/9/2004 10:19:58 PM] [jasp] Ok I see that.

[3/9/2004 10:20:28 PM] [jasp] Thank you.
[3/9/2004 10:20:32 PM] [Investortrader] That's not too much to give up here, so I would wait for that BO
[3/9/2004 10:20:35 PM] [Stixman] What stock are we talking about??
[3/9/2004 10:20:36 PM] [Investortrader] Welcome jasp
[3/9/2004 10:20:41 PM] [Investortrader] USPH now
[3/9/2004 10:20:48 PM] [Stixman] thx IT
[3/9/2004 10:20:54 PM] [Investortrader] Any questions on USPH?
[3/9/2004 10:23:34 PM] [cuidado] re: USPH
[3/9/2004 10:24:10 PM] [cuidado] if look back a bit, this candle pattern appears many times....
[3/9/2004 10:24:48 PM] [cuidado] usually has resolved upwards , too!
[3/9/2004 10:25:44 PM] [Investortrader] I would be using just under the 3/3 lod as a stop on this one
[3/9/2004 10:26:49 PM] [jasp] I was also noticing that the lbb was pierced twice and Hotto has said that it is a somewhat bullish pattern. Still trying to learn.
[3/9/2004 10:27:29 PM] [Investortrader] The only negative I see is the small candle today for such large volume
[3/9/2004 10:27:59 PM] [jasp] Sounds like the buyers and sellers are really slugging it out
[3/9/2004 10:28:00 PM] [Investortrader] I would have wanted to see it up at the 20sma at least
[3/9/2004 10:33:58 PM] [REB2186] IT, Do you have most of your buys planned ahead of time and use Alerts for them or do you find most of your buys during the day and buy without alerts?
[3/9/2004 10:34:39 PM] [Investortrader] Most are stocks I'm watching, I usually am not daytrading the hot stock of the day
[3/9/2004 10:35:00 PM] [REB2186] Thanks again.
[3/9/2004 10:35:21 PM] [Investortrader] Welcome :)
[3/9/2004 10:35:40 PM] [Investortrader] My usual time frame is a few days to a couple of weeks
[3/9/2004 10:36:00 PM] [jasp] Thank you IT and Cuidado. Time to hit the sack - late here. GN
[3/9/2004 10:36:31 PM] [Investortrader] Nite jasp
[3/9/2004 10:37:17 PM] [cobralso] So what do you think of FNSR IT
[3/9/2004 10:38:19 PM] [Investortrader] FNSR ...
[3/9/2004 10:41:35 PM] [Investortrader] On 1/20 this one had a bearish engulfing pattern, and I pointed out in class that night that I expected it to pb ... I even told

ClubHome

someone that day I would sell it, and they did at 3.93 ... Notice in mid Jan where it tested the 50sma

[3/9/2004 10:42:18 PM] [Investortrader] Some buyers showed up at 3.50 there and I took a stab at it ... ended up getting stopped out when it broke 3.50

[3/9/2004 10:43:01 PM] [Investortrader] As I went to sell it started to bounce so I got out at 3.48 and 3.49 ... it bounced up around 3.55 then began back down

[3/9/2004 10:43:15 PM] [Investortrader] Now I've been buying a little back again down here

[3/9/2004 10:43:35 PM] [cobralso] Me too

[3/9/2004 10:44:07 PM] [Investortrader] There is also big buyers at the 2.50 area ... I got a small partial fill today at 2.51

[3/9/2004 10:44:41 PM] [Investortrader] This one is a bit more speculative

[3/9/2004 10:45:34 PM] [Investortrader] I bot in on the big buyers showing up, the big retracement it's already had, and I dodged the decline so far so I can take another shot at it here

[3/9/2004 10:46:35 PM] [Investortrader] OBV isn't looking too hot here, I don't like how it's made a lower low on 3/3 ... but hasn't broken down again since then

[3/9/2004 10:47:48 PM] [BossFan] Hey IT, can you offer an opinion on NGEN when u get a chance? Bounced off LR30 today. TY

[3/9/2004 10:47:59 PM] [Investortrader] It's had a large pb, and if it does BO here over the 3/5 hod I'll be adding looking for it to get back up to the 3 area

[3/9/2004 10:48:22 PM] [REB2186] What time frame do you generally use to make your decisions?

[3/9/2004 10:48:34 PM] [Investortrader] I use the daily chart REB

[3/9/2004 10:49:45 PM] [Investortrader] So I'm looking at FNSR as a possible bounce here becuase of the big pb it's had and the big buyers showing up at this level ... and the loss will be very small if I am wrong

[3/9/2004 10:49:58 PM] [Investortrader] Any questions on FNSR?

[3/9/2004 10:50:01 PM] [cobralso] So buy]2.75

[3/9/2004 10:50:30 PM] [cobralso] TY IT

[3/9/2004 10:50:37 PM] [Nipsy331] Where would you set a loss cut on FNSR?

[3/9/2004 10:50:42 PM] [parkwaypet] IT comments on BLTI when possible

[3/9/2004 10:50:50 PM] [Investortrader] Right cobralso, as I've been picking it up at 2.51 twice now, and also added a bit at 2.61

[3/9/2004 10:51:14 PM] [Nipsy331] Just under March 3 low?

[3/9/2004 10:51:35 PM] [Investortrader] Right Nipsy

[3/9/2004 10:51:45 PM] [Nipsy331] ty.

[3/9/2004 10:52:24 PM] [Investortrader] Welcome :)

ClubHome

[3/9/2004 10:53:11 PM] [Investortrader] I look to buy support and if it breaks I get out, just like up at 3.50 ... usually I'm glad I did, but once in awhile I get whipsawed too

[3/9/2004 10:53:27 PM] [Investortrader] On to NGEN ...

[3/9/2004 10:54:06 PM] [Investortrader] This one has been disappointing ... OBV is also showing a slow slide

[3/9/2004 10:54:59 PM] [enzo] hi it reading your comment

[3/9/2004 10:55:24 PM] [Investortrader] I would have thought the private placement price of 7.94 would have been stronger support

[3/9/2004 10:55:36 PM] [Investortrader] Hi enzo

[3/9/2004 10:55:59 PM] [enzo] ngen looks good for short

[3/9/2004 10:56:12 PM] [Investortrader] We had a weak rally attempt in early March, couldn't even get to the 20sma no less the 50sma

[3/9/2004 10:56:54 PM] [Investortrader] It doesn't look so good here either

[3/9/2004 10:57:36 PM] [BossFan] Ok, thanks IT...I'll take my small gain tomorrow AM

[3/9/2004 10:58:00 PM] [Investortrader] Welcome BossFan, maybe you'll get a morning pop for that!

[3/9/2004 10:58:13 PM] [BossFan] Yea, I hope so!

[3/9/2004 10:58:16 PM] [REB2186] Bedtime for me. GN. Thanks IT.

[3/9/2004 10:58:25 PM] [Investortrader] Welcome REB :)

[3/9/2004 10:58:42 PM] [Investortrader] Any questions on NGEN?

[3/9/2004 10:59:09 PM] [enzo] no question

[3/9/2004 10:59:14 PM] [cobralso] nope :)

[3/9/2004 10:59:23 PM] [Investortrader] On to BLTI ...

[3/9/2004 10:59:39 PM] [parkwaypet] ty IT

[3/9/2004 10:59:47 PM] [Investortrader] This one doesn't look good

[3/9/2004 10:59:54 PM] [Investortrader] Welcome parkwaypet :)

[3/9/2004 11:00:17 PM] [Investortrader] New lows, OBV confirming the new lows

[3/9/2004 11:00:29 PM] [Investortrader] Notice how OBV led the way

[3/9/2004 11:00:54 PM] [Investortrader] Early March it was making new lows giving you warning signals to get out, before the price broke down

[3/9/2004 11:01:14 PM] [Investortrader] Here the price hasn't been in a big correction yet

[3/9/2004 11:01:37 PM] [Investortrader] Notice thge peaks it made this year, and where OBV was

[3/9/2004 11:01:52 PM] [Investortrader] OBV peaked with the early Jan price peak

[3/9/2004 11:02:13 PM] [Investortrader] The late Jan price peak ... OBV was saying run for the hills!

[3/9/2004 11:02:42 PM] [Investortrader] Then the late Feb peak, one last gasp ... with

ClubHome

OBV lower still

[3/9/2004 11:02:55 PM] [Investortrader] Definiate signs of distribution

[3/9/2004 11:03:16 PM] [Investortrader] Now it's breaking down

[3/9/2004 11:04:02 PM] [Investortrader] I'd look to the two Dec BO areas for downside targets here

[3/9/2004 11:04:55 PM] [Investortrader] I think I'll watch this one too, for shorting possibilities

[3/9/2004 11:06:02 PM] [cobralso] on FNSR At what point would you bail?

[3/9/2004 11:06:54 PM] [Nipsy331] Interesting how BLTI seems to find support (or at least a bounce) at the may, july, october 03 highs. Does OBV trump price?

[3/9/2004 11:07:10 PM] [Investortrader] FNSR, so far I've seen good support at 2.50 ... I bail when support is broken to any extent ... and for FNSR if it happens I'll look to get back in on the next base attempt

[3/9/2004 11:07:47 PM] [cobralso] TY

[3/9/2004 11:08:02 PM] [Investortrader] Nipsy, volume preceeds price in most cases yes

[3/9/2004 11:08:17 PM] [Investortrader] Welcome cobralso

[3/9/2004 11:08:27 PM] [Nipsy331] right. we see that often

[3/9/2004 11:08:28 PM] [Investortrader] But that is a good point

[3/9/2004 11:08:33 PM] [Investortrader] That you brought up

[3/9/2004 11:09:28 PM] [Investortrader] A bounce off that area is what I'd be looking to short

[3/9/2004 11:09:51 PM] [Investortrader] Especially if it were on lower volume

[3/9/2004 11:10:23 PM] [Investortrader] Anyone in here still playing with WFII?

[3/9/2004 11:10:33 PM] [Nipsy331] like today's bounce? lower volume than yesterday, but still above the average on your chart.

[3/9/2004 11:10:45 PM] [BossFan] Yup, still got WFII

[3/9/2004 11:10:50 PM] [Aktony] I am in WFII

[3/9/2004 11:11:11 PM] [BossFan] I like the chart on VION

[3/9/2004 11:11:17 PM] [Investortrader] Right Nipsy, if it continues up on lower and lower volume for another day or two, I might look to short it up around the 20sma, possibly the 50sma if it gets that high

[3/9/2004 11:11:26 PM] [Investortrader] Let's look at WFII for a minute

[3/9/2004 11:11:44 PM] [Investortrader] I noticed this chart earlier today

[3/9/2004 11:12:01 PM] [Investortrader] We're right back at some good support here

[3/9/2004 11:12:15 PM] [Investortrader] Nov, Dec, Feb lows, all right around here

[3/9/2004 11:13:06 PM] [Investortrader] OBV isn't particularly great but the risk/reward level here is compelling

ClubHome

[3/9/2004 11:13:53 PM] [Investortrader] And I like the small range day today, a rest day

[3/9/2004 11:14:59 PM] [Investortrader] I'm going to be watching this one for any positive action on it

[3/9/2004 11:15:25 PM] [Investortrader] Any questions on WFII?

[3/9/2004 11:15:57 PM] [Nipsy331] again, you'd want to set the loss cut just under the support lows--about 12?

[3/9/2004 11:16:53 PM] [Investortrader] Right, maybe a bit more than a dime under 12, maybe two dimes

[3/9/2004 11:17:08 PM] [Investortrader] Something around there

[3/9/2004 11:17:29 PM] [Nipsy331] ah ha-- just to give it a bit of wiggle room?

[3/9/2004 11:17:36 PM] [Investortrader] Exactly

[3/9/2004 11:18:11 PM] [Investortrader] support and resistance lines usually should be drawn with felt tip markers, not finely sharpened pencils ;)

[3/9/2004 11:18:53 PM] [Nipsy331] I see. Also, gives it some room to test the October low, just a bit lower than the others.

[3/9/2004 11:19:40 PM] [Investortrader] One thing to notice on this chart

[3/9/2004 11:19:55 PM] [cobralso] Do you use felt tip markers on your computer?

[3/9/2004 11:20:35 PM] [FirstWave] Only white out.

[3/9/2004 11:20:55 PM] [Investortrader] The Jan decline, followed by early Feb basing .. when the rally attempt of 2/18 - 2/19 failed, the reaction bounce off the 2/24 low came almost up to the bottom of that early Feb base

[3/9/2004 11:21:04 PM] [Investortrader] Hehehe FW

[3/9/2004 11:21:19 PM] [FirstWave] stock should be up tomorrow

[3/9/2004 11:21:43 PM] [Investortrader] That's a typical bounce, to the prior support which becomes resistance

[3/9/2004 11:22:50 PM] [Investortrader] Any questions on WFII?

[3/9/2004 11:23:25 PM] [Nipsy331] nope. ty

[3/9/2004 11:23:35 PM] [Investortrader] On to VION ...

[3/9/2004 11:25:49 PM] [Investortrader] I think this one may still need to work a bit before moving ahead

[3/9/2004 11:26:15 PM] [Investortrader] Yesterdays action showed the sellers were there to meet any new buyers

[3/9/2004 11:26:45 PM] [Investortrader] And with the follow-through to the downside today, even with what should be good news

[3/9/2004 11:29:24 PM] [Investortrader] If I were interested in this one I'd look to pick it up first around the recent base low area

[3/9/2004 11:30:00 PM] [Investortrader] As this looks like a possibility it's a failure of

ClubHome

the upper BB, which means at least a test of the 20sma

[3/9/2004 11:30:28 PM] [BossFan] Thanks IT...bed time for me...catch ya all tomorrow

[3/9/2004 11:30:31 PM] [Investortrader] And if it does chop around a bit first before moving out, the lower BB will soon be at the base low, so another test of that wouldn't be a surprise

[3/9/2004 11:30:42 PM] [Investortrader] Welcome BossFan

[3/9/2004 11:30:52 PM] [Nipsy331] So you might be thinking about the 3.16 area?

[3/9/2004 11:31:02 PM] [Investortrader] Right Nipsy

[3/9/2004 11:31:19 PM] [Investortrader] It may not get down there, but right now that's where I would look to pick some up

[3/9/2004 11:31:50 PM] [Investortrader] Will be good support there, and if it breaks I'd be out with a small loss

[3/9/2004 11:32:30 PM] [Nipsy331] That seems like the key, the small loss and buying at the support level.

[3/9/2004 11:32:54 PM] [Investortrader] you're getting it! :)

[3/9/2004 11:33:01 PM] [Nipsy331] ty

[3/9/2004 11:33:30 PM] [Investortrader] Prices will usually bounce off support, for nice profits, the few times they don't I make sure I sell out with small losses, before they become big ones!

[3/9/2004 11:34:14 PM] [Nipsy331] And the support seems to provide a very convenient loss cut point. I'm really struggling with this point.

[3/9/2004 11:34:54 PM] [Investortrader] Yes, you want to give it a little bit of room under the support for your stop, but not too much

[3/9/2004 11:36:28 PM] [Nipsy331] As it's rising, there's not much to go by to figure the pull back. Do you have a method?

[3/9/2004 11:37:13 PM] [Nipsy331] jan 09 marks a small pb just prior to another upswing...

[3/9/2004 11:37:45 PM] [Investortrader] It depends on where in the trend it is, beginning or end

[3/9/2004 11:39:04 PM] [Nipsy331] And of course the general market trend. I see on the longer term chart that there is support at the 1.80 area or so from nov. 03

[3/9/2004 11:39:35 PM] [Investortrader] Let's look at the beginning of this BO in early Jan

[3/9/2004 11:40:05 PM] [Investortrader] Broke out on 1/5, the had that pb you mentioned into 1/9

[3/9/2004 11:40:42 PM] [Nipsy331] yes

[3/9/2004 11:41:11 PM] [Investortrader] Early on you want to see the 50sma hold, as

ClubHome

it did there ... also it only came back about half way down the 1/5 candle

[3/9/2004 11:41:41 PM] [Investortrader] Then on 1/12 another BO day, followed by consolidation

[3/9/2004 11:42:01 PM] [Investortrader] Again only down to about half-way down the BO candle

[3/9/2004 11:42:14 PM] [Investortrader] Also we're now riding the upper BB

[3/9/2004 11:43:13 PM] [Investortrader] Once that is happening you don't want to see it lose contact with the upper BB for more than 3 days, 4 max

[3/9/2004 11:43:45 PM] [Investortrader] Here it lost contact for 3 days then pushed back up for another BO on 1/22

[3/9/2004 11:44:10 PM] [Investortrader] Again on 1/27 it lost contact for 3 days, then pushed back up

[3/9/2004 11:44:40 PM] [Investortrader] Anything longer than that would be a sign of weakness and that the momentum is breaking down

[3/9/2004 11:44:42 PM] [Nipsy331] Extended loss of contact may indicate that there is a failure in the short term uptrend?

[3/9/2004 11:44:53 PM] [Investortrader] And it kept on going well into Feb

[3/9/2004 11:45:14 PM] [Investortrader] Another reason it may need a bit more rest here .. it's just had a nice big run-up

[3/9/2004 11:45:58 PM] [Investortrader] Finally in lat Feb it couldn't keep in contact with the upper BB

[3/9/2004 11:46:03 PM] [enzo] it thanks for the exspanation on bb. very usefull

[3/9/2004 11:46:07 PM] [Investortrader] For more than 4 days

[3/9/2004 11:46:29 PM] [enzo] sorry my english

[3/9/2004 11:46:35 PM] [Investortrader] So it's not much of a surprise that the next try at it was a failure with it reversing back down the same day

[3/9/2004 11:46:46 PM] [Investortrader] Welcome enzo :)

[3/9/2004 11:47:52 PM] [parkwaypet] IT just curious looking in and out tonight so anything you might like

[3/9/2004 11:47:55 PM] [Investortrader] So after this big run, and riding the upper BB, I'd be looking for a place to sell

[3/9/2004 11:48:02 PM] [enzo] i think i am getting to understand the bb. better now

[3/9/2004 11:48:26 PM] [Nipsy331] Also, I notice that the 4 day bb failure is marked by the piercing of LR30. Which it also failed to dlose above yesterday.

[3/9/2004 11:48:46 PM] [Nipsy331] close.

[3/9/2004 11:49:04 PM] [Investortrader] The more items that line up, the stronger support or resistance becomes

[3/9/2004 11:49:42 PM] [Nipsy331] seems that others have your same idea, about a

ClubHome

sale at the ubb yesterday, hence the selling pressure.

[3/9/2004 11:49:42 PM] [Investortrader] parkwaypet, I pointed out WFII earlier as being in a safe buying area down here ... also FW thinks it will be headed up tomorrow

[3/9/2004 11:49:57 PM] [enzo] which day is the piercing ?

[3/9/2004 11:50:00 PM] [parkwaypet] ty

[3/9/2004 11:50:23 PM] [Investortrader] Right Nipsy, lots have seen the momentum is slowing in it, so they used yesterday to sell to all the new buyers

[3/9/2004 11:50:51 PM] [Nipsy331] 2/24 for the piercing

[3/9/2004 11:51:25 PM] [cuidado] also, gapped up yesterday.... today it filled gap

[3/9/2004 11:51:44 PM] [cuidado] and bounced last hour

[3/9/2004 11:52:03 PM] [enzo] thanks nipsy
