[3/20/2004 12:08:04 PM] [hotto] FEPO = For Educational Purposes Only

[3/20/2004 12:08:12 PM] [hotto] PPINIOFR = Past Performance Is Not Indicative Of Future Results

[3/20/2004 12:09:57 PM] [hotto] Another week in the IT Correction.

[3/20/2004 12:10:39 PM] [hotto] DJ-30 bottomed on Monday.. below LBB.. then rallied for 2 days.. back up to LR30..

[3/20/2004 12:11:41 PM] [hotto] Friday... Options Exp day.. tried briefly.. to move higher.. Rolled over and closed down over 100 pts.. again.

[3/20/2004 12:11:53 PM] [hotto] Volume increased on the decline..

[3/20/2004 12:12:22 PM] [hotto] DJIA stocks had 15 DBDs.. (below Thursday's LOD)... AND..

[3/20/2004 12:12:43 PM] [hotto] 5 stocks made new IT Decline Lows..

[3/20/2004 12:13:22 PM] [hotto] DJIA closed back below EMA100... and OBV made a new IT Decline Low..

[3/20/2004 12:14:05 PM] [hotto] DIA pattern was similar.. with an anomaly in the OBV..

[3/20/2004 12:14:38 PM] [hotto] Thursday... closed up +.05.. but HOD was below Wed..

[3/20/2004 12:15:42 PM] [hotto] That high vol up on Thursday. can be seen now to be simply "churning"... an opp. for new Shorts to be established... OR re-established.. that had covered on Monday..

[3/20/2004 12:16:44 PM] [hotto] We used the first approach to LR30 as a PT target.. for Longs.

[3/20/2004 12:18:03 PM] [hotto] SP-500 closed below Thursday's Low.. Note.. SP-500 has the smallest decline from HOY.. of the 3 big avgs..

[3/20/2004 12:18:28 PM] [hotto] Friday.. SP-500 had a sharper decline than DJIA..

[3/20/2004 12:18:58 PM] [hotto] note also.. SP-500 was turned down by LR30 and SMA10.

[3/20/2004 12:19:50 PM] [hotto] SPY shows same pattern.. But.. weaker on Friday..

ClubHome

after that euphoric surge on the close on Thursday.. in SPY..

[3/20/2004 12:20:45 PM] [hotto] COMPQX.. fell below LR30 again.. and closed under Thursday's Low.

[3/20/2004 12:21:38 PM] [hotto] the last 2 rally attempts.. were turned back.. below EMA100...

[3/20/2004 12:22:02 PM] [hotto] this last rally held below SMA10

[3/20/2004 12:22:41 PM] [hotto] QQQ.. same pattern

[3/20/2004 12:23:34 PM] [hotto] T2100 was down again.. with breadth neg.

[3/20/2004 12:24:39 PM] [hotto] A/D = 1303 / 1934... moderate for DJIA - 109

[3/20/2004 12:25:18 PM] [hotto] A/D = 1250 / 2002 per Yahoo Finance.. that would be more in tune with DJIA -109

[3/20/2004 12:25:40 PM] [hotto] H / L = 126 / 11... Still a Bull Mkt...

[3/20/2004 12:26:49 PM] [hotto] note.. amid this IT correction.. of many weeks... H / L has stayed over 100 / 30... at worst - in my memory..

[3/20/2004 12:27:38 PM] [hotto] T2106 down to - 82

[3/20/2004 12:27:56 PM] [hotto] so.. T2118 continues down..

[3/20/2004 12:28:58 PM] [hotto] T2118..has been in a down pattern.. since the 1/26/04 IT Rally High..

[3/20/2004 12:29:33 PM] [hotto] Now we can clearly see 3 down waves.. since the peak.

[3/20/2004 12:31:06 PM] [hotto] We noted earlier.. that the first 2 down waves went about 10 days before a pause.. or bounce.. of a week or more..

[3/20/2004 12:31:33 PM] [hotto] Friday was the 9th day down in this last down wave.

[3/20/2004 12:33:16 PM] [hotto] Today is March 20.. Earnings Season begins in 2 weeks.. for Aprii.

[3/20/2004 12:34:39 PM] [hotto] There will likely be a tradeable low.. made over the next 2 weeks. We just have to keep monitoring for it.

[3/20/2004 12:35:32 PM] [hotto] DJ-20 Transports. fell back to EMA200 = SMA200..

[3/20/2004 12:36:24 PM] [hotto] Oil closed over \$38 / Bbl. That is punishing the transports..

[3/20/2004 12:37:44 PM] [hotto] XAL--X closed at a new IT decline low.

[3/20/2004 12:38:59 PM] [hotto] IWM - Russell 2000 was turned back by LR30 and SMA10

[3/20/2004 12:39:19 PM] [hotto] IWM is still holding over the Feb lows...

[3/20/2004 12:39:37 PM] [hotto] A comment on Earnings Season...

[3/20/2004 12:40:30 PM] [hotto] We are in the middle of Earnings Preannouncement time.. often called "Earnings Warnings Season"

[3/20/2004 12:40:44 PM] [hotto] That will last for the next 2 weeks..

ClubHome

[3/20/2004 12:41:29 PM] [hotto] We have seen at least 2 companies fall out of the G+ list over the last week or so...

[3/20/2004 12:41:57 PM] [hotto] VRTY and CAMD both had expected very good Quarters...

[3/20/2004 12:42:36 PM] [hotto] Management had come out in December or January... and Guided estimates higher for this Quarter.

[3/20/2004 12:43:09 PM] [hotto] In the last week or so... they have had to come out and take back the earlier comments..

[3/20/2004 12:43:23 PM] [hotto] Now guiding lower for this quarter.

[3/20/2004 12:43:58 PM] [hotto] They hate having to do that... really hurts their credibility with Wall St..

[3/20/2004 12:44:57 PM] [hotto] Next time they comment positively, Wall St. may just ignore it - or give muted rewards..

[3/20/2004 12:45:44 PM] [hotto] So... it means to me.. we have seen some weakness creep into the economy during this Quarter..

[3/20/2004 12:46:17 PM] [hotto] Not big... but here and there.. business is not coming through.. as had been expected..

[3/20/2004 12:46:44 PM] [hotto] Capex spending had surged in the 3rd and 4th Qtr.

[3/20/2004 12:47:11 PM] [hotto] It is not coming through as strong as forecast for this 1st Qtr..

[3/20/2004 12:47:46 PM] [hotto] That matches up with the weakness in hiring for Jan and Feb.

[3/20/2004 12:48:18 PM] [hotto] Things can snap back up at any time.

[3/20/2004 12:49:34 PM] [hotto] But for now, the Market correction seems in agreement with the thesis.. that the Rally had gone too far.. Priced in more growth than was coming.

[3/20/2004 12:49:58 PM] [hotto] Anyway.. that is the current mood.

[3/20/2004 12:50:31 PM] [hotto] The BRCM CEO was interviewed recently.

[3/20/2004 12:51:01 PM] [hotto] He commented about one of their new market segments... VoIP..

[3/20/2004 12:51:30 PM] [hotto] He said VoIP was the fastest growing segment of their business..BUT

[3/20/2004 12:52:11 PM] [hotto] Was still not a "significant" percentage of their business.

[3/20/2004 12:52:37 PM] [hotto] And - would not be big for another 2 years or so..

[3/20/2004 12:52:53 PM] [hotto] So.. VoIP "is on the come".

[3/20/2004 12:53:33 PM] [hotto] It will continue to be a useful "Theme" for at least the next 2 years.

[3/20/2004 12:54:04 PM] [hotto] That is.. Will not be mature... There will be opportunities.. off and on.

[3/20/2004 12:54:38 PM] [hotto] AV is another VoIP player..

[3/20/2004 12:54:54 PM] [hotto] 12/31/03.. closed 12.94..

[3/20/2004 12:55:14 PM] [hotto] Peaked 2/11/04 at 19.00

[3/20/2004 12:55:38 PM] [hotto] Since.. has corrected back to 15 at EMA100..

[3/20/2004 12:56:05 PM] [hotto] There is a gap from 1/8/04.. with top lip at 14.20..

[3/20/2004 12:56:29 PM] [hotto] 1/7/04.. Lower lip = 13.68.

[3/20/2004 12:56:46 PM] [hotto] Note a couple of things about AV..

[3/20/2004 12:57:27 PM] [hotto] The stock is still up from 12/31/03.. OBV is still ok..

[3/20/2004 12:57:58 PM] [hotto] AV has had a big % correction already.. may be more ahead..

[3/20/2004 12:58:39 PM] [hotto] Last.. As we get into Earnings SEason.. AV may rally again... IF business is good..

[3/20/2004 12:59:10 PM] [hotto] ARRS is another VoIP player.

[3/20/2004 12:59:21 PM] [hotto] Closed 12/31/03.. 7.24..

[3/20/2004 12:59:49 PM] [hotto] HOY = 11.40 on 2/10/04..

[3/20/2004 1:00:14 PM] [hotto] Friday.. hit a new IT decline low... 7.70.

[3/20/2004 1:00:48 PM] [hotto] EMA200 is at 7.20 - just below.

[3/20/2004 1:01:37 PM] [hotto] AUDC is another in the VoIP group...

[3/20/2004 1:01:56 PM] [hotto] These were the "best 3" we discussed last December..

[3/20/2004 1:02:28 PM] [hotto] So far.. they are holding "some" gains since 2004 began..

[3/20/2004 1:03:14 PM] [hotto] VoIP.. will get hot again sometime soon.

[3/20/2004 1:05:08 PM] [hotto] "Themes" does not insure that the group will be up every week... or month.

[3/20/2004 1:06:18 PM] [hotto] My point.. as discussed months ago.. is that these groups will get sponsorship.. off and on...

[3/20/2004 1:06:38 PM] [hotto] We know ---Every group goes In and Out of favor.

[3/20/2004 1:07:16 PM] [hotto] We heard that the Homebuilding Group was "done" in the first week of January..

[3/20/2004 1:08:21 PM] [hotto] MG631 had a nasty correction the first week of 2004... We discussed it at the time.

[3/20/2004 1:08:54 PM] [hotto] We suggested it may be just "tax selling" into the new year... Moving huge profits into 2004.

[3/20/2004 1:09:32 PM] [hotto] Of course.. since the early Feb lows.. about 1250... MG631 moved to over 1500.

[3/20/2004 1:09:41 PM] [hotto] That was a New ATH..
[3/20/2004 1:10:18 PM] [hotto] But....If you were a buyer on 3/5/04.. with Index approx 1530..
[3/20/2004 1:10:55 PM] [hotto] Today, you may be nervous.. with Index at 1445.. and maybe headed back to 1350 .
[3/20/2004 1:11:35 PM] [hotto] But.. Homebuilding will rally again.. The argument will continue..
[3/20/2004 1:12:10 PM] [hotto] Bears have "Bubble".. historically overpriced... Consumer debt too high... etc..
[3/20/2004 1:13:10 PM] [hotto] Bulls have "Best investment for most Americans"... Tax advantage... Homebuilders still at low valuations for such a reliable group.
[3/20/2004 1:14:10 PM] [hotto] HappyG wrote : How do we know that a group is hot again ? Where can we see it from ?
[3/20/2004 1:14:20 PM] [hotto] That's what charts are for.
[3/20/2004 1:14:50 PM] [hotto] My point is...They will get hot again.. But for now.. still in correction..
[3/20/2004 1:14:58 PM] [hotto] mace wrote : AV and BRCM not in yur VOIP Theme list should they be or not big players in this yet?
[3/20/2004 1:15:19 PM] [hotto] AV should be in the list.. I thought I added it..
[3/20/2004 1:15:47 PM] [hotto] BRCM.. such a small part of their business is in VoIP.. I would not add it..
[3/20/2004 1:16:08 PM] [hotto] pope39c wrote : Observation: In the "Metals and Mining" Sub Group "Steel and Iron" 33 out of the 42 listed were up in price, some very strong with good volume

[3/20/2004 1:18:43 PM] [hotto] Sectors.. using PPC4.. since the Monday low.
[3/20/2004 1:19:19 PM] [hotto] just before Sectors.. One more stock..
[3/20/2004 1:19:44 PM] [hotto] SEAC.. big in VOD (Video on Demand)..
[3/20/2004 1:20:04 PM] [hotto] Note.. had a big Jan rally...
[3/20/2004 1:20:31 PM] [hotto] 3/2/04... AH gave Earnings Warning..
[3/20/2004 1:20:51 PM] [hotto] VOD volumes are not "there yet"..
[3/20/2004 1:21:17 PM] [hotto] VOD is off in the future... moreso than VoIP..
[3/20/2004 1:21:55 PM] [hotto] Some time... maybe next year or 2 ??? SEAC will

have really growing revenues..

[3/20/2004 1:22:34 PM] [hotto] Note.. last word out of ARRS, AUDC were Upward Guidance..

[3/20/2004 1:23:02 PM] [hotto] Market is doubting that now... with those other warnings coming out..

[3/20/2004 1:23:35 PM] [hotto] Maybe they will stumble here...we will know in just a few weeks..

[3/20/2004 1:24:06 PM] [hotto] OR ??? maybe they will come through. We will know soon..

[3/20/2004 1:25:05 PM] [hotto] For now.. just a correction of the early 2004 rally.. Next news will get us either a fast move back up... OR.. a gap down..

[3/20/2004 1:26:12 PM] [hotto] ARRS was at \$4.50 in August.. has had a huge rally.

[3/20/2004 1:52:08 PM] [hotto] SMH.. (traders vote on Semis)... broke below SMA200.

[3/20/2004 1:52:36 PM] [hotto] note.. volume slowed a bit Friday.. Monday will be important.

[3/20/2004 1:53:15 PM] [hotto] Closed just below the 10/24/03 SL.. We remember THAT one !

[3/20/2004 1:54:24 PM] [hotto] In late October.. many were calling for a big decline. Instead, the next big rally was to begin.

[3/20/2004 1:55:29 PM] [hotto] SMH.. next chart point is about 36.30 - 36.50.. in the 10/2/03 GAp area..

[3/20/2004 1:55:59 PM] [hotto] A repeat from earlier in the week...

[3/20/2004 1:57:17 PM] [hotto] One strategist countered the "Semis are oversold - down 15% ".. argument by noting they were UP over 100% from Feb 2003 Lows.. to Jan Top..

[3/20/2004 1:58:26 PM] [hotto] On The G+ list.. Upward Guidance...

[3/20/2004 1:59:36 PM] [hotto] Once we feel safe from the "Earnings Warning Season"... then it is usually time to start buying some stocks in the G+ list..

[3/20/2004 2:00:34 PM] [hotto] OR.. if the company comes out... one day soon.. and Re-affirms the Guidance.. At least we can get past the fear of disaster..

[3/20/2004 2:00:58 PM] [hotto] VRTY is a good example..

[3/20/2004 2:01:17 PM] [hotto] in December.. they Guided higher..

[3/20/2004 2:02:14 PM] [hotto] VRTY gapped up from 14.29 to 15.93... and made a high of 17.45 in 2 days..

[3/20/2004 2:02:52 PM] [hotto] 3 weeks later.. peaked at 17.75 - in January.

[3/20/2004 2:03:19 PM] [hotto] VRTY held above 15.30 until last week..

[3/20/2004 2:03:38 PM] [hotto] 3/11 closed at 15.78... then Warning in AH.

[3/20/2004 2:03:58 PM] [hotto] next day dropped to 12.75.. Round trip from December..

[3/20/2004 2:04:36 PM] [hotto] CAMD warned the same day..

[3/20/2004 2:05:00 PM] [hotto] Gapped down from 13.03 to below 11.

[3/20/2004 2:05:52 PM] [hotto] So.. with companies with Improving prospects.. turning to Worsening prospects...

[3/20/2004 2:06:35 PM] [hotto] AND with Analysts' Upward revisions - to- Downward Revisions.. At usual Cycle Highs..

[3/20/2004 2:07:17 PM] [hotto] Optimism reigns... So.. we must be careful.. not to get hurt by Warnings..

[3/20/2004 2:08:11 PM] [hotto] Again.. once past this period.. it is often good to go shopping on the G+ list.. for Oversold "jewels"... for Earnings Season..
