fixed their problems ... updating for the next few minutes

[2/27/2004 8:05:02 PM] [dwells129] hello IT, long time since we chatted.

[2/27/2004 8:05:36 PM] [Investortrader] Sure has been dwells, ended up taking most
of this month off

[2/27/2004 8:06:39 PM] [dwells129] Hottos marketview last night had me selling into
this mornings strength. Thanks Hotto!!!

[2/27/2004 8:06:56 PM] [Investortrader] Great!

[2/27/2004 8:07:38 PM] [dwells129] are you doing a chart discussion?

[2/27/2004 8:07:55 PM] [Investortrader] Yes, in a few minutes when update is done

[2/27/2004 8:08:19 PM] [dwells129] i shorted KSS today, would love your comments.

[2/27/2004 8:09:11 PM] [Investortrader] Was there news today on it?

[2/27/2004 8:10:50 PM] [Investortrader] Update finished

[2/27/2004 8:11:20 PM] [dwells129] tcnet kicked me out, anyway they had earnings
today and it gapped up. i am OK for now, stock is a good \$1 below my short. I was
thinking retail should be dropping off now that the Xmas earnings are out.

[2/27/2004 8:11:58 PM] [Investortrader] Does look like it could get bearish looking on
the charts

[2/27/2004 8:12:07 PM] [dwells129] just add KSS to your list if you would.

[2/27/2004 8:12:24 PM] [Investortrader] Even though OBV is confirming the new high,
today's price action is bearish

[2/27/2004 8:12:59 PM] [Investortrader] Would be very good for your short if it were
to open lower and drift down

[2/27/2004 8:13:08 PM] [dwells129] agreed on the OBV, that is why i am concerned.
shorted it at work, no OBV to look at until tonight.

[2/27/2004 8:13:20 PM] [dwells129] agreed
[2/27/2004 8:13:42 PM] [Investortrader] Well the big volume on the gap up affects OBV[but in this case there were plenty of sellers to meet the buyers

[2/27/2004 8:24:13 PM] [Investortrader] Ok
[2/27/2004 8:24:19 PM] [Investortrader] FNSR was one I wanted to talk about
[2/27/2004 8:24:32 PM] [Investortrader] One of my losing trades

ClubHome

[2/27/2004 8:25:01 PM] [dwells129] i sold it today, i did not think is was time yet.
[2/27/2004 8:25:04 PM] [Investortrader] I don't think I've made a trade this month between vacation and ISP and other things, so these trades will be from January
[2/27/2004 8:26:09 PM] [Investortrader] Way back on 1/20 someone in here asked me to look at FNSR
[2/27/2004 8:26:42 PM] [Investortrader] I told them it didn't look good and I would sell, they sold that day for 3.93
[2/27/2004 8:27:18 PM] [dwells129] sweet
[2/27/2004 8:27:24 PM] [Investortrader] Couple days later on the 22 and 23 it was testing the middle BB and the 50sma
[2/27/2004 8:28:07 PM] [Investortrader] It held 3.50 both days for the lod, was near good support, so I bought it on that second day I think, had order in for 3.51
[2/27/2004 8:28:54 PM] [Investortrader] Then on the 26 it had a DBO and I added a bit
[2/27/2004 8:29:07 PM] [Investortrader] I posted all those trades
[2/27/2004 8:29:25 PM] [Investortrader] Unfortunately you see what happened, it reversed the very next day
[2/27/2004 8:30:12 PM] [Investortrader] Also broke down under that 3.50 support that had been holding
[2/27/2004 8:30:28 PM] [Investortrader] And broke under the middle BB
[2/27/2004 8:30:41 PM] [Investortrader] And was a bearish engulfing day
[2/27/2004 8:31:22 PM] [Investortrader] Too many ands! I had mentioned while the trade was on about if support broke I was going to get out
[2/27/2004 8:32:03 PM] [Investortrader] I don't remember now if I got out on the 27th or the 28th now
[2/27/2004 8:32:28 PM] [Investortrader] I do remember I got out of half at 3.48 and half at 3.49 on a little bounce when I went to sell it
[2/27/2004 8:32:44 PM] [Investortrader] And took a small loss on it
[2/27/2004 8:33:24 PM] [Investortrader] Now if we follow it thru Feb you'll see it rallied to just under the 50sma from 2/9 to 2/13
[2/27/2004 8:33:56 PM] [Investortrader] But that rally wasn't on much volume, so the 50sma turned it back
[2/27/2004 8:35:04 PM] [Investortrader] Notice the days from 2/19 to 2/24 now
[2/27/2004 8:35:22 PM] [dwells129] if you have volume and you were in the trade would you hold or sell at the 50SMA?
[2/27/2004 8:35:52 PM] [Investortrader] Good question
[2/27/2004 8:36:16 PM] [caldoc] I'd sell.
[2/27/2004 8:36:19 PM] [Investortrader] This for the 2/9 to 2/13 area, right?

ClubHome

[2/27/2004 8:36:24 PM] [HOTTO] w2jc has posted a new topic to Topic Papers & Presentations: Fundamentals and Forex Pricing

[2/27/2004 8:36:44 PM] [Investortrader] The good volume had better push it thru the 50sma, still would need to get over that

[2/27/2004 8:36:48 PM] [dwells129] i sold mine on 2/9

[2/27/2004 8:36:58 PM] [Investortrader] Good move!

[2/27/2004 8:37:33 PM] [Investortrader] The 50sma can be strong support/resistance, especially when first approached like it was then

[2/27/2004 8:38:03 PM] [caldoc] Sold mine 2/20

[2/27/2004 8:38:56 PM] [Rookie] OK, I'll admit it! I'm the dummy who kept his \$5 calls on FNSR and am down bigtime on it. Actually had a profit at one pt but Hotto said he was buying on dips so I bought more calls. Now down big!

[2/27/2004 8:39:05 PM] [Investortrader] That was in the middle of the 3 days of increased selling I was just starting to point out caldoc

[2/27/2004 8:39:56 PM] [Investortrader] Rookie, are they Jan '05 calls?

[2/27/2004 8:40:17 PM] [Rookie] Nope! Unfortunately they are July Calls

[2/27/2004 8:40:27 PM] [Investortrader] Hmmmm

[2/27/2004 8:40:39 PM] [caldoc] Right, IT.

[2/27/2004 8:41:01 PM] [Rookie] 50 contracts

[2/27/2004 8:41:55 PM] [caldoc] IT, when you've finished your FNSR, could you look at PVN?

[2/27/2004 8:42:10 PM] [Investortrader] Those 3 big selling days may need to be re-tested .. that would interest me for a low risk trade

[2/27/2004 8:42:36 PM] [Investortrader] Especially if there is a low vol sell-off which would set up a LBBCBS

[2/27/2004 8:42:47 PM] [Investortrader] Sure thing caldoc

[2/27/2004 8:42:53 PM] [caldoc] I've got a load of 12.5 July options in PVN.

[2/27/2004 8:43:00 PM] [dwells129] what does that mean retested?

[2/27/2004 8:43:05 PM] [Investortrader] And I think we could get that in FNSR

[2/27/2004 8:43:40 PM] [Investortrader] dwells, that the lows produced by that sell-off which were tested the following day may need to be tested again

[2/27/2004 8:44:15 PM] [dwells129] OK. thx, a good time to buy then?

[2/27/2004 8:44:38 PM] [Investortrader] It would interest me because of the big sell-off, and the possible dbl btm, and the low risk entry point

[2/27/2004 8:45:44 PM] [Investortrader] Though most stocks in this sector had bad reports, so they may chop around a bit before the next sustained move

[2/27/2004 8:46:10 PM] [dwells129] did not know that

[2/27/2004 8:46:32 PM] [Investortrader] Every one I saw either didn't meet, or they

ClubHome

met expectations and guided lower for next qtr

[2/27/2004 8:46:56 PM] [Investortrader] ADCT same thing

[2/27/2004 8:47:04 PM] [Investortrader] Got hit that day

[2/27/2004 8:47:56 PM] [Investortrader] And FNSR had a bad report, as did BKHM

[2/27/2004 8:48:09 PM] [Investortrader] And I think AVNX did as well

[2/27/2004 8:48:34 PM] [Investortrader] Any questions on FNSR?

[2/27/2004 8:49:27 PM] [dwells129] today was down on light volume, maybe a pause?

[2/27/2004 8:49:31 PM] [Investortrader] SO we may not get anything big out of this sector for a few weeks until next quarters earnings expectations begin to build

[2/27/2004 8:49:46 PM] [caldoc] IT, doesn't ADCT have the gap of 2.43 - 2.64 on 12/3 to fill? And what do you think the probability of that is? If so, wouldn't that be a very low risk entry?

[2/27/2004 8:50:12 PM] [dwells129] i was waiting for that gap also.

[2/27/2004 8:50:34 PM] [Investortrader] dwells, on FNSR my thinking here is maybe a low volume pb to test the lows of a few days ago, maybe not that low as the LR30 could hold, then another rally attempt, we'll see how it unfolds

[2/27/2004 8:51:46 PM] [dwells129] i sold FNSR today because it did not push higher when the dow and nas was way up.

[2/27/2004 8:51:53 PM] [Investortrader] caldoc, I noticed sisterpractical a few days ago mentioned that gap on ADCT and I took a look at it

[2/27/2004 8:52:10 PM] [dwells129] made a few\$

[2/27/2004 8:52:50 PM] [Investortrader] That would be a good entry if it gets down that low on ADCT, yes

[2/27/2004 8:53:22 PM] [caldoc] I haven't been online for a while. New computer has a mind of its own.

[2/27/2004 8:53:24 PM] [Investortrader] Got close enough on 2/24 when it hit 2.65 perhaps

[2/27/2004 8:54:09 PM] [dwells129] plus the 200 will also keep it up.

[2/27/2004 8:54:51 PM] [Investortrader] Though this rally on ADCT is on weak volume

[2/27/2004 8:55:22 PM] [caldoc] IT, I thought that too, but TSV is very weak, and I'm thinking if the market goes down, the stock is not strong enough to stand up to that and will sink with the rest of the market. The gap is in a 3 month consolidation area (Sept - Dec) and should be good support, no?

[2/27/2004 8:56:29 PM] [Investortrader] Many stocks have been going down but the DOW has masked the correction, maybe by the time it falls most other stocks will be close to done falling

ClubHome

[2/27/2004 8:56:54 PM] [Investortrader] I think yes, that will be very good support, just not sure if it will get down that low

[2/27/2004 8:57:04 PM] [Investortrader] If you're talking the 2.45 area

[2/27/2004 8:57:31 PM] [caldoc] right

[2/27/2004 8:57:55 PM] [dwells129] i keep thinking the dow needs to correct, but it just won't. i wish it would.

[2/27/2004 8:58:12 PM] [Investortrader] Aggravating ain't it dwells!

[2/27/2004 8:58:12 PM] [caldoc] I've got an order in, just in case though=D

[2/27/2004 8:59:24 PM] [Investortrader] I think this sector may be more of a trading sector now without the big moves we've seen because of the bad qtrly reports that all came out, at least for a little while

[2/27/2004 8:59:54 PM] [Investortrader] Any questions or shall I move on to PVN?

[2/27/2004 9:00:20 PM] [dwells129] AMAT's report was good, yet??? Semi's

[2/27/2004 9:00:30 PM] [dwells129] yes PVN

[2/27/2004 9:00:35 PM] [caldoc] Move on to PVN

[2/27/2004 9:01:24 PM] [Investortrader] Nice bounce off the 50sma on increased volume today

[2/27/2004 9:01:52 PM] [Investortrader] The 50sma held it nicely this last week too

[2/27/2004 9:02:57 PM] [dwells129] while you were gone it came out that the buyout talks had failed.

[2/27/2004 9:03:16 PM] [Investortrader] I don't like the price pattern from 2/6 to 2/18 however

[2/27/2004 9:03:25 PM] [dwells129] caused the gap down a week or so ago

[2/27/2004 9:03:29 PM] [Investortrader] Ahhh, so maybe that's what caused it

[2/27/2004 9:04:03 PM] [Investortrader] It's right up against resistance here now, at the middle BB and the LR30

[2/27/2004 9:04:23 PM] [Investortrader] That also being the area where it opened on the gap down day

[2/27/2004 9:04:38 PM] [Investortrader] On 2/18

[2/27/2004 9:04:46 PM] [dwells129] purely a takeover play in my mind, but i got some yesterday.

[2/27/2004 9:05:08 PM] [Investortrader] Still think it's in play?

[2/27/2004 9:05:50 PM] [dwells129] Hotto has commented on it several times and it was going up today when the market took that dive this morning.

[2/27/2004 9:06:10 PM] [caldoc] If it's not in play anymore, any future in July 12.50 options, FEPO only , of course?

[2/27/2004 9:06:21 PM] [Investortrader] I'm so far behind in all the comments I may just start fresh lol

ClubHome

[2/27/2004 9:07:46 PM] [Investortrader] If you bot on takeover play, and it's not in play anymore .. your reason for buying is gone

[2/27/2004 9:08:34 PM] [Investortrader] I have no idea if it's in play still or not

[2/27/2004 9:09:43 PM] [caldoc] You're right. But news on company is good, I've got the options at \$1, and it seems that the stock has exhibited resience after the TO rumors died.

[2/27/2004 9:09:44 PM] [Investortrader] I don't think I'd want to be in if the 50sma broke

[2/27/2004 9:10:31 PM] [caldoc] I agree. If the 50sma breaks, I'm gone.

[2/27/2004 9:11:45 PM] [Investortrader] How it handles this area right here at the middle BB and entering the gap down area will tell you

[2/27/2004 9:12:06 PM] [dwells129] takeover play is resurfacing from british banks,

[2/27/2004 9:13:24 PM] [caldoc] Thx, IT. You're a very astute analyzer, and I always enjoy reading your comments. Gotta run and pickup my daughter and new baby (first grandchil:)) at airport. You too, dwells. Thanks.

[2/27/2004 9:13:38 PM] [Investortrader] Congrats caldoc! :)

[2/27/2004 9:14:04 PM] [dwells129] congrats, mine are not married just yet...

[2/27/2004 9:14:05 PM] [caldoc] thanks. See ya.

[2/27/2004 9:16:11 PM] [dwells129] i took my stock list of buys and sorted by OBV last night and sold today in reverse order. It worked pretty good.

[2/27/2004 9:16:42 PM] [Investortrader] I really like OBV as you probably noticed ;)

[2/27/2004 9:16:47 PM] [dwells129] stocks i had owned yesterday

[2/27/2004 9:17:08 PM] [dwells129] me too, teach me more how to read it though.

[2/27/2004 9:17:23 PM] [Investortrader] EGHT was another one of my losing trades I wanted to cover from January, trying to remember exactly where I bot and sold it now

[2/27/2004 9:18:31 PM] [Investortrader] I think I had a winner on EGHT, then a small loss on it the next trade

[2/27/2004 9:18:37 PM] [Investortrader] Both in Jan that is

[2/27/2004 9:19:11 PM] [Investortrader] I think my loss happened when I bot it on 1/22

[2/27/2004 9:19:20 PM] [dwells129] i bot eght and sold at a heavy loss cause i was in mtg and did not have a stop in place. my stops are too tight and get hit. i am learning though.

[2/27/2004 9:19:42 PM] [Investortrader] With the OBV still holding and the price coming down to test the 20sma, middle BB

[2/27/2004 9:20:11 PM] [Investortrader] Stops are a big part of the art form of trading

[2/27/2004 9:20:57 PM] [Investortrader] And it looked like it was a low vol sell-off

[2/27/2004 9:21:03 PM] [dwells129] no volume yet, maybe a little lower yet?

ClubHome

[2/27/2004 9:21:23 PM] [Investortrader] But then the next day sold off more on a bit increased vol and I think I got stopped out that day for a small loss on the break of the 20sma

[2/27/2004 9:22:18 PM] [Investortrader] EGHT doesn't look interesting to me here yet

[2/27/2004 9:22:42 PM] [Investortrader] Though it had a nice day today

[2/27/2004 9:22:56 PM] [dwells129] BB are pinching

[2/27/2004 9:25:01 PM] [dwells129] triangle forming? on EGHT?

[2/27/2004 9:25:02 PM] [gary12] IT can you look at QLGC thanks if you have time

[2/27/2004 9:25:55 PM] [Investortrader] I think EGHT is just meandering

[2/27/2004 9:27:10 PM] [Investortrader] That looks like downside possibilities to me there

[2/27/2004 9:27:16 PM] [Investortrader] Ok gary

[2/27/2004 9:27:45 PM] [Investortrader] But not sure of the triangularity of it ... on to QLGC

[2/27/2004 9:29:15 PM] [Investortrader] We've got lower prices and lower OBV all the way down so far

[2/27/2004 9:29:55 PM] [Investortrader] Every time it tries to lift it's head it gets stepped on

[2/27/2004 9:30:45 PM] [dwells129] IT, is it fair to look at OBV from now to August lows? if yes, this is headed much lower.

[2/27/2004 9:30:47 PM] [Investortrader] If anything this looks like a short to me, certainly not a long until the chart can prove it

[2/27/2004 9:32:21 PM] [Investortrader] Looking at the weekly on it it looks like it is at some important support around here

[2/27/2004 9:32:24 PM] [gary12] i have been short alot on this down move

[2/27/2004 9:32:54 PM] [Investortrader] With the weekly OBV failing on it

[2/27/2004 9:32:56 PM] [gary12] nov

[2/27/2004 9:33:06 PM] [Investortrader] Good move gary!

[2/27/2004 9:33:47 PM] [Investortrader] I don't see much life in this one yet

[2/27/2004 9:34:23 PM] [gary12] that's good for me :)

[2/27/2004 9:34:38 PM] [dwells129] sweet Gary, short in Nov?

[2/27/2004 9:34:40 PM] [Investortrader] Just be careful, see that support on the weekly chart?

[2/27/2004 9:35:13 PM] [gary12] yes thanks

[2/27/2004 9:35:29 PM] [Investortrader] Ok :)

[2/27/2004 9:35:50 PM] [dwells129] i dont see the support on weekly.

[2/27/2004 9:36:09 PM] [Investortrader] 8/7/03

[2/27/2004 9:36:25 PM] [Investortrader] About the same low area that week

ClubHome

[2/27/2004 9:36:58 PM] [Investortrader] 3/17/03 to 4/14/03 that area was resistance
[2/27/2004 9:37:11 PM] [Investortrader] BEfore it broke out
[2/27/2004 9:38:28 PM] [dwells129] so good support between 40 and 41
[2/27/2004 9:38:43 PM] [Investortrader] Looks like it yes
[2/27/2004 9:38:52 PM] [Investortrader] Logical place for a bounce if one were to occur
[2/27/2004 9:39:21 PM] [dwells129] i had a 9:30 question on OBV
[2/27/2004 9:40:01 PM] [Investortrader] That's what got me looking at the weekly chart :)
[2/27/2004 9:41:34 PM] [Investortrader] Not sure how expensive options are on this one
[2/27/2004 9:41:52 PM] [Investortrader] But with that weekly OBV looking so sickly
[2/27/2004 9:42:26 PM] [gary12] if it breaks 40, maybe 31 :)
[2/27/2004 9:43:03 PM] [Investortrader] At least 37 ;)
[2/27/2004 9:44:04 PM] [gary12] one day at a time ;)
[2/27/2004 9:45:36 PM] [dwells129] gary, what made you short it in Nov?
[2/27/2004 9:47:10 PM] [gary12] OBV and news
[2/27/2004 9:48:43 PM] [ChuckR] just caught up.....Oz = StoskStalker.....FWIW
[2/27/2004 9:49:02 PM] [ChuckR] Stock
[2/27/2004 9:49:39 PM] [dwells129] thanks Chuck
[2/27/2004 9:49:50 PM] [Investortrader] That's it! Thanks Chuck
[2/27/2004 9:49:59 PM] [ChuckR] yw
[2/27/2004 9:52:49 PM] [dwells129] IT, do you have some good trades you like?
[2/27/2004 9:53:11 PM] [Investortrader] Looking over a few things now for something interesting :)
[2/27/2004 9:53:33 PM] [Investortrader] I'm 100% cash at the moment
[2/27/2004 9:56:33 PM] [dwells129] i am almost also, sold all but PVN today.
[2/27/2004 9:57:15 PM] [dwells129] oh yeah, forgot the KSS short.
[2/27/2004 9:57:40 PM] [Investortrader] That one will be interesting tomorrow, KSS
[2/27/2004 9:58:28 PM] [dwells129] IT, you have been away too long. They are not trading on Sat.
[2/27/2004 9:58:42 PM] [gary12] :D
[2/27/2004 9:58:48 PM] [Investortrader] Oops!
[2/27/2004 9:59:04 PM] [dwells129] too much sun and fun:D
[2/27/2004 9:59:14 PM] [Investortrader] :D
[2/27/2004 9:59:47 PM] [gary12] BOBE
[2/27/2004 10:01:02 PM] [gary12] BOBE ath
[2/27/2004 10:01:17 PM] [Investortrader] Nice OBV on it too

ClubHome

[2/27/2004 10:01:43 PM] [gary12] good company

[2/27/2004 10:01:57 PM] [dwells129] OBV outside of BB, typically will it pull back a little?

[2/27/2004 10:03:00 PM] [Investortrader] On this one it seems to

[2/27/2004 10:04:31 PM] [dwells129] do you look at OBV say on the 1/2 hour? if yes it says PB coming?

[2/27/2004 10:04:37 PM] [Investortrader] I would look at each stock individually for that characteristic, it's not a general rule

[2/27/2004 10:04:59 PM] [Investortrader] I don't use the 1/2 hour chart, but can take a look

[2/27/2004 10:06:59 PM] [Investortrader] It does show that

[2/27/2004 10:07:55 PM] [Investortrader] This one doesn't seem to run too far too fast without a pb

[2/27/2004 10:09:05 PM] [Investortrader] HTV looks interesting

[2/27/2004 10:09:31 PM] [dwells129] oh yeah

[2/27/2004 10:09:54 PM] [Investortrader] Definite accumulation going on in this one

[2/27/2004 10:10:26 PM] [Investortrader] Though it does have a few low vol days

[2/27/2004 10:10:32 PM] [dwells129] heavy volume today too.

[2/27/2004 10:10:43 PM] [Investortrader] Yeah, today was nice

[2/27/2004 10:12:19 PM] [dwells129] hit the 200 today

[2/27/2004 10:13:02 PM] [cobralso] Wow

[2/27/2004 10:13:07 PM] [Investortrader] I'm putting it on my watchlist for Monday

[2/27/2004 10:13:50 PM] [dwells129] can you go through how an entry would be made on Monday? I am not skilled on how to enter a trade.

[2/27/2004 10:14:14 PM] [Investortrader] Ok, first thing lets look at the 5 minute chart

[2/27/2004 10:14:55 PM] [gary12] ASAP

[2/27/2004 10:15:02 PM] [gary12] :)

[2/27/2004 10:15:02 PM] [Investortrader] Morning sell-off followed by continued rise rest of the day

[2/27/2004 10:15:39 PM] [Investortrader] What I am looking for here are any areas of short term support that would hold a possible morning pb (if there is one)

[2/27/2004 10:16:24 PM] [Investortrader] I do this for any possible trade I am looking at for the next day

[2/27/2004 10:18:19 PM] [Investortrader] Here there doesn't look like there may be much of a pb

[2/27/2004 10:18:29 PM] [Investortrader] Because of the trading pattern

[2/27/2004 10:18:42 PM] [Investortrader] And also the daily chart pattern

[2/27/2004 10:19:59 PM] [Investortrader] So taking that into account, I'd say around

ClubHome

the 50sma on the 5's, which is about where the late 2pm pullback got down to
[2/27/2004 10:20:26 PM] [Investortrader] Maybe around 26.20 or so
[2/27/2004 10:20:36 PM] [Investortrader] Now back to the daily
[2/27/2004 10:20:51 PM] [Investortrader] The daily bar indicates we may get no pb at all
[2/27/2004 10:21:38 PM] [Investortrader] We've got one price area in case there is one, or for a possible pre-mkt buy
[2/27/2004 10:22:07 PM] [Investortrader] Now it could easily open unch or up a bit and just move higher
[2/27/2004 10:22:38 PM] [Investortrader] If there is still volume in it I would probably buy it without the pb
[2/27/2004 10:23:27 PM] [Investortrader] This price formation on increased volume is usually bullish, especially if it opens unch or gaps up, and then moves higher
[2/27/2004 10:24:45 PM] [Investortrader] Sometimes I have a plan of buying lower opens, or shorting higher ones, sometimes my plan is to buy a higher open ... this is one where I would buy a higher open ... but not too high
[2/27/2004 10:25:12 PM] [Investortrader] Or buy that pb if we get it, but I'm not counting on it
[2/27/2004 10:25:29 PM] [dwells129] please continue, i am headed for sleep, i will read log. Thanks for your insight IT.
[2/27/2004 10:25:51 PM] [Investortrader] Welcome dwells, about done with this one :)
[2/27/2004 10:26:16 PM] [Investortrader] Just wanted to see if it did anything in AH, it didn't
[2/27/2004 10:26:52 PM] [dwells129] OK, GN
[2/27/2004 10:26:57 PM] [Investortrader] Because of the good OBV on it I won't shy away from buying a gap up on it, and because of the good OBV I would at least expect the 50sma as a target
[2/27/2004 10:27:26 PM] [Investortrader] Think I'll call it a night too
[2/27/2004 10:28:15 PM] [gary12] thank You IT good to have back with us ;:))
[2/27/2004 10:28:50 PM] [fran] thanx IT
[2/27/2004 10:31:18 PM] [enzo] good evenig
