[1/3/2004 12:00:41 AM] [aaanalyst] Short covering rallies are particularly dangerous. You might get a 1-3 day rally and if you buy into it, you're left holding the bag a week later

[1/3/2004 12:02:02 AM] [aaanalyst] That's why it pays to check out the fundamentals. If the company isn't growing or making money, pops can fizzle quickly.

[1/3/2004 12:04:36 AM] [aaanalyst] E.g., The Knobias note on NVI tells you that this stock is up 655% in the past year. Well that would be great if you bought it at 38 cents. But in a market downdraft, NVI could get back to \$1 in a hurry

[1/3/2004 12:05:40 AM] [webs4all] thank you for the advice, is watching NBR right now

[1/3/2004 12:06:27 AM] [aaanalyst] The lesson every trader has to learn is "How to Not Lose" The second is "Hang on to your tailfeathers."

[1/3/2004 12:08:01 AM] [aaanalyst] Nite, folks

[1/3/2004 12:08:25 AM] [Aktony] Good night, aaanalyst. Good to see you.

[1/3/2004 12:12:25 PM] [hotto] One more way to try to fix Sharing... Click on the Faces icon and reload ...

[1/3/2004 12:12:35 PM] [hotto] some may have to Close TCNet and Re-Load program... to clear up the Sharing problem

[1/3/2004 12:14:13 PM] [hotto] Attorneys...

[1/3/2004 12:15:11 PM] [hotto] Our crystal ball worked pretty well on Thursday...)

[1/3/2004 12:16:01 PM] [hotto] We looked for a pop early Friday.. leading to a test of the 10502 level..

[1/3/2004 12:16:30 PM] [hotto] then.. some tax-selling - Winners.. PT to set in.. and

[1/3/2004 12:17:22 PM] [hotto] Market to sell off in the DJIA.. beginning at least a PB of the recent 6 week rally..

[1/3/2004 12:17:44 PM] [hotto] Then... looking for some separation.. later in the day...

[1/3/2004 12:18:17 PM] [hotto] watching for Last year's winners... to PB.. close lower..

[1/3/2004 12:18:52 PM] [hotto] esp.. the ones that were "window dressed" Up into the Wed. Close..

[1/3/2004 12:19:42 PM] [hotto] Then.. watching for rotation Into some "new leaders" groups.. for Y2004

[1/3/2004 12:20:11 PM] [hotto] That is about how it played out..

[1/3/2004 12:20:35 PM] [hotto] When the early rally ran up to just over 10502.. I went Short the DIA..

[1/3/2004 12:21:04 PM] [hotto] next began a PB.. Then.. the better than expected ISM report...

[1/3/2004 12:21:40 PM] [hotto] gave DJIA.. another pop back over 10502.. new HOD at 10527...

[1/3/2004 12:22:03 PM] [hotto] then.. that gave way to some more of that PT we looked for..

[1/3/2004 12:22:54 PM] [hotto] DJIA.. went as low as 10384... before recovering to close 10409.85 -44.07

[1/3/2004 12:23:33 PM] [hotto] My reward.. for getting it as close as I did...

[1/3/2004 12:24:00 PM] [hotto] was a 6.0 % gain in Trading Account.. for 1st day of 2004.

[1/3/2004 12:24:19 PM] [hotto] I made 16 trades yesterday... to achieve that gain..

[1/3/2004 12:24:45 PM] [hotto] Includes entry and exit.. on a few day-trades.. and..

[1/3/2004 12:25:09 PM] [hotto] several add-tos.. in the IT trades I have discussed.

[1/3/2004 12:26:06 PM] [hotto] All of the "buy on weakness" stocks that we discussed over the last several weeks... are at solid profits now..

[1/3/2004 12:27:06 PM] [hotto] That "last mile buildout" group is working nicely.. so far..

[1/3/2004 12:28:14 PM] [hotto] Some biotechs.. for the "Pharmas shopping for Drugs"

[1/3/2004 12:29:16 PM] [hotto] NGEN.. went kinda nuts yesterday.. :8

[1/3/2004 12:29:52 PM] [hotto] Maybe NANX or ALTI will pop next Monday.. FLML should be solid

[1/3/2004 12:30:47 PM] [hotto] I skipped the China story... thinking that was Last Year's .. LOL

[1/3/2004 12:31:16 PM] [hotto] SINA ... one of the G+ stocks.. led the group higher..

[1/3/2004 12:34:41 PM] [hotto] SIFY.. another BTBO.. big volume.. with headroom

[1/3/2004 12:36:28 PM] [hotto] Then.. I looked for a test of Wed.. LOD.. Covered short about there..

[1/3/2004 12:36:54 PM] [hotto] I did not want to get tangled up in the Short side... That was just a minor thing..

[1/3/2004 12:37:40 PM] [hotto] I made less than 1% of Account.. on the DIA short..

[1/3/2004 12:38:15 PM] [hotto] the bigger gains.. were in buying into the "new leader" groups.. on the weakness.. ie.. Longs

[1/3/2004 12:38:59 PM] [hotto] I will continue to play the SHort side of DIA.. when it matches my market plan.. not planning to press it..

[1/3/2004 12:39:58 PM] [hotto] The BO40v150 scan gave several new stocks to play..

[1/3/2004 12:45:42 PM] [hotto] DJ-30.. had the IT top in November... about 9900 - 9910

[1/3/2004 1:00:40 PM] [hotto] Hotto Club Members that were here in April - June.. saw us use it to forecast several +100 point gains in DJIA.. a day or 2 ahead..

[1/3/2004 1:01:12 PM] [hotto] while most were still Bearish.. looking for DJIA to drop below 7000

[1/3/2004 1:01:49 PM] [hotto] I talked about 2 kinds of Breadth Divergences..

[1/3/2004 1:02:14 PM] [hotto] A regular.. Static one.. having to do with the Closing numbers..

[1/3/2004 1:02:52 PM] [hotto] and our "Dynamic Breadth Divergence" having to do with the Changes in the relationships..

[1/3/2004 1:03:07 PM] [hotto] during the last half-hour of the market day..

[1/3/2004 1:04:03 PM] [hotto] Those things helped keep Hotto Club.. on the right side of the Market.. most of the time.. during April to December 2003.

[1/3/2004 1:04:16 PM] [hotto] starrbucks wrote : ...NHB...do you still think it isn't ""the leader"" of the group of ""BREADTH"" INDICATORSif so why....and what will replace it???

[1/3/2004 1:04:50 PM] [hotto] NHB is not a "Breadth indicator"

[1/3/2004 1:05:40 PM] [hotto] NHB was simply one of the possible Leadership Indexes for the early phase of the IT Rally last year...

[1/3/2004 1:05:58 PM] [hotto] IT Rally = Intermediate Term Rally.. (for new Members)

[1/3/2004 1:06:27 PM] [hotto] When I say IT Rally ..it is not about "Info tech".. Not

[1/3/2004 1:06:53 PM] [hotto] IT Rally is a rally of usually 6 - 13 weeks.. in length..

[1/3/2004 1:07:29 PM] [hotto] a time when good Swing Trades have time to develop.. and good profits made.

[1/3/2004 1:08:04 PM] [hotto] NHB has at least 6 big Homebuilding Stocks in the Index..

[1/3/2004 1:09:19 PM] [hotto] With the Fed's scheme.. to use low interest rates.. to unlock the wealth of the American Homeowner.. to float the economy during 2001 to 2003..

[1/3/2004 1:10:38 PM] [hotto] the NHB became the Index if the Homebuilding group... Home re-fi.. The whole mechanism.. of the growth of that part of the economy..

[1/3/2004 1:11:22 PM] [hotto] the NHB Index was making New ATHs by mid -year

2003.. Leading the way for the market

[1/3/2004 1:11:56 PM] [hotto] Now.. Homebuilders.. are pausing again.. Maybe significant.. I don't know...

[1/3/2004 1:12:32 PM] [hotto] again..big profits have built up in stocks in that group..

[1/3/2004 1:12:47 PM] [hotto] LEN

[1/3/2004 1:12:55 PM] [hotto] KBH

[1/3/2004 1:13:06 PM] [hotto] RYL

[1/3/2004 1:13:34 PM] [hotto] BZH CTX HOV TOL.. others

[1/3/2004 1:14:16 PM] [hotto] RYL.. shows a kind of tripple top.. over last 2 months..

[1/3/2004 1:14:35 PM] [hotto] others are similar.. big PT into Y2004..

[1/3/2004 1:15:07 PM] [hotto] so.. the NHB Index may not be a leader for a while...

[1/3/2004 1:15:39 PM] [hotto] We still don't know.. whether the Homebuilder stocks are done going up...

[1/3/2004 1:16:08 PM] [hotto] this could just be a correction.. to be followed by new Highs later..

[1/3/2004 1:16:39 PM] [hotto] I will be watching the charts.. maybe some entry opps.. soon

[1/3/2004 1:17:22 PM] [hotto] My thinking.. remains the same.. as over the last couple months..

[1/3/2004 1:18:02 PM] [hotto] I think we are finally getting the "handoff" from the Consumer -led Phase 1.. of the Economic Recovery...

[1/3/2004 1:18:26 PM] [hotto] to the Cap-X spending led Phase

[1/3/2004 1:18:57 PM] [hotto] So far.. the Stock market clues.. are in agreement..

[1/3/2004 1:19:38 PM] [hotto] Must keep watching.. to see if that continues..

[1/3/2004 1:20:22 PM] [hotto] DJ-20 Transports... came through on 12/29/03..

[1/3/2004 1:20:46 PM] [hotto] rallied to a NH52.. confirming the DJ-30 avg..

[1/3/2004 1:21:13 PM] [hotto] so.. no ending -argument from the Dow-Theory

[1/3/2004 1:22:07 PM] [hotto] DIA.. similar chart to DJIA.. closed below LR30.. on Incr. volume

[1/3/2004 1:22:35 PM] [hotto] May be another day-trade Short opp. on Monday..

[1/3/2004 1:23:38 PM] [hotto] SP-500.. closed well over 1070 last week.. all the way to 1111.92..

[1/3/2004 1:24:21 PM] [hotto] I remember last month.. some strategists.. saying SP-500 would not close over 1070.

[1/3/2004 1:25:44 PM] [hotto] SPY.. similar.. tagged upr BB before PT hit.. dipped below Wed. LOD.. recovered to close over LR30..

[1/3/2004 1:26:14 PM] [hotto] probably a good Short play here as well..

[1/3/2004 1:26:55 PM] [hotto] note.. on the NH52 close.. SPY had confirming OBV..
