[3/22/2004 10:37:04 AM] [hotto] I finally heard the "R" word 2 times over last few days.. That is what it will take to wash out the Complacency... and excessive Bullishness.

[3/22/2004 10:37:27 AM] [atraveler] how about the "D" word????

[3/22/2004 10:37:36 AM] [hotto] even Better...

[3/22/2004 10:38:00 AM] [atraveler] mat'ls sector not happy

[3/22/2004 10:38:16 AM] [adcum] r word??

[3/22/2004 10:39:32 AM] [hotto] "R" word... ( recession )

[3/22/2004 10:39:50 AM] [adcum] tyh

[3/22/2004 10:40:13 AM] [hotto] "D" = Depression

[3/22/2004 10:40:49 AM] [hotto] What we are likely to see...After the housing bubble.. inflates more... then pops.. in a year or 2..

[3/22/2004 10:41:25 AM] [Barnabus] ECRI has US growth remaining strong...recession not in the near future

[3/22/2004 10:41:39 AM] [Johnster] That's Dow Theory maven Richard Russell in Barron's...

[3/22/2004 10:42:54 AM] [hotto] ECRI... yes... the Bullish case.. we need Both sides... to keep trading profitable..

[3/22/2004 10:43:16 AM] [hotto] Until last few weeks... Only Bulls

[3/22/2004 10:44:56 AM] [hotto] New spin this morning... some economist on CNBC.... said "Maybe the GDP is overstated"... and the Jobs numbers are simply in line with a true GDP of 2.6%..

[3/22/2004 10:45:29 AM] [hotto] I love it when the Argument heats up... Good trading.

[3/22/2004 10:45:43 AM] [pope39c] ZEUS DBO Nice!!!!

[3/22/2004 10:46:18 AM] [hotto] very nice !

[3/22/2004 10:46:48 AM] [dagwood] long VICL with you guys.. good heads up

[3/22/2004 10:47:09 AM] [ziki] Hotto GM. Where do you find the old market (like 1929-1934 etc) models? Are they available anywhere?

[3/22/2004 10:47:39 AM] [hotto] ziki.. I wrote about that back in Nov. 2002.. and in some Saturday chats...

[3/22/2004 10:48:38 AM] [Yehudi] IMO...the jobs data is wrong..the government doesn't count job creation in small businesses...only in GM, F, HPQ etc...the growth rate is HIGH and so is the real JOB CREATION...as usual....the economists are WRONG!!!

[3/22/2004 10:48:43 AM] [hotto] I will post the Models.. and some data.... and updates... by Wednesday..

[3/22/2004 10:49:25 AM] [hotto] Yehudi... that is the optimistic... Bullish case... Very good.. Needs both sides..

[3/22/2004 10:54:42 AM] [nan111] I miss her beautiful day in the neighborhood greeting

[3/22/2004 10:54:47 AM] [Johnster] Those dates from '84 had a short-term peak on 3/22 (today's date)...doesn't look like that model is playing along today, does it, hotto? (Unless we have a big rally from here...)

[3/22/2004 10:55:22 AM] [hotto] swan.. PPI for Jan was above ests... and Import prices are up... sooner or later... we will get Cost Push Inflation..
