to be back. Missed some good trading days

[3/29/2004 9:38:01 AM] [wildbill] looking at the volume spikes on BOBj I am not compelled to apply the secondary rule, but am considering shorting it, if my "gut" directs, since it is min risk IMO, being so close to my stop area

[3/29/2004 9:38:15 AM] [VJnet] good to see you Lew...missed your comments

[3/29/2004 9:38:27 AM] [djcd] any target on IDSA? hotto ty

[3/29/2004 9:38:56 AM] [payck] dj, hotto is out IDSA as of pre mrk

[3/29/2004 9:39:32 AM] [VJnet] thanks pay...i missed that

[3/29/2004 10:28:35 AM] [Investortrader] I'll try to hold them every Mon and Wed ... on Fri we can have them earlier as Hotto does his MArket Wrap on Saturdays  
[3/29/2004 10:28:46 AM] [Investortrader] Welcome kellam :)  
[3/29/2004 10:29:13 AM] [Investortrader] Unless there are requests for Tues or Thur?  
[3/29/2004 10:29:31 AM] [cobralso] Hotto you said NIAG was gona pop, well it did.  
[3/29/2004 10:29:47 AM] [Investortrader] Or any day during the week if there is an interesting or trying day  
[3/29/2004 10:30:03 AM] [Nitabug] Ty, Investortrader...I can use the extra chart training.. I will be there  
[3/29/2004 10:30:14 AM] [Investortrader] Welcome Nitabug :)  
[3/29/2004 10:31:51 AM] [Investortrader] I mainly go over price/volume patterns and some stuff Hotto uses, trying to keep it fairly simple so beginners can also learn ... but also some advanced things get talked about ... I'm open for most things, even general trading questions  
[3/29/2004 10:34:07 AM] [Newkid49] TSCM=may move on news.....charts haven't looked bad lately...just htinking

[3/29/2004 12:15:24 PM] [ProfitTrader] second dice - still rolling - oh oh turning  
wrong way!  
[3/29/2004 12:16:21 PM] [BossFan] Oh geez, begging for lunch money now  
[3/29/2004 12:16:24 PM] [ProfitTrader] Boss, enjoy lunch! TASR lost this  
opportunity!!!  
[3/29/2004 12:16:38 PM] [JAHman] OSUR look for a PB to really fill the gap  
[3/29/2004 12:18:30 PM] [ProfitTrader] TASR - not monitoring now...  
[3/29/2004 12:18:47 PM] [BossFan] out ITIG +.75, enough for me  
[3/29/2004 12:26:41 PM] [softrock] LPSN - LOD.

[3/29/2004 12:34:14 PM] [Nitabug] Hotto ?...Has (OSUR) completed the fill of the  
gap down to 10.26 in your opinion.  
[3/29/2004 12:45:47 PM] [sisterpractical] a gap isn't filled till its filled - OSUR hasnt'  
done it yet  
[3/29/2004 12:46:31 PM] [Nitabug] Ty. Sisterpractical..  
[3/29/2004 12:47:05 PM] [hart] shakeout or breakdown?  
[3/29/2004 12:47:24 PM] [hart] DJIA  
[3/29/2004 12:47:59 PM] [sisterpractical] that's the question of the day  
[3/29/2004 12:48:55 PM] [sisterpractical] 15 and 30 min charts need to make their  
cycle lows, but the hourly and daily are in upcycle, so i think shake out, not down  
[3/29/2004 12:50:44 PM] [DataMiner] Out TASR 75.60. Made 1 point=profit target for  
the day.  
[3/29/2004 12:51:00 PM] [DataMiner] NOW is the time to short TASR  
[3/29/2004 12:52:06 PM] [ProfitTrader] Data, agreed - both dice rolled over...  
[3/29/2004 12:52:07 PM] [AtlantaRob] Are any of you guys thinking about shorting  
TASR if it breaks?  
[3/29/2004 12:52:16 PM] [ProfitTrader] OEX short  
[3/29/2004 12:52:34 PM] [sisterpractical] the converse of never try to catch a falling  
knife is never try to pick up a lit firecracker  
[3/29/2004 12:52:56 PM] [ProfitTrader] sister, very practical !  
[3/29/2004 12:53:08 PM] [AtlantaRob] Yeah, but I'm not talking about shorting now, I  
just think that it could be near the end

[3/29/2004 4:56:58 PM] [CaptJack] InvestorTrader (IT) will do a chart review at 9:30..  
Hotto normal market review is at 7:00 in his other club...  
[3/29/2004 4:57:23 PM] [AtlantaRob] The pay club?  
[3/29/2004 4:57:40 PM] [CaptJack] yep...Hottoworks  
[3/29/2004 4:57:42 PM] [enzo] thanks IT see you tonight  
[3/29/2004 5:21:24 PM] [HOTTO] Emami has joined the club. Please welcome your new member.  
[3/29/2004 5:22:15 PM] [stuartm] what would be a good sign that orcl is a good bet?  
[3/29/2004 5:29:13 PM] [stuartm] jqbid  
[3/29/2004 5:52:22 PM] [stuartm] what will signal a breakout for ORCL?  
[3/29/2004 6:03:09 PM] [Osc] 1  
[3/29/2004 9:28:03 PM] [Investortrader] Hi everyone :)  
[3/29/2004 9:29:04 PM] [bravotrader] hi IT  
[3/29/2004 9:29:08 PM] [tickpick] hi IT  
[3/29/2004 9:29:12 PM] [da2rth] hi IT  
[3/29/2004 9:29:35 PM] [silverdolr] IT hi  
[3/29/2004 9:30:11 PM] [Investortrader] I just got done updating and don't have any stocks to look at yet, so if anyone else has any toss them in the ring  
[3/29/2004 9:30:49 PM] [gary12] ADBE  
[3/29/2004 9:31:00 PM] [Investortrader] ADBE ...  
[3/29/2004 9:32:24 PM] [EZmoney] SUPG  
[3/29/2004 9:33:21 PM] [Investortrader] This one is trying to ride the upper BB here, but is running into some resistance  
[3/29/2004 9:33:39 PM] [Investortrader] And is going to need some volume to get thru it here  
[3/29/2004 9:34:09 PM] [Investortrader] If you look back to the end of Nov beginning of Dec period, you'll see an island reversal  
[3/29/2004 9:34:36 PM] [Investortrader] 11/24 thru 12/4  
[3/29/2004 9:35:10 PM] [Investortrader] Looking at the 2-day to see what came before that, it had just started it's decline then  
[3/29/2004 9:35:55 PM] [Investortrader] Also you'll see in late Dec early Jan, and mid Feb this area held the price back  
[3/29/2004 9:37:50 PM] [Investortrader] The volume has been tapering off during this consolidation of the big vol gap up, which is usually a good sign  
[3/29/2004 9:38:39 PM] [Investortrader] And on 3/25 it did push up to barely tag the upper BB, giving it a few more days  
[3/29/2004 9:40:26 PM] [gary12] ty IT  
[3/29/2004 9:40:36 PM] [Investortrader] If I held it here .. it's been 2 days without contact with the upper BB now, so needs some vol and to get back up there by

## ClubHome

tomorrow, next day latest for it to continue to ride it up

[3/29/2004 9:40:40 PM] [Investortrader] Welcome gary :)

[3/29/2004 9:41:01 PM] [Investortrader] Any questions on ADBE?

[3/29/2004 9:41:46 PM] [Investortrader] On to SUPG ...

[3/29/2004 9:42:28 PM] [Golfermary] can you put LEXR on your schedule?

[3/29/2004 9:42:30 PM] [Investortrader] This is what we hope ADBE turns into!

[3/29/2004 9:42:48 PM] [Investortrader] I'll do that one next mary

[3/29/2004 9:43:00 PM] [Golfermary] thanks

[3/29/2004 9:43:39 PM] [Investortrader] After SUPg peaked in late Jan it started it's decline with a gap down

[3/29/2004 9:43:42 PM] [Investortrader] down

[3/29/2004 9:43:52 PM] [Investortrader] on 1/30

[3/29/2004 9:44:26 PM] [Investortrader] The 50sma tried to hold it but when it failed .. there was your sell signal especially with the OBV deteriorating then

[3/29/2004 9:45:05 PM] [Investortrader] It barely had any rallies the whole way down, with OBV making new lows right along with it

[3/29/2004 9:46:23 PM] [Investortrader] The on 3/9 it made a near-doji with a nice long tail ... when you see this type of candle after a decline pay attention as it could be a reversal signal ... it needs confirmation the next day

[3/29/2004 9:47:03 PM] [Investortrader] It got strong confirmation on 3/10 with the gap higher on big vol

[3/29/2004 9:47:49 PM] [Investortrader] Note back in late Jan on 1/30 the gap down day was also on big (relatively) vol for the end of that trend

[3/29/2004 9:48:42 PM] [Investortrader] Now on 3/11 it had a small pb on very low vol to shake out the weak hands

[3/29/2004 9:49:25 PM] [Investortrader] Came right down to the open of the previous gap up day then closed near the highs of the day

[3/29/2004 9:49:56 PM] [Investortrader] The much lower (relative) vol was your key that it was only an early pb

[3/29/2004 9:50:13 PM] [Investortrader] Now it's been riding the upper BB

[3/29/2004 9:50:21 PM] [Investortrader] With OBV making new highs with price

[3/29/2004 9:50:50 PM] [Investortrader] Notice when it had another small pb on 3/22 - 3/23

[3/29/2004 9:51:00 PM] [Investortrader] Where it lost contact with the upper BB

[3/29/2004 9:51:13 PM] [Investortrader] See how small the vol is on those days

[3/29/2004 9:51:32 PM] [Investortrader] That is what you want to see

[3/29/2004 9:51:58 PM] [Investortrader] It needed vol to get back up to the upper BB to continue the ride, and vol came in to push it back up

[3/29/2004 9:53:20 PM] [Investortrader] When you're in a situation like this, pay attention to the vol closely and the OBV as it climbs for signals of whether it's a healthy pb or the beginning of a failure move

[3/29/2004 9:53:58 PM] [Investortrader] Now that it has ridden the upper BB for a bit, it's time to keep an eye open for possible sell signals

[3/29/2004 9:54:34 PM] [Investortrader] One that we've seen before would be a gap up, with very big vol, but a very small price range day

[3/29/2004 9:55:03 PM] [Investortrader] That shows there are plenty of sellers to meet the new buyers .. (if that happens)

[3/29/2004 9:55:44 PM] [Investortrader] Another would be a larger gap up with that being near the high and a sell-off the rest of the day closing lower ... a bearish engulfing would be even worse

[3/29/2004 9:55:50 PM] [Investortrader] On very big vol

[3/29/2004 9:56:02 PM] [Investortrader] If you see either of those sell and count your money :)

[3/29/2004 9:56:42 PM] [da2rth] are these gap ups intraday?

[3/29/2004 9:56:33 PM] [IncaKid] jsupg

[3/29/2004 9:56:53 PM] [Investortrader] Notice so far each big volume day has had fairly big price ranges ... today was a bit smaller in range but didn't gap up

[3/29/2004 9:57:20 PM] [Investortrader] I'm speaking from a daily charet perspective da2rth, so gapping up from the close

[3/29/2004 9:57:35 PM] [da2rth] ok...thanks

[3/29/2004 9:58:29 PM] [Investortrader] Now if it gaps up and has an ok day like on 3/17, that's ok, big enough price range so it's not stalling yet

[3/29/2004 10:00:20 PM] [AtlantaRob] How would you have found a stock like this to get into? Scan for gaps?

[3/29/2004 10:00:21 PM] [Investortrader] If it had a bearish reversal on vol I'd also sell

[3/29/2004 10:00:45 PM] [Investortrader] Rob, scan for gaps OR scan for doji's or near-doji's

[3/29/2004 10:01:01 PM] [AtlantaRob] ty

[3/29/2004 10:01:09 PM] [Investortrader] I'm going to change templates for just a minute to look at something

[3/29/2004 10:01:33 PM] [Investortrader] This is my candlestick RSI template

[3/29/2004 10:01:51 PM] [Investortrader] I use some scans that check for certain candlestick patterns and the RSI

[3/29/2004 10:02:19 PM] [Investortrader] Note how on 3/9 the near-doji day ...

[3/29/2004 10:02:31 PM] [AtlantaRob] the rsi did show a nice divergence right before the gap up

[3/29/2004 10:02:36 PM] [Investortrader] The RSI is in oversold area, plus it's making higher bottoms

[3/29/2004 10:02:42 PM] [Investortrader] Exactly Rob!

[3/29/2004 10:03:00 PM] [Investortrader] doji's need confirmation, and this got it bigtime the next day

[3/29/2004 10:03:39 PM] [Investortrader] So I use that template sometimes to visually check a candlestick scan

[3/29/2004 10:04:13 PM] [Investortrader] I scan for a few different patterns with RSI qualifiers of being either under 20 or over 80, oversold or overbought

[3/29/2004 10:04:36 PM] [Investortrader] Simple scans, most things I do are simple

[3/29/2004 10:04:59 PM] [Investortrader] Any questions on SUPG?

[3/29/2004 10:05:03 PM] [AtlantaRob] You do that to look for possible reversals?

[3/29/2004 10:05:14 PM] [Investortrader] I wouldn't be biuying it up here, but I wouldn't sell it yet if I held it

[3/29/2004 10:05:24 PM] [Investortrader] Yes Rob

[3/29/2004 10:05:34 PM] [Investortrader] Those are reversal scans mostly

[3/29/2004 10:06:32 PM] [Investortrader] And never forget volume, you see I'm always comparing the volumes, on up vs down days, during pb's and corrections, with OBV

[3/29/2004 10:06:43 PM] [Investortrader] On to LEXR ...

[3/29/2004 10:07:06 PM] [Investortrader] This is a nice looking chart

[3/29/2004 10:07:39 PM] [Investortrader] Some people say a chart that goes up from left to right is nice looking .. I prefer one that goes down from left to right and at the end is turning up!

[3/29/2004 10:08:10 PM] [bmweyrauch] ;)

[3/29/2004 10:08:17 PM] [Investortrader] A couple of things I'd like to point out on this chart ...

[3/29/2004 10:08:49 PM] [Investortrader] Back in Dec when it crashed thru the 50sma

[3/29/2004 10:10:30 PM] [Investortrader] you'll see it flirted with the 50sma first, gapping down on 11/17, it held the 50sma a few days then came down to tag the lower BB on 11/24 ... see how the OBV also was breaking down then

[3/29/2004 10:11:28 PM] [Investortrader] Then from 11/25 to 11/28 it had a very

## ClubHome

weak low vol rally trying to make it to the middle BB (the 20sma).. just the opposite of a low vol pb

[3/29/2004 10:12:01 PM] [Investortrader] And then it crashed down thru the 50sma on big vol ...

[3/29/2004 10:12:45 PM] [Investortrader] When a stock is beginning to get weak .. watching vol can give you a clue like this as to whether it is just a pb or the beginning of something worse

[3/29/2004 10:13:13 PM] [Kenteman] I learned this well

[3/29/2004 10:13:16 PM] [Investortrader] This chart has a lot of good stuff in it ... at the Dec low see how the OBV had a nice divergence

[3/29/2004 10:13:23 PM] [Kenteman] I held 4000 shares of LEXR when this hapened

[3/29/2004 10:13:32 PM] [Investortrader] Ouch :(

[3/29/2004 10:13:33 PM] [Kenteman] sorry to interrupt

[3/29/2004 10:13:43 PM] [Investortrader] No interruption at all :)

[3/29/2004 10:13:45 PM] [Kenteman] just screaming out loud...repressed memories

[3/29/2004 10:13:52 PM] [Kenteman] :(

[3/29/2004 10:14:10 PM] [Investortrader] But you won't let this happen next time!

[3/29/2004 10:14:23 PM] [Kenteman] U got that right!!

[3/29/2004 10:14:43 PM] [Nipsy331] Divergent to what? I'm not sure I'm seeing this.

[3/29/2004 10:15:16 PM] [Investortrader] On 12/10 when price made it's first low, OBV made it's low

[3/29/2004 10:15:55 PM] [Investortrader] Then on 12/16 when it tested that low, the OBV was much higher

[3/29/2004 10:16:27 PM] [Investortrader] You can see how price came a lot closer to it's 12/10 low than the OBV did

[3/29/2004 10:17:22 PM] [Nipsy331] Yes. So this is the clue that something is up. But what?

[3/29/2004 10:17:35 PM] [Investortrader] This is a clue that some accumulation is going on

[3/29/2004 10:17:39 PM] [Investortrader] A buy signal

[3/29/2004 10:18:08 PM] [Investortrader] A safe entry place where you could use close stops

[3/29/2004 10:18:34 PM] [Nipsy331] Aha!

[3/29/2004 10:19:37 PM] [Investortrader] When it reversed back up the next day, seeing that the OBV was showing accumulation that could have been a buy with a stop a bit below the lod

[3/29/2004 10:19:58 PM] [Nitabug] iT, WHAT DO YOU MEAN WHEN YOU SAY TESTED THE LOW..ARE YOU SAYING CLOSE TO OR = TO 12/10?

[3/29/2004 10:20:08 PM] [Investortrader] Yes Nitabug

[3/29/2004 10:20:15 PM] [Nitabug] SORRY FOR CAPS

[3/29/2004 10:21:28 PM] [Investortrader] After s teep decline like it had, usually the bargain hunters and short coverers lead to a spike back up like it had from 12/10 to 12/15 ... then you need to see how ir reacts as it tests the low when it comes back down

[3/29/2004 10:21:50 PM] [Nipsy331] Is is useful to think of this divergence notion as being related to the slope of the lines drawn from the price lows compared with that drawn of the obv lows?

[3/29/2004 10:22:29 PM] [Investortrader] That's one way to look at it Nipsy

[3/29/2004 10:22:31 PM] [Nipsy331] In this case, the obv line being steeper than the price line?

[3/29/2004 10:23:10 PM] [Nipsy331] ty, IT, sometimes difficult to see the subltties here.

[3/29/2004 10:23:45 PM] [Investortrader] What happens then psychologically is everyone that missed buying it there the first time saw it bounce, and don't want to miss it the second time, so it becomes support

## ClubHome

[3/29/2004 10:23:58 PM] [Investortrader] Welcome Nipsy :)  
[3/29/2004 10:24:09 PM] [Nipsy331] thanks,  
[3/29/2004 10:25:05 PM] [Anders] IT, can we look at OSTK next ?  
[3/29/2004 10:25:53 PM] [Investortrader] Now on the rally off the DEc low, it came right up to the 50sma in Jan and stopped ...  
[3/29/2004 10:27:02 PM] [Investortrader] Many times you've probably seen Hotto or Me sell something, only to buy it back a bit higher soon thereafter ... that happens when a stock comes up to some resistance ... many times the 50sma will be resistance so instead of risking it we sell there and if it makes it thru we buy it back  
[3/29/2004 10:27:49 PM] [Investortrader] That's usually a good strategy the first time something hits the 50sma .. going either way  
[3/29/2004 10:28:42 PM] [Investortrader] That turned this one down in Dec and it's been basing thru Feb and most of MArch  
[3/29/2004 10:29:11 PM] [Investortrader] And in the first two March rallies the 50sma stopped them both  
[3/29/2004 10:29:40 PM] [Investortrader] But notice the pb's after both of those attempts at the 50sma were on lower vol  
[3/29/2004 10:30:25 PM] [Investortrader] Then finally on 3/25 we had a BO over the 50sma, on good vol  
[3/29/2004 10:30:47 PM] [Investortrader] And vol has held up as it's continued ... into riding the upper BB phase now  
[3/29/2004 10:31:36 PM] [AtlantaRob] It would be too late to buy this one too though wouldn't it?  
[3/29/2004 10:31:46 PM] [Investortrader] This has had a long enough consolidation so that this might be the start of something nice ... I wouldn't even be thinking of selling here yet  
[3/29/2004 10:32:13 PM] [Johnster] Would you wait for LEXR to test the 50dma?  
[3/29/2004 10:33:06 PM] [Investortrader] I don't expect it to test the 50sma so soon, feels strong here  
[3/29/2004 10:33:25 PM] [Investortrader] Looking back at 2/9, that's the high of the base  
[3/29/2004 10:33:39 PM] [Investortrader] At 15.74 hod that day  
[3/29/2004 10:34:01 PM] [Investortrader] That should hold here if we are riding the upper BB  
[3/29/2004 10:34:12 PM] [Investortrader] And the 50sma is way under that now  
[3/29/2004 10:34:21 PM] [BobMac] Looks like 18 is next stop.  
[3/29/2004 10:34:41 PM] [Investortrader] I would also use a bit under that as a stop if entering here  
[3/29/2004 10:35:49 PM] [TraderDad] .100sma at 16.80, which was resistance Dec/Jan. Could we see a pause there?  
[3/29/2004 10:36:16 PM] [AtlantaRob] What would you use for a stop, the 50"  
[3/29/2004 10:36:34 PM] [bmweyrauch] LEXR gapped through the 200MA too...often serves as another support point  
[3/29/2004 10:36:56 PM] [Investortrader] We might TraderDad, almost got there today .. it could rest at any time for a few days when riding an outer BB  
[3/29/2004 10:37:33 PM] [Investortrader] I would use a tighter stop than the 50sma  
[3/29/2004 10:37:57 PM] [AtlantaRob] Yeah, that's why I was asking  
[3/29/2004 10:38:20 PM] [Nitabug] IT, Does the news ..if any or FA on these stks.. have a great influence on your buy decision?  
[3/29/2004 10:38:20 PM] [AtlantaRob] I don't see a good place to put a stop, technically anyway  
[3/29/2004 10:38:22 PM] [Investortrader] I wouldn't want to see it fall back into the base range  
[3/29/2004 10:38:48 PM] [Nipsy331] I might think a stop in the 15.40 area... previous March highs?

## ClubHome

[3/29/2004 10:38:56 PM] [Investortrader] Nitabug ... FA doesn't really, though I prefer to trade good FA as a backdrop so no overnight surprises  
[3/29/2004 10:39:23 PM] [Investortrader] News .. usually if it's big news it's a big gap and I don't play those as no close stop areas ... and I don't daytrade  
[3/29/2004 10:39:27 PM] [Nitabug] Ty.  
[3/29/2004 10:40:26 PM] [Investortrader] That's a good choice Nipsy .. I was looking at the 2/9 hod of 15/74 and then thought a bit under 15.50 would work  
[3/29/2004 10:41:03 PM] [Investortrader] With yesterdays open at 15.59, shouldn't take that out  
[3/29/2004 10:41:38 PM] [Investortrader] Then move it up if tomorrow is a good day in it  
[3/29/2004 10:41:56 PM] [Investortrader] To maybe a bit under todays lod  
[3/29/2004 10:42:32 PM] [Nipsy331] I've been watching this one for a while and missed the earlier entry point. I like the way it moves when it does. i.e. last march through october  
[3/29/2004 10:42:47 PM] [Investortrader] LET's look at the 5's on this for a minute  
[3/29/2004 10:44:09 PM] [Investortrader] Looks like it came right down to test the early morning pb at the eod then started up again  
[3/29/2004 10:44:36 PM] [Investortrader] IT did have a nice move then Nipsy  
[3/29/2004 10:45:39 PM] [Investortrader] A longer term investor in this one could use a bit under the 50sma on this and be buying this BO here too  
[3/29/2004 10:46:29 PM] [Investortrader] I like the price action and the vol in it  
[3/29/2004 10:46:33 PM] [Investortrader] Any questions on LEXR?  
[3/29/2004 10:47:12 PM] [Intuitive] Is FA good in LEXR?  
[3/29/2004 10:47:17 PM] [Investortrader] OBV is also breaking out above it's 50sma and it's recent consolodation area  
[3/29/2004 10:47:24 PM] [Investortrader] I have no idea Intuitive  
[3/29/2004 10:47:46 PM] [Nipsy331] Last earnings were positive and higher than prior quarter.  
[3/29/2004 10:47:55 PM] [Investortrader] Thanks Nipsy :)  
[3/29/2004 10:48:15 PM] [Nipsy331] no idea regarding guidance, though. y;)  
[3/29/2004 10:48:27 PM] [Intuitive] You said you liked good Fundamentals for overnight holds.  
[3/29/2004 10:49:07 PM] [Investortrader] I don't daytrade .. unless I'm buy good support and it breaks, but that's kind of accidental  
[3/29/2004 10:49:48 PM] [Investortrader] I prefer to trade companies with good FA, like G+ stocks ... but I mostly trade off the charts and not off the news  
[3/29/2004 10:50:39 PM] [Anders] fwiw - LEXR rated highly by IBD  
[3/29/2004 10:50:47 PM] [Investortrader] Thanks Anders :)  
[3/29/2004 10:50:51 PM] [Intuitive] I understand. Do you have a core group you trade. Or prospects come from scans?  
[3/29/2004 10:51:53 PM] [parkwaypet] Hi FW I missed IMX and like what they do so just wait for PB?  
[3/29/2004 10:51:55 PM] [Investortrader] I use to trade drillers and OSX pretty exclusively from '96 until last year .. now mostly from scans, and chart class picks ... some of you bring some nice charts to class!  
[3/29/2004 10:52:17 PM] [Investortrader] Oh, plus E&P's  
[3/29/2004 10:52:24 PM] [FirstWave] hi parlwaypet  
[3/29/2004 10:52:50 PM] [Intuitive] Thanks!  
[3/29/2004 10:52:50 PM] [Investortrader] On to OSTK ...  
[3/29/2004 10:53:00 PM] [Investortrader] Welcome Intuitive :)  
[3/29/2004 10:53:04 PM] [parkwaypet] are you coming to SD FW  
[3/29/2004 10:53:29 PM] [FirstWave] LA in 3 weeks  
[3/29/2004 10:53:34 PM] [Investortrader] This one is a good example of riding the upper BB

## ClubHome

[3/29/2004 10:53:43 PM] [Investortrader] From Mid-Feb  
[3/29/2004 10:53:59 PM] [Investortrader] Nice vol BO then, with OBV confirming  
[3/29/2004 10:54:18 PM] [Investortrader] And as long as it stays in contact or doesn't lose contact for too long, you stay in  
[3/29/2004 10:54:40 PM] [Investortrader] Note on 3/3 when it lost contact  
[3/29/2004 10:55:14 PM] [Investortrader] And how the rule is it has to get back up within 3 days, 4 at the most  
[3/29/2004 10:55:45 PM] [Investortrader] The third day it made an attempt on higher vol but didn't make it and closed near the lows for the day  
[3/29/2004 10:56:02 PM] [Investortrader] I would have been out that day on the failed attempt  
[3/29/2004 10:56:11 PM] [Investortrader] And not waited for the 4th day to sell  
[3/29/2004 10:56:28 PM] [Investortrader] As it turned out it gave you two more days to sell before falling back  
[3/29/2004 10:56:59 PM] [Investortrader] Even with the OBV leading higher at the time ...  
[3/29/2004 10:57:26 PM] [Investortrader] After an extended move like that where the price has doubled ... over a short period of time  
[3/29/2004 10:57:40 PM] [Investortrader] If it can't keep in contact it's losing momentum  
[3/29/2004 10:58:12 PM] [Investortrader] It's important when you catch a good move like this not to give it back  
[3/29/2004 10:58:24 PM] [Investortrader] Also important to ride it out and not sell too early  
[3/29/2004 10:58:50 PM] [Investortrader] Now ... it's not really looking too great  
[3/29/2004 10:59:18 PM] [Investortrader] On this pb here, it made a little dbl btm ... and OBV made a lower low  
[3/29/2004 11:00:14 PM] [Investortrader] And now with price attempting to BO over the 3/17 peak between the two lows .. the OBV isn't helping  
[3/29/2004 11:01:51 PM] [Investortrader] If I had held it during the run-up, and missed getting out when it stalled for some reason ... I'd be selling it here thinking it needs to BO over that 3/17 hod to get me back in .. and looking like it's losing momentum here so maybe avoiding a further plunge  
[3/29/2004 11:02:23 PM] [Investortrader] Another negative now is this run-up the last few days is on lower and lower vol  
[3/29/2004 11:03:34 PM] [Investortrader] So if I owned it I'd sell it here ... and if I didn't I'd wait for it to BO on vol to prove itself before buying it  
[3/29/2004 11:03:37 PM] [tiga] JCI moving over 885 manufacturing jobs to Mexico  
[3/29/2004 11:04:13 PM] [AtlantaRob] IT do you make your living trading?  
[3/29/2004 11:04:19 PM] [Nipsy331] Comments on ITIG, if you have some time at the end. Thanks  
[3/29/2004 11:04:20 PM] [Investortrader] Yes Rob  
[3/29/2004 11:04:27 PM] [Anders] OK, thank you on OSTK  
[3/29/2004 11:04:34 PM] [Investortrader] Welcome Anders :)  
[3/29/2004 11:04:38 PM] [Investortrader] Any questions on OSTK?  
[3/29/2004 11:05:23 PM] [Investortrader] The key to trading is to be flexible, set out a plan, look for what would make that plan wrong and be prepared to ditch it quickly if it is  
[3/29/2004 11:05:27 PM] [Nitabug] It, comment ...Great explanation on (OSTK) TY.  
[3/29/2004 11:05:39 PM] [Investortrader] Welcome Nitabug :)  
[3/29/2004 11:06:06 PM] [Nipsy331] I think you've got a great key, IT, now if I could only \*really\* learn that....:8  
[3/29/2004 11:06:36 PM] [Investortrader] The "Riding the upper BB" is one plan, with the 3-4 day out of contact stall something that would turn that plan wrong, so you get out

[3/29/2004 11:06:55 PM] [StanS] You always seem to use the same chart .. Do you have other secret charts that you are not showing:8

[3/29/2004 11:07:28 PM] [Investortrader] It will come Nipsy, keep it simple and let the charts tell you what to do :)

[3/29/2004 11:07:47 PM] [AtlantaRob] Do you prefer RSI over Stochs?

[3/29/2004 11:07:51 PM] [Nipsy331] Do you have a scan for finding those stocks that are riding the upper band? Thanks for the advice.

[3/29/2004 11:07:54 PM] [Investortrader] I mostly use this template Stan, I have a few others I look at but mainly this one

[3/29/2004 11:08:13 PM] [StanS] thanks IT

[3/29/2004 11:08:34 PM] [Investortrader] Here's a couple of the others I use ....

[3/29/2004 11:09:00 PM] [Investortrader] Oops, when I said RSI before, I meant Stochs argh! Sorry everyone

[3/29/2004 11:09:33 PM] [Investortrader] All you log readers, go back and insert "stochs" everywhere I said RSI

[3/29/2004 11:09:49 PM] [Investortrader] This is my simple candlestick template

[3/29/2004 11:09:50 PM] [Nipsy331] Very simple. Nice, IT. You look for the blue crossing up over the grey as a potential buy signal?

[3/29/2004 11:10:12 PM] [Investortrader] Not quite Nipsy, I'm looking for overbought and oversold

[3/29/2004 11:10:43 PM] [AtlantaRob] There was a nice bullish divergence in the middle of feb before the BO too

[3/29/2004 11:10:56 PM] [Investortrader] Good eye Rob!

[3/29/2004 11:11:00 PM] [Nipsy331] So looking for something closer to the zero line?

[3/29/2004 11:11:11 PM] [AtlantaRob] I haven't ever tried 12,3,3, I like this one, do you ever use 5.3.3?

[3/29/2004 11:11:11 PM] [Nipsy331] as oversold?

[3/29/2004 11:11:26 PM] [Investortrader] I made some candlestick scans using stochs and this is just the simple template that correlates to the scan

[3/29/2004 11:12:11 PM] [Investortrader] Rob, I got that from Candlestick1's book, also FW uses both 12,3,3 and 5,3,3 I think in his work

[3/29/2004 11:12:34 PM] [hs1935] Where do I see what template you are looking at?

[3/29/2004 11:12:54 PM] [AtlantaRob] ty IT, very informative

[3/29/2004 11:13:08 PM] [Investortrader] hs1935, go up to "share", click on "view another user" tab, then click on me

[3/29/2004 11:13:24 PM] [Investortrader] "share" up top

[3/29/2004 11:13:40 PM] [Anders] can you please put your main template back up for a minute ?

[3/29/2004 11:13:45 PM] [Investortrader] This is another template I use

[3/29/2004 11:14:06 PM] [Investortrader] Ok, back to the main one .. I call it KISS ... Keep It Simple Somehow ;)

[3/29/2004 11:14:15 PM] [Investortrader] This is my main one

[3/29/2004 11:14:58 PM] [Investortrader] I don't really use the others too much

[3/29/2004 11:15:39 PM] [Investortrader] I use this one once in awhile

[3/29/2004 11:15:56 PM] [Investortrader] I use different (faster) MACD numbers

[3/29/2004 11:16:04 PM] [Investortrader] And put it in Histogram format

[3/29/2004 11:16:23 PM] [Investortrader] With this I am looking for the slope of the Histogram, not whether it is above or below the zero line

[3/29/2004 11:16:46 PM] [Investortrader] Only which direction (with these numbers) it is headed

[3/29/2004 11:17:19 PM] [Anders] can you interperet the histogram you are showing now for OSTK so we see how you use it?

[3/29/2004 11:17:43 PM] [Investortrader] Ok

[3/29/2004 11:18:20 PM] [Investortrader] But you need to know when to use it and

when not too, one reason I haven't used this template in my classes as it's more complex as to when to use it

[3/29/2004 11:19:47 PM] [AtlantaRob] It did show the rally running out of momentum in early March

[3/29/2004 11:20:04 PM] [AtlantaRob] IMHO momentum is the best use for it

[3/29/2004 11:20:08 PM] [Investortrader] Here we see that thru-out the base from DEc to Mid Feb It didn't really have any extremes in value (the Histogram)

[3/29/2004 11:20:48 PM] [Investortrader] Right Rob, but it gave that signal very early

[3/29/2004 11:21:12 PM] [AtlantaRob] Yeah, it gives a heads up that something might be wrong and to be ready

[3/29/2004 11:21:46 PM] [AtlantaRob] If you kept a stop below the previous day low you would have gotten out right at the top, almost:)

[3/29/2004 11:22:29 PM] [Investortrader] This was a bit unusual in that it didn't have any small pb's along the way of a couple or 3 days

[3/29/2004 11:23:25 PM] [Investortrader] Usually after a day like 3/1 there will be a small pb of at least half the candle

[3/29/2004 11:23:40 PM] [Investortrader] And sometimes all of it and a bit more

[3/29/2004 11:24:42 PM] [AtlantaRob] I guess a trailing % stop would have been best?

[3/29/2004 11:24:49 PM] [Investortrader] On this one, to use the MACD during the basing phase, you could be buying/selling as it lost it's own momentum ... you see it's pretty shallow along with the price movement .. but when it stalls the price soon turned

[3/29/2004 11:24:59 PM] [Investortrader] I don't like trailing % stops at all

[3/29/2004 11:25:09 PM] [Investortrader] I'll cover why after doing ITIG

[3/29/2004 11:25:26 PM] [AtlantaRob] ok

[3/29/2004 11:25:49 PM] [Investortrader] On to ITIG ...

[3/29/2004 11:26:27 PM] [Investortrader] This had the classic Hotto stall pattern I think before it rolled over recently

[3/29/2004 11:26:46 PM] [Investortrader] Ran up in mid-Feb to new highs

[3/29/2004 11:26:57 PM] [Investortrader] Then tried to base into early March

[3/29/2004 11:27:13 PM] [Investortrader] you'll see OBV is slightly deteriorating then

[3/29/2004 11:27:29 PM] [Investortrader] And remember this is after a big run-up from under 3 to over 10

[3/29/2004 11:28:00 PM] [Investortrader] And in this Mid-Feb to early March area, notice how the volume is drying up

[3/29/2004 11:28:25 PM] [Investortrader] And finally the weight of it's own price pushes it down without the pressure of any vol to keep it up

[3/29/2004 11:28:46 PM] [Investortrader] OBV has been making new lows with the price lows too

[3/29/2004 11:29:24 PM] [Investortrader] I'm a bit mixed on it right here

[3/29/2004 11:30:11 PM] [Investortrader] We had a bounce on good vol, but it's dried up into one of those low vol things

[3/29/2004 11:30:45 PM] [Investortrader] I would expect with the OBV making new lows when the price did that it needs to test down there

[3/29/2004 11:31:01 PM] [Nipsy331] May not have the juice to get over the feb lows?

[3/29/2004 11:31:30 PM] [Investortrader] That's what I am mixed about Nipsy!

[3/29/2004 11:31:44 PM] [Nipsy331] another test of the 5.13 area, I'd guess. Me too, mixed.

[3/29/2004 11:31:58 PM] [Investortrader] It's at resistance here, but the middle BB isn't too far away and usually a bounce off the lower gets you to the middle

[3/29/2004 11:32:23 PM] [Investortrader] As of now I would expect it to fail there

[3/29/2004 11:33:10 PM] [Investortrader] Not sure if we'll get down to 5.13 area or not, maybe just this most recent low

[3/29/2004 11:33:45 PM] [Investortrader] We'll see how it reacts there

[3/29/2004 11:33:49 PM] [Nipsy331] a good enough test, the most recent low?  
[3/29/2004 11:33:51 PM] [Investortrader] Any questions on ITIG?  
[3/29/2004 11:33:59 PM] [Investortrader] It could be  
[3/29/2004 11:34:12 PM] [Investortrader] That's a 40% pb off the highs at least  
[3/29/2004 11:35:13 PM] [parkwaypet] IT in SYNA at 15.28 still looks good I think  
[3/29/2004 11:35:18 PM] [IncaKid] what dates are u using for the pull back  
[3/29/2004 11:35:42 PM] [Investortrader] I trade off charts, chart points, support and resistance .. the market knows where support and resistance is .. it has no idea where you put on your trade thus has no idea where a %-age stop is either ... that's why I don't like using %-age stops .. same reason for trailing stops, they don't have much to do with support or resistance areas  
[3/29/2004 11:36:36 PM] [Investortrader] IncaKid, pb off the high over 10.50 down to under 6  
[3/29/2004 11:37:03 PM] [IncaKid] thks  
[3/29/2004 11:37:05 PM] [AtlantaRob] The only question I have about that is, if you're riding a "runaway" move and there is really no technically good place to put a stop how do you keep from losing most of your gains?  
[3/29/2004 11:37:32 PM] [Investortrader] Rob, I use other techniques  
[3/29/2004 11:37:49 PM] [gnpiii] Hey IT.....any thoughts on HYC?  
[3/29/2004 11:37:49 PM] [Investortrader] Like the losing contact for too long with the upper BB one  
[3/29/2004 11:38:05 PM] [AtlantaRob] Like the 3-4 days of not touching the BB like you said before?  
[3/29/2004 11:38:11 PM] [Investortrader] Exactly!  
[3/29/2004 11:38:28 PM] [Nipsy331] candlestick patterns, too, i'd guess  
[3/29/2004 11:39:00 PM] [Investortrader] Yes, that can get me out before the 3 or 4 days, like a bearish engulfing, or one of the two examples I mentioned earlier  
[3/29/2004 11:39:07 PM] [Investortrader] On to SYNA ...  
[3/29/2004 11:39:19 PM] [Investortrader] Oh, any question on ITIG first?  
[3/29/2004 11:40:00 PM] [Rookie] IT. Great info as usual. Gotta shut down for the nite. Thx.  
[3/29/2004 11:40:11 PM] [Investortrader] After a stock has been on a run for awhile, I look for a few key reversal signs, if they show up I'll be out that day  
[3/29/2004 11:40:17 PM] [Investortrader] Welcome Rookie :)  
[3/29/2004 11:40:39 PM] [Investortrader] If they don't show up, I wait for the stall to get out, no sense waiting for it to drop to get out  
[3/29/2004 11:41:16 PM] [Investortrader] SYNA ...  
[3/29/2004 11:42:47 PM] [Nitabug] It, do you short the stk on the key reversals? or wait for reentry signals...  
[3/29/2004 11:43:08 PM] [Investortrader] Here we have a stock bouncing after a decline ... and being stopped at the 50sma today ... pretty nice vol on the bounce  
[3/29/2004 11:43:37 PM] [Investortrader] I don't short too much, a little ... then I take days off a lot like during this recent correction :)  
[3/29/2004 11:44:20 PM] [Nitabug] It. make \$ both ways..B)  
[3/29/2004 11:44:44 PM] [Investortrader] But it's at some resistance here, not only the 50sma but look in Feb how this general area was support, then in early March it became resistance  
[3/29/2004 11:44:55 PM] [Investortrader] True Nitabug ;)  
[3/29/2004 11:46:15 PM] [Investortrader] So here the risk/reward isn't so favorable ... if I owned it I would look to be getting out near the 50sma ... if it does BO over that can get back in but usually they pb from a first test of it  
[3/29/2004 11:46:53 PM] [Investortrader] Nice buy parkwaypet!  
[3/29/2004 11:47:03 PM] [parkwaypet] Thanks IT already GOOD PROFIT  
[3/29/2004 11:47:28 PM] [parkwaypet] WILL WATCH am  
[3/29/2004 11:47:56 PM] [parkwaypet] HI

## ClubHome

[3/29/2004 11:48:07 PM] [Investortrader] Especially since the OBV was making new lows with the price, if it had diverged I might give it some more leeway .. but in this case I would look to sell

[3/29/2004 11:48:46 PM] [Investortrader] The 50sma is an important one, lots of people use it from short term trader to big money managers of mutual funds

[3/29/2004 11:49:48 PM] [Investortrader] That's one reason why you see stocks bounce off it so much, from both directions

[3/29/2004 11:50:22 PM] [Investortrader] Any questions on SYNA?

[3/29/2004 11:51:27 PM] [Nipsy331] nice analysis, ty.

[3/29/2004 11:51:37 PM] [Investortrader] Welcome Nipsy :)

[3/29/2004 11:51:41 PM] [Investortrader] On to HYC ...

[3/29/2004 11:51:56 PM] [gnpiii] jhyc?

[3/29/2004 11:51:59 PM] [gnpiii] sorry

[3/29/2004 11:52:30 PM] [Investortrader] No worries :)

[3/29/2004 11:52:54 PM] [Investortrader] This one the 20sma, middle BB, has held all pb's the entire rally

[3/29/2004 11:53:15 PM] [Investortrader] Here's something I want to point out about how I look at a chart

[3/29/2004 11:53:32 PM] [Investortrader] Some of the pb's during this rally did close under the 20sma

[3/29/2004 11:53:46 PM] [Investortrader] For a day

[3/29/2004 11:54:03 PM] [Investortrader] Two things to consider here ....

[3/29/2004 11:54:28 PM] [Investortrader] First one is, support and resistance lines should be drawn with a felt tip pen, and not a highyl sharpened pencil

[3/29/2004 11:55:29 PM] [Investortrader] The second one is, the closes weren't much below the 20sma and they reversed right back up

[3/29/2004 11:56:16 PM] [cobralso] IT last time I did that it messed up my computer screen

[3/29/2004 11:56:35 PM] [Investortrader] Now we have good OBV making new highs with the price

[3/29/2004 11:56:53 PM] [Investortrader] Hehehe cobralso :o

[3/29/2004 11:57:34 PM] [Investortrader] And notice thru-out the basing in March the OBV was rising, indicating accumulation

[3/29/2004 11:58:23 PM] [Investortrader] And the last little pb to the middle BB a few days ago was on low vol .. and now we have a nice vol BO

[3/29/2004 11:58:29 PM] [Investortrader] This one looks good

[3/29/2004 11:59:02 PM] [gnpiii] ok thanks, IT.....much appreciated

[3/29/2004 11:59:30 PM] [Investortrader] For tomorrow I would use a stop a bit under todays low

[3/29/2004 11:59:41 PM] [Investortrader] Welcome gnpiii :)

[3/29/2004 11:59:58 PM] [gnpiii] Im not long, was curious because of that BIG volume day in late Feb

[3/30/2004 12:00:04 AM] [Investortrader] Ahhh, ok

[3/30/2004 12:00:07 AM] [gnpiii] what your thought would be
