[4/27/2004 6:13:18 PM] [Quintus] i am wishing for a bit of after hours panic in TBUS, as in just under \$8. w/ today's candle pattern i would think the risk from there (at least at the open tomorrow) is minimal.

[4/27/2004 6:21:15 PM] [Quintus] mace - this is to open a posn, not add. not that that matters

[4/27/2004 6:22:48 PM] [StockStalker] that is not much short interest Meister

[4/27/2004 6:23:03 PM] [StockStalker] only 1/4 of 1 day to cover

[4/27/2004 6:24:24 PM] [meisterhund] over half the float?

[4/27/2004 6:26:14 PM] [StockStalker] true that it is so insider owned that the effective float is only 900k but it turns its float every day...

[4/27/2004 6:26:42 PM] [mace] according to Multex they lost .055 last year and in one qrt this year they lost .46

[4/27/2004 6:27:27 PM] [StockStalker] it did 6 times its float today...

[4/27/2004 6:27:48 PM] [mace] excuse me lost .406

[4/27/2004 6:28:45 PM] [StockStalker] cheeseball for sure... but was only pointing out that it only would take less than 1/4 of a day with its current volume characteristics to cover

[4/27/2004 6:28:55 PM] [meisterhund] ...just pointing out that some news or coordination could start this thing up...i am not investing in it!...just trading

[4/27/2004 6:30:05 PM] [meisterhund] I like 9.25 before 7.00...that's all

[4/27/2004 6:30:22 PM] [StockStalker] when I went long ICCI on 12/19 it was about 20 days to cover in short interest... and u can see that it went up for about 20 days

[4/27/2004 6:30:26 PM] [mace] hey guts sorry my comments on the losses were for IPIX not TBUS sorry

[4/27/2004 6:30:57 PM] [ws128] EMRG - reward for the faithful..

[4/27/2004 6:31:00 PM] [Quintus] it's all R/R. and w/ candlestick pattern on Daily Chart (w no after hrs quotes) this is a beaut. either that or "They" just painted a picture to get me/us happy.. still, unless gap down, i like the odds

[4/27/2004 6:31:32 PM] [StockStalker] key for interpreting short interest in stocks is the ration of shares to cover versus shares traded per day... but that aside.. chart was a nice long

[4/27/2004 6:31:52 PM] [StockStalker] IDSA the mother of all turds.. but I think it has been cornered...

[4/27/2004 6:32:45 PM] [ws128] cornered turds can be dangerous

[4/27/2004 6:32:54 PM] [Quintus] IDSA - nice company name too. sounds like a bunch of Jabroni's

[4/27/2004 6:32:55 PM] [StockStalker] the flies alone can kill u

[4/27/2004 6:33:29 PM] [ws128] :D

[4/27/2004 6:34:02 PM] [meisterhund] lol...just don't chase and be qucik enough to catch the run early...and scale out

[4/27/2004 6:34:31 PM] [StockStalker] exactly what I do !

[4/27/2004 6:34:45 PM] [StockStalker] u only have to be quick when u wait tho

[4/27/2004 6:34:46 PM] [Quintus] speaking of turds - IPIX some of the worst fundys i have ever seen. failing nice candlestick pattern today -- guess there's a "reason" behind that

[4/27/2004 6:35:40 PM] [Quintus] i've had as much success trading "pattern failures" as i have "real" patterns. fwiw

[4/27/2004 6:36:24 PM] [Quintus] & these failures come around so often.

[4/27/2004 6:37:03 PM] [StockStalker] did u read my comments about changes to the real time scanner today Quintus

[4/27/2004 6:37:13 PM] [StockStalker] in the Zone room
