[1/5/2004 1:31:17 PM] [HappyG] Hotto, shorting oex (buying put) too dangerous at this point ?

[1/5/2004 1:31:21 PM] [DiamondChip] Bummer we have lots of work to do.

[1/5/2004 1:31:45 PM] [hotto] Happy.. not "dangerous" I expect some PB here...

[1/5/2004 1:32:06 PM] [hotto] Note.. I named the Homebuilders as potential shorts.. Last Week..

[1/5/2004 1:32:16 PM] [hotto] Fibo... did you see that ?

[1/5/2004 1:32:40 PM] [hotto] But.. looking for New Leaders on Long side..

[1/5/2004 1:33:02 PM] [Graybik] What do you see for homebuidlers longer term hotto?

[1/5/2004 1:34:14 PM] [hotto] REDF Long from 5.45 avg.. Now 7.25.. hard to do that in a short now.. 50% in 3 days..

[1/5/2004 1:34:28 PM] [hotto] I suppose it can be done.. but hard..

[1/5/2004 1:35:15 PM] [hotto] Homebuilders.. Plenty of cross-currents now..

[1/5/2004 1:35:22 PM] [CashMan] FNSR - 3.37 + 0.17

[1/5/2004 1:36:12 PM] [mace] whats add to on FLML on this PB

[1/5/2004 1:36:22 PM] [atexpal] homebuilders fit perfectly into hotto's expectation of profit taking in and rotation out of last year's huge winners...homebuilders huge winners for several years.

[1/5/2004 1:36:24 PM] [hotto] Dollar - if it starts falling Faster.. could force Fed to hike rates..

[1/5/2004 1:37:45 PM] [hotto] We discussed.. the idea.. that Homebuilders would likely be a sharp drop.. in early January.... Both PT.. in new Tax Year... unlocking lots of long developed profits..

[1/5/2004 1:38:07 PM] [bbmd] FNSR R ound B 5m!

[1/5/2004 1:38:11 PM] [hotto] And.. that there is the "fear" out there.. of higher Rates ahead..

[1/5/2004 1:38:23 PM] [rensop] good day on teva next target 61.40

[1/5/2004 1:38:34 PM] [atexpal] Fed has so emphatically beat the drum for continuing the low rates will be interesting to see how market reacts when the break their word

[1/5/2004 1:38:52 PM] [hotto] Add those together.. expected a sharp PB.. And.. Maybe a Buying Opp..

[1/5/2004 1:39:39 PM] [hotto] NHB has several large homebuilders. So.. I expected NHB to Not be a Leader for the developing Phase of the market..

[1/5/2004 1:40:27 PM] [cpratsch] HOV drops like a rock in water

[1/5/2004 6:34:53 PM] [Luigistock] yeah did that
[1/5/2004 6:35:35 PM] [missjanet] Ok, I made it a bit tricky. You first enter your account info as you desire it to be... and update it..... NO CC
[1/5/2004 6:35:56 PM] [missjanet] then, log in with that newly created account, and it will pop up a payment screen
[1/5/2004 6:36:34 PM] [missjanet] as a new user you will have the option to pay \$25 for a month, \$50 for 3 mo trial, \$250 for charter year, \$500 for charter 2 year

[1/5/2004 6:37:03 PM] [w2jc] Paul -- sounds like it might be a good idea to put the sequence at the top of the new user area, so people know what to expect ;)
[1/5/2004 6:37:52 PM] [missjanet] upon accept it will whisk you to a VeriSign screen allowing you to enter your CC info, after hitting NEXT it will enable you to change your name info in case you have a middle or no middle what have you in your legal name.... upon update, it will give you one last chance, then charge you, and activate your account
[1/5/2004 6:38:35 PM] [VJnet] Hi Janet...you have done a wonderful job on the website: Congratulations!!
[1/5/2004 6:38:41 PM] [missjanet] w2jc, good idea, as the designer of course it didn't sound tricky to me.... I will do that as soon as I get the chance

[1/5/2004 6:45:09 PM] [lavenderangel] rule for testing software. you have to have someone who didn't write the code or have knowledge of what it expects to test it. i've learned that lesson too often myslef. the programmer can always make it work
[1/5/2004 6:45:19 PM] [hotto] Paul went to his development computer..

[1/5/2004 7:04:29 PM] [missjanet] obw if you have the ability to disable popup blocking for just this site, do it, otherwise unfortunately you'll have to disable the pop up blocker until I figure out how to validate with it

[1/5/2004 7:07:56 PM] [JohnH] MissJanet, HottoWorks tells me that my user name exists and verisign tells me no information matchs when I try to re-enter everything.

[1/5/2004 7:13:31 PM] [hotto] I will stick around.. for the ride..

[1/5/2004 7:14:14 PM] [missjanet] fgsmith, I still haven't figured out what to do about that situation....There's around a dozen ppl with that problem.... one interim solution I have is to download Mozilla (it has worked for several people thus far) it is freeware, and works great. Not as flashy as IE but until I find out what's causing IE to choke on some people, it should work. www.mozilla.org

[1/5/2004 7:15:10 PM] [Luigistock] Paul what version of IE are you ahving trouble with IE6 fine for me

[1/5/2004 7:15:20 PM] [missjanet] InanOut try deleting your cookies, if that doesn't fix it, follow info above.... I'm having probs with some IE installs out there

[1/5/2004 7:15:25 PM] [rensop] managed to get to web site through google

[1/5/2004 7:20:19 PM] [Rjw] logos come up but cant chose type

[1/5/2004 7:20:25 PM] [missjanet] allowing cookies isn't the best policy, but at the moment its the only way some IE installs will let HottoWorks run.... each version of IE handles cookies differently

[1/5/2004 7:54:26 PM] [missjanet] obw, ronkg - if you do still have probs after
disabling ad blockers, your best bet is to try another browser... I keep pushing Mozilla
since it is Open Source (free) and seems to work for everyone so far. Until I can
figure out why some people are having problems, its my quickest solution.... get it
from www.mozilla.org
[1/5/2004 7:55:09 PM] [Stixman] tried to read chat before posting... very confusing.
When I go to the site it looks no different than this afternoon.

[1/5/2004 8:17:43 PM] [RkyMtnFool] Paul, I was logged out after 60 minutes of inactivity. Seemed like that was part of your design. I didn't think it was a bug, but would love to see that "Feature" disabled.

[1/5/2004 8:18:40 PM] [missjanet] RkyMtn - If it actually logged you out because of inactivity, then it worked as designed...we may change it to a longer time limit, we'll see.....

[1/5/2004 8:38:45 PM] [payck] the size of the base, if you look over last few days
[1/5/2004 8:39:02 PM] [payck] and ok so it's only a penny and not .03
[1/5/2004 8:39:11 PM] [missjanet] payck - at this point, the hair is actually staying wherever I pull it ;)

[1/5/2004 8:39:53 PM] [Zathrus] ok - I'm looking at 3 months and see a continuation of a nice long handle that belongs to an ENNNNOOORMOUS Cup that extends back a year or so
[1/5/2004 8:40:16 PM] [Budamonk] K&C tried to speak well of SIRI tonight, however analyst said XMSR was a better value at its present price over SIRI at its 3.50 range and afterhours it down to 3.26, if it tanks me thinks it can snap back off steep fast decline, triing to set up entry point, any input??
[1/5/2004 8:42:14 PM] [malealltrash] I am looking at the KERX chart hot do I get rid of the other chart from my list ?
[1/5/2004 8:42:20 PM] [malealltrash] how
[1/5/2004 8:43:16 PM] [malealltrash] both in window
[1/5/2004 8:43:24 PM] [StockStalker] congrats on the new site and cred card thing... now the tricky part

[1/5/2004 8:45:09 PM] [Zathrus] On that KERX chart, if we can by some miracle get past \$6.00, things look pretty interesting
[1/5/2004 8:45:15 PM] [payck] you can change their size, but if you're viewing a shared chart, you will always have your chart up too

[1/5/2004 8:46:35 PM] [payck] don't know stix

[1/5/2004 8:47:35 PM] [Graybik] Does anyone know, can we just download the new version of TCNet or do we have to wait for the CD?

[1/5/2004 8:47:41 PM] [hotto] ty Oz.

[1/5/2004 8:47:51 PM] [Luigistock] think we have to wait

[1/5/2004 8:48:16 PM] [payck] speaking of the new tcnet, do we know yet if OBV scans are available?

[1/5/2004 8:48:24 PM] [Luigistock] i doubt it

[1/5/2004 8:48:33 PM] [Stixman] payck- it would be an improvement. when you're looking at a shared chart yours is too small to really see any detail anyhow. The new version will be in us commoners hands soon.

[1/5/2004 8:48:44 PM] [StockStalker] that and the "this is different" thing... but so far has been very easy..... 401k up 25% in 3 days on lite trading...

[1/5/2004 8:48:46 PM] [Zathrus] Yes - but the spell it TSV

[1/5/2004 8:48:47 PM] [bmweyrauch] Evening folks...kinda like coming home when I get here :)

[1/5/2004 8:49:24 PM] [Graybik] I would guess that the CD will have newer historical data than the current CD too.
