Chat Logs for hotto 2/29/2004

[2/29/2004 12:01:05 AM] [w2jc] at this time, all the weekly Elliott Wave Analyzer chart sets have been updated at <http://www.elliottwaves.us> -- these include: Major Indexes, DJ-30 stocks, MG Sectors, SirPoolPlayer & Ycc & w2jc watchlists and 1200+ stocks.

[2/29/2004 1:01:54 AM] [croy] FW stos are high ... actually the last soap buy signal is weird ... I like OBV but the chart pattern here is kind of a rising wedge typical of the end of an impulse

[2/29/2004 2:42:41 AM] [croy] Sorry about the last one ... was a goof on a PM

[2/29/2004 9:34:54 AM] [w2jc] at this time, all the weekly Elliott Wave Analyzer chart sets have been updated at <http://www.elliottwaves.us> -- these include: Major Indexes, DJ-30 stocks, MG Sectors, SirPoolPlayer & Ycc & w2jc watchlists and 1200+ stocks.

[2/29/2004 11:46:39 AM] [pope39c] Happy: What do you need?

[2/29/2004 11:50:11 AM] [pope39c] I personally do not have that PCF. Will try to figure it. If come up with an answer will let you know in TCMail.

[2/29/2004 1:53:16 PM] [bravotrader] OK, thx

[2/29/2004 3:00:57 PM] [ibuckskin] hotto is there a place where you have posted MGB42/43 scans?

[2/29/2004 3:05:48 PM] [MakeRich] look at FLSH daily chart - is that a short candidate or what?

[2/29/2004 3:08:16 PM] [Noname] FLSH-til a signal is given I sure wouldn't be to excited about being short this stock-MakeRich

[2/29/2004 3:09:39 PM] [MakeRich] what kind of signal would you wait for? I give BOP a lot of credit, especially when its such a striking change of character

[2/29/2004 3:10:34 PM] [MakeRich] not to mention TSV out of step with the price

increase

[2/29/2004 3:10:40 PM] [Noname] BOP of power worthless-stock has been in an uptrend since 1st of Feb

[2/29/2004 3:11:20 PM] [Noname] number of whipsaws but still rising

[2/29/2004 3:13:11 PM] [MakeRich] I guess I read the same indicators differently: the price moving up during Feb is not supported by BOP; I use that as an indicator that a drop is imminent

[2/29/2004 3:13:31 PM] [MakeRich] also - TSV never made it above 0 during that time period

[2/29/2004 3:14:57 PM] [MakeRich] and - the divergence is in MoneyStream, too, throughout Feb

[2/29/2004 3:16:06 PM] [Noname] price is always your most important indicator-grant you it doesn't seem to be a power house-it is struggling-so I would watch-but not short now until a better sign shows up

[2/29/2004 3:17:12 PM] [Noname] have been short the stock several times the last month-but standing aside now on it

[2/29/2004 3:18:25 PM] [MakeRich] do you daytrade or swingtrade?

[2/29/2004 3:19:22 PM] [Noname] both

[2/29/2004 3:21:54 PM] [Questor] .

[2/29/2004 3:22:05 PM] [kmack] I wouldn't trade against noname...

[2/29/2004 3:22:23 PM] [kmack] he'd outtrade me every time

[2/29/2004 3:22:27 PM] [Noname] why not-I have my problems also

[2/29/2004 3:22:55 PM] [kmack] you do a good job...

[2/29/2004 3:22:56 PM] [Noname] thanx for the flowers

[2/29/2004 3:23:01 PM] [MakeRich] call it intuition - but I sense something happened Feb 20th (huge volume) and the stock has been dumped into the rising prices since then

[2/29/2004 3:23:01 PM] [kmack] lol

[2/29/2004 3:23:15 PM] [MakeRich] don't mean to trade 'against' anybody

[2/29/2004 3:23:22 PM] [kmack] there's a semi conference this week

[2/29/2004 3:23:39 PM] [kmack] didn't mean it that way

[2/29/2004 3:23:59 PM] [MakeRich] understood... semi conference could be the answer

[2/29/2004 3:25:01 PM] [Noname] semi's having trouble-SOX--X the pits-short PHTN myself

[2/29/2004 3:34:35 PM] [Noname] MakeRich you lookin for a short
