[3/24/2004 8:13:53 AM] [swan] toby, I normally use the downloaded software. Have now tried to come in from their website, and that seems to work, but not the preferred methos.
[3/24/2004 8:14:50 AM] [tobydad] huh, possible problem with computers? not likely i would think, since no log in from more than one.

[3/24/2004 8:25:48 AM] [FlyAs92] Make sure you use the new icon and delete the old one
[3/24/2004 8:27:42 AM] [swan] Fly, I've had both old and new icons (they look the same) on my faveorites for about a week without problem. Do you think that's causing trouble, now?
[3/24/2004 8:29:10 AM] [FlyAs92] If that doesn't work, you have to redownload the

[3/24/2004 3:09:45 PM] [hotto] As Ralph Bloch mentioned earlier.. This last wave down.. may turn out to be the "momentum Low" as Roy Blumberg used to call it..
[3/24/2004 3:10:09 PM] [acmetrader] if you are seeing pos divergence, confused as to why you are looking for a low?
[3/24/2004 3:10:17 PM] [hotto] Then.... we look for the Price Low.. later.. with pos Divergences...
[3/24/2004 3:11:12 PM] [hotto] Keep notes... on these Pos Divergences.. as they mount up... It will be useful in the future.. to look for.. if you are still trading..

[3/24/2004 4:10:39 PM] [Investortrader] Argh, had some small orders in on BKHM at 2.01 that didn't get filled at all, and ADCT at 2.51 that I got a small partial fill on
[3/24/2004 4:15:02 PM] [mace] I know you added to VTIV but it didnt reach its target is that a concern or the volume was enough to reach the 13.35??
[3/24/2004 4:15:40 PM] [VJnet] Betsy's talking up steel on CNBC
[3/24/2004 4:15:55 PM] [hotto] Go Betsy !...:8
[3/24/2004 4:17:13 PM] [hotto] VTIV.. consider.. It made that move approaching target.. with a weak mkt behind it... note Breadth...
[3/24/2004 4:17:50 PM] [hotto] A /D = 1182 / 2060.. SO..
[3/24/2004 4:18:37 PM] [hotto] In that environment.. VTIV being able to come within .05 of UBB is pretty amazing. (to me)...
[3/24/2004 4:19:18 PM] [hotto] Remember.. We set Theoretical Targets... based on Charts and math formulas...THEN.. we watch... and assess...
[3/24/2004 4:19:57 PM] [hotto] And.. we set Our Sell prices.. based on both the Theoretical Targets.. AND the mkt.. conditions..
[3/24/2004 4:20:49 PM] [mace] so VTIV should have been a sell at HOD?
[3/24/2004 4:20:52 PM] [hotto] With DJIA and Breadth so weak today... I would adjust sell point by at least one tick (-.15 approx)..
[3/24/2004 4:22:03 PM] [hotto] With traders selling soft of targets.. the VTIV approach to within .05.. ANd big volume... is very good.. imo.
