[4/5/2004 4:16:05 PM] <cuidado> anyone, what do people mean by putting a "j" in front of a stock symbol, as in "jfvx"?  
[4/5/2004 4:16:28 PM] <BossFan> they're trying to jump to a stock and don't have focus  
[4/5/2004 4:16:34 PM] <StockStalker> some silly worden idea  
[4/5/2004 4:16:35 PM] <neofighter> Hotto, thanx for the great day, will be back later, going for a run with my boy.  
[4/5/2004 4:16:38 PM] <BossFan> "j" is the hot key to jump  
[4/5/2004 4:17:03 PM] <hotto> yw neo.. enjoy the time with your son.  
[4/5/2004 4:17:13 PM] <ProfitTrader> j is to jump to symbol in chart window. when focus changes to chat window it shows up as post . Good example of mind and finger faster than computer.  
[4/5/2004 4:17:19 PM] <cuidado> oh, so they're just typing in the wrong place?!?  
[4/5/2004 4:17:36 PM] <zenvestor> cuidado, yes

[4/5/2004 4:37:32 PM] <Boulder> Why are you Hotto, why are you calling s=2.48 on FVCX, not 2.50 (3 days earlier)?  
[4/5/2004 4:38:52 PM] <Boulder> typing!!! I know why you are Hotto;)

[4/5/2004 4:40:33 PM] <hotto> Boulder.. look backward in time.. on the chart.. What is the next SH you can see.. that hides a prior Lower Highs ?

[4/5/2004 4:40:39 PM] <BossFan> CPTH 5.20 AH

[4/5/2004 4:41:56 PM] <hotto> Note.. the 2.50 HOD on 1/30 was not a SH.. The prior day was higher.. So.. 1/30 was just part of the decline phase..

[4/5/2004 4:42:31 PM] <Boulder> great ... ty

[4/5/2004 4:43:09 PM] <hotto> 12.48 became important.. ( relatively ).. on 2/4.. after the 2/3 and 2/4 rally attempt from the 1/30 Low at LBB...

[4/5/2004 4:44:10 PM] <Boulder> thanks, appreciate your help...

[4/5/2004 4:44:31 PM] <hotto> That is... the rally Stalled AT 2.48 on 2/4.. We now have some new Unhappy investors... entered about 2.48... who will be "get-eveners" when we get back up there...

[4/5/2004 4:45:13 PM] <hotto> AND.. Lots of us traders are studying that same chart.. SO.. many will look to PT as 2.48 is approached..

[4/5/2004 4:45:50 PM] <BossFan> darn, missed FIBR BO200 today...anyone like the chart?

[4/5/2004 4:46:16 PM] <TrendFriend> go to new under file

[4/5/2004 4:46:53 PM] <Investortrader> I call those people the "Even and leavin" crowd

[4/5/2004 4:47:41 PM] <TrendFriend> do you see it?

[4/5/2004 4:48:00 PM] <hotto> That gives you some substance.. in "why" some targets work..

[4/5/2004 4:48:57 PM] <hotto> That is the beginning.. One part of the Target Theory ... more on the website..

[4/5/2004 4:49:14 PM] <TrendFriend> call me now if you want 954-524-0789 andi'll run you through it

[4/5/2004 4:50:35 PM] <Boulder> Thanks, now I can apply that to other charts. I'll look again at Hottoworks for the target theory.

[4/5/2004 4:50:36 PM] <TrendFriend> above watch list is new. choose that and new pcf

[4/5/2004 4:54:26 PM] <hotto> Target Theory was discussed in a MarketView last week. The Separate Target paper will be up tonight or tomorrow.. Being worked on right now.

[4/5/2004 5:01:33 PM] <Grinder> Hi Hotto..Been months since I commented but have been very active every day. Just a note to thank you on your professionalism. Hottoworks is an exceptional value and your total service is outstanding. Thank you! Have a great Easter week.

[4/5/2004 5:02:40 PM] <hotto> Thanks for your comment, Grinder! Keep up the good work.

[4/5/2004 5:04:08 PM] <Investortrader> Nano on K&C now, about to dump on the faux nanotechs

[4/5/2004 5:10:25 PM] <acmetrader> they have been doing that for days

[4/5/2004 5:10:46 PM] <acmetrader> Cramer has a real bugaboo about the nanos

[4/5/2004 5:21:42 PM] <RkyMtnFool> It's raining! YES!!

[4/5/2004 5:24:42 PM] <hotto> Alert !.. It has happened again...!... 3rd time in quick memory review..

[4/5/2004 5:26:11 PM] <hotto> Remember.. we had CAMD and VRTY both went directly from Upward Guidance.. to G-...

[4/5/2004 5:26:38 PM] <hotto> NOW we have Another G++ stock BRKT... that bites the dust

[4/5/2004 5:26:59 PM] <hotto> Just Guided Lower... Stock at 16.00 - 5.22..

[4/5/2004 5:27:34 PM] <hotto> So.. the WArning Season is not quite over.. as yet...

[4/5/2004 5:29:31 PM] <hotto> CAMD is a Semi stock.. niche in Wireless... HAd just guieded higher.. in Dec. and Jan..  
[4/5/2004 5:29:46 PM] <hotto> Lowered Guidance 2 weeks ago.  
[4/5/2004 5:30:06 PM] <hotto> VRTY in Security Software... similar..  
[4/5/2004 5:30:22 PM] <hotto> Something shaky about this Qtr...  
[4/5/2004 5:31:10 PM] <HOTTO> w2jc has posted a new topic to Topic Papers & Presentations: Nanotechnology  
[4/5/2004 5:31:13 PM] <hotto> To have 3 companies.. with good track records.... have to renig on Upward Guidance... and Lower it..  
[4/5/2004 5:33:22 PM] <hotto> I don't have a handle on it. Seems spotty right now. But.. suggests... we avoid holding positions through Earnings .. esp if no guidance has been given..  
[4/5/2004 5:34:00 PM] <nemsca> any news on BRCM?  
[4/5/2004 5:34:18 PM] <CodyCare> hotto do you like SWKS here?  
[4/5/2004 5:36:35 PM] <hotto> SWKS - one I always "like".. no posn now  
[4/5/2004 5:36:50 PM] <HOTTO> w2jc has posted a new topic to Nanotechnology: Radio program about Nano technology  
[4/5/2004 5:37:06 PM] <hotto> SWKS.. big BTBO today.. good vol  
[4/5/2004 5:37:59 PM] <lavenderangel> Hotto, what's your take on MATK?  
[4/5/2004 5:38:26 PM] <hotto> last q... I need to get lunch...  
[4/5/2004 5:39:28 PM] <CodyCare> hotto, thanks.  
[4/5/2004 5:39:45 PM] <hotto> MATK usually comes through with great earnings..  
[4/5/2004 5:39:47 PM] <mstrader> Here is my last question. When are you going to have lunch?=D  
[4/5/2004 5:40:03 PM] <hotto> There is a huge Short Int..  
[4/5/2004 5:40:15 PM] <lavenderangel> what does that mean? shortINT?  
[4/5/2004 5:40:33 PM] <hotto> Today MATK got a boost from both  
[4/5/2004 5:40:57 PM] <hotto> someone ?/ please answer on Short Int... so I can get lunch  
[4/5/2004 5:41:06 PM] <lavenderangel> thx, Hotto, enjoy lunch  
[4/5/2004 5:41:18 PM] <RkyMtnFool> I got it.  
[4/5/2004 5:41:20 PM] <hotto> :)  
[4/5/2004 5:41:25 PM] <hotto> ty Rocky !  
[4/5/2004 5:41:38 PM] <hotto> back later... MarketView  
[4/5/2004 5:42:05 PM] <RkyMtnFool> Short interest: The number of shares that have been shorted. ...  
[4/5/2004 5:42:43 PM] <lavenderangel> so there are a large number of shorts out on MATK, then? is that right?  
[4/5/2004 5:42:55 PM] <RkyMtnFool> On TCNet we have the Short Interest Ratio - the number of days of avg. volume to cover that interest (approx.)  
[4/5/2004 5:43:09 PM] <honus99> and Short Ratio is how many days of avg volume to cover.  
[4/5/2004 5:43:32 PM] <honus99> beat me Rocky  
[4/5/2004 5:43:45 PM] <RkyMtnFool> Right! TCNet shows 9.1 short interest ratio. A lot of nervous shorts = potential buyers.  
[4/5/2004 5:44:29 PM] <lavenderangel> ok, thx. I bot a small pos'n on Friday - felt it was time for it.  
[4/5/2004 5:44:48 PM] <RkyMtnFool> Good move!  
[4/5/2004 5:44:48 PM] <lavenderangel> I'm going to add that short ratio to one of my tabs. thanks

## ClubHome

[4/5/2004 5:45:36 PM] <honus99> lav, you can always cross check with yahoo finance, enter symbol and click on key statistics.

[4/5/2004 5:45:41 PM] <w2jc> lavender... you can even add it as a button at the top of your chart, so you dont have to look at a tab list ...

[4/5/2004 5:46:04 PM] <lavenderangel> what's it's called? can't find it

[4/5/2004 5:46:29 PM] <w2jc> Latest Short Interest Ratio ( so it sorts under L instead of S !!)

[4/5/2004 5:46:31 PM] <honus99> short ratio

[4/5/2004 5:47:25 PM] <lavenderangel> found it thanks. under L for shorts

[4/5/2004 5:48:55 PM] <lavenderangel> Rocky, look at the short ratio for GAP. is that right?

[4/5/2004 5:50:26 PM] <mstrader> Are stocks under \$5 shorted?

[4/5/2004 5:50:38 PM] <RkyMtnFool> Wow!

[4/5/2004 5:50:43 PM] <lavenderangel> Yeah!

[4/5/2004 5:51:09 PM] <lavenderangel> I accidentally landed on GAP because it's in one of my watchlists

[4/5/2004 5:51:30 PM] <lavenderangel> you could use that short ratio in a tab and sort by it.

[4/5/2004 5:51:56 PM] <RkyMtnFool> finance.yahoo.com shows 24.4 as short ratio - It's right.

[4/5/2004 5:52:04 PM] <lavenderangel> holy cow

[4/5/2004 5:52:33 PM] <lavenderangel> but then it mightmean the stock still has some down coming

[4/5/2004 5:53:09 PM] <lavenderangel> does anyone know why you see a different number in the tab column vs what you see on the chart for short ratio int?

[4/5/2004 5:53:30 PM] <rickmrge> mstrader Brownco lets you short stocks under 5 but you have to short amin of 1000 shares

[4/5/2004 5:53:31 PM] <RkyMtnFool> Remember, short positions can be arb plays - not always a bet on lower prices.

[4/5/2004 5:54:38 PM] <RkyMtnFool> arb = arbitrage

[4/5/2004 5:55:55 PM] <mstrader> Ty rick. I didn't know that.

[4/5/2004 5:56:11 PM] <rickmrge> yw

[4/5/2004 5:56:15 PM] <honus99> lav, for what it's worth, I made a watchlist of largest short pos. stocks last year, one year return would have been 55%, 30 winners 6 losers.

[4/5/2004 5:57:10 PM] <lavenderangel> I'm having a brain drain. I dont' understand your results

[4/5/2004 5:58:15 PM] <RkyMtnFool> My experience is that BrownCo will NOT allow shorts below \$5 and seldom below 6.00

[4/5/2004 5:58:53 PM] <Luigistock> lav it looks like the columns are a rank sort vs the chart setting of actual days to clear shorts

[4/5/2004 5:59:25 PM] <lavenderangel> thanks Luigi. where have you been? did you open a restaurant?

[4/5/2004 6:00:27 PM] <Luigistock> no gonna wait til next season on that maybe some of these jokers will be more realistic with their lease offerings ..been handlig some family stuff and decidign what i want to be when i grow up :)

[4/5/2004 6:01:11 PM] <lavenderangel> understand! glad to see you back

[4/5/2004 6:02:04 PM] <Luigistock> thanx gonna be more part time for awhile but always fun to be around here

[4/5/2004 6:02:59 PM] <honus99> Luigi, who says we have to grow up.

[4/5/2004 6:03:00 PM] <lavenderangel> I'm in and out more too. Luigi.

[4/5/2004 6:03:24 PM] <Luigistock> ok honus good point :

[4/5/2004 6:03:27 PM] <Luigistock> :)

[4/5/2004 6:04:08 PM] <honus99> Luigi, are you using Stalker real time scanner?

[4/5/2004 6:08:03 PM] <Luigistock> CHap's just plain good - scanner or not :)  
[4/5/2004 6:08:30 PM] <lavenderangel> well, that splains it! I like romping too!  
[4/5/2004 6:08:32 PM] <Luigistock> but havnt heard any complaints plus it uses very little system resources  
[4/5/2004 6:08:43 PM] <mstrader> by George you got it ;)

[4/5/2004 7:53:42 PM] <KauaiDave> Well here is my question... Does anyone have experience with the old saying "buy the rumor, sell the news" does it apply to bad as well as good news? TASR went down \$10 today because 40 people died from their stun guns is it likely to recover later? and if so how much? just any feel for this would be appreciated  
[4/5/2004 7:56:32 PM] <lavenderangel> I heard that was old news. if you consider the small number of deaths in the large number of stunnings. also. but who knows?  
[4/5/2004 7:56:59 PM] <KauaiDave> Actually it's more like \$6, anyone observed this sort of thing before? I remember CSCO went down for months on GOOD news, LOL I was hoping someone with longterm experience had an idea about the rule "buy the rumor sell the news" on bad news  
[4/5/2004 7:57:45 PM] <lavenderangel> TASR moves anywhere from 3 to 11 dollars

in a day regularly. if it were bad news, I would think it would drop much more.  
[4/5/2004 7:57:56 PM] <KauaiDave> lavenderangel, old news? so that wasn't today?  
I thought the news about the t.v. show coming up soon came out today  
[4/5/2004 7:58:03 PM] <husker> Dave- this is not new news. Has been previously reported. Suspect TASR will bounce back soon  
[4/5/2004 7:58:25 PM] <KauaiDave> Thank you lavenderangel and husker  
[4/5/2004 7:58:34 PM] <lavenderangel> yw  
[4/5/2004 8:00:17 PM] <KauaiDave> BTW since I am here, have you guys gotten your money's worth by joining the pay for channel? in trades...  
[4/5/2004 8:00:31 PM] <StockStalker> TASR "news" will create a buy opp imo  
[4/5/2004 8:01:02 PM] <StockStalker> percentage of those that die from a bullet still much higher than those that get buzzed  
[4/5/2004 8:01:06 PM] <KauaiDave> Thanks StockStalker  
[4/5/2004 8:01:43 PM] <KauaiDave> lol, true... When CSCO went way down on good news, it left me feeling a little uncertain...  
[4/5/2004 8:01:43 PM] <payck> yes KD, the daily market reviews are terrific  
[4/5/2004 8:02:27 PM] <KauaiDave> payck, terrific on TASR right... so mostly good news, ignore the t.v. show news  
[4/5/2004 8:03:10 PM] <payck> KD, you can have a free week on hottoworks, see how you like it  
[4/5/2004 8:03:38 PM] <VJnet> how's the SAAB pay  
[4/5/2004 8:04:10 PM] <payck> parts had to be ordered, ready wed or thur, I don't go anywhere anyway, LOL  
[4/5/2004 8:04:13 PM] <KauaiDave> sounds good, wow, you should see what Schwab says about TASR, rated F strongly Underperform (but Traders don't pay too much attention to fundamental news of course)  
[4/5/2004 8:04:41 PM] <VJnet> sounds like me...getting so I live in front of this computer  
[4/5/2004 8:07:39 PM] <Luigistock> you guys working late

[4/5/2004 10:26:31 PM] <kellam> a few of us that do not sleep are here;)  
[4/5/2004 10:26:46 PM] <Investortrader> Hi kellam!  
[4/5/2004 10:27:19 PM] <Zathrus> Gee IT - you can deal with all of the technical indicators, but a clock throws you :D  
[4/5/2004 10:27:48 PM] <Investortrader> lol Zathrus :8  
[4/5/2004 10:27:58 PM] <Investortrader> Them new-fangled contraptions!  
[4/5/2004 10:28:28 PM] <kellam> bet you have trouble with blinking lights on VCR's as well  
[4/5/2004 10:29:03 PM] <Investortrader> you mean it isn't 12:00 now? ;)  
[4/5/2004 10:29:20 PM] <kellam> :8 close  
[4/5/2004 10:29:24 PM] <cobralso> Clocks can be complicated you ever try taking one apart xP  
[4/5/2004 10:30:16 PM] <Anders> IT - always had trouble when I travelled for work on the Chicago - Indiana - Ohio path. Hour early to some appointments, then an hour late to others. Go figure!  
[4/5/2004 10:30:18 PM] <Luigistock> cobra ..taking apart is no problem ..reassembly -thats a problem  
[4/5/2004 10:30:19 PM] <Investortrader> Never have, our company made ones with wooden backs in Junior Achievement in high school ... but we bought the inner workings already complete  
[4/5/2004 10:30:43 PM] <Investortrader> lol Anders, glad I'm not the only one!  
[4/5/2004 10:30:52 PM] <Investortrader> Ok, update is completed  
[4/5/2004 10:32:42 PM] <Investortrader> Anyone have a stock they would like covered?  
[4/5/2004 10:32:48 PM] <OddBodkin> OCA?  
[4/5/2004 10:32:57 PM] <Anders> FNSR  
[4/5/2004 10:33:02 PM] <america> sntk  
[4/5/2004 10:33:08 PM] <RkyMtnFool> I wish I had covered IACI.  
[4/5/2004 10:33:17 PM] <Investortrader> OCA ...  
[4/5/2004 10:33:39 PM] <Zathrus> I wish my add-on buy for TINY hadn't been .01 too low :(  
[4/5/2004 10:33:54 PM] <parkwaypet> LIOX if possible  
[4/5/2004 10:34:50 PM] <Investortrader> This one is looking good, OBV has made a nice move off the lows with price  
[4/5/2004 10:35:48 PM] <Investortrader> On 3/31 and 4/1 there were two lower vol rest days .. that happens very often in an upmove, and now it's riding the upper BB again on some higher vol  
[4/5/2004 10:35:56 PM] <bwanag> A general question for you "Hotto's" - is it possible to be a daytrader - use Hotto's style - if I cannot be at my computer from market open to market close, five days a week? I have been considering Hottoworks, since I have learned so much on this clun over the last year - but I have this day job that gets in the way  
[4/5/2004 10:35:59 PM] <streetwalker> didn't Hotto say that AZPN was a BTBO and that it should go up tomm'w?  
[4/5/2004 10:36:32 PM] <Zathrus> bwanag - it would be tricky  
[4/5/2004 10:36:51 PM] <Investortrader> I wouldn't daytrade without being able to watch ... I watch and I don't daytrade  
[4/5/2004 10:37:27 PM] <Investortrader> I wouldn't be buying OCA up here, but if I owned it I wouldn't be selling it yet either  
[4/5/2004 10:37:45 PM] <OddBodkin> thanx, IT  
[4/5/2004 10:38:02 PM] <Investortrader> Today we broke above the Dec/Jan highs on good vol, so it's still strong

## ClubHome

[4/5/2004 10:38:10 PM] <Investortrader> Welcome OddBodkin :)  
[4/5/2004 10:39:09 PM] <Investortrader> If I just had to be in this one for some reason ... buying here and using just under those Dec/Jan highs of around 8.50 for a stop-loss would be how I would do it  
[4/5/2004 10:39:41 PM] <Investortrader> Not here, but using the 5's for a good entry  
[4/5/2004 10:40:13 PM] <bwanag> I ned to learn more and be able to do my own picks - I find myself 'going with the flow' not good I think  
[4/5/2004 10:40:31 PM] <america> thanks IT. will read in the a.m. good night.  
[4/5/2004 10:40:39 PM] <Investortrader> Night america :)  
[4/5/2004 10:40:43 PM] <Investortrader> Any questions on OCA?  
[4/5/2004 10:41:13 PM] <streetwalker> on OCA , why didn't it fill mid-march gap  
[4/5/2004 10:41:34 PM] <Investortrader> bwanag, Hotto also gives swing trade targets, and I give these classes geared towards teh swing trader  
[4/5/2004 10:41:35 PM] <enzo> hi IT  
[4/5/2004 10:41:40 PM] <Investortrader> Hi enzo  
[4/5/2004 10:42:05 PM] <Investortrader> streetwalker, that's a sign of strength that it only partially filled that gap  
[4/5/2004 10:42:11 PM] <enzo> din't know you were here tonight  
[4/5/2004 10:42:29 PM] <Investortrader> Though the OBV was ugly on it then  
[4/5/2004 10:42:35 PM] <Investortrader> I got here late :(  
[4/5/2004 10:42:48 PM] <OddBodkin> Close to half of OCA float is short  
[4/5/2004 10:42:52 PM] <Investortrader> Not all gaps need to be filled .. just most gaps are  
[4/5/2004 10:43:17 PM] <Investortrader> Usually you'll find the ones that aren't are at the beginnings of good trend reversals  
[4/5/2004 10:43:22 PM] <streetwalker> so, after the partial fill, and rising OBV...that would be an entry point?  
[4/5/2004 10:43:34 PM] <Investortrader> Right streetwalker  
[4/5/2004 10:43:55 PM] <Investortrader> Plus after it broke back above the middle BB  
[4/5/2004 10:44:09 PM] <Investortrader> And held it  
[4/5/2004 10:44:09 PM] <streetwalker> aha! thanx  
[4/5/2004 10:44:17 PM] <Investortrader> Welcome :)  
[4/5/2004 10:44:23 PM] <Investortrader> On to FNSR ...  
[4/5/2004 10:44:25 PM] <Anders> FNSR - I entered last week with you and was surprised you exited so quickly. I kept half, and so far today looked ok. Was wondering what you saw to bail out so quickly and how it looks now.  
[4/5/2004 10:45:04 PM] <bwanag> Hey - a great big thanks to all you Hotto's - I may have missed some PM's - so many have helped - this is a great place to learn - I wil foow up on all the suggestions - and evaluate my situation  
[4/5/2004 10:45:33 PM] <Investortrader> I didn't like how it was acting on the day I bought that afternoon and the next day ... with it not being able to break thru the middle BB and heading back down on larger vol  
[4/5/2004 10:45:48 PM] <Investortrader> Good luck bwanag, we're here to help! :)  
[4/5/2004 10:46:14 PM] <Anders> I see, and still hasn't even brocken middle band  
[4/5/2004 10:46:18 PM] <Investortrader> And even today, while it was up, it's up on lower vol and the middle BB stopped it again  
[4/5/2004 10:46:22 PM] <Investortrader> Yup  
[4/5/2004 10:46:53 PM] <Investortrader> Though the OBV could be making a divergent dbl btm also  
[4/5/2004 10:47:03 PM] <Investortrader> So there is good and bad in the chart here now  
[4/5/2004 10:47:21 PM] <bbmd> IT what do you do with STHLY ?? Thx.  
[4/5/2004 10:47:46 PM] <Investortrader> I'm not sure here yet if the good jobs report saved it only temporarily

## ClubHome

[4/5/2004 10:48:05 PM] <Anders> so OBV says maybe a bottom is in, but price action is poor  
[4/5/2004 10:48:14 PM] <Investortrader> Exactly  
[4/5/2004 10:48:28 PM] <Anders> thanks  
[4/5/2004 10:49:35 PM] <Investortrader> Welcome Anders :) I just stepped aside temporarily until the picture clears up a bit more  
[4/5/2004 10:49:57 PM] <Investortrader> Any questions on FNSR?  
[4/5/2004 10:50:36 PM] <Investortrader> On to SNTK ...  
[4/5/2004 10:51:08 PM] <Investortrader> I don't like making comments on ones so low priced as I don't trade them myself ... sorry :(  
[4/5/2004 10:51:40 PM] <Investortrader> Next in line is LIOX ...  
[4/5/2004 10:52:05 PM] <enzo> IT elgx  
[4/5/2004 10:53:13 PM] <RainbowZone> strange, how do you know he doesn't trade?  
[4/5/2004 10:53:29 PM] <Investortrader> This one was in a downtrend until March ... when it did break out, I want you to look at the OBV during the basing it had next from 3/5 to 3/24  
[4/5/2004 10:54:01 PM] <Investortrader> Not sure what you are asking RainbowZone  
[4/5/2004 10:54:27 PM] <Investortrader> During that basing even though the price went under it's middle BB the OBV didn't  
[4/5/2004 10:54:45 PM] <Investortrader> Showing a positive divergence .. something to watch for during a stocks basing period  
[4/5/2004 10:55:20 PM] <Investortrader> Even though it was drifting down some .. better if it holds steady but it was held by it's 20sma  
[4/5/2004 10:55:40 PM] <Investortrader> Now we're riding the upper BB on some nice vol  
[4/5/2004 10:56:30 PM] <Investortrader> It shouldn't break too far below the LR30 here, note that's also around the early March swing high  
[4/5/2004 10:57:12 PM] <Investortrader> And with the nice day today I don't really think that will be tested here  
[4/5/2004 10:57:40 PM] <Investortrader> So hang on for a nice ride it looks like in this one  
[4/5/2004 10:58:10 PM] <Investortrader> One other thing I'd like to point out on this one is how it formed it's bottom  
[4/5/2004 10:58:10 PM] <parkwaypet> TY IT in at 9.59 LIOX  
[4/5/2004 10:58:27 PM] <Investortrader> Nice buy parkwaypet :)  
[4/5/2004 10:58:53 PM] <Investortrader> See in mid-Jan where it made it's momentum low on OBV  
[4/5/2004 10:59:18 PM] <Investortrader> Then in late Jan and late Feb when price was making a dbl btm, the OBV was much higher  
[4/5/2004 10:59:40 PM] <Investortrader> That was a good signal that a turn was coming up shortly  
[4/5/2004 11:00:05 PM] <Investortrader> Volume precedes price, that's why OBV can be used so well  
[4/5/2004 11:00:08 PM] <parkwaypet> Nice comment and helpful a new one to me  
[4/5/2004 11:00:19 PM] <Investortrader> Thank you parkwaypet :)  
[4/5/2004 11:00:27 PM] <Investortrader> Any questions on LIOX?  
[4/5/2004 11:00:52 PM] <Chapmaster> Hi IT ... what's ur take on GENE?  
[4/5/2004 11:01:01 PM] <Investortrader> One other thing, as price was coming down in Nov and Dec, see how OBV made new lows with each price low, telling you it wasn't time to turn around yet  
[4/5/2004 11:01:30 PM] <Investortrader> Ok, on to AZPN ...  
[4/5/2004 11:01:38 PM] <parkwaypet> also IMX IT  
[4/5/2004 11:01:49 PM] <streetwalker> oy vey  
[4/5/2004 11:01:54 PM] <Investortrader> This one was brought to our attention last

week in class by Oz

[4/5/2004 11:02:38 PM] <Investortrader> See how the OBV was rising throughout the end of March while price continued basing sideways

[4/5/2004 11:02:57 PM] <Investortrader> That shows accumulation and is something Hotto also likes to see

[4/5/2004 11:03:30 PM] <Investortrader> Now we broke out today on good volume

[4/5/2004 11:04:58 PM] <Investortrader> About half way down todays candle, which is also where the 50sma and the upper BB are ... would be where I would look to buy it tomorrow if it did pb to there

[4/5/2004 11:05:19 PM] <Nitabug> It, What value does MS play in reference to obv on (LIOX)?

[4/5/2004 11:05:37 PM] <Investortrader> I don't use MS Nitabug

[4/5/2004 11:06:48 PM] <Nitabug> ok, IT, Ty.

[4/5/2004 11:06:57 PM] <Investortrader> MS is a lot like a mvg avg in that it only goes back so far ... that might be the cause of what you are seeing (I haven't looked yet)

[4/5/2004 11:07:46 PM] <Investortrader> Any questions on AZPN?

[4/5/2004 11:08:28 PM] <streetwalker> IT on AZPN where would take profits; any targets & how do u set them?

[4/5/2004 11:08:59 PM] <Investortrader> Targets depend a lot on ones trading style .. if you want to scalp more or scalp less or not at all

[4/5/2004 11:09:21 PM] <Investortrader> For scalping here I would use the Feb swing high

[4/5/2004 11:09:34 PM] <streetwalker> understood; thanx

[4/5/2004 11:09:52 PM] <Investortrader> Welcome streetwalker :)

[4/5/2004 11:10:20 PM] <Investortrader> Most of how I look at things like targets and stops and trading will be from my time frame persepective which is from a few days to a couple weeks usually

[4/5/2004 11:10:55 PM] <Anders> IT do you ever use or have experience with TSV indicator ?

[4/5/2004 11:11:14 PM] <Investortrader> If I was planning to scalp a stock riding the upper BB, I wouldn't want to be out for too long

[4/5/2004 11:11:28 PM] <Investortrader> No experience with it Anders, have never used it

[4/5/2004 11:11:43 PM] <streetwalker> IT; i like that one.

[4/5/2004 11:12:12 PM] <Investortrader> Typically after a big run-up day, or two, or sometimes three, it will pause for a day or three .. sometimes that pause doesn't retrace very much, sometimes it retraces most of the last up candle

[4/5/2004 11:12:34 PM] <Investortrader> This on a stock riding an outer BB

[4/5/2004 11:13:07 PM] <Investortrader> Any questions on AZPN?

[4/5/2004 11:13:07 PM] <poppop\_1943> IT, if time, please do ECIL. ty.

[4/5/2004 11:13:12 PM] <streetwalker> IT; price pause with rising/constant OBV -- still a hold?

[4/5/2004 11:13:54 PM] <streetwalker> ie, re: retracement

[4/5/2004 11:14:08 PM] <Investortrader> Yes streetwalker ... depending on the slope of the price rise, I sometimes use time .. if it stays out of contact for too long I get out even without a retrace in price

[4/5/2004 11:14:31 PM] <Investortrader> Out of contact inside the bands, the whole day being out of contact

[4/5/2004 11:14:53 PM] <streetwalker> IT; i'm with you.

[4/5/2004 11:15:06 PM] <Investortrader> On to STHLY ...

[4/5/2004 11:15:40 PM] <Investortrader> Here's the perfect example of what I was just saying

[4/5/2004 11:16:01 PM] <Investortrader> 3/29 big vol up day, followed by lower vol pb

## ClubHome

[4/5/2004 11:16:32 PM] <Investortrader> Now on it's way up again on big vol  
[4/5/2004 11:16:39 PM] <Investortrader> Still riding the upper BB  
[4/5/2004 11:18:04 PM] <streetwalker> IT; i see that OBV bounced off its  
sma20...good hint for rebound?  
[4/5/2004 11:18:09 PM] <Investortrader> The main thing I want to point out is, a  
stock riding the upper BB on good vol is strong, so if you decide to scalp it, be quick  
to get back in or you miss out on the next big upmove  
[4/5/2004 11:18:31 PM] <Investortrader> Good eye streetwalker!  
[4/5/2004 11:18:59 PM] <Investortrader> With the price bouncing off the LR30 and  
the OBV bouncing off it's middle BB  
[4/5/2004 11:19:50 PM] <Investortrader> And on 4/2 when this was happening it was  
on better vol than the two pb days before it  
[4/5/2004 11:19:59 PM] <streetwalker> IT; general ? how can a linear regression line  
help in curvilinear situations?  
[4/5/2004 11:20:49 PM] <Investortrader> I added the LR30 after joining Hotto club  
when I saw how well he used it ... first thing I've added to my KISS template since I  
made it .. but it does work  
[4/5/2004 11:21:09 PM] <gary12> IT IDEV looks like a buy?  
[4/5/2004 11:21:23 PM] <Investortrader> Any questions on STHLY?  
[4/5/2004 11:21:26 PM] <streetwalker> okidoki...back to books  
[4/5/2004 11:21:42 PM] <bbmd> Thx IT.  
[4/5/2004 11:22:10 PM] <Investortrader> On stocks like this that have based for  
awhile and are just breaking out, I like to give them some time to run, so I usually  
don't scalp and just wait for the momentum to fade  
[4/5/2004 11:22:14 PM] <Investortrader> Welcome bbmd :)  
[4/5/2004 11:22:40 PM] <Investortrader> We've seen many times how a stock can  
ride the upper BB for awhile  
[4/5/2004 11:22:49 PM] <Investortrader> On to ELGX ...  
[4/5/2004 11:23:30 PM] <Investortrader> This one looks pretty nice too  
[4/5/2004 11:23:53 PM] <Investortrader> Again see how during the basing in late  
MARCH the OBV was rising  
[4/5/2004 11:24:16 PM] <Investortrader> Now we've broken out above the 50sma on  
better vol  
[4/5/2004 11:24:21 PM] <Investortrader> That's important!  
[4/5/2004 11:24:36 PM] <Investortrader> Lots of people use the 50sma, investors,  
traders, big money managers  
[4/5/2004 11:25:10 PM] <Investortrader> In fact many fund managers have a rule  
they will not buy anything below it's 50sma, and they run scans looking for stocks  
breaking out above the 50sma  
[4/5/2004 11:26:30 PM] <Investortrader> This one could run into some resistance at  
it's early MARCH highs around the 6.25 area  
[4/5/2004 11:26:50 PM] <Investortrader> So that would be a place for some scalping  
if one wants to scalp  
[4/5/2004 11:27:35 PM] <Investortrader> Then the 6.55 area and after that the 2/18  
highs  
[4/5/2004 11:27:45 PM] <Investortrader> Around 7.25 area  
[4/5/2004 11:29:09 PM] <Investortrader> Any questions on ELGX?  
[4/5/2004 11:29:54 PM] <Investortrader> On to GENE ...  
[4/5/2004 11:31:03 PM] <Investortrader> This one is a bit tougher here  
[4/5/2004 11:31:13 PM] <Investortrader> It just got turned back in late Feb by the  
50sma  
[4/5/2004 11:31:48 PM] <Investortrader> But OBV held it's 50sma and is looking ok  
here  
[4/5/2004 11:32:38 PM] <bravotrader> did you mean late March?  
[4/5/2004 11:33:11 PM] <Investortrader> Oops, late MARCH, yes, thanks :)

## ClubHome

[4/5/2004 11:33:40 PM] <bravotrader> yw IT  
[4/5/2004 11:34:22 PM] <Investortrader> Note the pb in late Jan on 1/23 after the big  
runup, and how that is right about where it got down too for it's lows in MArCh on 3/16  
[4/5/2004 11:35:15 PM] <Investortrader> It looks like it could get thru the 50sma on  
it's next try, the pb from it was on lower vol  
[4/5/2004 11:35:48 PM] <Investortrader> And we've got the BB's getting narrow so  
that will provide some energy .. one way or the other  
[4/5/2004 11:36:00 PM] <Investortrader> OBV is indicating upwards here  
[4/5/2004 11:36:06 PM] <enzo> embt nice obv  
[4/5/2004 11:37:01 PM] <Investortrader> I would probably wait for it to BO over the  
50sma since it is so close here .. or if it does come back and test the LR30 on lower  
vol I would also think about there as a buying place  
[4/5/2004 11:37:39 PM] <Investortrader> I respect the 50sma so on most things that  
are close I wait for a BO over it  
[4/5/2004 11:38:00 PM] <Investortrader> Let someone else be the hero, and avoid  
most chances of being the zero :)  
[4/5/2004 11:38:19 PM] <Investortrader> Any questions on GENE?  
[4/5/2004 11:38:47 PM] <enzo> no question  
[4/5/2004 11:38:58 PM] <Investortrader> On to IMX ...  
[4/5/2004 11:40:13 PM] <Investortrader> Look at the OBV here now  
[4/5/2004 11:41:03 PM] <Investortrader> We had a BO in late March, on good vol,  
with OBV making new highs ... then a pb to the LR30, and now it's breaking out  
again on some vol .. but OBV is beginning to lag  
[4/5/2004 11:41:21 PM] <Investortrader> Just a warning, but something to pay  
attention to  
[4/5/2004 11:41:50 PM] <Investortrader> Tomorrow could be a key day  
[4/5/2004 11:41:56 PM] <Investortrader> And might need to be sold  
[4/5/2004 11:42:51 PM] <Investortrader> The pb was on a little bigger vol than is  
normally healthy, so OBV is telling us to keep an eye on it  
[4/5/2004 11:43:22 PM] <Investortrader> Tomorrow could fix that and all would be  
well, ... we'll see  
[4/5/2004 11:43:50 PM] <Investortrader> But anytime I see new high prices, without  
OBV confirming them ... I begin to worry  
[4/5/2004 11:44:48 PM] <Investortrader> Any questions on IMX?  
[4/5/2004 11:45:03 PM] <parkwaypet> ty IT  
[4/5/2004 11:45:10 PM] <Investortrader> Welcome parkwaypet :)  
[4/5/2004 11:45:34 PM] <Investortrader> I'd want to see another good vol upday  
tomorrow or I might thnk about snugging up stops  
[4/5/2004 11:45:38 PM] <streetwalker> IT; could u say that there's a negative  
divergence between OBV & price?  
[4/5/2004 11:45:48 PM] <Investortrader> Exactly streetwalker  
[4/5/2004 11:46:32 PM] <Investortrader> Anytime I see an OBV divergence, I want it  
to be on my side! So I worry if it isn't  
[4/5/2004 11:47:19 PM] <Investortrader> On to ECIL ...  
[4/5/2004 11:47:27 PM] <streetwalker> thanx for this session.. it was great....have to  
hit the sack...looking forward to future ones.  
[4/5/2004 11:47:36 PM] <Investortrader> Welcome streetwalker :)  
[4/5/2004 11:48:04 PM] <Investortrader> This one is trying to turn, had a good vol  
BO over the middle BB  
[4/5/2004 11:48:24 PM] <Investortrader> But OBV isn't the greatest on it  
[4/5/2004 11:48:51 PM] <Investortrader> And is still below it's middle BB  
[4/5/2004 11:49:26 PM] <Investortrader> I think there are better charts to trade  
[4/5/2004 11:50:07 PM] <enzo> IT have good night thanks again for your time see  
you ciao  
[4/5/2004 11:50:15 PM] <Investortrader> It feels like it needs a bit more work here

## ClubHome

with the OBV lagging and making a new low even though price didn't at the end of March

[4/5/2004 11:50:22 PM] <Investortrader> Welcome enzo :)

[4/5/2004 11:50:31 PM] <drnpsharma> IT.. great discussion, I just got on to it. Where can one find your watch list? thnx.

[4/5/2004 11:51:15 PM] <Investortrader> Thank you drnpsharma :) I haven't published a watchlist as it changes most every day

[4/5/2004 11:52:04 PM] <drnpsharma> IT.. in your charts are u looking at daily time frame for OBV ?

[4/5/2004 11:52:08 PM] <Investortrader> Any questions on ECIL?

[4/5/2004 11:52:37 PM] <Investortrader> Yes, I work mostly off the daily ... then do some off the 5 minute if looking for a good place to buy a pb

[4/5/2004 11:53:12 PM] <Investortrader> So if I like a stock that was up today, and expect it to pb in the morning, I'll check the 5's to look for support on it

[4/5/2004 11:53:50 PM] <Investortrader> On to IDEV ...

[4/5/2004 11:54:02 PM] <drnpsharma> Thanx.

[4/5/2004 11:54:27 PM] <Investortrader> Welcome drnpsharma :)

[4/5/2004 11:54:35 PM] <Investortrader> This one has a very nice positive OBV divergence

[4/5/2004 11:54:52 PM] <Investortrader> But even with that see how it's having trouble with the 50sma here

[4/5/2004 11:55:20 PM] <Investortrader> With this OBV I expect it to get thru that trouble .. but that shows how strong the 50sma can be

[4/5/2004 11:57:19 PM] <Investortrader> Around 6 has been good support last few days, with 5.80 just under that .. so if I were interested I'd look for around 6 with this OBV .. not sure I'd get that 5.80

[4/5/2004 11:57:37 PM] <gary12> ty IT

[4/5/2004 11:57:42 PM] <Investortrader> Welcome gary :)

[4/5/2004 11:58:03 PM] <Investortrader> I'd use a bit under the base low for my stop

[4/5/2004 11:58:31 PM] <Investortrader> Which was the 3/26 low of 5.74

[4/5/2004 11:59:01 PM] <bbmd> IT where do U see Divergence ? Thx.

[4/5/2004 11:59:08 PM] <Investortrader> It had a nice bullish engulfing on that day on increased vol, so if that were to be taken out by much .. I would be taken out too

[4/5/2004 11:59:57 PM] <Investortrader> bbmd, compare the OBV on the 3/1 low to where it was on it's 3/24 low

[4/6/2004 12:00:46 AM] <Investortrader> While price was moving sideways during that base, the OBV was rising
