[12/16/2003 12:00:20 AM] [Stixman] Elliottswave.com
[12/16/2003 12:00:26 AM] [TrillionDolarMan] Great self-help organiazation.
[12/16/2003 12:00:28 AM] [Investortrader] "doesn't make you much of a profit" ...
pretty good reason right there not to use it ;)
[12/16/2003 12:00:55 AM] [TrillionDolarMan] "Other than that Mrs., Lincoln, how did
you like the play?"
[12/16/2003 12:00:56 AM] [MaGo] Is anyone using CyberTrader API?
[12/16/2003 12:01:02 AM] [Investortrader] LOL
[12/16/2003 12:03:10 AM] [Investortrader] If there's no more chart requests I'm going
to call it a night ...
[12/16/2003 12:03:12 AM] [Stixman] .
[12/16/2003 12:03:21 AM] [acmetrader] sox--x
[12/16/2003 12:03:37 AM] [Intuitive] thx IT - gn
[12/16/2003 12:03:57 AM] [Investortrader] Quick look at sox .. I generally don't look at
indexes that much since I don't trade them
[12/16/2003 12:04:09 AM] [Stixman] Thx IT! Very informative. Now if I can only do it!
[12/16/2003 12:04:17 AM] [acmetrader] ok..SMH
[12/16/2003 12:04:20 AM] [Investortrader] One reason I don't look at indexes is
because I can't use OBV!
[12/16/2003 12:04:42 AM] [bmweyrauch] Investortrader - thanks for your time...
help...and insights.
[12/16/2003 12:05:56 AM] [Investortrader] Welcome all, sox looks lower here from the
chart, but OBV is such a big part of my work, I wouldn't trust my analysis on an index
[12/16/2003 12:06:11 AM] [acmetrader] use SMH instead of sox
[12/16/2003 12:06:35 AM] [Investortrader] Ok, SMH, last one
[12/16/2003 12:07:03 AM] [acmetrader] in a word.... fugly
[12/16/2003 12:07:17 AM] [Investortrader] I'll be here most every night if I can, so
keep those symbols coming every day :) and I'll go over all my trades to to help in
what I am looking at
[12/16/2003 12:07:44 AM] [Investortrader] SMH, lower OBV on the early dec high
than in nov

ClubHome

[12/16/2003 12:07:57 AM] [TrillionDolarMan] short SMH here..wish I'd plunged.
[12/16/2003 12:08:16 AM] [TrillionDolarMan] My greatest dream in life is to violate my money management rules like Jesse did...
[12/16/2003 12:08:20 AM] [Investortrader] 39.20 or so may be support and set up a divergence within the Bolinger Bands
[12/16/2003 12:08:27 AM] [Investortrader] We'll see when we get there
[12/16/2003 12:08:36 AM] [Investortrader] But it looks lower from here to me for now
[12/16/2003 12:08:55 AM] [TrillionDolarMan] "Damn the torpedos, put on 200%..."
[12/16/2003 12:08:58 AM] [acmetrader] I see OBV crossed the 6ma on SMH
[12/16/2003 12:10:02 AM] [TrillionDolarMan] I only grabbed SMH becuae I did not have time to find one semi to trade...."when in doubt, grab the ETF", they say... Sort of the difference between hunting with a rifle, or a shotgun...
[12/16/2003 12:10:08 AM] [Investortrader] I only use 20sma and 50sma in my work
[12/16/2003 12:10:20 AM] [acmetrader] thanks
[12/16/2003 12:10:26 AM] [Investortrader] And 20 because that's what bollinger bands are off of
[12/16/2003 12:11:02 AM] [acmetrader] if today had held the pop, charts would look entirely diffrent
[12/16/2003 12:11:09 AM] [acmetrader] this was a turning point day, imho
[12/16/2003 12:11:20 AM] [Investortrader] Yup, I thought we'd have some ugly looking charts tonight lol
[12/16/2003 12:11:54 AM] [acmetrader] man are they ugly...except for utilities and foreign exchanges
[12/16/2003 12:12:11 AM] [acmetrader] see some things might have some support at 50dma's
[12/16/2003 12:12:24 AM] [acmetrader] but wow...what a fake out this am
[12/16/2003 12:12:40 AM] [acmetrader] wonder if triple witching games will help
[12/16/2003 12:13:59 AM] [acmetrader] good luck to everyone tomorrow
[12/16/2003 12:14:04 AM] [Investortrader] triple witching is a lot more toned down than it used to be, now that they've changed some of the expirys to earlier
[12/16/2003 12:17:27 AM] [Investortrader] Time for a little sleep, 5:30 comes early here :)
[12/16/2003 12:17:39 AM] [Investortrader] And I can't run on 4 hours like Hotto!

[12/16/2003 11:37:30 AM] [malealltrash] cash is king in this mkt imho

[12/16/2003 11:37:50 AM] [tinaSDtrader] boss - this is why it pays to have picked your sell stop in advance. Usually I'd pick the most recent bottom, on WITS that is the low of 12/12. However, it pays to plug that figure in before buying and see what you'd end up giving up if it hit the stop.

[12/16/2003 11:38:24 AM] [kmgreen] jspr, Hotto said a couple of days ago that this is NOT the solitary walk

[12/16/2003 11:38:25 AM] [malealltrash] Tina are u recommending plug ? lol

[12/16/2003 11:38:30 AM] [hotto] MNDO.. yep.. the real thing.. Rally started backwards.. last 2 weeks..

[12/16/2003 11:39:22 AM] [hotto] Solitary Walk.. yetp.. the real thing.. imo.. Rally started backwards last 2 weeks..

[12/16/2003 11:39:53 AM] [tinaSDtrader] I'm making no recommendations - just suggsting you use your head and know what you'll need to hold through if a stock turns down.

[12/16/2003 11:40:10 AM] [ken2k] where is original reference to "solitary walk" ?

[12/16/2003 11:40:36 AM] [tinaSDtrader] If you can't stand to hold thru a stocks' pullback to support, good to know that in advance, before taking trade. As I've said before - know thyself and your risk tolerance.

[12/16/2003 11:50:59 AM] [swan] DIA testing HOD...are you still short it, Hotto?
[12/16/2003 11:51:25 AM] [tinaSDtrader] yeah - many not having fun watching their accounts go down. I'm mostly cash right now, stepped aside while this shakes out. Taking some much needed down time.
[12/16/2003 11:52:07 AM] [rsi77] well, ADCT moving higher
[12/16/2003 11:52:32 AM] [Investortrader] That's never fun tina ... same here mostly cash, now almost all cash ... even so not a good day here =o
[12/16/2003 11:53:30 AM] [malealltrash] cash here also
[12/16/2003 11:54:21 AM] [malealltrash] in many cases was stopped out but don't care they much lower now
[12/16/2003 11:54:24 AM] [Harley] I need some cash think Ill mugg someone
[12/16/2003 11:54:24 AM] [Nomeite] #3 son just asked how I was doing, he didn't expect me to break down and cry :D
[12/16/2003 11:54:32 AM] [tinaSDtrader] I think a few things near end of year - 1) tax selling as hotto has mentioned sev times; 2) profit taking after a good year; 3) many stepping aside to protect their ROI for the year; 4) Clearly some rotation out of COMPQX as evidenced by the continued divergence between COMPQX and DJ-30.

[12/16/2003 11:55:21 AM] [nycBeBop] Tina, did you sell into the gap up yesterday AM or were you mostly cash before yesterday?

[12/16/2003 11:58:05 AM] [tinaSDtrader] nyc - I was fairly heavy cash already before yest. gap up. Knew by the huge up in futures we'd get a big gap up. But if followed as many of those gaps up have, just turns around and fills it. That was the case yesterday. Sold some stuff pre-mkt, some at gap up. Have just a couple longs left and they are holding up so far. Will sell them if hit stop levels.

[12/16/2003 11:58:17 AM] [TraderDad] .

[12/16/2003 11:58:34 AM] [Uncstrat] I just looked up CYD. Didn't know the stock. My yohoo page has no balance sheet info for this co.

[12/16/2003 11:58:51 AM] [tinaSDtrader] I needed some down time, and holidays off, so started backing out some stuff and slowed down the day trading for a few weeks.

[12/16/2003 11:59:09 AM] [tinaSDtrader] Even traders need time off!!

[12/16/2003 12:00:07 PM] [hotto] Air pockets everywhere.. I am just reducing posns now.

[12/16/2003 12:00:10 PM] [Cobratrader] 1396 1709 2137

[12/16/2003 12:00:15 PM] [Investortrader] I may need some time off after today lol

[12/16/2003 12:01:04 PM] [malealltrash] after today u may not be able to afford time off LOL

[12/16/2003 12:01:14 PM] [tinaSDtrader] Dec. has been a strange month. Some really good set-ups just failing, figure attributed at least partially to the things I mentioned above.

[12/16/2003 12:01:18 PM] [malealltrash] but good luck short or long

[12/16/2003 12:01:20 PM] [Investortrader] *Chuckles*

[12/16/2003 12:01:39 PM] [Mickaz] Thanks, Cobra

[12/16/2003 12:01:47 PM] [tinaSDtrader] I'm one of those in the "protect my ROI camp." Had a good year and don't intend to give it back.

[12/16/2003 12:02:24 PM] [Difed] Smart girl tina!

[12/16/2003 12:02:28 PM] [tinaSDtrader] So will just trade conservatively and smart and enjoy some down time.

[12/16/2003 12:02:28 PM] [malealltrash] agree Tina I belong to the PYA and CUA clubs and have been in them for years and yers

[12/16/2003 12:03:04 PM] [hotto] just like last December.. and the one before that.. Last week.. was stronger than expected... followed by weaker than expected... then... air pockets... Supports don't work.. I am down to just a few posns.. now.. fewer later.

[12/16/2003 12:03:38 PM] [Investortrader] I'm pretty ruthless about cutting losses here, got blindsided a bit on MNDO and now WITS, oh well, such is a traders life
[12/16/2003 12:04:19 PM] [malealltrash] not trading @ all here time just not right imho

[12/16/2003 12:04:25 PM] [tinaSDtrader] me too hotto - have noticed supports not holding well this month, and set-ups failing more than usual.
[12/16/2003 12:04:56 PM] [hotto] MNDO.. me too... Out now.. broke LR30.. and yesterday's LOD... try again.. later...
[12/16/2003 12:04:59 PM] [Uncstrat] Have you ever considered the longer-term? Life is easier!
[12/16/2003 12:05:05 PM] [malealltrash] and all these years I thought it was in the stars.....and it was in the charts instead
[12/16/2003 12:05:06 PM] [hotto] Weeks later..
[12/16/2003 12:05:35 PM] [tinaSDtrader] yes, am shifting more to swing trades than day trades, that is longer term for me!!!
[12/16/2003 12:05:40 PM] [hotto] I have several Long-term posns... Those are ok...
[12/16/2003 12:06:14 PM] [hotto] I mean.. 3 - 9 months.. LT
[12/16/2003 12:06:29 PM] [tinaSDtrader] kidding aside - I do hold some trades longer term, but that's usually weeks versus months for me.
[12/16/2003 12:06:30 PM] [BossFan] I'm out of ITIG @4.74
[12/16/2003 12:06:35 PM] [malealltrash] 3 to 9 those are swing trades lol
[12/16/2003 12:06:40 PM] [Investortrader] I allocate about 10-20% to longer term holdings ... but have none now
[12/16/2003 12:06:44 PM] [Uncstrat] Care to give me a couple of long-term positions?
[12/16/2003 12:06:48 PM] [BoBoTrader] Hotto Are you holding MDNO long?
[12/16/2003 12:06:52 PM] [tinaSDtrader] may eventually get to holding for months versus weeks - especially in my retirement accts.
[12/16/2003 12:07:16 PM] [hotto] Last 2 years.. The stuff I bot last trading day of the year.. All worked out..
[12/16/2003 12:07:17 PM] [Investortrader] BoBo, he just said he got out as it broke LR30 and yesterdays lod

[12/16/2003 12:08:28 PM] [swan] Hotto, so on MNDO, it's not just about "saying OBV"?

[12/16/2003 12:09:01 PM] [hotto] OBV is not a buy signal.. in my rules....

[12/16/2003 12:09:02 PM] [malealltrash] yes some of the Dec bargains.....out of reach in January

[12/16/2003 12:09:32 PM] [tinaSDtrader] agree hotto - indicators are not buy signals to me, they are set-ups. Price is my buy signal.

[12/16/2003 12:09:39 PM] [hotto] yes

[12/16/2003 12:09:56 PM] [Investortrader] OBV is a tool to use, not the be all and end all

[12/16/2003 12:09:57 PM] [tinaSDtrader] important to learn the diff. between set-up and entry.

[12/16/2003 12:10:09 PM] [Cobratrader] sina breaking down

[12/16/2003 12:10:13 PM] [Investortrader] Even though I use it heavily :)

[12/16/2003 12:10:14 PM] [swan] same. with AVII, the king of lying OBV

[12/16/2003 12:10:20 PM] [hotto] I just usually require OBV.. helps my % ... but... now.. Nothing is working.. for me.. anyway

[12/16/2003 12:10:21 PM] [malealltrash] it's a sina the times

[12/16/2003 12:10:33 PM] [pope39c] No stock at Ameritrade to short FARO

[12/16/2003 12:10:56 PM] [tinaSDtrader] it's great to have favorite (tested) indicators and patterns, but they are just set-ups until price confirms the move.

[12/16/2003 12:11:13 PM] [hotto] and... a Break of Yesterday's LOD and LR30.. is almost always enough for me to sell.

[12/16/2003 12:11:45 PM] [Investortrader] Quick to take losses, live to fight another day!

[12/16/2003 12:11:49 PM] [tinaSDtrader] seems if lows going lower the stock is in a pullback, correction or even reversal

[12/16/2003 12:12:34 PM] [TraderDad] HOMS new HOD

[12/16/2003 12:13:00 PM] [hotto] yeah... OBV may continue to show accum.. over next 2 weeks.. then.. if I get another Price buy-sig.. I will go long again.. But for now.. Out.

[12/16/2003 12:13:22 PM] [tinaSDtrader] yes investor - fine line to it - I don't like to throw towel in too soon as I often get my money back; however, if my stop levels are broken I don't fight I sell.

[12/16/2003 12:13:49 PM] [malealltrash] well have great day all packing it inno sense siting here also, many who have margin will be forced to sell in the next few days so mkt going to go lower imho

[12/16/2003 12:14:12 PM] [tinaSDtrader] :D

[12/16/2003 12:15:19 PM] [Investortrader] Sometimes I'll get a good "feel" for a stock and sell before stop is hit ... warning ... that is for experienced traders only!

[12/16/2003 12:15:47 PM] [Quintus] i think HOMS has a great mkt opportunity in next few years.. as people Finally reject the standard 6% real estate commission on ordinary transactions -- i see more & more "FSBO" signs here in Lexington KY every day -- HOMS is leader to become Ebay of that market, IMHO

[12/16/2003 12:16:18 PM] [Investortrader] But I'm an old time tape-reader too :)

[12/16/2003 12:16:21 PM] [tinaSDtrader] yes - there are times I sell before stops hit too. That's just my "worst case" scenario. Often a trade just languishing and tying up my capital, won't hang around. Or market doing things like this month, and just take profits as they come.

[12/16/2003 12:16:58 PM] [tinaSDtrader] If the reason I'm in the trade goes away, I don't see the point of letting it drop all the way to my stop in other words.

[12/16/2003 12:17:10 PM] [malealltrash] always nice to get a good feel on a stock otherwise u can get a good screw from it ...and thanks for the last comment I am going to stay homs for the rest of day bye

[12/16/2003 12:18:55 PM] [Quintus] CRDN -- finally

[12/16/2003 12:19:00 PM] [tinaSDtrader] yeah - when I say I fight for my money, it's when I still want the trade but it's temporarily going against me. Then I hold to get it back or til stop hit. But many times choose to exit a trade when the set-up I bot on changes.

[12/16/2003 12:59:15 PM] [Investortrader] New high was confirmed by OBV (remember however tina pointed out chart set-ups aren't working as well at this time)
[12/16/2003 12:59:52 PM] [Investortrader] Around 66 looks to be good support

[12/16/2003 1:05:23 PM] [Investortrader] My sore spots today! lol MNDO ...
[12/16/2003 1:05:34 PM] [rsi77] I held my wits today...
[12/16/2003 1:05:36 PM] [cork1] out of MNDO
[12/16/2003 1:05:48 PM] [rsi77] but I dumped MNDO earlier
[12/16/2003 1:05:56 PM] [montanatom] lost my wits today...
[12/16/2003 1:06:39 PM] [Investortrader] I sold MNDO earlier at 5.14, felt heavy with that big seller
[12/16/2003 1:07:26 PM] [rsi77] did that big seller ever sell?
[12/16/2003 1:07:27 PM] [Investortrader] Some volume today in the sell-off and yesterday is now looking like this may be in Hotto's ABC pattern now
[12/16/2003 1:08:03 PM] [Investortrader] He was being taken out rsi on the ask, as soon as someone bought he put up another 5000 or more to sell
[12/16/2003 1:08:24 PM] [Investortrader] I haven't really watched it since I sold so don't know if he is still doing that

[12/16/2003 1:10:11 PM] [Investortrader] On the 5's the 20-sma seems to be holding it back
[12/16/2003 1:10:14 PM] [rsi77] WITS stil looks nice to me....not so many willing to sell on the pullback
[12/16/2003 1:11:21 PM] [Investortrader] Almost down up to that here america, decided to hold the VRSO I bought but cancelled the rest of my buy on it, only got about a 30% fill
[12/16/2003 1:11:33 PM] [Investortrader] Almost up to that, not down to 100% lol
[12/16/2003 1:12:02 PM] [rsi77] I'm long TGA, ADCT, PETD & WITS

[12/16/2003 1:16:09 PM] [rsi77] Yes, that trendline held

[12/16/2003 1:16:55 PM] [Investortrader] Good observation lofty, also the 20sma was there and the lows the past weeks

[12/16/2003 1:17:25 PM] [Investortrader] Hmmmm, not up very much from where I sold ... get back in?

[12/16/2003 1:23:08 PM] [rsi77] WITS really coming back nicely...the chart support over-ruled the MA's, but it was a different story with PETD

[12/16/2003 1:24:07 PM] [tuckams] ref. WITS. when a stock breaks out of a triangle like the one on wits and returns inside the triangle, does that nullify the setup of can you still buy on a breakout above the upper line if you have good volume?

[12/16/2003 1:24:18 PM] [Investortrader] Not much volume today in it, and since I don't like re-buying same day I sell in the heat of battle, I'll have to pass on it

[12/16/2003 1:24:41 PM] [Investortrader] Make a more determined and less emotional decision tonight, or just move on to another stock

[12/16/2003 1:25:13 PM] [Investortrader] Good volume always counts for something tuckams, but it's not there today

[12/16/2003 8:01:46 PM] [TraderJoe] I was just checking a purchasce price for CELL on 7/23. My purchase price was 19.80...price shown on TCNet for that date is 8.38???

[12/16/2003 8:04:37 PM] [AllWeOwn] there were two; other was 10/16; both 3/2

[12/16/2003 8:06:16 PM] [Cgc] Select 'tools' - 'unadjusted for splits' gives the old price

[12/16/2003 8:07:15 PM] [TraderJoe] Thanks Cgc that did it.

[12/16/2003 8:11:14 PM] [Investortrader] And I don't see it in the note section on the left either, I used ITIG
