 [4/8/2004 12:01:16 AM] <croy> Have a lokk at GNLB .....  
 [4/8/2004 12:01:31 AM] <croy> daily over two month ....  
 [4/8/2004 12:01:47 AM] <croy> We are at the top again but the OBV is lower  
 [4/8/2004 12:01:47 AM] <Investortrader> I'll get to it eventually ... got 4 ahead of you now  
 [4/8/2004 12:01:54 AM] <croy> OK  
 [4/8/2004 12:02:47 AM] <Investortrader> GILTF see how the OBV broke out nicely before the price BO on 3/17  
 [4/8/2004 12:03:08 AM] <Investortrader> By 3/17 OBV was already flying, pointing the way  
 [4/8/2004 12:03:35 AM] <Investortrader> Since then it's been in a lower vol consolidation  
 [4/8/2004 12:03:39 AM] <erisalaw> GN all. I intended to go to bed 2 hours ago Time flies when you are having fun etc.  
 [4/8/2004 12:03:49 AM] <Investortrader> Night erislaw :)  
 [4/8/2004 12:04:14 AM] <Investortrader> Until yesterday when it scouted out new highs on higher vol  
 [4/8/2004 12:04:56 AM] <Investortrader> So it looks good here still  
 [4/8/2004 12:05:54 AM] <Investortrader> Any questions on GILTF?  
 [4/8/2004 12:06:02 AM] <caldoc> Thx IT. Really appreciate your expertise and generosity. GN  
 [4/8/2004 12:06:09 AM] <Investortrader> Welcome caldoc :)  
 [4/8/2004 12:06:27 AM] <Investortrader> On to QUIN ...  
 [4/8/2004 12:06:51 AM] <Investortrader> The mighty quin! I'm sure some of you remember that song :)  
 [4/8/2004 12:07:14 AM] <Nipsy331> everybody's gonna jump for joy!  
 [4/8/2004 12:07:21 AM] <Investortrader> Hehehe  
 [4/8/2004 12:07:42 AM] <Investortrader> This one is riding the upper BB  
 [4/8/2004 12:08:02 AM] <Investortrader> Broke out on some good vol on 3/26  
 [4/8/2004 12:08:17 AM] <Investortrader> Ran a few days, then consolidated a bit  
 [4/8/2004 12:08:42 AM] <Investortrader> Remember my rule on riding the upper BB, those out of contact days have to start getting worried the third day  
 [4/8/2004 12:09:04 AM] <Investortrader> It was out of contact 4/2, 4/5, and 4/6, so today was very important for it  
 [4/8/2004 12:09:23 AM] <AtlantaRob> Wow this one really stuck to that LR30! I'm gonna have to start using that  
 [4/8/2004 12:09:42 AM] <Investortrader> As I've said before, it needs that high vol upday to get back to the upper BB by the 4th day or else, so it got rescued today just in time  
 [4/8/2004 12:09:54 AM] <Investortrader> It is a good indicator Rob!  
 [4/8/2004 12:10:18 AM] <Investortrader> Could have been used for your buy placement any of those consolidation days  
 [4/8/2004 12:10:53 AM] <Investortrader> So we have new highs, OBV confirming, riding the upper BB still  
 [4/8/2004 12:11:18 AM] <Investortrader> I wouldn't be selling it here yet  
 [4/8/2004 12:11:37 AM] <Investortrader> That's always the big questions, when to

## ClubHome

sell a stock taking off

[4/8/2004 12:11:49 AM] <RkyMtnFool> I got a question -- Manfred Mann?

[4/8/2004 12:11:58 AM] <Investortrader> Blinded by the Light!

[4/8/2004 12:12:05 AM] <Nipsy331> Or, if you've just discovered it, whether or not to chase it. that's my problem

[4/8/2004 12:12:36 AM] <Investortrader> Don't chase, look for safe consolidation entry points like we just had ,, for the future

[4/8/2004 12:12:38 AM] <daniel329> same problem here.. when to chase or not a moving stock...

[4/8/2004 12:13:21 AM] <Investortrader> you'll get these few day rests in moving stocks a lot, use them for buying

[4/8/2004 12:13:59 AM] <daniel329> look at QUIN on intraday timeframe 10/15 mins.. talk about volatiitiy..

[4/8/2004 12:14:37 AM] <DMut> low Vol

[4/8/2004 12:15:10 AM] <Investortrader> vol is picking up here on this move

[4/8/2004 12:15:40 AM] <Investortrader> Should be ok

[4/8/2004 12:15:42 AM] <Nipsy331> IT, how would you have read this most recent pullback? I'm always afraid that it's going to keep falling.

[4/8/2004 12:15:49 AM] <Investortrader> Though some want more vol than I look for

[4/8/2004 12:16:29 AM] <Investortrader> Nipsy, I give it 3 days out of contact with the upper BB while it's in the riding mode usually

[4/8/2004 12:16:49 AM] <Investortrader> Sometimes there will be signals that will get me out before that

[4/8/2004 12:17:09 AM] <Investortrader> So I wouldn't have been worried

[4/8/2004 12:17:25 AM] <Investortrader> Especially when I saw it didn't pb much and the LR30 was holding every day

[4/8/2004 12:17:47 AM] <Nipsy331> but here, on the pb, looking for an entry point...I suppose we look to the LR30 support as a possible buy in point?

[4/8/2004 12:17:51 AM] <Investortrader> If you got nervous could have used just under the LR30 as a stop .. and still be in it

[4/8/2004 12:17:57 AM] <Investortrader> Right

[4/8/2004 12:18:40 AM] <Investortrader> After seeing that hold a couple of days, you could have probed that area with a buy order the next day

[4/8/2004 12:18:59 AM] <Nipsy331> Yes, I think Im' getting it.

[4/8/2004 12:19:24 AM] <AtlantaRob> IT what % return do you usually make per year on your trading? Must be good if you catch stocks like this all the time

[4/8/2004 12:19:41 AM] <Investortrader> Read the in-depth ITIG discussion mentioned earlier, it covers a nice upper BB ride and how I looked at it during the ride (I had bought the BO and was on the ride)

[4/8/2004 12:20:05 AM] <Nipsy331> Ty, IT, I'll look for it.

[4/8/2004 12:20:06 AM] <Investortrader> It varies Rob, plus I'm constantly pulling money out to live on

[4/8/2004 12:21:08 AM] <AtlantaRob> How big an account do you think a person needs to live on? Just to give me an idea of where I need to be, sorry that I am digressing from the analysis

[4/8/2004 12:21:38 AM] <Investortrader> Depends on your expenses, got a wife? 3 kids in college? Live in a cardboard box? lol

[4/8/2004 12:21:46 AM] <parkwaypet> Good question A Rob

[4/8/2004 12:22:04 AM] <AtlantaRob> live in a box yes, no wife, low expenses

[4/8/2004 12:22:12 AM] <Nipsy331> I hope the box has DSL:D

[4/8/2004 12:22:17 AM] <daniel329> how many trades u have ongoing at same time.. and how u manage them?

[4/8/2004 12:23:00 AM] <Investortrader> On to MSPD ... (Will intersperse the other answers)

[4/8/2004 12:23:24 AM] <Investortrader> I don't have many positions on at once, but

## ClubHome

I put on a larger % for each position

[4/8/2004 12:23:30 AM] <cobralso> My box has a phone line :8  
[4/8/2004 12:23:40 AM] <Investortrader> This one looks nice ... OBV climbing nicely  
[4/8/2004 12:23:54 AM] <Investortrader> With a higer vol BO today  
[4/8/2004 12:24:08 AM] <Investortrader> Looks like it wants the 50sma  
[4/8/2004 12:24:35 AM] <Investortrader> then we'll see how it reacts there  
[4/8/2004 12:24:40 AM] <parkwaypet> Look aqt the late trading got my attention  
[4/8/2004 12:24:48 AM] <Investortrader> OBV is already over it's 50sma  
[4/8/2004 12:25:21 AM] <Investortrader> It did pick up nicely the last hour  
[4/8/2004 12:25:51 AM] <Investortrader> I like the chart  
[4/8/2004 12:26:43 AM] <Investortrader> Any questions on MSPD?  
[4/8/2004 12:26:55 AM] <parkwaypet> ty IT  
[4/8/2004 12:27:31 AM] <Nipsy331> Do you work with targets, IT?  
[4/8/2004 12:27:40 AM] <Investortrader> Welcome parkwaypet :)  
[4/8/2004 12:27:49 AM] <Investortrader> Yes Nipsy  
[4/8/2004 12:28:13 AM] <Investortrader> I usually sell the 50sma on first approach  
as a target in general  
[4/8/2004 12:28:22 AM] <bbmd> IT this looks like a harmonic pattern,possibly bl  
crab,with PRZ at recent low,should reach over 10 easily.Thx.  
[4/8/2004 12:28:24 AM] <Investortrader> And look for chart points too  
[4/8/2004 12:28:25 AM] <Nipsy331> I'm reading the hotto paper on them now. More  
questions later.B)  
[4/8/2004 12:28:46 AM] <Investortrader> Welcome bbmd :)  
[4/8/2004 12:28:53 AM] <Investortrader> On to NTGR ...  
[4/8/2004 12:29:05 AM] <Investortrader> This one looks good too  
[4/8/2004 12:29:07 AM] <Nipsy331> Chart points I'm beginning to see. It's heeding  
them that I need to discipline myself to d:8  
[4/8/2004 12:29:18 AM] <Investortrader> OBV making new highs confirming the BO  
[4/8/2004 12:29:36 AM] <Investortrader> That will happen Nipsy the more you see  
how well they work  
[4/8/2004 12:29:54 AM] <Investortrader> Then when you start using them  
successfully, mucho positive reinforcement  
[4/8/2004 12:30:29 AM] <Investortrader> Notice here on this chart ... it ran right up  
close to the 50sma and pulled back a bit  
[4/8/2004 12:31:01 AM] <Nipsy331> I'm beginning to see just a little bit of that now in  
my trading. Better than Prozac!:D  
[4/8/2004 12:31:12 AM] <Investortrader> That's one reason I like to sell the 50sma  
on first approach  
[4/8/2004 12:31:20 AM] <Investortrader> Hehehe  
[4/8/2004 12:31:43 AM] <Investortrader> At least sell it for scalping, not always sell it  
for good  
[4/8/2004 12:31:56 AM] <daniel329> on another subject... what made u decide to to  
trade stocks and not the futures anymore? am curious to hear your story (if its ok to  
share)...  
[4/8/2004 12:32:05 AM] <Nipsy331> sell as it approaches on the upswing?  
[4/8/2004 12:32:23 AM] <Investortrader> Futures, big reward, big risk  
[4/8/2004 12:32:49 AM] <Investortrader> Right Nipsy  
[4/8/2004 12:33:34 AM] <Investortrader> It may not stop it here for long, with this  
OBV and having just broken out of it's base  
[4/8/2004 12:33:36 AM] <Nipsy331> ty  
[4/8/2004 12:34:02 AM] <Investortrader> If I had owned it, and sold it today ... I'd be  
looking to get back in if I hadn't already  
[4/8/2004 12:34:03 AM] <daniel329> a good entry for ntgr would been on 04/01 right  
after the obv spike?  
[4/8/2004 12:34:28 AM] <AtlantaRob> So, would you say you should have been

watching for a BO after the OBV broke the 50?

[4/8/2004 12:34:52 AM] <Investortrader> 3/31, 4/1, 4/2 .. or wait for the BO on 4/5

[4/8/2004 12:34:52 AM] <AtlantaRob> same question :)

[4/8/2004 12:35:13 AM] <Investortrader> Exactly, that's what I'm doing on MAPX

[4/8/2004 12:35:21 AM] <Investortrader> Watching for a BO to buy

[4/8/2004 12:35:28 AM] <Investortrader> Because of the great OBV

[4/8/2004 12:35:40 AM] <Nipsy331> I saw this one on 3/31, doji day on high volume, seemed to potend the bottom and a change up. Didn't pull the trigger, though

[4/8/2004 12:36:10 AM] <Investortrader> doji's often signal trend reversals, good eye

[4/8/2004 12:36:36 AM] <Investortrader> Any questions on NTGR?

[4/8/2004 12:37:16 AM] <Investortrader> On to CBTE ...

[4/8/2004 12:37:16 AM] <AtlantaRob> Have you ever noticed that if the OBV breaks out, say above the 50 that you should be prepared of a price BO?

[4/8/2004 12:37:54 AM] <Investortrader> Rob, if there is positive OBV divergence that's always a good sign, but waiting for the BO is prudent

[4/8/2004 12:39:08 AM] <Investortrader> This one was pretty much volume-less before the big BO

[4/8/2004 12:39:46 AM] <Investortrader> And that BO got met with huge selling the next day

[4/8/2004 12:39:56 AM] <Investortrader> Which killed the OBV

[4/8/2004 12:40:36 AM] <Investortrader> But that has to be discounted a little because of the prior very low to no vol in it

[4/8/2004 12:42:12 AM] <TCNut> noticed this on the sidelines for a couple weeks now....looks like a fun....hope to join you fellas soon;)

[4/8/2004 12:42:32 AM] <Investortrader> Hi TCNut, will be glad to have you :)

[4/8/2004 12:43:01 AM] <Investortrader> So looking from those two big vol days forward, it had a pretty orderly pb

[4/8/2004 12:43:15 AM] <Investortrader> Pretty deep but orderly

[4/8/2004 12:44:02 AM] <Investortrader> Based there for a couple of weeks (another reason I don't trade that type of pattern at first and wait for the consolidation)

[4/8/2004 12:44:38 AM] <Investortrader> Sometimes that pattern will continue higher, many times it goes something like this instead

[4/8/2004 12:45:01 AM] <Investortrader> So this one based until the middle BB caught up with it

[4/8/2004 12:45:04 AM] <TCNut> Ever see a chart monkey swinging around on the trees in the eves around here?

[4/8/2004 12:45:27 AM] <Investortrader> Through most of March, then BO over that base on good vol again

[4/8/2004 12:45:40 AM] <Investortrader> Here it looks to be consolidating on lower vol once more

[4/8/2004 12:46:22 AM] <Investortrader> With the OBV slowly rising, and the low vol consolidations, it looks ok here

[4/8/2004 12:46:49 AM] <Investortrader> I wouldn't want to see it break the support of this new base

[4/8/2004 12:47:04 AM] <Investortrader> And you all know what I would do if support breaks

[4/8/2004 12:47:16 AM] <Nipsy331> no, and already below LR30...

[4/8/2004 12:48:12 AM] <Investortrader> This one the LR30 doesn't seem as important ... but if the base fails I would be out ... could look to get back in around the middle BB if that happens, depends on the vol

[4/8/2004 12:48:43 AM] <Investortrader> Any questions on CBTE?

[4/8/2004 12:49:44 AM] <Investortrader> With it having been traded in the 3's, then running up over 12 in two days ... the pb could be expected there, that was a big move

[4/8/2004 12:50:00 AM] <Investortrader> On to GNLB ...

## ClubHome

[4/8/2004 12:50:03 AM] <bravotrader> People do you sleep? Need rest for trading tomorrow :8  
[4/8/2004 12:50:14 AM] <Investortrader> Sleep is for the weak ;)  
[4/8/2004 12:50:29 AM] <bravotrader> =D  
[4/8/2004 12:50:30 AM] <Nipsy331> I am strong =D  
[4/8/2004 12:50:42 AM] <Noname> :o  
[4/8/2004 12:50:52 AM] <IncaKid> The sun just went down  
[4/8/2004 12:51:00 AM] <Investortrader> Another one riding the upper BB  
[4/8/2004 12:51:42 AM] <Investortrader> See how yesterday it pulled back right near the LR30 on low vol, before BO again today on good vol  
[4/8/2004 12:52:18 AM] <Investortrader> OBV is confirming the whole move so far  
[4/8/2004 12:52:47 AM] <croy> IT ... My question was are the 2 tops too far away from each other to concluyde that the OBV in feb is not matched by OBV now ?  
[4/8/2004 12:53:00 AM] <daniel329> almost at 52wkHigh  
[4/8/2004 12:53:23 AM] <Investortrader> croy, it's not the distance in time, but the fact that it's in a new trend here  
[4/8/2004 12:54:01 AM] <Investortrader> We had a correction pb and base for a couple of months almost, now in another uptrend, the Feb high was the old uptrend  
[4/8/2004 12:54:07 AM] <croy> So OBV can hardly predict a 2-top ... it can only confirm that the up trend is valid  
[4/8/2004 12:54:30 AM] <Investortrader> Actually Jan high  
[4/8/2004 12:55:12 AM] <Investortrader> OBV is usually good at dbl tops and dbl btms for predicting  
[4/8/2004 12:55:41 AM] <croy> But here there is not enough of a neg breath div to predict ... the OBV could be fixed in just one day  
[4/8/2004 12:55:41 AM] <Investortrader> I point out all kinds of OBV divergences at tops and bottoms on lots of charts .. doesn't happen 100% but it happens a lot  
[4/8/2004 12:56:06 AM] <Investortrader> The OBV is fine here  
[4/8/2004 12:56:07 AM] <AtlantaRob> could you use MACD-H to confirm, or Stoc?  
[4/8/2004 12:56:44 AM] <croy> Atlanta in my trading I do use MACD Divergence but it is sloppy ... you need other confirm  
[4/8/2004 12:56:56 AM] <Investortrader> It doesn't matter to me that the OBV here is lower than the OBV was at the Jan high as it's a different trend, a different uptrend .. I compare OBV to itself within the same trend  
[4/8/2004 12:57:36 AM] <croy> Ok ... that make sense ... though one to master that OBV  
[4/8/2004 12:58:01 AM] <Investortrader> Rob, I have a faster MACD Histogram and use it differently, and also have a stochs template for candlestick scans  
[4/8/2004 12:58:34 AM] <AtlantaRob> yes I think you showed us that one last time I was here, I have your templates but I haven't used them much yet  
[4/8/2004 12:58:45 AM] <Investortrader> But this is the one I mainly use  
[4/8/2004 12:58:55 AM] <croy> IT can you briefly explain  
[4/8/2004 12:59:11 AM] <Investortrader> Explain ... what?  
[4/8/2004 12:59:18 AM] <AtlantaRob> ok, ty again IT, night all  
[4/8/2004 12:59:26 AM] <Investortrader> Welcome Rob :)  
[4/8/2004 1:00:12 AM] <croy> Actually just share that faster MACD chart i'll find my own answer  
[4/8/2004 1:00:16 AM] <Investortrader> I mainly trade price/vol patterns and chart points, using OBV heavily, with BB's on both price and OBV as you see  
[4/8/2004 1:00:45 AM] <croy> I can see  
[4/8/2004 1:01:02 AM] <Investortrader> There's the MACD Histogram I use  
[4/8/2004 1:01:25 AM] <croy> Interesting ... OK Thanks  
[4/8/2004 1:01:49 AM] <Investortrader> Welcome croy :) I don't pay attention to the zero line as the regular MACD studies do  
[4/8/2004 1:01:54 AM] <croy> IT ... Thanks for the class ... I better get some ZZZZ
