[12/4/2003 10:36:52 AM] [tinaSDtrader] TIWI - will probably pull back soon on 5s, thats why I mentioned it as a sell point for some, unless committed on the daily chart.

[12/4/2003 10:37:06 AM] [ProfitTrader] Hotto, get CC num changed..thats what I do when I see wrong charge...

[12/4/2003 10:37:09 AM] [TraderStar] I had to cancel a cc # used on Internet .. someone got hold of it...

[12/4/2003 10:37:15 AM] [tinaSDtrader] always exceptions, but they don't often just keep running like that without a breather.

[12/4/2003 10:38:27 AM] [TraderStar] ITIG cleared 5.55 :)

[12/4/2003 10:38:30 AM] [rickmrge] thats good

[12/4/2003 10:38:38 AM] [tinaSDtrader] TIWI - I don't buy in on a big swing up like it did on 5s, I wait for a pullback on that lower time frame for a better price. Rare they keep running without a pause or pullback.

[12/4/2003 10:38:44 AM] [oddsbettor] I'm sure there are more

[12/4/2003 10:39:02 AM] [jynkin] OIH making higher highs,...lower lows on the 5' chart .....push off ABC pullback pattern completion?

[12/4/2003 10:41:12 AM] [TraderStar] anyone going to re-enter NANO and if so at what price?

[12/4/2003 10:41:27 AM] [tinaSDtrader] Today had a small profit in MLNM took at pre-mkt, that \$ wipes out the small loss just took selling 1/3 TIWI. So flat for day. Fine with me.

[12/4/2003 10:41:30 AM] [johnport] Smitty - Penny advisor told all to sell and take profit - thus the drop IMO

[12/4/2003 10:42:19 AM] [Oregongeordie] Tina...love your limit order ideas - got out of PWAV with a 4% profit at "my price" Thank you

[12/4/2003 10:42:24 AM] [wildbill] tina -- truer words were never spoken-

[12/4/2003 10:42:40 AM] [tinaSDtrader] aren't those sell limits sweet!

[12/4/2003 10:43:04 AM] [tinaSDtrader] one of the best things I learned to do, I make more \$ now with them

[12/4/2003 10:43:23 AM] [wildbill] or in the words of tony oz -- sorry, but you can't have MY money:)

[12/4/2003 10:43:36 AM] [VJnet] :)

[12/4/2003 10:43:41 AM] [tinaSDtrader] TIWI starting a pullback on 5s

[12/4/2003 10:43:57 AM] [tinaSDtrader] I learned to fight for my money, Mark Cook teaches that too.

[12/4/2003 10:44:00 AM] [sggin1] tina, do you think wmt, if it continues down, will influence the markets? It broke 52.7

[12/4/2003 10:44:04 AM] [napleschip] wildbill.:)

[12/4/2003 10:44:35 AM] [TraderStar] I still don't understand the sell limits... why not just put a stop 5-10 cents under when your limit is reached, in case there is more upside? or are you talking about day scalps?

[12/4/2003 10:44:40 AM] [tinaSDtrader] I used to throw in towell to soon, panic sell, learned not to do that. Until my stop point hit, I hang on. But take opps to lighten if can.

[12/4/2003 10:44:48 AM] [Luigistock] 1319 1563

[12/4/2003 10:44:50 AM] [bearry] nice move NGEN

[12/4/2003 10:45:23 AM] [Investortrader] T-Star, sometimes it runs up and backs off from target too fast to get the sell-stop order in there

[12/4/2003 10:45:28 AM] [johnport] Tina - sell limits make up for times when they reach down and take a stop

[12/4/2003 10:45:39 AM] [tinaSDtrader] good point john!

[12/4/2003 10:45:46 AM] [jbrad] long NGEN 6.12

[12/4/2003 11:13:50 AM] [TPO63] Sure is a huge difference in the tick # I show + 180  
[12/4/2003 11:13:54 AM] [Gmb] Smitty, I get the math but wondered why the diff ??

[12/4/2003 11:15:08 AM] [rsi77] from Home Page go to "real-time market indices" and below the little charts that have advancing issues and declining issues for all three major indices

[12/4/2003 11:16:09 AM] [TraderStar] at the moment it is .67 .77 .87 .60 now .50 barely above zero in past few minutes .. but up from daily low of -20

[12/4/2003 11:19:46 AM] [rsi77] Yep, Scottrade is RT, and I think anyone can sign up for their rt quotes without having an account  
[12/4/2003 11:19:56 AM] [Smitty] RSI....a match?  
[12/4/2003 11:20:10 AM] [wildbill] SPY "could " give a BS spike to the 107.79 area- BS not in "glossary" but self explanatory imo-:)

[12/4/2003 11:23:38 AM] [tinaSDtrader] careful tight stops - if you want to remain IN a stock, must pay attn to how much room it needs for swings. I discussed this yest. in chat.  
[12/4/2003 11:23:41 AM] [Luigistock] dat waz fun  
[12/4/2003 11:23:44 AM] [rsi77] TIWI looks healthy to me....how did you stop out?  
[12/4/2003 11:24:11 AM] [rsi77] hey Luigi, it was....so are we in agreement or am I late?  
[12/4/2003 11:24:40 AM] [TraderStar] it dropped to 8.84, just below my entry, I'll keep watching, maybe get better entry price  
[12/4/2003 11:24:45 AM] [tinaSDtrader] TIWI runs 5-8% per day, a stop under 3-4% will likely get hit intraday  
[12/4/2003 11:24:47 AM] [Luigistock] close enough i think esig could be wrong 4 all i know  
[12/4/2003 11:25:08 AM] [rsi77] OK, good to know I have those available

[12/4/2003 11:25:42 AM] [tinaSDtrader] If using break even as stops, remember, that is an arbitrary #. Market doesn't care about arbitrary, it cares about support/resistance levels.

[12/4/2003 11:26:30 AM] [TraderStar] I use S/R or pivots usually, but cashed out some TIWI at a profit & set rest to just under breakeven as I don't want a further loss...

[12/4/2003 11:26:35 AM] [Trekker] Tina - finding the right stop price has been my weakness - very hard to master... always appreciate your insight.

[12/4/2003 11:27:00 AM] [tinaSDtrader] at least you have a strategy!

[12/4/2003 11:27:15 AM] [TraderStar] it's even lower now, I'll watch for a better re-entry if possible :)

[12/4/2003 11:27:18 AM] [Luigistock] skratagi ?

[12/4/2003 11:27:19 AM] [Icamani] Does anyone know if EAG has good guidance ??  
ty

[12/4/2003 11:27:31 AM] [tinaSDtrader] stops hard to master, but once you understand, things get better \$\$

[12/4/2003 11:27:34 AM] [TraderJoe] Tina, yesterday you mentioned putting chart scaling on logarithmic, which I have don (I had it on auto scaling). Everytime I reboot, the logarithmic is not checked. Am I missing something?

[12/4/2003 11:27:47 AM] [Sharon1555] APA continues uptrend

[12/4/2003 11:27:52 AM] [tinaSDtrader] no guarantee TIWI will go up, I just have to focus on my objective

[12/4/2003 11:29:52 AM] [Odyssey] TraderJoe--you need to save the template with the new scaling in the Chart Template pull down menu

[12/4/2003 11:30:01 AM] [greggster7] japa

[12/4/2003 11:30:14 AM] [greggster7] oops

[12/4/2003 11:30:45 AM] [Brooks5] Just below

[12/4/2003 11:31:30 AM] [johnport] TJ - try putting on log scale and then save chart

[12/4/2003 11:31:33 AM] [tinaSDtrader] TIWI - that's why I mentioned to those who want out, that run up on 5s from 10:15ish was a selling opp. For those holding, have to sit thru the swings.

[12/4/2003 11:34:39 AM] [TraderJoe] Thanks, Johnport....that works!

[12/4/2003 11:35:12 AM] [edberg] ..

[12/4/2003 11:37:02 AM] [SloTrader] TIWI, daily chartsooks great, on the next up leg I will be adding to my position

[12/4/2003 11:48:47 AM] [Smitty] AVNX showing a little life

[12/4/2003 11:49:02 AM] [rockin] QCOM - starting next 5' leg up

[12/4/2003 11:49:40 AM] [tinaSDtrader] QCOM bullish kicker, at an important ceiling on daily now.

[12/4/2003 11:49:59 AM] [tinaSDtrader] needs to clear 48.68

[12/4/2003 11:51:38 AM] [rockin] QCOM - COMTEX reporting that it has already traded @ 49 - that's odd

[12/4/2003 11:52:09 AM] [tinaSDtrader] QCOM a good lesson on resistance, watch as it tries on 5s to get thru this strong ceiling from daily.

[12/4/2003 11:53:03 AM] [Sully] QCOM there she goes

[12/4/2003 11:53:18 AM] [rockin] QCOM vol is great - 16 MM+ if I read right

[12/4/2003 12:01:30 PM] [tinaSDtrader] I'm not getting in, just noting it's move. But yes, I wait for p/b vs. buying high on that swing. If doesn't p/b, I don't chase.  
[12/4/2003 12:01:46 PM] [TraderStar] IMOS has a great daily-weekly chart .. anyone think it lcould be an entry here?

asking a silly question LOL

[12/4/2003 2:28:01 PM] [Smitty] Hotto, yesterday, I think you are beating yourself up too much in your worry of others.....

[12/4/2003 2:28:33 PM] [Smitty] We all know there are people at/on this site that have no business being in the markets.

[12/4/2003 2:28:34 PM] [hotto] need to find the bottom of this PB on daily.. before able to trust the chart formations again.. Just scalping the SPYs.. shorting some techs.. for now..

[12/4/2003 2:28:56 PM] [TradeWinner] good

[12/4/2003 2:29:07 PM] [Smitty] It seems some don't know what a moving average is or how to read most indicators. ....

[12/4/2003 2:29:25 PM] [DMut] thanks also to those who suggested CECO

[12/4/2003 2:29:34 PM] [Smitty] We all have to take responsibility for our own actions.....everyone pulls the trigger for their own trades. ....

[12/4/2003 2:29:54 PM] [Dreamengineer] Amen Smitty

[12/4/2003 2:30:00 PM] [Smitty] I might even be dumber than most.....but I just took a look at my stocks and while there is some damage done.....

[12/4/2003 2:30:24 PM] [Smitty] nothing has happened really serious. Not one stock has really broken down.....run a few supports, yes.....like IVAN.....

[12/4/2003 2:30:46 PM] [Smitty] .but even that one hasn't really broken down in my book. ....

[12/4/2003 2:30:58 PM] [CodyCare] Physician, thanks for CHK, I saw it met my checklist, so I got it. Good one.

[12/4/2003 2:31:30 PM] [Smitty] And everyone still had a chance to sell today with nottoo much damage done~! ....

[12/4/2003 2:31:33 PM] [marketrogue] anybody in CPRT?

[12/4/2003 2:32:42 PM] [Smitty] Heck....I even gained on three or four stocks.....can't be all that bad, right~! Of course, the day isn't over with yet~:D Thanks for yor good intentions~! I know I appreciate it.

[12/4/2003 2:35:35 PM] [edberg] BMW, Thanks for a \$1 in CECO=D

[12/4/2003 2:35:37 PM] [Harley] were is the list of G+ stocks

[12/4/2003 2:36:02 PM] [Redzone] Possible that nervousness about INTC tonite and Payroll Report tomorrow morning being priced in now ... so when news is out ... get at least a bounce ?

[12/4/2003 2:36:55 PM] [Physician] The natural gas stocks were rallying but CHK was just sitting there consolidating...allowing a low risk entry...

[12/4/2003 2:37:11 PM] [hotto] RZ.. could be.. that's why I suggest caution on the

[12/4/2003 2:41:28 PM] [america] it's getting thick in here.

[12/4/2003 2:41:29 PM] [VJnet] either way it was funny

[12/4/2003 2:41:32 PM] [Redzone] Hard to play ... but I'm wondering if they wanted to sell INTC or the Payroll Report ... they would have held the market up till tomorrow morning, then sold the news ... so heavy selling yesterday and today is a shakeout ... just a possible model.

[12/4/2003 2:41:48 PM] [acmetrader] SSTR bucking the trend and near 52wh

[12/4/2003 8:43:18 PM] [hotto] All day.. the DJIA... was stronger than the A/D...  
[12/4/2003 8:43:34 PM] [hotto] never did the A/D lead the way... But  
[12/4/2003 8:44:00 PM] [hotto] at the end.. the DJIA and SP500 were able to rally strongly...  
[12/4/2003 8:44:37 PM] [hotto] Goes back to what we saw a week ago.. The NYSE index was the only one to close at NH52..  
[12/4/2003 8:44:58 PM] [hotto] Hinting rotation toward the big caps.. "generals"  
[12/4/2003 8:45:46 PM] [hotto] T2106.. down again.. but. still positive..  
[12/4/2003 8:46:25 PM] [hotto] T2118.. . up again.. slower.. but up... some IT momentum still indicated..  
[12/4/2003 8:47:19 PM] [hotto] Yesterday.. the Nasdaq.. ran up to the Big number.. 2000.. then the broad market got whacked... with PT..  
[12/4/2003 8:47:39 PM] [hotto] Never regained balance.. even today..  
[12/4/2003 8:48:12 PM] [hotto] But.. the DJIA. and SP500 refused to collapse... as we would have seen.. before now..  
[12/4/2003 8:49:48 PM] [hotto] ie.. before now.. since April..... If the broad mkt was still weakening.. then the big avgs would drop lower.. until A/D stabilized.. and began to recover..  
[12/4/2003 8:50:19 PM] [hotto] today.. the Big caps did not wait.. just moved higher..  
[12/4/2003 8:51:08 PM] [hotto] We closed DJIA at 9930.. just 70 pts from the Big DJIA number... 10,000  
[12/4/2003 8:51:51 PM] [hotto] Traders moved big \$\$\$ into big caps.. today.. leaving many small caps.. behind..  
[12/4/2003 8:52:51 PM] [hotto] I guess that will continue now.. with the DJIA.. finishing its job... to 10000 or somewhat beyond.. maybe 10100 or 10200 or ???  
[12/4/2003 8:53:12 PM] [hotto] But.. the rest of the market may be ragged.. like today..  
[12/4/2003 8:53:36 PM] [hotto] small caps whizzing up and down... all day..  
[12/4/2003 8:54:18 PM] [hotto] The Energy area got lots of money.. after the NatGas Inventory numbers..

[12/4/2003 8:55:30 PM] [hotto] CVX.. also surged  
[12/4/2003 8:55:55 PM] [hotto] BP
