[4/30/2004 10:07:27 AM] [Investortrader] Won't they screw up your monitor MoneyJohn? ;)

[4/30/2004 10:07:29 AM] [toptrader99] put some magnets on the top of FCEL and CVTX for me, willya ?

[4/30/2004 10:08:01 AM] [ProfitTrader] top, sorry I have to disagree - hope gives strength to resist, not to give up, keep trying - God helps those who help themselves - eventually builds confidence leading to success...

[4/30/2004 10:09:01 AM] [Investortrader] The markets don't run on hope ... if a stock I own starts to go down I'd much rather give up (use stops) than hope ... I think he meant hope used in trading

[4/30/2004 10:09:36 AM] [MoneyJohn] yep

[4/30/2004 10:10:02 AM] [Pops] I hope I make some money today...

[4/30/2004 10:10:14 AM] [Investortrader] I hope I don't lose any ;)

[4/30/2004 10:10:29 AM] [ProfitTrader] Can't disagree with that - don't give up - develop a strategy and stick to it during market hours - if you have to bend your rules - revise them during after hours...

[4/30/2004 10:10:36 AM] [mstrader] :D

[4/30/2004 10:10:42 AM] [Investortrader] Good idea PT

[4/30/2004 10:10:53 AM] [toptrader99] FAITH is what you speak of

[4/30/2004 10:11:05 AM] [toptrader99] do you "hope" to win the lottery ?

[4/30/2004 10:11:10 AM] [ProfitTrader] top, I can buy that...

[4/30/2004 10:11:11 AM] [bravotrader] The market is oversold, we should have a ST really within days, imo

[4/30/2004 10:11:16 AM] [toptrader99] hope has no action

[4/30/2004 10:11:20 AM] [Investortrader] I don't have faith that I'll win the lottery either

[4/30/2004 10:11:36 AM] [ProfitTrader] top, yes I do buy lottery regularly and hope to win big atleast once ...

[4/30/2004 10:12:21 AM] [toptrader99] PT, I am re examining, my expectations on winning the lottery, its useless and only keeps me focused on a reality that isnt materializing

[4/30/2004 10:12:28 AM] [toptrader99] again, thats my introspection

[4/30/2004 10:12:35 AM] [MoneyJohn] sorry I brought up this hope/prayer thing ..just feeling like an idiot again

[4/30/2004 10:51:24 AM] [ProfitTrader] Folks this is important to understand benefits and difference between IRAs. Not a tax guru but here is quick summary for those who are not clear. Traditional IRA - contributions tax free within certain AGI=annual gross income - changing every year. Profits are 'tax deferred' - do not pay taxes until withdrawn - and then at normal income rate - not LT capital income rate. If AGI over certain limit - partial deductible and after some income limit no deductions. for those folks Roth may be better option. Roth - contributions are after tax. Original and profits accumulate tax free. IRAs may reform by 2008.

[4/30/2004 10:51:27 AM] [enzo] thanks

[4/30/2004 11:08:33 AM] [OddBodkin] BVF having a good day so ar
[4/30/2004 11:08:37 AM] [croy] Hotto I can draw a base trend line on the compx that fits with today touch of the SMA200 and that could explain a bit the fact we seem to take our time to break the SMA200 I am in no rush to take a short
[4/30/2004 11:08:59 AM] [corvette68] Violated my tight stops this AM on IPIX and cost me - Ouch another one for the record book in Red - Stops are so important !

[4/30/2004 11:09:34 AM] [croy] That is my point ... why break a major SMA the last day of the month
[4/30/2004 11:09:37 AM] [hotto] Supports have been very iffy.. the last few days...
[4/30/2004 11:10:18 AM] [hotto] The old rule is... when in an IT decline.. Supports are not dependable..
[4/30/2004 11:10:33 AM] [hotto] We can try them... but... keep the stops very close..
[4/30/2004 11:11:30 AM] [kennethroyal] Bot NT after big drop Wed, sold this am with fractional loss could be big winner but picture unclear if we could know whether insiders buying at this stage, would be big help
[4/30/2004 11:11:50 AM] [croy] Well I'll quote good old WildBill ... in any market you can have 3 positions ... long (I don't beleive in it now) short ... I find that gambling today or aside or outside the market I all cash and shall remain that way until I beleive !
[4/30/2004 11:13:15 AM] [kmgreen] Hotto, you liked ADCT over time, is this drop an entry?
[4/30/2004 11:14:07 AM] [hotto] ADCT.. breaking MArch lows.. no hurry..
[4/30/2004 11:14:18 AM] [StockEng] SMH marching some...maybe some support to the Naz? A/D improving in that time

[4/30/2004 11:15:31 AM] [hotto] P/C = .63 / .89... just weakening now..
[4/30/2004 11:15:36 AM] [nitrobbob] bot 2000 FVCX at 5.40, sold Wed. at 2.45.... lost more than 50%... biggest % loss ever for me.. that really sucks! still didn't learn the importance of stops! xP
[4/30/2004 11:16:08 AM] [payck] wonder where FVCX will be in a month

[4/30/2004 11:18:18 AM] [swan] phases
[4/30/2004 11:18:32 AM] [hotto] We discussed last month.. the idea that complacency is so bad now.. (historic).. that we may need a Huge decline into Summer.. to clean house..
[4/30/2004 11:18:56 AM] [hotto] Since then.. we had TASR split at 100... run back to over 125.. fall to 70
[4/30/2004 11:19:04 AM] [ChuckR] "house cleaning" in progress
[4/30/2004 11:19:22 AM] [hotto] OSIP jumped from 39 to 98 in one day.. on a drug that will not be out for over a year
[4/30/2004 11:19:44 AM] [hotto] MAGS ran from 8 to 40 in 2 weeks
[4/30/2004 11:19:51 AM] [Investortrader] Might want to print out that FVCX chart, circling where you bot, where you finally sold .. maybe where you should have sold .. and keep it as a reminder next to your computer next time you think about not using stops

[4/30/2004 11:24:47 AM] [StockEng] Hotto, the big, fast runups are prime to get whacked in this environment...tougher calls for me are stocks like NVEC, big run but held up for a long time. Now sitting in the ether and don't have any strong indications either way. MOT royalties by later this year too.

[4/30/2004 11:25:43 AM] [hotto] P/C.. helped support that rally to +55.. still some support.. but weakening..

[4/30/2004 11:26:32 AM] [hotto] FCI still shows just "waving around".. no solid setups... just Buy pgms by the Hedgies.. followed by sell pgms...
[4/30/2004 11:26:41 AM] [Bearcat8] Hotto... I hear you... I can't imagine the hours you would put in to preparing for a seminar...

isn't that what we are supposed to learn to control?? not that i've learned it.. just a thought... :(

[4/30/2004 11:28:41 AM] [hotto] That means.. we have to trade "the rails" or "bumper"...

[4/30/2004 11:28:57 AM] [hotto] And.. watch the stops very close..

[4/30/2004 11:29:13 AM] [peanut] IB crossed markets all over the place ..very confusing

[4/30/2004 11:29:27 AM] [hotto] At least.. until after the Demo convention in July..

[4/30/2004 11:29:48 AM] [hotto] Then..perhaps we can get together one last solid IT Rally..

[4/30/2004 11:30:23 AM] [hotto] Remember March - June 2003 ?.. Dec - Jan 2004 ?... There will be one more... BUT

[4/30/2004 11:30:44 AM] [starrbucks] ...IDCC...looks intersting sitting on LR-30

[4/30/2004 11:31:07 AM] [hotto] First.. we need to wash this out.. With net outflows of money.. ie Inflows minus New Stock offerings..

[4/30/2004 11:31:38 AM] [hotto] We need More Bears and lesss Bulls.. to generate the buying power.. to get the next IT Rally.

[4/30/2004 11:32:03 AM] [hotto] I expect.. by June / July.. we will have plenty of Bears..

[4/30/2004 11:32:42 AM] [Brooks5] The hotto Bear CLub....hmmmm

[4/30/2004 11:32:47 AM] [hotto] In the meantime.. keep trades small enough.. to not kill you...

[4/30/2004 11:33:04 AM] [hotto] on either side... AND.. keep the stops tight..

[4/30/2004 11:33:26 AM] [StockEng] Hotto, isn't program trading largely technically based...something that is rule based? So is technical analysis more or less valuable in this program trade environment?

[4/30/2004 11:34:14 AM] [Investortrader] Good point Hotto, I planned on speaking a little to that tonight, on position sizes and number of position when the market isn't so healthy

[4/30/2004 11:34:28 AM] [hotto] If they give us a nice lift beween now and Tuesday... may be a good opp.. to get some Puts.. or establish some shorts.. on backup under key resistance..

[4/30/2004 11:34:59 AM] [starrbucks] good...IT....wwhat time

[4/30/2004 11:35:21 AM] [Investortrader] Chart class tonight at 6 eastern!

[4/30/2004 11:35:37 AM] [starrbucks] ..ty..

[4/30/2004 11:35:51 AM] [hotto] StockEng.. for ST trading.. TA is essential here.. For longer term.. maybe not..

[4/30/2004 11:36:21 AM] [hotto] We have seen ST swings of enormous %.... look at 3/24 to 4/6..

[4/30/2004 11:36:38 AM] [enzo] hotto thanks for given us so manny advice

[4/30/2004 11:36:55 AM] [hotto] And.. the prior week.. when the DJIA dropped 160 two days in a row.. huge % moves..

[4/30/2004 11:37:14 AM] [StockEng] Agreed, just wondered after the earlier discussion today about supports...or lack thereof in the charts. tyH

[4/30/2004 11:37:58 AM] [hotto] We have discussed the Targets.. many times.. have worked pretty well.. As long as we keep alert to reversals..

[4/30/2004 11:37:59 AM] [JAHman] using Ameritrade's Command center platform you can easily see bursts of program trading all through the day, most of them last 2-3 seconds and contribute about a couple minutes (maybe) worth of normal vol, what really supprises me is the breadth, almost always hitting all stocks in my watchlist. This can't be seen on Tcnet because of the Command center, changes color of ask/bid 'cells' making these bursts visible.

[4/30/2004 11:38:30 AM] [hotto] Note this last ST rally... last Wed low. up for 4 days.. Stalled under LR30..

[4/30/2004 11:40:50 AM] [wjonass2] Hotto if you trade in stocks between \$1.00 and \$15.00 don't you avoid alot of the big program traders?

[4/30/2004 11:40:58 AM] [hotto] StockEng.. Yes.. "supports" are suspect.. BUT.. they are our "trial entry points"...

[4/30/2004 11:41:33 AM] [corvette68] IPIX headed for the basement - dont feel as bad now - pulled trigger earlier with loss

[4/30/2004 11:42:05 AM] [Bearcat8] FYI... for your retirement accounts... in addition to rydex bear funds you might want to check out profunds... SHPIX is like shorting the Russell 2000 and UCPIX is like shorting the Russell 2000 times two (double-beta fund)...

[4/30/2004 11:42:09 AM] [hotto] We will pay close attention to those over the next 3 months..

[4/30/2004 11:42:39 AM] [StockEng] Thanks Hotto...not questioning your methods, I know they work...just wondered if this environment calls for any tweaks to the system

[4/30/2004 11:42:43 AM] [hotto] Until we have a new IT Rally confirmed... just fight to survive against the "big"...

[4/30/2004 11:43:45 AM] [hotto] yes.. StockEng... more on that tomorrow.. need my Saturday brain-power..)

[4/30/2004 11:44:25 AM] [peanut] anyone with the NAZ A/D line? where can i find it? Thanks

[4/30/2004 11:44:38 AM] [hotto] NOte again Yesterday.. Early Rally went Right to our est Target.. 10407

[4/30/2004 11:45:04 AM] [hotto] We had near perfect entrys on some Shorts and Puts..

[4/30/2004 11:45:45 AM] [hotto] Today.. HOD has peeked over the 10320.. level.. but not by much..

[4/30/2004 11:46:41 AM] [hotto] That is.. the Upside Targets.. have worked pretty well.. to hold the Rallies..

[4/30/2004 11:46:56 AM] [hotto] As we discussed earlier this week...

[4/30/2004 11:47:33 AM] [hotto] We are near upside down .. from the IT Rally conditions of last March - June.. 2003..

[4/30/2004 11:48:00 AM] [hotto] A/D... H/L... Resistances holding.. Supports failing..

[4/30/2004 11:48:26 AM] [hotto] This is very near "Bear Mkt" conditions..

[4/30/2004 11:48:50 AM] [hotto] Just shows how extreme the "liquidity" leg was - last year

[4/30/2004 11:49:18 AM] [hotto] We had both those models.. working in favor of that huge Rally..

[4/30/2004 11:49:59 AM] [hotto] And.. the "Re-elect "W"" stimulus... really hit the markets...

[4/30/2004 11:50:36 AM] [hotto] NOW.. we need a deep correction.. to reset the market.. so we can have a rally after Summer..

[4/30/2004 11:51:09 AM] [hotto] anyway.. that is my theory..

[4/30/2004 11:54:47 AM] [w2jc] just noticed the FVCX is back to just what it was on 4/2 before the breakout ... also notice that MS has stayed very high thru all of this

[4/30/2004 12:07:09 PM] [Brooks5] Maybe we can get that TV show "MONSTER HOUSE" out to hotto's and get started on his addition....:D
[4/30/2004 12:07:39 PM] [Investortrader] I keep watching things sit on support, then break down .. the last few days ... watching this bounce for short candidates but probably won't take one till Monday
[4/30/2004 12:08:03 PM] [nitrobo] just watching while remodeling my bathroom... that is too much like work!
[4/30/2004 12:08:38 PM] [CaptJack] hotto....does that look like a triple bottom on the Q's on the 5'?

[4/30/2004 12:14:57 PM] [Investortrader] I live so far out in the boonies ... some of the quotes to run an electric line out here are ridiculous ... 50,000 75,000
[4/30/2004 12:15:04 PM] [corvette68] Look at IPIX - out at 6.40 with loss - now i look at it as a huge savings
[4/30/2004 12:15:22 PM] [hotto] CaptJack.. once more.. I have little faith in bullish Intraday patterns.. For now.. looking for extreme selloff - into a key chart level.. as a possible reversal. bounce point..

[4/30/2004 12:16:02 PM] [swan] Hotto, the Q's 200dma is only 30 cents down. Couldn't that be the reversal point into EOM?
[4/30/2004 12:16:12 PM] [hotto] The Intraday patterns that are working are the Bearish ones.. like the Bear flag yesterday..
[4/30/2004 12:16:33 PM] [CaptJack] when I back out and look at the daily, weekly....doesn't look good...

[4/30/2004 12:25:53 PM] [hotto] of course.. the Grand-daddy.. LTC.. (Long Term CApital).. nearly brought meltdown..

[4/30/2004 12:26:30 PM] [hotto] Imagine... what could happen next week... if the Hedgies.. wake up.. and hit the "Sell in May and go away" button.

[4/30/2004 12:26:55 PM] [hotto] Look at the last 2 days.. fun times..

[4/30/2004 12:27:18 PM] [softrock] Actually, that would get it over with in a hurry

[4/30/2004 12:43:18 PM] [VJnet] Lost a bunch on FVCX...but was wise enough to get out of a bunch of stocks earlier in the week. Saved a bunch of capital. And, my ACV is still strong...so I should have some capital come July. Thanks hotto

[4/30/2004 12:46:05 PM] [hotto] VJ.. I lost on FVCX as well. Still standing. Relearned an old lesson about froth

[4/30/2004 12:46:25 PM] [mstrader] good plan VJ. preserve capital. and make millions after July.

[4/30/2004 12:47:28 PM] [hotto] The "tease" dissipated.. will come again later - I expect..
[4/30/2004 12:48:45 PM] [hotto] VJ.. as always.. depends on the market. In a solid IT Rally environment.. we can stand a DBD..
[4/30/2004 12:49:20 PM] [hotto] But.. most recently.. we had that "snap-back" rally up to LR30...in DJIA
[4/30/2004 12:49:43 PM] [hotto] Then.. after 4 days of higher LODs... we got the DBD in DJIA..
[4/30/2004 12:50:13 PM] [hotto] At that point.. All sell sigs must be taken... immediately... No excuses
[4/30/2004 12:50:29 PM] [VJnet] good lesson
[4/30/2004 12:50:31 PM] [hotto] From that point on.. The longer we hold.. the more we lose..
[4/30/2004 12:51:01 PM] [hotto] My slippage... just selling out my junk.. on Wed.. was sickening..
[4/30/2004 12:51:06 PM] [peanut] VTIV...green
[4/30/2004 12:51:32 PM] [hotto] Bids fell away.. could only sell a couple hundred shares at a time..

[4/30/2004 12:52:27 PM] [hotto] VICL... And not too happy about that.. And.. my good old tax loss generator... FNSR..
[4/30/2004 12:52:57 PM] [hotto] Short... about 100% on SPY..
[4/30/2004 12:53:17 PM] [hotto] Trying to accum some PUTs.. none so far
[4/30/2004 12:53:50 PM] [hotto] FCI.. %AD.. now "teasing" to downside.. I don't believe that one either..
[4/30/2004 12:53:51 PM] [wjonass2] In analyzing my trading for the last 4 months, I found 4 reasons I relied on mental stops---pride, stubbornness,arrogance and lastly, stupidity.
[4/30/2004 12:54:07 PM] [Brooks5] LOL
[4/30/2004 12:54:42 PM] [hotto] COMP.. new LOD.. now
[4/30/2004 12:54:59 PM] [hotto] 1936.. nearing our Target..
[4/30/2004 12:56:06 PM] [hotto] COMP.. because of the crossover.. we discussed last night.. DTL is approx 1925 now.. below SMA200
[4/30/2004 12:56:40 PM] [thornydevil] short ELN @21.2
[4/30/2004 12:56:48 PM] [hotto] Maybe the Hedgies.. are trying to use EOM strength... to lighten up Longs..
[4/30/2004 12:57:07 PM] [thornydevil] 21.3
[4/30/2004 12:58:12 PM] [swan] Hotto, do you think that 35 (200dma)on the Q's will hold, or they'll breal it by 15-20 cents to grab Stops?
[4/30/2004 12:58:15 PM] [hotto] Alexis.. reviewed AMG Data numbers this morning... 13th week of inflows.. and outflows from Techs.. But.. Still Techs are Overweight in most funds..
[4/30/2004 12:58:42 PM] [mstrader] 3/24 low was 1896.91
[4/30/2004 12:59:14 PM] [hotto] yes.. AND.. now OBV is already leading Lower...than the 3/24 low
[4/30/2004 1:00:52 PM] [hotto] QQQ.. OBV already near the 3/23 Low... I expect that to be retested soon.
[4/30/2004 1:02:10 PM] [hotto] +12 10285.. 1352 / 1734... eroding..
[4/30/2004 1:04:21 PM] [hotto] IM.. another big G++ a couple months ago.. now crash on stronger Dollar..
[4/30/2004 1:05:23 PM] [hotto] Amazing how fast they reversed out all the "weak Dollar" premiums.. in stock after stock.. just on the Dollar snap-back to SMA200.
[4/30/2004 1:06:08 PM] [hotto] VRSN.. fell off the LR30 ledge today..

[4/30/2004 1:10:42 PM] [hotto] BRCM.. can it hang on up here ?
[4/30/2004 1:12:30 PM] [hotto] ATRS.. fell thru SMA50... hanging on at 4/21 SL.
[4/30/2004 1:13:05 PM] [hotto] ONXX. as we guessed.. fell thru LR30.. to SMA10 today..

[4/30/2004 1:15:10 PM] [hotto] NKTR.. broke down.. below last SL (20.65)
[4/30/2004 1:17:05 PM] [mstrader] Hotto just curious. Did you do any trades today other than selling OEX calls you bot yesterday?
[4/30/2004 1:17:53 PM] [hotto] no mst.. just entered some buys on OEX PUTs..
[4/30/2004 1:18:15 PM] [hotto] It is Friday..

[4/30/2004 1:19:14 PM] [hotto] Still most important.. is "preservation"... not heroics..
[4/30/2004 1:19:20 PM] [ProfitTrader] Hotto, why puts if there is possibility of minor relief rally Mon ?
[4/30/2004 1:20:04 PM] [hotto] swan... not really... But.. If they do... I will use it to accum Puts.
[4/30/2004 1:20:15 PM] [hotto] PT... Let's review..
[4/30/2004 1:21:27 PM] [hotto] on Tuesday.. before I expected the decline to begin.. I bot some Puts.. into the Rally... was uncomfortable at the time... BUT..
[4/30/2004 1:21:57 PM] [hotto] I have watched the market moving Early.. over and over the last year..
[4/30/2004 1:22:40 PM] [hotto] So.. to get good prices.. on the Puts.. best to move a bit early... maybe on a half posn..
[4/30/2004 1:22:50 PM] [VJnet] loogi...you here
[4/30/2004 1:23:03 PM] [hotto] By Wed.. midday... I was very happy... that I moved early..
[4/30/2004 1:23:08 PM] [Luigistock] yeppers
[4/30/2004 1:24:03 PM] [hotto] My idea of a relief rally on Monday... Is just one idea.. Enough to keep me from plunging into the Short side today... or into big Put posns..
[4/30/2004 1:24:32 PM] [ProfitTrader] Hotto, ok got the idea behind it..
[4/30/2004 1:24:41 PM] [hotto] If we get No relief over the next few days.. That just means the downside move will be much worse..
[4/30/2004 1:25:11 PM] [hotto] So.. Maybe buy a few puts today... like insurance.. Buy it before you needit..
[4/30/2004 1:25:58 PM] [hotto] Then.. If it does Not relief rally on Monday... Will add to PUTs.. on the way down... And Short the heck out of the SPY...
[4/30/2004 1:26:12 PM] [hotto] SPY and DIA..
[4/30/2004 1:26:51 PM] [swan] not QQQ?
[4/30/2004 1:27:22 PM] [hotto] maybe QQQ.. need to assess the downside room...
[4/30/2004 1:29:22 PM] [hotto] COMP.. within .30 of SMA200 now.. if anyone cares..
[4/30/2004 1:31:00 PM] [hotto] That QQQ chart.. weekly... could get really spooky next month..
[4/30/2004 1:33:12 PM] [Luigistock] SINA pretty little adam and eve bottom forming on 5
[4/30/2004 1:33:58 PM] [Saroj] OK - shared watchlists look good on my brief test....
[4/30/2004 1:34:05 PM] [hotto] On the PUTs.. be careful.. just like on the stocks..

[4/30/2004 1:57:06 PM] [StockStalker] i tot it was on both.... but Tina's trick of putting up a 500 fixed them all
[4/30/2004 1:57:13 PM] [sunny] oz, i believe exp ma's are senstive to zoom, yes
[4/30/2004 1:57:26 PM] [StockStalker] i think it is both.,.

[4/30/2004 2:14:12 PM] [nitrobb] the greedy uninformed public will buy from the bidders and be anxious to sell on the first big PB on Google... imho

[4/30/2004 2:15:55 PM] [StockStalker] then the big money will buy it at the price they would have paid anyways under a reg ipo

[4/30/2004 2:16:32 PM] [nitrobb] yep

[4/30/2004 2:17:39 PM] [StockStalker] not to be confused with sympathy on my part please.. only pointing out some obvious points..

[4/30/2004 2:20:19 PM] [Elm] Add to the steep price, the 1 Class "B" share = 10 Class "A" votes. Lots of risk, little power.

[4/30/2004 2:20:29 PM] [StockStalker] here is a link to an explanation of the dutch auction

[4/30/2004 2:20:58 PM] [syatt] ty Oz

[4/30/2004 2:22:00 PM] [StockStalker] Google will offer a Web site for investors to visit to get a "unique bidder ID." You will have to meet certain requirements specified by the bankers running the auction, Morgan Stanley and Credit Suisse First Boston. We don't know what the requirements are yet, but we can make a good guess. The auction process was pioneered by San Francisco bank WR Hambrecht, which requires investors to deposit at least \$2,000 to open an account. They must then deposit enough additional money to cover the bids they make

[4/30/2004 2:23:07 PM] [gary12] LOL

[4/30/2004 2:23:26 PM] [softrock] interesting Oz, thanks. I'll wait for the PB

[4/30/2004 2:23:45 PM] [StockStalker] gonna be great...

[4/30/2004 2:24:15 PM] [softrock] what is the timing - 90 days from S1 filing?

[4/30/2004 2:24:26 PM] [StockStalker] gonna give the active trader the ability to play it just like the big guy...

[4/30/2004 2:24:50 PM] [StockStalker] but my guess is it will cream the "investor"

[4/30/2004 2:24:53 PM] [Elm] I wonder how much Morgan Stanley and Credit Suisse Forst BOston will charge if you close/transfer your account after the IPO?

[4/30/2004 2:25:47 PM] [syatt] anyone know why SAFM tanked this am?

[4/30/2004 2:26:37 PM] [StockStalker] gonna have to rename it UnSafm

[4/30/2004 2:27:07 PM] [nitrobb] Google auction discussion coming up on CNBC

[4/30/2004 2:27:16 PM] [swan] .

[4/30/2004 2:27:53 PM] [Nobozo] If the price is too high... at least Google gets the excess money instead of the greedy bankers like Grubman. Maybe Google can use the money profitably and ultimately give the little guy a fair value.

[4/30/2004 2:28:26 PM] [joeinkc] hotto... when the weather gets "hot"... will we go back to electric grid worries... like last summer...??

[4/30/2004 2:28:52 PM] [toptrader99] what about fuel cell stocks ?

[4/30/2004 2:29:19 PM] [toptrader99] when will they "heat up" ?

[4/30/2004 2:29:36 PM] [TCNut] that was all a scam to raise electricity bills

[4/30/2004 2:29:48 PM] [StockStalker] the only thing you; gonna get is a better portal.. but that is good nuff for me

[4/30/2004 2:30:42 PM] [joeinkc] TC.. you might be right.. considering how "old" our grid technology is...

[4/30/2004 2:31:23 PM] [TCNut] they don't build um like they used to

[4/30/2004 2:31:25 PM] [toptrader99] what was a scam ? enron ?

[4/30/2004 2:32:45 PM] [Brooks5] I don't think that is ALL true TC...I worked for Southern Company for over 22 years at a power plant.....there were concerns several times over those years of actual grid overloads....depends on how how of

[4/30/2004 2:35:29 PM] [Brooks5] Good revenge Boss

[4/30/2004 2:35:37 PM] [TCNut] They had an article in the Orange County Register's Business section on Friday, April 23rd about how California's Energy Officials urge conservation, but see no blackouts throughout the summer.....mainly because of their wonderful campaign that taught us how to conserve energy.

[4/30/2004 2:35:58 PM] [BossFan] yea, do that 60 more times and I'm almost even :P

[4/30/2004 2:36:05 PM] [StockStalker] lol

[4/30/2004 2:36:32 PM] [Quintus] AMZN threatening a waterfall

[4/30/2004 2:38:01 PM] [Elm] TC When they build houses in SoCal at a high rate (Riverside Cty and environs) without improving transmission lines and building new power plants, conservation may not be enough.

[4/30/2004 2:38:21 PM] [joeinkc] Brooks... do you know of anyone that is building the "parts" needed to build a true "switched" grid... like the internet??

[4/30/2004 2:38:29 PM] [StockStalker] hey TcNut.. dont slap yo self on the back too hard....

[4/30/2004 2:38:39 PM] [StockStalker] ;)

[4/30/2004 2:40:06 PM] [StockStalker] for now...

[4/30/2004 2:40:35 PM] [StockStalker] but u think that demand is not gonna out pace supply forever over there

[4/30/2004 2:40:38 PM] [TCNut] and companies are being sued for ties to it

[4/30/2004 2:40:40 PM] [Brooks5] Tcnut you are probably correct about that...can't say

[4/30/2004 2:41:52 PM] [Brooks5] I just know you can build all the power plants you want...but if you don't have the means to carry it to the customers you have not done anything

[4/30/2004 2:42:10 PM] [Yehudi] What will we all say if the next Ca crisis is much worse?????

[4/30/2004 2:42:23 PM] [TCNut] or under investigatio.....the ones involved might actuall have to spen the night in jail

[4/30/2004 2:42:28 PM] [StockStalker] "its not my fault"

[4/30/2004 2:42:45 PM] [napleschip] maybe calif should sue itself...D...

[4/30/2004 2:43:47 PM] [Elm] Unfortunately, lawsuits wont't fix the grid. The hospital where my wife worked in SoCal the last few years was on backup power alot because of SCI power problems.

[4/30/2004 4:25:29 PM] [hotto] tempting to use FOP to downside on QQQ

[4/30/2004 4:25:58 PM] [hotto] That would project to about 30.50...on QQQ

[4/30/2004 4:26:06 PM] [croy] I wouldn't mind doing a FOP on the down side if we had an idea if this thing can go lower

[4/30/2004 4:28:05 PM] [ProfitTrader] I thing biggy would be how DJ30 and SP500 treat SMA200. Few down days like these and SMA200 will turn downwards for three indices. I think EMA100 turned down yesterday for all three indicies.

[4/30/2004 4:28:42 PM] [croy] VXGN had an amazing day all things considered

[4/30/2004 4:29:27 PM] [hotto] good point... when SMA200 turns lower.. will bring out the Bear mkt. talk..

[4/30/2004 4:30:14 PM] [hotto] But.. the Numbers we are seeing.. are somewhere between IT decline.. and Bear Mkt.. Just need the 20% decline now..

[4/30/2004 4:31:05 PM] [Barnabus] from Cramer on RealMoney..."Buy small, if you are buying, and pick small. And remember, the bear is in the room, and he doesn't like to be petted. "

[4/30/2004 4:39:44 PM] [croy] Well I don't want to put myself on the wrong side of any bulls but for those that know how to short a bear market can be lucrative makes money much faster that in a bull marlet ... If I recall my readings on the topic about 7 times faster ...

[4/30/2004 4:40:35 PM] [croy] but technically riskier ... Hotto maybe a briefing on the art of shorting might be appreciated by thoses new to this game

[4/30/2004 4:58:26 PM] [streetwalker] but i do have to admit....i start losing when i depart from the "rules" esp. the stops...and should mention that joining ur club along with all the others who "donate" their time and advice has change my (retirement) life...no joke there. :)

[4/30/2004 4:58:43 PM] [hotto] The rewards may be awesome. Expect to work hard.

[4/30/2004 4:59:20 PM] [JAHman] they (greeny and co) will raise rates very very slowly

[4/30/2004 4:59:20 PM] [hotto] :)

[4/30/2004 5:00:12 PM] [hotto] When/ If they raise rates slowly.. the markets will suffer a long time..

[4/30/2004 5:01:28 PM] [hotto] The best... for the markets.. would be.. If they can raise rates.. One time..to the perfect level.. and convince the market that it is done.!

[4/30/2004 5:01:56 PM] [hotto] Then.. we could get back to the usual... Price discovery problem.

[4/30/2004 5:02:50 PM] [gordo] Hotto Although we have a lot of educational aids on Shorting in both clubs, I believe ,with the market as precarious as it is , we could use a lot more education on Shorting. [4/30/2004 5:28:49 PM] [hotto] Similar to what happens in January... After the Dec. tax selling.. Partly relief.. from the selling..

[4/30/2004 5:28:50 PM] [AlanD] Current fall is bigger then the Dem convention. Any affect it has will be temporary IMO.
