posted a new one tonight

[1/6/2004 1:03:30 AM] [bmweyrauch] time to recharge the brain cells...glad you are feeling better Jim...hope you all have a great day tomorrow. GN

[1/6/2004 1:03:46 AM] [Investortrader] Cool w2jc ... I'll send to both of you ... we'll see if TCMail has same bug about long stuff lol

[1/6/2004 1:03:51 AM] [w2jc] gn bmw ... not fully recovered but enough to push again !!

[1/6/2004 1:03:56 AM] [Investortrader] Night bmw :)

[1/6/2004 1:05:35 AM] [Investortrader] TCMail error trying to send it :(

[1/6/2004 1:06:20 AM] [w2jc] in what program did you type it?

[1/6/2004 1:06:45 AM] [Investortrader] Notepad

[1/6/2004 1:06:59 AM] [w2jc] did you save it as a .txt file?

[1/6/2004 1:07:15 AM] [Investortrader] Yes, I created the .txt file, then typed it all in, then saved it

[1/6/2004 1:07:48 AM] [w2jc] want to be sure you selected 'file type' as .txt ascii text -- because Notepad likes to save as Word6 normally

[1/6/2004 1:07:51 AM] [Investortrader] Tried to send to both of you, same error both times

[1/6/2004 1:08:15 AM] [w2jc] can you send by regular email?

[1/6/2004 1:08:56 AM] [Investortrader] Didn't give me a "file type" to save, not even using "save as"

[1/6/2004 1:09:05 AM] [Investortrader] Yes, I can e-mail it

[1/6/2004 1:09:21 AM] [Investortrader] Win98SE here

[1/6/2004 1:11:07 AM] [w2jc] my wordpad save has a line for file name and a line under it for file type... i've never seen one without that... any windows file save window has both lines as far as i know...

[1/6/2004 1:11:27 AM] [Investortrader] Not wordpad save, notepad save

[1/6/2004 1:12:38 AM] [cobralso]

[1/6/2004 1:12:58 AM] [w2jc] my notepad has THREE lines !! filename, save as type, and encoding !!

[1/6/2004 1:13:52 AM] [Investortrader] Must be the Win98SE doing it, older version of notepad

[1/6/2004 1:14:01 AM] [Rex] JRSVI

[1/6/2004 1:15:25 AM] [w2jc] my version of notepad is 12/7/1999 !! i'll email it back to you, i'll change the name by adding a _ on it and you can try it !!

[1/6/2004 1:17:29 AM] [Investortrader] When I try to "save as", the box pops up, in the "Save as type" pulldown menu, only choices are "Text Documents" and "All files (*.*)

[1/6/2004 1:17:44 AM] [Investortrader] Just sent the e-mail

ClubHome

[1/6/2004 1:19:14 AM] [w2jc] ok and the encode should be ANSI
[1/6/2004 1:19:35 AM] [Investortrader] Was no encode choice ... maybe you better post it lol
[1/6/2004 1:20:07 AM] [w2jc] actually, that might be the problem ... i think ANSI uses some control characters for special coding... really should be ASCII encode...
[1/6/2004 1:21:11 AM] [Investortrader] I think TCNet has a problem with Win98 and long things, like my notes that some couldn't read (crashed them) and others it extended far to the right
[1/6/2004 1:21:28 AM] [w2jc] i see the problem immediately !!
[1/6/2004 1:21:36 AM] [Investortrader] What is it?
[1/6/2004 1:22:31 AM] [w2jc] notepad is using only a 'return' with no 'new line' on each line... to 'modern day' systems this makes it look like all one paragraph... and it probably exceeds the buffer size for the TCnet text buffers !!
[1/6/2004 1:22:57 AM] [Investortrader] That sounds like that's it!
[1/6/2004 1:23:32 AM] [w2jc] i have another simple text editor called EditPad that is way, way nicer than Notepad... i'll send you that too !!
[1/6/2004 1:23:52 AM] [Investortrader] Cool! No wonder all my long stuff got screwed up lol
[1/6/2004 1:24:03 AM] [w2jc] yup !!
[1/6/2004 1:24:09 AM] [RkyMtnFool] If I may ... Turn on Word Wrap. Look in View of Format.
[1/6/2004 1:24:30 AM] [RkyMtnFool] or not "of"
[1/6/2004 1:24:42 AM] [Investortrader] Just checked RMF, there is a check mark next to Word Wrap
[1/6/2004 1:25:00 AM] [w2jc] IT... can you unzip a .zip file?
[1/6/2004 1:25:07 AM] [Investortrader] In the "Edit" pulldown menu
[1/6/2004 1:25:20 AM] [Investortrader] I think so w2jc
[1/6/2004 1:25:39 AM] [w2jc] ok, because program files go thru email much more safely if they are zipped ...
[1/6/2004 1:26:07 AM] [Investortrader] If not I'll download winzip again, not sure if I grabbed it after my HD reformat
[1/6/2004 1:26:25 AM] [SloTrader] Hotto, Great web site! Enjoy Market Themes for 2004 and the List of Education Topics..I have a lot of reading and learning to do. Thank your wonderful crew for a wonderful product. Now it's up to me to absorb, follow, and apply. Thanks again, Hotto
[1/6/2004 1:27:58 AM] [Investortrader] w2jc, can I just copy+paste it into EditPad or will I need to do something else .. like re-write it?
[1/6/2004 1:30:12 AM] [w2jc] you mean what you sent me? not sure... i will play with

that after i send the files to you...

[1/6/2004 1:30:25 AM] [Investortrader] Ok :)

[1/6/2004 1:31:01 AM] [Investortrader] I thought I was finally caught up after this weekend ... only to be reminded just now I need to read the website!

[1/6/2004 1:38:29 AM] [w2jc] IT -- gonna take me a few minutes more, as i just realized that Win98se does not like directories with spaces in them, and Win2k uses ..\program files\ as a directory... i'll fix it up so it unzips ok for you...

[1/6/2004 1:39:37 AM] [Investortrader] So does Win98se, \program files\

[1/6/2004 1:39:53 AM] [w2jc] you sure it has the space in it?

[1/6/2004 1:39:58 AM] [Investortrader] I just looked

[1/6/2004 1:40:10 AM] [w2jc] ok, that will save me a bit of work !!

[1/6/2004 1:40:16 AM] [Investortrader] Good :)

[1/6/2004 1:43:41 AM] [w2jc] ok, the email is on it's way... now to play with your file !!

[1/6/2004 1:43:57 AM] [Investortrader] Thanks Jim :)

[1/6/2004 1:47:38 AM] [w2jc] hah... i just tried to post it and got a "page cannot be found" server error !!!

[1/6/2004 1:47:56 AM] [Investortrader] Ooops!

[1/6/2004 1:48:10 AM] [Investortrader] I got that one earlier today or yesterday

[1/6/2004 1:53:10 AM] [w2jc] i am going to try something on a hunch ... maybe it is the date codes on each line that tcnet doesn't like...

[1/6/2004 1:54:44 AM] [Investortrader] I've read a discussion with the date codes in it before

[1/6/2004 2:05:12 AM] [HOTTO] w2jc has posted a new topic to General Discussion: Investortrader's in-depth discussion on ITIG

[1/6/2004 2:05:31 AM] [w2jc] dont get too excited just yet...

[1/6/2004 2:05:52 AM] [Investortrader] Ok :)

[1/6/2004 2:06:34 AM] [Investortrader] Only has the Title, not the discussion

[1/6/2004 2:06:47 AM] [w2jc] baby steps...

[1/6/2004 2:06:55 AM] [Investortrader] Ok :)

[1/6/2004 2:08:35 AM] [Investortrader] I need to get some sleep, be back in 5 1/2 to 6 hours!

[1/6/2004 2:08:47 AM] [Investortrader] And thanks for helping Jim :)

[1/6/2004 2:10:40 AM] [w2jc] there is something in the text that is crashing it ... i've got it narrowed down to a block of the text

[1/6/2004 2:30:50 AM] [HOTTO] w2jc has replied to: Investortrader's in-depth discussion on ITIG

[1/6/2004 2:33:05 AM] [HOTTO] RkyMtnFool has replied to: Investortrader's in-depth discussion on ITIG

[1/6/2004 4:45:03 PM] [hotto] EGHT.. then peeked over 5.24 to 5.28... THEN... sagged.. and held at 5.21... That is what I expected... Because of the 2 details.. 1. 2nd time up... 2. Exceeded th 5.24 when hit...

[1/6/2004 4:46:27 PM] [hotto] That is some of it.. I will try to get to that Target-trading strategy again.. on website.. Seems like a lot of detail.. Many words.. but.. once learned... pretty intuitive..

[1/6/2004 6:23:22 PM] [hotto] bye...:)

[1/6/2004 6:23:31 PM] [hotto] yeah..=D

[1/6/2004 6:24:39 PM] [Investortrader] I wasn't feeling so hot yesterday, so I raised a bit of cash, also raised a bit more today

[1/6/2004 6:24:48 PM] [enzo] good evenig hotto are you gone be in for the market up date tonight

[1/6/2004 6:25:32 PM] [Investortrader] And had to call one of my brokers about half a dozen times over one trade, a NYSE stock, now I know why Hotto hates the NYSE!

[1/6/2004 6:26:58 PM] [Investortrader] Finally got it all straightened out, but then they kept cancelling my sell order, had to put that in by phone, then ended up long and short both, so had to clal again, what a mess, but straightened out now

[1/6/2004 6:27:47 PM] [jasperguy] hotto once i sighn up to your webpage ,how many hours of time do you estimate the tutorials will take and do you suggest which to do first etc/

[1/6/2004 6:28:27 PM] [Investortrader] So I don't have much to show in the way of charts for my own trading today

[1/6/2004 6:29:11 PM] [Investortrader] So if anyone has any questions, or any charts they would like me to take a peek at, the floor is open!

[1/6/2004 6:29:21 PM] [Zathrus] jasper - I hope these tutorials take a long time....Easy & Quick stuff is usually useless

[1/6/2004 6:29:36 PM] [kennethroyal] As a beginner, I had my TRCI chart up, hit SHARE / Share with Hotto. Presto - memo appeared in Hotto chat. Chart drawn 3 days ago - shows symmetric triangle with resolution as per Hotto Club / Files / Chart Patterns / Symmetric Triangles by Mark McRae.

[1/6/2004 6:31:06 PM] [Stixman] IT -- comments on SIRI. Is pullback an opportunity or a falling knife?

[1/6/2004 6:31:14 PM] [SeattleSteve] IT, what's your opinion on CORV?

[1/6/2004 6:31:44 PM] [Investortrader] SIRI ...

[1/6/2004 6:32:00 PM] [parkwaypet] TRCI gave comment last month in at 18.18

[1/6/2004 6:32:30 PM] [parkwaypet] Good article in IBD

[1/6/2004 6:32:42 PM] [Investortrader] SIRI is too extended for me ... need to look at both sides of the equation, reward ... and risk

[1/6/2004 6:34:13 PM] [Investortrader] Now you're just gambling with where a logical stop should be, at least for me ... so I'll wait, might miss some good gains, or miss some good losses

[1/6/2004 6:35:28 PM] [cobralso] IT What do you think CORV is gona do??

[1/6/2004 6:35:33 PM] [Investortrader] CORV ... normally I don't comment on stocks this low, but it looks the same, too extended for me to buy in here, do you own it already SS?

[1/6/2004 6:36:00 PM] [parkwaypet] IT good base on IVII and looks a little sneaky TSV nice and OBV very divergent

[1/6/2004 6:36:02 PM] [cobralso] Man youre fast today

[1/6/2004 6:36:16 PM] [SeattleSteve] Yes

[1/6/2004 6:36:35 PM] [cobralso] yes

[1/6/2004 6:36:38 PM] [Investortrader] If I owned it already, besides counting my money ;) I'd continue to ride it as of today

[1/6/2004 6:37:10 PM] [Zathrus] Did y'all see my CSCO finally broke \$25 today? Happy Happy Joy Joy!!!

[1/6/2004 6:37:11 PM] [SeattleSteve] :)

[1/6/2004 6:37:41 PM] [cobralso] Ya think it will go up more??

[1/6/2004 6:37:46 PM] [Investortrader] OBV is confirming the new high as lots of volume came into it

[1/6/2004 6:38:06 PM] [cobralso] cool

[1/6/2004 6:38:22 PM] [Stixman] CORV ..could be a tweezer top! Also a gap below that it might want to fill. I own it also..If it does go up right away tomorrow I'll probably bail.

[1/6/2004 6:38:24 PM] [Investortrader] Will have to see how it reacts on a pb

[1/6/2004 6:38:53 PM] [jasperguy] I had a top notch broker loss 1.25 MILLION for me two years ago and Idecided to learn parttime but have decided to give it a real shot and focus on it this year.I am not afraid to trade however I need to have my targets set before buying so I exit on the up or down side before getting burnt either way

[1/6/2004 6:38:56 PM] [Stixman] dosen't

[1/6/2004 6:39:03 PM] [Investortrader] Looks like it could be a breakaway gap stix, which means it won't get filled anytime soon

[1/6/2004 6:39:35 PM] [Investortrader] Good idea jasper, I always have my stop in

mind before entering a trade, and a first target

[1/6/2004 6:39:50 PM] [SeattleSteve] I guess CSCO was a "buy" 15 months ago, when it was \$8.12 ;)

[1/6/2004 6:39:59 PM] [Zathrus] oh yeah.....

[1/6/2004 6:40:07 PM] [Stixman] Good Vol on CORV the last four days ... Hope you're right. Thx IT

[1/6/2004 6:40:19 PM] [SeattleSteve] I remember we had a long discussion that day of how low it would have to go before we would just buy it

[1/6/2004 6:40:35 PM] [Investortrader] Hard to judge these runaway stocks, a pb could happen anytime

[1/6/2004 6:40:57 PM] [Investortrader] IVII ...

[1/6/2004 6:41:04 PM] [Zathrus] Tricky thing on CSCO now is try and find a logical resistance level - there isn't much....

[1/6/2004 6:42:03 PM] [malealltrash] EVENING ALL

[1/6/2004 6:42:09 PM] [malealltrash] Corv down ah

[1/6/2004 6:42:10 PM] [Zathrus] until you get into the mid 30's anyway

[1/6/2004 6:42:43 PM] [Investortrader] IVII looks good, riding the upper BB with OBV confirming the advance

[1/6/2004 6:43:11 PM] [parkwaypet] BBS really squeezing in also

[1/6/2004 6:43:28 PM] [Investortrader] Yes, that BB squeeze indicated an upcoming move

[1/6/2004 6:43:41 PM] [Stixman] CORV down 1 cent in AH not a factor imo

[1/6/2004 6:44:38 PM] [Zathrus] Man - I got hit by MLNM today - ouch!

[1/6/2004 6:44:53 PM] [malealltrash] I see .02 cents

[1/6/2004 6:44:57 PM] [Investortrader] Notice the LR30 and the upper BB are converging here, look for that to hold any pb's for now

[1/6/2004 6:45:47 PM] [Investortrader] If you aren't in that would be a good place to try to get in

[1/6/2004 6:45:55 PM] [Investortrader] If you wanted to get in

[1/6/2004 6:47:16 PM] [Investortrader] CSCO was mentioned, let's take a quick look at that one too

[1/6/2004 6:48:17 PM] [Stixman] CSCO looks good to me.

[1/6/2004 6:48:39 PM] [rsi77] IT, are you looking at IVII daily?

[1/6/2004 6:48:58 PM] [Stixman] rsi77 CSCO

[1/6/2004 6:49:16 PM] [malealltrash] ARRS up .58 cents ah

[1/6/2004 6:49:35 PM] [Investortrader] Yes, I was rsi

[1/6/2004 6:50:13 PM] [rsi77] I don't see converging LR30 and upper BB...

[1/6/2004 6:50:23 PM] [rsi77] BB are 20,20

ClubHome

[1/6/2004 6:50:30 PM] [rsi77] correct?
[1/6/2004 6:51:12 PM] [Investortrader] Yes
[1/6/2004 6:51:25 PM] [Investortrader] Oh, wait
[1/6/2004 6:51:35 PM] [Investortrader] Did I say upper BB or LR30 and the 50?
[1/6/2004 6:51:50 PM] [Investortrader] It's LR30 and the 50sma, thanks for catching that!
[1/6/2004 6:51:59 PM] [Zathrus] ubb
[1/6/2004 6:52:03 PM] [rsi77] OK, now I got it, thanks
[1/6/2004 6:52:20 PM] [Stixman] MNDO??
[1/6/2004 6:52:29 PM] [cobralso] .
[1/6/2004 6:52:53 PM] [Investortrader] On CSCO, looking good, getting more volume and closing near the days high last couple of days
[1/6/2004 6:52:57 PM] [malealltrash] MNDO UP .05
[1/6/2004 6:53:21 PM] [Zathrus] I'm just pleased it closed above 25 - nice sign
[1/6/2004 6:53:58 PM] [Stixman] thx male ... actually I was looking for comments on chart.
[1/6/2004 6:54:04 PM] [Investortrader] And the middle BB held the recent range too
[1/6/2004 6:54:22 PM] [malealltrash] I need private lessons on charts lol
[1/6/2004 6:54:36 PM] [Zathrus] I don't understand that middle bb comment - can you explain?
[1/6/2004 6:55:17 PM] [Investortrader] The middle Bollinger Band, by definition it's the 20sma
[1/6/2004 6:55:46 PM] [Investortrader] The Nov dip, the Dec consolidation, all above that line, held by it, held from falling more
[1/6/2004 6:55:47 PM] [malealltrash] Wifes cousins son is a VP @ CSCO told all to buy in the 8 to 10 range that all is good if u can believe family
[1/6/2004 6:56:01 PM] [Zathrus] ok - I understand now - thanks for the help....
[1/6/2004 6:56:26 PM] [Zathrus] I work there too Male - got all I can use :D
[1/6/2004 6:56:36 PM] [Investortrader] Welcome :)
[1/6/2004 6:56:42 PM] [malealltrash] u live in NY
[1/6/2004 6:56:51 PM] [Investortrader] Quick look at MLNMThen on to MNDO
[1/6/2004 6:58:06 PM] [Investortrader] MLNM had some bad news today, causing the gap down
[1/6/2004 6:58:11 PM] [Investortrader] Big volume too
[1/6/2004 6:58:17 PM] [dwells129] IT, how about AAI, it broke through resistance trendline today?
[1/6/2004 6:58:28 PM] [Investortrader] Get to that one in a bit dwells
[1/6/2004 6:59:00 PM] [Investortrader] I know Hotto picked some up today

somewhere .. the good thing is the middle BB held the decline for today
[1/6/2004 6:59:07 PM] [Investortrader] And held the OBV also
[1/6/2004 6:59:22 PM] [Zathrus] yes- finished fairly far up the candle today too
[1/6/2004 7:00:13 PM] [Stixman] Bounced off 20sma; I think Hotto referred to this as an opportunity this morning.
[1/6/2004 7:00:16 PM] [Twinkletoes] can u put the KIS settings up if u have time thks
[1/6/2004 7:00:42 PM] [Investortrader] Should be up now Twinkletoes
[1/6/2004 7:01:07 PM] [Investortrader] Yes, he is a believer, but he may have researched it well too
[1/6/2004 7:01:38 PM] [Investortrader] I know nothing about it, so I stepped aside
[1/6/2004 7:02:42 PM] [malealltrash] does anyone know why the TCnet prices don't match the closing prices on Island and brokerage ?
[1/6/2004 7:03:18 PM] [Investortrader] male, could be one is reporting the days close while the other is reporting the after hours close
[1/6/2004 7:03:37 PM] [Investortrader] Going to look at the 5' on MLNM
[1/6/2004 7:03:48 PM] [malealltrash] no these are the days close no ah now that I brought it up the system is autoamtically updating me lol
[1/6/2004 7:04:13 PM] [Investortrader] lol
[1/6/2004 7:04:23 PM] [malealltrash] stock in querstion was SCKT
[1/6/2004 7:04:57 PM] [Investortrader] 5's look just ok, the first bottom in the 10 hour held on the second btm, but there was more selling into the close
[1/6/2004 7:05:48 PM] [Investortrader] Usually it's that second bottom you want to buy once it holds on a drop like this, if you play drops like this
[1/6/2004 7:06:07 PM] [malealltrash] even after update SCKT is still wrong close was 3.72 system shows 3.71 jeez
[1/6/2004 7:06:12 PM] [Investortrader] And it gave you lots of time to buy it there
[1/6/2004 7:07:04 PM] [Investortrader] Any questions on MLNM?
[1/6/2004 7:07:24 PM] [mstrader] SCKT close on MSN Money is 3.71
[1/6/2004 7:07:31 PM] [cobralso] NO
[1/6/2004 7:08:30 PM] [BoBoTrader] Hotto..I use Etrade and they told me that when you sell a stock now you can't use the proceeds to reinvest until 3 days later is that with all brokers do you know? TY
[1/6/2004 7:08:52 PM] [cobralso] ms trader Picky Picky Picky
[1/6/2004 7:08:53 PM] [lavenderangel] ameritrade shows 3.71 for SCKT as well
[1/6/2004 7:08:54 PM] [Investortrader] BoBo, you have a cash account?
[1/6/2004 7:09:09 PM] [BoBoTrader] Yes
[1/6/2004 7:09:53 PM] [Investortrader] That could be the reason
[1/6/2004 7:10:03 PM] [Investortrader] I've never had a cash account, so not sure

100%

[1/6/2004 7:10:04 PM] [lavenderangel] usually BoBo that's true for IRA accts. new 3 day federal law for funds to clear,

[1/6/2004 7:10:11 PM] [malealltrash] only use money immediately with my broker if u margin it

[1/6/2004 7:10:17 PM] [Investortrader] MNDO ...

[1/6/2004 7:10:20 PM] [lavenderangel] you don't have a margin, right?

[1/6/2004 7:10:25 PM] [cobralso] scottrade dosen't do that.

[1/6/2004 7:10:39 PM] [malealltrash] scottrade don't have margin ?

[1/6/2004 7:10:50 PM] [lavenderangel] MNDO yes, let's see it IT

[1/6/2004 7:10:57 PM] [BoBoTrader] They told even if I use a margin account they rule still applies...

[1/6/2004 7:11:04 PM] [AllWeOwn] I can use funds in either type the next day with my broker; did not set them up with margin

[1/6/2004 7:11:06 PM] [parkwaypet] I have scottrade and margin acct

[1/6/2004 7:11:23 PM] [Investortrader] I have never had to wait with a margin account

[1/6/2004 7:11:29 PM] [malealltrash] no problems here buy and sell @ least 15 times a day

[1/6/2004 7:11:54 PM] [malealltrash] in fact I am listed as a daytrader account

[1/6/2004 7:11:58 PM] [BoBoTrader] They told they were recently audited by the SEC and thats a new rule??

[1/6/2004 7:12:27 PM] [cobralso] Who

[1/6/2004 7:12:35 PM] [BoBoTrader] Etrade

[1/6/2004 7:12:46 PM] [Investortrader] I am in one account male, pattern daytrader, but not in the other

[1/6/2004 7:13:16 PM] [malealltrash] that is what I am called a Pattern daytrader

[1/6/2004 7:14:12 PM] [cobralso] I am an investor =D

[1/6/2004 7:14:20 PM] [BoBoTrader] The example of a pattern daytrader they say is if you buy and sell the same stock I think 5 time or more in one day.

[1/6/2004 7:14:36 PM] [Investortrader] I don't daytrade on purpose, but if I buy something near support and it fails, I have no qualms about getting out the same day

[1/6/2004 7:14:57 PM] [Investortrader] It's 4 daytrades over 5 days, or 5 daytrades over 4 days, one of the two lol

[1/6/2004 7:15:22 PM] [malealltrash] I buy and sell quickly many not even mentioned in this room I scalp on .10 cents 20 cents etc on 1k share trades

[1/6/2004 7:15:24 PM] [Steven57] all brokers interpret SEC rules differently, cash accts can be "active traders" and get your \$ same day of trade, it depends on broker

[1/6/2004 7:15:24 PM] [cobralso] Thats it

[1/6/2004 7:15:53 PM] [Steven57] CyberTrader and TradeStation release funds same day on cash accts
[1/6/2004 7:16:15 PM] [Steven57] IB doesn't and Etrade just changed i'm told
[1/6/2004 7:16:25 PM] [malealltrash] I pick my checks up always under 10K since 10k has to be reported to IRS
[1/6/2004 7:16:51 PM] [Steven57] I was getting in trouble with Cyber for daytrading until I requested active trader status
[1/6/2004 7:16:52 PM] [InvestorTrader] MNDO, since the push up early Dec, the middle BB has held the consolidation and we've had more volume on the up days than down days
[1/6/2004 7:17:31 PM] [InvestorTrader] OBV has been confirming the new highs too
[1/6/2004 7:17:53 PM] [Steven57] now free rides are my only concern
[1/6/2004 7:17:56 PM] [InvestorTrader] Now it's riding the upper BB again
[1/6/2004 7:18:42 PM] [Steven57] you are pattern daytrader if you make more than 3 round trips in a running 5 days
[1/6/2004 7:19:33 PM] [Steven57] so if you traded in and out of a stock today, tomorrow, next, and next,,,you are a daytrader
[1/6/2004 7:19:33 PM] [InvestorTrader] Going to look at the 5' for a bit
[1/6/2004 7:19:35 PM] [malealltrash] pattern trader good for me matches my male pattern baldness
[1/6/2004 7:19:40 PM] [lavenderangel] IT, how do you read the drop below ma20?
[1/6/2004 7:19:51 PM] [Stixman] IT ...would you hold on to it or sell here?? I'm in at 5.40
[1/6/2004 7:20:23 PM] [Sail12] On Etrade if you have less than 25k and are a pattern daytrader you have to wait the 3 days
[1/6/2004 7:20:28 PM] [InvestorTrader] lavender, you mean if it dropped below the 20sma? It's not there yet
[1/6/2004 7:20:57 PM] [lavenderangel] no, it did go below it didn't it it just didn't stay
[1/6/2004 7:21:18 PM] [InvestorTrader] I'm only showing a low of 5.82 on it
[1/6/2004 7:21:18 PM] [Sail12] If you have more than 25k the rule doesn't apply
[1/6/2004 7:21:22 PM] [Steven57] you're lucky, if under 25k and tagged as daytrader, you have to increase to 25k or be on liquidation until 25k met
[1/6/2004 7:21:35 PM] [Steven57] once a daytrader, always a daytrader
[1/6/2004 7:21:44 PM] [lavenderangel] sorry, confusing the 1r30 with middle bb
[1/6/2004 7:21:52 PM] [malealltrash] yep
[1/6/2004 7:22:14 PM] [malealltrash] those who went into KOMG had some ride
[1/6/2004 7:22:19 PM] [BoBoTrader] I have much more than \$25,000 in the account and they're telling me this rule applies to me per the audit they had.

[1/6/2004 7:22:47 PM] [Steven57] you need new broker, they are screwing you
[1/6/2004 7:22:50 PM] [Accuinvest] hi guys, it's rule 431 and it is 4 daytrades in a 5 day period

[1/6/2004 7:23:04 PM] [malealltrash] if u getting screwed enjoy then
[1/6/2004 7:23:33 PM] [lavenderangel] how so, IT? can everyone quiet down a little for IT's sharing lesson please?
[1/6/2004 7:23:37 PM] [Investortrader] On the 5's it sold off early, came back, then sold off harder on more volume
[1/6/2004 7:23:58 PM] [malealltrash] sorry bye
[1/6/2004 7:24:20 PM] [Investortrader] Then tried to come back again but the low of the basing area after the first sell-off became resistance and more selling came in at the end of day
[1/6/2004 7:24:37 PM] [BoBoTrader] Steven: thats what I'm going to do, I never had this problem with Etrade and their not happy about it either because their losing commissions!!!
[1/6/2004 7:24:57 PM] [Steven57] if you are cash acct with 50k, 60k, whatever, some brokers have you request "active trader" status, that allows you to daytrade basically, the stick is you have x \$ to spend each day, some recycles, some doesn't depending on the trades made
[1/6/2004 7:25:28 PM] [Steven57] Etrade is sticking you, another buddy is switching for exact same reasons
[1/6/2004 7:26:18 PM] [decdog] Hi investor...ADCT did not want to come down today...darn Oh well we will get our share.
[1/6/2004 7:26:21 PM] [BoBoTrader] Thank you for your input, I appreciate it...)
[1/6/2004 7:26:23 PM] [lavenderangel] IT, so if it doesn't break thru that resistance in AM , it will likely turn down, then?
[1/6/2004 7:26:25 PM] [malealltrash] ARRS now 9.15 afterhours
[1/6/2004 7:27:57 PM] [Investortrader] Most likely I think lavender, also this is the third time it's riding the upper BB since it broke out early Nov, and there was some time between second and third rides ... may need to correct some here ... plus todays lod broke below a few days lows
[1/6/2004 7:28:15 PM] [Investortrader] I hope so decdog!
[1/6/2004 7:28:53 PM] [lavenderangel] but shouldnt it find support on the ma20 or at least the ma50

[1/6/2004 7:31:16 PM] [Investortrader] The 20sma may hold it, if not it's a long drop to the 50sma
[1/6/2004 7:31:17 PM] [lavenderangel] IT, I haven't gotten to the stage where I buy 5k to 15K shares of one stock.
[1/6/2004 7:31:45 PM] [lavenderangel] i sell that. and even the ma20 barely covers the fees i think
[1/6/2004 7:31:57 PM] [CashMan] IT - Sorry to butt in here but looks like every time MNDO breaks out it revisits the 20 dmavg and possibly the 50 dmavg before it goes up again.

[1/6/2004 7:33:29 PM] [Investortrader] I would be out if it broke today's low, I also would watch to see if it can go up here, will need to make a higher high tomorrow to stay in contact with the upper BB

[1/6/2004 7:42:15 PM] [Investortrader] Thanks Stixman and FreeSpirit :)

[1/6/2004 7:42:38 PM] [Investortrader] I know some people won't trade airlines ...

[1/6/2004 7:42:49 PM] [Rookie] IT. Can you take a quick look at EMRG and tell me what you see? Thx.

[1/6/2004 7:42:57 PM] [Investortrader] This one looks good ...

[1/6/2004 7:43:05 PM] [cobralso] TY Got it

[1/6/2004 7:43:13 PM] [Investortrader] Will do that next Rookie

[1/6/2004 7:43:34 PM] [Rookie] Thx

[1/6/2004 7:43:59 PM] [Investortrader] Madea double bottom in Dec with price and OBV making a higher second bottom

[1/6/2004 7:44:42 PM] [Investortrader] And now it's breaking out, on volume

[1/6/2004 7:44:47 PM] [Voyager3K] Has anyone run the Hotto63KR pcf today. I get three hits and just want to confirm.

[1/6/2004 7:45:17 PM] [Investortrader] Got above the 12/15 peak between those two bottoms

[1/6/2004 7:46:01 PM] [HOTTO] syracer has joined the club. Please welcome your new member.

[1/6/2004 7:47:15 PM] [Investortrader] I wouldn't look for much of a pb here yet, has to hold that peak high for the pattern to remain valid

[1/6/2004 7:48:03 PM] [Investortrader] Maybe 12.95 or so if you want to get in
[1/6/2004 7:48:53 PM] [Investortrader] May pause some when it hits the 50sma, most stocks do on first attempt at it
[1/6/2004 7:49:27 PM] [Stitch] Hi Voy, how was your holidays?
[1/6/2004 7:49:33 PM] [Harley] GNLB
[1/6/2004 7:50:09 PM] [Investortrader] That may be around the 13.50 area, eyeballing it ... some other chart points around there also
[1/6/2004 7:50:26 PM] [Stitch] You mean hotto KRN63?
[1/6/2004 7:50:27 PM] [Investortrader] Actually higher thna that if it does it tomorrow
[1/6/2004 7:51:24 PM] [Voyager3K] Hi Stitch, sorry updating ... it wa super. How have you been?
[1/6/2004 7:52:16 PM] [lavenderangel] IT, ma50 is 13.87
[1/6/2004 7:52:35 PM] [Investortrader] But it's coming down, so will be a bit lowr tomorrow
[1/6/2004 7:53:04 PM] [Stitch] The past few weeks were quiet, spent time with family, and away from the market.
[1/6/2004 7:54:17 PM] [Investortrader] So this one looks ok to me, nice range on the daily bar today too
[1/6/2004 7:54:39 PM] [Investortrader] Quick look at EMRG before Hotto gets back :)
[1/6/2004 7:55:50 PM] [Rookie] It seems to be sitting right on LR30
[1/6/2004 7:56:19 PM] [Investortrader] This got impetus from the mad cow scare
[1/6/2004 7:56:31 PM] [Investortrader] I don't like commenting on these lower priced ones, as I don't trade them
[1/6/2004 7:56:39 PM] [Investortrader] Been very volatile, news driven stock
[1/6/2004 7:56:40 PM] [Rookie] How much faith do we put into LR30 as a support line?
[1/6/2004 7:57:12 PM] [kjssorc] is Investortrader HOOTO?
[1/6/2004 7:57:27 PM] [Rookie] It also dropped on lower vol. Is that significant?
[1/6/2004 7:57:29 PM] [kjssorc] HOTTO?
[1/6/2004 7:57:31 PM] [Investortrader] No, at least I haven't received any checks! lol
[1/6/2004 7:57:57 PM] [Investortrader] I would say the price pattern today along with the lower volume is significant
[1/6/2004 7:58:17 PM] [kjssorc] does HOTTO' s name appear when he is in chat?
[1/6/2004 7:58:52 PM] [Rookie] In what way IT?
[1/6/2004 7:59:46 PM] [Investortrader] The price pattern is indicative of moving higher tomorrow at least, the low volume pb to test the LR30 is a good sign also
[1/6/2004 8:00:34 PM] [Obw] What about the unfillee gap IT?
[1/6/2004 8:00:46 PM] [Obw] unfilled

[1/6/2004 8:01:03 PM] [Investortrader] It was mostly filled on 12/30
[1/6/2004 8:01:05 PM] [Rookie] Thx. I was hoping you'd say that:) Bought it at 1.60 but had a mental stop to sell at 1.40. Unfortunately didn't have access to comp. today
[1/6/2004 8:01:42 PM] [Rookie] So still own it
[1/6/2004 8:02:51 PM] [decdog] me
[1/6/2004 8:02:55 PM] [Investortrader] This one being a news driven stock however, makes the TA a bit less effective
[1/6/2004 8:03:18 PM] [swan] .
[1/6/2004 8:03:18 PM] [Investortrader] If another mad cow is found, or 2, or 10 ... or if the all safe signal is given
[1/6/2004 8:03:43 PM] [malealltrash] those stocks are scalp asap stocks
[1/6/2004 8:05:08 PM] [decdog] May I ask what stocks are tied to Mad Cow...IT ty
[1/6/2004 8:05:44 PM] [Rookie] I will see if I can get someone here to send another one down to the states to prop up the stock! LOL!
[1/6/2004 8:06:07 PM] [Investortrader] I'm not sure decdog
[1/6/2004 8:06:15 PM] [Rookie] Guess I shouldn't joke about that. It decimated the beef industry up here in Canada.
[1/6/2004 8:06:36 PM] [decdog] ty IT
[1/6/2004 8:06:54 PM] [Rookie] Lot of people lost a ton and many farmers likely to lose everything because of it.
[1/6/2004 8:08:20 PM] [decdog] I run a small herd, 30- 35 head of beef...natural grown, with customer close at hand..They are asking?..
[1/6/2004 8:08:54 PM] [Stixman] EMRG the shadow on that hammer stopped exactly at support from Sept high. Also a gap that is only partially filled is an indication of the strength of the support in that area. I like your chances alot better than SIRI's pattern.
[1/6/2004 8:09:10 PM] [decdog] They are concerned...Our business will be hurt. No doubt about it.
[1/6/2004 8:10:18 PM] [CashMan] IT your opinion on ITIG. Looks like it's have a little trouble get over 5.65 if you have time.
[1/6/2004 8:10:23 PM] [Rookie] Thx. Stixman. Appreciate the input
[1/6/2004 8:10:47 PM] [Stixman] yw
[1/6/2004 8:10:47 PM] [Investortrader] ITIG ...
[1/6/2004 8:11:44 PM] [Investortrader] It's been sideways here, but closing pretty much in the top of it's range every day
[1/6/2004 8:11:56 PM] [Investortrader] For most of this sideways movement
[1/6/2004 8:13:14 PM] [Rookie] Decdog. I am sorry to hear that. I doubt that we've heard the last of madcow unfortunately.
[1/6/2004 8:13:43 PM] [Investortrader] I'd like to get back in ITIG, but it hasn't let Me

yet

[1/6/2004 8:14:24 PM] [lavenderangel] how hasn't let you IT?

[1/6/2004 8:14:35 PM] [Investortrader] Right now I would favor an upmove from the indications given ... not looking for too much of a pb for me to get in

[1/6/2004 8:14:46 PM] [Investortrader] lavender, won't come down to my buy price lol

[1/6/2004 8:15:02 PM] [CashMan] IT I added to it today. If it pulls back a little I will pick up some more. I think once it breaks that resistance it will have a nice gain to it.

[1/6/2004 8:15:22 PM] [decdog] Rookie..I do not make my living at this, love to raise beef and horses, I feel bad for the folks who make a living feeding us...both Can. and USA

[1/6/2004 8:15:37 PM] [Stixman] Narrowing of BB's is an indication that there will be a BO in one direction or another. Ascending triangle pattern puts odds in favor of a break to the upside. Should test highs of Dec. On the flip side Volume is below daily average and stochastics are overbought. Other positives include sitting on LR30 and bottom BB. Not far above 20 sma and 50 sma. I like it!

[1/6/2004 8:16:08 PM] [decdog] They have real problems...they do not deserve this at all.

[1/6/2004 8:16:12 PM] [Investortrader] I think so too CashMan

[1/6/2004 8:16:31 PM] [Luigistock] Wheres te hottoman?

[1/6/2004 8:16:39 PM] [CashMan] IT thanks for your input

[1/6/2004 8:16:53 PM] [Rookie] Would like to point out to everyone---something positive almost always comes out of a negative situation and I expect nothing less from this madcow thing.

[1/6/2004 8:16:56 PM] [Investortrader] The middle BB and the 50sma are converging too, I don't expect that to break

[1/6/2004 8:17:07 PM] [Investortrader] Welcome CashMan :)

[1/6/2004 8:17:13 PM] [RAS34] Earnings to be released early-mid Feb per ITIG Inv. Relations

[1/6/2004 8:17:22 PM] [decdog] Let hope so :)

[1/6/2004 8:17:49 PM] [lavenderangel] thanks, IT, it's so good to see how others read indicators and their own charts.

[1/6/2004 8:18:08 PM] [Fern] ty IT

[1/6/2004 8:18:33 PM] [Investortrader] Thanks lavender and Fern :)

[1/6/2004 8:19:09 PM] [Zathrus] IT - here's a theory question - I know how BB Squeezes work on price, but what have you observed about squeezes on OBV - does it tell you useful info???

[1/6/2004 8:19:29 PM] [cperkins] 6.60 would impress me

[1/6/2004 8:19:42 PM] [bmweyrauch] ITIG - one senerio might see it "touch and go" on the convergence of price with 50ma...coming up to meet it ... BB squeeze is on so it breaks one way or the other...OBV suggests up....I have no position

[1/6/2004 8:20:23 PM] [decdog] 1.5% inpressed me today

[1/6/2004 8:20:29 PM] [Investortrader] Zathrus, sometimes it means the same thing ... what I like to see when the price BB's are squeezing is for OBV ro be either rising or falling some, to show accumulation or distribution during that phase

[1/6/2004 8:20:42 PM] [atexpal] I got off my ARRS in after hours...don't understand the parabolic move after the close

[1/6/2004 8:20:44 PM] [CashMan] ITIG would impress me when it goes above 5.68. I don't ask for much :)

[1/6/2004 8:21:13 PM] [Stixman] Perkins I would take the \$1. move to 6.60 and get out there. I had a notation to myself to buy at the tweezer bottom in Mid Dec but overlooked it. No position.

[1/6/2004 8:21:51 PM] [parkwaypet] NKTR goood bb squeeze and TSV rising and good stoc and nice volume today

[1/6/2004 8:21:54 PM] [cperkins] 5.68 is good enough cmam

[1/6/2004 8:22:19 PM] [Stixman] cmam??

[1/6/2004 8:23:02 PM] [decdog] ITIG LR30 ride...resting on the 10dma

[1/6/2004 8:23:50 PM] [cperkins] the key is to catch the breakout point so the stop is low risk

[1/6/2004 8:24:42 PM] [Zathrus] ITIG is up 180+ % in 3 months - lowe risk will be a very relative term :)

[1/6/2004 8:24:43 PM] [cperkins] not losing is the key to making money

[1/6/2004 8:25:10 PM] [decdog] 50 up the lr30 up 20 d up 10d up BB moving north for room...I hope I am right:)

[1/6/2004 8:25:56 PM] [decdog] SL set @5.37 ITIG

[1/6/2004 10:13:52 PM] [bmweyrauch] much depends on trading time frame and aversion level to risk....out now would be very respectable....I personnally would wait for sense of market in the AM and let it run a lttile in an up market....could easily be inclined to bail on a down market I expected to be down all day

[1/6/2004 10:14:32 PM] [decdog] Right very right hmmm

[1/6/2004 10:14:55 PM] [tobydad] i've only been in this chat group a few days; it seems i see alot about taking some profit on a regular basis...?

[1/6/2004 10:15:00 PM] [bmweyrauch] OBV, the nice base, and today's volume suggestmore upside

[1/6/2004 10:15:59 PM] [bmweyrauch] brb

[1/6/2004 10:16:30 PM] [tobydad] bmw, don't know "brb"

[1/6/2004 10:17:00 PM] [bmweyrauch] back
[1/6/2004 10:17:22 PM] [bmweyrauch] good point on profit taking....
[1/6/2004 10:18:05 PM] [bmweyrauch] a good strategy (hotto's) is to take some at the s points and then buy back on the dips...
[1/6/2004 10:18:37 PM] [tobydad] haven't learned how to spot the s points yet
[1/6/2004 10:18:48 PM] [bmweyrauch] latley dips have not developed in some se have taken partial profits in...but this will change
[1/6/2004 10:19:14 PM] [tobydad] change?
[1/6/2004 10:20:19 PM] [bmweyrauch] last few days have been pretty bullish in many stocks we watch/trade here....powerful moves through s points without pausing in some cases
[1/6/2004 10:21:02 PM] [tobydad] oh, so on not-so-bullish days, there will be more pb's...?
[1/6/2004 10:21:08 PM] [bmweyrauch] lots o money coming into the market after the first of the year....pushing things up in stocks hotto and others have identified
[1/6/2004 10:21:24 PM] [bmweyrauch] yes...imo and experience
[1/6/2004 10:22:22 PM] [tobydad] hmm, so much to learn
[1/6/2004 10:22:28 PM] [bmweyrauch] a thought....you could always take some profits here and then get back in on either 1. a dip, or 2. a DBO
[1/6/2004 10:23:29 PM] [tobydad] i think that's the plan, i'd love even more profit...but i'd really hate losing what i've got so far
[1/6/2004 10:24:20 PM] [bmweyrauch] I understand completely...good luck, let me know how it goes, I'd like to hear
[1/6/2004 10:24:42 PM] [Luigistock] "Take all you can and give back nuthn!"
[1/6/2004 10:24:59 PM] [tobydad] here's to the black pearl

[1/6/2004 10:25:14 PM] [Luigistock] arrrgh

[1/6/2004 10:29:52 PM] [bmweyrauch] VMC - newly G+...nice PB today to LR30 and stayed above yesterday LOD...I know it is only a three letter stock but I am considering some call options
[1/6/2004 10:30:16 PM] [Luigistock] 9.60 and then 9.40 then the 50 are your supports so take a percentage of profit and see how it handles those support levels
[1/6/2004 10:30:47 PM] [bmweyrauch] good idea Luigi
[1/6/2004 10:31:08 PM] [Luigistock] your idea my interpretation :)
[1/6/2004 10:31:33 PM] [bmweyrauch] a la hotto ;)
[1/6/2004 10:31:40 PM] [Luigistock] ala hotto:)
[1/6/2004 10:31:49 PM] [tobydad] ok, i understand...so take, say, 50%, then see how the rest does at your suggested supports(?)
[1/6/2004 10:32:15 PM] [bmweyrauch] BINGO !! :) toby

[1/6/2004 10:34:15 PM] [tobydad] :D

[1/6/2004 10:49:00 PM] [decdog] TY
[1/6/2004 10:49:12 PM] [bmweyrauch] I am looking at 50 CALLS
[1/6/2004 10:49:49 PM] [bmweyrauch] vmc
[1/6/2004 10:50:49 PM] [decdog] very steady progress on the 5d
[1/6/2004 10:52:29 PM] [decdog] every time it pops it settles back downto the 20 d
[1/6/2004 10:52:42 PM] [DoyleN] BMW, do you know when VMC reports earnings.
[1/6/2004 10:53:05 PM] [bmweyrauch] not off hand
[1/6/2004 10:53:35 PM] [bmweyrauch] will look before buying...will post later
[1/6/2004 10:54:07 PM] [DoyleN] Thanks , I'll try to find also.
[1/6/2004 10:55:35 PM] [bmweyrauch] VMC - reports Feb 2 AH
[1/6/2004 10:56:13 PM] [decdog] BMW would this be tie to the building industry?
[1/6/2004 10:56:48 PM] [erisalaw] BMW I would hold off until the gap is filled or it starts to run on VMC. Otherwise you fight the spread and have to give back some of your dollars if it dips. If it covers the entire gap - the 45's might be best after the PB. FWIW.
[1/6/2004 10:56:49 PM] [decdog] next earnings release on VMC 2/2/04
[1/6/2004 10:57:47 PM] [DoyleN] RMW, yes Feb. 2 estimated .52
[1/6/2004 10:58:33 PM] [erisalaw] On VMC you still have 3 weeks until the earnings release. Generally there will be time to enter later. Of course, it could just take off from here. IF you make the trade, please call out the results.
[1/6/2004 10:59:25 PM] [bmweyrauch] thanks eri...good thoughts, appreciated....VMC in construction chemicals, and raw materials like stone, rock , etc...
[1/6/2004 10:59:43 PM] [DoyleN] VMC, I have done lots of business in the past...they have many Stone Quarries, Asphalt and Ready Mix concrete.
[1/6/2004 10:59:59 PM] [decdog] I have learned so much from this group...The earning reports etc so helpful
[1/6/2004 11:00:48 PM] [decdog] Its cold out there in Oregon...do you ski Mt Bachelor BMW?

[1/6/2004 11:01:12 PM] [erisalaw] BTW on VMC, their guidance change was from .48 to "at least" .57 - impressive.
[1/6/2004 11:01:39 PM] [bmweyrauch] not a skier any more....back... too risky...I am a chalet kind of guy now :)

[1/6/2004 11:03:24 PM] [decdog] Love skiing :)

[1/6/2004 11:04:12 PM] [tobydad] skiing:); skydiving :); water skiing :)

[1/6/2004 11:04:41 PM] [decdog] Very impressive

[1/6/2004 11:04:43 PM] [erisalaw] Hey decdog IMHO the only thing that makes a stock go up is the buyer's expectation that the earnings outlook is better than already priced into the stock. Therefore the starting place for most trades is earnings guidance or G+ stocks as Hotto would say.

[1/6/2004 11:06:11 PM] [bmweyrauch] agree erisalaw...I am finding good value in Briefing .com Gold Guidance page

[1/6/2004 11:06:34 PM] [tobydad] anyone tried tradethenews.com?

[1/6/2004 11:06:49 PM] [decdog] I here you...I will be watching AM...could do well...SECTOR thing I am thinking about

[1/6/2004 11:07:04 PM] [bmweyrauch] not familiar with it toby

[1/6/2004 11:08:00 PM] [tobydad] streaming audio, read the news to you as it happens plus emails on earnings, guidance, etc Tried it for a month...very profitable

[1/6/2004 11:08:34 PM] [bmweyrauch] thanks, will take a look

[1/6/2004 11:08:51 PM] [erisalaw] I am also unfamiliar with tradethenews.com. A good site for positive guidance stocks is piratepicks.com which is subscription based and has been profitable for me.

[1/6/2004 11:08:57 PM] [decdog] Hoe much a month...Toby?

[1/6/2004 11:09:11 PM] [decdog] How

[1/6/2004 11:09:29 PM] [tobydad] 350 clams, not cheap imho but...made it back the 1st day.

[1/6/2004 11:09:41 PM] [GoStocks] G+ is not in Hotto's Glossary. What does it refer to?

[1/6/2004 11:09:56 PM] [erisalaw] G+ are the positive guidance stocks.

[1/6/2004 11:10:04 PM] [w2jc] gostocks -- look in the ENCYCLOpedia in Hotto Files area

[1/6/2004 11:11:02 PM] [bmweyrauch] erisalaw - I have reviewed the piratepicks info

they sent me in the mail...does look interesting...fits my belief in prices being driven by earnings expectations and best expectations are based on management's neck on the line

[1/6/2004 11:11:59 PM] [erisalaw] toby - I pay less for pirate and have been more than satisfied. Had me in NFLX in October and December long call options - also in RIMM on December 22 long call options. Other profitable and sometimes losing positions also.

[1/6/2004 11:14:00 PM] [bmweyrauch] #96 of what ?

[1/6/2004 11:14:11 PM] [erisalaw] bmw - I know Preston - the "Pirate". I have a lifetime sub to piratepicks.com and a one year sub to his daily service. If you actively trade, the daily service is unnecessary but it saves me time and as a lawyer by training I know that time is money LOL

[1/6/2004 11:14:35 PM] [tobydad] eri, thx, can't have too many wrenches in the toolbox, you know.

[1/6/2004 11:15:37 PM] [dgraham42] what does Piratepicks.com charge?
