[12/26/2003 2:12:33 PM] [hotto] NGEN. had a strong move on 12/22.. then dipped 12/23.. I began nibbling late Tues..  
[12/26/2003 2:13:24 PM] [hotto] Note.. again.. the Usual.. Hotto -style pattern... Beautiful OBV..  
[12/26/2003 2:13:47 PM] [hotto] evidence. again.. of underlying Accum... Firm hands..  
  
[12/26/2003 2:14:57 PM] [rsi77] But on AVNX not so good OBV...but you buy for other reasons...that's why I need your website up so I can put this all together better..  
[12/26/2003 2:15:32 PM] [hotto] ORCH.. closed over 10/17 SH.. and OBV at new Rally High.. since September..  
[12/26/2003 2:15:40 PM] [Riverlily] Hi Hotto. i need to get a copy of your trading template. i went to your profile and didn't see a copy I could take from. Can you share one in chat and I can take a copy from that please?  
[12/26/2003 2:16:33 PM] [hotto] ORCH.. OBV is "pointing to" over 2.00.. just a matter of time now.. ( Hotto view)  
[12/26/2003 2:17:42 PM] [hotto] ORCH.. FOP = 2.90 at least we have something to shoot for.. after 2.00  
[12/26/2003 2:19:43 PM] [hotto] AVNX.. yeah.. the OBV requires close inspection.. Since Website is not up yet.. I will review AVNX tomorrow.. in Detail..  
[12/26/2003 2:22:14 PM] [TrillionDolarMan] What's the word, Hotto? DOW 36,000? And, if so, by when?  
[12/26/2003 2:22:34 PM] [rsi77] AVNX, thanks Hotto  
[12/26/2003 2:22:44 PM] [hotto] ORCH.. I will be adding-to. on Monday.. Close today earned the add-to.. Perhaps we can get a .10 dip PreMkt..  
[12/26/2003 2:22:46 PM] [TrillionDolarMan] I was reading HARRY BROWNE's Permanent Portfolio theory...any feedback on Harry?  
[12/26/2003 2:23:01 PM] [hotto] Harry Brown... LOL....  
[12/26/2003 2:23:23 PM] [TrillionDolarMan] Harry's got the best definition of Investor vs. Speculator that I've heard so far.  
[12/26/2003 2:23:26 PM] [rsi77] I'm out of here for now, so have a great weekend Hotto, and all  
[12/26/2003 2:23:35 PM] [hotto] One of the old gurus.. that cost me a bunch.. in late 70's...

[12/26/2003 2:23:50 PM] [TrillionDolarMan] I think I'm going to become an Investor. This SPECULATION business takes a lot of work, you know...

[12/26/2003 2:23:59 PM] [erisalaw] Brown got a lot of us then.

[12/26/2003 2:24:02 PM] [TrillionDolarMan] How did Harry cost you?

[12/26/2003 2:24:23 PM] [TrillionDolarMan] GLAD I brought it up -- this could be worth my thru 2004 TCNet subscrip. right here!

[12/26/2003 2:24:26 PM] [erisalaw] Me - with some recommended trades that did not work for me.

[12/26/2003 2:24:34 PM] [ChartMonkey] hotto any thoughts on coiling action here in CORV

[12/26/2003 2:24:43 PM] [TrillionDolarMan] Trades, or PERMANENT PORTFOLIO, erislaw?

[12/26/2003 2:24:49 PM] [hotto] I'll just be quiet now.. Not good for my stress..levels.. talking about Brown and Prechter... etc

[12/26/2003 2:24:52 PM] [erisalaw] Trades.

[12/26/2003 2:25:03 PM] [hotto] "gurus"... LOL

[12/26/2003 2:25:20 PM] [TrillionDolarMan] lol...so, having failed to learn the historical lessons of Hotto, I am CONDEMNED to make the same er...well, you know....?

[12/26/2003 2:25:44 PM] [erisalaw] I agree. I am never worried about past losses except to learn from them. I focus on finding profitable entries with targets for now.

[12/26/2003 2:25:57 PM] [ChartMonkey] TDM, your comment above at 2:23 is HB's definition?

[12/26/2003 2:25:59 PM] [TrillionDolarMan] Don't I come up with some of the GOLDEN OLDIES every now and then, Hotto?

[12/26/2003 2:26:10 PM] [hotto] Helps having been through "greatest Bull mkt".. "greatest Crash"...etc.....

[12/26/2003 2:26:19 PM] [erisalaw] Hotto - You my guru.

[12/26/2003 2:26:22 PM] [TrillionDolarMan] here's Brown's definition..this could get the FIRE going in CLUB HOTTO today...

[12/26/2003 2:26:46 PM] [hotto] erisalaw.. please.. no!...:o

[12/26/2003 2:27:03 PM] [hotto] Constant thinking.. study.. review.. etc.. etc....

[12/26/2003 2:27:20 PM] [erisalaw] LOLuck. There do not appear to be that many active at the moment. SUre better than Stock stalker with him gone.

[12/26/2003 2:27:30 PM] [hotto] "The only constant is CHANGE"

[12/26/2003 2:27:32 PM] [TrillionDolarMan] AS PER HARRY BROWNE: "When you INVEST, you accept whatever return the makrets are paying investors in general."

[12/26/2003 2:28:37 PM] [TrillionDolarMan] as per Harry Browne: "When you SPECULATE, you attempt to beat that return -- to do better than other investors are

doing -- through clever timing, forecasting, or selection. The implicit assumption is that you have knowledge or talents other investors lack."

[12/26/2003 2:29:29 PM] [ChartMonkey] but wait - if other "investors" are going to have a deaf dumb and blind buy and hold mentality, what sort of talent is it that they have?

[12/26/2003 2:29:40 PM] [hotto] I suppose.. I am about average now.. Up about 250% this year..

[12/26/2003 2:30:07 PM] [Cobratrader] i wish i was average :D

[12/26/2003 2:30:15 PM] [TrillionDolarMan] I happen to think that's not a bad definition/distinction between those two terms, which are the most debated pillars of financial management to begin with, since the time of the FIRST STOCKBROKER, and before....and I've read quite a few of the variously attempted other definitions, I might add...

[12/26/2003 2:30:17 PM] [ChartMonkey] i also like a quote I read from Prechter in some interview: "All market participants are speculators on one time frame or another."

[12/26/2003 2:30:33 PM] [TrillionDolarMan] Hotto, you, sir....are A SPECULATOR!

[12/26/2003 2:30:57 PM] [ChartMonkey] sort of goes hand in hand w/Keynes' "long run" quote.

[12/26/2003 2:30:58 PM] [gary12] hotto average is good :)

[12/26/2003 2:31:03 PM] [TrillionDolarMan] and under good circumstances, that's about the best compliment I could pay you in 2003!!!

[12/26/2003 2:31:07 PM] [erisalaw] Hotto - You the man. Without a guru to blame many would be lost. To be honest. I never get as good a fill on anyone because I sift all recos from any advisor/"guru" through my rules. Take most trades from my favorite advisors but never blindly. Have not bought ones that do not fit my level of pain/loss possibilities. I am not always right BTW. Hotto - Having started back in the markets at the end of September, I do not mind you beating me by a little. LOL Would gladly be average year after year with you Hotto.

[12/26/2003 2:31:30 PM] [napleschip] seems like all investing is a speculation to some degree. we just want the odds in our favor as much as possible.

[12/26/2003 2:31:49 PM] [erisalaw] I agree naples

[12/26/2003 2:31:58 PM] [TrillionDolarMan] What I find amusing, is that the term SPECULATOR has become associated with a TABOO -- like "Drug Dealer", "Pimp", etc...."oh.....my gosh....that's a HIGH SPECULATIVE thing to do..."

[12/26/2003 2:32:22 PM] [napleschip] good charts in supportive markets help our :edge".

[12/26/2003 2:32:39 PM] [hotto] I have excuses.. for my performance..

[12/26/2003 2:33:05 PM] [Cobratrader] you spend to much time teaching us, but thank you

[12/26/2003 2:33:07 PM] [TrillionDolarMan] Hotto's 250%...in 2003 alone...suggest VERY STRONGLY that he has "knowledge or talents that other investors lack".

[12/26/2003 2:33:09 PM] [ChartMonkey] oh but don't all the feel-good self help books and seminars trot out that old saw about how you'll have more regrets about the things you didn't try to do or be ... ?

[12/26/2003 2:33:13 PM] [napleschip] thanks erisalaw.

[12/26/2003 2:33:41 PM] [TrillionDolarMan] I'm also reading BEN STEIN, you can time the market, now....

[12/26/2003 2:34:18 PM] [napleschip] ben is right but you must live 300 yrs to benefit from his time horizon.

[12/26/2003 2:34:19 PM] [DoyleN] I'll ride with Hotto.

[12/26/2003 2:34:31 PM] [TrillionDolarMan] He says in the fist paragraph that neither he nor his cowriter know how to buy and INDIVIDUAL stock...all they know to do is buy the index when it's relatively low priced by their metrics.

[12/26/2003 2:34:51 PM] [TrillionDolarMan] Thank you, Naples...I'm going to the vitamin cabinet right now....

[12/26/2003 2:35:33 PM] [napleschip] hi TDM. afraid vitamins are too late for me. i'm thinking more like..oxygen.

[12/26/2003 2:35:36 PM] [hotto] erisalaw.. thanks.. We will be struggling together.. for a while it seems..)

[12/26/2003 2:35:40 PM] [TrillionDolarMan] Well, anyway, I threw out the Harry Browne boomerang for feedback, and it came back to me MUCH MUDIED....lol...

[12/26/2003 2:36:16 PM] [napleschip] i like the ETF's..but only when they're rising.

[12/26/2003 2:36:21 PM] [hotto] exactly chip.. Good charts in "ok mkts".. that's all we need...

[12/26/2003 2:36:25 PM] [ChartMonkey] hey you outrun "inflation" \* (\* at least the BLS calculation, which is laughable) for 300 years, and you may well be able to afford a yacht, AND pay cash for all your prescription drugs and Depends (TM) undergarments. what a life - badda bing.

[12/26/2003 2:36:51 PM] [napleschip] good charts in ok markets give a double bang for the buck.

[12/26/2003 2:37:18 PM] [hotto] Cobra.. My biggest excuse.. was all that distraction from the Consulting job.. taken during February.. cost me money all year..

[12/26/2003 2:37:21 PM] [TrillionDolarMan] Browne's basic premise is to divide your portfolio 25%-25%-25%-25%- among CASH, BONDS, GOLD, STOCKS. Then, annually, or as often as necessary, whenever any one category gets to be greateer

## ClubHome

or less than 15% or 35%, you adjust back to the original 25% ratios accordingly. And that is all you do until you die, and your heirs inherit the problem of what to do with your money...

[12/26/2003 2:38:11 PM] [TrillionDolarMan] He calls it, The PERMANENT PORTFOLIO. His backtest is 9% per year from 1970 to 1998 (mostly bull mkt., even including '73/'74).

[12/26/2003 2:38:16 PM] [ChartMonkey] asset allocators - stuff that goes up is bad. sell it.

[12/26/2003 2:38:19 PM] [ChartMonkey] :)

[12/26/2003 2:38:51 PM] [TrillionDolarMan] It is an interesting example of diversification, in that one asset is often CANCELLING OUT THE performance of the other portfolio holdings....but, theoretically, on balance, the total portfolio goes up...

[12/26/2003 2:38:54 PM] [hotto] What a Stupid Division !!!

[12/26/2003 2:38:55 PM] [napleschip] i find that when my work shows i should be long ETF's thats when hotto's good chart stocks really fly.

[12/26/2003 2:39:17 PM] [ChartMonkey] an don't just sell it when the charts say sell it, but rather on an arbitrary rebalancing schedule. or, whenever your "investment professional" advisor says to. :)

[12/26/2003 2:39:21 PM] [Cobratrader] Hotto, yeah real jobs stink. =DB)

[12/26/2003 2:39:26 PM] [TrillionDolarMan] So, since 2000, you lost heavily on stocks....but got it back with gold...he suggests...highly INEFFICIENT, but safe, he alledges...

[12/26/2003 2:40:01 PM] [TrillionDolarMan] and you profited from bonds also, since 2000...and got killed with your cash since 2002, if USA cash.

[12/26/2003 2:40:40 PM] [hotto] That's all I can take.. of the Allocator-stuff...P

[12/26/2003 2:40:43 PM] [TrillionDolarMan] He excluded real estate, saying it is not a financial asset class, though one might have real estate if they own their home, etc....or be in it as a sepearate business, if a landlord.

[12/26/2003 2:41:09 PM] [TrillionDolarMan] Well, Browne says he would get 9% this year, as opposed to your rate of return..:)

[12/26/2003 2:41:21 PM] [TrillionDolarMan] take your pick!

[12/26/2003 2:41:29 PM] [napleschip] if you want real estate AND a big yield buy RLF. but only when its cheap.

[12/26/2003 2:41:50 PM] [TrillionDolarMan] at 9% compounded...he can catch up to your one year results.....in 25 years, or so...

[12/26/2003 2:42:26 PM] [TrillionDolarMan] he may have to spend "less time at the office" than you do, though....

[12/26/2003 2:43:46 PM] [hotto] Lack of buildable land in San Diego County.. 2.. Population Growth.. esp among the "Haves"...

[12/26/2003 2:44:08 PM] [hotto] I paid 212 ... now worth about 500...

[12/26/2003 2:44:09 PM] [TrillionDolarMan] I so greatly admire the stock brokers from the golden age of 1970 to 1973, that I've adopted their terminology...

[12/26/2003 2:44:40 PM] [hotto] Had to live somewhere.. may as well live somewhere that would pay for itself..

[12/26/2003 2:45:10 PM] [TrillionDolarMan] How much of that is inflation, though, Hotto? I figure 5% to 7% per year inflation anyway, in USA; don't care what Greenie says -- he does not pay my rising bills.

[12/26/2003 2:45:44 PM] [TrillionDolarMan] One SHOULD own their residence....and keep it modest to maintain = financial planning decision #1, they say.

[12/26/2003 2:46:02 PM] [hotto] 212 to 500.. in 12 years.. Wow Some inflation !...

[12/26/2003 2:46:31 PM] [TrillionDolarMan] Well, 7% per year doubles once every 10 years, of course...

[12/26/2003 2:46:45 PM] [TrillionDolarMan] 3.5% inflation doubles every 20 years.

[12/26/2003 2:46:58 PM] [TrillionDolarMan] if my math is right...

[12/26/2003 2:47:33 PM] [hotto] Using CPI.. or PPI..

[12/26/2003 2:47:43 PM] [napleschip] where is our GLAD headed TDM? i bought a ton for the 6% yield.

[12/26/2003 2:47:51 PM] [TrillionDolarMan] Really, since 1970, or so, real estate has been superb in almost any "good" market in USA...certain markets, like Long Island, NY, San Francisco, etc...parabolic almost.

[12/26/2003 2:48:04 PM] [TrillionDolarMan] GLAD?

[12/26/2003 2:48:26 PM] [napleschip] thought you said you bought GLAD.

[12/26/2003 2:50:32 PM] [TrillionDolarMan] It will take me at least 25 years to get into Hotto's league, assuming I A.) don't get run over by a MACK TRUCK first, and B.) even have what it takes to begin with, between smarts and instinct.

[12/26/2003 2:51:02 PM] [Mike23] bought the farm in NJ in 1980 for 115 sold it in 2001 for 705

[12/26/2003 2:59:55 PM] [hotto] TDM.. let me restate what I have often said.. "I make lots of mistakes".. Some even pretty dumb!

[12/26/2003 2:59:59 PM] [TrilionDolarMan] Or is it, "may be wrong....but NEVER in doubt"?

[12/26/2003 3:00:21 PM] [hotto] others .. just normal R/R stuff..

[12/26/2003 3:00:50 PM] [hotto] but.. all in all... I pay the bills.. miraculously...:8

[12/26/2003 3:00:57 PM] [TrilionDolarMan] Y'all are TOO MUCH fun...I have to go mail my thank you cards b4 post office closes....sooooooooooooooooo, happy holidays, happy new year coming....a good weekend, and good trading always. Cheers!

[12/26/2003 3:01:25 PM] [hotto] HOpe you got some of that AVNX NGEN today..

[12/26/2003 3:01:28 PM] [napleschip] bye TDM. you're a character. a good character.

[12/26/2003 3:01:52 PM] [hotto] THere are many more.. near "ready to go" maybe Monday...

[12/26/2003 3:02:31 PM] [hotto] Gotta Love this "Re-elect W" market..)

[12/26/2003 3:02:33 PM] [w2jc] hotto... i still find it hard to believe you can juggle so many open positions plus all the chatter and your replies on here and still come out alive every day !!

[12/26/2003 3:02:41 PM] [napleschip] hotto. you say you're here saturday noon?

[12/26/2003 3:02:58 PM] [hotto] yep chip.. noon ET.. Saturday..

[12/26/2003 3:03:40 PM] [napleschip] and we will listen.

[12/26/2003 3:04:21 PM] [hotto] whew !.. If everyone stops listening.. it will mean my crystal ball is broken...o

[12/26/2003 3:05:02 PM] [napleschip] if you can tempt us with the potential to make 250% i guarantee, we will listen.

[12/26/2003 3:05:28 PM] [hotto] oh yeah... ORCH and MSSN

[12/26/2003 3:06:01 PM] [hotto] Next year.. will be much harder to make over 200%.

[12/26/2003 3:06:33 PM] [napleschip] ORCH and MSSN. have made moves. more to

come?

[12/26/2003 3:06:39 PM] [hotto] Usually.. every year.. there is one good IT Rally.. that can get us about 100%.. The rest of the year is Tough stuff..

[12/26/2003 3:07:38 PM] [hotto] ORCH.. I am playing for 1.81.. then 2.00... OBV is flying.. just put out FOP=2.90 earlier.. has the accum to support such a move.. esp. coming into new Year

[12/26/2003 3:08:39 PM] [napleschip] weekly ORCH...just beginning.

[12/26/2003 3:08:44 PM] [hotto] MSSN.. just playing target to target.. probably see.. near 3.00...

[12/26/2003 3:09:06 PM] [hotto] yes.. ORCH.. I loaded up... has some real technology.. in bio...

[12/26/2003 3:09:53 PM] [hotto] ORCH.. was one of those that came out during the Genome Technology boom..

[12/26/2003 3:09:58 PM] [rensop] Well gentlemen if I do not get back to the books and study guide I will never learn this trading business. Have downloaded some godstuff from tina's presentations

[12/26/2003 3:10:07 PM] [napleschip] these little guys look like they are going up but as an older investor these cheapies creep me out.

[12/26/2003 3:10:33 PM] [hotto] I know what you mean !. cheapies..

[12/26/2003 3:10:46 PM] [wjonass2] hotto is there still life in crazy IVAN?

[12/26/2003 3:10:55 PM] [napleschip] they do have the momentum.

[12/26/2003 3:11:33 PM] [hotto] so far OBV has worked pretty well on these cheapies.. I just keep my posns small enough.. so I can sleep

[12/26/2003 3:11:50 PM] [w2jc] wj -- not until i give up and sell my IVAN positions... then you will see it burst up again :o

[12/26/2003 3:12:09 PM] [wjonass2] :D:D

[12/26/2003 3:12:12 PM] [hotto] keep us informed, Jim...:D

[12/26/2003 3:12:53 PM] [w2jc] heh heh ... i still say i should sell a service ... pay me to stay out of your stocks !! i'm still riding IVAN for now, though

[12/26/2003 3:12:56 PM] [hotto] IVAN.. had a .10 range today.. !!!

[12/26/2003 3:13:45 PM] [hotto] NR7.... NR50

[12/26/2003 3:14:13 PM] [hotto] INR7..

[12/26/2003 3:14:42 PM] [hotto] LOD held sma10..

[12/26/2003 3:14:49 PM] [w2jc] i was short AKS since 12/23 (which i never should have done) ... and my charts kept telling me it was going to break down for a pullback ... but gapped up today and held for hours... so i decided to 'box' with some longs in case it broke to the upside ... within five minutes after i went long, it broke down just like i had expected before that !!

[12/26/2003 3:15:01 PM] [hotto] maybe a DBO..  
[12/26/2003 3:15:54 PM] [hotto] Posn size... I got another PM on it..  
[12/26/2003 3:16:57 PM] [hotto] On "normal price" stocks.. like in the \$15 range.. I will use 10% of Account size.. as a "full posn"..  
[12/26/2003 3:16:57 PM] [w2jc] you must get a million PMs all day and night !!  
[12/26/2003 3:17:36 PM] [wjonass2] ty  
[12/26/2003 3:18:05 PM] [hotto] But.. on these Cheapies..( under about 5).. I will use a smaller size.. maybe start with a 5% of account posn..  
[12/26/2003 3:18:25 PM] [napleschip] so hot, you hold maybe 10 - 15 positions? in a supportive market i assume. what happens to those positions when market turns down?  
[12/26/2003 3:19:03 PM] [hotto] then.. if it behaves.. or I get another Buy sig.. Then.. I will bring it up..... say add another 50%..  
[12/26/2003 3:19:36 PM] [hotto] I will rarely go over a 10% account posn... in a low priced stock..  
[12/26/2003 3:20:17 PM] [hotto] This can suck me into an all day discussion.. of TA and FA.. and Market sense.. .....etc.....  
[12/26/2003 3:20:51 PM] [hotto] And.. Sector rotation.. Phase of Economy ( gets into Garzarelli's area)...  
[12/26/2003 3:21:08 PM] [napleschip] ok. anyway, nap time in florida. this was a nice chat. thanks.  
[12/26/2003 3:22:25 PM] [hotto] Simple view of it.. from the Dec. 2003 time is.....  
[12/26/2003 3:23:08 PM] [hotto] We are rotating into the Capital-Spending.. Inventory Building phase of the Economic Recovery..  
[12/26/2003 3:24:00 PM] [RollingPut] MANU  
[12/26/2003 3:24:06 PM] [hotto] This is the time.. to move out of the Consumer Discretionary... ( do the moving from now until when the Retailers report Earnings.. )..  
[12/26/2003 3:24:33 PM] [hotto] and into the Good Charts.. stocks.. of the Cap-x.. phase..  
[12/26/2003 3:24:59 PM] [hotto] We have talked a lot about CEs.. and comm . Eqpts..  
  
[12/26/2003 3:26:57 PM] [hotto] I have mentioned ADCT BKHM AVNX OCPI FNSR CPN JDSU .. others..  
[12/26/2003 3:29:42 PM] [hotto] anyway.. there are still some "cheapies" left in the cap-x area.. esp in comm. eqpt.. If the "last mile buildout" we have discussed works out.. these will not be cheapies any more..  
[12/26/2003 3:31:25 PM] [hotto] I don't bet big on any one of them.. ( exception is ADCT)... just have a kind of "fund" of them all..

## ClubHome

[12/26/2003 3:32:19 PM] [hotto] I have no guarantee that they will work out the same way.. but.. I look at it similarly to the CEs.. "fund" I suggested last April..

[12/26/2003 3:32:24 PM] [w2jc] the 'last mile buildout' was about the last hot project in the works just before the fiber optic 'crash' ... the company i used to work for was busy back then selling the Test Systems to the big comm.equpt manufacturers before the bottom fell out

[12/26/2003 3:33:22 PM] [hotto] that was AEIS ASYT BRKS HELX ASML CMOS KLIC

[12/26/2003 3:34:02 PM] [hotto] May have been a couple others... I forget.. It is in the Chat Logs..

[12/26/2003 3:36:15 PM] [hotto] Since last time I mentioned "last mile buildout"... we have some new data...

[12/26/2003 3:37:21 PM] [hotto] VZ named GLW and ADCT and a couple others.. as their support cos.. to move ahead with "last mile buildout" next year.. ( competing with the Cable cos.)...

[12/26/2003 3:38:07 PM] [hotto] 2. Have On-line Retail sales much stronger than expected.. and spreading out to new areas.. new customers..

[12/26/2003 3:38:42 PM] [hotto] that means simply that the Broadband buildout will be more in demand than we expected..

[12/26/2003 3:39:24 PM] [hotto] For now.. all systems go.. esp just entering a new year..

[12/26/2003 3:40:10 PM] [hotto] We must keep alert for any doubts that show up.. either news items.. or on charts..

[12/26/2003 3:40:46 PM] [hotto] for now.. We had a great day in AVNX.. better than I expected. a few days before EOY... Good for us..

[12/26/2003 3:41:41 PM] [hotto] the point... has to do with posn size in cheapies..

[12/26/2003 3:42:49 PM] [hotto] so.. for these stocks.. that I see have good catalysts.. Revenue growth.. ahead.. next 2 - 4 Qtrs.. I am willing to grow the posn size as the stocks move higher..

[12/26/2003 3:43:29 PM] [hotto] I am willing to "buy on weakness" only until next Wednesday... THEN.. they must begin to move up... at least firm up...

[12/26/2003 3:44:10 PM] [hotto] "buy on weakness" is a strategy.. specific to EOY tax - selling.. taking advantage of it...

[12/26/2003 3:44:38 PM] [hotto] That strategy Ends.. next Wed.. 1 hour before EOD..

[12/26/2003 3:45:31 PM] [hotto] After that.. I will be ready to build posns.. Into Strength.. on BOs.. over targets..

[12/26/2003 3:45:47 PM] [hotto] The usual Hotto-pyramid strategy...

[12/26/2003 3:47:19 PM] [hotto] I hope.. that satisfies the questions on my approach to posn size in cheapies. Science and Art.. as usual..

[12/26/2003 10:36:29 PM] [Investortrader] He gave the list either monday or tuesday morning, had maybe 6 or so stocks on it? I liked NGEN the best on the charts that day

[12/26/2003 10:37:38 PM] [DaveG] Did he give the list on TC Net?

[12/26/2003 10:37:44 PM] [Investortrader] He gave it in here
