[12/31/2003 6:02:48 PM] [MarcoPolo] TY i will eb having a couple of NY this year...
[12/31/2003 6:03:13 PM] [MarcoPolo] Is Enzo still in Italy?
[12/31/2003 6:03:33 PM] [hotto] I forgot to ask..
[12/31/2003 6:03:57 PM] [MarcoPolo] I thought he was.. not sure though..
[12/31/2003 6:03:59 PM] [hotto] When you said you were in Italy.. I thought of Enzo.
[12/31/2003 6:04:19 PM] [hotto] He was there last week - for Christmas with family.. I think
[12/31/2003 6:05:00 PM] [Investortrader] We all ready to begin? I don't really expect a big crowd tonight being it's New Year's Eve
[12/31/2003 6:05:27 PM] [hotto] REB.. your question ?
[12/31/2003 6:05:48 PM] [SCB51] Read;)
[12/31/2003 6:05:53 PM] [beach] go for it IT
[12/31/2003 6:05:56 PM] [SCB51] Ready
[12/31/2003 6:06:04 PM] [MarcoPolo] Yea.. Time for me to go the people who are paying for this gig are wanting to go see you all back in the states...
[12/31/2003 6:06:11 PM] [Miss_B] ready
[12/31/2003 6:06:21 PM] [SailorBoy] ready
[12/31/2003 6:06:27 PM] [Investortrader] Sharing my basic KISS template now, Keep It Simple Somehow ... on ITIG
[12/31/2003 6:06:41 PM] [hotto] bye, Marco.. see ya soon !
[12/31/2003 6:06:49 PM] [Investortrader] Everyone grab it so you can see what I am referring to
[12/31/2003 6:07:21 PM] [babue] got it
[12/31/2003 6:07:26 PM] [hotto] I will leave you all to IT.. Just.. not TOO simple..;)
[12/31/2003 6:07:35 PM] [Investortrader] Thanks Hotto :)
[12/31/2003 6:08:02 PM] [Investortrader] This is my main template I use, only thing I have added to it recently is the LR30 as I've seen how well Hotto has done with that
[12/31/2003 6:08:46 PM] [Investortrader] Starting in late Oct., notice before that there wasn't much volume in ITIG
[12/31/2003 6:08:49 PM] [SailorBoy] Got it and saved it
[12/31/2003 6:09:32 PM] [Investortrader] In the latter part of Oct right before the volume showed up, you'll see the price pulled back ... but the 50sma held support on it
[12/31/2003 6:09:47 PM] [Investortrader] That would be 10/21 to 10/27
[12/31/2003 6:10:19 PM] [Investortrader] It was already in a mild uptrend, then they came out with good news, I think a good quarterly report, and volume came in big
[12/31/2003 6:10:47 PM] [Investortrader] Price pushed right up and thru the upper

ClubHome

Bollinger Band

[12/31/2003 6:11:27 PM] [Investortrader] I put BB's on both price and OBV, and also a 20sma as that's by definition the middle BB, and a 50sma on both

[12/31/2003 6:12:10 PM] [Investortrader] 50sma on price is important because so many use it to trade, traders, investors, big money managers .. so it always pays to know where the price is in relation to the 50sma

[12/31/2003 6:12:48 PM] [Investortrader] Sometimes on OBV (but not as often as on price) it can be support or resistance too

[12/31/2003 6:13:29 PM] [Investortrader] After those two big up days, the price paused a bit, but the daily bar kept in contact with the upper BB

[12/31/2003 6:13:54 PM] [Investortrader] And the volume was less on the pause

[12/31/2003 6:14:19 PM] [Investortrader] The OBV pulled back and the middle BB held the OBV as support there

[12/31/2003 6:14:38 PM] [Investortrader] Those two things were saying the uptrend would most likely continue

[12/31/2003 6:15:10 PM] [Investortrader] Afterall volume had just started to show up, so you had some quick profit takers, but plenty of people willing to buy from them

[12/31/2003 6:15:47 PM] [Investortrader] Then on 11/3 and 11/4 bigger volume came in to push the price up again

[12/31/2003 6:16:18 PM] [Investortrader] More people wanted in, notice the daily range was good on each of the up days with the larger volume

[12/31/2003 6:16:34 PM] [REB2186] Many stocks open considerably above the previous day's close so there is no opportunity to buy while it is going up. Very often these stocks may show some indications of being ready to move up but other times there is no indication. My question then is - do you buy, the day before, in order to gain the next morning? Or do you wait for a stock to break out before buying and by waiting, lose out on some good moves?

[12/31/2003 6:16:37 PM] [Investortrader] And OBV spiked up to make a new high over the Upper BB

[12/31/2003 6:17:10 PM] [Investortrader] Hold up REB and I'll take a shot at that after I'm done with ITIG

[12/31/2003 6:17:51 PM] [Investortrader] So from 10/28 the price was "riding the upper band" this whole time

[12/31/2003 6:18:44 PM] [Investortrader] The new higher volume and the good range days along with new highs in OBV was saying it would ride the band, and not immediately pull back ... if you had sold the first day it crossed the upper band thinking it was overbought, you would have left a lot of money on the table

[12/31/2003 6:19:20 PM] [Investortrader] Then on 11/5 it started to consolidate those

ClubHome

gains

[12/31/2003 6:19:51 PM] [Investortrader] Then the next 3 days, 11/6, 7, and 10 ... it lost contact with the upper BB

[12/31/2003 6:20:09 PM] [Investortrader] And the OBV also fell back within the bands ... however

[12/31/2003 6:20:43 PM] [Investortrader] The price kept closing in the upper half of it's range each day, and the OBV held the middle BB

[12/31/2003 6:21:16 PM] [Investortrader] This says it's most likely only consolidating here, and there are still buyers willing to take stock from the sellers

[12/31/2003 6:21:51 PM] [Investortrader] But when price loses contact with the upper BB, it needs to re-establish that contact soon or it will fail

[12/31/2003 6:22:28 PM] [Investortrader] By the way, I bought on 10/31 at 3.06

[12/31/2003 6:23:15 PM] [Investortrader] So by 11/10 we have 3 days out of contact, I don't want to see any more than 3 days usually out of contact with the upper BB

[12/31/2003 6:23:55 PM] [Investortrader] Then on 10/11, volume came back in pushing the price back up to the upper BB

[12/31/2003 6:24:12 PM] [Investortrader] New high, but notice the OBV

[12/31/2003 6:24:29 PM] [Investortrader] OBV didn't make a new high and could barely kiss the upper BB

[12/31/2003 6:24:44 PM] [Investortrader] This was the first warning sign

[12/31/2003 6:25:08 PM] [Investortrader] You want to see the OBV confirming the price move, and here it did not confirm

[12/31/2003 6:25:22 PM] [Investortrader] Even though the volume was good

[12/31/2003 6:25:39 PM] [Investortrader] It needed more volume to get the OBV up there

[12/31/2003 6:26:04 PM] [Investortrader] Then the price lost contact right away with the upper BB, while volume contracted

[12/31/2003 6:26:25 PM] [Investortrader] 1,2,3,4,5 days out of contact with the band .. too many

[12/31/2003 6:27:01 PM] [Investortrader] On the 4th or 5th day you should be taking profits as it's lost contact for too long and the OBV had already not confirmed this new move

[12/31/2003 6:28:18 PM] [Investortrader] And on 11/18 and 11/19 on down days the volume picked up a little bit, nothing big, but it did pick up a little ...

[12/31/2003 6:28:28 PM] [Investortrader] And both the price and OBV fell to the middle BB

[12/31/2003 6:29:13 PM] [Investortrader] From 11/20 to 11/28 the price consolidated holding the middle BB, as did the OBV

ClubHome

[12/31/2003 6:29:33 PM] [Investortrader] And the up days were on more volume than the down days over that stretch

[12/31/2003 6:30:22 PM] [Investortrader] On 12/1, we had another big volume day .. however, notice the small size of the body of the candle

[12/31/2003 6:30:51 PM] [Investortrader] If all were healthy the price should have gotten up to the upper BB that day, with a larger body in the candle

[12/31/2003 6:31:10 PM] [Investortrader] That tells us there were still a lot of sellers willing to sell to the buyers

[12/31/2003 6:31:13 PM] [loftyB] Happy New Year to everybody, already 12.30 and 2004 in Austria. Best wishes and every success to all

[12/31/2003 6:31:28 PM] [Investortrader] Thanks lofty :)

[12/31/2003 6:32:01 PM] [Investortrader] 12/2 is very important, a huge volume spike day, and OBV spiked with it

[12/31/2003 6:32:23 PM] [Investortrader] However, the price barely got above the upper BB

[12/31/2003 6:32:59 PM] [Investortrader] Now compare the body of the candle that day, to the body of the candles in the beginning of the move in late Oct and early Nov

[12/31/2003 6:33:19 PM] [Investortrader] This is a classic exhaustion look

[12/31/2003 6:34:08 PM] [Investortrader] If all were healthy the price should have moved further up with such huge volume

[12/31/2003 6:34:28 PM] [Investortrader] It is saying there are lots of sellers here keeping the price from doing that

[12/31/2003 6:34:50 PM] [Investortrader] Even though OBV made a new high .. it will on huge volume exhaustion days

[12/31/2003 6:35:39 PM] [Investortrader] And on 12/3 price came right back down to the middle BB on a good volume day, the sellers took control from the buyers

[12/31/2003 6:35:56 PM] [Investortrader] From the buyers

[12/31/2003 6:36:24 PM] [Investortrader] Price then lost the middle band the very next day, and it started to drift down

[12/31/2003 6:36:48 PM] [Investortrader] Notice the volume is getting less and less now

[12/31/2003 6:37:01 PM] [Investortrader] As the price meandered under the middle BB

[12/31/2003 6:37:27 PM] [Investortrader] That is good news, as it means the sellers are beginning to dry up

[12/31/2003 6:38:10 PM] [Investortrader] Then on 11/9 volume picked up some as price fell a little and closed near the bottom of the range

[12/31/2003 6:38:22 PM] [Investortrader] I mean 12/9

ClubHome

[12/31/2003 6:38:40 PM] [Investortrader] 12/10 another important day
[12/31/2003 6:39:31 PM] [Investortrader] Volume picked up, and price fell all the way down to the 50sma
[12/31/2003 6:39:42 PM] [Investortrader] Rebounding a bit to close at the lower band
[12/31/2003 6:40:08 PM] [Investortrader] However the OBV just barely crossed the middle band
[12/31/2003 6:41:00 PM] [Investortrader] When I put all that together, the lower and lower volume down days previously, and this larger volume down day, and the 50sma holding ... it looked to me like a possible washout day
[12/31/2003 6:41:21 PM] [Investortrader] Along with the OBV barely losing the middle BB
[12/31/2003 6:41:45 PM] [Investortrader] I bought that day, and posted it as I post all my trades as soon as I am filled
[12/31/2003 6:42:05 PM] [Investortrader] Not many followed me in, as it looks scary
[12/31/2003 6:42:20 PM] [Investortrader] But a few points here ...
[12/31/2003 6:43:03 PM] [Investortrader] The OBV was diverging, barely crossing the middle BB, and is not lower than the late Nov sell-off
[12/31/2003 6:43:57 PM] [Investortrader] And the 50sma holding the price, and the increased volume this day looking like it might be a washout with the rest of the sellers who didn't get out getting out now
[12/31/2003 6:44:08 PM] [Investortrader] And
[12/31/2003 6:44:29 PM] [Investortrader] If I was wrong, I sell with a very small loss if it loses the 50sma
[12/31/2003 6:44:55 PM] [Investortrader] With the 50sma still rising, it wouldn't take much to get me out, very small loss ...
[12/31/2003 6:45:14 PM] [Investortrader] you need to always look at the risk side of the equation too, not just the reward side
[12/31/2003 6:45:34 PM] [Investortrader] I looked at it like a very safe entry point
[12/31/2003 6:45:50 PM] [Investortrader] Very small risk, vs good reward if I am right
[12/31/2003 6:46:22 PM] [Investortrader] And it's at good support at the 50sma, I always try to buy good support
[12/31/2003 6:46:37 PM] [Investortrader] When you feel the most scared, is usually when you should be buying
[12/31/2003 6:47:00 PM] [rensop] IT what is yourtarget
[12/31/2003 6:47:35 PM] [Investortrader] A few people even said be careful, but I'm a big boy, and I knew it could be a washout, and most importantly, I knew if I was wrong I would only be taking a small loss .. I am ruthless about cutting losses when the chart says I am wrong

ClubHome

[12/31/2003 6:48:24 PM] [Investortrader] rensop, first target is on a pattern like this is usually the middle BB

[12/31/2003 6:48:41 PM] [rensop] IT ty

[12/31/2003 6:48:53 PM] [Investortrader] And you watch volume as targets are approached to see how the price/volume is reacting

[12/31/2003 6:49:05 PM] [cyberact] question...from 12/11 to date price has been pushing higher on much lower volume....where do you place your stop at this point..

[12/31/2003 6:49:14 PM] [Investortrader] The next day, 12/11, the 50sma held ... Whew!

[12/31/2003 6:49:33 PM] [Investortrader] And OBV climbed above the middle BB

[12/31/2003 6:49:45 PM] [Investortrader] With price closing back within the bands

[12/31/2003 6:50:11 PM] [Investortrader] Note there wasn't as much volume as the washout day .. but that is to be expected

[12/31/2003 6:50:28 PM] [Investortrader] The buyers were starting to take over from the sellers again

[12/31/2003 6:50:58 PM] [Investortrader] If the sellers were still in control, the 50sma would not have held, and I would be out with a small loss

[12/31/2003 6:51:51 PM] [Investortrader] The next couple of days, 12/12 and 12/15, volume was ok, nothing special, and the price moved right back up to the middle BB

[12/31/2003 6:52:38 PM] [Investortrader] The middle BB held it back for a few days, but notice the volume

[12/31/2003 6:52:52 PM] [Investortrader] 12/16 and 12/17 volume really dried up

[12/31/2003 6:53:34 PM] [Investortrader] Taking profits there, at least partial profits .. would have been ok as you wouldn't be sure who was in charge yet, buyers or sellers

[12/31/2003 6:54:12 PM] [Investortrader] There was no real clue in the chart, thus taking some or all profits I say would have been ok there

[12/31/2003 6:54:57 PM] [Investortrader] As Hotto continually tells us to do, take some profits along the way, and that would have been a good place to do it ... you didn't know what was going to happen and if you don't know, lock some profits in!

[12/31/2003 6:55:38 PM] [Investortrader] Then on 12/18 buyers came in, some volume came back, and the price pushed up thru the middle BB

[12/31/2003 6:56:08 PM] [Investortrader] Not big volume, enough to get it thru the middle BB, but nothing special really

[12/31/2003 6:57:05 PM] [Investortrader] Then we get to Holiday week where volume typically dries up, and you'll notice it did just that and is still low

[12/31/2003 6:57:35 PM] [Investortrader] Price consolidated around the middle BB, while the OBV held the middle BB

[12/31/2003 6:57:58 PM] [Investortrader] Many days the price did close at or near the

ClubHome

high of the range each day

[12/31/2003 6:58:13 PM] [Investortrader] But without volume it is hard to read

[12/31/2003 6:59:20 PM] [Investortrader] If you had taken some or all profits on 12/15 to 12/17, you had a chance to get back in, maybe 12/23 or 12/26 ... but I didn't

[12/31/2003 7:00:04 PM] [mstrader] IT, if you have time please look at EGHT with your chart pattern and comment after you are done with ITIG.

[12/31/2003 7:00:20 PM] [Investortrader] No volume, couldn't read the chart ... end of year coming .. so I just watched .. and now I have no ITIG! :(

[12/31/2003 7:00:40 PM] [Investortrader] Sure mstrader

[12/31/2003 7:00:46 PM] [Investortrader] Almost done here

[12/31/2003 7:00:59 PM] [mstrader] ty IT

[12/31/2003 7:01:46 PM] [Investortrader] The bands are starting to contract now, and the price move today almost made it to the upper band even without any real volume .. though the volume was more than most of the holiday weeks

[12/31/2003 7:02:18 PM] [Investortrader] And the OBV came down near the end of the year and held the middle BB

[12/31/2003 7:02:47 PM] [Investortrader] I didn't chase today because of the lack of volume .. I may be sad about that, I may not, we'll know when volume comes back in

[12/31/2003 7:02:59 PM] [Investortrader] Lack of volume, not lack

[12/31/2003 7:03:41 PM] [Investortrader] It's had a good 6 weeks of consolidating here, so it may not need anymore

[12/31/2003 7:04:05 PM] [Investortrader] We should know soon!

[12/31/2003 7:04:36 PM] [REB2186] IT, can you please critique PFSW especially in view of my earlier question regarding buying before or after a breakout??

[12/31/2003 7:05:50 PM] [rensop] Thx IT really enjoable, i' anewbe and trying hard to learn great

[12/31/2003 7:05:53 PM] [Investortrader] Had just scrolled back to read your question REB .. my answer would be, if the indications are there the day before the gap up you buy it, if not, you can't really buy it ... I'll get to PFSW after EGHT

[12/31/2003 7:06:36 PM] [Investortrader] EGHT ...

[12/31/2003 7:07:12 PM] [Investortrader] With the caveat that low volume holidays make reading price/volume patterns hard if not impossible ...

[12/31/2003 7:07:19 PM] [enzo] happy new year to all at hotto club

[12/31/2003 7:07:34 PM] [Investortrader] Happy happy enzo :)

[12/31/2003 7:08:12 PM] [Investortrader] EGHT I've heard a few things on, fundamentally ... one is it's a VOIP play

[12/31/2003 7:08:24 PM] [enzo] in italy allready 2004

[12/31/2003 7:08:41 PM] [Investortrader] But I've also read and heard in a few places

ClubHome

that it really isn't a true VOIP play ... I haven't looked into it myself and have never played it

[12/31/2003 7:09:38 PM] [Investortrader] Looking back at 11/26, 11/28, and 12/1

[12/31/2003 7:09:57 PM] [Investortrader] Volume really came into it there, 11/26 big gap up

[12/31/2003 7:10:39 PM] [Investortrader] Taking all three days together, that is called an "island reversal"

[12/31/2003 7:10:54 PM] [Investortrader] 12/28 is hanging up there all by itself

[12/31/2003 7:11:00 PM] [Investortrader] 11/28 I mean

[12/31/2003 7:11:28 PM] [Investortrader] The low of 11/28 is higher than the highs of both 11/26 and 12/1

[12/31/2003 7:11:45 PM] [Investortrader] And all three days on large volume

[12/31/2003 7:11:56 PM] [Investortrader] That is a very bearish pattern

[12/31/2003 7:13:00 PM] [Investortrader] And from the close of 11/28 to today, it's lost over 40% of it's value

[12/31/2003 7:13:33 PM] [Investortrader] If you owned it back then, 12/1 was the day to sell when you could see it was an island reversal

[12/31/2003 7:14:27 PM] [Investortrader] I probably wouldn't have waited till the close on 12/1 as the gap down and continual selling with large volume would have told me it wasn't going back up to negate that pattern

[12/31/2003 7:14:53 PM] [Investortrader] Sometimes you have to wait till the close to see, this time I don't think you needed to

[12/31/2003 7:15:33 PM] [Investortrader] Since about 12/8 it's gone mostly sideways

[12/31/2003 7:15:33 PM] [mstrader] I didn't own it then. I am curious to know if it has reached a ST bottom.

[12/31/2003 7:16:30 PM] [Investortrader] Ok, recently, last few days, it has been closing at the top of it's range, has filled most of the gap up on 11/26

[12/31/2003 7:16:56 PM] [Investortrader] And all of the "price gap" measuring from the high on 11/10

[12/31/2003 7:17:13 PM] [enzo] investortrader is 4.20 a support for eght fill the gap?

[12/31/2003 7:18:41 PM] [Investortrader] It could be 4.20 ... it could be the lower BB, notice the lower BB and the 50sma have converged

[12/31/2003 7:19:32 PM] [enzo] thanks looking at your chart

[12/31/2003 7:19:38 PM] [Investortrader] That looks to be maybe around 3.80 today

[12/31/2003 7:20:02 PM] [Investortrader] the BB's are constricting here, and the OBV has held the middle BB too, a positive sign

[12/31/2003 7:20:34 PM] [mstrader] and 50ma is pointing up.

[12/31/2003 7:20:53 PM] [Investortrader] Yes, so support is approaching

[12/31/2003 7:21:23 PM] [Investortrader] I know nothing about this company, not even if it's a G+ stock or not
[12/31/2003 7:21:36 PM] [Investortrader] As I never played it
[12/31/2003 7:22:16 PM] [enzo] investor how you use your temple if you can exsplein i know new year is coming mabe not time
[12/31/2003 7:22:23 PM] [rensop] IT what is a G+ stock?
[12/31/2003 7:22:23 PM] [Investortrader] I look at every chart when a stock is mentioned in here, every one .. if it doesn't fit my own trading style, I don't take the trade .. or if I don't like the chart for some reason or another, lots of reasons for me NOT to take a trade :)
[12/31/2003 7:22:33 PM] [mstrader] IT, I am looking at it because it is talked a lot inHotto Club.
[12/31/2003 7:23:04 PM] [Investortrader] G+ is positive earnings Guidance by management ... not by an analyst ... A Hotto acronym
[12/31/2003 7:23:19 PM] [rensop] ty
[12/31/2003 7:23:28 PM] [Investortrader] I think many people traded this one mstrader, thus it's talked about a lot
[12/31/2003 7:24:10 PM] [Investortrader] I don't put on many positions, so I can't trade a lot of the stocks talked about
[12/31/2003 7:24:27 PM] [Investortrader] This one I am still passing on for now
[12/31/2003 7:24:37 PM] [Investortrader] For a couple reasons
[12/31/2003 7:24:55 PM] [Investortrader] One, I don't know if it's a true voip play or not, heard it is and it isn't
[12/31/2003 7:24:56 PM] [mstrader] ty IT. Either it holds at 4.20 or goes further down to lower BB/50ma.
[12/31/2003 7:25:21 PM] [Investortrader] Two, that island reversal on huge volume is still controlling the price action it looks like
[12/31/2003 7:25:44 PM] [Investortrader] Yes, it will tag the lower BB or the 50sma or both since they are so close I think, if 4.20 doesn't hold
[12/31/2003 7:25:57 PM] [Investortrader] If I were to play it, I would play a BO on it
[12/31/2003 7:26:17 PM] [Investortrader] It does have some positive signs as I mentioned, OBV holding the middle BB
[12/31/2003 7:26:24 PM] [enzo] investor i use the service for eght and is good
[12/31/2003 7:26:32 PM] [Investortrader] Almost filling if not completely filling the gap from 11/26
[12/31/2003 7:26:46 PM] [mstrader] It is in IP telephony and video Applications (video Conferencing?)

ClubHome

[12/31/2003 7:27:14 PM] [Investortrader] That's how I would play it ... if I have money to play it at the time, on a BO

[12/31/2003 7:27:32 PM] [Investortrader] And if the chart is interesting enough to me, for my trading style

[12/31/2003 7:27:44 PM] [Investortrader] Ok, on to PFSW ...

[12/31/2003 7:27:53 PM] [mstrader] ty IT.

[12/31/2003 7:28:10 PM] [Investortrader] Welcome :)

[12/31/2003 7:29:04 PM] [enzo] it is psfw your pick ?

[12/31/2003 7:29:08 PM] [Investortrader] REB, I don't play low priced stocks ... don't really feel comfortable giving advice on them .. but I'll take a look to see if there were any indications it would run up today

[12/31/2003 7:29:23 PM] [Investortrader] No, REB wanted me to take a lok at PFSW

[12/31/2003 7:29:31 PM] [Investortrader] A look

[12/31/2003 7:30:09 PM] [REB2186] What is the price range of stocks that you do play?

[12/31/2003 7:30:40 PM] [Investortrader] I don't see any indications it would jump today, let's look at the 10 minute chart first to compare today's volume with yesterday and when it came in

[12/31/2003 7:31:29 PM] [Investortrader] I stick to stocks over \$3 ... though may drop that a little for a good G+ stock Hotto likes since he does very well with them, but not too much

[12/31/2003 7:32:17 PM] [Investortrader] On the ten minute looks like good volume came in today from the start

[12/31/2003 7:33:09 PM] [Investortrader] Made a new high at 1.49, then based for almost two hours

[12/31/2003 7:34:09 PM] [Investortrader] OBV rose a little, could have put in a buy stop at 1.52 or so to catch most of the move today ... if you were watching it and already had an interest in it, or it caught your eye during those first two hours

[12/31/2003 7:34:34 PM] [Investortrader] Other than that there were no indications prior to today that I saw

[12/31/2003 7:35:11 PM] [REB2186] Increasing price near end of day 12/30?

[12/31/2003 7:35:15 PM] [Investortrader] How I use this template, I look for price/volume patterns, and rely heavily on OBV

[12/31/2003 7:35:31 PM] [enzo] pfsw on weekly looks had good retracement

[12/31/2003 7:35:59 PM] [Investortrader] But there were otehr days in Dec where the price increased, and it didn't shoot up the next day

[12/31/2003 7:36:23 PM] [Investortrader] And 12/30 wasn't on increasing volume, actually decreased from the day before

ClubHome

[12/31/2003 7:37:24 PM] [Investortrader] And it didn't breakout on 12/30 either, I just don't see anything to give you a clue before today ... some stocks are like that, just gotta move on, plenty of other stocks, and there is always another trade coming along ... I never worry about missing a trade

[12/31/2003 7:37:48 PM] [enzo] can you put up weekly hou you see

[12/31/2003 7:38:00 PM] [REB2186] TR, All the info you are giving is helpful and I appreciate it. TY

[12/31/2003 7:38:20 PM] [Investortrader] So I use price/volumne patterns, and look for safe entry points at good support, and also look for divergences in OBV, divergences with the price, and divergences with OBV itself, and with the BB's on OBV

[12/31/2003 7:38:37 PM] [Investortrader] Welcome REB :)

[12/31/2003 7:38:47 PM] [Investortrader] Weekly on PFSW

[12/31/2003 7:40:28 PM] [Investortrader] I can see a tiny bit on the weekly .. lows the weeks of 8/22, 8/29, and 9/8 are 1.36, 1.33 and 1.35

[12/31/2003 7:40:45 PM] [Investortrader] Then on 11/24 week low of 1.37

[12/31/2003 7:41:09 PM] [Investortrader] With the weeks of 12/16 and 12/23 having the same low of 1.37

[12/31/2003 7:42:23 PM] [Investortrader] It's not much to go on however, as when you change back to the daily

[12/31/2003 7:42:40 PM] [rensop] IT have a great evening and HNY and thx again

[12/31/2003 7:43:04 PM] [Investortrader] you could have bought it on 12/12 when it hit 1.37 ... and held and held and no pop till today, no real indication before today that it was going to pop

[12/31/2003 7:43:16 PM] [Investortrader] Welcome rensop, Happy New Year :)

[12/31/2003 7:43:48 PM] [enzo] it can you show one set up you like to buy what is your buy signal

[12/31/2003 7:44:15 PM] [Investortrader] enzo, ITIG had a couple different set-ups I look for to buy, and bought

[12/31/2003 7:44:35 PM] [Investortrader] One was the breakout, one was the washout at the 50sma support

[12/31/2003 7:45:00 PM] [enzo] can you share

[12/31/2003 7:45:06 PM] [Investortrader] I try to buy good support on the charts, so if I am wrong I only take a small loss and I know it pretty soon ... unless it gaps down of course

[12/31/2003 7:45:36 PM] [Investortrader] enzo, I covered ITIG in depth at the beginning, if you weren't here just look in the logs with the ITIG chart up :)

[12/31/2003 7:46:12 PM] [enzo] ok thanks sorry i din't know

ClubHome

[12/31/2003 7:46:23 PM] [Investortrader] And every night I'll try to be here to cover my trades, what I saw to take the trade, and any charts anyone wants me to look at ...

until Hotto shows up to start his talk

[12/31/2003 7:46:32 PM] [Investortrader] No worries :)

[12/31/2003 7:46:44 PM] [lars] IT is this the only chart you use for IT and Lt??

[12/31/2003 7:47:06 PM] [Investortrader] lars, my trading timeframe is usually a few days to a couple weeks

[12/31/2003 7:47:12 PM] [Aktony] We really appreciate this, IT. Very clear and informative. Thanks. :)

[12/31/2003 7:47:23 PM] [Investortrader] Welcome Aktony :)

[12/31/2003 7:48:35 PM] [Investortrader] I will also look at RSI and MACD Histogram (I use a faster MACD than most), but only to figure the possible size of the upcoming move, they won't cancel a trade if this template looks good to me, just maybe make me set higher or lower targets .. which depends on how price and volume react when those targets are approached

[12/31/2003 7:48:40 PM] [babue] Excellent IT Thank you very much The comparison of volume to candle body size was something I should have seen and thought about but had not, a very good point to observe

[12/31/2003 7:49:10 PM] [Investortrader] That is important babue, it tells a lot about who is in charge, and you always want to be on the side of those in charge!

[12/31/2003 7:49:33 PM] [Investortrader] Another important thing I want to stress is ...

[12/31/2003 7:49:49 PM] [Investortrader] Notice how many times I said ... small loss if I am wrong

[12/31/2003 7:50:00 PM] [Investortrader] And buying near support

[12/31/2003 7:50:03 PM] [babue] Yes and it is something I should have seen long ago A great lesson

[12/31/2003 7:50:05 PM] [enzo] it when you ext a trade can you see siri

[12/31/2003 7:50:43 PM] [enzo] happy new year babue

[12/31/2003 7:50:44 PM] [Investortrader] you must buy near support so you only have a small loss when the chart says you are wrong, if you chase, the price can pull back pretty big and still not show a change in trend

[12/31/2003 7:51:03 PM] [babue] Happy New Year Enzo

[12/31/2003 7:51:10 PM] [Investortrader] That's when you sell out, only to see the price go right back up again, and we've all done that

[12/31/2003 7:51:12 PM] [mstrader] Again Thanks a lot IT. And HNY everyone.

[12/31/2003 7:51:42 PM] [Investortrader] SIRI, I wouldn't chase it ehre, if you own it ...

[12/31/2003 7:52:15 PM] [enzo] i own it

[12/31/2003 7:52:19 PM] [Investortrader] I wouldn't want to see a gap down Friday,

ClubHome

could be one of those dreaded "island reversal" patterns, which are very bearish
[12/31/2003 7:52:51 PM] [babue] Do any of the books you mention in your profile
spend alot of time on just price and volume IT?

[12/31/2003 7:52:53 PM] [Investortrader] So a gap down with continued selling I
would sell

[12/31/2003 7:53:48 PM] [Investortrader] Some of them cover a lot of indicators, the
big ones do have a lot on price/volume patterns ... the volume Must confirm the price
pattern, that's why I call it price/volume patterns

[12/31/2003 7:54:29 PM] [Investortrader] I'll check quick to see which books have
something on that

[12/31/2003 7:54:50 PM] [enzo] thanks it for your time have a happy new year you
and familly go and have few drinks not more trading

[12/31/2003 7:55:27 PM] [babue] I have seen Murphy's stock book refered to as very
good but have not read that one

[12/31/2003 7:56:15 PM] [Investortrader] Thakns enzo, Happy new year :)

[12/31/2003 7:56:31 PM] [Investortrader] I have Murphy's book on futures, not stocks,
as I was trading futures back then

[12/31/2003 7:56:49 PM] [Rookie] HAPPY NEW YEAR from Western Canada
everyone!!!!!!!!!!!!!!!!!!!!!!

[12/31/2003 7:57:22 PM] [Investortrader] Technical Analysis Explained has a section
on price patterns ... someone in here one day mentioned a book that was mostly
price patterns, maybe if you ask next week that person will let us know what it's
called, I forget now

[12/31/2003 7:57:40 PM] [Investortrader] Happy New Year Rookie :)

[12/31/2003 7:57:50 PM] [Investortrader] One more quick thing ...

[12/31/2003 7:57:58 PM] [Investortrader] STOPS ... use them!

[12/31/2003 7:57:59 PM] [Rookie] :)

[12/31/2003 7:58:22 PM] [Investortrader] Remember IVAN and IJIE, even if you didn't
get caught, remember the pain of those that did

[12/31/2003 7:58:41 PM] [Investortrader] No reason to hold a stock that loses 50%

[12/31/2003 7:58:49 PM] [babue] I have heard on occasion a mention of some books
that are mostly about price and vol also but do not know any names I will ask

[12/31/2003 7:59:34 PM] [Rookie] Been there done that IT. Held stocks that now
don't even trade. Very costly learning curve:(

[12/31/2003 7:59:49 PM] [CashMan] IT got a ?. Would you rather wait for the bb
bands to become pinched or does it matter. I hope you understand what I'm trying to
get at. Thanks for your time.

[12/31/2003 7:59:51 PM] [Investortrader] Think of how much extra money your

ClubHome

account would have if you never held a stock that went down 50% ... or more ... that's the same as making that money

[12/31/2003 8:00:22 PM] [Rookie] I'd have over \$100 grand! No bull.

[12/31/2003 8:00:31 PM] [Investortrader] I don't always wait for that, but that (pinched BB's) is a good signal that a move is coming up, just doesn't signal direction!

[12/31/2003 8:00:55 PM] [babue] SMILE (my smiles do not work lol)

[12/31/2003 8:01:00 PM] [Investortrader] So either guess and take a quick loss, or wait for it to BO one way or the other

[12/31/2003 8:01:11 PM] [babue] sorry private

[12/31/2003 8:01:26 PM] [Investortrader] If you guess wrong you take a quick loss that is, you might guess right

[12/31/2003 8:01:56 PM] [Investortrader] But I don't like guessing, it's 50/50 in that case, may as well go to Vegas and play Red (Or Black)

[12/31/2003 8:02:12 PM] [Investortrader] At least there you get free drinks, and the cocktail waitresses are cute!

[12/31/2003 8:02:33 PM] [Investortrader] One other thing on stops ...

[12/31/2003 8:02:44 PM] [Investortrader] There is something called a "pain threshold"

[12/31/2003 8:02:45 PM] [Rookie] I wonder if they are all single:)

[12/31/2003 8:02:55 PM] [Investortrader] Hehehe Rookie, a few of them are

[12/31/2003 8:03:11 PM] [Investortrader] If you lose 10%, it hurts, 20% hurts more, 30% maybe even more

[12/31/2003 8:03:14 PM] [Rookie] Darn, that's where I should be then!

[12/31/2003 8:03:32 PM] [Investortrader] But somewhere along the line increased losses do not create increased pain, you have hit your pain threshold

[12/31/2003 8:04:01 PM] [Investortrader] That is always dangerous, as it's more likely you will continue to ride the losses down to bigger losses, as there is no more pain anymore

[12/31/2003 8:04:21 PM] [Investortrader] The pain remains the same

[12/31/2003 8:04:33 PM] [Investortrader] Never get into that situation ... and always use stops!

[12/31/2003 8:05:29 PM] [Investortrader] If you have a hard time executing mental stops and just watch it go down past them, use physical stops

[12/31/2003 8:06:05 PM] [Investortrader] Remember my suggestion for your #1 New Years resolution, and paste it on a post-it note to your computer screen on the side

....

[12/31/2003 8:06:16 PM] [Investortrader] I will use stops, I will use stops, I will use stops!

ClubHome

[12/31/2003 8:06:21 PM] [Rookie] Not only on one trade either IT. When a person gets so use to losing the larger losses don't compute in their head. They just chock it up as a regular loss and soon the losses are gigantic. Just human psychology!

[12/31/2003 8:06:42 PM] [Investortrader] Right Rookie, that's why you need to avoid that at all costs

[12/31/2003 8:07:11 PM] [Rookie] Agreed. For some of us it's too late!!!

[12/31/2003 8:07:13 PM] [Investortrader] I always have my stop set ... Before going into a trade .. so I don't have to figure out the stop in the heat of battle on the battlefield

[12/31/2003 8:07:37 PM] [Investortrader] Where it's too easy to say ... I'll give it just a little more room

[12/31/2003 8:07:53 PM] [Rookie] Now it is time to learn how to trade properly using money management in combination with trading.

[12/31/2003 8:08:20 PM] [hotto] Sorry guys.. I have so many emails, and TCMAILs to answer. No Chat tonight..

[12/31/2003 8:08:23 PM] [Investortrader] For beginners Rookie, use small positions ... and maybe not too many positions so you can track them easier

[12/31/2003 8:08:39 PM] [SeattleSteve] It's OK, hotto

[12/31/2003 8:08:57 PM] [Investortrader] Looks like I get to keep talking then Hotto ;) I can be a chatterbox about stocks!

[12/31/2003 8:09:13 PM] [hotto] Happy New Year... I will be on for a short chat tomorrow night.. to get ready for Friday.

[12/31/2003 8:09:23 PM] [babue] OK Hotto you need a break from us LOL

[12/31/2003 8:09:30 PM] [Rookie] Yes. Good advice IT

[12/31/2003 8:09:32 PM] [hotto] 8pm ET.. tomorrow..

[12/31/2003 8:25:43 PM] [Investortrader] Thanks SailorBoy, happy new year! :)
[12/31/2003 8:27:16 PM] [RAMConsult] I have SCUR
[12/31/2003 8:27:29 PM] [Investortrader] One more thing on Stops, as Ben Franklin said, a penny saved is a penny earned .. if you save \$1000 (or more, howver big you trade) using a stop, it's the same as making \$1000 on a trade, your account is \$1000 bigger .. actually it's better as you don't pay taxes on the \$1000 you save! And you don't need to find another trade to make that \$1000 with, or to make it back
[12/31/2003 8:28:39 PM] [decdog] Happy new year Investor...thanks for yougood advise...dam
[12/31/2003 8:28:48 PM] [Investortrader] Happy new year decdog :)
[12/31/2003 8:29:19 PM] [decdog] Good to see you tonight
[12/31/2003 8:29:48 PM] [decdog] :)
[12/31/2003 8:29:54 PM] [Investortrader] If you add up all your winning trades for the year, lets say it adds up to \$100,000, and add up all your losing trades for the year, let's say they add up to \$80,000, so you made \$20,000 for the year ...
[12/31/2003 8:30:47 PM] [Investortrader] If you want to make \$30,000 instead ... you either need to make an extra \$10,000 ... or save and extra \$10,000 off the losing trades
[12/31/2003 8:31:01 PM] [Investortrader] Either way, it's the same!
[12/31/2003 8:32:49 PM] [Investortrader] I'll bet any of you that don't really use stops every time, can easily go back over all your losing trades and find a few that would have saved you some money if you had used stops on them

ClubHome

[12/31/2003 8:33:46 PM] [Aktony] IT, I have used hard stops very far away from the day's trading range only to have the mm's go down and get my stop.

[12/31/2003 8:33:58 PM] [Aktony] I was trading

[12/31/2003 8:34:23 PM] [Aktony] I was trading GG at 10 and had a stop at 6.40 which was taken out!

[12/31/2003 8:34:32 PM] [Investortrader] Aktony, you need to use good support to buy, then go under it by a few percent to place your stop

[12/31/2003 8:34:47 PM] [Investortrader] That was way too far away to set a stop

[12/31/2003 8:34:58 PM] [Investortrader] The point isn't being taken out or not

[12/31/2003 8:35:04 PM] [Aktony] The point is that hard stops are the target of mm's and they will gun for them.

[12/31/2003 8:35:29 PM] [Investortrader] The point is ... if you had placed a better stop, even if it was at 9, you'd get taken out, then could buy back at 6.60!

[12/31/2003 8:36:02 PM] [Aktony] The stock continued to trade at 10 after my stop at 6.40 was taken out!

[12/31/2003 8:36:22 PM] [honus99] aktony, over what time frame did that happen?

[12/31/2003 8:36:32 PM] [Aktony] About 1 minute

[12/31/2003 8:36:42 PM] [Investortrader] That's why you need to set good stops a few percent under good support, if the support is taken out, then the stock will most likely continue to drop, the MM's aren't powerful enough to fight the trend

[12/31/2003 8:37:02 PM] [Aktony] It was the talk of bulletin boards, to my disgrace :(o

[12/31/2003 8:37:36 PM] [Investortrader] Is that a very liquid stock? Doesn't sound like it to drop and bounce that much in one minute

[12/31/2003 8:37:49 PM] [honus99] when did that happen, never seen that happen.

[12/31/2003 8:38:04 PM] [Aktony] It's Goldcorp, which I bought at 6.4, set the stop and rode it up.

[12/31/2003 8:38:45 PM] [Aktony] You might see it frequently. There is a sudden drop in the price which shoots up again immediately.

[12/31/2003 8:39:19 PM] [Aktony] If an mm has a bid at 6.40 and there is an existing stop, or order to sell at 6.40, the mm can go down and get the stop.

[12/31/2003 8:39:47 PM] [Aktony] So, one frequently hears, "set mental stops." That is to avoid that pitfall.

[12/31/2003 8:40:09 PM] [Investortrader] I just went all the way back to 1996 on GG and I don't see a day where it was trading at 10 and had a low of under 7

[12/31/2003 8:40:41 PM] [Aktony] No, that is incorrect. It happened last year. I told you, it was the talk of the bulletin boards...to my disgrace.

[12/31/2003 8:41:13 PM] [Aktony] If you like, I can go to Yahoo and find the sole sale of GG at 6.40 in 2002....

[12/31/2003 8:41:27 PM] [Investortrader] There's not even a whole week with those parameters

[12/31/2003 8:41:56 PM] [Investortrader] Closest week is week of 7/29/02

[12/31/2003 8:42:14 PM] [Investortrader] Low of 6.40, high of 9.12

[12/31/2003 8:42:36 PM] [Aktony] Low of 6.40; that's probably my sale.

[12/31/2003 8:42:43 PM] [honus99] 7/29/02, opened at 7.50, high 8.90

[12/31/2003 8:42:59 PM] [Investortrader] That day it wasn't trading at 10

[12/31/2003 8:43:08 PM] [Aktony] I'll look it up right now.

[12/31/2003 8:43:18 PM] [Investortrader] High that day is 7.49 and it closed at 7.17

[12/31/2003 8:43:44 PM] [Investortrader] That was also a very big volume day

[12/31/2003 8:43:57 PM] [Investortrader] 7/26/02

[12/31/2003 8:44:26 PM] [Investortrader] Probably news out on that day for such volume

[12/31/2003 8:44:43 PM] [bmweyrauch] [[["use your stops, know before placing order, set stop immediately" ... I have it written in red on a whiteboard at my tradin' desk..whenI have been "bad" I now have a personal rule that I have to read it out loud along with my other short list of rules every morning before trading for 5 days, seriously !! ...hi IT...my own experience]] much much easier to save the \$\$ than to earn it back.

[12/31/2003 8:44:51 PM] [Aktony] I am looking it up right now. I see the 6.4 low, but the stock shot back up to 10, so I don't think that's the trade.

[12/31/2003 8:44:52 PM] [honus99] aktony, one question, why did you keep the stop at that price and not move it with the price?

[12/31/2003 8:44:55 PM] [Investortrader] And I can guarantee you the MM didn't make all that volume just to take out your stop on your shares, over 4 1/2 million shares traded that day

[12/31/2003 8:45:07 PM] [bmweyrauch] hated to break up the flow on GG...sorry

[12/31/2003 8:45:17 PM] [Investortrader] That's the only day it could have happened

[12/31/2003 8:45:33 PM] [Aktony] I guess you are right.

[12/31/2003 8:45:50 PM] [Investortrader] Good idea bmw! :)

[12/31/2003 8:46:09 PM] [bmweyrauch] it's working for me....sorry to interrupt

[12/31/2003 8:46:35 PM] [Investortrader] And on 4 1/2 million shares, it wasn't the MM taking it down to grab your shares ... it was panic by a lot of people selling out ... did you have a whole lot of shares?

[12/31/2003 8:47:00 PM] [Investortrader] No worries bmw :) It's a good point to point out!

[12/31/2003 8:47:25 PM] [Aktony] I am looking for it on stockcharts. com will let you know when I find it....

[12/31/2003 8:47:27 PM] [Investortrader] A MM isn't going to sell millions of shares to bring the price down to grab your 1000 shares, or even 10,000

[12/31/2003 8:47:44 PM] [bmweyrauch] ANDW - got stopped out today...baought back in lower, ended up good for the day because it came back up and still in the position I wanted to be in...just an example from today

[12/31/2003 8:47:55 PM] [Investortrader] As he would be losing his butt on the millions he sold when it bounced back up :)

[12/31/2003 8:48:45 PM] [Investortrader] That is the day, it's the only day it traded that low that year on any range at all

[12/31/2003 8:49:07 PM] [Investortrader] And it didn't get back over 10 for 4 or 5 more weeks

[12/31/2003 8:49:27 PM] [Investortrader] I'm sure though .. that it felt as bad as you are saying

[12/31/2003 8:49:42 PM] [bmweyrauch] the good thing about buying at the right R/R entry...you can afford the risk...just take the small loss...a great reason NOT to chase...and enter BOs very carefully

[12/31/2003 8:49:55 PM] [Investortrader] Another good point bmw!

[12/31/2003 8:50:32 PM] [america] wow. some of my favorite people...IT, BMW, Ak, etc.

[12/31/2003 8:51:16 PM] [bmweyrauch] :) thanks

[12/31/2003 8:51:25 PM] [StanS] bmw, were you running a close trailing stop?

[12/31/2003 8:51:40 PM] [Investortrader] Hi america :)

[12/31/2003 8:51:53 PM] [bmweyrauch] not trailing..but close...didn't want to lose much

[12/31/2003 8:52:07 PM] [StanS] ok thanks

[12/31/2003 8:52:33 PM] [america] hi people.

[12/31/2003 8:52:39 PM] [Aktony] Yes, I am looking at stockcharts.com and it must have been July 26, 2002

[12/31/2003 8:53:50 PM] [Aktony] and it didn't open at 10, it opened at 7.30...

[12/31/2003 8:54:33 PM] [Investortrader] So that's not far to drop it on such a big volume day

[12/31/2003 8:54:46 PM] [Aktony] yes

[12/31/2003 8:55:06 PM] [Investortrader] Probably was some news for the big volume .. still sucks to sell out at the low tick :(

[12/31/2003 8:56:04 PM] [Investortrader] Or maybe no news and just a washout day, it does look like one

[12/31/2003 8:56:34 PM] [Investortrader] That candle formation on such volume after a decline is a bullish pattern

[12/31/2003 8:56:59 PM] [Aktony] Are you getting that chart on TCNet?
[12/31/2003 8:57:10 PM] [Investortrader] I can get the daily, yes
[12/31/2003 8:57:21 PM] [Investortrader] Tried to look at a 5 minute for that day but won't go back that far
[12/31/2003 8:57:44 PM] [Investortrader] But your stop shouldn't have been so low
[12/31/2003 8:58:24 PM] [Investortrader] Looking at may june and july of that year, you could have put in a stop around 8.90 if you wanted to ride it and not try to get out near a high
[12/31/2003 8:58:30 PM] [Aktony] I now use Datek and they have trailing stops which move with the price.
[12/31/2003 8:58:34 PM] [Investortrader] Maybe 8.75
[12/31/2003 8:58:49 PM] [Investortrader] Under the swing lows of those months
[12/31/2003 8:59:29 PM] [Investortrader] Look at 7/23, even without a stop you should have sold on that day at the latest when those swing lows were broken
[12/31/2003 8:59:40 PM] [Aktony] Please explain swing lows of the months
[12/31/2003 9:00:01 PM] [Investortrader] Look at 6/11/02
[12/31/2003 9:00:15 PM] [Aktony] yes
[12/31/2003 9:00:16 PM] [Investortrader] That's a swing low
[12/31/2003 9:00:24 PM] [Aktony] I see
[12/31/2003 9:00:51 PM] [Investortrader] 7/05/02 another swing low
[12/31/2003 9:00:57 PM] [Aktony] I see it
[12/31/2003 9:01:06 PM] [Investortrader] It's just any low price in a move :)
[12/31/2003 9:01:17 PM] [Aktony] There is another one on 7/22
[12/31/2003 9:01:20 PM] [Investortrader] Same for swing highs, any high price in a shorter term move
[12/31/2003 9:01:40 PM] [Aktony] so, do you sell on swing highs?
[12/31/2003 9:01:48 PM] [Investortrader] Let's look at late june thru mid july 02
[12/31/2003 9:02:14 PM] [bmweyrauch] IT - going to review your lesson and then update....catch you all later...have a great and safe New Years
[12/31/2003 9:02:17 PM] [Aktony] It would be a good idea for you to post your chart so everyone can follow
[12/31/2003 9:02:27 PM] [honus99] IT, that bearish engulfing on 7/22/02 was a warning sign.
[12/31/2003 9:02:28 PM] [Investortrader] Night bmw :)
[12/31/2003 9:02:33 PM] [bmweyrauch] GN
[12/31/2003 9:02:50 PM] [Investortrader] Should still be shared
[12/31/2003 9:02:55 PM] [honus99] GN, BMW HNY
[12/31/2003 9:03:19 PM] [Investortrader] If you klikc on "share" then the "view

[12/31/2003 9:03:38 PM] [Investortrader] Right honus :)

[12/31/2003 9:04:05 PM] [Aktony] go on...

[12/31/2003 9:04:15 PM] [Investortrader] So looking at the swing high in late june, then the lower swing high in early july, and lower OBV confrming the lower swing high price, that was a warning

[12/31/2003 9:04:46 PM] [Aktony] yes

[12/31/2003 9:04:57 PM] [Investortrader] Then on 7/15 it broke down thru the middle BB

[12/31/2003 9:05:13 PM] [Investortrader] And thru the 50sma

[12/31/2003 9:05:29 PM] [Aktony] yep

[12/31/2003 9:05:30 PM] [Investortrader] FOr a few days there the 50sma was right around the same price as the middle BB

[12/31/2003 9:05:52 PM] [Investortrader] Meaning that price is more important, more chart points at those prices

[12/31/2003 9:06:24 PM] [Investortrader] Then on 7/19 it rallied to yet another lower swing high, and couldn't break above the middle BB or the 50sma

[12/31/2003 9:06:49 PM] [Investortrader] Not too any significant amount, maybe by a penny or a few

[12/31/2003 9:07:09 PM] [Investortrader] Then the 7/22 warning that honus pointed out

[12/31/2003 9:07:18 PM] [Investortrader] Big failure at the middle BB and the 50sma

[12/31/2003 9:07:52 PM] [Investortrader] Also the low of 9.20 that day breaking the two recent swing lows

[12/31/2003 9:07:57 PM] [Aktony] excellent analysis

[12/31/2003 9:08:09 PM] [Investortrader] The 7/05 and the 7/17 swing lows

[12/31/2003 9:08:14 PM] [Investortrader] That was the day to sell

[12/31/2003 9:08:21 PM] [Investortrader] If you hadn't already

[12/31/2003 9:08:56 PM] [Investortrader] It's always good to go over mistakes, or bad trades, or any losing trade .. to see what you can learn from them and if there was a mistake hopefully not repeat it by learning from it :)

[12/31/2003 9:09:01 PM] [Aktony] And you would set a stop below the swing low?

[12/31/2003 9:09:08 PM] [Investortrader] Not all losing trades are mistakes, but some will be

[12/31/2003 9:10:25 PM] [Aktony] So, where would you have set stops along the way up?

[12/31/2003 9:10:26 PM] [Investortrader] The 7/5 swing low was 9.26, I may have used a stop a nickel under that at 9.21, would have been taken out 7/22 at almost the

ClubHome

low of the day, might have thought that was lousy timing that night

[12/31/2003 9:10:49 PM] [Investortrader] But the next week I'd be smiling about it

[12/31/2003 9:11:15 PM] [Investortrader] Or the swing low on 7/17 of 9.48, may have used a nickel under that one for a stop

[12/31/2003 9:11:25 PM] [Investortrader] It did have rising bottoms the last 3 swing lows

[12/31/2003 9:11:52 PM] [Investortrader] But the OBV pattern on the swing highs

[12/31/2003 9:12:05 PM] [Investortrader] 6/24 OBV high

[12/31/2003 9:12:21 PM] [Investortrader] 7/10, lower price high, lower OBV high

[12/31/2003 9:12:54 PM] [Investortrader] 7/29 again, lower price and OBV high, both couldn't get over the middle BB, neither price nor OBV

[12/31/2003 9:13:04 PM] [Investortrader] I mean 7/19

[12/31/2003 9:14:20 PM] [Investortrader] That's why 7/22 I would have been out, probably before the end of the day and probably before my stop was hit, as the whole price/OBV pattern was giving big warning signs, then on 7/22 when it sold off and couldn't break thru the middle BB on either price or volume ..

[12/31/2003 9:14:29 PM] [Investortrader] either price or volume

[12/31/2003 9:14:49 PM] [Investortrader] I would have been thinking .. this is going to take me out, why wait for it to hit my stop, I'll just sell

[12/31/2003 9:15:13 PM] [Investortrader] If I hadn't already sold on the lower price and OBV highs

[12/31/2003 9:15:38 PM] [Investortrader] But that day was the last day to hold, 7/22, you had to get out that day at the latest

[12/31/2003 9:16:22 PM] [Aktony] It's very helpful to analyze individual stocks

[12/31/2003 9:16:59 PM] [Investortrader] Especially trades gone wrong, nothing much to learn from trades gone right :)

[12/31/2003 9:17:15 PM] [Investortrader] There is some, but much more to learn from trades gone bad

[12/31/2003 9:17:41 PM] [Investortrader] you may have even gotten out 7/11 ...

[12/31/2003 9:17:50 PM] [Investortrader] Or 7/12

[12/31/2003 9:17:53 PM] [Aktony] As the price moved up, how would you have moved the stop up?

[12/31/2003 9:18:05 PM] [Investortrader] When it showed lower price highs and lower OBV highs and got turned back again

[12/31/2003 9:18:40 PM] [Investortrader] Hmmmm

[12/31/2003 9:18:51 PM] [Investortrader] Did you own it in May?

[12/31/2003 9:19:30 PM] [Aktony] I bought it at 6.4, so I owned it earlier

[12/31/2003 9:20:28 PM] [Aktony] yes
[12/31/2003 9:20:32 PM] [Investortrader] Once it broke above those swing highs on 5/20 on good volume
[12/31/2003 9:21:08 PM] [Investortrader] you could move your stop up to a nickel or so under the lowest of those two highs
[12/31/2003 9:21:27 PM] [Investortrader] Around 9.60 or so

[12/31/2003 9:24:05 PM] [Investortrader] On 6/5 it gapped down

[12/31/2003 9:26:43 PM] [Investortrader] Also the gap close day on 6/7, OBV is much lower
[12/31/2003 9:27:33 PM] [Investortrader] Thanks Stan, it did split
[12/31/2003 9:28:47 PM] [webs4all] Are you talking about stock splits? why would one want to display adjusted?
[12/31/2003 9:29:21 PM] [Investortrader] you need to adjust the display for splits so it looks like the same price, otherwise you have a big gap in your chart where no gap

[12/31/2003 9:36:41 PM] [Aktony] Why is 3.21 a scalp point?
[12/31/2003 9:37:04 PM] [Investortrader] That's the question Aktony, try to find out why he said that :) I know why
[12/31/2003 9:37:12 PM] [Aktony] On 5/28, 3.21 was hit.
[12/31/2003 9:37:18 PM] [Aktony] Swing high?
[12/31/2003 9:37:28 PM] [cobralso] ADCT 05/21/03 HOD
[12/31/2003 9:37:34 PM] [Investortrader] That's it!
[12/31/2003 9:37:57 PM] [Investortrader] That was the high for that move
[12/31/2003 9:39:00 PM] [Aktony] What's iinteresting is that OBV is higher now. What does that mean?
[12/31/2003 9:39:17 PM] [cobralso] God I am good
[12/31/2003 9:39:24 PM] [Investortrader] Hehehe cobralso
[12/31/2003 9:39:35 PM] [Investortrader] I think it means more accumulation is going on
[12/31/2003 9:39:52 PM] [Investortrader] Stronger hands holding it
[12/31/2003 9:40:03 PM] [BaronDriver] Now let me tell you why I will never use a stock. I owned NVDA and there was an ugly rumer circulated during the night the stock opened down \$7 I was sold out at the low and it promptly returned to it'd trading range. On numerous other occasions I have had the market maker thieves go down, take out my stop and go on up the ladder. No thanks!!!
[12/31/2003 9:40:33 PM] [cobralso] Some day I'll make money at this
[12/31/2003 9:41:30 PM] [Investortrader] It opened down \$7 because there was a bunch of panic, and LOTS of sellers .. if there were no sellers they wouldn't open it down \$7
[12/31/2003 9:41:52 PM] [BaronDriver] SO??????
[12/31/2003 9:42:12 PM] [Investortrader] In other words, don't blame the MM's for that opening, blame all the panicked sellers
[12/31/2003 9:42:44 PM] [Investortrader] What day was this?
[12/31/2003 9:42:49 PM] [Investortrader] We'll take a look at it
[12/31/2003 9:43:07 PM] [BaronDriver] I'm blaming the mm's for the other dozens of situations--read!!!
[12/31/2003 9:43:53 PM] [Aktony] I was disconnected. What stock is under discussion?
[12/31/2003 9:44:07 PM] [Investortrader] you said it opened down \$7, they had to open it down that much with so many sellers
[12/31/2003 9:44:34 PM] [Investortrader] And if you aren't blaming the MM's, why mention that stock and thieving MM's in the same post?
[12/31/2003 9:44:55 PM] [BaronDriver] Two different!!!! Don't try to obscure!!!

ClubHome

[12/31/2003 9:44:58 PM] [Investortrader] MM's don't open a stock down a lot without sellers, they would lose their shirts

[12/31/2003 9:45:12 PM] [Investortrader] I'm not obscuring, I'm reading what you posted

[12/31/2003 9:45:59 PM] [Investortrader] If a MM opened a stock down \$7 with no sellers, guess who would have to be selling to all teh buyers down there? The MM, then when it went up they would have huge losses

[12/31/2003 9:46:16 PM] [BaronDriver] I was not blaming the NVDA loss on mm's--that was rumer---the others were mm's!!! Do you understand???

[12/31/2003 9:46:28 PM] [Investortrader] What others? you only mentionmed NVDA

[12/31/2003 9:47:06 PM] [Investortrader] Take responsibility for your own trades ... don't blame others for bad trades or you'll never have the incentive to learn ... see how Aktony and all of us learned from her bad experience?

[12/31/2003 9:47:30 PM] [Investortrader] If you just want to say ,, , it's his fault, it's their fault ... you won't learn

[12/31/2003 9:48:10 PM] [BaronDriver] Not blaming others---trying to help others escape the damage done by the thieves!!!

[12/31/2003 9:48:14 PM] [Investortrader] And if you don't learn, you'll keep making the same mistakes

[12/31/2003 9:48:39 PM] [BaronDriver] Stops will kill you!!!

[12/31/2003 9:48:41 PM] [Investortrader] "Not blaming others ... damage done by thieves" that's exactly what you are doing, blaming the MM's

[12/31/2003 9:48:58 PM] [Investortrader] And not tkaing responsibility for your own trades

[12/31/2003 9:49:22 PM] [cobralso] A happy man is a man with someone to blame

[12/31/2003 9:49:49 PM] [Investortrader] cobralso ;)

[12/31/2003 9:49:58 PM] [BaronDriver] When you place a stop you are giving other the responsibility for your trade.

[12/31/2003 9:50:30 PM] [Borankin] Baron, I think that analogy is a reach.

[12/31/2003 9:50:33 PM] [Investortrader] Just the opposite, when you place a stop you are taking responsibility for your own trades ... how many here were/are in IVAN or IJIE and wish they had used a stop?

[12/31/2003 9:50:53 PM] [Osc] Me

[12/31/2003 9:50:53 PM] [Aktony] The fact is that when a "hard stop" is placed, it is on the books. It can be seen by the mm's and they will, if possible, go down and take it out. Especially, if a stock can be sold for a higher price, they will buy the stock with the stop.

[12/31/2003 9:51:51 PM] [Borankin] I never use stop losses. I get my protection from

offsetting option positions. It's called delta neutral.

[12/31/2003 9:52:42 PM] [Aktony] It is good to know where you will sell in order to protect from losses.

[12/31/2003 9:52:44 PM] [Investortrader] A MM can't fight the market or the trend, if you place stops wisely so it's the trend or market that takes you out, then the MM can't gun your stop ... if you're so worried about hard stops, use mental stops I use mental stops myself, but for the reason that I can watch all day long and I want to see the volume/price action as my stop is being approached

[12/31/2003 9:53:50 PM] [Investortrader] Good point Aktony .. and I say you should know your stop-loss Before you put on every trade

[12/31/2003 9:53:58 PM] [Borankin] Stop losses can kill you in the case of opening gap ups or gap downs.

[12/31/2003 9:54:04 PM] [Investortrader] In case it goes bad right away

[12/31/2003 9:54:24 PM] [TrillionDolarMan] Hey, Investortrader....Harry Browne's got you pegged....

[12/31/2003 9:54:54 PM] [Borankin] I have to get y'all thinking calendar spreads. Especially, with QQQ. It's too easy.

[12/31/2003 9:54:56 PM] [Investortrader] The lack of stops will kill you much more .. just ask anyone in IVAN or IJIE, or those who bought Enron or Worldcom

[12/31/2003 9:55:03 PM] [TrillionDolarMan] Did anybody buy HEAVILY LEVERAGED ValueLine Futures in Kansas City, btw? Last October, of 2002? I hope you did. I hope you mortgaged your house on every contract.

[12/31/2003 9:55:20 PM] [webs4all] what are opinions on ACO, I am long and IBD said the uptrend was broken today

[12/31/2003 9:55:21 PM] [Investortrader] TDM, who is HARRY Browne?

[12/31/2003 9:55:25 PM] [TrillionDolarMan] Of course, if you did...you won't be reading this. You're in the islands.

[12/31/2003 9:55:28 PM] [cobralso] I have lost alot of money with hard stops this year

[12/31/2003 9:56:01 PM] [TrillionDolarMan] Harry Browne ran for PRESIDENT of the USA in the year 2000...but if you're in Hotto Club all the time, and not Politics Channel, I suppose you might have missed that.

[12/31/2003 9:56:12 PM] [TrillionDolarMan] no biggie.

[12/31/2003 9:56:23 PM] [webs4all] ACO, bull or bear?

[12/31/2003 9:56:28 PM] [Investortrader] Must not have been a biggie, since he got what, less than 1% of the vote? ;)

[12/31/2003 9:56:33 PM] [TrillionDolarMan] Anyway, he has the best definition of Investor/Speculator I've heard since...

[12/31/2003 9:56:49 PM] [Borankin] Gee, maybe that's where all those Seminole County votes went, TDM.
[12/31/2003 9:58:05 PM] [StanS] Harry Browne was one of the first "Gold Bugs" in the early seventies
[12/31/2003 9:58:06 PM] [TrillionDolarMan] Founder of the PERMANENT PORTFOLIO.....see mutual fund symbol PRPFX
[12/31/2003 9:58:24 PM] [aaanalyst] What was browne's definition of investor/speculator, TDM?
[12/31/2003 9:58:27 PM] [TrillionDolarMan] StanS WINS the history prize for 2003. Well done, Stan.

[12/31/2003 9:59:07 PM] [StanS] read his books...can't remember the titles anymore
[12/31/2003 9:59:15 PM] [Investortrader] Heh, I told my parents to buy gold in the early 70's when the gov't said citizens could own it lol
[12/31/2003 9:59:20 PM] [cobralso] To 6.60
[12/31/2003 9:59:24 PM] [webs4all] Is that mean it is going down
[12/31/2003 9:59:27 PM] [Investortrader] Big new demand, was an easy call
[12/31/2003 9:59:30 PM] [TrillionDolarMan] sez Browne: "When you invest, you accept whatever return the markets are paying investors in general."
[12/31/2003 9:59:46 PM] [Investortrader] Depends on what you invest in
[12/31/2003 10:00:01 PM] [webs4all] It is not going down to 6.6. It is \$20 stock
[12/31/2003 10:00:17 PM] [Investortrader] Got a much bigger return than the general market if you had been invested in gold last year or two
[12/31/2003 10:00:17 PM] [Borankin] Anyone want to talk about trendlines? Look at the QQQ chart I'm sharing.
[12/31/2003 10:00:32 PM] [TrillionDolarMan] sez Browne: "When you speculate, you attempt to beat that return -- to do better than other investors are doing -- through clever timing, forecasting, or selection. The implicit assumption is that you have knowledge or talents other investors lack."
[12/31/2003 10:00:46 PM] [cobralso] ACO ???
[12/31/2003 10:00:51 PM] [Investortrader] I'm doing ACO first by request :) we can do Q's next, but I don't trade indexes
[12/31/2003 10:01:21 PM] [webs4all] thanks. I bought ACO @21
[12/31/2003 10:01:24 PM] [aaanalyst] That's pretty good, TDM
[12/31/2003 10:01:43 PM] [Borankin] ACO trendlines are up: TSV 19 and SMA 5.

[12/31/2003 10:02:46 PM] [webs4all] ACO, IBD said that the up trend is over
[12/31/2003 10:03:07 PM] [aaanalyst] ACO looked pretty weak on the close
[12/31/2003 10:03:22 PM] [Borankin] ACO is not optionable, so I look no further.
[12/31/2003 10:03:23 PM] [TrillionDolarMan] Thanks, aaa.....good reply to my post on '60's/70's vs. today, btw.

[12/31/2003 10:04:22 PM] [Investortrader] Random thought .. why would anyone be in a stock club if they don't trade stocks? ;)
[12/31/2003 10:04:27 PM] [aaanalyst] YW, TDM. Now's the time when we should be looking at the long term so we don't get schnookered on the short term
[12/31/2003 10:04:48 PM] [Investortrader] Good luck to you and happy new year TDM :)
[12/31/2003 10:04:53 PM] [Borankin] Since both trendlines for QQQ heading north, I put on a \$37C Sep/Feb calendar. Net 1.10.
[12/31/2003 10:04:54 PM] [TrillionDolarMan] CHECKING ANNUAL CANDLES here tonight...then the quarterly, then the monthly...that long term enough, aaa?
[12/31/2003 10:05:10 PM] [Investortrader] And I do think I have more talent trading than investors!
[12/31/2003 10:05:13 PM] [webs4all] I shorted QQQ at 36.5
[12/31/2003 10:05:13 PM] [aaanalyst] What no century candle?

[12/31/2003 10:07:18 PM] [aaanalyst] So what great stocks did you come up with, TD
[12/31/2003 10:08:50 PM] [Investortrader] New highs, confirmed by OBV, looks like it's been in a regular rolling wave pattern for months

[12/31/2003 10:10:24 PM] [TrillionDolarMan] Bonds are NOT in a downtrend as yet, from 1981....not very close even....so, I'll be interested to see how that plays out with EVERYONE AND THEIR GRANDMA calling for higher rates.

[12/31/2003 10:10:38 PM] [Borankin] Someone once told me that with QQQ, if the body of an up candle is above 5 SMA, it's an uptrend. Likewise, if the body of a down candle is below 5 SMA it's negative. This works an incredibly high percentage of the time.

[12/31/2003 10:10:51 PM] [TrillionDolarMan] I think lower rates are not out of the question, though not likely either, general thinking wise.

[12/31/2003 10:11:07 PM] [Aktony] How about finishing analyzing the Q's and then going on to investments and stock picks for the new year? ;)

[12/31/2003 10:12:14 PM] [TrillionDolarMan] Elliott/Idiot wave people say gold contract was supposed to stop going up by \$417, or so, but they tend to miss 50% of most rallies anyway.

[12/31/2003 10:12:47 PM] [Investortrader] I finished with the Q's, no real interest as I have never traded an index, more bang for the buck in stocks

[12/31/2003 10:12:55 PM] [TrillionDolarMan] IGE is my ETF CRB proxy, and it's a space shuttle right now, with no disintegration in sight as yet..

[12/31/2003 10:13:26 PM] [TrillionDolarMan] Stocks are in the best sustained uptrend since 1966 right now...the year the DOW topped at 1000....for the next 16 years.

[12/31/2003 10:13:38 PM] [TrillionDolarMan] REITS are in uptrends until rates change...

[12/31/2003 10:13:47 PM] [TrillionDolarMan] Other than that, no symbols to report.

[12/31/2003 10:13:55 PM] [aaanalyst] .

[12/31/2003 10:24:00 PM] [Investortrader] I've missed a lot of trades in here that people have made money on :)

[12/31/2003 10:24:04 PM] [Aktony] For me, it's stops. I owned SIRI when it was .45, AMR when it was \$2+, WEL at .19. Kept getting stopped out and lost money on all of them!

[12/31/2003 10:25:00 PM] [Investortrader] Stops are a lot "art" ... and you will get whipsawed sometimes if you use stops ... but I'll take a few small loss whipsaws over some big large losers anyday

[12/31/2003 10:25:11 PM] [Aktony] It's lucky I've got a good sense of humor...and no longer feel the pain of losing money. :o

[12/31/2003 10:25:29 PM] [Investortrader] Takes a sense of humor in here! :D

[12/31/2003 10:26:14 PM] [Investortrader] How I try to work stops ... is to buy good support ... if the support is taken out by a few percent I get out

[12/31/2003 10:26:39 PM] [Investortrader] Doesn't mean you can't get back in!

[12/31/2003 10:26:41 PM] [aaanalyst] The problem with stops is where you have to set them. If you follow O'Neill and use 8% down. you'll go broke as a trader fast

[12/31/2003 10:27:03 PM] [Investortrader] I usually use about half that aaanalyst

[12/31/2003 10:27:11 PM] [webs4all] Very true, aaa

[12/31/2003 10:27:50 PM] [webs4all] instead of stops, I use tcnet price alerts

[12/31/2003 10:28:01 PM] [Aktony] aaa, hope you're not a commercial pilot!

[12/31/2003 10:28:04 PM] [Investortrader] I've heard the TCNet price alerts can be slow

[12/31/2003 10:28:29 PM] [aaanalyst] Why lose 8% when you can get out with 1% or less. It's the plane is losing altitude, forgeddaboutit

[12/31/2003 10:28:34 PM] [webs4all] a few minutes slow

[12/31/2003 10:28:40 PM] [Investortrader] SSPRO alerts are pretty quick, even on this slow dial-up here

[12/31/2003 10:29:19 PM] [webs4all] I have tcnet prices and new alerts on all my stocks

[12/31/2003 10:29:41 PM] [Investortrader] VICL is one I got stopped out of, bought at 5.06 and sold at 4.98

[12/31/2003 10:29:57 PM] [Aktony] Whew! Now I feel better. :D

[12/31/2003 10:30:01 PM] [webs4all] news alerts are bad, sometimes just filing stock sales

[12/31/2003 10:30:25 PM] [aaanalyst] I wouldn't leave you up there all by yourself
Aktony

[12/31/2003 10:30:44 PM] [Investortrader] I had already traded VICL once for small profit of a couple dimes or so, second time got stopped out for 8 cent loss

[12/31/2003 10:31:20 PM] [Investortrader] I was thinking of shorting VICL after that ... but hard to go against Hotto

[12/31/2003 10:32:19 PM] [Investortrader] Anyone in here in VICL?

[12/31/2003 10:33:02 PM] [aaanalyst] If you do the arithmetic, including commissions, you have to average 10% gains on your winners if you let all your stops go down 8% and your batting average is .500

[12/31/2003 10:33:34 PM] [aaanalyst] And that's barely above breakeven

[12/31/2003 10:34:05 PM] [Investortrader] Should do better than 10% gains unless you're a really short term trader

[12/31/2003 10:35:09 PM] [aaanalyst] There are a lot of traders out there

[12/31/2003 10:36:09 PM] [Investortrader] True, and a lot lose money, beginners is one thing, but some people do the same thing over and over and keep losing, reminds me of one definition of insanity

[12/31/2003 10:36:39 PM] [Investortrader] Expecting different results from the same actions is insane (highly paraphrased there)

[12/31/2003 10:38:42 PM] [aaanalyst] Another way I heard it recently is keep on going down the same old road and expecting to get somewhere different

[12/31/2003 10:39:14 PM] [Investortrader] That's a good way to put it! I forget the saying I heard on it, thus the highly paraphrased, but it sounds better than what I said lol

[12/31/2003 10:39:20 PM] [Aktony] very good aaa :)

[12/31/2003 10:39:43 PM] [Investortrader] I should be able to remember yours easier, and it sounds cool

[12/31/2003 10:40:38 PM] [Aktony] Real life...I bought MTON yesterday at 2.62 and put a stop below the previous day's low of 2.3 (so, around 2.27). Does that seem sane considering all the money I lose in getting stopped out?

[12/31/2003 10:40:53 PM] [aaanalyst] If you want to end up in a better place than you are, try a different road next time

[12/31/2003 10:41:09 PM] [Investortrader] Let's take a look ...

[12/31/2003 10:42:26 PM] [aaanalyst] Personally, I find continually honing my approach a challenging and fascinating experience. Keeps the mind working

[12/31/2003 10:42:47 PM] [Aktony] This is the most challenging thing I have ever done.

[12/31/2003 10:42:52 PM] [Investortrader] 2.62 is a bit high to buy it ... your stop is over 10% away

[12/31/2003 10:43:20 PM] [aaanalyst] It's a bit like the guy who does alligator wrestling on television

[12/31/2003 10:43:22 PM] [Aktony] Hmmmm....

[12/31/2003 10:43:29 PM] [Investortrader] When did you decide you were interested in MTON? during the day yesterday or before trading started?

[12/31/2003 10:43:46 PM] [aaanalyst] Unfortunately, the market is slipperier

[12/31/2003 10:44:02 PM] [gary12] 50sma is at 2.28

[12/31/2003 10:44:03 PM] [aaanalyst] slippyer . . . whatever

[12/31/2003 10:44:04 PM] [Investortrader] Or night before last?

[12/31/2003 10:44:11 PM] [Aktony] Hotto and FW were talking about MTON. I have made money in the stock in the past, looked at the chart and decided to buy it.

[12/31/2003 10:44:40 PM] [Investortrader] So it was during the trading day yesterday?

[12/31/2003 10:44:46 PM] [Aktony] Yes

[12/31/2003 10:44:58 PM] [aaanalyst] Ok ... more slippery than a greased python at times

[12/31/2003 10:44:58 PM] [Aktony] No, it was the night prior.

[12/31/2003 10:45:10 PM] [Investortrader] Ok, night before last

[12/31/2003 10:45:16 PM] [Investortrader] LET's start from there

[12/31/2003 10:45:20 PM] [Aktony] Probably about 11:30 p.m.

[12/31/2003 10:45:36 PM] [Aktony] ;) :D

[12/31/2003 10:46:49 PM] [Investortrader] The night of 12/29, right?

[12/31/2003 10:47:09 PM] [Investortrader] Just making sure :)

[12/31/2003 10:47:09 PM] [Aktony] Yes

[12/31/2003 10:47:25 PM] [Investortrader] Ok, lets back up the daily chart two days so last day is 12/29

[12/31/2003 10:47:51 PM] [Aktony] Got it

[12/31/2003 10:48:04 PM] [Groundog] .

[12/31/2003 10:49:12 PM] [Investortrader] At this point it looks a little extended to me, remember these low priced stocks can make bigger percentage moves .. in both directions

[12/31/2003 10:49:34 PM] [Investortrader] But OBV is confirming the new high (new

ClubHome

from the bottom it made)

[12/31/2003 10:49:55 PM] [Investortrader] So as of now uptrend is still intact

[12/31/2003 10:50:00 PM] [Investortrader] Now being that day

[12/31/2003 10:50:13 PM] [Investortrader] And it's riding the upper band

[12/31/2003 10:50:20 PM] [Investortrader] And broke over the 50sma

[12/31/2003 10:50:49 PM] [Investortrader] If you look at the 3 prior trading days, around 3.40 was resistance

[12/31/2003 10:51:11 PM] [Aktony] yes

[12/31/2003 10:51:27 PM] [Investortrader] I would look to buy a pullback to near that area

[12/31/2003 10:51:36 PM] [Aktony] 2.40

[12/31/2003 10:51:42 PM] [Investortrader] Yes

[12/31/2003 10:51:59 PM] [Investortrader] IT also wouldn't be breaking that days lod to pullback to there

[12/31/2003 10:52:09 PM] [Aktony] yes

[12/31/2003 10:52:09 PM] [Aktony] yes

[12/31/2003 10:52:09 PM] [Investortrader] Maybe 2.43

[12/31/2003 10:52:19 PM] [Investortrader] or 2.42, a few cents over that resistance

[12/31/2003 10:52:35 PM] [Investortrader] Many times when a stock breaks out it will come back to test the breakout area

[12/31/2003 10:53:02 PM] [Investortrader] So lets go forward one day now

[12/31/2003 10:53:35 PM] [Aktony] what day?

[12/31/2003 10:53:39 PM] [Investortrader] And you would have been filled at that price, see how it came right down to the 50sma almost

[12/31/2003 10:53:46 PM] [Investortrader] 12/30 now

[12/31/2003 10:54:02 PM] [Investortrader] The day after the night you got interested in it

[12/31/2003 10:54:02 PM] [Aktony] yes

[12/31/2003 10:54:23 PM] [gary12] hotto's # s=2.64.. s=2.84

[12/31/2003 10:54:39 PM] [Investortrader] gary, those are for MTON?

[12/31/2003 10:54:50 PM] [gary12] yes

[12/31/2003 10:54:56 PM] [Investortrader] Thanks gary :)

[12/31/2003 10:55:08 PM] [Investortrader] Looks like you were buying Aktony when Hotto was scalping/selling

[12/31/2003 10:55:21 PM] [Aktony] apparently so...

[12/31/2003 10:56:02 PM] [Investortrader] I've done just the opposite, I was selling once on ITIG when Hotto was buying ... he made money on my shares too! lol

[12/31/2003 10:56:03 PM] [gary12] t= 3.08

[12/31/2003 10:56:37 PM] [aaanalyst] I'm going to share my 15 minute chart on MTON. It might give a different view of it

[12/31/2003 10:56:47 PM] [Investortrader] I had almost a double from 3.06 so I didn't mind that much ;)

[12/31/2003 10:57:05 PM] [Investortrader] Hold a second if you can aaanalyst, let me go over one more day

[12/31/2003 10:57:33 PM] [Investortrader] So if you had tried to buy the pullback in MTON near the 50sma, that's buying good support

[12/31/2003 10:58:26 PM] [Investortrader] Now it looks like it is headed back down to that support, higher volume selloff today

[12/31/2003 10:59:10 PM] [Investortrader] Looks like it's not your stop placement but your buy points that need a little work Aktony

[12/31/2003 10:59:31 PM] [Aktony] Looks like BOTH to me...

[12/31/2003 10:59:52 PM] [Investortrader] When you buy too high, a reasonable stop-loss point will get you shaken out a lot

[12/31/2003 10:59:57 PM] [Aktony] Although I do try to buy when it has cleared the 50ma

[12/31/2003 11:00:07 PM] [aaanalyst] I agree. the buy point on this was back on 12/23. This morning was a time to sell or risk a significant PB

[12/31/2003 11:00:19 PM] [Investortrader] TRy to put your next buy on a pullback to the 50sma next time :)

[12/31/2003 11:00:35 PM] [Aktony] Excellent...thanks

[12/31/2003 11:00:54 PM] [gary12] MTON hotto buy 2.10 / 2.25

[12/31/2003 11:01:13 PM] [Investortrader] 12/23, 24, or 26 if you bought the BTBO on 23 could have gotten same price the next two trading days too

[12/31/2003 11:02:16 PM] [Investortrader] Ok, lets look at aaanalysts chart

[12/31/2003 11:02:41 PM] [Investortrader] What do you see in it aaanalyst?

[12/31/2003 11:02:47 PM] [aaanalyst] On my 15 min chart, I simulate a 1 day and 3 day MA by using a 26 ma and a 78 ma, which are their equivalent on a 15 min vs a daily

[12/31/2003 11:04:01 PM] [Investortrader] I see, cool

[12/31/2003 11:04:40 PM] [aaanalyst] When I got a +crossover, as on 12/23, I'm on the right side of the trade. Then I try to sell the extreme highs above the ma's as on 12/29 close or 12/31 at 10 am. Been able to nail some exits within a few pennies of the high

[12/31/2003 11:05:15 PM] [Aktony] Great

[12/31/2003 11:05:18 PM] [Investortrader] I see the crossover on 12/23

[12/31/2003 11:05:47 PM] [Investortrader] So you measure the distance from price to

ClubHome

those two ma's and try to sell when it gets too big

[12/31/2003 11:06:02 PM] [aaanalyst] I've been working on this short term trading chart for eons. I'm finally satisfied with it and I'm very hard to please

[12/31/2003 11:06:07 PM] [Investortrader] That's one measure of short term overbought :)

[12/31/2003 11:06:51 PM] [Aktony] So where exactly would your sell points have been...

[12/31/2003 11:06:57 PM] [aaanalyst] The idea, after all, is to sell HIGH and buy LOW

[12/31/2003 11:08:00 PM] [Investortrader] I see at one point on the 29th price was 40 cents higher than those ma's

[12/31/2003 11:08:03 PM] [aaanalyst] You can stay in the trade as long as you keep getting yellow over red, green over red, or cyan over magenta. But you can exit at any of the highs

[12/31/2003 11:08:53 PM] [aaanalyst] I don't mind leaving something in the stock for the next guy. As long as I'm making money on the trade, I'm fine

[12/31/2003 11:08:56 PM] [Investortrader] And when the yellow crossed under teh red at eod on the 29th it was 30 cents higher

[12/31/2003 11:09:38 PM] [Investortrader] I don't mind leaving some profit for the next guy either ... I like the saying ... If you don't sell too early, you sell too late

[12/31/2003 11:09:58 PM] [Investortrader] Just don't want to leave the next guy TOO much profit lol

[12/31/2003 11:10:18 PM] [gary12] lol

[12/31/2003 11:10:24 PM] [Investortrader] That's where I'm weakest at in my trading

[12/31/2003 11:11:54 PM] [Investortrader] I can see two different strategies for you now Aktony

[12/31/2003 11:12:01 PM] [Aktony] yes

[12/31/2003 11:12:43 PM] [aaanalyst] This approach also helps me survive minor pullbacks, even the one on the opening at 12/30. The 3 day (78ma) was still in an uptrend, so I could ride out the PB, and sure enough, it bounced back. Still, that PB would have made me nervous enough to bail out at the next high on late 12/30 or early 12/31

[12/31/2003 11:13:11 PM] [Investortrader] One would be to sell an opening pop to your price or a little better, if better could hold waiting to see if it will continue up (which I don't expect) and get out if it begins to drop again ... basically trying to get out even on this trade and start over (also gives it a chance to run if it does run)

[12/31/2003 11:13:38 PM] [Investortrader] Or close to your price, only 7 cents away

[12/31/2003 11:13:51 PM] [Aktony] yes

[12/31/2003 11:14:01 PM] [Investortrader] Since your entry wasn't so good :(But we'll work on that

[12/31/2003 11:14:34 PM] [Investortrader] The other is to hold on even if it pops and starts back down and maybe your stop won't get hit ... I don't like this one as well

[12/31/2003 11:14:37 PM] [Aktony] No problem...that's what I'm here for :)

[12/31/2003 11:14:52 PM] [Investortrader] If it doesn't pop

[12/31/2003 11:15:17 PM] [Investortrader] Again two strategies

[12/31/2003 11:15:41 PM] [Investortrader] Sell if today's low is broken on a down open (that's only 3 cents away, chances are any down open will do that

[12/31/2003 11:16:02 PM] [Investortrader] Or again, hold and see if your stop is hit or not

[12/31/2003 11:16:08 PM] [aaanalyst] I would watch for the opening on Friday and if you're still in it, on Monday. The closing dip today could just be nerves on the part of traders who were afraid to hold over the holiday. I would expect a strong pop out of the box by Monday

[12/31/2003 11:16:35 PM] [Investortrader] It looks to me like it is going down from the higher volume sell-off today, so I prefer selling to holding and hoping the stop isn't hit

[12/31/2003 11:17:29 PM] [Investortrader] At least down to test support

[12/31/2003 11:17:39 PM] [Investortrader] your stop is at 2.27?

[12/31/2003 11:17:56 PM] [aaanalyst] I agree. If it hits the stop, let it go. But I would still watch for an opening pop after the open and sell the high on that.

[12/31/2003 11:18:00 PM] [Aktony] I had a trailing stop on it. It is now at 2.43

[12/31/2003 11:18:49 PM] [Investortrader] That's my preferred strategy aaanalyst, if it pops

[12/31/2003 11:18:56 PM] [Investortrader] How do you trail your stops?

[12/31/2003 11:19:56 PM] [Investortrader] What made you choose 2.43?

[12/31/2003 11:20:14 PM] [Aktony] They are % trailing stops available at Datek. I chose the previous day's low, figured out that % against the purchase price. It was 13%. It hit 2.8 today, therefore the stop is now at 2.43

[12/31/2003 11:21:51 PM] [aaanalyst] At what price did you enter?

[12/31/2003 11:21:58 PM] [Investortrader] Ok

[12/31/2003 11:22:04 PM] [Aktony] 2.62

[12/31/2003 11:22:24 PM] [Investortrader] I don't like using arbitrary 5-age stops, the market doesn't know those numbers, it only knows chart points, support and resistance

[12/31/2003 11:22:32 PM] [Investortrader] %age, not 5-age

[12/31/2003 11:23:11 PM] [Investortrader] Can you be here to watch all day?

[12/31/2003 11:23:43 PM] [Aktony] The stop is not entered on books until it is

ClubHome

hit...that's what I like about it. I do watch all day. Gave up sleeping when I got on TCNet :o

[12/31/2003 11:24:05 PM] [Investortrader] :o

[12/31/2003 11:24:08 PM] [Investortrader] Me too lol

[12/31/2003 11:24:34 PM] [Investortrader] SSPRO has that too, set an alert, and can set an order to be automatically placed if alert is hit, so it's not on the books

[12/31/2003 11:25:05 PM] [Investortrader] One last question, does your broker allow OCO orders? One Cancels the Other

[12/31/2003 11:25:22 PM] [Aktony] It's really the only way to have stops. That way I can go out for groceries or wash my hair. Otherwise, forget it. :D :D :(

[12/31/2003 11:25:45 PM] [Aktony] I don't know what an OCO is...please explain.

[12/31/2003 11:25:59 PM] [aaanalyst] So right now, you're down just 7 cents. Stop worrying and get in the right mindset for the next trading day. Get ready to sell on a pop and watch those ma's. This could hit 3.00 and you'd be up 14%

[12/31/2003 11:26:04 PM] [Investortrader] Example, Sell at 2.62 OCO 2.49

[12/31/2003 11:26:21 PM] [Investortrader] If one order gets filled, it cancels the other order

[12/31/2003 11:26:23 PM] [Aktony] aaa, I never worry.

[12/31/2003 11:26:31 PM] [Investortrader] One Cancels the Other

[12/31/2003 11:26:56 PM] [Aktony] OCO, I never heard of that and Datek doesn't have it.

[12/31/2003 11:27:01 PM] [Investortrader] you'll probably need to call and ask if they allow OCO orders

[12/31/2003 11:27:22 PM] [Investortrader] It's used more in futures trading but some stock brokers allow them

[12/31/2003 11:27:28 PM] [Aktony] If they had it, it would be on their screen.

[12/31/2003 11:27:40 PM] [Investortrader] Ok

[12/31/2003 11:28:39 PM] [Aktony] This is a very small loss, I'm not playing with many shares. I'm just get used to 24/7 chats, new templates, etc.

[12/31/2003 11:28:41 PM] [aaanalyst] Glad to hear you're not a worrier. I'd be worried if you were

[12/31/2003 11:28:53 PM] [Investortrader] lol aaanalyst!

[12/31/2003 11:29:37 PM] [Investortrader] I'd say if it's going down it will test support, I think it will (but that doesn't mean it really will!), so you're stop in teh 2.40's will be taken out

[12/31/2003 11:30:54 PM] [aaanalyst] Position size matters, too, on low priced stocks. I see people buying 100 and 200 share lots of \$2 stocks and I cringe. If their RT comm. is \$22, they're paying 5.5 to 11% in commissions.

ClubHome

[12/31/2003 11:31:35 PM] [Investortrader] That's not good aaanalyst even for longer term traders, to give up that much in commissions

[12/31/2003 11:31:49 PM] [Aktony] I'm sure you've all had the experience of jumping out before the stop gets hit only to find it never falls to the stop price. Right now, I'm trying to learn many new things and trading in a small account. I have a larger account which I trade the "old" way.

[12/31/2003 11:32:14 PM] [Investortrader] Good that you're learning new things with small account and smaller trade sizes!

[12/31/2003 11:32:29 PM] [webs4all] MTON is going up from here, just passed 50 dma and volume has been up lately, I would hold and wait for bigger gain

[12/31/2003 11:32:50 PM] [Aktony] In the larger account, I use long term trend lines and ma's, and MACD and stochs. That one is, of course, up heavily this year.

[12/31/2003 11:32:59 PM] [Investortrader] Here's the first thing you need to decide ... if it does pop up to 2.60 or 2.62 will you sell

[12/31/2003 11:33:13 PM] [aaanalyst] Watch those ma's. If you've got a rising 3dma, you know it's okay to hang on

[12/31/2003 11:33:15 PM] [Investortrader] Because that might be the high

[12/31/2003 11:34:07 PM] [Investortrader] The decision is to either sell there, or hold and if it keeps going sell there if it comes back

[12/31/2003 11:34:41 PM] [Investortrader] But 2.64 was the close yesterday and open today

[12/31/2003 11:34:50 PM] [webs4all] aaa, that is a too simple way of looking at stock moves, based on your theory, IBM should be sold today

[12/31/2003 11:34:52 PM] [Investortrader] And it looks weak to me so may not get to there

[12/31/2003 11:35:09 PM] [webs4all] I mean 3dma or 5 dma

[12/31/2003 11:35:31 PM] [Investortrader] Second decision I think is ... if it doesn't pop, where do you get out? I don't like 2.43 as a stop

[12/31/2003 11:35:42 PM] [webs4all] IBM just got outsourcing contract from target

[12/31/2003 11:35:46 PM] [Aktony] What's the problem with 2.43?

[12/31/2003 11:36:09 PM] [Investortrader] I feel if it's going down it will test support, the 50sma is around 2.30

[12/31/2003 11:36:21 PM] [Investortrader] So you either need to do one of two things with that stop

[12/31/2003 11:36:24 PM] [Aktony] I see

[12/31/2003 11:36:34 PM] [Investortrader] Either raise it up to 2.49, a few cents under todays lod

[12/31/2003 11:36:39 PM] [aaanalyst] This is a good example of real life trading and

ClubHome

it has to be seen as fluid. At the close today, it crossed the 3d (78ma). The test is: will it rebound promptly. If it doesn't, that's bearish. If it does, you are at an add to point.

[12/31/2003 11:36:52 PM] [Investortrader] Or move it down under 2.30, back to 2.27 or so

[12/31/2003 11:36:58 PM] [Investortrader] Or 2.24

[12/31/2003 11:37:11 PM] [Investortrader] But that gives up a big %age from your buy, over 10%

[12/31/2003 11:37:24 PM] [Investortrader] But it would keep you in if it bounces off the 50sma

[12/31/2003 11:37:30 PM] [Investortrader] Or

[12/31/2003 11:37:49 PM] [Investortrader] Move stop up to 2.49, then place a buy order at 2.31 or 2.32

[12/31/2003 11:38:07 PM] [Investortrader] But I wouldn't keep it at 2.43

[12/31/2003 11:38:30 PM] [Aktony] Yes, I have been drawing a trendline on the stockchart chart and 2.49 or 2.5 breaks the trend.

[12/31/2003 11:38:52 PM] [Investortrader] Plus it's a few cents under the lod today, so a couple chart points

[12/31/2003 11:39:14 PM] [Investortrader] Why give up that 6 cents, when you start trading bigger, those pennies add up :)

[12/31/2003 11:40:29 PM] [Investortrader] Right now you're in rescue mode, trying to rescue a bad entry, every penny counts ... not sure I would go in at 2.31-2 or not though even if you do move stop up

[12/31/2003 11:40:56 PM] [Aktony] You are right IT, I agree.

[12/31/2003 11:41:24 PM] [Investortrader] I still have to go into rescue mode once in awhile ... just not very often

[12/31/2003 11:42:43 PM] [Aktony] I don't mind learning and making mistakes. I make them all the time; and some correct choices sometimes as well. Just human, like the rest of us.

[12/31/2003 11:42:47 PM] [Investortrader] Sometimes I'll get whipsawed on a stock, maybe a couple times .. then I erase that stock from my watch list and don't look at it, too frustrating as it keeps beating me, plenty of other stocks to trade .. part of my strategy in psychology ... another talk session on that one day :)

[12/31/2003 11:43:32 PM] [aaanalyst] Unfortunately, it's the stocks I scratch from my list that pop the following week

[12/31/2003 11:43:45 PM] [Investortrader] How do you know if you stop watching them? ;)

[12/31/2003 11:44:09 PM] [gary12] :D

[12/31/2003 11:44:21 PM] [aaanalyst] Because they love to give me the Bronx cheer

ClubHome

when I miss them LOL

[12/31/2003 11:44:30 PM] [Investortrader] :o

[12/31/2003 11:45:11 PM] [aaanalyst] No. More like:P

[12/31/2003 11:45:16 PM] [Investortrader] Hehehe

[12/31/2003 11:45:26 PM] [Investortrader] If it's a stock people are trading in here, hard to not know

[12/31/2003 11:45:46 PM] [Investortrader] As everyone is saying ... XYZ new HOD!

[12/31/2003 11:46:18 PM] [Aktony] That helps us not to miss them, to remember to enter them...too late! :D :D

[12/31/2003 11:46:26 PM] [aaanalyst] I mean, how many of us caught CVSN the day before it popped 218%?

[12/31/2003 11:46:31 PM] [Investortrader] lol Aktony :)

[12/31/2003 11:47:21 PM] [Investortrader] I didn't!

[12/31/2003 11:47:35 PM] [aaanalyst] It's 11:48 in NY. Time to get ready for the countdown

[12/31/2003 11:48:09 PM] [aaanalyst] When you hear the horns, don't confuse that with the opening bell and try to start trading

[12/31/2003 11:49:02 PM] [Investortrader] I wonder if I'll get a chance at ITIG or not, hmmm

[12/31/2003 11:49:18 PM] [Investortrader] Gotta wait till Fri :(

[12/31/2003 11:50:07 PM] [Cgc] aaa... Thanks for the chart template and explanation. I like it.

[12/31/2003 11:50:33 PM] [aaanalyst] YW, CG. I think it's a good one

[12/31/2003 11:51:04 PM] [Saroj] Its so bizaro to be watching Leno and his crowd watching NY for the New Year ball dropping and realizing that in CA New Years won't happen for another 3 hours... and didn't we see Sidney celebrating at 9 a.m. this morning. Are we in a time warp or what?

[12/31/2003 11:51:08 PM] [Investortrader] I saved it too, will get around to exploring it more maybe this weekend .. so much to do in here!

[12/31/2003 11:51:27 PM] [Investortrader] It is strange Saroj!

[12/31/2003 11:51:42 PM] [aaanalyst] What I especially like is that the ma's are real-time 1 day and 3 day ma's, not just based on the latest close

[12/31/2003 11:53:38 PM] [Cgc] Local t/v channel here did a coverage of about 10 different countries... incl. London Moscow china etc

[12/31/2003 11:54:16 PM] [Cgc] many different fireworks and languages

[12/31/2003 11:54:17 PM] [bluesman] aaa ... Thanks also for the chart template and explanation. Has nice possibilities.

[12/31/2003 11:54:53 PM] [bluesman] and you to IT, Thanks
