[2/9/2004 12:41:02 AM] [HOTTO] doctornt has replied to: Briefing.com deal
[2/9/2004 2:17:10 AM] [TCNut] Total China-US trade reached a record high 126.3 bln
usd last year, up 29.12 pct from 97.81 bln usd in 2002, Xinhua cited the customs
statistics as showing. It said China's imports from the US rose 24.3 pct to 33.86 bln
usd last year, while exports were up 32.2 pct at 92.47 bln.
[2/9/2004 2:17:41 AM] [TCNut] Xinhua quoted Long Guoqiang, a senior official with
the State Council Development Research Center, as saying that China is expected to
import more from the US this year -- particularly IT products, machinery, electrical and
plant equipment -- due to China's soaring economy and strong consumption growth
[2/9/2004 2:18:01 AM] [TCNut] China's total foreign trade also jumped 37.1 pct to
851.2 bln usd in 2003, a growth rate that was up 15.3 percentage points from a year
earlier. Japan remains China's largest trading partner with a total of 133.57 bln usd in
bilateral trade last year. The US takes the second place.
