[12/1/2003 12:47:54 PM] [sisterpractical] re VOIP - don't forget there is an elephant in that room - CSCO -- all the real live commercial stuff already being deployed in every new building a major company builds or revamps says Cisco all over it
[12/1/2003 12:48:06 PM] [isay] ... call it bandwidth shift... away from big private telecom nets to other nets... this is why the INAP, LVLT could benefit from VOIP
[12/1/2003 12:49:19 PM] [sisterpractical] if CSCO behaves normally, then a good question is: who are they planning to buy?
[12/1/2003 12:49:36 PM] [SeattleSteve] Excellent, sisterP

[12/1/2003 1:40:39 PM] [hotto] ANSR.. yes.. and to sustain a BTBO.. really needs about 150% of Avg Vol.... Maybe can slide by with 125%...

[12/1/2003 1:42:38 PM] [hotto] s= (Scalp pt... a place for scalpers or day-traders to sell.)... T= (Target.. a place I expect an ABC PB to begin)

[12/1/2003 1:42:58 PM] [hotto] Refer to ITIG.. Remember ? we had a T=6.13...

[12/1/2003 1:43:42 PM] [MadameButterfly] Borankin - USNA is Usana Health Science Inc. - a stock

[12/1/2003 1:44:12 PM] [Kavika] WTZ arrives at \$5

[12/1/2003 1:44:14 PM] [hotto] ITIG.. rallied to 6.13.. from 4.25.. then... began a 12 day consolidation.. with a PB low of 4.57....

[12/1/2003 1:44:48 PM] [hotto] So...the T=6.13 was worth Selling... for a re-entry on the ABC.. PB...

[12/1/2003 1:44:58 PM] [Borankin] Madame, do you do butterfly spreads?

[12/1/2003 1:45:12 PM] [hotto] Then.. we had several days... to accum... below 5..

[12/1/2003 1:45:44 PM] [hotto] THis one has continued to work nicely for us....

[12/1/2003 1:46:29 PM] [hotto] ITIG.. on an s= (scalp-pt)... may or may not be worth trying to sell and re-enter.

[12/1/2003 1:46:31 PM] [Smitty] Kavika....I don't know about the right side of cup.....but I think it has bottomed in Wave 4 and headed up to Wave 5. Looks to be taking a little rest this morning, about to turn for this afternoon run, hopefully~D

[12/1/2003 2:08:26 PM] [Icamani] Comment from Erlanger on LSCC thought you'd all
enjoy: Buy Lattice Semiconductor (LSCC) because it has seen a noticeable increase
in short interest over the past five months. The shorts have piled into this name and it
seems various sellside analysts do not agree. Last Tuesday, J.P. Morgan upgraded
Lattice to overweight from neutral. Forbes.com reported that J.P. Morgan found
during a channel check of its communications, consumer and industrial business
units that Lattice is going to post a strong quarter. LSCC has a short intensity level of
96% with a short ratio of 5.29 and is a Type 1 Short Squeeze. Earnings are due out
in 50 days.

[12/1/2003 11:14:17 PM] [hotto] see "Market Works" paper..... may be a "next 20" down ...
[12/1/2003 11:14:28 PM] [lavenderangel] anyone, how does one read the price level at LR30?
[12/1/2003 11:14:29 PM] [w2jc] thanks :)
[12/1/2003 11:15:18 PM] [Cobratrader] lavender, in a chart hit the period key twice
[12/1/2003 11:15:35 PM] [AllWeOwn] bob yes will do ITIG's are already posted but will do other two
[12/1/2003 11:15:46 PM] [lavenderangel] i do that but have you looked at what is shown next to LR30?
[12/1/2003 11:16:15 PM] [lavenderangel] sometimes you get a number that's in the millions on a stock that is under 7.00
[12/1/2003 11:16:53 PM] [lavenderangel] determined the method. you need to be at zoom 1 to see the price on an LR30
[12/1/2003 11:17:02 PM] [HOTTO] w2jc has posted a new link :zip archive of 031201 charts&chat by Hotto
[12/1/2003 11:17:03 PM] [Cobratrader] i'm in wrls now and i'm getting the price, haven't seen anything strange yet
[12/1/2003 11:17:36 PM] [ProfitTrader] LAngel, give example to test, I have not seen it yet..
[12/1/2003 11:17:43 PM] [lavenderangel] try zoom=4 and see what lr30 shows
[12/1/2003 11:18:00 PM] [lavenderangel] i'll share a chart and show you
[12/1/2003 11:18:09 PM] [HOTTO] w2jc has posted a new Discussion:zip archive of 031201 charts&chat by Hotto
[12/1/2003 11:18:16 PM] [lavenderangel] or just do a zoom=4
[12/1/2003 11:18:31 PM] [Jwerner] I've been looking through today's logs . . . did Hotto ever mention at what price he'd start nibbling at EGHT?
[12/1/2003 11:18:36 PM] [Cobratrader] still showing price
[12/1/2003 11:18:37 PM] [ProfitTrader] Zoom has no efect on values show. I testd for all zoom levels 1 to 9
[12/1/2003 11:18:48 PM] [lavenderangel] i'll share
[12/1/2003 11:19:42 PM] [ProfitTrader] If you share chart we do not see'your' pointer block showing values...
[12/1/2003 11:19:46 PM] [lavenderangel] i think i know. it's when and where you add the LR30 indicator. i'll try that

ClubHome

[12/1/2003 11:20:38 PM] [lavenderangel] i have it up with the pointer block. let me try changing the add of the LR30 indicator. i've noticed that mas are different depending on where you add them

[12/1/2003 11:21:11 PM] [w2jc] you have to be sure you are adding the MAs and LR to the PRICE and not to some other indicator

[12/1/2003 11:22:07 PM] [gary12] put the LR 30 on the price (open the Edit and add the LR30 to Price)

[12/1/2003 11:22:12 PM] [lavenderangel] that was it, exactly w2

[12/1/2003 11:22:19 PM] [lavenderangel] got it working now. thx all

[12/1/2003 11:33:11 PM] [StopUser] does anyone know if there's a way to sort when you placed a stock/index into a watchlist...without attaching a note to it (that's the only way that I can see doin it)

[12/1/2003 11:33:57 PM] [StopUser] can a watchlist be sorted by "when placed into the watchlist"?

[12/1/2003 11:34:30 PM] [RkyMtnFool] Sure - sort by "Tracking number of Days in List"

[12/1/2003 11:35:18 PM] [StopUser] Thanx Rky...haven't noticed that sort...ONLY BEEN WITH TCNET A YEAR...duh

[12/1/2003 11:35:42 PM] [ProfitTrader] I don't exactly remember. Hotto mentioned it one time in last two weeks. I will have to look into logs. May be one of saturday chart. It grabbed my attention. I combine that (RT) with mkt breadth indicators (delayed). If you check logs of last few days I ask Hotto around an hour to half-hour before mkt close what his FCI indicates. He is been kind enough to answer right away. He answers in one line. Easy to miss. If you find in logs or from Hotto, let me know. I am sure once acronym is added to glossary - Hotto will get lot of questions.

[12/1/2003 11:36:11 PM] [RkyMtnFool] Strange that they start that with "Tracking" - took me a while to find it too.

[12/1/2003 11:36:54 PM] [w2jc] PT ... I just put the term in the glossary, but can you suggest 'details' for me to add ?

[12/1/2003 11:37:03 PM] [StopUser] overkill on the sort stuff for me...like to KISS

[12/1/2003 11:37:46 PM] [ProfitTrader] Oops TCNet bug..I was typing this as a PrvtMsg in other window and it showed up here...

[12/1/2003 11:37:51 PM] [Oregongeordie] Thanks

[12/1/2003 11:37:59 PM] [lavenderangel] you'

[12/1/2003 11:38:08 PM] [lavenderangel] you are caught

[12/1/2003 11:38:51 PM] [bobpan] Profit Trder, FCI = Four Chart Indicator, Hotto's setup

[12/1/2003 11:39:55 PM] [ProfitTrader] w2jc - let me pull out my logs and find it. I am sure my understanding/explanation/detail would be not as good as Hotto but he can always refine it. I hope I will let you know sometimes tomorrow.

[12/1/2003 11:40:24 PM] [w2jc] ok PT ... thanks ... i'll just put the term in now and add the details later ...

[12/1/2003 11:50:06 PM] [mace] .
