[4/19/2004 10:21:10 AM] <BossFan> hotto, with all due respect, most of us have been adding to FVCX all along with you. I don't think you posted you were scalping, but rather you were accumulating like the rest of us. Same story with IEIB, I don't think you ever mentioned a sale. Please note that I am not accusing you of anything here hotto - we all play with our own \$\$\$ and its our responsibility. But a signal that you are out might help us all. Just my 2 cents
[4/19/2004 10:21:11 AM] <rsi77> :o

[4/19/2004 10:22:39 AM] <Len426> Boss, you are correct
[4/19/2004 10:22:56 AM] <malealltrash> yes he has a branded cow
[4/19/2004 10:23:36 AM] <nemsca> Boss, it seems that the one fault hotto has is not reporting his sales of a stiff stock at the time its done.
[4/19/2004 10:23:43 AM] <Len426> Only buys were posted
[4/19/2004 10:23:48 AM] <Harley> Boss im with you

[4/19/2004 10:25:53 AM] <Pucker> We've had this disscussion on other stocks that tanked and one solution was for Hotto to put up ***** These when it was importantant*****
[4/19/2004 10:26:09 AM] <gman> jipas
[4/19/2004 10:26:21 AM] <nemsca> noone said that they don't like Hotto, everyone respects his abilities. We are trying to improve things by leting him know oure feelings.
[4/19/2004 10:26:28 AM] <turningpoint> all due respect boss I think the operative phrase we "we all play w/our own \$\$ and it's our responsibility" in the end there you are so that is where I start and stay
[4/19/2004 10:26:34 AM] <tobydad> At the very least, these are discussions you should be having privately with the person with whom you find fault...not with each other...and not in front of the whole group.
[4/19/2004 10:26:56 AM] <streetwalker> gnpaii, is that comparable to...if you criticize your country...."leave it"? a bit unfair, don't u think? or do u? think, that is!
[4/19/2004 10:27:03 AM] <BossFan> can't PM hotto :)
[4/19/2004 10:27:12 AM] <Newkid49> ISSC=looks like a possible DBO &/or BO
[4/19/2004 10:27:13 AM] <Sully> here is my 2 cents: Hotto is trading his own and he does not have time to state ewvery thing he does when he does it. He is kind and generous in allowing us to see what he is doing but we all need to leasrn to read our own charts. Just trade and quit depending only on Him. He does one heel of a job and if yopu do not like it then QUIT. We are all grown up people (I think) and we need to do our own homework. HOTTO keep going I am behind you
[4/19/2004 10:27:13 AM] <Pops> Let's all play nice in the sandbox
[4/19/2004 10:27:22 AM] <alanjames> FVCX was always an add on with ding ding ding stated there was no review for sale of the stock, and the answer is not to leave but to play the game fair now everyone is under water and we all did not miss the hotto sale by accident

[4/19/2004 10:29:11 AM] <payck> if you've been badly hurt by any one position, re-examine your trade allocations and establish your limit to how much you put in any one position- basics folks

[4/19/2004 10:37:23 AM] <rockin> TASR - shorts been getting a wedgy

[4/19/2004 10:37:31 AM] <cobralso> I take responsibility for my bad trades, I hold hotto responsible for the good ones xP

[4/19/2004 10:37:38 AM] <Quintus> my 2 cents - if you are focusing in an "excruciating" manner on only one stock (ie, viewing the 1min chart often and cheering or wincing at every tick), you are not allowing the market to present you any new opportunity. a basic psychological truth of trading that it took me 10 months to overcome. but man it feels good.

[4/19/2004 10:37:46 AM] <BossFan> WooHoo! ALAN is cooking...ne1 get in Friday with me?

[4/19/2004 10:38:15 AM] <neofighter> One of the problems here is some of you look at Hotto as some kind of a god. He is not. He is a very good trader and so far I have learned a lot. He shares freely but is not perfect. We are all responsible for our own actions.

[4/19/2004 10:38:19 AM] <peanut> IDNX...good 5 minute base..turning up

[4/19/2004 10:38:45 AM] <AlanK> That's my namesake Boss. I'm with you all the way. ;)

[4/19/2004 10:39:11 AM] <rockin> TASR - up almost 10 pts today :8

[4/19/2004 10:39:34 AM] <decdog> mace

[4/19/2004 10:39:39 AM] <eemarin> true, neo! Hotto, "not" some kind of god.

[4/19/2004 10:39:46 AM] <peanut> IEIB has alot of overhead supply but 1 these 5 minute good volume spikes could push thru

[4/19/2004 10:39:49 AM] <hotto> FVCX.. fwiw.. I still have my basic Long posn.. actually.. more than basic..

[4/19/2004 10:40:36 AM] <Sully> now I am paying attention on WAVX today

[4/19/2004 10:40:44 AM] <decdog> Hotto dont let the small stuff bother you sir

[4/19/2004 10:41:14 AM] <Dragon1> FVCX those looking for that base on the 5s, we have some volume building

[4/19/2004 10:41:27 AM] <Sully> Hotto i still like what you are doing ;)

ClubHome

[4/19/2004 10:41:35 AM] <RoadDog> If Hotto would just start the "HottoFund" we wouldn't have to hang on his every word!

[4/19/2004 10:41:41 AM] <hotto> The action the last couple days.. has made me lower my upside ideas.. But.. I still think it will repeat.. approx 5.50 to 6.10... over next few weeks. I can wait..

[4/19/2004 10:41:48 AM] <tobydad> Hey, I bot FWIW cause of hotto's 10:39 post and it didn't go well...I'm tellin'! :D

[4/19/2004 10:41:57 AM] <Dragon1> I suggested the mutual fund before :D

[4/19/2004 10:42:00 AM] <AllWeOwn> 25 mil and 21 mil was not jsut TCNet buyers. DO you think this is the only place that FVCX was being traded? lol

[4/19/2004 10:42:02 AM] <BossFan> Go ALAN! Maybe I can offset my FVCX loss and then forget about the entire situation :)

[4/19/2004 10:42:17 AM] <Sully> I am waiting on FVCX no problem :)

[4/19/2004 10:42:30 AM] <corvette68> Good point AllWe

[4/19/2004 10:42:44 AM] <Newkid49> Hotto, ur the pied piper....not your fault if your follows forget their liquidity....KEEP UP THE GOOD WORK! I've only been onboard w/u 4 times.....no regrets

[4/19/2004 10:42:58 AM] <MoneyJohn> trying to help...just added FVCX

[4/19/2004 10:43:05 AM] <AllWeOwn> if you want double your money in a 12 hr period, go to a casino. good luck

[4/19/2004 10:43:12 AM] <AllWeOwn> or join a day trading club

[4/19/2004 10:43:14 AM] <RainbowZone> IPIX

[4/19/2004 10:43:18 AM] <Dragon1> if he is the pied piper what does that make us? B)

[4/19/2004 10:43:34 AM] <Sully> excellent point Dragon1

[4/19/2004 10:43:36 AM] <AtlantaRob> The rats

[4/19/2004 10:43:37 AM] <malealltrash> mice

[4/19/2004 10:43:42 AM] <Dragon1> thank you john your contribution is appreciated

[4/19/2004 10:43:43 AM] <Howieeee> All this talk is a waste of tme...we know the risk...we are not little kids...we know HOTTO has a super analytical mind that we all wish we had jjust a fraction of...keep up the good work MR> H...we all appreciate you big heart and mind...ty..ty..ty..ty

[4/19/2004 10:43:44 AM] <Newkid49> his followers

[4/19/2004 10:44:41 AM] <AtlantaRob> I am happy to be one though because hotto finds many ideas that I'd never find to trade, and I trade on my own signals based on the stocks he thinks might move

[4/19/2004 10:44:52 AM] <hotto> In any case.. Always remember to avoid putting more than approx 5% to 7%.. into any one stock.. esp if it has made a Lower LOD.. than yesterday...That is really a sell sig.. I avoid building up bigger and bigger posns.. in declining stocks.. that lesson was learned in the 1980s..

[4/19/2004 10:44:58 AM] <BossFan> ALAN ove Friday HOD! s=2.15 for me

[4/19/2004 10:45:29 AM] <alanjames> I look at hotto for honest assitance and it seems he touts stocks that are good winners and also has his share of losers like all of us . It would be appropriate to define the buys and sells so we can make our own determination of coursel We are paying for a service and when you are a subscriber you expect to be treated with the winners and losers as well and not have someone like you jump on me because i need some clarification. I trade because of the sam e reasons we all do, but i do not feel we were treated properly with FVCX as to sell guidelines

[4/19/2004 10:45:35 AM] <Traderabe> BossFan..let's face it we cann't win'em all

[4/19/2004 10:45:42 AM] <Dragon1> it's had to keep to the 5 to 7 per cent with only 20 dollars in the account, they won't sell partial shares

[4/19/2004 10:46:03 AM] <AtlantaRob> MAGS

[4/19/2004 10:46:16 AM] <BossFan> I know Abe...I know

[4/19/2004 10:46:21 AM] <malealltrash> Since I am a paying member of this club, I

[4/19/2004 10:47:17 AM] <Quintus> i learned that "lower LOD than yesterday" sell sig the hard way -- in SCKT last december. so of course i puked it all up somewhere close to the bottom. now it'

[4/19/2004 10:52:28 AM] <OmahaJim> Keep the chatter on FVCX it seems to be helping the stock:)

[4/19/2004 10:52:33 AM] <Quintus> re: your comment several lines back about Moving On

[4/19/2004 11:00:22 AM] <Yogi> Excuse me for butting in here; I rarely post, but I will say that anyone who blindly follows anyone else's trades is destined to lose over time. You must learn to think for yourself and read the charts.

[4/19/2004 11:04:28 AM] <OddBodkin> People blowing off steam. It's good to let it out. Otherwise it gnaws at you. No harm done and I don't think any was meant. Back to trading. :)

[4/19/2004 11:50:53 AM] <hotto> We got the PB to LR30.. after the test of 34.99... Now.. We can only "guess" if it will complete the journey.. to UBB.. as the pattern suggests...
[4/19/2004 11:51:25 AM] <hotto> UBB is over 38 today... would be nice.. IF it happens..

[4/19/2004 4:07:07 PM] <Quintus> "fear".. so that caps gold by 1) opportunity cost in fixed income, or would help gold b/c higher rates are function of higher inflation -- the "advertised" reason people buy gold & mining stox ? sorry, but this very circular issue is confusing. what gives ?
[4/19/2004 4:08:07 PM] <Quintus> all i know is the stocks are nothing but Chop..
[4/19/2004 4:08:17 PM] <hotto> Quint.. Simply "cost of carry"... for holding Gold bullion... That is a zero sum game... too much supply..
[4/19/2004 4:09:12 PM] <hotto> When "Real rates" (Nominal - Inflation)... is negative.. Gold goes up..

[4/19/2004 4:25:28 PM] <Quintus> MTSX- agreed, gaps are for selling, i sold 1/2 this am well over 11. gap down near 8.3 would get me buying back. i think the instutional guys step up Bigtime one this one in \$10-11 area (if it holds up there for few days). but, opinions are like you know what (everybody's got one!)
