[2/26/2004 10:00:11 AM] [hotto] DJIA has taken out yesterday's LOD.. May be ready for a double-3.. decline.. with today = day 1.. down..

[2/26/2004 10:04:13 AM] [hotto] Hope everyone took some profits.. this morning.. Early strength in a few stocks..

[2/26/2004 10:04:33 AM] [hotto] JCP guides lower

[2/26/2004 10:06:36 AM] [hotto] DIA - nice Short

[2/26/2004 10:06:50 AM] [Stixman] ADCT out 2.95 + .25

[2/26/2004 10:07:15 AM] [Stixman] Ooops 2.92 sorry

[2/26/2004 10:07:39 AM] [hotto] Stix.. good job !

[2/26/2004 10:07:48 AM] [nemsca] Hotto, I sold out of Augt, ty..only profit what are u doing with LTXX, Feic, Veco??

[2/26/2004 10:09:20 AM] [hotto] DJIA.. if First 3 days down is useful "measure".. then next target is just below 105300

[2/26/2004 10:09:40 AM] [hotto] OOPS.. I mean... 10300

[2/26/2004 10:10:12 AM] [Loufla] Hotto I like 10215 but I have been wrong before

[2/26/2004 10:10:15 AM] [hotto] IF that should occur.. would put DJIA back below SMA50... AND.. below Lwr BB...

[2/26/2004 10:10:41 AM] [hotto] Down there... look for the numbers we discussed recently...

[2/26/2004 10:11:26 AM] [swan] Hotto, if I recall, you may have underestimate the "Bigs" intensity about preerving an up makerket going in to last Friday's Opt. Exp. What makes you think their intensity would be deminished here, going into EOM?

[2/26/2004 10:12:26 AM] [hotto] swan.. yesterday... upside "stalled" without hitting our targets... Weaker than expected... on the bounce...

[2/26/2004 10:13:02 AM] [hotto] that is the newest message - to me.. Weaker than est..

[2/26/2004 10:13:38 AM] [VJnet] that fits your message last night about NH/NL list

[2/26/2004 10:14:13 AM] [swan] I hear yah, but EOM is EOM. very powerful

[2/26/2004 10:14:19 AM] [hotto] I stay as flexible as possible... I make projections.. Models.... Then... watch for feedback info from the market..

[2/26/2004 10:14:55 AM] [hotto] swan.... Sentiment numbers say most of us already are looking for Strong EOM...

[2/26/2004 10:15:21 AM] [hotto] The beginning of that bounce.. started 2 days ago..

given a chance, nice one

[2/26/2004 4:15:59 PM] [WhiteRabbit1] Slow vol though, pay

[2/26/2004 4:16:13 PM] [turningpoint] got jan run now Mar

[2/26/2004 4:16:49 PM] [hotto] FNSR. yes... I have a Full posn.. after some adds..

[2/26/2004 4:16:55 PM] [WhiteRabbit1] last half an hour was better, see what it does tomorrow

[2/26/2004 4:17:09 PM] [hotto] BKHM.. yes

[2/26/2004 4:19:28 PM] [hotto] HTCH finished.. good Price...and Volume.. BO20... and DBO3.. expect 29.85 tomorrow.

[2/26/2004 4:20:42 PM] [payck] sounds good to me

[2/26/2004 4:22:57 PM] [hotto] I said "full posn" that means.. 10% of cash value of trading account.. for stocks over 10.... 5% of cash value.. for stocks under 5.. between... 5 and 10... somewhere between..

[2/26/2004 4:24:06 PM] [payck] so at times when you are adding more than 8-10 stocks in a day, you must be taking partial positions as a beginning entry?

[2/26/2004 4:24:54 PM] [hotto] pay... Depends on the phase of the market I think we are in..

[2/26/2004 4:24:56 PM] [payck] or do i need to think about margin]

[2/26/2004 4:25:17 PM] [hotto] In mid Dec.. I began building posns.. for the big JAN rally...

[2/26/2004 4:25:41 PM] [hotto] By Dec. 31.. I was at about 190% Long overnight..

[2/26/2004 4:26:20 PM] [hotto] Then... went to over 300% Long.. most days.. until near the end of the "Magic Earnings week"...

[2/26/2004 4:26:38 PM] [hotto] Since the FOMC "language change" week...

[2/26/2004 4:26:54 PM] [hotto] i have been back below 100% long most nights..

[2/26/2004 4:27:07 PM] [hotto] with Shorts and PUTs.. to balance..

[2/26/2004 4:27:19 PM] [hotto] ok ?

[2/26/2004 4:27:23 PM] [payck] thanks, yes

[2/26/2004 4:28:00 PM] [hotto] but.. yes.. in early Jan.. I had about 25 - 30 posns... many cheapies..

[2/26/2004 4:28:33 PM] [payck] that's when I am at my worst, I accumulate too many to manage well

[2/26/2004 4:28:55 PM] [hotto] I need a Real IT RALLY to do that..

[2/26/2004 4:29:19 PM] [payck] yes, that's what i mean, I hold them too long and things go bad fast

[2/26/2004 4:29:24 PM] [hotto] Then.. I let the market "manage" most of the job.. until my targets..

[2/26/2004 4:29:53 PM] [hotto] OR.. until I see the end of the IT RALLY approaching..
