[4/26/2004 4:09:39 PM] <Investortrader> streetwalker, quick explanation ... "abc" is a pb where it goes down, comes back up a little, then goes back down to test the "a" low ... before moving back up again

[4/26/2004 4:10:17 PM] <malealltrash> u hope ? lol

[4/26/2004 4:11:53 PM] <streetwalker> thanx; 'tho seems a bit too common to qualifying as a "technique" or threshold decision rule. thanx

[4/26/2004 4:13:09 PM] <Investortrader> Welcome, it is pretty common, OBV helps to decide if it's a pb or will continue down many times

[4/26/2004 4:13:16 PM] <hotto> streetwalker. there is more on the details on ABC theory.. on the website...

[4/26/2004 4:13:50 PM] <hotto> As usual.. IT gave the "KISS" definition..

[4/26/2004 4:13:59 PM] <Luigistock> ABC more than down up down ... areas of support, volume action and other indicator support play in as well

[4/26/2004 4:14:06 PM] <streetwalker> IT and Hotto: just found ABC in Hottoworks, thanx for help.

[4/26/2004 4:14:37 PM] <Investortrader> I did say it was the quick explanation!

[4/26/2004 4:14:38 PM] <streetwalker> a little rusty traveling the site!

[4/26/2004 4:14:46 PM] <hotto> To be successful with it.. expect to need more detail. At least.. I did.

[4/26/2004 4:14:50 PM] <MWid> Street, check clubs/hotto/reports/"Glossary/Encyclopedia....." by wj2c reference to file on ABC Pullbacks

[4/26/2004 4:15:10 PM] <Investortrader> And I don't think that's my "as usual"

[4/26/2004 4:15:22 PM] <MWid> ...in addition to the more expert help of course (smile with wink)

[4/26/2004 4:15:47 PM] <streetwalker> IT: i enjoy quickies, just like the next person and it was helpful, as always

[4/26/2004 4:16:18 PM] <AtlantaRob> What time is Market View tonight?

[4/26/2004 4:18:31 PM] <hotto> To characterize the market.. that is.

[4/26/2004 4:19:07 PM] <nemsca> Anyone know why CAMP trading was halted??

[4/26/2004 4:19:16 PM] <StockStalker> went camping

[4/26/2004 4:28:52 PM] <nemsca> 55 now

[4/26/2004 4:29:09 PM] <zenvestor> not sure, usually need a nap after the close, but seems reasonable, thx

[4/26/2004 4:29:54 PM] <hotto> SLAB.. I missed the 53.55.. by about 5 seconds..

[4/26/2004 4:32:58 PM] <toptrader99> osip will be the "new" tasr
[4/26/2004 4:33:17 PM] <StockStalker> DNA is a better comparison
[4/26/2004 4:33:39 PM] <toptrader99> dna is an nyse company
[4/26/2004 4:33:51 PM] <honus99> SLAB coming back a little
[4/26/2004 4:33:52 PM] <toptrader99> not a comparison at all
[4/26/2004 4:34:09 PM] <StockStalker> yeah whatever bro
[4/26/2004 4:34:16 PM] <honus99> OSIP pop same as DNA pop last year
[4/26/2004 4:34:26 PM] <StockStalker> both came out with a cancer drug and gap
up huge
[4/26/2004 4:34:32 PM] <StockStalker> no not a comparison
[4/26/2004 4:34:36 PM] <StockStalker> LOL
[4/26/2004 4:34:47 PM] <Luigistock> no comparison
[4/26/2004 4:34:48 PM] <toptrader99> oh, i hear that comparison, true, i mean for
future trading, osip will gather the same kind of people as tasr
[4/26/2004 4:34:57 PM] <StockStalker> oh u mean i may be right!!!
[4/26/2004 4:35:04 PM] <StockStalker> holy moly
[4/26/2004 4:35:09 PM] <Luigistock> happened once
[4/26/2004 4:35:14 PM] <toptrader99> yes, on your point, you are right
[4/26/2004 4:35:15 PM] <StockStalker> twice now
[4/26/2004 4:35:24 PM] <Luigistock> you getting good
[4/26/2004 4:35:38 PM] <honus99> but who's keeping track
[4/26/2004 4:35:40 PM] <toptrader99> ;-)
[4/26/2004 4:35:43 PM] <StockStalker> teh DNA capitalization was huge and that
gap was a shocker
[4/26/2004 4:35:50 PM] <StockStalker> and then it jsut kept going up
[4/26/2004 4:36:29 PM] <Luigistock> got my 90 ----> 100 shares
[4/26/2004 4:36:41 PM] <Luigistock> samll but got em
[4/26/2004 4:37:21 PM] <hotto> Got my Food money on OSIP... 6th trade today...
[4/26/2004 4:37:22 PM] <Johnster> Oz, the DNA gap wasn't as huge a s OSIP's,
wass it? If not, would you expect OSIP to PB to test top of BB before bouncing
higher?
[4/26/2004 4:37:52 PM] <StockStalker> but the mkt cap is WAY WAY bigger on
DNA>.. the gap was actually more impressive
[4/26/2004 4:38:00 PM] <Luigistock> Hotto you having some fun buddy :)
[4/26/2004 4:38:16 PM] <StockStalker> but the story is the same. shood be very
active now
[4/26/2004 4:38:24 PM] <StockStalker> like TASR as was said
[4/26/2004 4:38:34 PM] <hotto> yeah Luigi... fun
[4/26/2004 4:38:50 PM] <honus99> DNA, gap was about 35 to 55.
[4/26/2004 4:39:33 PM] <hotto> OSIP.. over 92 now.. plenty of players..
[4/26/2004 4:39:58 PM] <hotto> I missed EBAY by .02 this morning.. darn.
[4/26/2004 4:40:01 PM] <StockStalker> 527 millions shares outstanding on DNA...
multiply that by 20
[4/26/2004 4:40:03 PM] <Harley> Hey Oz where you get that scanner
[4/26/2004 4:40:39 PM] <hotto> SLAB 55 x 55.19... who loves ya ?
[4/26/2004 4:40:45 PM] <hotto> :8
[4/26/2004 4:41:03 PM] <StockStalker> less than 40 mill OSIP share outstanding...
so it is more GAP prone
[4/26/2004 4:41:11 PM] <Luigistock> Hotto whered you sang SLAB?
[4/26/2004 4:41:15 PM] <Luigistock> sang

[4/26/2004 6:38:57 PM] <Luigistock> buy the fear sell the greed
[4/26/2004 6:38:58 PM] <StockStalker> buy the pullback.. sell the Upgrade

[4/26/2004 6:40:00 PM] <StockStalker> may sound like BS to ya
[4/26/2004 6:40:08 PM] <StockStalker> but that only confirms I am right
[4/26/2004 6:40:27 PM] <StockStalker> the more that disagee with me on this the more I know I am on a good path in this regard
[4/26/2004 6:40:37 PM] <AtlantaRob> No thanks for sharing with me
[4/26/2004 6:40:59 PM] <AtlantaRob> I meant thanks
[4/26/2004 6:41:00 PM] <StockStalker> cuz if we all agree such and such is great.. then we are all already in... so who is left to buy,.
[4/26/2004 6:41:35 PM] <AtlantaRob> I would only disagree about one thing though, I think it's good to agree...
[4/26/2004 6:41:51 PM] <AtlantaRob> with the institutions when they start buying :)
[4/26/2004 6:42:07 PM] <StockStalker> That is why bull mkts kick off right after wars start and end on announcements of New Paradigms
[4/26/2004 6:43:03 PM] <StockStalker> doing the opposite of conventional thinking needs to become sencond nature... to the point that standing up in the 7th inning stretch makes u uncofortable cuz ur afraid u gonna be one of "them"!
[4/26/2004 6:43:23 PM] <StockStalker> <--- actually happened
[4/26/2004 6:44:10 PM] <AtlantaRob> THat's a good one
[4/26/2004 6:45:10 PM] <StockStalker> seeing a group of guy leaving a downtown office in all white shirts and walking as a group to the buffet like stepfor husbands will make u want to barf!
[4/26/2004 6:45:28 PM] <StockStalker> with the ties thrown over the shoulder of course
[4/26/2004 6:45:33 PM] <StockStalker> the same shoulder
[4/26/2004 6:46:00 PM] <AtlantaRob> I've always felt that way! Even before I started trading
[4/26/2004 6:46:06 PM] <SkyDragon> Oz, I'm in Pasadena, which side of Houston do you live in?
[4/26/2004 6:46:25 PM] <StockStalker> DownTown
[4/26/2004 6:47:05 PM] <SkyDragon> Did you happen to go to the TC2000 kick off club meeting last month?
[4/26/2004 6:47:13 PM] <StockStalker> once u feel this "aura" as a trader and not as a person that needs to be part of a group.... then u may have a chance
[4/26/2004 6:47:18 PM] <StockStalker> no
[4/26/2004 6:47:27 PM] <StockStalker> that aura is more important than the charts
[4/26/2004 6:47:44 PM] <StockStalker> many of the traders in NY dont even use charts
[4/26/2004 6:48:04 PM] <AtlantaRob> That is what I'm told, I don't understand the psychology problems, that seems to be the least of my problems
[4/26/2004 6:48:18 PM] <StockStalker> that crap bot "lets make a room rule about....." is nonsense
[4/26/2004 6:48:33 PM] <Warrn> jtbus

[4/26/2004 6:49:26 PM] <StockStalker> that is the garnish
[4/26/2004 6:49:44 PM] <StockStalker> it is a low vol pullback on the daily with an NR7 to boot
[4/26/2004 6:49:50 PM] <AtlantaRob> When it took off the first day I saw the rectangle on the 5min, and just before I put in my buy stop it blew past it, and since I don't chase I just watched it rocket up!
[4/26/2004 6:50:35 PM] <AtlantaRob> I like hotto's style, it works well with mine
[4/26/2004 6:50:50 PM] <StockStalker> do u trade full time
[4/26/2004 6:51:37 PM] <AtlantaRob> Well, yes, and no... Trade all day when market is open, or at least watch, but I have a part time job at nite that pays bills, all my trading account stays in account
[4/26/2004 6:51:55 PM] <StockStalker> how long
[4/26/2004 6:52:12 PM] <StockStalker> that is a primo situation to learn from actually
[4/26/2004 6:52:28 PM] <AtlantaRob> since last march, but only now feel like I know "why" I do what I do
[4/26/2004 6:52:39 PM] <StockStalker> if u tot u needed to make money to eat then i bet there wood be more issues between the ears
[4/26/2004 6:52:54 PM] <AtlantaRob> I understand the "reasons" for why things happen
[4/26/2004 6:53:00 PM] <AtlantaRob> well more than I did
[4/26/2004 6:53:18 PM] <StockStalker> what is an example of a reason
[4/26/2004 6:53:29 PM] <AtlantaRob> Yes, That's why I have night job, don't worry about paying bills
[4/26/2004 6:53:45 PM] <StockStalker> ideal
[4/26/2004 6:54:53 PM] <AtlantaRob> ex. buying pb's on daily, I watched the Pristine Swing trading video, and it's easy enough to say buy after 3-5 down days on first day that price DBO's
[4/26/2004 6:55:06 PM] <AtlantaRob> But they don't say anything about why that works
[4/26/2004 6:55:53 PM] <AtlantaRob> So I was thinking and If an institution were accumulating stock, and people caught on, price runs up, then they quit buying, for a few days...
[4/26/2004 6:56:43 PM] <AtlantaRob> so when price quits going up people get scared, sell, price goes back down, then when they feel it has gone down enough, they take shares off the people that are selling
[4/26/2004 6:57:09 PM] <StockStalker> go do the pristine seminar
[4/26/2004 6:57:18 PM] <AtlantaRob> Can't afford it right now
[4/26/2004 6:58:18 PM] <AtlantaRob> But I do plan on doing it
[4/26/2004 6:59:20 PM] <RJMGroup> FYI: Pristine has free access to their real-time trading room this week: <http://chat.pristine.com/rtr/login.asp> (login: guest / password: guest)
[4/26/2004 6:59:39 PM] <StockStalker> I am to busy with my own room!
[4/26/2004 7:00:13 PM] <RJMGroup> I meant that for AtlantaRob.
[4/26/2004 7:00:21 PM] <StockStalker> gotta go.. here tooo long!!!!
[4/26/2004 7:00:22 PM] <AtlantaRob> I have kind of made friends with a guy here in Atlanta (Eric Davidson) that is a new member of the teachers... but right now there are only two entries I use, BO over resistance, or swing type BO over prev bar
[4/26/2004 7:00:30 PM] <StockStalker> yeah i know... was just funning
[4/26/2004 7:01:08 PM] <AtlantaRob> You have voice in your room?
[4/26/2004 7:01:25 PM] <StockStalker> un itrdy hihgs instead after the firt hour or so.. save u lots of money..

[4/26/2004 7:02:55 PM] <AtlantaRob> bye
[4/26/2004 7:03:29 PM] <AtlantaRob> RJM you like IB?
[4/26/2004 7:03:47 PM] <AtlantaRob> Their platform I mean?
[4/26/2004 7:03:56 PM] <RJMGroup> Yes, I haven't had any problems with it.
[4/26/2004 7:04:16 PM] <AtlantaRob> Have you ever looked at the CyberTrader platform?
[4/26/2004 7:04:33 PM] <RJMGroup> No, I like IB. I'm looking into TradeStation though.
[4/26/2004 7:05:05 PM] <AtlantaRob> Who clears their trades?
[4/26/2004 7:05:12 PM] <RJMGroup> Direct access.
[4/26/2004 7:05:28 PM] <AtlantaRob> Waht do you like about them?
[4/26/2004 7:05:50 PM] <RJMGroup> Inexpensive, fast, platform independent (Java), and direct access.
[4/26/2004 7:06:09 PM] <AtlantaRob> IB isn't direct access?
[4/26/2004 7:06:17 PM] <RJMGroup> Yes, it is.
[4/26/2004 7:06:35 PM] <AtlantaRob> Any price dif. between IB and TS?
[4/26/2004 7:07:04 PM] <RJMGroup> TS is 0.001 per share higher in trades over 500 and \$99 per month fee (great software though)
[4/26/2004 7:07:30 PM] <AtlantaRob> Would you quit using TC if you switched?
[4/26/2004 7:08:05 PM] <RJMGroup> No, there are no clubs on TS that I know of. I don't really need real-time data. I'm an end-of-day trader.
[4/26/2004 7:08:52 PM] <AtlantaRob> Oh ok, I actually switched from 2000 to TCnet a couple of weeks ago for the real time data, but I have learned so much more from the clubs
[4/26/2004 7:09:19 PM] <RJMGroup> Plus, I have two clubs so there's no leaving TCNet anyway.
[4/26/2004 7:09:32 PM] <AtlantaRob> Two of your own?
[4/26/2004 7:09:39 PM] <RJMGroup> Two I co-admin.
[4/26/2004 7:09:54 PM] <AtlantaRob> Which ones?
[4/26/2004 7:10:13 PM] <RJMGroup> "VectorVest & TCNet II" and "TomBierovic.com Patterns"
[4/26/2004 7:12:27 PM] <AtlantaRob> Oh I forgot to tell Oz about the force index, do any of you guys on here use it?
[4/26/2004 7:12:47 PM] <RJMGroup> Yes, I posted the formula on here awhile ago.
[4/26/2004 7:12:54 PM] <AtlantaRob> NM, go to go learn from hotto
[4/26/2004 7:13:16 PM] <AtlantaRob> It's just a ROC weighted by Vol. but I like it
[4/26/2004 7:13:55 PM] <RJMGroup> Alexander Elder has some good techniques.
[4/26/2004 7:16:04 PM] <AtlantaRob> RJM do you happen to have the TC formula for Safezone Stops?
[4/26/2004 7:16:32 PM] <RJMGroup> No, and I'm not sure that it's possible to do in TCNet.
[4/26/2004 7:17:04 PM] <AtlantaRob> I think it is, but I was looking at the book today and couldn't find the fomula
[4/26/2004 7:17:06 PM] <KauaiDave> AtlantaRob, what kind of stuff does hotto teach you guys
[4/26/2004 7:17:44 PM] <RJMGroup> AR, do you use a 2-day EMA and 13-day EMA for Force Index?
[4/26/2004 7:18:05 PM] <AtlantaRob> Mostly what I like is his view of the market, cycles, watching to get into the sectors that institutions are rotating into

ClubHome

[4/26/2004 7:18:53 PM] <AtlantaRob> He also has a system, but not like FW's
[4/26/2004 7:19:21 PM] <AtlantaRob> More about money management and trading price swings, no talk of indicators really
[4/26/2004 7:19:24 PM] <KauaiDave> that's kewl, I just upgraded fomr SSPro to CYBER PRO and they have this sector tool where you can drill down and down from sector, sub-sector to stocks and find the hottest stocks in less than a min, good stuff
[4/26/2004 7:19:34 PM] <AtlantaRob> I use both 2 and 13 on different charts
[4/26/2004 7:19:50 PM] <RJMGroup> If you use EMA with Force Index just know that there's a bug in TCNet 2.3 that automatically switches EMA to SMA in custom indicatos -- every time.
[4/26/2004 7:19:53 PM] <KauaiDave> that's important stuff, how much does he charge
[4/26/2004 7:20:02 PM] <AtlantaRob> I use sma
[4/26/2004 7:20:24 PM] <AtlantaRob> Um I think it's 300 for a year, maybe 400
[4/26/2004 7:20:27 PM] <RJMGroup> Oh, ok. I believe Elder recommends EMA for Force Index though. You'll get quite different results with EMA.
[4/26/2004 7:21:29 PM] <AtlantaRob> Yes, I think he likes the EMA better for most everything
[4/26/2004 7:21:43 PM] <RJMGroup> I think it's because the Force Index is a fast indicator.
[4/26/2004 7:21:57 PM] <KauaiDave> I wonder if OSIP will drop like a stone tommorow, don't see how it can hold at those levels
[4/26/2004 7:22:15 PM] <AtlantaRob> (c-c1)v
[4/26/2004 7:22:20 PM] <AtlantaRob> that's it right?
[4/26/2004 7:22:31 PM] <RJMGroup> Yes.
[4/26/2004 7:22:50 PM] <AtlantaRob> I'll let you know if I get safe zone in
[4/26/2004 7:22:51 PM] <KauaiDave> thanks Rob
[4/26/2004 7:23:08 PM] <AtlantaRob> YW KD, I always enjoy talking with you
[4/26/2004 7:23:16 PM] <KauaiDave> thanks :-)
[4/26/2004 7:23:38 PM] <RJMGroup> Check out my post in All-TCNet in the Boards under PCF, EasyScan, and Custom Indicators for what I wrote on Force Index, AR.
[4/26/2004 7:23:41 PM] <AtlantaRob> Plus you're up latenite sometimes to keep me company
[4/26/2004 7:23:58 PM] <KauaiDave> lol, some people don't believe i ever sleep, lol
[4/26/2004 7:24:08 PM] <AtlantaRob> Ok, I found an indicator last night that seemed very promising
[4/26/2004 7:24:14 PM] <KauaiDave> scratch don't
[4/26/2004 7:24:52 PM] <KauaiDave> yeah, and after i have a few beers, sometimes i type the words to the songs online, lol
[4/26/2004 7:25:15 PM] <AtlantaRob> KD I would say that hotto's market view is probably very similar to John Murphy's stuff about Intermarket Analysis
[4/26/2004 7:25:36 PM] <AtlantaRob> How markets affect each other, etc
[4/26/2004 7:25:40 PM] <KauaiDave> He's the chartist right?
[4/26/2004 7:26:19 PM] <AtlantaRob> Murhy is yes, his stockcharts.com I think you can buy a mebership and get his market view, but I was refering to his book
[4/26/2004 7:26:24 PM] <KauaiDave> oh wait i see what you are saying, like the way Real Estate and Bull Markets are inverse (because of the FED)
[4/26/2004 7:27:16 PM] <AtlantaRob> Yes, and if you've ever read The New Market Wizards, there is a guy in there (can't think of who it is now) but the chapter is called "The Markets get old too"
[4/26/2004 7:28:15 PM] <AtlantaRob> and you could also combine that with EW and that is my plan, I think the more informed you are the better you can be prepared to follow where the market takes you
[4/26/2004 7:28:52 PM] <KauaiDave> Another thing I noticed in 2001-2002 was that BEAR Mkts always cause booze and cigs to go up, EXCEPT when they sue the heck

[4/26/2004 7:29:25 PM] <AtlantaRob> Yes, also gaming (gambling)

[4/26/2004 7:29:31 PM] <KauaiDave> ye sure

[4/26/2004 7:30:13 PM] <KauaiDave> yea (you read Yale Hirsch too? Stock Traders Almanac)

[4/26/2004 7:30:31 PM] <KauaiDave> It points out a lot of cycles that are highly tradable

[4/26/2004 7:31:17 PM] <AtlantaRob> Of course you always let the market have the final word, because a lot of people got out too soon thinking that the market was going to crash at the end, which it did, but if you let price have the final word then you can stay with it a little longer, no haven't read Hirsch

[4/26/2004 7:32:15 PM] <KauaiDave> Rob, you take care I'm going on a run, while it's still warm and sunny in So Cal (buy Stock Traders Almanac I guarantee you will find it usefull, this is year 3 for me)

[4/26/2004 7:32:36 PM] <AtlantaRob> Ok, I'm sure I'll see you later KD, bye for now

[4/26/2004 7:32:41 PM] <KauaiDave> take care

[4/26/2004 8:18:13 PM] <mace> SO A CLOSE BELOW 1132 WOULD TAKE US DOWN to the April SL?

[4/26/2004 10:01:11 PM] <Investortrader> Hi everyone, I'll start in about 5 minutes

[4/26/2004 10:01:35 PM] <america> hi IT. i have 3 requests. JMAR, LOOK and POSO. thanks.

[4/26/2004 10:02:09 PM] <america> going for a snack everyone?

[4/26/2004 10:02:09 PM] <Investortrader> Hi america, got'em

[4/26/2004 10:02:10 PM] <Tilt> Welcome Back IT, Kauai Dave has been filling in for you;)

[4/26/2004 10:02:21 PM] <Investortrader> Thanks Tilt

[4/26/2004 10:02:36 PM] <america> no one can fill in for our IT:)

[4/26/2004 10:03:14 PM] <Investortrader> :)

[4/26/2004 10:03:23 PM] <america> yep, it's true IT

[4/26/2004 10:03:31 PM] <SkyDragon> I'll second that!

[4/26/2004 10:03:45 PM] <america> gonna go grab a snack=D

[4/26/2004 10:03:46 PM] <Investortrader> Thanks Skydragon

[4/26/2004 10:04:21 PM] <Investortrader> Ok, let's start with JMAR ...

[4/26/2004 10:06:04 PM] <Investortrader> I don't like how the 50sma couldn't hold

[4/26/2004 10:06:49 PM] <Investortrader> It's been breaking support level after support level, first the LR30, then the middle BB, and the 50sma

[4/26/2004 10:07:35 PM] <Investortrader> If I were looking to buy it ... I would want it to prove itself first here

[4/26/2004 10:07:59 PM] <america> yes, agree. thanks IT

[4/26/2004 10:08:00 PM] <Investortrader> A move up thru the 50sma on vol would do that

[4/26/2004 10:08:29 PM] <Investortrader> Another area one might try to take a stab at buying ...

[4/26/2004 10:09:08 PM] <Investortrader> See how the lower BB has been rising steeply, and is getting close to the 4/1 low/open area

[4/26/2004 10:09:27 PM] <Investortrader> Though it may not get that low

[4/26/2004 10:09:57 PM] <Investortrader> Those would be the two areas as of now I would look to buy it if interested, using a fairly tight stop as support would be close then

[4/26/2004 10:10:03 PM] <Investortrader> Welcome america :)

[4/26/2004 10:10:08 PM] <Investortrader> Any questions on JMAR?

[4/26/2004 10:10:10 PM] <da2rth> 200ma in that area too

[4/26/2004 10:10:24 PM] <Investortrader> Good point da2rth

[4/26/2004 10:10:49 PM] <Investortrader> There is the 200 ...
[4/26/2004 10:11:17 PM] <bravotrader> IT, could you comment on PPH when you have time, tnx
[4/26/2004 10:11:25 PM] <Investortrader> But I wouldn't buy it here ...
[4/26/2004 10:11:46 PM] <Investortrader> Closest support is too far away with resistance too close overhead, not a very good risk/reward scenario
[4/26/2004 10:12:10 PM] <Investortrader> On to LOOK ...
[4/26/2004 10:12:47 PM] <america> i'm in at 1.88. LOOKing for good exit.
[4/26/2004 10:13:17 PM] <Investortrader> This one has had very good vol patterns this whole rally from early MARCH on
[4/26/2004 10:14:22 PM] <Investortrader> But everytime it has run a bit on good vol, it comes back pretty quickly
[4/26/2004 10:15:06 PM] <Investortrader> This one I would be more careful with because of that since you are looking for an exit
[4/26/2004 10:16:20 PM] <Investortrader> Look at the last peaks, on 3/4 and 4/12
[4/26/2004 10:17:02 PM] <Investortrader> Same quick big vol characteristics, with a fair sell-off retracement on that top day
[4/26/2004 10:17:11 PM] <Investortrader> Today looks like it could be another one of those days
[4/26/2004 10:18:02 PM] <Investortrader> Now look at the following day after the peak days, 3/5 and 4/13
[4/26/2004 10:18:53 PM] <Nitabug> It, (look) traded in AH at 2.76.
[4/26/2004 10:19:01 PM] <Investortrader> If you see anything like that shaping up tomorrow, and since you are looking to sell (as opposed to hold thru a low-vol pb since they have been pretty big %-ages of each move), I would look to sell
[4/26/2004 10:19:30 PM] <america> thanks IT. this certainly is a good education.
[4/26/2004 10:20:00 PM] <Investortrader> Thanks Nitabug ... might be ok for another day then ... but AH trading can be light too
[4/26/2004 10:20:11 PM] <Investortrader> Welcome america :)
[4/26/2004 10:20:18 PM] <Investortrader> Any questions on LOOK?
[4/26/2004 10:20:50 PM] <Investortrader> One other thing, on the big vol run-up days ... see how the days it continues looks, compared to the first day after the peaks look
[4/26/2004 10:21:05 PM] <Nitabug> It, can sentiment wit IPO of google be a factor in the sudden ah increase?
[4/26/2004 10:21:24 PM] <Investortrader> That could easily be it Nitabug
[4/26/2004 10:22:14 PM] <Investortrader> And on this current run, same pattern on the big vol up days ... another strong reason to sell tomorrow if you see a reversal day
[4/26/2004 10:22:24 PM] <bobpan> LOOK swings are avg. 3 to 4 gridlines... then pullback
[4/26/2004 10:22:48 PM] <Investortrader> Good eyes bobpan
[4/26/2004 10:23:19 PM] <Investortrader> On to POSO ...
[4/26/2004 10:23:20 PM] <da2rth> LOOK...\$2.93 low on 10/6/03 before gap down...most logical target on this move up
[4/26/2004 10:23:37 PM] <Investortrader> back to LOOK for a second :)
[4/26/2004 10:25:00 PM] <Investortrader> Except for early in Jan (good seasonal time for support), it looks like it runs in fits and starts
[4/26/2004 10:25:39 PM] <Investortrader> That does look like a good target da2rth ... just not sure how many fits it will have before reaching it :o
[4/26/2004 10:25:51 PM] <america> lol, yes.
[4/26/2004 10:26:26 PM] <Investortrader> Back to the future ... POSO
[4/26/2004 10:26:46 PM] <Investortrader> This is a little too low priced for me to comment on
[4/26/2004 10:27:13 PM] <america> o.k. thanks anyway IT.

[4/26/2004 10:27:13 PM] <Investortrader> Sorry about that :(

[4/26/2004 10:27:29 PM] <Investortrader> On to PPH ...

[4/26/2004 10:27:57 PM] <Investortrader> Closed end fund ... I don't trade these either

[4/26/2004 10:29:02 PM] <Investortrader> Closed end funds normally trade at a discount to their NAV, but can trade higher than their NAV sometimes when the sector gets really hot, or gets bubble-like

[4/26/2004 10:29:06 PM] <america> IT, where do you start commenting? at say \$2.?

[4/26/2004 10:29:43 PM] <Investortrader> I guess I could do 2 since I do BKHM and FNSR, but usually prefer to keep it over 3

[4/26/2004 10:30:13 PM] <america> abcx fits both of those. sometimes trades over 2. lol

[4/26/2004 10:30:39 PM] <Investortrader> With that in mind (on closed end funds), this one looks good, OBV has been confirming this upmove since late March

[4/26/2004 10:31:23 PM] <ChartMonkey> How about CAKE as a short?

[4/26/2004 10:31:52 PM] <Investortrader> And with the 50sma and the middle BB converging, that should be good support

[4/26/2004 10:32:20 PM] <Investortrader> It may not need to drop to there ... but I would use just under there as my stop loss area

[4/26/2004 10:33:25 PM] <Investortrader> So one could buy it here, look for a drop to that support area and buy there, or buy a daily BO ... or all 3 in pieces

[4/26/2004 10:33:43 PM] <Investortrader> Any questions on PPH?

[4/26/2004 10:34:08 PM] <bbmd> IT was early March drop off of a H&S ??

[4/26/2004 10:34:23 PM] <bravotrader> thanks IT

[4/26/2004 10:35:29 PM] <Investortrader> Looks like a complex H&S bbmd with two left shoulders, early Jan and late Jan .. lets take a closer look

[4/26/2004 10:36:11 PM] <Investortrader> That second high in late Jan, the complex left shoulder

[4/26/2004 10:36:46 PM] <Investortrader> Notice the OBV wasn't confirming then back on 1/26

[4/26/2004 10:37:14 PM] <Investortrader> Making a lower high than it did on the 1/7 peak ... so some weakness was beginning to show up

[4/26/2004 10:38:00 PM] <Investortrader> But there was still enough momentum to rally it again to new highs in early Feb ... with OBV still confirming for that high

[4/26/2004 10:39:19 PM] <bravotrader> It is interesting to look at PPH on a 9-day chart, nice base, very good long term potential

[4/26/2004 10:39:48 PM] <Investortrader> Then it started to drift, and fall ... and for the first time since the rally began in mid-Nov the middle BB couldn't hold the pb

[4/26/2004 10:41:00 PM] <Investortrader> More weakness signs and the last one was the weak rally attempt from 3/3 to 3/8 ... right up to the middle BB .. but look at how the OBV was deteriorating there

[4/26/2004 10:41:29 PM] <Investortrader> Then it just rolled over .. there were lots of signs foretelling the top ... there usually are

[4/26/2004 10:42:31 PM] <Investortrader> It does look good on the 9-day ... I don't use that because my timeframe is too short

[4/26/2004 10:42:54 PM] <Investortrader> Any questions on PPH?

[4/26/2004 10:43:09 PM] <Tilt> QCOM please, trailing stops on a SWGLC

[4/26/2004 10:43:40 PM] <Investortrader> SWGLC?

[4/26/2004 10:43:54 PM] <Tilt> stock w good looking chart

[4/26/2004 10:43:55 PM] <Investortrader> Silly Wild Guess ??

[4/26/2004 10:44:02 PM] <Investortrader> Oh yeah lol

[4/26/2004 10:44:23 PM] <Investortrader> On to ABCX ...

[4/26/2004 10:44:54 PM] <Investortrader> I have never liked charts like these

[4/26/2004 10:45:30 PM] <Investortrader> If you aren't already in for the huge pop on 4/5, I leave it to the daytraders

ClubHome

[4/26/2004 10:45:59 PM] <america> thanks IT, sure doesn't look good like this, does it?

[4/26/2004 10:46:00 PM] <Investortrader> The big mistake a lot of traders make on a stock like this one is ...

[4/26/2004 10:46:13 PM] <Investortrader> Letting a daytrade that goes bad turn into a swing trade

[4/26/2004 10:46:26 PM] <Investortrader> No, it doesn't america

[4/26/2004 10:46:33 PM] <america> i'm not in this one, thank goodness.

[4/26/2004 10:46:50 PM] <SusanM> it looks alot like fvcx

[4/26/2004 10:47:01 PM] <kellam> IT pls coment on JILL thx

[4/26/2004 10:47:04 PM] <america> now there;s a dirty word.

[4/26/2004 10:47:25 PM] <Investortrader> I'll add that to the list Susan

[4/26/2004 10:47:27 PM] <SusanM> maybe ending in CX is a curse

[4/26/2004 10:47:46 PM] <america> lol susan.

[4/26/2004 10:47:48 PM] <bravotrader> 3:D

[4/26/2004 10:47:58 PM] <SusanM> ;)

[4/26/2004 10:48:01 PM] <Investortrader> So I am not interested in ABCX or any stock that looks like it if I'm not already in since I don't daytrade, and the risk is too high for my style of trading

[4/26/2004 10:48:31 PM] <Investortrader> Any questions on ABCX?

[4/26/2004 10:48:38 PM] <america> no, thanks IT

[4/26/2004 10:48:44 PM] <Investortrader> Welcome america :)

[4/26/2004 10:49:09 PM] <Investortrader> Can we have our CAKE and eat it too? Let's take a look ... (as a short)

[4/26/2004 10:49:41 PM] <Investortrader> Not a good looking chart

[4/26/2004 10:50:07 PM] <bbmd> Likes gaps !!!!!

[4/26/2004 10:50:39 PM] <Investortrader> See how the rally from 3/22 to 4/7, while price tested the upper BB the OBV couldn't make it over it's own 50sma

[4/26/2004 10:50:41 PM] <IncaKid> ipix

[4/26/2004 10:51:03 PM] <Tilt> What's the float? I bet it is low

[4/26/2004 10:51:35 PM] <Investortrader> And OBV here is confirming the new lows on it

[4/26/2004 10:51:55 PM] <Investortrader> We might get to see a stock ride the lower BB here ...

[4/26/2004 10:52:24 PM] <Investortrader> That can get pretty scary when it happens

[4/26/2004 10:52:39 PM] <Investortrader> Well, not scary if you're short =D

[4/26/2004 10:53:45 PM] <kellam> IT one reason this is not a LBBCBS is failing OBV,CAKE Right?

[4/26/2004 10:54:06 PM] <Investortrader> If it tried to rally to fill this most recent gap ... I'd take a look at it then for a short

[4/26/2004 10:54:26 PM] <Investortrader> Right kellam

[4/26/2004 10:54:30 PM] <toptrader99> anyone follow CVTX ?

[4/26/2004 10:55:23 PM] <da2rth> usually the 2nd touch of lbb to be a LBBCBS

[4/26/2004 10:55:56 PM] <kellam> thx IT for clarifying

[4/26/2004 10:56:11 PM] <Investortrader> Welcome kellam :)

[4/26/2004 10:56:20 PM] <Investortrader> Any questions on CAKE?

[4/26/2004 10:56:55 PM] <Investortrader> On to QCOM ...

[4/26/2004 10:58:11 PM] <ChartMonkey> btw sorry for interrupting the flow - didn't mean to hit <enter> until a good time

[4/26/2004 10:58:43 PM] <Investortrader> Never an interruption :)

[4/26/2004 11:01:12 PM] <Investortrader> This one looks like a low vol pb here .. but I'm a bit ambivalent

[4/26/2004 11:01:32 PM] <Investortrader> I'd definately be out if it broke the 50sma

[4/26/2004 11:01:57 PM] <Investortrader> OBV hasn't been the most convincing during this rally

[4/26/2004 11:02:30 PM] <Tilt> agree, my GF is 80-90% in this
[4/26/2004 11:02:55 PM] <Investortrader> And I thought I was an aggressive trader!
[4/26/2004 11:03:12 PM] <Tilt> Millionaire next door type
[4/26/2004 11:03:12 PM] <Investortrader> But the most I've ever put in any one stock is 50% lol
[4/26/2004 11:03:22 PM] <parkwaypet> IT just got on so not sure if got any of these stocks MSON good volume last month and IMX good company with good concept but little volume
[4/26/2004 11:03:55 PM] <parkwaypet> hi IT
[4/26/2004 11:04:11 PM] <Investortrader> So it looks just so-so to me here ... and if it lost the 50sma it would lose me
[4/26/2004 11:04:21 PM] <Investortrader> Hi parkwaypet, added them to the list :)
[4/26/2004 11:04:27 PM] <Investortrader> Any questions on QCOM?
[4/26/2004 11:04:29 PM] <parkwaypet> ty

[4/26/2004 11:04:43 PM] <Investortrader> Welcome Tilt :)
[4/26/2004 11:04:51 PM] <Investortrader> On to FVCX ...
[4/26/2004 11:05:25 PM] <Investortrader> This one looks like it has broken a few hearts
[4/26/2004 11:05:48 PM] <america> :(=o:P
[4/26/2004 11:06:04 PM] <Oviedojo> ..
[4/26/2004 11:06:14 PM] <SusanM>
[4/26/2004 11:06:23 PM] <SusanM> but look at that OBV !
[4/26/2004 11:06:36 PM] <america> must be a trick
[4/26/2004 11:07:04 PM] <Investortrader> It had two HUGE updays in vol, that overruled the rest of the days before
[4/26/2004 11:07:17 PM] <Investortrader> check the vol before April
[4/26/2004 11:07:43 PM] <Investortrader> Some days only 11,000 shs traded
[4/26/2004 11:08:17 PM] <Investortrader> When there is no vol, you can't use OBV as it's volume based
[4/26/2004 11:08:59 PM] <Oviedojo> new products, new contracts
[4/26/2004 11:09:02 PM] <SusanM> how about the fact that the OBV has stayed high during the pullback?
[4/26/2004 11:09:35 PM] <Investortrader> That is caused by those two huge updays that are skewing the OBV on it
[4/26/2004 11:10:12 PM] <daniel329> IT.. what is the min volume you like to trade (avg vol?)
[4/26/2004 11:10:14 PM] <Investortrader> For those who were (or are still) in it from before ... let's look at where it broke down
[4/26/2004 11:10:29 PM] <Investortrader> daniel, at least 100,000/day avg, preferably twice that
[4/26/2004 11:10:47 PM] <daniel329> thanks IT
[4/26/2004 11:11:03 PM] <Investortrader> On 4/15, still looking good, up days still much better than the down days, and still riding the upper BB
[4/26/2004 11:11:11 PM] <america> thanks IT. will catch up in a.m. need my beauty rest. gn all.
[4/26/2004 11:11:19 PM] <Investortrader> up days much better vol than the down days that is
[4/26/2004 11:11:24 PM] <Investortrader> Night america :)
[4/26/2004 11:12:41 PM] <Investortrader> 4/16 not a good looking day, I had mentioned before I left on this one that it hadn't made a lower low yet, and I would be careful if it did
[4/26/2004 11:14:05 PM] <bbmd> IT,FVCX is getting in an oversold situation. Does that change anything ?
[4/26/2004 11:14:12 PM] <Investortrader> 4/19 doji ... also second day separated

from the upper BB ... beginning to worry but doji is many times a reversal signal (but needs confirmation), so worried but there is something to hang your hat on still

[4/26/2004 11:15:04 PM] <Investortrader> 4/20, when there was no confirmation, time to get out, probably when the close or the open of 4/19 broke after it gapped up and reversed

[4/26/2004 11:16:04 PM] <Investortrader> 3rd day out of contact with the upper BB and doji going bad ... and now we have another doji day today

[4/26/2004 11:16:44 PM] <Investortrader> bbmd, possibly could be reversing here off oversold stochs and today's doji

[4/26/2004 11:17:03 PM] <bbmd> Thx.

[4/26/2004 11:17:08 PM] <Investortrader> If tomorrow confirms it would click off my MACD Histogram indicator also

[4/26/2004 11:17:52 PM] <Investortrader> If it doesn't confirm I would expect more downside, maybe to the 50sma which since it is rising is getting close to the gapfill price

[4/26/2004 11:18:56 PM] <Investortrader> Top of the gap is 2.34, the 50sma today is 2.20

[4/26/2004 11:19:41 PM] <Investortrader> But today's doji may reverse it here .. we'll find out tomorrow

[4/26/2004 11:19:50 PM] <Investortrader> Any questions on FVCX?

[4/26/2004 11:20:32 PM] <Investortrader> Please remember to use stops ... no matter how good the company is, or how much someone may like it ... the stock may not be at the right time

[4/26/2004 11:20:57 PM] <Investortrader> On to JILL ...

[4/26/2004 11:21:06 PM] <Oviedojo> Have not seen your MACD chart, settings

[4/26/2004 11:21:36 PM] <Investortrader> Oviedojo, I use different settings than most, and use it differently also

[4/26/2004 11:22:07 PM] <Oviedojo> ok ty

[4/26/2004 11:23:21 PM] <Investortrader> It's just more complex, and I don't want to confuse anyone with how it's usually used ... and lots of newer traders in here :)

[4/26/2004 11:24:16 PM] <Investortrader> JILL looks ok here, rounded bottom though the vol pattern is a bit off ... BO on a bit better vol today

[4/26/2004 11:24:54 PM] <Investortrader> Held over the middle BB on the close, I like that (I even have a scan to find stocks that BO over the middle BB on good vol)

[4/26/2004 11:26:25 PM] <Investortrader> I would expect this one to at least test the upper BB here ... and with the BB's having thinned a bit it might be a candidate to ride it

[4/26/2004 11:27:02 PM] <Investortrader> Though the recent history on this one is it doesn't get that active

[4/26/2004 11:27:56 PM] <Investortrader> Lets look at late March, to see the difference between this one and FVCX when it lost contact with the upper BB

[4/26/2004 11:28:28 PM] <Investortrader> Here 3/22 looked like it could be the start of something bad

[4/26/2004 11:29:18 PM] <Investortrader> Still hard to tell if 3/24 got back in contact with the upper BB

[4/26/2004 11:30:06 PM] <Investortrader> But we can see how after 3/22 it was making higher lows every day

[4/26/2004 11:30:21 PM] <Investortrader> From 3/23 I meant

[4/26/2004 11:30:37 PM] <Investortrader> The first day it lost contact with the upper BB

[4/26/2004 11:31:02 PM] <Investortrader> Remember on FVCX how it made a lower low right away when losing the upper BB

[4/26/2004 11:31:41 PM] <Investortrader> Now on this one, if we say 3/24 didn't make contact, then 3/25 is the 3rd day out of touch

[4/26/2004 11:32:16 PM] <Investortrader> I'm usually out on the 3rd day out of

ClubHome

contact ... or looking to get out soon

[4/26/2004 11:32:36 PM] <Investortrader> One of the things I look for is a reversal, a low being taken out

[4/26/2004 11:33:30 PM] <Investortrader> 3/26, 4th day out of contact, but it's going up, and still not making a new daily lod

[4/26/2004 11:33:59 PM] <Investortrader> I probably would have sold at least half anyway, because those are my rules

[4/26/2004 11:35:43 PM] <Investortrader> Any questions on JILL?

[4/26/2004 11:36:03 PM] <Investortrader> On to IPIX ...

[4/26/2004 11:37:24 PM] <Investortrader> Another one where the previous vol was too low for OBV ... can't even find an OBV on it a couple of months ago on this chart (unless I expand it out or something)

[4/26/2004 11:38:33 PM] <Investortrader> This one ran up ten times, from around 2 to over 20

[4/26/2004 11:39:25 PM] <Oviedojo> there seems to be a lot of similar low value stocks showing this pattern in the last few weeks

[4/26/2004 11:39:49 PM] <Investortrader> Here it looks like it's made a small base and is turning up again, nice vol on it today compared to the last two down days

[4/26/2004 11:40:10 PM] <Investortrader> They can be dangerous Oviedojo, or profitable!

[4/26/2004 11:41:11 PM] <Investortrader> Each grid is over 25% on this chart

[4/26/2004 11:42:04 PM] <Investortrader> This one definately falls under the category of ... if you can't stand the heat stay out of the kitchen!

[4/26/2004 11:42:31 PM] <Investortrader> I like trading from the spare bedroom, not the kitchen ;)

[4/26/2004 11:43:28 PM] <bmweyrauch> :D

[4/26/2004 11:43:34 PM] <Investortrader> Here it looks like the 4/23 lod could be used for a swing trade stop loss point

[4/26/2004 11:43:51 PM] <dgraham42> jfvcx

[4/26/2004 11:43:53 PM] <Investortrader> Over \$ away

[4/26/2004 11:44:11 PM] <Investortrader> A higher risk stop loss would be todays open

[4/26/2004 11:44:24 PM] <Investortrader> Higher risk of getting whipsawed

[4/26/2004 11:45:27 PM] <Investortrader> And it's not a real good support point either .. more like a daytrader support point

[4/26/2004 11:45:54 PM] <Investortrader> Any questions on IPIX?

[4/26/2004 11:46:36 PM] <Investortrader> On to CVTX ...

[4/26/2004 11:47:24 PM] <Investortrader> I'm going to zoom in to get rid of the big vol days in Dec so we can see the vol bars better

[4/26/2004 11:48:52 PM] <Investortrader> Here we see a nice bottom formation in March, with OBV making a higher low on the second bottom on 3/23 than it did on the first bottom on 3/15

[4/26/2004 11:49:05 PM] <Investortrader> While price was making a lower low

[4/26/2004 11:49:36 PM] <Investortrader> This was showing that the sellers were drying up down there

[4/26/2004 11:50:52 PM] <Investortrader> All of April it's been basing sideways ... while OBV was rising ... see how the up days vol was bigger than on the down days

[4/26/2004 11:51:01 PM] <Investortrader> Now today a nice vol BO

[4/26/2004 11:51:45 PM] <Investortrader> So we had sellers dry up at the March bottom, buyers showing up to acumulate during the April base ... and now a nice vol BO

[4/26/2004 11:52:04 PM] <Investortrader> I like it!

[4/26/2004 11:52:31 PM] <Investortrader> Any questions on CVTX?

[4/26/2004 11:53:01 PM] <Investortrader> On to MSON ...

[4/26/2004 11:53:43 PM] <Sully> BLUD

ClubHome

[4/26/2004 11:53:46 PM] <Investortrader> Another one with no vol before this month
[4/26/2004 11:54:46 PM] <Investortrader> you guys are bringing me hard ones! lol
[4/26/2004 11:55:41 PM] <Investortrader> I would be careful because it's harder to read without the vol and OBV which I rely on a lot
[4/26/2004 11:55:56 PM] <Groundog> short it back to 9.00 :8
[4/26/2004 11:56:11 PM] <Investortrader> Groundog :o
[4/26/2004 11:56:35 PM] <Oviedojo> pattern similar to JILL before PB
[4/26/2004 11:56:38 PM] <Investortrader> It isn't cooperating with my 3-day rule on riding an outer BB either
[4/26/2004 11:57:15 PM] <Investortrader> This one is tougher for me
[4/26/2004 11:57:24 PM] <Investortrader> It happens lol
[4/26/2004 11:57:34 PM] <Investortrader> I wouldn't buy it up here
[4/26/2004 11:57:41 PM] <Investortrader> If I owned it here
[4/26/2004 11:57:54 PM] <Investortrader> I probably would have already sold it lol
[4/26/2004 11:58:17 PM] <bbmd> IT, this one has had HH and HL since breakout.
[4/26/2004 11:59:27 PM] <Oviedojo> HH HL ???
[4/26/2004 11:59:32 PM] <bbmd> I am long.
[4/26/2004 11:59:35 PM] <Investortrader> If I were in from the BO from in the 5's, I wouldn't want to see it lose the middle BB
[4/26/2004 11:59:50 PM] <Investortrader> but that is still a ways away
