[12/28/2003 1:04:15 PM] [hotto] FNSR.. another that I am continuing to accum on weakness... for next year.  
[12/28/2003 1:05:13 PM] [cpratsch] FNSR looks pretty sorry to me short-term  
[12/28/2003 1:06:28 PM] [hotto] thanks cpr.. you think I will get plenty of "weakness opps"...eh ?  
[12/28/2003 1:07:22 PM] [cpratsch] well, hotto, for now I stick to the likes of IFN AZ DT TKF BAC.All tech analysis, no fundamentals

[12/28/2003 1:08:34 PM] [Fern] looking at the hourly chart on FNSR obv still high with recent pullback on low volume  
[12/28/2003 1:13:00 PM] [cpratsch] hotto, EPIX looks awful. What is the key to your optimism?  
[12/28/2003 1:13:12 PM] [hotto] Time for a break... maybe a short walk..  
[12/28/2003 1:13:17 PM] [Investortrader] You left out NGEN! ;)

[12/28/2003 1:15:34 PM] [hotto] OCPI.. just another of the "next year" possibilities..  
[12/28/2003 1:15:48 PM] [Investortrader] Good sell signal, when people start compounding large daily moves into yearly gains :o

[12/28/2003 1:21:46 PM] [Cobratrader] hotto, what is BOSU50? i don't recognize that one.

[12/28/2003 1:22:14 PM] [hotto] EPIX.. for those who think that the year-end tax-selling on losers... offers.. buying opps.. Remember the lessons.. then.. see how EPIX may be "of interest" in next few days..

[12/28/2003 1:23:15 PM] [hotto] EPIX.. if you see it.. fine.. If not.. skip it..

[12/28/2003 1:23:33 PM] [FortuneFinder] EPIX looks good (to me) in a few days. On the F2 chart, it has moved into the botom of the B-bands for a few days, but I would wait until the intraday stochs have moved lower on the F1 charts ---imho.

[12/28/2003 1:24:01 PM] [hotto] Cobra.. one of the new PCFs..

[12/28/2003 1:24:09 PM] [sunny] cp, your picks are all pretty charts, but to me, the range seems kinda small. are you partial to slower tho more secure movers?

[12/28/2003 1:24:12 PM] [FortuneFinder] That would be for the 15-min, 30-min and 1-hour settings

[12/28/2003 1:25:25 PM] [hotto] FortuneFinder...)

[12/28/2003 1:31:00 PM] [mace] .

[12/28/2003 1:40:13 PM] [mace] Hotto on positions a full position is 10% of your trading account, I think I saw you say that somewhere, so on ADCT you say you will add to on weakness, does that mean you do not have a full position? Thanks

[12/28/2003 1:43:06 PM] [FortuneFinder] A "full-position" is relative to the total amount of funds that one has available to invest. It may be 1,000 shares or several thousand shares depending upon the individual's finances and their comfort level.

[12/28/2003 1:45:13 PM] [leon] do you measure them in shares instead of dollars?

[12/28/2003 1:45:19 PM] [FortuneFinder] oops, I forgot to mention not putting all of your eggs in one basket

[12/28/2003 1:46:37 PM] [leon] how big in dollars will be your smallest trade?

[12/28/2003 1:47:09 PM] [RMRtrader] hotto the best looking chart I have on my system is RHAT ... shows amazing strenth on 30 and 60 min as well as daily ..do you agree

[12/28/2003 1:47:15 PM] [FortuneFinder] Unless it's a day trade (in and out on the same day) I try to deversify between several stocks --- each in different industries so I don't get nailed if the industry takes a bad turn.

[12/28/2003 1:47:31 PM] [mace] I use 10 % of dollars for trading account for max exposure to one stock

[12/28/2003 1:50:21 PM] [FortuneFinder] I personnaly like 1,000 share trades or more because it's easier to calculate in my head. That being said, I'll pick stocks that are marginable (above \$5 in price) and choose several stocks with low enough prices in different industries that will allow me to purchase a minimum of two, three, or more

## ClubHome

stocks.

[12/28/2003 1:50:21 PM] [gary12] I use 5% of total trading account in dollars, per one stock

[12/28/2003 1:51:37 PM] [Investortrader] I go bigger than most do

[12/28/2003 1:52:28 PM] [mace] I will go higher than 10% also on BTBO's like RHAT

[12/28/2003 1:52:44 PM] [FortuneFinder] Investor... do you mean bigger in stock price, or bigger in stock shares?

[12/28/2003 1:52:56 PM] [Investortrader] Bigger in % of account :)

[12/28/2003 1:53:14 PM] [Investortrader] I don't trade many positions, and buy near support and am ruthless at cutting losses

[12/28/2003 1:53:52 PM] [leon] what % is ruthless for you?

[12/28/2003 1:54:08 PM] [Investortrader] Price I have no upper limit, except maybe berkshire lol ... lower limit I stay above \$3 though may pick up a little of some Hotto stocks like ADCT which is under 3

[12/28/2003 1:54:45 PM] [Investortrader] leon, I start at 10% for a minimum, as opposed to many who use that as a maximum

[12/28/2003 1:55:10 PM] [FortuneFinder] Yeah, me too. I'm very critical on my chart selection: I choose based on the daily, monthly, and intraday charts, and then I let the money ride. I usually bail out on the daily charts: 10, 15, and 30-min depending upon the stock.B)

[12/28/2003 1:55:14 PM] [Investortrader] But I don't chase either

[12/28/2003 1:56:14 PM] [leon] so you cut losses at 10%?

[12/28/2003 1:56:22 PM] [Investortrader] Oh no, much less than that

[12/28/2003 1:56:29 PM] [Investortrader] I thought you meant position size

[12/28/2003 1:57:01 PM] [Investortrader] If you buy strong support, it doesn't take much to take me out of a trade

[12/28/2003 1:57:06 PM] [leon] when I get to 7% I know I made a mistake

[12/28/2003 1:57:19 PM] [leon] and prepare to exit

[12/28/2003 1:57:58 PM] [leon] when I start a position I put a 10% stop loss

[12/28/2003 1:57:59 PM] [Investortrader] I use bigger positions to cut losses smaller, and am careful when I put a position on because of that

[12/28/2003 1:58:07 PM] [ChuckR] jtwti

[12/28/2003 1:58:20 PM] [Investortrader] I use bigger position SO I cut losses smaller ... not TO

[12/28/2003 1:58:23 PM] [leon] then I start to tight it up

[12/28/2003 1:58:42 PM] [leon] 8% 6%

[12/28/2003 1:58:51 PM] [Investortrader] 3-4% :)

[12/28/2003 1:59:17 PM] [leon] and if I am in the black I tral back to 8%

## ClubHome

[12/28/2003 1:59:34 PM] [Investortrader] Though sometimes I get hit with a 7-8% loss if it moves really fast, or gaps down ... I use mental stops

[12/28/2003 1:59:40 PM] [hotto] ADCT.. I now have about a "full posn". And will add only a little more on weakness.. Then.. on BO over 2.95.. assuming it happens.. I will go over a full posn... up to about 150%... if chart is good enough.. as we go..

[12/28/2003 2:00:12 PM] [hotto] ADCT.. But.. once into January.. the "add-on-weakness" is over.. for me.

[12/28/2003 2:00:18 PM] [leon] that is too tight for me

[12/28/2003 2:00:38 PM] [leon] I will allways loose if I do that

[12/28/2003 2:00:40 PM] [Investortrader] If you buy right at support, then a break of support by 3-4% should get you out anyway

[12/28/2003 2:01:04 PM] [Investortrader] Unless you're trading something really volatile

[12/28/2003 2:01:29 PM] [leon] I wish I could do that consistently

[12/28/2003 2:01:34 PM] [Investortrader] Hotto, into January it becomes "add-on-strength" IE breakouts?

[12/28/2003 2:01:57 PM] [leon] I like 1% daily movers

[12/28/2003 2:02:18 PM] [Investortrader] leon, if you buy 5% or more above support, then a 3-4% stop-loss can be fatal

[12/28/2003 2:02:22 PM] [leon] no much daytrading for me

[12/28/2003 2:02:39 PM] [leon] thatsright

[12/28/2003 2:03:44 PM] [sal3] Hotto, I am sorry if this is old information but I just read that Ebay is buying Paypal. I hope it helps your situation.

[12/28/2003 2:03:58 PM] [hotto] RHAT.. I am Long... have made 6 profitable trades this last week.. no losers - so far...)

[12/28/2003 2:06:54 PM] [Investortrader] I've got a lowball bid in on ADCT, not sure if it will get hit or not

[12/28/2003 2:09:11 PM] [hotto] DVID is on my too-big list of comm.eqpt stocks.. basing now.. in the ema200 - sma50 range..

[12/28/2003 2:09:58 PM] [Investortrader] My position size goes up and down too, if the market is chopping, like it has a lot in Dec with chart set-ups not working as well, I use half/third/quarter positions instead to enter

[12/28/2003 2:11:52 PM] [hotto] HLIT is poised for BO over sma20... another related

[12/28/2003 4:05:34 PM] [Sharon1555] I think I see what happened; it appears that

[12/28/2003 5:36:13 PM] [pope39c] I prefer to have all email addresses instead of TCMail. Only want to do it once

[12/28/2003 5:36:51 PM] [bmweyrauch] Aktony - you can import text file lists of symbols directly in to a TCNet Watchlist

[12/28/2003 5:36:54 PM] [pope39c] They are coming in in bunches so give me some time. Some time this evening

addresses. Will keep working with it. Bear with me

[12/28/2003 6:22:46 PM] [terribletom] Thanks Pope, I got email

[12/28/2003 6:28:14 PM] [mstrader] Pope, Thank you very much.

[12/28/2003 6:29:54 PM] [pope39c] Okay I have sent all requested list. Several email addresses were rejected. There were 30 requests, and I have lost accounting of those rejected. So those who did not receive the list request it again with your email address, please.

[12/28/2003 6:31:26 PM] [w2jc] pope ... are those rejects from RoadRunner rr.com accounts? i found that starting Saturday RR is rejecting emails if users did not select the source as an OK sender... arghhh !!! reaction to the spamming problem...

[12/28/2003 6:31:59 PM] [w2jc] anyone with a RoadRunner email address should check their Support page and do what is necessary to get your emails delivered...

[12/28/2003 6:33:02 PM] [pope39c] Yes the rr.com was rejected

[12/28/2003 6:33:41 PM] [w2jc] now you know why !! (check the notice at top of my web page [www.elliottwaves.us](http://www.elliottwaves.us) if you want more info on that problem...)

[12/28/2003 6:35:27 PM] [w2jc] have you considered posting the G+ list in the Discussions area of Hotto Club? would save you a lot of work emailing !!

[12/28/2003 6:36:30 PM] [pope39c] W2jc great idea. It was posted there once and removed. Don't know why

[12/28/2003 6:37:38 PM] [w2jc] maybe check with Hotto some time when he's "idle" and be sure he doesnt have some reason not to have it posted, but maybe he just didnt' want to be responsible for keeping it updated... if it's posted by you, they you have the responsibility !! :)

[12/28/2003 6:40:00 PM] [pope39c] Gentlemen and Ladies: I can't keep up with this. Did not realize I was creating a tiger by the tail. I will check with Hotto to see if the list can be legally published on his Club page tomorrow. Now have over 50 rquests

[12/28/2003 6:42:27 PM] [pope39c] Have to be gone for a while.

[12/28/2003 7:05:34 PM] [Difed] pope39c..include me whenyou send out the G+ list...difed@hotmail.com..thanks a bunch!

[12/28/2003 7:15:37 PM] [pope39c] Ladies and Gentlemen: Have to cut off the transmission of the G+ lists. Can't keep up with it. Too many requests. Sorry. Did not realize I had a tiger by the tail and could not hand on or let go.

[12/28/2003 7:27:43 PM] [pope39c] I should remember but I don't - I think it was a list that has been kept up, taking information from Briefing.com. But I cannot be sure about that.

[12/28/2003 7:28:14 PM] [pope39c] It is not the complete list which is published by

briefing.com. Only those that give upward guidance

[12/28/2003 7:30:12 PM] [pope39c] I did not accurately respond to your question. It was copied from a TCNet club, but I do not remember which one

[12/28/2003 7:30:52 PM] [pope39c] I did not compile it, only copied it.

[12/28/2003 7:32:05 PM] [pope39c] I would be comfortable if that could wait until it is cleared by Hotto

[12/28/2003 7:33:47 PM] [pope39c] Correction: "I would be more comfortable"

[12/28/2003 7:37:44 PM] [pope39c] What is "AAIL"? Is that a club?

[12/28/2003 7:38:08 PM] [mstrader] That is the first symbol on your list.

[12/28/2003 7:39:30 PM] [pope39c] Okay. Do not want to get involved with my name being tied to publishing something that might be copyrighted info.

[12/28/2003 7:40:14 PM] [pope39c] I do not think the list is that since it was readily available on a club

[12/28/2003 7:53:23 PM] [JoRichDaddy] This list of stocks is the same as was published before by tukams and later removed. I have made my own list. Problem is there are so many stocks with positive guidance on Briefing that other filters are needed to make a workable group. Hopefully Hotto will share that with subscribers soon.

[12/28/2003 8:04:11 PM] [StockStalker] that charts take care of that part
