[3/7/2004 9:10:35 AM] [Stixman] I wish to thank Dragon,atraveler,sulley,loftyb,fieldcrest ,brooks, TPO63,chaucer,mickey, and anyone else who may have participated in helping solve my computer problem yesterday morn. I did drive back over to the Computer Show in Illinois (actually twice.) The first trip they replaced the Celeron 2.4 with a Pentium 4 2.8 (they were out of 2.4) probably the reason they substituted celeron in the first place). It cost me \$75 More. I'm OK with that. But when I got back home and hooked up the system. I got the blue screen saying check for virus and remove any recently added hard drives.....Cheez! It would not let me load my operating system. I took the computer back along with my operating system (3rd trip!) and had them load it. There were driver disks and read write drivers that they told me I could install myself at home. I told them I wasn't planning on making a forth trip and that they could install them. "I'll wait!" The third trip cost me no more additional moneiw...just time. N  
[3/7/2004 9:14:15 AM] [Stixman] Now I have a Pentium 4 w/ 2.8ghz, 1024 Ram and 120g harddrive. Very fast...Very Pleased. Thanks again to all of you who contributed. Without your input I would probly bee running the much slower celeron. Thanks - Stix  
[3/7/2004 9:17:18 AM] [loftyB] Stix Pleased you got the computer you really wanted and that it is working fine ;) Are you running more than one screen?  
[3/7/2004 9:19:14 AM] [Stixman] lofty ...not at this time. I tried that before and blew up my power supply!  
[3/7/2004 9:20:48 AM] [Stixman] I may try again with new mach but I'ss see...It's so fast I maynot need to. Switches between charts and programs is almost instanteous.  
[3/7/2004 9:21:20 AM] [loftyB] There was some discussion a few weeks ago about using extra videa cards and running up to 4 screens. I have a new Notebook and run it with an extra screen effectively having two with the notebook screen.  
[3/7/2004 9:43:43 AM] [Stixman] .

[3/7/2004 11:25:58 AM] [Stixman] .  
[3/7/2004 1:10:29 PM] [CashMan] It's really quiet here this morning  
[3/7/2004 1:18:15 PM] [CashMan] So there is some one here LOL  
[3/7/2004 1:19:44 PM] [rsi77] Hey Cashman, what are you long these days?  
[3/7/2004 1:20:31 PM] [CashMan] TIBX, ITIG, UPCS, MONE  
[3/7/2004 1:21:02 PM] [CashMan] rsi that is my long list  
[3/7/2004 1:21:44 PM] [rsi77] some nice charts...are you short too?  
[3/7/2004 1:22:42 PM] [FirstWave] mone LOOKS LIKE DOWN MONDAY  
[3/7/2004 1:22:43 PM] [rsi77] Cash, you trade just a few charts, but put lots of you \$ into each one...is that true?  
[3/7/2004 1:23:15 PM] [CashMan] No not yet. I missed NGEN. Wanted to short it at 50 day exp mavg but missed it  
[3/7/2004 1:24:03 PM] [CashMan] rsi I used to but now I'm more spread out. The most I have in one stock now is 1k  
[3/7/2004 1:24:17 PM] [bmwrider] MONE is a SOAP sell? and can't get through the 50  
[3/7/2004 1:24:35 PM] [rsi77] FW, is MONE starting W5 down in your opinion?  
[3/7/2004 1:24:46 PM] [CashMan] Or should I say more conservative  
[3/7/2004 1:25:00 PM] [rsi77] Cash, so you made lots of money from very little, but are now trading very carefully...true  
[3/7/2004 1:25:15 PM] [CashMan] Yes  
[3/7/2004 1:25:38 PM] [rsi77] But you used to be much more aggressive...2k to 25k in one year....correct?  
[3/7/2004 1:25:56 PM] [CashMan] Yes  
[3/7/2004 1:26:32 PM] [CashMan] Very aggressive. But last year was alot different than this year.  
[3/7/2004 1:26:43 PM] [rsi77] impressive....most would have lost it back by now....good job  
[3/7/2004 1:27:18 PM] [CashMan] rsi I really have to give credit to hotto and tina for keeping it  
[3/7/2004 1:27:59 PM] [rsi77] yep, couldn't ask for better teachers than that....but it's good you were able to listen and follow their advice  
[3/7/2004 1:29:31 PM] [CashMan] Problem now is I know better. So I know I got a set of rules I follow to the T

[3/7/2004 1:29:44 PM] [FirstWave] MONE is a high risk long here  
[3/7/2004 1:30:26 PM] [CashMan] Yep I just got a few shares I have been riding since I bought it 7.20  
[3/7/2004 1:31:25 PM] [kellam] FW I see MONE as hitting R @50ma daily, and soap sell daily  
[3/7/2004 1:31:43 PM] [CashMan] FW I just keep moving up my stop closer waiting to see what happens  
[3/7/2004 1:32:46 PM] [rsi77] Anybody know if Hotto is on today? Or is he still not feeling well?  
[3/7/2004 1:33:10 PM] [FirstWave] yes, not thrilled about this stock here  
[3/7/2004 1:33:55 PM] [rsi77] Cash, I'm in the process of making rules for myself...I've not been so wise as you have and I've given back much of what I've gained....and at one point I had gained quite a bit.  
[3/7/2004 1:34:44 PM] [rsi77] I sometimes have difficulty selling scalp targets when I'm only allowed so many day trades a week....  
[3/7/2004 1:34:57 PM] [CashMan] Yes I know what you mean. That is one thing I have picked up from tina. You got to have a set of rules and don't deviate from them  
[3/7/2004 1:37:10 PM] [CashMan] rsi make a check list also for getting into trades and back test those rules on many charts to make sure it works and on individual stock also  
[3/7/2004 1:38:32 PM] [rsi77] Cash, did you ever use TC Scan+  
[3/7/2004 1:39:33 PM] [CashMan] No  
[3/7/2004 1:39:44 PM] [rsi77] how do you backtest....manually?  
[3/7/2004 1:40:54 PM] [CashMan] That no was was private conversation  
[3/7/2004 1:41:12 PM] [CashMan] Yes I do use tc net scan  
[3/7/2004 1:41:12 PM] [rsi77] OK  
[3/7/2004 1:43:20 PM] [rsi77] thanks for your input  
[3/7/2004 1:44:14 PM] [CashMan] yw. I have a hard time explaining things when I'm typing LOL But I hope you understood.  
[3/7/2004 1:44:50 PM] [rsi77] no problem understanding at all  
[3/7/2004 1:45:03 PM] [rsi77] this is a great club  
[3/7/2004 1:45:14 PM] [CashMan] yes it is  
[3/7/2004 2:09:45 PM] [CashMan] It got quiet all of a sudden seesh LOL.  
[3/7/2004 2:11:43 PM] [themasrader] NOISE...there...happy Cash?  
[3/7/2004 2:12:20 PM] [CashMan] LOL  
[3/7/2004 2:13:02 PM] [CashMan] very happy now thank you.  
[3/7/2004 2:13:02 PM] [themasrader] Anything to cheer up a fellow trader...
