[3/26/2004 8:10:25 AM] [payck] LU gets a 2 year dept of defense contract to modernize communications in IRAQ, \$75M
[3/26/2004 8:16:02 AM] [Yehudi] LU ...40% gross margin and 4.3 billion shares....after break-even (which is probably where they are now)...a 75 M deal ,at 20 PE is worth34 cents..but if this is indicative of an upturn....then this is a fascinating plaay...\$4+billion in cash, top 5 annual new patent generator, in several sweet spots and maybe even a longer range buy-out by a defense contractor who wants the microwave technology and the patent machine called "Bell Labs". IMO IMO
[3/26/2004 8:16:49 AM] [atraveler] LU also a VoIP player
[3/26/2004 8:17:17 AM] [Yehudi] ATR..correct
