[1/28/2004 4:51:44 PM] [StockStalker] My acct not yet transferred to ETG... was caught in AMTD and did not sell any of my 50-60 longs

[1/28/2004 4:52:16 PM] [StockStalker] but I took many profits at targets in the morning and was 1/3 short some big positions

[1/28/2004 4:52:28 PM] [StockStalker] so all should be well

[1/28/2004 4:52:44 PM] [enzo] amtd i could close any position the are terribole

[1/28/2004 4:53:43 PM] [StockStalker] so a very interesting day today to say the least

[1/28/2004 4:54:15 PM] [StockStalker] pm city

[1/28/2004 4:54:48 PM] [enzo] oz do you have a proggamm that gives you the news

[1/28/2004 4:56:21 PM] [StockStalker] one of my subscribers does... Esig gives it to me but he has the fastest system

[1/28/2004 4:56:34 PM] [StockStalker] he had it written by a programmer and pays fo the wires

[1/28/2004 4:56:58 PM] [StockStalker] so if i am in a stock and news comes out he is

good at telling me I am bout to be smashed or rewarded, etc

[1/28/2004 4:57:21 PM] [ilovemusicCOM] don't forget about MagicBriefing (free)

which reads the news aloud to you. :)

[1/28/2004 4:57:45 PM] [StockStalker] I will try to forget

[1/28/2004 4:58:02 PM] [ilovemusicCOM] it requires a briefing subscription, though

[1/28/2004 4:58:10 PM] [StockStalker] the briefing part i mean

[1/28/2004 4:58:20 PM] [cuidado] re: amtd... did those who couldn't trade have "pure" amtd accts, or come to amtd via existing datek accts? I came via datek and had no problems today with Level I, II, news data, order processing.

[1/28/2004 4:58:25 PM] [StockStalker] tho il oke the stuff u showed me that reads websites and text

[1/28/2004 4:58:28 PM] [ilovemusicCOM] but they free a some brokers, like Cybertrader and Etrade

[1/28/2004 4:58:45 PM] [enzo] music i have briefing how dos it work

[1/28/2004 4:59:06 PM] [ilovemusicCOM] it grabs the text from the Inplay window

[1/28/2004 4:59:08 PM] [StockStalker] my AMTD was/is "pure"

[1/28/2004 4:59:19 PM] [ilovemusicCOM] and looks for latest headline. Then it reads it aloud when the headline changes

[1/28/2004 4:59:30 PM] [StockStalker] should be closed in teh next week or so but was stuck in it today

[1/28/2004 5:00:03 PM] [ilovemusicCOM] I found it was better than reading headlines because I could be doing other things

[1/28/2004 5:00:10 PM] [enzo] i would close my amtd also in few weeks

[1/28/2004 5:00:20 PM] [ilovemusicCOM] one catch is that it works best on a dedicated computer

[1/28/2004 5:00:55 PM] [ilovemusicCOM] because the briefing window must be "active" or selected

[1/28/2004 5:02:07 PM] [cuidado] interesting, SS, tx... I was just curious. From what I understand, they've always kept the two networks separate.

[1/28/2004 5:02:31 PM] [StockStalker] common in that type of merger... less cost

[1/28/2004 5:04:19 PM] [StockStalker] Ameritrade working now

[1/28/2004 5:04:49 PM] [cuidado] I'm glad they did. Although Datek's Help Files were abominable, and that's one thing that Ameritrade has really improved on. Anyway, great.

[1/28/2004 5:07:59 PM] [tobydad] sorry to intrude on the conversation, but have u tried tradethenews.com?

[1/28/2004 5:08:46 PM] [StockStalker] that is a group that reads news to u from various news sources now and also details from the pits

[1/28/2004 6:07:46 PM] [Investortrader] Looks like the correction has begun
[1/28/2004 6:07:54 PM] [Investortrader] Welcome WhiteRabbit :)
[1/28/2004 6:08:42 PM] [Investortrader] Sharing a chart of the DOW now
[1/28/2004 6:09:22 PM] [Investortrader] OBV has crashed thru the middle BB and is almost down to the lower BB already
[1/28/2004 6:09:58 PM] [Investortrader] We've had a nice long run since end of Nov, with hardly any correction till now
[1/28/2004 6:10:42 PM] [Investortrader] After such a run I would expect a test of the 50sma
[1/28/2004 6:11:01 PM] [rsi77] IT, do you expect most everything to continue down tomorrow without a bounce?
[1/28/2004 6:11:09 PM] [rsi77] bounce
[1/28/2004 6:11:54 PM] [Investortrader] It may bounce some tomorrow, but I don't expect too much of one if it does, lots who are trapped in longs will use any bounce to sell
[1/28/2004 6:12:52 PM] [Investortrader] Don't think prices are cheap yet, in the run-up after a high price, it just got higher the next week, as targets got hit and after a minor pb they got exceeded .. same thing will happen now on the downside
[1/28/2004 6:13:25 PM] [Investortrader] Something that looks cheap this week, will be cheaper the next week in a correction
[1/28/2004 6:13:55 PM] [Investortrader] Be careful buying anything for much more than a very short term trade
[1/28/2004 6:14:43 PM] [Investortrader] We could see 10,000 tested which is under the 50sma
[1/28/2004 6:14:58 PM] [rsi77] I've got some stocks sitting on the MA20's, and wondering if I should hold on....I have Ameritrade so wasn't able to dump earlier
[1/28/2004 6:15:13 PM] [rsi77] e.g. EGLS
[1/28/2004 6:15:39 PM] [Investortrader] Yes, Ameritrade was a mess today
[1/28/2004 6:16:08 PM] [Investortrader] If you don't short, this would be a good time to close that account and switch over to another broker
[1/28/2004 6:16:25 PM] [Investortrader] Let's look at EGLS
[1/28/2004 6:17:19 PM] [Investortrader] This one isn't down to the 20sma yet
[1/28/2004 6:17:47 PM] [Investortrader] And didn't really have much volume today on it
[1/28/2004 6:18:10 PM] [rsi77] oops, I meant 10, and actually it's already a little below
[1/28/2004 6:19:41 PM] [Investortrader] In a correction most things go down, personally I would sell most everything, hopefully on a bounce .. or move up stops
[1/28/2004 6:19:52 PM] [Investortrader] And let the stops take me out

[1/28/2004 6:21:48 PM] [Investortrader] I've said recently it felt like they were trying to hold the markets up, and not that it was naturally up here ... Hotto has mentioned some things like that too recently

[1/28/2004 6:22:27 PM] [Investortrader] And that they were just looking for a reason to sell, and now they got one

[1/28/2004 6:23:31 PM] [mace] FNSR please

[1/28/2004 6:23:42 PM] [Investortrader] I don't watch too many stocks at once, but every one I watched except one got sold off pretty good today

[1/28/2004 6:23:50 PM] [Investortrader] FNSR

[1/28/2004 6:24:09 PM] [mace] currently 3.47 AH

[1/28/2004 6:25:04 PM] [Investortrader] Right, 3.41x3.47

[1/28/2004 6:25:32 PM] [mace] I show SSPRO last trade 500 shares 3.47

[1/28/2004 6:25:43 PM] [Investortrader] This one broke the 50sma today, but came back some and closed right around it

[1/28/2004 6:26:07 PM] [Investortrader] That's where I am looking, SSPRO :)

[1/28/2004 6:26:45 PM] [Investortrader] It tried to base in the 3.50 area, but today it got hit along with most everything else

[1/28/2004 6:27:46 PM] [Investortrader] If you look back in Dec when it was basing, around 3.20 was the top of that base

[1/28/2004 6:27:51 PM] [RV6A] IT, any thoughts on ED

[1/28/2004 6:28:21 PM] [Investortrader] Then in early Jan when it broke thru, the bottom of that short basing period was around 3.25

[1/28/2004 6:28:34 PM] [Investortrader] Wouldn't surprise me at all if that aea was tested at least

[1/28/2004 6:28:39 PM] [Investortrader] That area

[1/28/2004 6:28:43 PM] [CrinkleCut] s.com

[1/28/2004 6:29:23 PM] [Investortrader] I don't expect it to test the bottom of the DEc base

[1/28/2004 6:29:48 PM] [Investortrader] Tomorrow options start trading on FNSR

[1/28/2004 6:31:12 PM] [Investortrader] Looks like it's in an ABC, with the B being the recent sideways action

[1/28/2004 6:32:07 PM] [Investortrader] The lowest I expect now, would maybe be around 3, may not get that far, but that would be my worst case at this time

[1/28/2004 6:33:12 PM] [mace] thanks

[1/28/2004 6:33:21 PM] [Investortrader] Welcome mace :)

[1/28/2004 6:36:28 PM] [Investortrader] I think I remember CNBC saying bonds were up today also
[1/28/2004 6:38:04 PM] [Investortrader] OBV is lagging on it however
[1/28/2004 6:39:04 PM] [Investortrader] As a utility it will hold up better than most, but I wouldn't expect too much on the upside in it
[1/28/2004 6:39:31 PM] [RV6A] looks like a lot of over head resistance getting close
[1/28/2004 6:40:19 PM] [Investortrader] Exactly
[1/28/2004 6:40:37 PM] [RV6A] ty, IT
[1/28/2004 6:40:38 PM] [Investortrader] And normal utilities don't move too much or too fast

[1/28/2004 6:40:52 PM] [Investortrader] Any questions on ED?
[1/28/2004 6:42:01 PM] [Investortrader] Anyone who had problems with Ameritrade today, I would seriously consider changing brokers ... might be out of play for a week, maybe two ... but that's better than being trapped on a day like today again
[1/28/2004 6:42:29 PM] [Investortrader] On to WFII ...
[1/28/2004 6:42:48 PM] [Bobtrader] any suggestions on brokers
[1/28/2004 6:43:42 PM] [Bobtrader] will take all answers
[1/28/2004 6:43:43 PM] [Investortrader] I use Brown and Schwab ... Brown has experience requirements but you can always lie about it, Schwab is a bit more expensive
[1/28/2004 6:44:38 PM] [Investortrader] Schwab is \$15 per trade up to 1000 shares, and \$15 for each 1000 or part thereof after that, if you make 30 trades per quarter
[1/28/2004 6:45:07 PM] [Investortrader] And \$30 if you don't
[1/28/2004 6:45:22 PM] [kellam] IT may schwab contact tells me they will reduce rates in feb, annnc as part of super bowl ad
[1/28/2004 6:45:27 PM] [mace] I think they changed price 15 for 1500
[1/28/2004 6:45:48 PM] [Investortrader] That would be great kellam! I'll have to call and ask about that

Schwab for higher priced ones I buy 500 or 1000 shares on ... Brown is \$10 up to 5000 shares for limit, and \$5 for market

[1/28/2004 6:47:23 PM] [Investortrader] Chapmaster, gold stocks, or gold itself?

[1/28/2004 6:47:39 PM] [TPFTrader] Chap, the \$ rallied on greenspans comments causing the drop in gold

[1/28/2004 6:47:42 PM] [Investortrader] Thanks kellam :)

[1/28/2004 6:47:59 PM] [Investortrader] Thanks TPFtrader :)

[1/28/2004 6:48:26 PM] [Investortrader] IF interest rates are going up sooner than expected, cost of carry on gold will be going up also, plus the \$ move

[1/28/2004 6:48:45 PM] [Chapmaster] stocks ... NEM ... BGO ... etc ... tanked hard on the fed

[1/28/2004 6:48:53 PM] [mace] WFII & TRIB

[1/28/2004 6:49:28 PM] [StockStalker] am wondering what AMTD had to say about todays issues.... I never talked to them but have routed 889 trades as of yesterday with them...

[1/28/2004 6:50:00 PM] [Investortrader] SS, probably somewhere in the fine print it says not responsible for servers going down

[1/28/2004 6:50:24 PM] [StockStalker] that I know.. but am wondering what their comment on it is

[1/28/2004 6:50:40 PM] [Investortrader] They may offer you a bunch of free trades, not that that will make up for todays' not being able to trade

[1/28/2004 6:50:46 PM] [StockStalker] ultimately we are responsible for who we trade thru and what happens

[1/28/2004 6:50:52 PM] [Investortrader] Right

[1/28/2004 6:51:20 PM] [StockStalker] i dont blame them at all ... even tho I had about 60 llongs on and no way to exit

[1/28/2004 6:51:24 PM] [Investortrader] I'm sure they heard a few choice words from some of their customers too

[1/28/2004 6:51:46 PM] [Investortrader] WFII looks like it wasn't affected by todays trading

[1/28/2004 6:51:52 PM] [StockStalker] but since always hedged, I will live to trade again...

[1/28/2004 6:53:37 PM] [mstrader] IT - if you have time please check -CMGI, where is the bottom??

[1/28/2004 6:54:01 PM] [StockStalker] SHPGY held up well

[1/28/2004 6:54:12 PM] [Investortrader] The 50sma isn't too far under it, looks like it's in the first gap area too, I would get out if that broke ... lots of times on heavy down days like today, the next day can hit those not hit today

[1/28/2004 6:54:15 PM] [LakeErieStan] yes - I emailed Ameritrade - Freetrade when an order to close kept saying symbol error, they responded within about 10 -15 min. saying they were havinig problems in the quote server which must effect the trade orders.

[1/28/2004 6:54:22 PM] [StockStalker] as did ATGN HMSL

[1/28/2004 6:55:15 PM] [LakeErieStan] was still down at close but I didnot get hurt as yet as the stock actuall went up a few cents.

[1/28/2004 6:56:16 PM] [Investortrader] As of now I'm playing this move in the market as the start of a longer correction and not a 1-day event ... that should be more clear by the end of the week

[1/28/2004 6:56:41 PM] [Investortrader] As such, I'm not buying anything and will be looking for shorts

[1/28/2004 6:56:56 PM] [Investortrader] Otherwise WFII would be tempting around here

[1/28/2004 6:57:09 PM] [Investortrader] With the 50sma not too far away

[1/28/2004 6:57:20 PM] [LakeErieStan] same order went thru now.

[1/28/2004 6:58:24 PM] [Investortrader] Small range day on higher volume, and it being a harami/doji type day

[1/28/2004 6:59:17 PM] [Investortrader] But the market condition as I read it being down now, I won't fight it, some stocks will probably go up, but in a correction the easy money is made shorting

[1/28/2004 7:00:09 PM] [Investortrader] I could be wrong and it might be just a 1 or 2 day thing, in that case I'll start over next Monday .. but the long run-up is begging for a correction

[1/28/2004 7:00:33 PM] [Investortrader] Any questions on WFII?

[1/28/2004 7:01:22 PM] [Investortrader] On to CMGI ...

[1/28/2004 7:01:36 PM] [mstrader] ty IT

[1/28/2004 7:02:06 PM] [Investortrader] Welcome mstrader :)

[1/28/2004 7:02:32 PM] [Investortrader] This one you can see the LR30 was support for a little bit, broke under it pretty good today

[1/28/2004 7:03:15 PM] [Investortrader] And the last 5 days, you can draw a trendline

ClubHome

down the highs with the LR30 as a trendline on the lows to make a triangle, which it broke out of to the downside

[1/28/2004 7:03:37 PM] [Investortrader] Plus it's extended up here

[1/28/2004 7:03:56 PM] [Investortrader] I'd expect at least a test of the middle BB

[1/28/2004 7:04:15 PM] [Investortrader] IF we are in a correction as I think, many stocks will come down to test their 50sma

[1/28/2004 7:04:46 PM] [Investortrader] Won't be straight down as it wasn't straight up, but could easily end up there ... This one included

[1/28/2004 7:05:41 PM] [Investortrader] IF I held it I'd be looking to sell it

[1/28/2004 7:05:47 PM] [mstrader] it broke 10ma=2.86 today. then 20ma=2.46 and 50ma=2.15

[1/28/2004 7:06:02 PM] [starrbucks] the test would be the sma50 @ about 2.15...is that right

[1/28/2004 7:06:08 PM] [Investortrader] Thanks mstrader

[1/28/2004 7:06:32 PM] [mstrader] I was thinking of scalping it at 20ma

[1/28/2004 7:06:35 PM] [Investortrader] Yes starrbucks, but the 50sma is rising so should be a bit higher than that when it hits it, unless it dies tomorrow

[1/28/2004 7:06:58 PM] [starrbucks] yes....agree

[1/28/2004 7:07:08 PM] [Investortrader] Scalping in what way mstrader? buying for a bounce or are you short and plan on covering it there?

[1/28/2004 7:07:55 PM] [Investortrader] I don't fight the trend, so I won't be buying any bounce plays, I'll be shorting instead

[1/28/2004 7:08:23 PM] [mstrader] for a bounce. you answered before i could finish.

[1/28/2004 7:08:31 PM] [Investortrader] Ok :)

[1/28/2004 7:09:03 PM] [mstrader] ty, IT , very much. :)

[1/28/2004 7:10:12 PM] [mstrader] this interest thing.. will it have more impact on cmgi and companies in internet service?

[1/28/2004 7:10:44 PM] [Investortrader] It will have more impact on stocks that are extended

[1/28/2004 7:10:56 PM] [Investortrader] And stocks with lots of debt

[1/28/2004 7:11:25 PM] [mstrader] ok

[1/28/2004 7:11:26 PM] [Investortrader] We're over here corvette, added it to the list

[1/28/2004 7:11:36 PM] [Investortrader] On to TRIB

[1/28/2004 7:12:32 PM] [Investortrader] I think I was asked about this one before, I replied I didn't see anything in the chart telling me it is about to go up ... and I still don't

ClubHome

[1/28/2004 7:13:24 PM] [Investortrader] If anything it looks like it has deteriorated since then, now is trading under the middle BB, as is the OBV

[1/28/2004 7:14:08 PM] [Investortrader] Bearish engulfing on it today also

[1/28/2004 7:15:05 PM] [Investortrader] It's been basing sideways here for a bit now

[1/28/2004 7:15:33 PM] [lavenderangel] does it matter if there was a large private placement of shares today in TRIB?

[1/28/2004 7:15:38 PM] [Investortrader] Looks like it wants to at least test the top of that first gap up again

[1/28/2004 7:15:57 PM] [lavenderangel] or going to be

[1/28/2004 7:17:12 PM] [Investortrader] I don't see any news that it will be today

lavenderangel

[1/28/2004 7:17:31 PM] [Investortrader] I do see news awhile back saying it will be at 4.25, the placement

[1/28/2004 7:18:08 PM] [Investortrader] That's right around the lows of 1/20 and 1/21, and the upper gap area too

[1/28/2004 7:18:19 PM] [Investortrader] upper gap area of the first gap up

[1/28/2004 7:18:49 PM] [Investortrader] If it doesn't get re-negotiated that area should hold normally

[1/28/2004 7:19:56 PM] [Investortrader] So this one may not test the 50sma, unless the correction turns out to be one of those 7-10% ones and not just a 4-7% one

[1/28/2004 7:20:36 PM] [Investortrader] Or it could meander sideways till the 50sma comes up to meet it and test it that ay

[1/28/2004 7:20:38 PM] [Investortrader] that way

[1/28/2004 7:20:45 PM] [Investortrader] Any questions on TRIB?

[1/28/2004 7:21:28 PM] [Investortrader] On to MESA ... as a possible short

[1/28/2004 7:22:19 PM] [Investortrader] They will be presenting tomorrow at a Raymond James conference

[1/28/2004 7:23:02 PM] [Investortrader] This one does look ok for a short here, barring great news at the conference tomorrow

[1/28/2004 7:23:15 PM] [Investortrader] Came right up and got stopped cold by the 50sma

[1/28/2004 7:23:35 PM] [Investortrader] With a bearish engulfing candle today

[1/28/2004 7:23:51 PM] [Chapmaster] thx ... short at 11.50 this AM

[1/28/2004 7:24:05 PM] [Investortrader] That engulfed the entire range from yesterday and not just the body

[1/28/2004 7:24:54 PM] [Investortrader] Looks good to me Chapmaster

[1/28/2004 7:26:12 PM] [Investortrader] LR30 would be first target and the 10.40 - 10.45 area for a possible dbl btm after that

[1/28/2004 7:26:38 PM] [Investortrader] Any questions on MESA?
[1/28/2004 7:27:11 PM] [Chapmaster] nope ... thx ... glad you concur
[1/28/2004 7:27:14 PM] [enzo] hi investors how did you find
[1/28/2004 7:27:19 PM] [Investortrader] Welcome :)
[1/28/2004 7:27:27 PM] [Investortrader] Hi enzo
[1/28/2004 7:27:46 PM] [enzo] just log in
[1/28/2004 7:27:54 PM] [Investortrader] On to TGAL ...
[1/28/2004 7:28:08 PM] [StanS] dbl bottom on MESA, is that the body or the wick?
[1/28/2004 7:29:03 PM] [Investortrader] Stan, that would be if it gets down to that
10.40-5 area in however long, as that was where this rally started
[1/28/2004 7:29:18 PM] [Investortrader] On 1/12 and 1/13
[1/28/2004 7:29:26 PM] [StanS] OK ty
[1/28/2004 7:29:31 PM] [Investortrader] Possible only if it bounces from there
[1/28/2004 7:30:16 PM] [Jireh] AA - Looks like a good short can.
[1/28/2004 7:31:10 PM] [Investortrader] TGAL was mentioned somewhere, but todays
Fed announcement shorted out most rally attempts
[1/28/2004 7:31:58 PM] [Investortrader] I actually played this one today but not for
long, was in at 3.77 and out at 3.79
[1/28/2004 7:32:43 PM] [Investortrader] It didn't feel right and I saw some big sellers
in it, before the Fed dropped the bomb
[1/28/2004 7:33:25 PM] [Investortrader] The middle BB did hold today
[1/28/2004 7:33:41 PM] [Investortrader] And the LR30 has held it down on the upside
last few days
[1/28/2004 7:34:08 PM] [Investortrader] I was looking for a continuation of the last few
days of rally
[1/28/2004 7:34:26 PM] [Investortrader] But when the LR30 stopped it and the bigger
sellers showed up I got out
[1/28/2004 7:36:02 PM] [Investortrader] Same comment on this one as a previous
one, would look ok to take a stab at here on the long side just above the middle BB ..
IF it weren't for the market condition
[1/28/2004 7:37:12 PM] [root] -gd evening friends---is hotto on now ????
[1/28/2004 7:37:17 PM] [Investortrader] I'm mainly a safe trader, and the market
doesn't look safe here
[1/28/2004 7:37:21 PM] [Investortrader] Hi root
[1/28/2004 7:37:59 PM] [Investortrader] If I am wrong, I'll miss a few trades next
couple of days, and be back on Monday, no worries, there will always be another
trade coming along, I don't mond missing some
[1/28/2004 7:38:13 PM] [Investortrader] If I am right, I won't be buying against the

trend and regretting it

[1/28/2004 7:38:27 PM] [enzo] ivestor how do you find stock if you want to short

[1/28/2004 7:38:39 PM] [corvette68] thanks for TGAL's comments

[1/28/2004 7:39:16 PM] [Investortrader] enzo, I look for stocks that have reversed from an extended position, or a stock that has come up to strong resistance and sold off, example of the last would be MESA which I covered a bit ago

[1/28/2004 7:39:20 PM] [Investortrader] Welcome corvette :)

[1/28/2004 7:40:26 PM] [root] hi hotto--will you be talking tonight ???

[1/28/2004 7:40:39 PM] [Investortrader] Same as for longs, I look for support and resistance, for longs I buy support and sell the resistance, for shorts I do the opposite, short the resistance and cover at the support

[1/28/2004 7:40:39 PM] [enzo] do you have any scan for that or just go tru charts

[1/28/2004 7:41:40 PM] [Investortrader] I have a bunch of scans I use, some raw volume scans will give me some good charts, got some candlestick scans now that I've read candlestick1's book that I like ... very good book by the way

[1/28/2004 7:42:35 PM] [Investortrader] Hotto is almost ready, so since AA is the last request, no more requests

[1/28/2004 7:42:42 PM] [Investortrader] Any questions on TGAL?

[1/28/2004 7:42:43 PM] [root] --hi Investor--I use sorting by beta for quick reference.

[1/28/2004 7:42:44 PM] [mace] any problems with install, I got mine today

[1/28/2004 7:42:58 PM] [Investortrader] That's a good sort too root

[1/28/2004 7:43:12 PM] [Investortrader] On to AA ...

[1/28/2004 7:43:22 PM] [Investortrader] As a possible short

[1/28/2004 7:43:32 PM] [mace] do you have to turnoff antivirus as CD says?

[1/28/2004 7:44:13 PM] [Investortrader] Probably should mace, but install it while offline so no problem

[1/28/2004 7:44:27 PM] [Investortrader] AA does look like a good short

[1/28/2004 7:44:53 PM] [Investortrader] Broke down under the 50sma and tagged the lower BB

[1/28/2004 7:44:59 PM] [Investortrader] On increased volume too

[1/28/2004 7:45:41 PM] [Investortrader] Came down and held the 50sma for almost 2 weeks, creating that ledge which it has now fallen off of

[1/28/2004 7:45:50 PM] [turningpoint] thx It shorted at rejection by 22day 37ish

[1/28/2004 7:46:11 PM] [enzo] ivestor i think with new version we can scan obv aa looks good obv never came up

[1/28/2004 7:46:25 PM] [Investortrader] I'll like the OBV scans enzo!

[1/28/2004 7:47:43 PM] [turningpoint] 50ma was my reconsideration pt
[1/28/2004 7:47:52 PM] [Investortrader] If we do get a bounce tomorrow, I may look to short this one
[1/28/2004 7:47:54 PM] [turningpoint] took care of that today
[1/28/2004 7:47:55 PM] [ilovemusicCOM] what is this "live chart show in progress?? seems not to be live.
[1/28/2004 7:48:06 PM] [ilovemusicCOM] youo see it when you go to clubs

[1/28/2004 7:48:37 PM] [Investortrader] ilovemusic, FW had one earlier but it had problems half way thru it, froze up
[1/28/2004 7:48:46 PM] [enzo] aa looks nice
[1/28/2004 7:49:00 PM] [Investortrader] Any questions on AA?
[1/28/2004 7:49:25 PM] [joduval] question target for short?
[1/28/2004 7:49:51 PM] [enzo] not much it break the trend line what can be the target
[1/28/2004 7:50:06 PM] [Investortrader] Could be 31, that was resistance in Oct and support in Nov
[1/28/2004 7:50:43 PM] [Investortrader] Below that would be 29 area, the Oct dip low
[1/28/2004 7:51:17 PM] [Fern] hi it, if aa bounces and kisses ma50 would that be a good place to short?
[1/28/2004 7:51:44 PM] [Investortrader] I would be all over it if it did that Fern :) But I'm not expecting it to bounce so much .. but it might
[1/28/2004 7:52:08 PM] [Investortrader] I may use about half way up todays candle
[1/28/2004 7:52:12 PM] [Jireh] AA has a H&S pattern
[1/28/2004 7:52:17 PM] [Investortrader] See how the volume goes
[1/28/2004 7:52:43 PM] [joduval] what is H&S pattern explain pls
[1/28/2004 7:53:04 PM] [Investortrader] Jireh, if it is, that would project a 31 first target also
[1/28/2004 7:53:16 PM] [Jireh] Head &Shouder
[1/28/2004 7:53:24 PM] [joduval] got it
[1/28/2004 7:53:31 PM] [Jireh] I agree

[1/28/2004 7:54:18 PM] [joduval] i don't see H&S what time frame r u looking at?

[1/28/2004 7:59:02 PM] [Investortrader] I love salmon
[1/28/2004 7:59:43 PM] [CashMan] IT then you need to come to alaska for some kings :)
[1/28/2004 7:59:48 PM] [Jireh] GM closed below lower BB. May fall to \$42. Some resistance at\$48
[1/28/2004 7:59:56 PM] [DeepTroller] I noticed AMTD put news release on its web site on the chart page this afternoon trying to explain the outage. Promised all well tomorrow

[1/28/2004 8:03:05 PM] [Investortrader] Reid, I know a bit about OBV ... also if you are a member of Hottoworks there is a paper there on it, and some in the logs though I forget which exact days, could do a search on the Saturday chats for it

[1/28/2004 8:03:13 PM] [Investortrader] Stock fever?

[1/28/2004 8:03:20 PM] [Investortrader] MArket fever?

[1/28/2004 8:03:44 PM] [Investortrader] Hotto fever? ;)

[1/28/2004 8:04:08 PM] [CashMan] IT take a look at SEAC. When you get a chance it didn't take a big hit today.

[1/28/2004 8:04:25 PM] [CashMan] I'll except that hotto fever LOL

[1/28/2004 8:04:29 PM] [enzo] is hotto gone be in tonight

[1/28/2004 8:04:30 PM] [dwells129] IT, while we wait for Hotto, back on AA, last time it dipped below 50 (end of Sept) in similar candle it climbed right back. Concern?

[1/28/2004 8:04:54 PM] [dwells129] (when shorting)

[1/28/2004 8:05:00 PM] [ReidPerkins] thanks for responding investortrader...i am pseudo familar with the indicator myself but was playing with the new custom indicator settings seem to have hit a glitch

[1/28/2004 8:05:07 PM] [Investortrader] No concern here dwells as the market condition is different now

[1/28/2004 8:05:16 PM] [ReidPerkins] do u have the new cd installed

[1/28/2004 8:05:34 PM] [Investortrader] And if I do get to short a bounce tomorrow, it's a low risk play with the 50sma so close

[1/28/2004 8:06:05 PM] [dwells129] AA up AH

[1/28/2004 8:06:07 PM] [Investortrader] I haven't gotten the new cd yet Reid, living out in the boonies means slower mail, plus we only go to town once a week

[1/28/2004 8:06:31 PM] [Investortrader] Hopefully it will be waiting for me when we go on Fri

[1/28/2004 8:06:57 PM] [dwells129] Where IT?

[1/28/2004 8:07:15 PM] [ReidPerkins] i see, perhaps i could share a chart for you to view in the hotto club

[1/28/2004 8:07:57 PM] [ReidPerkins] if someone would be kind enough to instruct on how this is done

[1/28/2004 8:09:21 PM] [Investortrader] Allow other users that should be
[1/28/2004 8:09:53 PM] [ReidPerkins] thanks for the instructions
[1/28/2004 8:11:02 PM] [ReidPerkins] the light blue indicator on this chart is obv and
the dark blue indicator is simply a cumulative total achieved by adding the up days
and subtracting the down days
[1/28/2004 8:11:21 PM] [ReidPerkins] hence no volume input
[1/28/2004 8:11:43 PM] [Investortrader] I only see 1 but that is what the definition of
OBV is
[1/28/2004 8:12:23 PM] [ReidPerkins] but dosent obv have a volume input
[1/28/2004 8:12:46 PM] [ReidPerkins] hence the name "on balance volume"
[1/28/2004 8:13:14 PM] [Investortrader] Yes
[1/28/2004 8:13:43 PM] [ReidPerkins] do u not see both blue indicator
representatives
[1/28/2004 8:13:47 PM] [ReidPerkins] investor
[1/28/2004 8:14:01 PM] [Investortrader] No
[1/28/2004 8:14:01 PM] [Kuf] i see them Reid, you need the new build to see both
lines
[1/28/2004 8:14:05 PM] [Kuf] what's the problem?
[1/28/2004 8:14:14 PM] [Investortrader] That's why I don't see it!
[1/28/2004 8:15:31 PM] [ReidPerkins] the problem is the similarity between the two
despite the fact that obv is supposed to be a superior indicator because it has a
volume input
[1/28/2004 8:15:43 PM] [ReidPerkins] do u notice Kuf?
[1/28/2004 8:15:57 PM] [Kuf] let me check your formula
[1/28/2004 8:16:02 PM] [ReidPerkins] k
[1/28/2004 8:16:20 PM] [Kuf] your formula is not adding or subtracting anything
[1/28/2004 8:16:32 PM] [Kuf] you have the up and down conditions, but nothing else
is listed
[1/28/2004 8:16:58 PM] [ReidPerkins] but it still represents the same changes as obv
when displayed
[1/28/2004 8:17:11 PM] [ReidPerkins] thats what i cant digest
[1/28/2004 8:17:39 PM] [MaxSteel] Evening all
[1/28/2004 8:17:49 PM] [Kuf] without a value in there, I don't really know what it's
calculating. It needs to know what exactly to add or subtract
[1/28/2004 8:18:16 PM] [ReidPerkins] sorry for confusing you investor
[1/28/2004 8:18:28 PM] [ReidPerkins] thanks for trying to help though
[1/28/2004 8:19:08 PM] [Kuf] If you put V in the bottom window, it looks exactly like
OBV, waht do you want it to do?

ClubHome

[1/28/2004 8:19:08 PM] [ReidPerkins] does this not make u question the quality of obv, even if just a little
[1/28/2004 8:19:35 PM] [Kuf] Reid, no because I'm not sure what your custom indicator is cumulating on right now.
[1/28/2004 8:19:53 PM] [Kuf] Edit your indicator and put V in the bottom, then they will overlap exactly
[1/28/2004 8:20:04 PM] [Investortrader] No worries Reid, and no, I don't question the quality of OBV
[1/28/2004 8:20:11 PM] [Kuf] jere
[1/28/2004 8:20:27 PM] [Investortrader] I'm gone for a bit, be back later
[1/28/2004 8:20:28 PM] [Kuf] here let me share my chart with your indicator, only I added V to the +- value
[1/28/2004 8:20:40 PM] [ReidPerkins] k
[1/28/2004 8:20:58 PM] [MarcoPolo] Kuf,, let every one behind the scenes know job well done on the new release.. The play ground CD was a good idea..
[1/28/2004 8:21:15 PM] [Kuf] you're welcome mp.
[1/28/2004 8:21:31 PM] [Kuf] the visual sorts would have been impossible to explain, im sure we'll still get calls
[1/28/2004 8:21:59 PM] [MarcoPolo] oh yea i am sure you will..LOL
[1/28/2004 8:22:05 PM] [imjim] I second that-- kuf
[1/28/2004 8:22:45 PM] [Kuf] reid, see what I mean on my chart?
[1/28/2004 8:26:05 PM] [ReidPerkins] yes, i do see the difference when u add the volume in
[1/28/2004 8:30:56 PM] [ReidPerkins] u have made a significant point but i still see things that bother me
[1/28/2004 8:31:38 PM] [ReidPerkins] have u ever backtested obv or been made aware of what someone who is backtesting it would look for
[1/28/2004 8:31:57 PM] [Kuf] who me?
[1/28/2004 8:32:13 PM] [ReidPerkins] yes
[1/28/2004 8:32:19 PM] [Kuf] no, I just write the software :)
[1/28/2004 8:32:35 PM] [Kuf] I leave that up to you guys!
[1/28/2004 8:33:35 PM] [ReidPerkins] i see; that sounds like the most consistently profitable place to be when it comes to the market
[1/28/2004 8:33:37 PM] [ReidPerkins] lol
[1/28/2004 8:33:50 PM] [truckstop] Hi all! I'm new to this and just downloaded The Running List of Stock Picks and Targets can someone tell me what the columns s# and FOP mean? Thanks
[1/28/2004 8:34:03 PM] [Kuf] I think Hotto uses obv heavily. The new version

ClubHome

includes obv pcfs and you can do lots of cool sorts with obv

[1/28/2004 8:34:43 PM] [ReidPerkins] i was aware of the hotties use and thats why i came here to ask questions

[1/28/2004 8:34:58 PM] [w2jc] truckstop -- download the Hotto encyclopedia file also... shows all the acronyms etc

[1/28/2004 8:35:08 PM] [Kuf] Hotto is giving a session in his private club right now, you might want to check back later

[1/28/2004 8:36:21 PM] [ReidPerkins] i may do that another day; i would like to thank you for taking the time to help with my concerns

[1/28/2004 8:36:59 PM] [InanOut] Kuf, first time for me.. how do I access the private club... just like any other?

[1/28/2004 8:37:40 PM] [Kuf] His private club is a pay to play thing. Click your clubs button - select hotto on the left - discussions - find the one on hottoworks

[1/28/2004 8:37:50 PM] [Kuf] this is his "free

[1/28/2004 8:37:54 PM] [Kuf] "free" club

[1/28/2004 8:38:57 PM] [InanOut] yes got that, and I am a subscriber, just haven't been around lately and didn't know about joining it

[1/28/2004 8:39:02 PM] [root] hhi Kuf--can you tell me how soon after the market closes does TC N update the indexes, the MG's etc.

[1/28/2004 8:39:26 PM] [Kuf] usually by 4:15-4:20

[1/28/2004 8:39:37 PM] [Kuf] InanOut, I don't know then you'll have to ask hotto

[1/28/2004 8:39:44 PM] [root] thanks

[1/28/2004 8:39:49 PM] [InanOut] thanks

[1/28/2004 8:40:55 PM] [MarcoPolo] Kuf The Mouse wheel thing is very handy..

[1/28/2004 8:41:18 PM] [Kuf] yes I agree. Ctl mouse on the chart scrolls back, while just mouse does timeframe

[1/28/2004 8:41:48 PM] [MarcoPolo] add the shift to speed things up

[1/28/2004 8:42:34 PM] [imjim] Inanout - If u are a subscriber go to thw web site select your profile and get the password then join hottoworks.

[1/28/2004 8:45:13 PM] [truckstop] Kuf Thanks for the info. I have a limited time each evening to get on line. Any thoughts on how to best utilize it in Clubs?

[1/28/2004 8:46:12 PM] [Kuf] Well, it woudl depend on the club, some clubs chat a lot, others post notes and discussions. Sorting by charts with notes, note dates can give you the notes from your clubs

[1/28/2004 8:46:30 PM] [Kuf] You can review the chat logs by clicking - Clubs - Clubname - Chat - View Log

[1/28/2004 8:47:11 PM] [Cag] kuf, one last quick question. How do I activate mouse wheel for time frames? Currently scrolls watchlist. thx

ClubHome

[1/28/2004 8:47:31 PM] [Kuf] just put your mouse over the cahrt, whatever your mouse is over will scroll
[1/28/2004 8:47:42 PM] [Kuf] so over the notes, and notes scroll, over chat and chat scrolls, over charts, charts scroll
[1/28/2004 8:48:11 PM] [Cag] hmmm, not working on mine.
[1/28/2004 8:48:12 PM] [truckstop] thx Kuf
[1/28/2004 8:48:29 PM] [Kuf] click on the chart, see if that does it
[1/28/2004 8:48:51 PM] [Cag] nope, single and double clicked it
[1/28/2004 8:49:02 PM] [Kuf] hmhhh
[1/28/2004 8:49:24 PM] [Kuf] brb
[1/28/2004 8:49:26 PM] [MarcoPolo] cag push down on the button while you turn it?
[1/28/2004 8:50:21 PM] [Kuf] cag it's not changing timeframes when you scroll?
[1/28/2004 8:50:58 PM] [Cag] nope, still changing watchlist scroll
[1/28/2004 8:51:12 PM] [Kuf] how about over chat or notes?
[1/28/2004 8:51:53 PM] [Cag] stuck on watchlist scroll
[1/28/2004 8:52:17 PM] [Kuf] hmmm, do you have a custom mouse driver, or is your scrolling set to something different than default?
[1/28/2004 8:52:41 PM] [Cag] standard new DELL system
[1/28/2004 8:53:24 PM] [Kuf] hm, sorry cag, you'll have to have support work it out, not sure where to go from here
[1/28/2004 8:53:36 PM] [Cag] I will shut down and reboot program, I have not tried that yet since install. Thx Kuf
[1/28/2004 10:30:18 PM] [Lindahg] Anyone ever had the clubs icon disapear? Mine is gone.
