[12/15/2003 8:07:46 PM] [gary12] Hi

[12/15/2003 8:07:47 PM] [AllWeOwn] hello

[12/15/2003 8:07:52 PM] [Stixman] hi hot one.

[12/15/2003 8:07:55 PM] [HOTTO] This channel is now a moderated auditorium.  
Chat will be queued for channel moderators.

[12/15/2003 8:08:56 PM] [hotto] We got some of what we looked for today... a Gap up.... then Volatility..

[12/15/2003 8:09:27 PM] [hotto] Closed weaker than I expected...

[12/15/2003 8:09:56 PM] [hotto] We make our guesses..

[12/15/2003 8:10:23 PM] [hotto] but.. Always keep taking some profits on opportunities.. like gap up opens..

[12/15/2003 8:11:09 PM] [hotto] Then... have some profits to keep us warm... if it goes more neg. than we expected..

[12/15/2003 8:12:01 PM] [hotto] Someone asked me.. what I meant by sell off your weakest stocks first.. this morning.. into the gap..

[12/15/2003 8:13:00 PM] [hotto] I had some stocks that advanced Friday.. on weaker volume..

[12/15/2003 8:13:33 PM] [hotto] Those would be vulnerable today.. and should be cut back.. or sold out.. into the early gap-up

[12/15/2003 8:14:04 PM] [hotto] PDII and ERTS were 2 of those stocks..

[12/15/2003 8:14:55 PM] [hotto] Of course.. as the day unfolded.. it was clear.. best to have sold out almost immediately..

[12/15/2003 8:15:43 PM] [hotto] I could not run my Scans tonight.. so just looking at today's charts.. without PCFs..

## ClubHome

[12/15/2003 8:16:31 PM] [hotto] NHB opened up a bit.. then pushed higher...Then... rolled over.. and closed bleow Friday's LOD..  
[12/15/2003 8:16:42 PM] [hotto] but.. held at sma20..  
[12/15/2003 8:17:20 PM] [hotto] mace wrote : on gaps up seems like HOD is usually PM , so sell and wait for PB and buy on next BO of HOD?  
[12/15/2003 8:18:04 PM] [hotto] that is one strategy.. Just be sure.. to sell something.. into the Gap-up opens... OR Pre-Mkt.. as you suggest..  
[12/15/2003 8:19:29 PM] [hotto] I am rarely "sure" of what will happen.. after the early pop... so.. always best.. to sell something.. Weakest stocks.. ( coming in).. first..  
[12/15/2003 8:19:42 PM] [hotto] .

[12/15/2003 8:20:40 PM] [hotto] 8am ET.. for Etrade Pro..  
[12/15/2003 8:21:15 PM] [hotto] DJ-30 NH52 early today.. pushed over Upr BB....  
[12/15/2003 8:22:02 PM] [hotto] HOD = 10139.63 just 15 points over our FOP = 10124.. not bad..  
[12/15/2003 8:22:50 PM] [hotto] DJ-30.. went red.. late in the day... a relief.. I was worried we were going to have a Neg. Breadth Divergence..  
[12/15/2003 8:23:09 PM] [hotto] Avoided that..  
[12/15/2003 8:24:03 PM] [hotto] sometimes it is good for DJIA to close lower.. In this case... NHB and Breadth had already gone negative... so.. good to avoid a clear neg. divergence..  
[12/15/2003 8:25:17 PM] [hotto] DJIA.. LOD held above Friday's Open.. so.. similar to last Tuesday.. when we ran up to tag Upr BB.. then closed lower..  
[12/15/2003 8:26:19 PM] [hotto] then.. last Wed.. opened about unch.. and dipped... to LR30 .. making our Swing Low.. before this push over 10,000  
[12/15/2003 8:26:59 PM] [hotto] Today was the first Down day.. where the DJIA was able to hold over 10k... for whatever that is worth...)  
[12/15/2003 8:27:18 PM] [hotto] .  
[12/15/2003 8:28:02 PM] [hotto] Volume was up today.. a lot in the early going.. big buying.. AND heavy selling into that buying..  
[12/15/2003 8:28:08 PM] [hotto] .  
[12/15/2003 8:28:43 PM] [hotto] DIA.. similar to DJIA... also big volume  
[12/15/2003 8:30:27 PM] [hotto] DJ-20.. Transports.. finally retested the Highs.. peeked over.. closed lower.. but.. did not take out Friday's LOD... avoided a neg KR..  
[12/15/2003 8:31:50 PM] [hotto] so.. now we have a new argument.. about whether

the DJ-20 confirmed the DJIA NH52.. by an Intraday move.. OR.. did the lower close.. make it a failure..?

[12/15/2003 8:32:10 PM] [hotto] I have heard both sides.. I am just happy to have the argument.

[12/15/2003 8:32:20 PM] [hotto] .

[12/15/2003 8:33:53 PM] [hotto] SP-500 similar to DJIA.. NH52 Intraday .. did not quite tag Upr BB..

[12/15/2003 8:34:31 PM] [hotto] Still showing that neg OBV divergence early Dec.. vs early Nov..

[12/15/2003 8:35:01 PM] [hotto] SP-500 held Friday's LOD.. and over LR30 and sma10

[12/15/2003 8:35:22 PM] [hotto] .

[12/15/2003 8:36:33 PM] [hotto] SPY.. gapped up ...tagged Upr..BB.. closed lower.. just over LR30

[12/15/2003 8:38:08 PM] [hotto] Remember.. our BB discussions.. I note which things tagged or exceeded BBs.. to show.. How Overbot or Oversold they were able to get.. an indication of Strength..

[12/15/2003 8:38:16 PM] [hotto] or weakness

[12/15/2003 8:38:35 PM] [hotto] .

[12/15/2003 8:40:09 PM] [hotto] COMPQX.. gapped up.. over sma10.. then.. closed belw sma10 and 20 and 50.. and below Friday's LOD.. weaker than the others..

[12/15/2003 8:41:12 PM] [hotto] the neg OBV divergence.. between early Dec.. vs early Nov.. shows up..

reversal. Shouldn't we be concerned??

[12/15/2003 10:48:44 PM] [Investortrader] That is true on all timeframes, not just 5's

[12/15/2003 10:48:58 PM] [Investortrader] I'll get to that in a minute Stixman

[12/15/2003 10:49:38 PM] [Investortrader] It was when I saw the pinchehd bands, I thought if it breaks to the downside I may get that lower price to buy, so that is when I put in my order to buy at 10.16

[12/15/2003 10:50:02 PM] [Investortrader] Using what I thought might be good support from the late yesterday early today breakout

[12/15/2003 10:50:18 PM] [Investortrader] Underwater in it now, oh well ... it doesn't always work out perfect :)

[12/15/2003 10:50:42 PM] [Investortrader] But the last 5' bar on it looks like a bottoming bar, we'll see what tomorrow brings

[12/15/2003 10:50:57 PM] [Investortrader] Back to MNDO for a minute

[12/15/2003 10:51:19 PM] [Stixman] Is it a buy now? Looks like a morning star formation. IT ...do you want questions or do you prefer we wait 'til youre done?

[12/15/2003 10:51:45 PM] [Investortrader] Questions are good! :) Just wanted to cover the last 5' bar in MNDO for anaiz :)

[12/15/2003 10:51:47 PM] [Stixman] Question on WITS...sorry.

[12/15/2003 10:52:23 PM] [Investortrader] The last 5' bar looks like a good one, lots of volume but it only retraced maybe 1/2 the prior 5' bar, so there was ample buying support there

[12/15/2003 10:52:30 PM] [Investortrader] In MNDO

[12/15/2003 10:52:46 PM] [Investortrader] And it didn't close at the bottom of that bar

[12/15/2003 10:52:51 PM] [Investortrader] As for WITS ...

[12/15/2003 10:53:02 PM] [Investortrader] I recall Hotto adding to it at teh close at 9.91

[12/15/2003 10:53:46 PM] [Investortrader] I'm not sure of all the names for the candles, but that does look like a bottom formation bar

[12/15/2003 10:53:59 PM] [Investortrader] on the 5's in WITS, the last bar

[12/15/2003 10:54:22 PM] [Investortrader] I may add on the open tomorrow if it doesn't pop too much

[12/15/2003 10:54:29 PM] [Stixman] is Dow showing a "key reversal?"

[12/15/2003 10:54:53 PM] [Investortrader] Let's take a look Stixman :) Remember however this was a big news event day

[12/15/2003 10:55:46 PM] [Investortrader] So the daily bar has to be discounted somewhat .. also economic news coming out tomorrow morning Hotto mentioned, so that could turn it around again

[12/15/2003 10:56:43 PM] [Stixman] OBV also down

## ClubHome

[12/15/2003 10:56:52 PM] [Investortrader] I look at a key reversal day as being one where it opens higher, goes up over the previous hod, then reverses down to close below the lod of the prior day

[12/15/2003 10:57:12 PM] [Investortrader] Or reverse for going down then up

[12/15/2003 10:57:22 PM] [Investortrader] So technically this does not qualify as a "key reversal day"

[12/15/2003 10:57:31 PM] [Stixman] ok thx

[12/15/2003 10:57:33 PM] [Investortrader] However, it does qualify as a type of reversal day

[12/15/2003 10:57:46 PM] [Investortrader] If it wasn't for the sell the news event I would be more worried

[12/15/2003 10:58:18 PM] [Investortrader] It still might go down to test some support ... I don't worry as much about the indexes as I don't trade them, only stocks

[12/15/2003 10:58:49 PM] [Investortrader] And we've seen before how on some down days we can make money being long stocks with good charts

[12/15/2003 10:59:14 PM] [tiga] .

[12/15/2003 10:59:50 PM] [Investortrader] Those were my only trades today, I didn't announce my XOM call sale as I wasn't here to announce the buy ... no real point I thought

[12/15/2003 11:00:36 PM] [Investortrader] I'm ready for any chart requests if anyone has them .. or any other questions :)

[12/15/2003 11:01:08 PM] [anaiz] thank you invvestortrade;)

[12/15/2003 11:01:23 PM] [Investortrader] I said in Sunday I would probably be mostly watching today, and that's how it ended up

[12/15/2003 11:01:23 PM] [america] investortrader, do you trade chart patterns? and if so, which ones, and how did you learn?

[12/15/2003 11:01:32 PM] [Investortrader] Welcome anaiz :)

[12/15/2003 11:01:47 PM] [Investortrader] Yes america, I trade price/volume patterns .. not just price patterns

[12/15/2003 11:02:02 PM] [Investortrader] volume HAS to confirm price or it isn't a valid pattern

[12/15/2003 11:02:45 PM] [Aktony] Investortrader, would you take a look at LAB. Thanks.

[12/15/2003 11:02:48 PM] [tiga] TASR still waiting for this to fully roll over. Gotta be some longs ready to sell this and get the ball rolling. Sweet today but I covered near the close.

[12/15/2003 11:03:01 PM] [Investortrader] I trade all kinds of patterns, dbl tops and bottoms, triangles, wedges, cup and handle breakouts, line breakouts which is when

a stock has traded flat for awhile and the Bollinger Bands get pinched in, then it breaks out

[12/15/2003 11:03:27 PM] [Investortrader] you name it I'll trade it! If it has a good probability :)

[12/15/2003 11:04:01 PM] [Investortrader] I learned from some of the books I put in my profile, and by watching FNN for years, and experience looking at charts

[12/15/2003 11:04:21 PM] [Investortrader] FNN was so much better at teaching stuff like that than CNBC is now

[12/15/2003 11:04:32 PM] [Investortrader] CNBC hardly does at all

[12/15/2003 11:04:54 PM] [Investortrader] I also look at 50-100 charts every day

[12/15/2003 11:05:06 PM] [Investortrader] some days more

[12/15/2003 11:05:14 PM] [anaiz] me too

[12/15/2003 11:05:32 PM] [Intuitive] Investor, is TSP your kind of chart

[12/15/2003 11:05:34 PM] [Stixman] Only thing I like about CNBC is Maria B.

[12/15/2003 11:05:41 PM] [Investortrader] A good way to learn is to look for stocks that have moved up (or down), and look to see if you can relate the pattern in it before the move

[12/15/2003 11:05:50 PM] [Investortrader] TSP ...

[12/15/2003 11:06:11 PM] [Intuitive] TSP - yes

[12/15/2003 11:06:23 PM] [anaiz] beautiful

[12/15/2003 11:06:55 PM] [Investortrader] Looks very nice, been steadily rising in waves, while OBV has continued higher

[12/15/2003 11:07:16 PM] [Investortrader] I usually have about 5 months of data for my daily chart, to see the longer term

[12/15/2003 11:07:25 PM] [Intuitive] Would you for entry on 5' chart

[12/15/2003 11:07:32 PM] [Intuitive] look

[12/15/2003 11:07:56 PM] [Investortrader] It's got a series of higher highs and higher lows, always nice

[12/15/2003 11:08:14 PM] [Investortrader] Ok, we'll look at the 5's

[12/15/2003 11:08:24 PM] [Robroy] Invertor please look at OSUR ..OBV is quite divergent from the Septhighs

[12/15/2003 11:08:24 PM] [anaiz] bb's are very interesting in the 5' chart

[12/15/2003 11:08:35 PM] [Investortrader] Oh, one thing first, let me go back to the daily

[12/15/2003 11:09:22 PM] [Investortrader] When I looked at the 5's I noticed it looked like it doesn't have much volume, going back to the daily most days are extremely low volume

[12/15/2003 11:09:37 PM] [Investortrader] some under 10,000 shares

## ClubHome

[12/15/2003 11:09:56 PM] [Investortrader] I don't trade anything that doesn't trade at least 100,000 shares average a day

[12/15/2003 11:10:11 PM] [Intuitive] Yes - today vol +1297%

[12/15/2003 11:10:14 PM] [Investortrader] Technical Analysis needs volume for it to work

[12/15/2003 11:10:18 PM] [america] investortrader, thanks much. going to sleep now. c u tomorrow. gn all.

[12/15/2003 11:10:25 PM] [Investortrader] Night america, sleep well :)

[12/15/2003 11:10:53 PM] [Investortrader] There are plenty of stocks with volume, for myself I won't trade this one

[12/15/2003 11:11:25 PM] [Investortrader] If the volume continues, then maybe I would, after showing a nice base and continued volume, but if not I won't

[12/15/2003 11:11:55 PM] [Investortrader] Even just a 1000 share trade would be over 10% of the daily volume on some days

[12/15/2003 11:12:38 PM] [Investortrader] Can't really help on this one as I don't feel comfortable making technical analysis comments on such low volume stocks

[12/15/2003 11:12:49 PM] [Intuitive] SBL aint bad

[12/15/2003 11:13:02 PM] [Investortrader] Plus, looks like it's an adr, I stick to american companies, plenty of them to trade :)

[12/15/2003 11:13:21 PM] [Investortrader] SBL ...

[12/15/2003 11:13:30 PM] [Investortrader] Plenty of volume on this one!

[12/15/2003 11:14:17 PM] [anaiz] do you look at TSV?

[12/15/2003 11:14:21 PM] [Investortrader] However, that second gap up beginning of Dec, the OBV didn't confirm the new price high

[12/15/2003 11:14:35 PM] [Investortrader] No anaiz, I never look at TSV, not even a glance

[12/15/2003 11:14:55 PM] [Investortrader] Now the recnet price runup the OBV did pick-up

[12/15/2003 11:14:58 PM] [Investortrader] recent

[12/15/2003 11:15:13 PM] [anaiz] do you look at MS?

[12/15/2003 11:15:24 PM] [Intuitive] MS strong

[12/15/2003 11:15:42 PM] [anaiz] it's kissing OBV

[12/15/2003 11:15:45 PM] [AllWeOwn] why do you disregard TSV

[12/15/2003 11:15:46 PM] [Investortrader] But with two gaps up already, and today's gap, I may be a bit leery .. a stock can only gap so many times before it runs out of steam

[12/15/2003 11:16:07 PM] [Investortrader] AllWeOwn, there are so many indicators, I can't use them all :)

## ClubHome

[12/15/2003 11:16:39 PM] [Intuitive] gn abe  
[12/15/2003 11:16:39 PM] [AllWeOwn] ok, so no significant aversion to it?  
[12/15/2003 11:16:41 PM] [anaiz] and i guess the eyes get used to a couple of indicators, mainly  
[12/15/2003 11:16:48 PM] [Investortrader] I do sometimes glance at MS, but I much prefer OBV as MS isn't a true cumulative indicator  
[12/15/2003 11:17:04 PM] [anaiz] i use them together  
[12/15/2003 11:17:05 PM] [Investortrader] No aversion to it, just not part of my set of indicators I use  
[12/15/2003 11:17:11 PM] [AllWeOwn] tx  
[12/15/2003 11:17:14 PM] [Robroy] OSUR please ...Divergent OBV  
[12/15/2003 11:17:28 PM] [Investortrader] I learned to trade before getting TC, so didn't have access to either TSV or MS  
[12/15/2003 11:18:05 PM] [Investortrader] But I do suggest a newer trader learn ALL the indicators, so they can pick which ones work best for them, then junk the rest and keep the few best that work for \*you\*  
[12/15/2003 11:18:18 PM] [Investortrader] OSUR ...  
[12/15/2003 11:18:30 PM] [anaiz] do you use MACD?  
[12/15/2003 11:19:05 PM] [Investortrader] First, SBL, I'm going to pass because of the 2 gaps already and this being the 3rd gap, which could be an exhaustion gap, might not be but I'm a bit leery and plenty of other stocks to trade  
[12/15/2003 11:19:20 PM] [Investortrader] I do look at MACD Histogram  
[12/15/2003 11:19:32 PM] [Investortrader] It's a secondary indicator for me, as is RSI  
[12/15/2003 11:20:13 PM] [Investortrader] It won't keep me out of a trade, but it might show me how much strength there is in the upcoming move, like if it's just turning up from a low point  
[12/15/2003 11:20:46 PM] [Investortrader] Ok, on to OSUR  
[12/15/2003 11:21:18 PM] [Intuitive] HAS - a pop over lg30 could be fun  
[12/15/2003 11:21:24 PM] [Investortrader] This one looks to be basing here, maybe setting up a reverse head and shoulders (another pattern I like to trade)  
[12/15/2003 11:22:26 PM] [Investortrader] I would use a few cents under the 11/21 lod as a stop loss point  
[12/15/2003 11:23:18 PM] [Investortrader] And I would wait for it to turn back up at least some before buying  
[12/15/2003 11:23:33 PM] [Investortrader] Sold off end of day today  
[12/15/2003 11:24:08 PM] [Investortrader] And it might just drop down below the stop loss point so by waiting for it to turn up you don't get a quick loss

[12/15/2003 11:25:23 PM] [Investortrader] Yes Stixman, it's my main template, my KISS, keep it simple somehow template  
[12/15/2003 11:25:52 PM] [Investortrader] Looking at the 5's you'll see around 8.20 or so was support later in the day till it broke down to new lows  
[12/15/2003 11:25:54 PM] [anaiz] which template  
[12/15/2003 11:26:00 PM] [Stixman] i like it's simplicity.

[12/15/2003 11:26:43 PM] [Investortrader] I would wait to buy it till it broke back up thru that 8.20 area by a few cents or a nickle

[12/15/2003 11:35:01 PM] [DaveG] Investor, which BB s do you use?

[12/15/2003 11:35:39 PM] [Investortrader] I don't have experience on such a low priced stock, afraid I have to pass on that too ...

[12/15/2003 11:36:03 PM] [Investortrader] DaveG, I use the standard settings on it, 20 day with 2 standard deviations

[12/15/2003 11:36:09 PM] [Stixman] What price range do you use??

[12/15/2003 11:36:15 PM] [Investortrader] So it's 20,20 in TCNet

[12/15/2003 11:37:16 PM] [Investortrader] Stixman, I used to not touch anything below \$5, but one of the wordens recently made a good comment on how the bear market knocked a lot of good stocks down way too far, and those that are still around will most likely survive as those that won't have probably already gone bankrupt, so I lowered that price to \$3

[12/15/2003 11:37:49 PM] [Investortrader] His comment made sense to me which is why I lowered that price from \$5 to \$3

[12/15/2003 11:38:21 PM] [Investortrader] However, I may dabble some in ADCT since Hotto likes it so much, it's not too far under \$3

[12/15/2003 11:38:36 PM] [Stixman] So \$3 to ?? Do you have an upper limit??

[12/15/2003 11:38:53 PM] [Investortrader] I do have an upper limit, I won't buy berkshire hathaway! ;)

[12/15/2003 11:38:54 PM] [Intuitive] IT - SEPR

those tops pretty nicely

[12/15/2003 11:41:19 PM] [Investortrader] And OBV keeps making new lows as the price makes new lows, confirming the downtrend

[12/15/2003 11:41:22 PM] [Stixman] OBV heading up

[12/15/2003 11:41:42 PM] [Investortrader] OBV made a lower low while the price didn't recently, never a good sign

[12/15/2003 11:42:01 PM] [Investortrader] That shows the sellers are still in charge usually

[12/15/2003 11:42:26 PM] [Intuitive] SEPR - up today...wonder why?

[12/15/2003 11:42:29 PM] [Investortrader] And the last 3 up days aren't on as much volume as those two down days just before it

[12/15/2003 11:43:11 PM] [Investortrader] Could be profit taking from the shorts as to why it was up

[12/15/2003 11:43:47 PM] [Investortrader] One comment on the general market and stocks for todays action

[12/15/2003 11:44:02 PM] [Investortrader] A lot of people probably got trapped on the gap open

[12/15/2003 11:44:16 PM] [Investortrader] Someone had to be buying all those shares everyone else was selling

[12/15/2003 11:44:37 PM] [Investortrader] So it might be a bit rough for too much upside (depending on the economic news of course)

[12/15/2003 11:44:43 PM] [Investortrader] In the next day or two

[12/15/2003 11:44:58 PM] [Investortrader] Many will sell and just be glad to get back even after buying this morning

[12/15/2003 11:45:06 PM] [Investortrader] As the price rises

[12/15/2003 11:45:20 PM] [Stixman] Because the new buyers are underwater and will sell if it gets back??

[12/15/2003 11:45:23 PM] [Investortrader] So could be some overhead resistance that needs to be met

[12/15/2003 11:45:43 PM] [Investortrader] We've all felt that, buy something and it starts to tank

[12/15/2003 11:45:50 PM] [Investortrader] We see the losses

[12/15/2003 11:45:59 PM] [Investortrader] Then when it gets back to break even, we think .. whew

[12/15/2003 11:46:06 PM] [Investortrader] Many people sell then

[12/15/2003 11:46:26 PM] [Investortrader] I only sell then if the charts say sell, sometimes they do, sometimes they don't

## ClubHome

[12/15/2003 11:46:39 PM] [Investortrader] But we will have to work thru that resistance

[12/15/2003 11:47:17 PM] [Investortrader] some even tell themselves .. I knew I shouldn't have bought, if I can just get my money back I'll be out and happy .. even and leavin'

[12/15/2003 11:49:04 PM] [anaiz] you only sell when the charts say sell

[12/15/2003 11:49:07 PM] [Investortrader] That's one reason stocks making new highs are worth looking at, no overhead resistance from people wanting to get out even

[12/15/2003 11:49:25 PM] [Stixman] Investortrader. Thx for sharing with us. This has been great information tonight. I'm really happy I stuck around.

[12/15/2003 11:49:39 PM] [Investortrader] Pretty much anaiz .. sometimes they will get even or close, and volume starts to come in on the downside, and it's time to sell

[12/15/2003 11:50:08 PM] [Investortrader] Welcome Stixman, I'll try to be here everynight a bit after Hotto, so we all have time to digest what he says first

[12/15/2003 11:50:09 PM] [anaiz] so you use volume as an indication to sell

[12/15/2003 11:50:22 PM] [Investortrader] I use volume for everything, without volume price means nothing

[12/15/2003 11:50:32 PM] [anaiz] that's good for the ones that can only be here at night

[12/15/2003 11:50:38 PM] [FirstWave] without volume ther is no price

[12/15/2003 11:50:42 PM] [Investortrader] If it goes up on weak volume, and I own it, I'll sell

[12/15/2003 11:50:53 PM] [Investortrader] Good point FirstWave :)

[12/15/2003 11:51:24 PM] [anaiz] and if it goes down on strong volume you sell too, right?

[12/15/2003 11:51:25 PM] [Investortrader] If I don't own it and it goes up on weak volume, nearing resistance, I might even short it

[12/15/2003 11:51:59 PM] [Investortrader] Yes anaiz, in general, as I'm not in a downtrending stock so I won't be in on washouts

[12/15/2003 11:52:17 PM] [Investortrader] volume tells you who is in charge, the buyers or the sellers

[12/15/2003 11:52:29 PM] [Investortrader] you want to be in charge!

[12/15/2003 11:52:38 PM] [Investortrader] Or at least on the same side as those who are in charge

[12/15/2003 11:52:44 PM] [anaiz] do you use ma crossovers as signs to sell?

[12/15/2003 11:53:34 PM] [Investortrader] I don't use mvg avgs very much in my work at all, you'll notice only two of them on my KISS template, the 20sma for the middle

## ClubHome

Bollinger Band, and the 50sma because so many traders and investors and mutual funds use the 50sma

[12/15/2003 11:54:00 PM] [Investortrader] And no, I don't use crossovers at all

[12/15/2003 11:54:09 PM] [quadrahaus] Question: Today, during trading there was reference to a website that provides Elliot Wave analysis. Can any one help me find that website URL? Thanks in advance!

[12/15/2003 11:54:17 PM] [Investortrader] I use those two as possible support or resistance areas

[12/15/2003 11:54:38 PM] [Investortrader] quadra, if they had www in it, you can search todays log for www

[12/15/2003 11:55:06 PM] [Investortrader] Personally, I'm not a big fan of EW theory, though I know many are

[12/15/2003 11:55:51 PM] [Investortrader] Or maybe search for .com

[12/15/2003 11:55:55 PM] [TrillionDolarMan] What's WRONG with EW Theory? I mean Prechter called the top using it....DOW6000 it was, back in '96, no?

[12/15/2003 11:56:19 PM] [Investortrader] Prechter called for Dow 41 after the crash of '87 too

[12/15/2003 11:56:25 PM] [Investortrader] Yes, 41!

[12/15/2003 11:58:06 PM] [Investortrader] I've got a few reasons I don't like it, msg if interested, don't want to bash things ...

[12/15/2003 11:58:12 PM] [Investortrader] In public

[12/15/2003 11:59:04 PM] [Investortrader] The general 5 wave up 3 wave down is ok, but I can use other methods to get there ...

[12/15/2003 11:59:25 PM] [Investortrader] So I don't use it at all

[12/15/2003 11:59:33 PM] [TrillionDolarMan] I took public bashing in college, actually. Personally I think EW is great, excpet that it doesn't make you much of a profit, and THE MOST INNACURATE CALLS I've seen were EW based. That said, I have DT4, and put little numbers from 1 to 5, ABC on many/most/all of my charts.

[12/15/2003 11:59:50 PM] [Investortrader] Hehehe Trillion!

[12/16/2003 12:00:14 AM] [TrillionDolarMan] TOP PICKER'S ANONYMOUS has a special chapter called "5 of 5 of 5".....
