[2/16/2004 5:54:15 PM] [Bobtrader] must have some old ones  
[2/16/2004 6:46:46 PM] [MaryHelen] Bob, a couple days ago I was asking the same question pertaining to # of symbols should be on the hard drive? Sister Practical said the # should be @7167. She said ,if we see 10000+ symbols being downloaded and then only end up with @7167 it is because Worden has taken some symbols out either from buyouts, delistings or others. But we will end up with @7167 active symbols today. Hope this helps and hope I stated this clearly enough. Good Luck...
