[12/17/2003 8:23:41 AM] [jbrad] [briefing.com] 08:19 APA downgraded at RW Baird (77.80) RW Baird downgrades Apache to Neutral from Outperform based on valuation, but raises their target to \$80 from \$78; in addition, firm believes that inflated natural gas prices (trading in the \$6.50-\$7.00/Mcf range) should consolidate below \$5.00/Mcf by mid-Q1, which could weigh on APA's stock performance.

[12/17/2003 8:34:59 AM] [jbrad] [briefing.com] 08:29 Gold Oil and Dollar Summary
The Dollar is little changed above its lows against the Euro (1.2335) and Yen (107.61) this morning. A resurfacing of the SARS virus among a military lab researcher in Taiwan is taking its toll as worries of another outbreak may occur...Oil is relatively flat at 32.89 ahead of today's US DOJ inventory report. Majority of analysts expect supplies to show a decrease as colder temperatures swept across the US this week...Gold is slightly lower near \$407.70 an ounce.
[12/17/2003 8:35:12 AM] [Jabez] I believe those would be updated 15 minutes after open (but not certain)
[12/17/2003 8:35:21 AM] [Jabez] Perhaps just before open
[12/17/2003 8:35:37 AM] [jbrad] [briefing.com] 08:30 S&P futures vs fair value: -0.1. Nasdaq futures vs fair value: -1.0. The futures market is off its morning lows and points to a relatively flat to slightly lower open for the cash market. There are no economic reports today, but better than expected earnings from the brokerage sector (BSC, LEH) are aiding in the improving sentiment.
[12/17/2003 8:35:40 AM] [Brooks5] That helps a lot after the market open...lol
