[3/2/2004 5:32:49 PM] [lavenderangel] Finally, Jimmy stood up, looked around vously, and said, "The body part that increases to 10 times its size when stimulated is the pupil of the eye." Mrs. Parks said, "Very good, Jimmy." Then turned to Molly and continued, "As for you, young lady, I have three things to say: First, you have a dirty mind. Second, you didn't read your homework. And third, one day you are going to be VERY, VERY disappointed."

[3/2/2004 5:35:32 PM] [lavenderangel] Sitting behind a couple of nuns at a baseball game (with their habits partially blocking the view), three men decided to badger the nuns in an effort to get them to move. In a very loud voice, the first guy said, "I think I'm going to move to Utah; there are only 100 nuns living there." The second guy spoke up and said, "I want to go to Montana; there are only 50 nuns living there." The third guy said, "I want to go to Idaho; there are only 25 nuns living there." One of the nuns turned around, looked at the men, and in a very sweet calm voice said, "Why don't you go to Hell?..... there aren't any nuns living there."

[3/2/2004 5:38:48 PM] [lavenderangel] that appears to be a take off from a proverb, I believe ;)

[3/2/2004 5:39:03 PM] [lavenderangel] here's my last one for today:

[3/2/2004 5:39:06 PM] [lavenderangel] A Doctor was addressing a large audience in Miami, Florida. "The material we put into our stomachs is enough to have killed most of us sitting here. Red meat is awful. Soft drinks corrode your stomach lining. Chinese food is loaded with MSG. High fat diets can be disastrous, and none of us realizes the long-term harm caused by the germs in our drinking water. "But there is one thing that is the most dangerous of all, and we all have, or will, eat it. Would anyone care to guess what food causes the most grief and suffering for years after eating it?" After several seconds of silence, a frail 75-year-old man in the front row, raised his hand and said, "Wedding Cake?"

[3/2/2004 5:39:38 PM] [AllWeOwn] :D thanks angel

[3/2/2004 8:15:12 PM] [Investortrader] First chart I would like to quickly go over is FNSR since I know there is lots of interest in it

[3/2/2004 8:15:34 PM] [Investortrader] This one I also covered a bit last Fri

[3/2/2004 8:16:36 PM] [Investortrader] Tomorrow will be a big day as big news came out AH today

[3/2/2004 8:16:48 PM] [Investortrader] And it traded down a few cents

[3/2/2004 8:17:10 PM] [Investortrader] Looks to me like the recent low is going to be tested as the news didn't lift the price

[3/2/2004 8:17:35 PM] [Investortrader] Especially looking at how it ran right up to the 20sma and failed

[3/2/2004 8:17:58 PM] [Investortrader] The lower BB is also right around those recent lows

[3/2/2004 8:18:20 PM] [Investortrader] I'll be watching how it reacts there if it makes it, to see if I want to buy it then

[3/2/2004 8:19:10 PM] [Investortrader] I've been out on this one since late Jan when it broke down under the 20sma where it had good support

[3/2/2004 8:19:37 PM] [Investortrader] Any questions on FNSR?

[3/2/2004 8:20:19 PM] [Investortrader] On to VISG ...

[3/2/2004 8:20:20 PM] [cobralso] That would be an LBBCBS

[3/2/2004 8:20:53 PM] [Investortrader] It could be cobralso

[3/2/2004 8:20:58 PM] [Investortrader] On FNSR

[3/2/2004 8:21:08 PM] [cobralso] yes

[3/2/2004 8:21:16 PM] [Investortrader] That's what I'll be watching for :)

[3/2/2004 8:21:31 PM] [cobralso] Cool TY

[3/2/2004 8:22:51 PM] [Investortrader] On VISG, it's been on a very good run here

## ClubHome

[3/2/2004 8:23:16 PM] [Investortrader] It's had a hard time keeping above the upper BB pretty much the whole run

[3/2/2004 8:23:42 PM] [Investortrader] Some stocks can ride above it for awhile, some it always knocks back ... always look back in the trend to see

[3/2/2004 8:24:18 PM] [Investortrader] This one only on the first run in early Jan could it stay above it for any amount of time

[3/2/2004 8:24:49 PM] [Investortrader] Then recently it ran way up, good volume, but bad history as far as the upper BB is concerned

[3/2/2004 8:25:31 PM] [Investortrader] A signal to watch and get on any weakness

[3/2/2004 8:25:40 PM] [Investortrader] Now it's trying to consolidate around the LR30

[3/2/2004 8:26:51 PM] [Investortrader] And by losing contact with the upper BB, it needs to push back up to it soon or a test of the 20sma usually happens

[3/2/2004 8:27:24 PM] [Investortrader] That needs to happen tomorrow or next day at the latest

[3/2/2004 8:27:37 PM] [Investortrader] To me it doesn't look like it will at this point

[3/2/2004 8:27:54 PM] [Investortrader] Doesn't look like it will rally back

[3/2/2004 8:28:22 PM] [Investortrader] Notice the 20sma is also right around the recent breakout area

[3/2/2004 8:28:53 PM] [Investortrader] Which makes the support stronger should it get down there

[3/2/2004 8:29:09 PM] [Investortrader] Any questions on VISG?

[3/2/2004 8:30:13 PM] [Investortrader] Any other stocks anyone would like to cover?

[3/2/2004 8:30:13 PM] [tickpick] IT how did you find VISG

[3/2/2004 8:30:45 PM] [Investortrader] VISG was a request via PM earlier

[3/2/2004 8:30:55 PM] [Investortrader] Before tonight

[3/2/2004 8:31:09 PM] [rsi77] IT, how about ACTT?

[3/2/2004 8:31:10 PM] [tickpick] ok thanx

[3/2/2004 8:31:27 PM] [ces] AMAT if you have time

[3/2/2004 8:31:29 PM] [Investortrader] Welcome :) you can always pm me during the day with a request for the next class too

[3/2/2004 8:31:35 PM] [Investortrader] ACTT ...

[3/2/2004 8:32:56 PM] [Investortrader] This one had important news when it made it's private placement

[3/2/2004 8:33:19 PM] [Investortrader] That was on 2/24 at a price of 2.20 ... notice that's also the low of the day

[3/2/2004 8:33:32 PM] [Investortrader] Private placements put stock in strong hands

[3/2/2004 8:33:46 PM] [Investortrader] And usually the price is a good floor for awhile

[3/2/2004 8:34:23 PM] [Investortrader] From that day it turned up making a rounded

bottom

[3/2/2004 8:34:48 PM] [Investortrader] With OBV staying ok during all of the Feb consolidation

[3/2/2004 8:35:03 PM] [Investortrader] Then came a nice pop on very good volume

[3/2/2004 8:35:15 PM] [Investortrader] Here we are just consolidating those gains I believe

[3/2/2004 8:35:41 PM] [Investortrader] Nice lower volume rest day today from the last two days

[3/2/2004 8:36:35 PM] [Investortrader] I like this ones chart

[3/2/2004 8:37:07 PM] [Investortrader] I don't think the 20sma needs to be tested again here

[3/2/2004 8:37:56 PM] [Investortrader] Any questions on ACTT?

[3/2/2004 8:38:43 PM] [rsi77] Thanks, You think it could pop again soon, or will consolidate a while?

[3/2/2004 8:39:08 PM] [cobralso] You think it's gona go up right?

[3/2/2004 8:39:18 PM] [Investortrader] It could ride the upper BB for awhile here, it's had a pretty good base in Feb

[3/2/2004 8:39:44 PM] [rsi77] Thanks IT

[3/2/2004 8:39:55 PM] [Investortrader] Might need one more rest day, but I don't expect another long consolidation

[3/2/2004 8:40:04 PM] [Investortrader] Welcome rsi :)

[3/2/2004 8:40:21 PM] [StockStalker] look like SKIL 3 days ago... usually thye way they work out.. a 3 to 4 bar pattern

[3/2/2004 8:40:23 PM] [cobralso] TY

[3/2/2004 8:40:53 PM] [Investortrader] Exactly SS!

[3/2/2004 8:41:04 PM] [Investortrader] Welcome cobralso :)

[3/2/2004 8:41:15 PM] [Investortrader] On to AMAT ...

[3/2/2004 8:41:52 PM] [George50] Please tell me what numbers you use for BB bands

[3/2/2004 8:42:11 PM] [Investortrader] I use the standard 20,20 George

[3/2/2004 8:42:22 PM] [George50] thks

[3/2/2004 8:42:23 PM] [Investortrader] 20sma and 2 std dev

[3/2/2004 8:42:29 PM] [Investortrader] Welcome :)

[3/2/2004 8:42:36 PM] [cobralso] How about APCC

[3/2/2004 8:42:54 PM] [Investortrader] AMAT doesn't look so good here

[3/2/2004 8:43:10 PM] [Investortrader] OBV is heading lower and lower

[3/2/2004 8:43:40 PM] [Investortrader] It tried to put in a rally today and couldn't make the 50sma

## ClubHome

[3/2/2004 8:44:03 PM] [Investortrader] Fell back to close at the low of the day, never a good sign  
[3/2/2004 8:44:11 PM] [Investortrader] And under the 20sma also  
[3/2/2004 8:44:51 PM] [Investortrader] Looks lower to me  
[3/2/2004 8:45:18 PM] [Investortrader] Any questions on AMAT?  
[3/2/2004 8:45:44 PM] [ces] Thanks IT  
[3/2/2004 8:45:50 PM] [Investortrader] Welcome ces :)  
[3/2/2004 8:46:22 PM] [Investortrader] On to APCC ...  
[3/2/2004 8:48:04 PM] [Investortrader] One thing important I'd like to point out on this chart  
[3/2/2004 8:48:19 PM] [Investortrader] Back on 2/6 when it gapped down  
[3/2/2004 8:48:46 PM] [Investortrader] Then it tried to rally for the next 2 weeks almost, and the 50sma stopped it pretty cold  
[3/2/2004 8:49:27 PM] [Investortrader] IT did give plenty of chance to get out up there if you were in then ... always pay attention to the 50sma, especially the first attempt at it from either direction  
[3/2/2004 8:50:29 PM] [Investortrader] Now it's been trying to make a base here for over a week  
[3/2/2004 8:50:55 PM] [Investortrader] OBV doesn't look too bad for that scenario  
[3/2/2004 8:51:08 PM] [Investortrader] And it is rising nicely these last few days  
[3/2/2004 8:52:28 PM] [Investortrader] If I were looking to buy this one I'd watch for a BO on some volume  
[3/2/2004 8:52:39 PM] [Investortrader] Since it's had some very small trading ranges  
[3/2/2004 8:52:55 PM] [Investortrader] Not much is given up by waiting for it to prove itself by breaking out first  
[3/2/2004 8:54:06 PM] [caldoc] Hi IT, everyone. Just came in and been reading the prologue.  
[3/2/2004 8:54:16 PM] [Investortrader] Hi caldoc  
[3/2/2004 8:55:44 PM] [Investortrader] If you really want to be in this one  
[3/2/2004 8:56:32 PM] [Investortrader] Might try to pick up some at the bottom of these recent small ranges, and either use a tight stop to take you out if the base breaks, or a little looser one just under the gap down low  
[3/2/2004 8:56:46 PM] [Investortrader] The 2/6 gap down  
[3/2/2004 8:56:52 PM] [cobralso] I was hoping APCC would drop to about 1.00 =D  
[3/2/2004 8:57:04 PM] [Investortrader] :o  
[3/2/2004 8:57:28 PM] [Investortrader] And then add to that on a BO  
[3/2/2004 8:57:40 PM] [cobralso] I am short  
[3/2/2004 8:57:47 PM] [Investortrader] Hmmmm

## ClubHome

[3/2/2004 8:58:06 PM] [Investortrader] If I were short I would cover if it did BO from this area  
[3/2/2004 8:58:29 PM] [cobralso] TY I will  
[3/2/2004 8:58:56 PM] [Investortrader] It looks more positive than negative to me down here, that's why I was coming at it that way  
[3/2/2004 8:59:12 PM] [Investortrader] But not really by too much  
[3/2/2004 8:59:29 PM] [cobralso] That LBB looks good though  
[3/2/2004 8:59:45 PM] [Investortrader] Right down near the gap low  
[3/2/2004 9:00:11 PM] [cobralso] yes  
[3/2/2004 9:00:12 PM] [StanS] Looks like a failed LBBCBS?  
[3/2/2004 9:00:12 PM] [Investortrader] Notice also it's right in the area of the 12/10 swing low  
[3/2/2004 9:00:33 PM] [Investortrader] Hasn't failed yet Stan, but it sure hasn't broken out  
[3/2/2004 9:01:24 PM] [Investortrader] OBV has been rising during this sideways action  
[3/2/2004 9:01:35 PM] [Investortrader] That would worry me if I were short  
[3/2/2004 9:01:43 PM] [cobralso] Didn't notice that TY Stan s  
[3/2/2004 9:02:01 PM] [StanS] yw  
[3/2/2004 9:02:38 PM] [Investortrader] Any questions on APCC?  
[3/2/2004 9:03:10 PM] [cobralso] Good point IT may cover tomorrow  
[3/2/2004 9:03:19 PM] [caldoc] APCC. TSV 5 and TSV 15 are also ready to pop up through the 0 line. That would worry me too, cobra.  
[3/2/2004 9:04:19 PM] [Investortrader] Here is one instance, if it did drop down to where the lower BB is now, I would also cover at least half if not all  
[3/2/2004 9:04:28 PM] [Investortrader] Because there are lots of chart points around that area  
[3/2/2004 9:04:45 PM] [Investortrader] Can always try to get back in if it doesn't hold, but it looks like very good support there  
[3/2/2004 9:05:12 PM] [cobralso] OK  
[3/2/2004 9:06:08 PM] [Investortrader] Follow that 21.37 horizontal line all the way back to early Nov and see how many times right around there acted as support or resistance  
[3/2/2004 9:07:17 PM] [cobralso] Yes I see  
[3/2/2004 9:07:20 PM] [Investortrader] It was important all the way thru Nov and into Dec, then the 2/6 gap down day got stopped there also  
[3/2/2004 9:09:01 PM] [w2jc] The Hotto Running List of Stocks has been updated again this evening... fetch the new one from links in Hotto club / Reports (top of list)

[3/2/2004 9:09:22 PM] [cobralso] I was hoping it would fill that gap by now  
[3/2/2004 9:09:36 PM] [Investortrader] Thanks w2jc :)  
[3/2/2004 9:09:57 PM] [cobralso] TY w2jc  
[3/2/2004 9:10:08 PM] [w2jc] sorry to interupt here but wanted to catch everyone before they left !  
[3/2/2004 9:10:22 PM] [Investortrader] Never an interruption!  
[3/2/2004 9:11:27 PM] [Investortrader] If there are no more stocks I'll leave share on and you can watch me go thru a few scans and see what comes up of interest  
[3/2/2004 9:11:44 PM] [Aktony] IT, did you buy FNSR?  
[3/2/2004 9:11:44 PM] [cobralso] What do you think of ABP  
[3/2/2004 9:12:13 PM] [Investortrader] No Aktony, with the conference call scheduled for AH I decided to wait until it was over to see how it reacted to it  
[3/2/2004 9:12:35 PM] [caldoc] I bought FNSR. Also, IT, have an opinion on PRGX?  
[3/2/2004 9:12:40 PM] [w2jc] MAMA mia was astounding today... want to call a target for the pullback now ??  
[3/2/2004 9:12:57 PM] [Investortrader] Might pick it up tomorrow, it acted pretty well today in AH I thought  
[3/2/2004 9:13:34 PM] [Aktony] FNSR. What would be your buy target?  
[3/2/2004 9:13:54 PM] [cobralso] LBB  
[3/2/2004 9:14:01 PM] [Investortrader] It really depends on the price/volume action  
[3/2/2004 9:14:15 PM] [Investortrader] If it starts moving up tomorrow could buy it then  
[3/2/2004 9:14:23 PM] [Investortrader] At a bit higher prices  
[3/2/2004 9:14:56 PM] [Investortrader] If it drops without big volume, could buy it around the lower BB or a bit higher on a re-test of the recent lows  
[3/2/2004 9:15:08 PM] [Investortrader] I'm flexible here :)  
[3/2/2004 9:15:29 PM] [Aktony] Thx.  
[3/2/2004 9:15:32 PM] [Investortrader] I'm not looking for a good price, I'm looking for a good place to buy  
[3/2/2004 9:15:51 PM] [Investortrader] Welcome aktony :)  
[3/2/2004 9:15:57 PM] [Investortrader] ABP ...  
[3/2/2004 9:16:19 PM] [cobralso] Oil stock  
[3/2/2004 9:16:40 PM] [Investortrader] Lovely chart too, do you know if it's more gassy or more oily by any chance?  
[3/2/2004 9:17:19 PM] [cobralso] Gassy  
[3/2/2004 9:17:30 PM] [Investortrader] This ones been on a great run since early Dec  
[3/2/2004 9:17:38 PM] [cobralso] I think  
[3/2/2004 9:18:16 PM] [Investortrader] It rode the upper BB pretty well from then, then

## ClubHome

went parabolic on huge volume end of Jan

[3/2/2004 9:18:31 PM] [Investortrader] Whenever that happens in a stock it's time to start looking for your exit point

[3/2/2004 9:19:19 PM] [Investortrader] Don't sell, just watch and wait, wait for weakness as strength like that can last for days, so make sure you don't sell the first day

[3/2/2004 9:19:32 PM] [mstrader] Please comment on SGI if you have time. Thank you.

[3/2/2004 9:20:05 PM] [Investortrader] It's had a great looking base pattern building here since that run-up

[3/2/2004 9:20:29 PM] [Investortrader] And now the BB's are starting to pinch in

[3/2/2004 9:20:50 PM] [Investortrader] OBV has also remained healthy during this time

[3/2/2004 9:22:14 PM] [Investortrader] With the base being long enough, any BO here could be bought

[3/2/2004 9:22:44 PM] [Investortrader] 3 is the swing high in the middle of Feb

[3/2/2004 9:24:12 PM] [Investortrader] If it does pb some here I'd say I'd want it to hold the 2/24 lows

[3/2/2004 9:24:40 PM] [cobralso] I chickened out after the run up. Just bought bac

[3/2/2004 9:24:58 PM] [cobralso] back

[3/2/2004 9:26:10 PM] [cobralso] Hoping for a dubble top or?

[3/2/2004 9:26:18 PM] [Investortrader] There is some overhead resistance near with the LR30 and the upper BB converging

[3/2/2004 9:27:47 PM] [Investortrader] Actually it looks like it could meander more, which is why I was thinking wait for a BO to buy it

[3/2/2004 9:27:49 PM] [cobralso] I see

[3/2/2004 9:28:30 PM] [Investortrader] Any questions on ABP?

[3/2/2004 9:28:45 PM] [cobralso] TY IT

[3/2/2004 9:28:52 PM] [Investortrader] Welcome cobralso :)

[3/2/2004 9:29:23 PM] [Investortrader] On to PRGX ...

[3/2/2004 9:29:37 PM] [parkwaypet] Comments on MOBE IT if possible

[3/2/2004 9:31:19 PM] [Investortrader] Notice on this one how the OBV was signalling it would BO as it was on a steady rise during the last part of the base

[3/2/2004 9:32:22 PM] [Investortrader] Now it's had a nice BO on good volume

[3/2/2004 9:32:59 PM] [MarcoPolo] jdia

[3/2/2004 9:33:53 PM] [Investortrader] Probably get another day or two of consolidation, much like ACTT's chart

[3/2/2004 9:34:59 PM] [Investortrader] Before if moves up again

[3/2/2004 9:35:21 PM] [Investortrader] But it does look good  
[3/2/2004 9:35:29 PM] [Investortrader] Any questions on PRGX?  
[3/2/2004 9:36:47 PM] [Investortrader] On to MAMA for a stab at a pb prediction if I can find one ...  
[3/2/2004 9:37:19 PM] [cobralso] Well?  
[3/2/2004 9:37:33 PM] [George50] look at UPCS comments  
[3/2/2004 9:38:08 PM] [Investortrader] Think I'll pass on that one :)  
[3/2/2004 9:38:29 PM] [George50] ok  
[3/2/2004 9:38:46 PM] [w2jc] pass on mama?  
[3/2/2004 9:39:18 PM] [Investortrader] Sorry Jim, too much risk there for me  
[3/2/2004 9:39:37 PM] [w2jc] my suspicion is that it will pull back to around 8.50  
[3/2/2004 9:39:50 PM] [w2jc] it went up way too much too fast today !!  
[3/2/2004 9:40:13 PM] [Investortrader] I was looking at 8 and 7.50, but you didn't hear it from me ;)  
[3/2/2004 9:40:35 PM] [w2jc] there will be lots of sellers all the way back up  
[3/2/2004 9:40:55 PM] [Investortrader] I surely wouldn't be buying it here  
[3/2/2004 9:41:30 PM] [w2jc] tried to short it but that was rejected  
[3/2/2004 9:42:26 PM] [Investortrader] I was thinking probably can't find shares to short  
[3/2/2004 9:42:35 PM] [w2jc] y  
[3/2/2004 9:42:58 PM] [Investortrader] I leave these ones on fire to others usually, and stick with safer plays  
[3/2/2004 9:43:28 PM] [Investortrader] On to SGI ...  
[3/2/2004 9:44:03 PM] [Investortrader] This one doesn't look so hot to me  
[3/2/2004 9:44:52 PM] [Investortrader] The LR30 and the 20sma have been converged for awhile and the price is being held down by that resistance  
[3/2/2004 9:45:06 PM] [Investortrader] OBV is falling  
[3/2/2004 9:45:27 PM] [Investortrader] Been sideways recently but is lower here  
[3/2/2004 9:46:06 PM] [Investortrader] Notice how after the fast runup in early Jan ....  
[3/2/2004 9:46:40 PM] [Investortrader] When the price was sideways for a bit the OBV was rising  
[3/2/2004 9:47:20 PM] [Investortrader] But since the high on 2/12 OBV has been falling and is much lower here  
[3/2/2004 9:48:06 PM] [Investortrader] It really needs a big volume push up thru that resistance to fix that  
[3/2/2004 9:48:33 PM] [Investortrader] There should be better charts out there to trade  
[3/2/2004 9:48:58 PM] [Investortrader] Any questions on SGI?

[3/2/2004 9:50:34 PM] [cobralso] Did you hear about MDDM they are making electric bullets went from .05 to 1.20 in a few days May Test TASR

[3/2/2004 9:51:27 PM] [Investortrader] On to MOBE ...

[3/2/2004 9:51:48 PM] [Investortrader] Didn't hear that but too low priced for me

[3/2/2004 9:52:15 PM] [Investortrader] MOBE is much better looking than SGI

[3/2/2004 9:53:20 PM] [tickpick] Thanks IT, ...with your analysis, hotto's, and other club members,jmobe I think I'm catching on.....

[3/2/2004 9:53:43 PM] [Investortrader] Welcome tickpick :)

[3/2/2004 9:53:51 PM] [Investortrader] It's not an easy job, or everyone would be doing it!

[3/2/2004 9:54:26 PM] [Investortrader] After the gap down in early Jan, it made a rally attempt which failed at the 20sma

[3/2/2004 9:54:47 PM] [Investortrader] Notice at that time the OBV also was failing at it's 20sma

[3/2/2004 9:55:22 PM] [Investortrader] And just like a bounce off the 20sma leads to a test of the upper BB, a failure usually will lead to a test of the lower BB

[3/2/2004 9:56:07 PM] [Investortrader] Both price and OBV then rode the lower BB a bit

[3/2/2004 9:57:26 PM] [Investortrader] It reversed finally with a couple of good days, second day volume was nice on 2/6 with a nice big range for the day .. an all-clear signal

[3/2/2004 9:58:09 PM] [Investortrader] Especially with the 20sma holding for those next few days

[3/2/2004 9:59:08 PM] [Investortrader] See how much better this chart pattern is than SGI was

[3/2/2004 10:00:59 PM] [Investortrader] Any questions on MOBE?

[3/2/2004 10:01:06 PM] [parkwaypet] Thanks IT great analysis MOBE

[3/2/2004 10:01:12 PM] [Investortrader] Welcome parkwaypet :)

[3/2/2004 10:03:56 PM] [Investortrader] I'm going to look at a few scans, so if you're watching my shared chart, don't get dizzy as I go thru them! Maybe I'll spot something worthwhile

[3/2/2004 10:04:36 PM] [america] good. thanks it.:)

[3/2/2004 10:30:13 PM] [w2jc] hi Alan  
[3/2/2004 10:30:29 PM] [Investortrader] Those of you still in NGEN it's beginning to look good again  
[3/2/2004 10:31:01 PM] [AlanD] Hey got a statistic for you. Regarding your scans, set up to find just CT's in Wave 5. They have a statistical probability of being 96% correct.  
[3/2/2004 10:31:39 PM] [Aktony] Alan, what is a CT?  
[3/2/2004 10:31:53 PM] [AlanD] Contracting Triangle  
[3/2/2004 10:32:01 PM] [Aktony] Thanks.  
[3/2/2004 10:32:13 PM] [w2jc] hmmm.... never messed with finding just a specific pattern  
[3/2/2004 10:33:23 PM] [w2jc] i have noticed that when I do the BTR sorted index on my chart sets, the ones with super high btr probability are always wave3 impulse  
[3/2/2004 10:33:35 PM] [AlanD] You should try it. A DZ in wave 2 is 88% correct.  
[3/2/2004 10:33:49 PM] [Aktony] Hi Jim, thanks for all your wonderful work. Makes wandering through this labyrinth a little easier. ;)  
[3/2/2004 10:34:16 PM] [w2jc] yw tony... glad it's helpful  
[3/2/2004 10:34:33 PM] [AlanD] Really! Interesting. IM wave 3 are 57.5% accurate but a IM wave 5 is 98% accurate!  
[3/2/2004 10:45:36 PM] [Investortrader] Taking a break for a bit be back in a little while
