[1/12/2004 10:59:50 AM] [Borankin] Dragon, I didn't see anyone saying they couldn't afford \$25 a month.

[1/12/2004 10:59:53 AM] [nasdaqboy] KANA making nice move.

[1/12/2004 10:59:53 AM] [CashMan] hotto you really are not leaving anyone behind. They have all the logs from when you started up this club they can learn buy. By going back into the discussions and logs and pulling all the information from there like we all had to when we came on board. All the pcf's discussions etc. They can use that as a learning tool and then decide if they want to join your web site or not. :)

[1/12/2004 10:59:55 AM] [Pucker] If and when you get to a private room..your subscribers will pay for this service...you make alot of money for people..they can't afford not to subscribe

[1/12/2004 11:00:17 AM] [Kasa] sold mtlg to early

[1/12/2004 11:01:08 AM] [Investortrader] I think the "crap" is saying everyone has to join, or making anyone feel badly for not joining, no one knows everyone's story in here (I am a 2-yr charter member from November!)

[1/12/2004 11:01:14 AM] [DaveG] Hotto, finally got on web site and joined, hope to have a good and profitable relationship.

[1/12/2004 11:01:17 AM] [Dragon1] it's either you can't afford it or you don't think it's worth it, or you don't want it, now, identify what it is ...

[1/12/2004 11:13:04 AM] [LeelaHula] Just came in late hotto ... but I think there should be a private chat room (fwiw) ... my reasoning: People committed to your format, follow your methods. Non-committed jump back and forth ... don't learn your methods and blame you if they fail. I believe that is where your exposure potentially can come from .

[1/12/2004 4:48:18 PM] [Monaken] Capn, before you go to hotto's site I rec'd you spend a lot of time reading the discussions, files, logs in his club. That should give you some understanding of what he is offering/providing on his private subscription site

[1/12/2004 4:48:23 PM] [hotto] IllegalD.. just passing along... the worst thing I have seen this year.. was when Traders made huge profits with me in April to July... then Lost a lot of it next 3 months... looking for "better things"

[1/12/2004 4:48:24 PM] [CapnGreg] Done best on IRA - made 1750 on 40000 today. Used to do a lot of option trading when I was with SAPE. Had tons of SAPE options. Haven't stuck toe back in option water, but am considering it.

[1/12/2004 8:09:37 PM] [hotto] Logs for this.. will be in Hotto Club
[1/12/2004 8:11:10 PM] [hotto] We did it again..!.. After a fearful Friday... (FF)... we
held.. and had a nice IT Rally kind of day today
[1/12/2004 8:11:50 PM] [hotto] ie.. our SWGC.. continued working.. while DJIA just
acted as a nice Wave Pump
[1/12/2004 8:14:59 PM] [hotto] So... we got to use the DJIA as a Relative meas
device.. for the whole day...
[1/12/2004 8:15:30 PM] [hotto] while our SWGC (Stocks with Good Charts)...
continued working higher.. or not
[1/12/2004 8:16:20 PM] [hotto] And.. again.. ended the day with Breadth stronger
than DJIA.. our favorite condition..
[1/12/2004 8:16:43 PM] [hotto] And.. Dynamic Breadth divergence into Close....
[1/12/2004 8:17:30 PM] [hotto] Breadth outperformed Avgs... into close.. signalling
again.. New buyers coming in...Before the close
[1/12/2004 8:18:34 PM] [hotto] DJ-30 closed up +26.. just below sma10..

ClubHome

[1/12/2004 8:19:40 PM] [hotto] LOD was just below Friday's LOD.. good... we have evidence for a test of Friday's LOD.. After the early Up open... Then dip.... then Recovery

[1/12/2004 8:20:03 PM] [hotto] Volume slowed from Friday.. but was ok..

[1/12/2004 8:20:52 PM] [hotto] DIA... also recovered from a Lower Low... Closed over sma10..

[1/12/2004 8:21:33 PM] [hotto] I read that as new money coming in.. trying to Buy the Mkt..

[1/12/2004 8:22:18 PM] [hotto] SP-500.... was much stronger.. dipped to sma10.. rebounded to close...

[1/12/2004 8:22:58 PM] [hotto] Closed right on LR30 ... OBV still very good.

[1/12/2004 8:23:50 PM] [hotto] SPY... price was stronger than the cash (Cash means the SP-500 Index itself)

[1/12/2004 8:24:08 PM] [hotto] Volume was moderate.. a fine day

[1/12/2004 8:25:03 PM] [hotto] COMPQX.. new Closing High.. strong volume near UBB

[1/12/2004 8:26:05 PM] [hotto] QQQ even stronger.. retested Friday's HOD... and closed very near. ... Strong Volume

[1/12/2004 8:26:52 PM] [hotto] T2100.. another new Bull Mkt High.. bounced up off LR30.

[1/12/2004 8:27:28 PM] [hotto] T2106 turned up again..

[1/12/2004 8:27:57 PM] [hotto] so T2118.. continues up... IT Momentum..

[1/12/2004 8:28:21 PM] [hotto] Our IT Rally continues..

[1/12/2004 8:29:14 PM] [hotto] DJ-20... bounced back sharply... after that BDn Friday below sma20

[1/12/2004 8:29:33 PM] [hotto] closed today at sma10... just like DJ-30

[1/12/2004 8:29:55 PM] [hotto] We get to Trade the upside another day..

[1/12/2004 8:30:53 PM] [hotto] My guess is... after the Friday hit... and today's up open... then down below Friday LOD... then close Higher..

[1/12/2004 8:31:28 PM] [hotto] with new Pos Breadth.. That this rally can continue a couple more days

[1/12/2004 8:32:15 PM] [hotto] We have Options Exp... this Friday.. and Good Earnings and G+s coming in all around... Like our ELAB this morning...

[1/12/2004 8:32:55 PM] [hotto] WAs fortunate to get in at about 49 (on the gap up)..... ended near 50.5...

[1/12/2004 8:34:43 PM] [hotto] And... we still have the big DJIA target up there... 10673... to try for...

[1/12/2004 8:36:07 PM] [hotto] The folks who had Fear of Target.. last week.. and

ClubHome

stopped the DJIA just below 10600... are weaker now... have less stock to sell next time we test 10600..

[1/12/2004 8:37:12 PM] [hotto] This has been such a powerful market.. since March lows.. I can't think that we will end up "Stalling" just below the Real Thing.

[1/12/2004 8:37:36 PM] [hotto] Yet.. our job is to make \$\$\$ out of this.. not "be right"

[1/12/2004 8:38:10 PM] [hotto] So.. like Saturday... must be ready to consider both sides... Just read the numbers..

[1/12/2004 8:38:48 PM] [hotto] We correctly interpreted.. Friday's mkt.. as a Bad news dip... Interrupting a March to Target..

[1/12/2004 8:39:26 PM] [hotto] other factors..of course... a Friday... Lots wanted to get flat ahead of weekend..

[1/12/2004 8:39:54 PM] [hotto] and.. the Near test of our 2 point Top...

[1/12/2004 8:40:18 PM] [hotto] ie.. 10673 = early Y2002 IT top... and...

[1/12/2004 8:40:36 PM] [hotto] also.. very near the DT Line from Jan Y2000

[1/12/2004 8:41:40 PM] [hotto] so... Friday.. the Bad news... Unemployment Report... New jobs only 1K... started all those factors forcing DJIA down...

[1/12/2004 8:42:29 PM] [hotto] Remember.. we ended.. with a nice Pos divergence in Breadth.. helping us anticipate some upside today

[1/12/2004 8:43:10 PM] [hotto] TThen.. today's breadth.. and some energetic buying.. in Nanotechs.. and others...

[1/12/2004 8:43:36 PM] [hotto] early... led us to continue in our SWGC...

[1/12/2004 8:44:18 PM] [hotto] Now.. ready for another day.. in the wonderful IT Rally... into Earnings Season

[1/12/2004 8:45:28 PM] [hotto] some Sectors.. using Price Percent Change Today - 1 day..

[1/12/2004 8:45:42 PM] [hotto] #1 SOX--X.. Semis NH52

[1/12/2004 8:46:11 PM] [hotto] SMH.. also NH52..good pattern

[1/12/2004 11:35:09 PM] [StockStalker] Tada!!!! I bot Naturally speaking!

[1/12/2004 11:35:10 PM] [AlanD] LOL, no not yet. I have a choice of buying a house and cleaning a portion of the trading acct out or wait awhile. Doing the numbers makes more sense to utilize the cash for trading.

[1/12/2004 11:37:35 PM] [StockStalker] so dont pay more than 139 and if it is not there right now for that it will be by tomorrow

[1/12/2004 11:40:07 PM] [Luigistock] two nice plays though alan.. but kinda expect that from you:)

[1/12/2004 11:40:20 PM] [erisalaw] I do not know my number - really do not care. Just one of 711 (or more) tradcers who recognize Hotto's education value and prepaid for 2 years. It was only \$1.00 a day and I pay more commissions than that every time I trade. Go get them Hotto.

[1/12/2004 11:40:33 PM] [AlanD] Yes true. Well I will have to say that market conditions over the past 8 months made money for just about anyone.

[1/12/2004 11:41:08 PM] [AlanD] Remember the old days of using Monkeys to throw darts at the IBD?

[1/12/2004 11:41:12 PM] [StockStalker] heck of a lot less than ya pay me that for sure

[1/12/2004 11:41:26 PM] [StockStalker] but the two balance each other well
