[2/8/2004 4:55:35 PM] [Budamonk] so now what happens hotto what do we do with briefing.com?wait till you confirm and then we sign up?

[2/8/2004 4:55:56 PM] [TrilionDolarMan] My hard drive crashed on old machine (has been intermittent since then) on 1/16/04....around the time I was looking into HottoWorks...so that's why you haven't heard from me...just about back to speed...have to get over to your website again...and will ASAP. Have a good evening, and good trading!

[2/8/2004 4:56:18 PM] [hotto] yes Buda. I will tell you tomorrow.. afternoon.. Should be ok...

[2/8/2004 4:56:45 PM] [hotto] TDM - hard drive crash.... YIKES !

[2/8/2004 4:56:57 PM] [TrilionDolarMan] No data loss here..new machine in place -- old to be fixed under warranty -- more new ones coming...BUT...everyone outta look into external drive backup, in addition to selected files, etc. on CD, floppy, etc.

[2/8/2004 4:57:03 PM] [hotto] Glad you kept sane.. through that.

[2/8/2004 4:57:09 PM] [hotto] or ???

[2/8/2004 4:57:14 PM] [hotto] :D

[2/8/2004 4:58:16 PM] [gary12] TDM sane!!!!!! :D

[2/8/2004 4:58:27 PM] [hotto] I have 2 separate HDs in each computer.. backup.. weekly

[2/8/2004 4:59:36 PM] [TrillionDolarMan] Not really a crash..interesting experience. Had IBM notebook (top of line -- nice machine) since Dec. 2001. First "blue screen" crash was in Jan. 2002 -- may have had to do with Hewlett Packard software conflict....OR may have been bad drive sectors RIGHT OFF THE BAT.

[2/8/2004 5:00:14 PM] [TrillionDolarMan] Anyway...it was a tribute to the IBM drive that it worked nearly without flaw for 2 years from that point. And, up until I accidentally shut it off last night...it was still working.

[2/8/2004 5:01:06 PM] [TrillionDolarMan] But.....won't boot now....since some of the boot sectors of the drive are toasted...if I could get it to boot...it would run fine still. But, IBM will run out and replace the drive when I call -- they replace the display 3 weeks ago already...and I'll have half a new machine.

[2/8/2004 5:01:48 PM] [TrillionDolarMan] Good news is all data is on external HD....and new machine now...so, no problemo, save for the hassle, make that HASSLE in capitals, of CONFIGURING a new machine.

[2/8/2004 5:02:14 PM] [TrillionDolarMan] On site service a good idea unless you are "do it yourself" capable.

[2/8/2004 5:02:43 PM] [TrillionDolarMan] So, there we have it...again. "The world of I.T. according to TDM".

[2/8/2004 5:03:38 PM] [hotto] I was lucky... my #3 machine went down... was Power Supply.. and Mother board stuff...

[2/8/2004 5:03:55 PM] [hotto] Anything but my data.. no problem

[2/8/2004 5:09:58 PM] [Bobtrader] HOTTO AND TDM...HAVE YOU CONSIDERED A ..RAID DRIVE...INSTANT BACK UP
