[3/12/2004 10:04:37 AM] [sisterpractical] the tepidity of this "bounce" does not bode well IMHO

[3/12/2004 10:04:55 AM] [swan] bravo, not necessarilly, with terrorism risk over weekend

[3/12/2004 10:05:17 AM] [dagwood] ODSY has tried to move out of the gutter these last 3 down days.....now today it is not following the strength it has shown..can't get to yesterdays hig

[3/12/2004 10:05:50 AM] [dagwood] confirms why its in the gutter I guess

[3/12/2004 10:05:57 AM] [hotto] early Low yesterday was about 10230... Let's see if we can get there.

[3/12/2004 10:07:00 AM] [sisterpractical] but the lack of pb in the mornings wave 2 is bullish - at least for the mornig

[3/12/2004 10:07:08 AM] [payck] trin quite low, what do you make of that hotto?

[3/12/2004 10:07:56 AM] [hotto] TRIN low.. eager early morning buying - Into blue chips... big volume stocks

[3/12/2004 10:08:38 AM] [dagwood] hotto, the real "correction over" pivot needs to happen intraday does it not????

[3/12/2004 10:09:39 AM] [hotto] dagwood... Generally yes... BUT.. with terrorism "news" pushing things around... normal patterns can be different... Be alert...

[3/12/2004 10:10:14 AM] [bravotrader] I think we hit the bottom already. ARMS index was extremely high last 3 days, P/C is high etc (except for new as hotto said)

[3/12/2004 10:10:30 AM] [dagwood] trying to be..... but appreciate your MACRO view ... ty

[3/12/2004 10:11:53 AM] [hotto] ARMS - I have seen it get over 3.. even 4.. at times.. After months of no correction.. may be all kinds of crazy numbers.. to see...

[3/12/2004 10:12:28 AM] [hotto] CPN.. the good news... Bankruptcy is averted... again..

[3/12/2004 10:16:13 AM] [dagwood] INTC sputtering.....27.40 needs to hold ,, MKT has to have leaders

[3/12/2004 2:40:39 PM] [SeattleScott] If we are in calls we will lose too much time value holding over into expiration week... Is that correct?  
[3/12/2004 2:41:30 PM] [hotto] yes Scott.. The only way it pays off.. Is if we get that Snap back rally on Monday..  
[3/12/2004 2:42:13 PM] [hotto] There are uncorrected chart points now.. up about 10365 - 10375... could happen Monday Tuesday..  
[3/12/2004 2:42:33 PM] [Mickaz] Hotto, I notice you are short DIA but talking snapback on Monday...is it just a scalp?  
[3/12/2004 2:43:30 PM] [SeattleScott] ty  
[3/12/2004 2:43:49 PM] [Pookie] hotto not to go over board on this but our Oex put ...i classify as terrorist..insurance ... from as you said if it expires at no value..you dont care...I wish I had a broker / advisor that had this perception in years back...I treat it as home owners insurance on the stock market....)  
[3/12/2004 2:44:49 PM] [hotto] I am Short DIA about a point over yesterday's LOD.. We usually get a retest of lows.. in about 4 days.. that would be next Wed Thurs..  
[3/12/2004 2:45:42 PM] [hotto] Meanwhile.. now Long some OEX CALLs.. on the idea.. No terrorist incidents over weekend..

[3/12/2004 2:48:50 PM] [hotto] PT.. It could happen... here....  
[3/12/2004 2:49:17 PM] [bravotrader] I will not be surprised with DJIA +150 and NAZ +40 today. But the volume is patetic  
[3/12/2004 2:49:27 PM] [hotto] 1. DJIA closes strong today... with strong Breadth.. AND TRansports already in Pos Divergence yesterday...  
[3/12/2004 2:49:28 PM] [ProfitTrader] Hotto, it needs to pop open 66+ (OEX 2.5-3 +) for ATM calls to have same value at open.  
[3/12/2004 2:50:10 PM] [hotto] 2. Asian mkts.. have sold off big last few days... Could surge Monday.. if no terrorist event  
[3/12/2004 2:50:25 PM] [hotto] 3. Germany.. would follow big  
[3/12/2004 2:50:46 PM] [hotto] that would set us up for a Pop at open..

[3/12/2004 3:12:44 PM] [hotto] figure it about 19 / 1... on DJIA... ie approx.. 5.5 pts OEX per 100 pts DJIA move..

[3/12/2004 3:12:48 PM] [Nitabug] So true.. SisterPrac

[3/12/2004 3:12:53 PM] [starrbucks] usually a deposit of 30% of strike price or \$10,000 must be maintained as a maintance cost in my account

[3/12/2004 3:13:12 PM] [hotto] you need 17 pts to get to 565.. ie 300 DJIA points.

[3/12/2004 3:13:34 PM] [hotto] I see +170 pts possible by Tuesday..

[3/12/2004 3:13:48 PM] [hotto] so.. 565 is too far away..

[3/12/2004 3:14:14 PM] [hotto] That may be a good lottery ticket if my retest pattern plays out next week..

[3/12/2004 3:14:15 PM] [nemsca] ty

[3/12/2004 3:14:54 PM] [hotto] But.. using maybe 555s on Wed.. for pennies... VERY risky !

[3/12/2004 3:16:04 PM] [hotto] Also.. If we get that Snap-back to 10370... these Puts I sold at 9.10 a while ago.. will be about .50...

[3/12/2004 3:16:04 PM] [TrillionDolarMan] hotto....on LOTTO?

[3/12/2004 3:18:32 PM] [bravotrader] CEs dissapointing (big ones anyway, considering that they are oversold

[3/12/2004 3:18:35 PM] [hotto] Thanks to the Terriffic new Volatility over last week.. there is a Volatility play both ways next week.. can't help it.. BUT must be on the right side.. keep it small - Likely to lose all if on wrong side

[3/12/2004 3:19:02 PM] [turningpoint] straddle?

[3/12/2004 3:19:58 PM] [hotto] bravo.. that suggests it is too soon.. The next week.. is about the "bigs" running the market up and down.. to take away Options money from us all...

[3/12/2004 3:20:42 PM] [hotto] straddle.. may be appropriate by next Wed... Right now Preams are too high.

[3/12/2004 3:21:39 PM] [hotto] Remember.. Options prems are likely to drop 20% between now and Monday..

[3/12/2004 3:23:04 PM] [Lindahg] If option prems drop between now and monday that is wonderful if you sell naked. You can do it in both Mr. Stock and IB with just a small amount of money have been doing it for 5 years. now.

[3/12/2004 3:23:39 PM] [Barnabus] AFCI getting into gap

[3/12/2004 3:23:56 PM] [hotto] +103.. 10231.. again..
